---

*These reporting guidelines were created following the Governmental Accounting Standards Board's, the Office of Management and Budget's, and the AICPA's authoritative literature and from applicable practice aids. They include illustrative examples of financial statements, disclosures, and schedules, as well as the auditors' report. The examples are neither authoritative nor are they required to be followed. Instead, they provide sample displays and disclosures to help ensure consistent and accurate presentation.*

*When these guidelines are used by District management, management agrees to take responsibility for the preparation and fair presentation of the District's basic financial statements, related note disclosures, and all accompanying information, including required supplementary information (RSI) and supplementary information other than RSI, and other required disclosures. District management should ensure that its reports follow applicable authoritative guidance.*

\_\_\_\_\_ School District No. \_\_\_\_

## Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information<sup>1</sup> of \_\_\_\_\_ School District No. \_\_\_\_ as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. (We did not audit the financial statements of the [***identify component unit, fund, organization, function, or activity***], which represent \_\_\_\_ percent, \_\_\_\_ percent, and \_\_\_\_ percent, respectively, of the assets, [net position or fund balance], and revenues of the [***identify opinion unit(s)***].<sup>2</sup> Those financial statements were audited by other auditors whose report(s) has (have) been furnished to us, and our opinion(s), insofar as it (they) relate(s) to the amounts included for [***identify component unit, fund, organization, function, or activity***], is (are) based solely on the report(s) of the other auditors.) We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. ***Add the following sentence when a portion of the District was not audited in accordance with Government Auditing Standards.*** The financial

<sup>1</sup> The introductory and opinion paragraphs should list only the opinion units presented in the basic financial statements. Normally, the aggregate discretely presented component units and the aggregate remaining fund information are treated as separate opinion units. If either of these two opinion units are not quantitatively or qualitatively material to the primary government and the auditor has chosen to combine the two into a single opinion unit, this sentence would change to the following: "governmental activities, business-type activities, each major fund, and aggregate discretely presented component unit(s) and remaining fund information."

<sup>2</sup> Appropriate changes to this sentence should be made when an entire opinion unit is audited by another auditor. For example, "We did not audit the financial statements of the \_\_\_\_\_ Fund, which is both a major fund and \_\_\_\_\_ percent and \_\_\_\_\_ percent, respectively, of the assets, net position, and revenues of the \_\_\_\_\_ activities." However, the report still should indicate in the "Auditors' Responsibility" section the group auditors' responsibility for auditing that opinion unit. The group auditor should also express or disclaim an opinion in the "Opinion" section of the report. For further discussion and guidance see the AICPA *Codification of Statements on Auditing Standards*, AU-C §600, *Special Considerations-Audits of Group Financial Statements (Including the Work of Component Auditors)*.

## Independent Auditors' Report

statements of the *(name of the portion of the entity, such as the name of the component unit or fund, and if it is not evident from the financial statements, the opinion unit to which the component unit or fund relates)* were not audited by the other auditors in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, (based on our audit and the report(s) of the other auditors), the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of \_\_\_\_\_ School District No. \_\_ as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

### **Emphasis of Matter**

*(Add an emphasis of matter paragraph for consistency here if the District implemented new GASB accounting standards during fiscal year 2013 and the implementation of the new standard(s) had a material effect on the District's financial statements/disclosures (i.e., GASB 60, Accounting and Financial Reporting for Service Concession Arrangements; GASB 61, The Financial Reporting Entity: Omnibus; GASB 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements; and GASB 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.)*

### **Other Matters**

#### *Required Supplementary Information*

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis on pages \_\_\_\_ through \_\_\_\_ and the Budgetary Comparison Schedules on pages \_\_\_\_ through \_\_\_\_ be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is

## Independent Auditors' Report

required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We (and the other auditors)<sup>1</sup> have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Add the following two paragraphs if the District includes a Schedule of Expenditures of Federal Awards with its financial statements.***

### *Supplementary Information—Schedule of Expenditures of Federal Awards*

Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, (based on our audit, the procedures performed as described above, and the report(s) of the other auditors,)<sup>2</sup> the Schedule of Expenditures of Federal Awards is fairly stated in all material respects, in relation to the basic financial statements as a whole.

***Add the following three paragraphs if the District issues a Comprehensive Annual Financial Report (CAFR).***

### *Supplementary and Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements and schedules and the introductory and

statistical sections listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, (based on our audit, the procedures performed as described above, and the report(s) of the other auditors,)<sup>1</sup> the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated [*date of report*] on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**OR**

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## Management's Discussion and Analysis (MD&A)

***This should be printed on the District's letterhead or otherwise clearly noted that it is the District's document. The District's MD&A must comply with the provisions of GASB Statement No. 34, but cannot go beyond those provisions. Refer to GASB Statement No. 34, ¶¶8-11 and GASB Statement No. 37, ¶4.***

Our discussion and analysis of the District's financial performance provides an overview of the District's financial activities for the year ended June 30, 2013. \_\_\_\_\_ School District No. \_\_\_\_\_ in 2013

### **Using This Annual Report—**

***Explain the reporting model—including how the statements relate to one another and the significant differences between them. Describe how the information in the fund financial statements reinforces the information in the government-wide statements, or at least provides additional information.***

### **Overall Analysis—**

***Discuss the District's current-year results in comparison with the prior year, emphasizing the current year. Explain the District's overall financial position from the Statement of Net Position and results of operations from the Statement of Activities in a way that assists users in assessing whether conditions are better or worse than the previous year and why. The focus of the analysis should be on the primary government, addressing both governmental and business-type activities, as applicable. If a component unit must be discussed, be sure the readers know that the focus of the discussion has shifted. Also, when appropriate, the District's MD&A should refer readers to the component unit's separately issued financial statements.***

***The analysis must provide the reasons for significant changes rather than simply the amounts or percentages of changes. The analysis should also take into account any important economic factors that significantly affected the District's operating results during the year. Use graphics where appropriate. Also, where appropriate, incorporate the required elements listed in the next section. Further, explain any restrictions, commitments, or other limitations that significantly affect the future use of resources.***

### **Required elements—**

***The District should present the information needed to support the preceding analysis. Accordingly, MD&A must include condensed financial information derived from the government-wide financial statements comparing the current year to the prior year and must include the following elements:***

- ***Total assets, distinguishing between capital and other assets***
- ***Total deferred outflows of resources***

- **Total liabilities, distinguishing between long-term liabilities and other liabilities**
- **Total deferred inflows of resources**
- **Total net position, distinguishing among net investment in capital assets, restricted amounts, and unrestricted amounts**
- **Program revenues, by major source**
- **General revenues, by major source**
- **Total revenues**
- **Program expenses, at a minimum by function**
- **Total expenses**
- **Excess (deficiency) before contributions to term and permanent endowments or permanent fund principal, special and extraordinary items, and transfers**
- **Contributions**
- **Special and extraordinary items**
- **Transfers**
- **Change in net position**
- **Ending net position**

#### **Fund Analysis—**

***Discuss individual funds' balances and transactions. Explain the reasons for any significant changes in fund balances or fund net position. Also, explain any restrictions, commitments, or other limitations that significantly affect the future use of fund resources.***

#### **Budget Variations Analysis—**

***If appropriate, and for the general fund only, discuss significant variations between the original and final budget, and between the final budget and the actual amounts. Make a particular point of addressing any variations that could have a significant effect on future services or liquidity.***

#### **Capital Asset and Debt Administration—**

***Describe significant capital asset and long-term debt activity, including commitments for capital expenditures. Also, discuss any changes in the District's credit ratings and debt limitations that may affect its ability to finance its plans.***

#### **Other Significant Matters—**

***Comment on any facts, decisions, or conditions known by the end of the auditors' fieldwork that could significantly impact the District's financial position or results of operations. Examples of these types of situations include acceptance or termination of major grant awards, claims adjudicated, natural disasters, significant changes in tax rates, pollution remediation obligations, etc. These matters should include situations that occurred during the year and up through the auditors' opinion date and include only known facts, decisions, and conditions.***

Fund balances—total governmental funds

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Some receivables are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

Internal service funds are used by management to charge the costs of certain activities, such as insurance, equipment maintenance, and telecommunications, to individual funds. **Modify as appropriate.** The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. **Modify as appropriate.**

Some liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.

Net change in fund balances—total governmental funds

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay  
Depreciation expense

\_\_\_\_\_

In the Statement of Activities, only the gain/loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of capital assets sold.

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. **OR** Collections of revenues in the governmental funds exceeded revenues reported in the Statement of Activities.

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Debt issued or incurred  
Principal repaid

\_\_\_\_\_

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.

(Increase **or** Decrease) in compensated absences  
(Increase **or** Decrease) in claims and judgments

\_\_\_\_\_

Some cash outlays, such as purchases of inventories, are reported as expenditures in the governmental funds when purchased. In the Statement of Activities, however, they are reported as expenses when consumed.

(Increase **or** Decrease) in inventories  
(Increase **or** Decrease) in prepaids

\_\_\_\_\_

Internal service funds are used by management to charge the costs of certain activities, such as insurance, warehousing, and data processing, to individual funds.

**Modify as appropriate.** The net revenue (expense) of certain internal service funds is reported with governmental activities in the Statement of Activities. **Modify as appropriate.**

Notes to Financial Statements  
June 30, 2013

**Note to preparers: In GASB Statement No. 38, the GASB emphasized that disclosure of immaterial information can be misleading and cited the following guidance in paragraph 6 of NCGA Interpretation 6:**

***The notes to financial statements should not be cluttered with unnecessary and immaterial disclosures. Attendant circumstances and materiality must be considered in assessing the propriety of the notes to the financial statements disclosures.***

***The 2012 GAAFR also emphasizes the importance of including only material disclosures and discourages negative disclosures such as “there are no subsequent events to report.” See the GAAFR, pg. 346 for more information.***

**Note 1 Summary of Significant Accounting Policies**

The accounting policies of \_\_\_\_\_ School District No. \_\_\_\_\_ conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

***Add the following paragraph if implementation of GASB Statement Nos. 60 through 63 had a material effect on the District’s financial statements. GASB Statement No. 60 applies to very specific accounting and reporting matters and will only apply to a very limited number of governmental entities.***

For the year ended June 30, 2013, the District implemented the provisions of GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*; GASB Statement No. 61, *The Financial Reporting Entity: Omnibus, an amendment GASB Statements No. 14 and No. 34*; GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*; and GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. GASB Statement No. 60 improves consistency in financial reporting for service concession arrangements. GASB Statement No. 61 modifies existing requirements for determining which component units should be included in the financial reporting entity and the related display and disclosure requirements. GASB Statement No. 62 incorporates certain accounting and financial reporting guidance in FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins into GASB’s authoritative literature. GASB Statement No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures.

**A. Reporting Entity**

The District is a special-purpose government that is governed by a separately elected governing body. It is legally separate from and fiscally independent of other state and local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District’s financial statements present only the activities of those organizational entities for which its elected

\_\_\_\_\_ School District No. \_\_\_\_\_  
**Notes to Financial Statements**  
**June 30, 2013**

governing board is financially accountable. ***If the District's reporting entity includes a charter school or discretely presented component unit, modify as appropriate.***

***See GASB Statement Nos. 14, 34, 39, and 61 for additional required disclosures concerning component units, related organizations, joint ventures, and jointly governed organizations.***

## **B. Basis of Presentation**

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

**Government-wide statements**—Provide information about the primary government (the District) (and its component units). The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the District (and between the District and its discretely presented component units). Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties. ***Modify as appropriate for business-type activities.***

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses to programs or functions. ***Modify as appropriate.*** Program revenues include:

- charges to customers for goods, services, or privileges provided;
- operating grants and contributions; and
- capital grants and contributions.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double-counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

**Fund financial statements**—Provide information about the District's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are

\_\_\_\_\_ School District No. \_\_\_\_\_  
**Notes to Financial Statements**  
**June 30, 2013**

aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as charges for services **modify as appropriate and describe any other examples of significant operating revenues of the proprietary funds**, in which each party receives and gives up essentially equal values, are operating revenues. Other revenues result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues generated by ancillary activities. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered to be nonoperating expenses. **Modify as appropriate in accordance with GASB Statement No. 34, ¶102.**

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources used for maintenance and operation, except those required to be accounted for and reported in another fund.

The \_\_\_\_\_ *Fund* accounts for **explain fund's purpose. Also, for each major special revenue fund, identify the significant revenues and other financing sources of the fund as required by GASB Statement No. 54, ¶32. Repeat for each major governmental fund.**

The District reports the following major enterprise funds:

The \_\_\_\_\_ *Fund* accounts for **explain fund's purpose. Repeat for each major enterprise fund.**

The District reports the following fund types:

The *internal service funds* account for multi-government agreements and insurance **modify as appropriate and describe any other goods or services applicable to the District's internal service funds** provided within the District or to other governments on a cost-reimbursement basis.

The *agency funds* account for assets the District holds as an agent for the students. It consists of only the Student Activities Fund, which accounts for monies raised by students to finance student clubs and organizations but held by the District.

### **C. Basis of Accounting**

The government-wide and proprietary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The agency funds are custodial in nature and do not have a measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized

\_\_\_\_\_ School District No. \_\_\_\_\_  
**Notes to Financial Statements**  
**June 30, 2013**

as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The District's major revenue sources that are susceptible to accrual are property taxes, tuition, intergovernmental grants and aids, and investment earnings. **Add or delete major revenue sources that are susceptible to accrual from this list, as necessary.** Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, and pollution remediation obligations, which are recognized as expenditures to the extent they are due and payable. **Add or delete expenditures that are only recognized as expenditures to the extent they are due and payable, as necessary.** General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there is both restricted and unrestricted resources available to finance the program. The District applies grant resources to such programs before using general revenues. **Modify if the District's policy is to apply unrestricted revenues first. This policy should be consistent with the flow assumption used for single audit purposes.**

#### **D. Cash and Investments**

**Add the following paragraph to define cash and cash equivalents of the proprietary funds.**

For purposes of its statement of cash flows, the District considers cash on hand, demand deposits, cash on deposit with the County Treasurer, and only those highly liquid investments with a maturity of 3 months or less when purchased to be cash equivalents. **Modify as appropriate.**

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest-earning investment contracts with a remaining maturity of 1 year or less at the time of purchase are stated at amortized cost. All (other) investments are stated at fair value. **Modify the disclosure as necessary to describe the District's policy for valuing investments. Also, describe the methods and significant assumptions used to estimate fair value if it is based on other than quoted market prices.**

**If investments are negotiable or transferable, causing their value to be affected by changes in the market or interest rates, the District should report those investments at fair value. However, if investments are not negotiable or transferable, and therefore not affected by changes in the market or interest**

\_\_\_\_\_ School District No. \_\_\_\_\_  
Notes to Financial Statements  
June 30, 2013

***rates, the District should report those investments at amortized cost. Further, if those same investments are money market investments or interest-earning contracts that were purchased within 1 year of their maturity, the District may report them at amortized cost.***

**E. Inventories**

The District accounts for its inventories in the governmental funds using the purchase method. Inventories of the governmental funds consist of supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to indicate that they do not constitute "available spendable resources." These inventories are stated at cost using the ***describe method of valuation. When the consumption method is used to account for inventories of the governmental funds, the above paragraph should be modified accordingly.***

Inventories in the government-wide and proprietary funds' financial statements are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the ***describe method of valuation*** and ***describe method of valuation***, respectively.

**F. Property Tax Calendar**

The \_\_\_\_\_ County Treasurer is responsible for collecting property taxes for all governmental entities within the County. The County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

**G. Capital Assets**

Capital assets are reported at actual cost (, or estimated historical cost if historical records are not available). Donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	<b>Capitalization Threshold</b>
Land

**June 30, 2013**

	<b>Capitalization Threshold</b>	<b>Depreciation Method</b>	<b>Estimated Useful Life</b>

Buildings

**H. Fund Balance Classifications**

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations approved by the District's Governing Board, which is the highest level of decision-making authority within the District. Only the Governing Board can remove or change the constraints placed on committed fund balances. ***Modify as necessary to describe the formal action needed to establish, modify, or rescind the commitment.***

Assigned fund balances are resources constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The Governing Board has authorized the superintendent, \_\_\_\_\_, and \_\_\_\_\_, to make assignments of resources for a specific purpose. ***Modify as necessary to describe the officials authorized to make assignments and the policy pursuant to which authorization is given.***

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the District's policy to use (the District will use) restricted fund balance first. For the disbursement of unrestricted fund balances, it is the District's policy to use (the District will use) committed amounts first, followed by assigned amounts, and lastly unassigned amounts. ***Modify as necessary to describe the District's hierarchy for use of its fund balances. If the District does not have a formal policy for its use of unrestricted fund balance amounts, it should consider that committed amounts would be reduced first, followed by assigned***

\_\_\_\_\_ School District No. \_\_\_\_\_  
Notes to Financial Statements  
June 30, 2013

***amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.***

**I. Investment Earnings**

Investment earnings is composed of interest, dividends, and net changes in the fair value of applicable investments.

**J. Compensated Absences *Modify as appropriate.***

Compensated absences payable consists of vacation leave earned by employees based on services already rendered.

Employees may accumulate up to \_\_\_ hours of vacation depending on years of service, but any vacation hours in excess of the maximum amount that are unused at (fiscal/calendar) year-end are forfeited. Upon terminating employment, all unused and unforfeited vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the government-wide and proprietary funds' financial statements. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal year end. ***Modify as necessary.***

Employees may accumulate an unlimited number of sick leave hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but are forfeited upon terminating employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements.

**Note \_ - Reconciliations of Certain Information in Governmental Fund Statements to Information in Government-wide Statements**

***If aggregated information presented in the reconciliations of the government-wide financial statements to the fund financial statements obscures the nature of the individual elements of a particular reconciling item, provide details about those reconciling items here. See GASB Statement No. 34, ¶77.***

**Note \_ - Stewardship, Compliance, and Accountability**

***Violations of finance-related legal and contractual provisions—Disclose any significant violations of finance-related legal and contractual provisions (for example, violations of bond covenants) as required by GASB Cod. §1200. Also, disclose actions taken to address such violations as required by GASB Statement No. 38, ¶9.***

***Disclose deficit fund balance or net position of individual nonmajor funds since it cannot be seen in the aggregated nonmajor funds column. See GASB Cod. §2300.106.***

***Deficit fund balances or net position—At June 30, 2013, the following nonmajor funds reported deficits in fund balances or net position, which violate state statutes. Include this paragraph only if the deficits violate statutes.***

\_\_\_\_\_ School District No. \_\_\_\_\_  
Notes to Financial Statements  
June 30, 2013

<b>Fund</b>	<b>Deficit</b>
Governmental funds: <i>List individual funds</i>	
Proprietary funds: <i>List individual funds</i>	

***Also, describe actions planned to eliminate the deficits.***

**Note \_ - Deposits and Investments**

***The required GASB risk disclosures for deposits and investments should be made for the primary government, including its blended component units. Risk disclosures should also be made for the governmental and business-type activities, individual major funds, nonmajor funds in the aggregate, or fiduciary fund types when the risk exposures are significantly greater than the deposit and investment risks of the primary government. For example, a primary government's total investments may not be exposed to concentration of credit risk. However, if the District has all of its investments in one issuer for an opinion unit, disclosure should be made for the opinion unit's exposure to a concentration of credit risk.***

Arizona Revised Statutes require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash in the Bond Building and Debt Service Funds, which may be invested separately. As required by statute, interest earned by the Bond Building Fund in the amount of \$\_\_\_\_\_ was recorded in the Debt Service Fund. ***Delete preceding sentence if the voters authorized or federal laws or rules required such interest earnings to be recorded in the Bond Building Fund. Voter authorization must have been given in a separate question at the bond election.***

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits of Bond Building and Debt Service Funds monies in interest bearing savings accounts and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

**Investments**—The District’s investments at June 30, 2013, were as follows:

***Investments with significantly different risk profiles should not be aggregated into a single investment type for all investment disclosures, as applicable. See question 1.3.2 in the GASB Comprehensive Implementation Guide—2012-2013.***

***Disclose the credit quality ratings of investments in debt securities as described by nationally recognized statistical rating agencies as of June 30, 2013, by aggregating investment amounts by investment type and rating categories. When multiple ratings exist and the district is aware of the different ratings, the rating with the greatest degree of risk should be presented. Obligations of the U.S. government and obligations explicitly guaranteed by the U.S. government do not require disclosure of credit risk. However, obligations of U.S. government-sponsored enterprises that are implicitly guaranteed by the U.S. government are subject to credit risk disclosures. See question 1.9.7 in the GASB Comprehensive Implementation Guide—2012-2013 for more information. If credit risk disclosure is required and the investment is unrated, the disclosure should indicate that fact. See Illustrations 1–4 in GASB Statement No. 40 for additional examples of required disclosures.***

***Custodial credit risk***—For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the District will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. ***Briefly describe the District's formal investment policy with respect to custodial credit risk or indicate that it does not have one. **Note \_ - Restricted Assets**

*If the nature and purpose of restricted assets is obscured by aggregation or otherwise not sufficiently explained in the financial statements, provide that information here.*

**Note \_ - Derivatives**

*Common types of derivative instruments used by governments include interest rate and commodity swaps, interest rate locks, options (caps, floors, and collars), swaptions, forward contracts, and futures contracts. GASB Statement No. 53 specifies the disclosure requirements for derivative instruments. The disclosure should include a summary of the District's derivative instrument activity during the fiscal year and balances at year end, ¶69. Additional disclosures are required for hedging derivative instruments, ¶¶70-75; investment derivative instruments, ¶76; contingency features, ¶77; hybrid instruments, ¶78; and synthetic guaranteed investment contracts, ¶79. Place disclosure in the assets, deferred outflows of resources, liabilities, and/or deferred inflows of resources, sections, as appropriate.*

**Note \_ - Short-Term Liabilities**

*Payables—If the District had significant individual payable accounts whose nature is obscured by aggregation, provide details about those accounts here. See GASB Statement No. 38, ¶13.*

*Short-term debt—If the District had short-term debt activity (e.g. lines of credit) during the year, even if no short-term debt is outstanding at year end, the District should explain why the debt was issued and present a schedule of changes that discloses beginning and ending balances as well as increases and decreases. See GASB Statement No. 38, ¶12.*

**Bonds**—The District’s bonded debt consists of various issues of general obligation bonds that are generally callable (noncallable) with interest payable semiannually (annually). Bond proceeds primarily pay for acquiring or constructing capital facilities. Bonds have also been issued to advance-refund previously issued bonds. The District repays general obligation bonds from voter-approved property taxes. During the year, the District issued general obligation bonds totaling \$\_\_\_\_\_ to **describe the purpose**. **Modify as appropriate.**

***See GASB Statement No. 48, ¶21 for more information regarding the disclosure requirements for pledged revenue. Also, see Appendix D, Examples 1-3 in GASB Statement No. 48 for examples of required disclosures.***

During the year ended June 30, 2013, the District issued general obligation bonds, with an average interest rate of \_\_\_ percent, to advance-refund older, higher-rate issues, with an average interest rate of \_\_\_ percent. The District realized net proceeds of \$ \_\_\_\_\_ after payment of \$ \_\_\_\_\_ in underwriting fees, insurance, and other issuance costs, plus \$ \_\_\_\_\_ of \_\_\_\_\_ sinking fund monies. These proceeds were used to purchase securities that were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. The refunded

debt is considered defeased, and related liabilities are not included in the District's financial statements. Details of the refunding transactions are as follows:

	<u>Bond Category</u>
Amount of refunding bonds issued	
Amount of bonds refunded	
Reduction in debt service payments	
Economic gain(loss)	

***Complete the above schedule and applicable portions of the preceding paragraph for the fiscal year in which a bond refunding occurs.***

***In all periods following an advance refunding for which bonds defeased in substance remain outstanding, the amount of those bonds, if any, outstanding at fiscal year end should be disclosed in the following paragraph.***

In prior years, the District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for these defeased bonds are not included in the District's financial statements. At June 30, 2013, the following outstanding bonds were considered defeased:

<b>Description</b>	<b>Amount (Principal balance of defeased bonds outstanding at June 30, 2013)</b>
<i>List types of bonds</i>	

***If the refunded (old) debt is variable-rate debt, it cannot be considered defeased because of the uncertainty of the future debt service requirements. It is possible to defease old fixed-rate debt with new variable-rate debt, but additional disclosures should be made. See footnote 4 of GASB Statement No. 7 for additional details.***

**Capital leases**—The District has acquired ***describe assets by major classes*** under the provisions of various long-term lease agreements classified as capital leases for accounting purposes because they provide for a bargain purchase option or a transfer of ownership by the end of the lease term. ***Modify accordingly.***

**Insurance claims**—The *name of the self-insurance fund* (an Internal Service Fund) accounts for the financing of the uninsured risk of loss for certain health benefits (comprehensive, major medical, dental) to eligible employees and their dependents. Under this program, the Fund provides coverage for up to a maximum of \$\_\_\_\_\_ for each claim, not to exceed an annual aggregate of \$\_\_\_\_\_. The Fund purchases commercial insurance for claims in excess of this coverage. Settled claims did not exceed this commercial insurance coverage in any of the past 3 fiscal years. **Modify as appropriate.**

The insurance claims payable liability of the Fund totaling \$\_\_\_\_\_ at June 30, 2013, is the estimated ultimate cost of settling claims that have been reported but not settled and claims that have been incurred but not reported. This estimate is based on actuarial estimates **or describe methodology**. Changes in the Fund's claims payable for the years ended June 30, 2012 and 2013, were as follows:

**Compensated absences and claims and judgments**—Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. Claims and judgments are generally paid from the fund that accounts for the activity that gave rise to the claim. During fiscal year 2013, the District paid for compensated absences as follows: \_\_\_ percent from the General Fund, \_\_\_ percent from major funds, and \_\_\_ percent from other funds. The District paid for claims and judgments as follows: \_\_\_ percent from the General Fund and \_\_\_ percent from the \_\_\_\_\_ Fund. **Modify as appropriate.**

**Note \_ - Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for all such risks of loss, including workers' compensation and employees' health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past 3 fiscal years. **Modify as appropriate.**

**Note \_ - Operating Leases**

The District leases **describe assets by major classes** under the provisions of various long-term lease agreements classified as operating leases for accounting purposes. Rental expenditures under the terms of the operating leases were \$\_\_\_\_\_ for the year ended June 30, 2013. The operating leases have remaining noncancelable terms of \_\_\_ years (from \_\_\_ to \_\_\_ years) and provide renewal options. The future minimum payments required under the operating leases at June 30, 2013, were as follows:

**Note \_ - Pensions and Other Postemployment Benefits**

**Plan descriptions**—The District contributes to a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit plan; and a cost-sharing, multiple-employer defined benefit long-term disability plan, all of which are administered by the *Arizona State Retirement System* (ASRS). The ASRS (through its Retirement Fund) provides retirement (i.e., pension), death, and survivor benefits; the Health Benefit Supplement Fund provides health insurance premium benefits (i.e., a monthly subsidy); and the Long-Term Disability Fund provides long-term disability benefits. Benefits are established by state statute. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

The ASRS issues a comprehensive annual financial report that includes financial statements and required supplementary information. The most recent report is available on their Web site ([www.azasrs.gov](http://www.azasrs.gov)) or may be obtained by writing the Arizona State Retirement System, 3300 N. Central Ave., P.O. **Note \_ - Discretely Presented Component Unit Disclosures**

*The District must include those disclosures of its discretely presented component units that are essential to the fair presentation of this opinion unit, which would include a summary of significant accounting policies. Determining which discretely presented component unit disclosures are essential to fair presentation is a matter of professional judgment and a consideration of the nature and significance of the component unit's relationship to the District. See GASB Statement No. 61, ¶11 for disclosure requirements.*

*Also, discretely presented component units' disclosures should be segregated from disclosures relating to the District. This can be accomplished by presenting component unit information after the District information for each relevant disclosure or by presenting the component unit's disclosures after the District's disclosures. See question 4.39.6 in the GASB Comprehensive Implementation Guide—2012-2013.*

*Further, the District must provide detailed information about each major discretely presented component unit. Determination that a component unit is "major" should be based on the nature and significance of its relationship to the primary government. (See GASB Statement No. 61, ¶7 and GASB Cod §2600.108) This information can be provided in one of three ways:*

- *Present each major component unit in a separate column in the financial statements,*
- *Include combining statements of major component units in the basic financial statements after the fund financial statements*
- *Present condensed financial statements in the notes. If the District presents condensed financial statements, it must include all the requirements in GASB Statement No. 34, ¶127.*

*Nonmajor component units should be aggregated in a single column. A combining statement for the nonmajor component units is not required, but may be presented as supplementary information. (GASB Statement No. 34, ¶126, Footnote 50)*

Notes to Budgetary Comparison Schedules  
Year Ended June 30, 2013

**Note 1- Budgeting and Budgetary Control**

***Districts participating in the Accounting Responsibility Program may delete references to the County School Superintendent, as appropriate.***

The District adopts an annual operating budget for expenditures for all governmental fund types. The Governing Board presents a proposed budget to the Superintendent of Public Instruction and County School Superintendent on or by July 5. The Governing Board legally adopts the final budget by July 15, after a public hearing has been held. Once adopted, the budget can be increased or decreased only for specific reasons set forth in Arizona Revised Statutes. ***Disclose the reason for any significant budget increase or decrease here.***

Budgetary control over expenditures is exercised at the fund level. However, the General Fund is budgeted within three subsections titled regular education programs, special education programs, and pupil transportation, any of which may be overexpended with the prior approval of the Governing Board at a public meeting, providing the expenditures for all subsections do not exceed the General Fund's total budget.

***The statutory requirement to report M&O Fund expenditures by subsection can be addressed by using the assigned program code in the Uniform System of Financial Records Chart of Accounts. However, M&O Fund expenditures coded to programs 100, 600, 700, 800, and 900 must be totaled and reported as the regular education subsection.***

***Some districts may have up to five additional subsections titled desegregation, dropout prevention programs, special K-3 program override, joint career and technical education and vocational education center, and K-3 reading program. If applicable, add to the description above.***

**Note 2- Budgetary Basis of Accounting**

The District budget is prepared on a basis consistent with generally accepted accounting principles, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.
- Net changes in the fair value of investments is not budgeted.
- Present value of net minimum capital lease payments is not budgeted at the inception of the agreement.
- USDA-donated commodities are not budgeted as an expenditure.

***Modify as appropriate.***

Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2013

***The Schedule of Expenditures of Federal Awards should include the following at a minimum:***

- 1. Individual programs by federal agency. For federal programs in a cluster of programs, list the individual federal programs within the cluster.***
- 2. Name of the pass-through grantor agency and the pass-through grantor's identifying number.***
- 3. Total federal awards expended for each individual federal program and the associated CFDA number or other identifying number.***
- 4. Total amount provided to subrecipients from each federal program. This information may be presented on the face of the schedule or in the notes.***
- 5. The value of federal awards expended in the form of noncash assistance, amount of insurance in effect during the year, and loans or loan guarantees outstanding at year-end. This information may be presented on the face of the schedule or in the notes.***

***See paragraph 7.20 in the AICPA Audit Guide, Government Auditing Standards and Circular A-133 Audits dated February 1, 2013, for more information.***

***American Recovery and Reinvestment Act (ARRA) monies—The District must separately identify expenditures of ARRA monies on both the Schedule of Expenditures of Federal Awards (SEFA) and on the Data Collection Form. The District must separately identify expenditures of ARRA monies on the SEFA and include the prefix "ARRA" in identifying the name of the federal program. For example, ARRA funding has been provided to the Title I Grant. The ARRA monies would be reported as CFDA No. 84.389, "ARRA—Title I Grant" etc. For additional guidance, see OMB Circular A-133 Compliance Supplement, June 2013, Appendix VII—Other OMB Circular A-133 Advisories.***

***Noncash assistance:***

***The value of such assistance should be included in the schedule or disclosed as a note to the schedule. Although it is not required, Circular A-333 states that it is preferable to present this information in the schedule instead of the notes to the schedule. If the District presents noncash assistance in the notes, such amounts must still be included in Part III of the Data Collection Form.***

***Medicaid reimbursements should not be included in the schedule.***
