

DEBRA K. DAVENPORT, CPA AUDITOR GENERAL

STATE OF ARIZONA OFFICE OF THE AUDITOR GENERAL

MELANIE M. CHESNEY DEPUTY AUDITOR GENERAL

May 1, 2013

The Honorable Chester Crandell, Chair Joint Legislative Audit Committee

The Honorable John Allen, Vice Chair Joint Legislative Audit Committee

Dear Senator Crandell and Representative Allen:

Our Office has recently completed a 24-month followup of the Arizona Medical Board regarding the implementation status of the 10 audit recommendations (including sub-parts of the recommendations) presented in the performance audit report released in June 2011 (Auditor General Report No. 11-04). As the attached grid indicates:

- 9 have been implemented, and
- 1 has been implemented in a different manner.

Unless otherwise directed by the Joint Legislative Audit Committee, this concludes our followup work on the Board's efforts to implement the recommendations from the June 2011 performance audit report.

Sincerely,

Dale Chapman, Director Performance Audit Division

cc: Gordi S. Khera, MD, FACC, Chair Arizona Medical Board

> Lisa Wynn, Executive Director Arizona Medical Board

Arizona Medical Board Auditor General Report No. 11-04 24-Month Follow-Up Report

Fin	ding 1:	Board should improve staff doctor consultant training, and problem re	and medical consultant selection, medica solution practices
1.1	ical cons and pro- consider	rd should formalize its staff doctor and med- sultant selection practices in written policies cedures, including how board staff should the nature of the complaint and licensees' specialties in determining the selection of nts.	Implemented at 6 months
1.2	The Board should establish and implement policies and procedures regarding medical consultant quali- fications, and complaint review time frames and re- quirements.		
1.3	cess for sultants they revi to reque	ard should establish and implement a pro- requiring and ensuring that its medical con- complete board-provided training before ew complaints. One way to do this would be est confirmation from the consultants that reviewed the training materials.	Implemented at 6 months
1.4	policies when m	ard should establish and implement written and procedures that provide guidance on edical consultants should not be used or e used only for certain types of complaints.	Implemented at 6 months
1.5	and proc specific garding	ard should establish and implement policies cedures on how and where problems with medical consultants' work and decisions re- the continuing use of these consultants e documented.	Implemented at 6 months

Sunset Factor #2: The effectiveness with which the Board has met its objective and purpose and the efficiency with which it has operated.

2.1	The Board should develop and implement a written policy and procedures for the Executive Director to use in deciding whether to dismiss a complaint, in- cluding what factors should be considered when de- ciding whether a complaint should be dismissed and what to do when disagreeing with a staff recommen- dation for dismissal.	Implemented at 6 months	
-----	---	-------------------------	--

Recommendation		Status/Additional Explanation	
2.2	To ensure that it processes more complaints in a timely manner, the Board should develop a report to capture additional complaint-handling timeliness in- formation to help identify and address factors in the process that may impact timeliness. The Board should include the priority level in its report so that it can assess whether complaints are processed with- in required time frames according to assigned pri- ority. The Board may also need to modify its com- puter system to include additional date fields, such as the date the Staff Investigational Review Com- mittee completes its complaint review. Once the Board has developed a report, it should use this in- formation to address factors within its control that cause delays in the complaint-handling process.	Implemented at 24 months	
2.3	To ensure that only appropriate individuals have ac- cess to confidential information, the Board should follow a standard developed by the state Govern- ment Information Technology Agency (GITA) that calls for classifying data and developing a plan to secure data based on its classification.	Implemented at 24 months ¹	
2.4	To ensure continuous information technology ser- vices, the Board should enhance its business conti- nuity plan to address all the issues included in the GITA standard for such plans. The Board needs to ensure that complaint investigative and license ap- plication information will not be lost and can still be accessed should the Board's information technology systems shut down.	Implemented in a different manner at 24 months Rather than enhance its business continuity plan, the Board has taken steps to ensure continuous in- formation technology services by contracting for electronic data backup and disaster recovery ser- vices, and creating a disaster recovery plan to help ensure that board information will not be lost and can still be accessed by staff in the event of an in- formation technology system shut down.	

3.1	The Board should ensure that it obtains required in-
	formation from licensees and updates its Web site
	as required by statute.

interest.

Implemented at 6 months

¹ Although this recommendation directs the Board to follow GITA's policy, in 2011, GITA was merged with the Department of Administration's Information Services Division and the Telecommunications Program Office. This technology-focused group is called the Arizona Strategic Enterprise Technology office, or ASET.
