ARIZONA LEGISLATURE

Financial Audit Division

Reports on Expenditures

**Child Protective Services
Supplemental Appropriations**

Laws 2003, Second Special Session,
Chapter 6, §52

January 1, 2004 through June 30, 2004,
Including Administrative Adjustments

Debra K. Davenport
Auditor General

The **Auditor General** is appointed by the Joint Legislative Audit Committee, a bipartisan committee composed of five senators and five representatives. Her mission is to provide independent and impartial information and specific recommendations to improve the operations of state and local government entities. To this end, she provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits of school districts, state agencies, and the programs they administer.

Copies of the Auditor General's reports are free.
You may request them by contacting us at:

Office of the Auditor General

2910 N. 44th Street, Suite 410 • Phoenix, AZ 85018 • (602) 553-0333

Additionally, many of our reports can be found in electronic format at:

www.auditorgen.state.az.us

**STATE OF ARIZONA
OFFICE OF THE
AUDITOR GENERAL**

DEBRA K. DAVENPORT, CPA
AUDITOR GENERAL

WILLIAM THOMSON
DEPUTY AUDITOR GENERAL

September 12, 2005

Members of the Arizona State Legislature

The Honorable Janet Napolitano, Governor

Richard Stavneak, Director
Joint Legislative Budget Committee

Enclosed are the final reports on expenditures of child protective services (CPS) appropriations specified in Laws 2003, Second Special Session, Chapter 6, §52, and the additional reports on expenditures for new CPS positions requested by Joint Legislative Budget Committee (JLBC) staff for January 1, 2004 through June 30, 2004, including 13th-month payments and administrative adjustments. These reports are in response to Laws 2003, Second Special Session, Chapter 6, §52(D), which requires the Office of the Auditor General to report monthly to the JLBC Staff Director the expenditure of the appropriations specified in the same §52.

The Departments of Economic Security and Health Services provided the information, and our Office presented it on the reports developed and approved by JLBC staff. Our Office compared and agreed the information presented in these reports to the Departments' accounting records and schedules, and verified that the estimated expenditures used were based on the Department of Economic Security's historical data.

If you have any questions regarding these reports, please contact me or Dennis Mattheisen, Financial Audit Director, at (602) 553-0333.

Sincerely,

Debbie Davenport
Auditor General

House Bill 2024 (Laws 2003, Second Special Session, Chapter 6, §52)	31

STATUS OF EXPENDITURES

The Arizona State Legislature passed Laws 2003, Second Special Session, Chapter 6 (referred to in this report as House Bill 2024) in December 2003. The special session was called by the Governor in part to reform child protective services (CPS). Section 52 of the law includes \$16.6 million in supplemental appropriations for the Department of Economic Security to fund a number of CPS initiatives, including adding 160 new full-time CPS workers and support staff, adjusting CPS employees' salaries, replacing obsolete information technology equipment, increasing the family home foster care rate, and funding the budget shortfall for its Division of Children, Youth and Families of which CPS is a part. The reports that follow present both state and federal expenditures, since the CPS program is also funded by federal grants. In addition, the Bill also includes a \$25,000 supplemental appropriation for the Department of Health Services to add one new foster care licensing position. The status of expenditures for each of the appropriated line items described in House Bill 2024 is discussed below.

Department of Economic Security

Meeting National Staffing Standards and 100 Percent Investigative Response Rate—

The Legislature appropriated \$1,953,500 for 93 annual full-time equivalent (FTE) positions and related expenses to meet national staffing standards for CPS caseloads, and \$1,674,200 for 67 annual FTE positions and related expenses to fund a 100 percent investigation rate (see Appendix, page 31).

These appropriations were calculated based on the Department's phase-in budget worksheets that specified the total number of new positions it planned to fill each month for a 6-month period from January through June 2004. As of June 30, 2004, the Department filled 142 of the 160 new positions. Of the 142 new positions, the Department filled the following authorized positions: 104 CPS specialists, 17 CPS unit supervisors, 6 CPS case aides (formerly classified as human service workers), 5 human service unit managers, and 10 secretaries.

Although the Department made equipment and telephone purchases that were ordered in June 2004 but received and paid for in fiscal year 2005, the State's policy requires state agencies to charge such expenditures to the appropriation in the fiscal year those items were ordered. As a result, these expenditures were charged to the 2004 appropriation and are reported as 13th-month and administrative adjustments.

Although the Department paid employees in July 2004 for services received before July 1, 2004, the State's policy requires state agencies to charge payroll and employee-related expenditures to the appropriations in the fiscal year they are paid. As a result, the Department did not present payroll and employee-related expenditures of approximately \$175,000 for this appropriated line item in these reports. These expenditures were charged to the fiscal year 2005 appropriation. The unexpended balance for this appropriation line item after the administrative adjustment reporting period totaled \$1,941,128 and has been reverted by the Department to the State General Fund.

Compensation and Classification Adjustments—The Legislature appropriated \$1,562,400 for performance-based compensation adjustments, classification adjustments, or both to be distributed at the department director's discretion (see Appendix, page 31).

The Department allocated this appropriation into three incentive pay increases: a 10 percent pay increase for the existing and new positions, a \$1,000 stipend for bilingual employees and/or those having a master's degree in social work, and performance-based compensation.

On March 5, 2004, the Department paid the 10 percent pay increase retroactive to January 17, 2004. Also, on March 19, 2004, the Department paid the \$1,000 stipend for staff who had a master's degree in social work. Beginning in April 2004, the Department began performing competency tests for the bilingual stipend and paying the \$1,000 stipend for each staff member who passes the test. The Department anticipates finalizing the criteria for the performance-based compensation in fiscal year 2005. As a result, performance-based compensation will be charged against future years' appropriations.

Since the State's policy requires state agencies to charge payroll and employee-related expenditures to the appropriations in the fiscal year they are paid, the Department did not present expenditures paid in July 2004 of approximately \$103,000 for the 10 percent pay increase and stipends earned by employees before July 1, 2004, in these reports. These expenditures were charged to fiscal year 2005 appropriations. The unexpended balance for this appropriation line item after the administrative adjustment reporting period totaled \$191,593 and has been reverted by the Department to the State General Fund.

Replacement of Obsolete Information Technology Equipment—The Legislature appropriated \$103,500 to replace obsolete information technical support equipment (see Appendix, page 31).

The Department received approval on February 25, 2004, from the Government Information Technology Agency and the Information Technology Authorization Committee to purchase desktop computers, monitors, network servers, and other

associated hardware and software. During April 2004, the Department acquired the items. The Department financed the acquisition of the equipment through a 5-year capital lease agreement. Subsequent capital lease payments will be charged against the budget year when the payment is made. The unexpended balance for this appropriation line item after the administrative adjustment reporting period totaled \$6,032 and has been reverted by the Department to the State General Fund.

Family Home Foster Care Rate Increase—The Legislature appropriated \$1,010,700 for family home foster care rate increases (see Appendix, page 31).

The Department increased the family home foster care rate by \$3.75 per day per child on January 1, 2004, and increased the rate again by the same amount on June 1, 2004. These adjustments are in accordance with its budget worksheets upon which the appropriation was based. The Department reported expenditures from February through the 13th month to reflect the rate increase for foster families services provided from January through June 2004. The Department reported all expenditures for this appropriated line item and reverted \$142,786 to the State General Fund.

Budget Shortfall Funding for Division of Children, Youth and Families—The Legislature appropriated \$10,300,000 for maintaining current staffing and service levels for CPS, including adoption services, permanent guardianship, and children services (see Appendix, page 31).

The Department began spending the appropriation in May 2004 to offset a portion of the budget shortfall for children services and the Department expended all of the appropriation line item.

Department of Health Services

New Licensing Position—The Legislature appropriated \$25,000 for one annual licensing FTE position (see Appendix, page 31).

The Department transferred an employee from another position within its Licensing Services Division to fill this position on January 23, 2004, and reported all personal services, employee-related, travel, cellular phone, and equipment expenditures for this employee. The Department expended all of the appropriation line item.

NOTES

- ¹ Appropriations information and authorized FTE amounts were obtained from House Bill 2024, Section 52. All expenditures, actual FTE amounts, and position information presented for the Department of Economic Security in these reports were obtained from its Financial Management Control System, and estimated expenditures were based on its historical data (see notes 6 and 7). The Department of Economic Security's phased-in FTE amounts were obtained from its budget worksheets, upon which the appropriations were based. The Department of Health Services' actual expenditures were obtained from the State's Arizona Financial Information System.
- ² Actual expenditures are reported for the month in which cash was disbursed with the exception of the administrative adjustments as explained in note 11.
- ³ The new CPS staff positions authorized by House Bill 2024, Section 52(A)1(a) and (b) and the related personal services expenditures are presented together on these reports because the investigation and case management functions are not currently separated among the CPS employees. The Department is in the process of separating these two functions as required by House Bill 2024.
- ⁴ The Department is funding 82 percent of the 160 new CPS positions authorized by House Bill 2024, Section 52(A)1(a) and (b) from State General Fund appropriations and the remaining 18 percent from Federal Title IV-E funding, with one exception. During the initial CPS specialist program training period that the new CPS specialists attend, the training funding percentages are 59 percent from the State General Fund and 41 percent from Federal Title IV-E for personal services and travel expenditures. These percentages are based on the actual allocation percentages used for the Division of Children, Youth and Families (DCYF) expenditures in fiscal years 2002, 2003, and the first half of fiscal year 2004.
- ⁵ If a child does not qualify for Federal Title IV-E assistance or the Temporary Assistance for Needy Families (TANF) grant, the Department is funding 100 percent of the family home foster care rate increase from the State General Fund. If a child is eligible for Federal Title IV-E assistance, the Department is

funding 67.25 percent of the increase from Federal Title IV-E monies and the remaining 32.75 percent from the State General Fund. If a child is eligible for the TANF grant, the Department is funding 100 percent of the increase from the TANF grant.

- 6 Occupancy costs were calculated at \$3,376 per FTE on an annual basis (185 square feet at \$18.25 per square foot). The 185-square-foot estimate was obtained from the Department of Economic Security's space policies for field offices, and the \$18.25 per square foot rate was established by the State Lease Cost Review Board.
- 7 Miscellaneous other operating expenditures include telephone services, postage, office supplies, copiers, repairs, and maintenance, and were calculated at \$2,800 per FTE on an annual basis based on actual DCYF expenditures in fiscal year 2003.
- 8 Total phased-in FTEs represent the planned number of new positions to be staffed each month. The appropriations were developed based on the assumption that a specified number of new positions would be added each month until the Department meets the total authorized new positions.
- 9 Employee-related expenditures for compensation and classification adjustments are calculated by multiplying those personal services expenditures by 14.39 percent. Contributions of 14.39 percent consists of 7.36 percent for FICA tax, 5.18 percent for Arizona State Retirement System (ASRS), 0.50 percent for ASRS long-term disability, 0.95 percent for workers' compensation, and 0.40 percent for the State's Retiree Accumulated Sick Leave Fund.
- 10 Expenditures reported in the 13th month 2004 represent cash payments made in July 2004 for obligations committed or goods or services received prior to July 1, 2004. Although the Departments paid employees in July 2004 for services received before July 1, 2004, the State's policy requires that state agencies charge payroll and employee-related expenditures to the appropriations in the fiscal year they are paid. As a result, the Departments did not present payroll and employee-related expenditures in the 13th month 2004 in these reports. These expenditures were charged to the fiscal year 2005 appropriations.
- 11 Administrative adjustments represent payments for goods and services ordered by the Department in June 2004 but received and paid during fiscal year 2005. The Department complied with House Bill 2024, Section 52(c) and reverted all unspent appropriations to the State General Fund.

APPENDIX

House Bill 2024 (Laws 2003, Second Special Session, Chapter 6, §52)

Sec. 52. Appropriations; department of economic security; department of health services; purposes

A. The following sums are appropriated from the state general fund in fiscal year 2003-2004 to the department of economic security for the following child protective services:

1. \$6,304,300 for the following purposes:

(a) \$1,953,500 for 93 annual FTE positions and related expenses to meet national staffing standards for child protective service caseloads. The 93 annual FTE positions shall include 60 investigator and case manager positions and 33 support staff.

(b) \$1,674,200 for 67 annual FTE positions and related expenses to fund a one hundred percent investigation rate. The 67 annual FTE positions shall include 44 investigator and case manager positions and 23 support staff.

(c) \$1,562,400 for performance-based compensation adjustments, classification adjustments or both at the discretion of the director of the department.

(d) \$103,500 to replace obsolete information technical support equipment.

(e) \$1,010,700 for family home foster care rate increase.

2. \$10,300,000 to maintain current staffing and service levels for child protective services including adoption services, permanent guardianship and children services.

B. The sum of \$25,000 and 1 FTE position is appropriated in fiscal year 2003-2004 from the state general fund to the department of health services for licensing.

C. Monies remaining unexpended and unencumbered from the appropriations made in this section revert to the state general fund on July 1, 2004.

D. The auditor general shall report monthly to the staff director of the joint legislative budget committee on the expenditure of the appropriations made in this section.
