The Honorable Board of Supervisors  
Maricopa County  
County Administration Building  
301 W. Jefferson Street  
Phoenix, AZ 85003

Arizona Revised Statute (A.R.S.) §41-1279.21 requires the Office of the Auditor General to conduct financial audits of the accounts and records of County governments. Pursuant to the statute, the Office of the Auditor General audited the Comprehensive Annual Financial Report (CAFR) of Maricopa County in accordance with generally accepted auditing standards for the year ended June 30, 2020.

This report consists of management's representations concerning the finances of Maricopa County. Consequently, management assumes full responsibility of the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Maricopa County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for preparation of Maricopa County's financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal control should not outweigh their benefits, Maricopa County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The goal of the independent audit was to provide reasonable assurance that the financial statements of Maricopa County for the fiscal year ended June 30, 2020, are free of material misstatement. The independent audit involves obtaining audit evidence about the amounts and disclosures in the financial statements. An audit includes assessments of risk of material misstatement of the financial statements, evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluating the overall financial statement presentation. The independent auditors expressed an unmodified opinion on the Maricopa County financial statements for the fiscal year ended June 30, 2020. The auditors concluded that the financial statements were considered fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Maricopa County was part of a broader, federally mandated Single Audit designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. This report will be available in Maricopa County's separately issued Single Audit Report to be issued at a future date.

GAAP requires management's discussion and analysis (MD&A) immediately following the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. This MD&A complements this letter of transmittal and should be read in conjunction with it.

## **County Profile**

Maricopa County was established on February 14, 1871, and is located in the south-central portion of the State of Arizona. According to the Arizona Office of Economic Opportunity, at July 1, 2019, Maricopa County contained 60.8 percent of the State's total population (<https://www.azcommerce.com/oeo>). The County occupies 9,224 square miles making it the 15<sup>th</sup> largest county in land area in the United States. Phoenix is the capital of Arizona as well as the county seat for Maricopa County.

Maricopa County operates under a five member elected Board of Supervisors who appoints a County Manager. The County Manager is responsible for the general administration and overall operations of the various County departments. The County has several elected officials including the Assessor, Clerk of the Superior Court, Constables, County Attorney, Recorder, Sheriff, Superintendent of Schools, and the Treasurer.

Maricopa County offers a wide variety of governmental services, including:

- *Community Resources:* Library District, Parks and Recreation, Stadium District, and Superintendent of Schools
- *County Administration:* Board of Supervisors, County Manager, Assessor's Office, Clerk of the Board, Elections, Finance, Internal Audit, Budget Office, Recorder, Office of Procurement Services, Human Resources, Information Technology, Treasurer's Office, and Facilities Management
- *Public Safety, Justice and Law Enforcement:* Clerk of the Superior Court, County Attorney, Trial Court, Adult Probation, Juvenile Probation, Sheriff's Office, Public Defender, Emergency Management, Correctional Health, Planning and Development, Constables, Justice Courts, and Public Fiduciary
- *Public Health and Welfare Services:* Public Health, Air Quality, Human Services, Employee Benefits and Health, Animal Care and Control, Environmental Services, Medical Examiner, and Waste Resources and Recycling
- *Public Works:* Flood Control District and Transportation Department

The annual budget serves as the foundation for Maricopa County's financial planning and control. The County is required by A.R.S. §42-17101 et. seq. to annually prepare and adopt a balanced budget. Arizona law further requires that no expenditure shall be made or liability incurred in excess of the amounts budgeted except as provided by law. Maricopa County's annual budget is available on the internet at the following address: <https://www.maricopa.gov/3668/Budget-Documents>.

## **Economic Outlook**

Maricopa County has a variety of industries within its boundaries with the majority comprised of high tech, financial, and service industries. Some of the major employers located in the state include Banner Health, Wal-Mart Stores, Fry's Food Stores, Wells Fargo, Amazon, and various local governments (Phoenix Business Journal).

Because of a favorable climate and mild weather conditions, tourism is also a large factor in the strength of the local economy. Major sporting events can be held year-round and many people come to the area during the winter months. Maricopa County is the home to teams from major league professional sports, which include the Arizona Cardinals of the National Football League (NFL), Phoenix Suns of the National Basketball Association (NBA), Phoenix Mercury of the Women's National Basketball Association (WNBA), Arizona Diamondbacks of the Major League Baseball (MLB), and the Arizona Coyotes of the National Hockey League (NHL). Maricopa County also hosts several major league baseball teams for the annual Cactus League spring training. Maricopa County is also a host to other major sporting events such as the Waste Management Phoenix Open golf tournament and Phoenix International Raceway. Cities within Maricopa County also host college bowl games such as the Fiesta Bowl.

Although there is still uncertainty surrounding the COVID-19 pandemic and the economic impacts associated with it, Arizona is on pace to recover to pre-pandemic levels of economic activity in 2021 and the long-run outlook for the state is strong. Once the pandemic is over, Arizona will once again consistently generate robust job, outlook, and population gains ([www.azecconomy.org](http://www.azecconomy.org)). Maricopa County's unemployment rate is 6.3 percent as of September 2020, which remains below the State of Arizona and United States unemployment rates of 6.8 percent and 7.7 percent, respectively (<https://fred.stlouisfed.org>).

## **Financial Policies and Long-Term Financial Planning**

**Financial Planning** – Maricopa County has a fiscally conservative management philosophy, which has allowed the County to be financially successful. Maricopa County prepares a five-year financial forecast, with the assistance of an economist, which is updated on a quarterly basis for several major funds, including the General Fund and Detention Operations Fund. The five-year forecast provides a conservative estimate of the County's fiscal condition given realistic economic trends, current Board policies, and existing laws. The forecast does not incorporate anticipated policy changes, spending priorities, or proposed new revenue sources.

**Capital Improvement Program** – Maricopa County's Capital Improvement Program (CIP) identifies capital projects to be completed over the next five years. Because these projects typically span more than one fiscal year, the plans are updated annually to track existing projects, identify new projects, and update funding estimates and forecasts. It is the County's philosophy and policy that new capital projects will be undertaken only if future operating revenues are reasonably estimated to be sufficient to support associated future operating costs. Operating costs associated with new facilities are budgeted by the user department in conjunction with the partnering department such as Facilities Management and Enterprise Technology. Estimated operating costs, as well as anticipated savings in lease costs and operating costs of facilities to be replaced are factored into the County's five-year financial forecast.

**Debt Management** – Maricopa County utilizes a modified "pay as you go" financial policy for large capital improvement projects, large technology projects, and other infrastructure. The County pays cash for many capital improvements or utilizes lease reversions or other funding sources from the General Fund to pay for large dollar projects.

**Cash Management** – Maricopa County maintains deposits and investments in the Treasurer's Pool and outside of the Treasurer's Pool. The Treasurer's Pool invests all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments monthly and at June 30th. Deposits and investments held outside of the Treasurer's Investment Pool represent a small portion of the County's total deposits and investments.

It is the County's investment policy to: collateralize all deposits by at least 102 percent of the deposits not covered by depository insurance; preserve the principal value and the interest income of an investment; hold investments to maturity, where practical, to avoid any loss on investments resulting from an early sale or retirement of an investment; and require all of the Treasurer's securities be held by the agent or trust department and in the County's name.

**Expenditure Limitation** – On June 30, 1980, Arizona voters approved general propositions amending the Arizona Constitution to establish expenditure and revenue limitations for local governments. The purpose of the expenditure limitation is to control expenditures and to limit future increases in spending to adjustments for inflation, deflation, and population growth of the County. The Constitution also limits the amount of revenues that may be generated from property taxes. A two-percent plus new construction annual increase is the maximum allowed by law unless special voter approval is obtained. This report will be available in Maricopa County’s separately issued Expenditure Limitation Report to be issued at a future date.

**Awards and Acknowledgements**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Maricopa County for its comprehensive annual financial report for the fiscal year ended June 30, 2019. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both U.S. general accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation and audit of this report could not be accomplished without the efficient and dedicated services of the Department of Finance staff, the assistance of administrative personnel in the various departments, and the competent service of the Office of the Auditor General. We appreciate all of those who assisted in and contributed to the preparation of this report. We also wish to express our sincere appreciation to the Board of Supervisors for their support in planning and overseeing the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

---

## **The Honorable Maricopa County Board of Supervisors**

The Maricopa County Citizens Audit Advisory Committee has prepared this letter for inclusion in the county's Comprehensive Annual Financial Report (CAFR) according to the committee's charter. Described herein are the committee's composition, responsibilities, and an account of how the responsibilities were discharged.

### **Composition of the Committee**

The membership of the committee shall consist of five voting members and three non-voting members. The voting members shall be board of supervisor appointees from the public and shall serve two-year terms. The non-voting members shall be the county's chief financial officer, the county attorney, the auditor general, or their designees. The chairman of the board of supervisors shall appoint a committee chairman from the voting members. The committee chairman shall serve a one-year term.

### **Responsibilities of the Committee**

The committee's primary function is to assist the board of supervisors in fulfilling its oversight responsibilities. The committee accomplishes this function by reviewing the county's financial information, the established systems of internal controls, and the audit process. The committee also suggests areas requiring audit emphasis. Specific duties of the committee are described in the committee charter.

### **Accomplishments of the Committee (Fiscal Year 2019-2020)**

The Citizens Audit Advisory Committee:

- Reviewed the county's internal audit activities and management's responses thereto.
- Reviewed the county's annual financial statements and issues related to the external audit performed by the Arizona State Auditor General.
- Provided guidance and commentary as needed.
- Enhanced the communication between the internal and external auditors.
- Held meetings in accordance with charter requirements.

Respectfully,

**Ramon Ramirez, Chair**

## Independent auditors' report

Members of the Arizona State Legislature

The Board of Supervisors of  
Maricopa County, Arizona

### Report on the financial statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, discretely presented component unit, each major fund, and aggregate remaining fund information of Maricopa County as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### *Management's responsibility for the financial statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of 4 departments and the discretely presented component unit, which account for the following percentages of the assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, and expenses or expenditures of the opinion units affected:

Opinion unit/department	Assets and deferred outflows	Liabilities and deferred inflows	Revenues	Expenses/ expenditures
<u>Government-wide statements</u>				
Governmental activities:				
Stadium District	3.50%	0.01%	0.22%	0.49%
Risk Management	0.17%	2.57%	0.89%	1.56%
Employee Benefits Trust	0.87%	0.82%	7.00%	7.83%
Business-type activities:				
Housing Authority	100%	100%	100%	100%
Discretely presented component unit:				
Industrial Development Authority	100%	100%	100%	100%
<u>Fund statements</u>				
Enterprise fund:				
Housing Authority	100%	100%	100%	100%

<b>Opinion unit/department</b>	<b>Assets and deferred outflows</b>	<b>Liabilities and deferred inflows</b>	<b>Revenues</b>	<b>Expenses/ expenditures</b>
Aggregate remaining fund information:				
Stadium District	0.16%	0.09%	0.05%	0.05%
Risk Management	0.22%	18.30%	0.20%	0.33%
Employee Benefits Trust	1.10%	5.85%	1.60%	1.68%

Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those departments and component unit, are based solely on the other auditors' reports. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, discretely presented component unit, each major fund, and aggregate remaining fund information of the County as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

### **Other matters**

#### *Required supplementary information*

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 5 through 15, budgetary comparison schedules on pages 91 through 97, schedule of the County's proportionate share of the net pension liability—cost-sharing plans on page 98, schedule of changes in the County's net pension liability and related ratios—agent plans on pages 99 through 100, schedule of County pension contributions on page 101, notes to pension plan schedules on pages 102 through 103, and the modified approach for infrastructure assets on page 104 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary and other information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund statements and schedules and the introductory and statistical sections listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund statements and schedules are management's responsibility and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### *Compliance over the use of Highway User Revenue Fund and other dedicated State transportation revenue monies*

In connection with our audit, nothing came to our attention that caused us to believe that the County failed to comply with the authorized transportation purposes, insofar as they relate to accounting matters, for Highway User Revenue Fund monies it received pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated State transportation revenues it received. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the authorized transportation purposes referred to above, insofar as they relate to accounting matters.

The communication related to compliance over the use of Highway User Revenue Fund and other dedicated State transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors, management, and other responsible parties within the County and is not intended to be and should not be used by anyone other than these specified parties.

### **Other reporting required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

This discussion and analysis is intended to be an easily readable analysis of Maricopa County's (County) financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the Transmittal Letter that begins on page vii and with the County's basic financial statements following this section.

### Financial Highlights

- The total assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$3,763.3 million (net position), an increase of 7.8 percent from the prior year restated amount. Of this amount, \$3,888.0 million is invested in capital assets, \$594.6 million is subject to external restrictions, and (\$719.3) million is unrestricted.

The County's total net position as reported in the Statement of Activities increased by \$273.2 million from the prior year restated amount. The County's primary sources of revenue are from taxes, intergovernmental, grants and contributions, and charges for services.

- The County's governmental funds reported combined fund balances of \$1,614.8 million, an increase in fund balance of \$281.4 million from the prior fiscal year's balance. Approximately 99.4 percent of the combined fund balances, or \$1,605.7 million, is spendable and available to meet the County's current and future needs.
- Spendable fund balance for the General Fund increased by 26.3 percent to \$300.0 million; approximately 27.0 percent of total General Fund expenditures. See page 10 for a description of spendable fund balance. In accordance with Arizona Revised Statutes (A.R.S.), this entire amount is budgeted for the next fiscal year. A.R.S. §42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. In addition, A.R.S. §42-17102 stipulates that the estimated expenditures may include an amount for unanticipated contingencies or emergencies.

## Management's Discussion and Analysis (Continued)

---

- The County's enterprise fund, the Housing Authority Fund, reported net position of \$84.9 million, of which \$79.8 million is invested in capital assets, \$5.7 million is restricted, and (\$0.6) million is unrestricted.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements. The Combining and Individual Fund Statements and Schedules – Nonmajor Funds begin on page 114.

**Government-wide Financial Statements** are designed to provide readers with a broad overview of the County's finances, in a manner similar to private-sector businesses.

- The *Statement of Net Position* presents information on all County assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The *Statement of Activities* presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; education; and interest on long-term debt. The business-type activities of the County consist of the Housing Authority of Maricopa County.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. The Housing Authority of Maricopa County, Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Special Assessment Districts, Maricopa County Stadium District, and the Maricopa County Street Lighting Districts are reported as blended component units. The Industrial Development Authority of Maricopa County is reported as a discretely presented component unit.

*The Government-wide financial statements can be found on pages 21-23 of this report.*

**Fund Financial Statements** are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds* and *fiduciary funds*.

- **Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows* and *outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements. Governmental funds include the general, special revenue, debt service, and capital projects funds.

## Management's Discussion and Analysis (Continued)

---

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County reports six major governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Coronavirus Relief Fund, Detention Operations Fund, County Improvement Debt Fund, County Improvement Fund, and General Fund County Improvements Fund.

Data from the other governmental funds (nonmajor) are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements*, which begin on page 114 of this report.

*The governmental funds financial statements can be found on pages 24-28 of this report.*

- **Proprietary funds** are maintained two ways. *Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses an enterprise fund to account for the Housing Authority Fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its equipment services, technology infrastructure, risk management, employee benefits trust, and sheriff warehouse functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Fund financial statements for the enterprise fund provide the same type of information as the government-wide financial statements, only in more detail. The Housing Authority Fund is considered to be a major fund of the County. The County's internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of combining statements, which begin on page 252 of this report.

*The proprietary funds financial statements can be found on pages 30-32 of this report.*

- **Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

*The fiduciary funds financial statements can be found on pages 34-35 of this report.*

**Notes to the Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 39-87 of this report.

**Required Supplementary Information** is presented concerning the County's General Fund, Coronavirus Relief Fund, and Detention Operations Fund. A budgetary comparison schedule has been provided for these funds to demonstrate compliance with budget and additional information is provided in the Note to Budgetary Comparison Schedules. In addition, the following schedules related to the County's pension plans are presented: Schedule of the County's Proportionate Share of Net Pension Liability – Cost-Sharing Pension Plans, Schedule of Changes in the County's Net Pension Liability and Related Ratios – Agent Plans, Schedule of County Pension Contributions, and Notes to the Pension Plan Schedules. Also

### Government-wide Financial Analysis

#### Net Position

Net position may serve over time as a useful indicator of a government's financial position. The following table reflects the condensed Statement of Net Position of the County for June 30, 2020, as compared to the prior year.

#### Statement of Net Position As of June 30 (in millions)

\* On July 1, 2019, Maricopa County restated governmental activities capital asset balances for corrections of prior periods. These corrections were a result of construction in progress related to infrastructure that should have been placed in service in a prior fiscal year. See Note 4 – Beginning Balance Restatement for additional information.

By far, the largest portion - \$3.8 billion - of the County's net position reflects the investment in capital assets (e.g., land, buildings and improvements, machinery and equipment, infrastructure and construction in progress), less accumulated depreciation and any related debt used to acquire those assets which is still outstanding. Net position invested in capital assets increased by \$44.7 million due to an increase in net capital assets of \$69.0 million and a decrease in capital asset related debt of \$24.3 million. The increase in capital assets is attributed to an increase in depreciable capital assets (net of accumulated depreciation) of \$243.7 million offset by a decrease in non-depreciable capital assets of \$174.7 million. See page 13 for additional detail on capital asset changes.

The County uses capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The second component of the County's total net position, \$594.6 million, represents resources that are subject to external restrictions on how they may be used. This component increased by \$58.7 million from the prior year. This increase in restricted net position is primarily attributed to public safety and relates to the Detention Operations Fund as restricted net position in the Fund increased by \$55.1 million from the prior year. This can be attributed to revenues exceeding expenses for the fiscal year.

## Management's Discussion and Analysis (Continued)

The final component consists of an unrestricted deficit of \$719.3 million, which decreased from fiscal year 2019 by \$169.8 million. The decrease in the deficit translates to an increase in net position and is primarily the result of revenues exceeding expenses in the General Fund and various capital project funds. Specifically, the General Fund's unassigned fund balance increased by \$107.8 million from the prior fiscal year. In addition, fund balance committed to capital projects increased by \$82.4 million from the prior fiscal year.

### **Changes in Net Position**

As discussed previously, the County's total net position of \$3.8 billion increased by \$273.2 million as reported in the Statement of Activities. The following table reflects the condensed Statement of Activities of the County for the fiscal year 2020 compared to the prior year and indicates the changes in net position for governmental and business-type activities:

\* On July 1, 2019, Maricopa County restated governmental activities capital asset balances for corrections of prior periods. These corrections were a result of construction in progress related to infrastructure that should have been placed in service in a prior fiscal year. See Note 4 – Beginning Balance Restatement for additional information.

\*\* The functions of culture and recreation, education, and interest on long-term debt are shown in the condensed Statement of Activities above as other expenses.

One of the main differences a reader will see between the governmental funds reported in the fund financial statements and the Statement of Activities is that governmental funds in the fund financial statements report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is reported as a capital asset and the expense of those assets is allocated over their estimated useful lives and reported as depreciation expense within the expense line items. Capital outlay expenditures exceeded depreciation expense in the current period by \$82.6 million.

## Management's Discussion and Analysis (Continued)

---

In the government-wide Statement of Activities, the significant revenues reported included taxes, unrestricted intergovernmental, operating grants and contributions, and charges for services, which represent 36.6, 31.9, 15.7, and 11.8 percent, respectively, of total revenues for fiscal year 2020. Tax revenues in total increased \$48.0 million primarily as a result of increases in property taxes of \$45.1 million and jail excise tax of \$9.8 million, offset by a decrease in special assessment taxes of \$5.8 million. The increase in property taxes can be attributed to an increase in assessed values. Intergovernmental revenue, which consists of state shared sales tax, vehicle license taxes and unrestricted grants, increased \$34.7 million from the prior fiscal year. This increase is attributable to increases in the state shared sales tax and vehicle license taxes of \$33.1 and \$1.2 million, respectively. The increases in jail excise tax, state shared sales tax, and vehicle license tax revenues are a result of a strong economy through the first three quarters of the fiscal year, followed by the economic impact of the COVID-19 pandemic occurring in the final quarter. Capital grants and contributions increased by \$6.5 million from the prior year as capital contributions attributed to the Housing Authority Fund increased by \$8.0 million. Operating grants and contributions increased by \$94.3 million from the prior fiscal year. This increase is primarily due to grant revenues earned in the Coronavirus Relief Fund of \$95.4 million. Other revenues decreased by \$4.2 million, primarily from decreases in miscellaneous revenues of \$5.5 million, offset by increases in gains on assets sold of \$1.2 million.

Tax and other operating revenues provide the principal support for the functions of the County, which include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; and education. Total expenses increased by \$326.7 million or 17.2 percent from the prior fiscal year, which is primarily a result of expenses for governmental activities increasing by \$328.4 million. The largest increase was for pension expense, which increased by \$160.5 million from the prior fiscal year. In addition, expenditures occurring in the Coronavirus Relief Fund were \$98.9 million. The remaining difference is largely due to expenditures in capital projects funds that did not result in a capitalized asset.

### Financial Analysis of the County's Funds

As noted earlier, the County uses *fund accounting* to ensure and demonstrate compliance with finance-related legal requirements. In order to provide comparative discussion of fund balances to the prior year, the analysis below of 'spendable' balance represents restricted, committed, assigned, and unassigned fund balance.

**Governmental Funds.** Governmental activities are contained in the general, special revenue, debt service, and capital projects funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *spendable fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2020, the governmental funds reported combined fund balances of \$1,614.8 million, which was an increase in fund balance of \$281.4 million from the prior fiscal year. Approximately 99.4 percent of the combined fund balances, or \$1,605.7 million, is available to meet the County's current and future needs (spendable fund balance). The remaining fund balance is reserved for inventories.

The following funds are the County's major governmental funds:

#### *General Fund*

The General Fund is the County's primary operating fund. At the end of the current fiscal year, spendable fund balance of the General Fund was \$300.0 million, while total fund balance was \$303.6 million. This represents an increase in the spendable fund balance from the prior year of \$62.5 million, or 26.3 percent. As a measure of the General Fund's liquidity, it may be useful to compare both spendable fund balance and total fund balance to the total fund expenditures. Spendable fund balance represents 27.0 percent of the total fiscal year 2020 General Fund expenditures, while total fund balance represents 27.3 percent of that same amount. These ratios indicate a strong fund balance position in comparison to expenditures. In addition, Maricopa County operates on a structurally balanced budget as fiscal year 2021 operating expenditures are expected to be fully funded by fiscal year 2021 revenues.

## Management's Discussion and Analysis (Continued)

---

During fiscal year 2020, the General Fund experienced an increase in fund balance of \$63.2 million, an increase of \$42.8 million from the prior fiscal year change in fund balance of \$20.4 million. Revenues increased by \$80.7 million from the prior fiscal year as a result of increases in state shared sales tax, property tax, and recorded documents services revenue of \$33.1, \$33.0, and \$19.0 million, respectively, with decreases in other intergovernmental revenue of \$6.7 million. Transfers out increased by \$50.6 million and expenditures increased by \$8.1 million. The increase in transfers out is primarily a result of increases in transfers to Technology Capital Improvement Fund, Detention Operations Fund, and General Fund County Improvements Fund of \$40.8, \$3.8, and \$3.8 million, respectively. The increase in expenditures is primarily attributable to increases in technology services, supplies, and capital outlay of \$21.8, \$10.3, and \$1.5 million, respectively, offset by decreases in expenditures in repairs and maintenance, legal services, salaries and benefits, and rent of \$14.8, \$7.2, \$2.0, and \$1.0 million, respectively.

### *Coronavirus Relief Fund*

The Coronavirus Relief Fund is a special revenue fund that was established during the current fiscal year and accounts for CARES Act (Coronavirus Aid, Relief, and Economic Security Act) funding authorized under section 601(a) of the Social Security Act, as added by section 5001 of the CARES Act, for the necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19). At the end of the current fiscal year, spendable fund balance of the Coronavirus Relief Fund was \$5.5 million. In addition, the unearned revenue amount of \$300.6 million represents the remaining CARES Act funding required to be expended by December 30, 2020.

### *Detention Operations Fund*

The Detention Operations Fund is a special revenue fund that was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Detention Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Detention Capital Projects Fund and Detention Technology Capital Improvement Fund for construction of the adult and juvenile detention facilities and detention technology infrastructure.

The Detention Operations Fund accounts for the jail tax revenue along with transfers from the General Fund for maintenance of effort (MOE). The MOE transfer from the General Fund is used to support the jail detention operations. Arizona Revised Statutes require the County to calculate the maintenance of effort transfer on an annual basis. The Detention Operations Fund transfers monies to the Detention Capital Projects Fund for the construction of the jail and detention facilities. At the end of the current fiscal year, total fund balance of the Detention Operations Fund was \$94.1 million, of which 98.4 percent is restricted and considered spendable. This was an increase in total fund balance of \$55.4 million, or 58.8 percent from the prior fiscal year. Although the fund had more expenditures than revenues by \$132.3 million, positive net transfers of \$185.6 million offset the net loss in the fund. Operating transfers consisted primarily of the transfer in for MOE from the General Fund of \$190.5 million and a transfer out to the Detention Capital Projects Fund of \$8.2 million. The amounts transferred out of the Detention Operations Fund for any given year are determined through the budget planning process.

### *County Improvement Debt Fund*

The County Improvement Debt Fund is a debt service fund that accounts for the debt service on Certificates of Participation, Refunding Series 2016; Certificates of Participation, Series 2018A; Certificates of Participation, Series 2020; and other long-term obligations. At the end of the current fiscal year, spendable fund balance of the County Improvement Debt Fund was \$5.8 million. This represents an increase of \$537.1 thousand from the prior fiscal year and is attributed to the continued payment of debt service obligations. The primary activity in this fund is debt service payments.

## **Management's Discussion and Analysis (Continued)**

---

### *County Improvement Fund*

The County Improvement Fund is a capital projects fund that was established in fiscal year 2015 and accounts for capital projects funded through the issuance of long-term debt obligations and transfers from other County funds. At the end of the current fiscal year, fund balance of the County Improvement Fund was \$179.2 million, an increase of \$108.7 million from prior year. The increase was primarily the result of the Certificates of Participation, Series 2020, debt issuance of \$133.4 million.

### *General Fund County Improvements Fund*

The General Fund County Improvements Fund is a capital projects fund that accounts for capital projects funded by transfers from the General Fund. Projects that are currently funded primarily consist of justice and administrative projects. At the end of the current fiscal year, fund balance of the General Fund County Improvements Fund was \$477.8 million, all of which is committed and considered spendable. The fund balance in this fund increased \$57.3 million from the prior fiscal year as a result of positive net transfers of \$69.3 million, which were offset by capital outlay expenditures of \$12.1 million. Fiscal year 2020 transfers primarily consisted of transfers in from the General Fund of \$141.3 million, which were offset by transfers out to the General Fund and the County Improvement Debt Fund of \$16.9 and \$55.1 million, respectively.

### **General Fund Budgetary Highlights**

The difference between the original budget and the final amended budget for the General Fund resulted in no significant change in revenues and expenditures. A significant favorable expenditure variance, as compared to the budget, was incurred in the Non-Departmental Department (general government function) of \$62.6 million. The savings were a result of the Non-Departmental Department spending less contingency funds than was anticipated. None of the variances between the budget and actual amounts were significant enough to affect the County's ability to provide future services.

### **Capital Assets and Long-Term Liabilities**

#### **Capital Assets**

The County's capital assets balance for its governmental and business-type activities as of June 30, 2020, was \$4.0 billion (net of accumulated depreciation). Capital assets include land, buildings and improvements, infrastructure, machinery and equipment, and construction in progress. The County reports infrastructure assets, which consist of the Flood Control District and Transportation Department infrastructure, in the government-wide financial statements in accordance with GASB Statement No. 34. Additional information regarding infrastructure assets can be found in the Notes to the Financial Statements (Note 1 – Summary of Significant Accounting Policies and Note 11 – Capital Assets).

The Flood Control District infrastructure assets consist of drainage systems, dams, flood channels and canals. Flood Control infrastructure is reported using the depreciation approach and the County uses the straight-line method of depreciation on these assets. At June 30, 2020, Flood Control District infrastructure-related assets consisted of land, infrastructure (net of accumulated depreciation) and construction in progress of \$239.2, \$295.7, and \$173.2 million, respectively.

The Transportation Department infrastructure assets consist of a roadway system and a bridge system. Both systems are reported under the modified approach, which means the County will maintain the assets using an asset management system and will document that the infrastructure assets are being preserved at the established condition level. During fiscal year 2020, the condition level of both systems was within the established condition level. Actual maintenance/preservation costs varied by (\$3.2) million and (\$2.6) million from the estimated costs for the roadway and bridge system, respectively. Roadway and Bridge System maintenance is predicated by the Federal clearance process. See Required Supplementary Information on page 104 for additional information. At June 30, 2020, Transportation Department infrastructure-related assets consisted of land, infrastructure and construction in progress of \$434.0, \$817.3, and \$94.6 million, respectively.

## Management's Discussion and Analysis (Continued)

Capital assets for governmental and business-type activities are presented below (in millions) to illustrate changes from the prior year:

\* On July 1, 2019, Maricopa County restated governmental activities capital asset balances for corrections of prior periods. These corrections were a result of construction in progress related to infrastructure that should have been placed in service in a prior fiscal year. See Note 4 – Beginning Balance Restatement for additional information.

Capital assets, net of accumulated depreciation, increased by \$68.9 million, or 1.7 percent, from the prior year. The most significant impacts on this increase in the fiscal year ended June 30, 2020, were increases in buildings and improvements (net of accumulated depreciation), non-depreciable infrastructure, and machinery and equipment (net of accumulated depreciation) of \$229.3, \$32.4, and \$21.8 million, respectively. These increases were offset by a decrease in construction in progress of \$214.8 million.

### Long-Term Liabilities

Maricopa County has the following bond ratings:

<u>Debt Instrument &amp; Rating Agency</u>	<u>Rating</u>	<u>Date Awarded</u>
<i>General Obligation Bonds (implied or issuer credit rating)</i>		
Standard & Poor's	AAA	January 2020
Fitch Ratings	AAA	January 2020
Moody's Investor Services	Aaa	January 2020
<i>Certificates of Participation</i>		
Standard & Poor's	AA+	January 2020
Fitch Ratings	AA+	January 2020
Moody's Investor Services	Aa1	January 2020

At June 30, 2020, the County had total long-term liabilities (noncurrent liabilities due within one year and more than one year) outstanding of \$2,281.2 million, which represents a \$382.7 million increase from the prior year balance of \$1,898.5 million. The majority of the \$382.7 million increase is attributable to governmental activities and is comprised of a net increase in net pension and other postemployment benefits liability of \$236.6 million and increases in certificates of participation and capital leases of \$133.1 million. The increase in certificates of participation is primarily attributed to the \$133.4 million of Certificates of Participation, Series 2020, issued during the year to pay for various capital projects. The two largest projects are the Administration Building Renovation and the Southeast Regional Justice Center at Mesa. At June 30, 2020, the largest components of long-term liabilities consisted of net pension and other postemployment benefits liability of \$1,877.3 million, certificates of participation of \$236.1 million, and reported claims and incurred but not reported claims of \$86.2 million.

## Management's Discussion and Analysis (Continued)

---

Certificates of participation applicable to governmental activities are paid from the County Improvement Debt Fund (debt service fund), which is funded by transfers from the General Fund. At June 30, 2020, the fund balance in the County Improvement Debt Fund to pay future liabilities was \$5.8 million.

Reported and incurred but not reported claims applicable to governmental activities of \$86.2 million are reported in the Risk Management and Employee Benefits Trust funds (internal service funds). This is an increase of \$6.8 million from the prior year. This liability is primarily related to actuarial estimates for the County's self-insured portion of future claims for general litigation related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and certain health benefits that are paid through the operations of the funds. Additional information regarding long-term liabilities can be found in the Notes to Financial Statements (Note 13 – Long-Term Liabilities and Note 17 – Risk Management).

Net pension and other postemployment benefits (OPEB) liabilities applicable to governmental activities of \$1.9 billion represent the difference between: 1) the total amount due to retirees for their future benefit obligations from employee services, less 2) the actual amount of assets on hand to make those payments. Therefore, unfunded pension and OPEB liabilities indicate that future benefit obligations to retirees are greater than the assets on hand to make those payments. These amounts are determined annually based on actuarial assumptions.

### Economic Factors and Next Year's Budget and Rates

- Although there is still uncertainty surrounding the COVID-19 pandemic and the economic impacts associated with it, Arizona is on pace to recover to pre-pandemic levels of economic activity in 2021 and the long-run outlook for the state is strong. Once the pandemic is over, Arizona will once again consistently generate robust job, outlook, and population gains ([www.azecconomy.org](http://www.azecconomy.org)).
- The unemployment rate in Maricopa County is 6.3 percent as of September 2020, which remains below the State of Arizona and United States unemployment rates of 6.8 percent and 7.7 percent, respectively (<https://fred.stlouisfed.org>).
- The Arizona Office of Economic Opportunity reports that Maricopa County's population increased by 1.7 percent from fiscal year 2018 to 2019. Maricopa County's population increased 14.2 percent from 2010 to 2019, which is higher than the United States' overall population increase of 6.3 percent for the same time period (<https://www.azcommerce.com/oeo> and <https://census.gov>).

As part of the annual budget planning process, the County's Budget Office developed a financial forecast to assist in both short and long range financial planning. This forecast provides a conservative estimate of the County's fiscal condition through the next five years. The forecast was instrumental in the determination of the fiscal year 2021 budget and tax rate, which took into account several significant trends:

- Property tax revenues are the product of two factors, the assessed valuation of all properties in the County and the property tax rate. For fiscal year 2021, the adopted tax rate remained flat at \$1.4009.
- The fiscal year 2021 tax levy increased by \$35.2 million from fiscal year 2020, as a result of increased assessed property valuations. Yearly assessed property valuation growth rates are anticipated to increase by approximately 5.0 percent from fiscal year 2022 through 2025.
- Fiscal year 2021 annual collections of State Shared Sales Tax and County Jail Excise Tax revenues are expected to increase by 3.9 percent and 3.7 percent, respectively, from the prior year. However, annual collections for Vehicle License Tax revenues and Highway User Revenues are expected to decrease 0.6 percent and 7.8 percent, respectively, from the prior year. Although some revenues are expected to decrease in fiscal year 2021, yearly growth rates are expected to increase and fluctuate from 1.7 percent to 7.0 percent from fiscal year 2022 through 2025.

## **Management's Discussion and Analysis (Continued)**

---

In accordance with A.R.S., the General Fund spendable fund balance amount (see page 10 for more information) will be budgeted in the next fiscal year. A.R.S. §42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. The estimated expenditures may include an amount for unanticipated contingencies or emergencies, per A.R.S. §42-17102.

## Definitions of Government-wide Financial Statements and Listing of Major Funds

---

### Government-wide Financial Statements

The **Statement of Net Position** presents information on all of Maricopa County's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position.

The **Statement of Activities** presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The above two statements are presented utilizing the following types of activities:

**Governmental Activities** – generally are financed through taxes and intergovernmental revenues.

**Business-type Activities** – are financed in whole or in part by fees charged to external parties.

### Major Funds

**General Fund** – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

### Special Revenue Funds

**Coronavirus Relief Fund** – accounts for CARES Act (Coronavirus Aid, Relief, and Economic Security Act) funding authorized under section 601(a) of the Social Security Act, as added by section 5001 of the CARES Act, for the necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19).

**Detention Operations Fund** – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Detention Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Detention Capital Projects Fund and Detention Technology Capital Improvement Fund for construction of the adult and juvenile detention facilities and detention technology infrastructure.

### Debt Service Fund

**County Improvement Debt Fund** – accounts for the debt service for the Certificates of Participation, Refunding Series 2016, Certificates of Participation, Series 2018A, Certificates of Participation, Series 2020, and other long-term obligations. This fund's main revenue source is from transfers for the repayment of debt.

---

## **Capital Projects Funds**

**County Improvement Fund** – accounts for capital projects funded through the issuance of Certificates of Participation, Series 2018A, Certificates of Participation, Series 2020, and transfers from various County Funds.

**General Fund County Improvements Fund** – was established to fund current and future capital projects. Fund assets may be used to pay directly for capital projects or may be appropriated by the Board of Supervisors for debt service. None of the funds has been pledged for debt service, and fund assets may be transferred by the Board of Supervisors at any time for any other County purpose.

## **Enterprise Fund**

**Housing Authority Fund** – accounts for the activity of the Housing Authority of Maricopa County.

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.

Some receivables are not available to pay for current period expenditures and therefore, are deferred in the funds.

OPEB assets are not available for County operations and therefore, not reported in the funds.

Internal service funds are used by management to charge the costs of equipment services, technology infrastructure, risk management, employee benefits, and the sheriff warehouse to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the Statement of Net Position.

Long-term liabilities (e.g., net pension liabilities and bonds payable) are not due and payable shortly after June 30, 2020, and therefore, are not reported in the funds.

Deferred outflows and inflows of resources related to pensions and OPEB and deferred charges on debt refundings are applicable to future reporting.

periods and, therefore, are not reported in the funds.

Net change in fund balances – total governmental funds (page 27) \$ 278,563,524

Amounts reported for governmental activities in the Statement of Activities on page 23 are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. 82,583,312

The net effect of various miscellaneous transactions involving capital assets is a decrease to net position. (20,279,415)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 1,810,694

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (91,850,840)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. 5,358,072

Internal service funds are used by management to charge the costs of equipment services, technology infrastructure, risk management, employee benefits, and the sheriff warehouse to individual funds. The net expense of external activities of these funds is reported with governmental activities. (12,258,500)

County pension and OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension and OPEB liability is measured a year before the County's report date. Pension and OPEB expense, which is the change in the net liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities. 18,742,994

Change in net position of governmental activities (page 23) \$ 262,669,841

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Maricopa County's accounting policies conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

### A. Reporting Entity

Maricopa County is a general purpose local government that is governed by a separately elected board of five county supervisors. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are so intertwined with the County that they are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. Each blended and discretely presented component unit discussed below has a June 30 year-end. Unless noted below, separate financial statements are not available for the component unit.

The reporting entity is comprised of the primary government, Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Special Assessment Districts, Maricopa County Stadium District, Maricopa County Street Lighting Districts, Housing Authority of Maricopa County, and Industrial Development Authority of Maricopa County.

The blended component units are as follows:

#### Maricopa County Flood Control District

The Maricopa County Flood Control District is a legally separate, tax-levying entity pursuant to A.R.S. §48-3602 that provides flood control facilities and regulates floodplains and drainage to prevent flooding of property in Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Flood Control District and has operational responsibility for the District, it is considered a blended component unit of the County.

#### Maricopa County Library District

The Maricopa County Library District is a legally separate, tax-levying entity pursuant to A.R.S. §48-3901 that provides and maintains library services for the residents of Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Library District and has operational responsibility for the District, it is considered a blended component unit of the County.

#### Maricopa County Special Assessment Districts

The Maricopa County Special Assessment Districts are legally separate entities that provide improvements to various properties within the County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Special Assessment Districts and has operational responsibility over the District, they are considered a blended component unit of the County.

### Maricopa County Stadium District

The Maricopa County Stadium District is a legally separate entity pursuant to A.R.S. §48-4202 that provides regional leadership and fiscal resources to assure the presence of Major League Baseball in Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Stadium District and has operational responsibility over the District, it is considered a blended component unit of the County. The Stadium District also issues separate financial statements. Complete financial statements for the Maricopa County Stadium District may be obtained at the entity's administrative office listed below:

### Maricopa County Street Lighting Districts

The Maricopa County Street Lighting Districts are legally separate entities that provide street lighting in areas of the County that are not under local city jurisdictions. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Street Lighting Districts and has operational responsibilities over the Districts, they are considered a blended component unit of the County.

### Housing Authority of Maricopa County

The Housing Authority is a legally separate entity pursuant to A.R.S. §36-1404 that provides efficient and affordable rental housing to low-income households of Maricopa County. As the Maricopa County Board of Supervisors serves as the Housing Authority's Board of Commissioners and has operational responsibility over the Housing Authority, it is a blended component unit of the County. The Housing Authority also issues separate financial statements, which include five discretely presented component units: Coffelt-Lamoreaux, L.L.C., Madison Heights Phase I, L.L.C., and Madison Heights Phase II, L.L.C., The River at Eastline Village, L.L.C., and Coffelt Tenant, L.L.C. These component units have a December 31 year end and are combined and reported with the Housing Authority as a single enterprise fund on Maricopa County's financial statements.

Complete financial statements for the Housing Authority of Maricopa County and their component units may be obtained at the entity's administrative office listed below:

The discretely presented component unit is as follows:

### Industrial Development Authority of Maricopa County

The Industrial Development Authority of Maricopa County (Authority) is a legally separate entity that was created to assist in the financing of commercial and industrial enterprises; safe, sanitary, and affordable housing; and healthcare facilities. The Authority fulfills its function through the issuance of tax exempt or taxable revenue bonds. The County Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. All bonds issued by the Authority are special, limited obligations of the Authority, payable solely from revenues generated by the project being financed, and do not constitute debt of, a loan of, or credit by, the Authority. The Authority charges administration fees to bond applicants and uses such fees to cover its administration costs and to support its ongoing community and economic development in Arizona. The Authority is a special-purpose governmental entity engaged in business-type activities. Although the Authority is legally separate from the County, governmental accounting standards require the Authority to be reported as a discretely presented

### B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the County as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

**Government-wide financial statements** – provide information about the primary government (the County) and its component units. The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities, except for fiduciary activities. They also distinguish between the County's governmental and business-type activities and between the County and its discretely presented component unit. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers or applicants for goods, services, or privileges provided;
- operating grants and contributions; and
- capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources, unrestricted grant revenues, and all taxes the County levies or imposes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if doing so would distort the direct costs and program revenues reported by the departments concerned.

**Fund financial statements** – provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Internal service and fiduciary funds are aggregated and reported by fund type.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges, in which each party receives and gives up essentially equal values, are reported as operating revenues. Other revenues, such as subsidies, result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues ancillary activities generate. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered nonoperating expenses.

## Notes to the Financial Statements

The County reports the following major governmental funds:

The General Fund – is the County’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Coronavirus Relief Fund – accounts for CARES Act (Coronavirus Aid, Relief, and Economic Security Act) funding authorized under section 601(a) of the Social Security Act, as added by section 5001 of the CARES Act, for the necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19).

The Detention Operations Fund – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Detention Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Detention Capital Projects Fund and Detention Technology Capital Improvement Fund for construction of the adult and juvenile detention facilities and detention technology infrastructure.

The County Improvement Debt Fund – accounts for the debt service for the Certificates of Participation, Refunding Series 2016, Certificates of Participation, Series 2018A, Certificates of Participation, Series 2020, and other long-term obligations. This fund’s main revenue source is from transfers for the repayment of debt.

The County Improvement Fund – accounts for capital projects funded through the issuance of Certificates of Participation, Series 2018A, Certificates of Participation, Series 2020, and transfers from various County funds.

The General Fund County Improvements Fund – was established to fund current and future capital projects. Fund assets may be used to pay directly for capital projects or may be appropriated by the Board of Supervisors for debt service. Revenues in this fund consist mainly of transfers from the General Fund. None of the funds have been pledged for debt service, and fund assets may be transferred by the Board of Supervisors at any time for any other County purpose.

The County reports the following major enterprise fund:

The Housing Authority Fund – accounts for the activities of the Housing Authority of Maricopa County.

The County also reports the following fund types:

The internal service funds – account for automotive maintenance and service, information technology services, insurance services, self-insured employee benefits, and warehouse services provided to County departments or to other governments on a cost-reimbursement basis.

The investment trust funds – account for pooled and individual investment accounts the County Treasurer holds and invests on behalf of other governmental entities.

The agency funds – account for assets the County holds as an agent for the State and various local governments and for property taxes collected and distributed to the State, cities and towns, and special districts.

## C. Basis of Accounting

The government-wide, proprietary funds, and fiduciary funds financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The agency funds are custodial in nature and do not have a measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted net position resources available to finance the program. For these types of programs, the County applies grant resources to such programs before using general revenues. For all other programs, the County uses unrestricted revenues first.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The County's major revenue sources that are susceptible to accrual are property taxes, intergovernmental, charges for services, and investment income. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, landfill closure and postclosure care costs, pollution remediation obligations, claims and judgments, compensated absences and asset retirement obligations, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Loan proceeds and acquisitions under capital lease agreements are reported as other financing sources.

## D. Cash and Investments

For the statement of cash flows, the County's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the County Treasurer, and only those highly liquid investments with a maturity of three months or less when purchased.

School and fire district bonds that mature within 90 days of year-end are reported at amortized cost. All other investments are stated at fair value.

## E. Inventories

Inventories reported on the government-wide and the internal service funds financial statements are recorded as assets when purchased and expensed when consumed. The amounts shown on the statement of net position for government-wide and the internal service funds are valued at cost using first-in, first-out and the moving average methods, respectively.

The County accounts for its inventories in the governmental funds using the purchase method. Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to indicate that they do not constitute "available spendable resources." These inventories are stated at weighted-average cost.

## F. Property Tax Calendar

The County levies real property taxes and commercial personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The

## Notes to the Financial Statements

---

second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

During the year, the County also levies mobile home personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

### G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the government-wide statements and the proprietary funds. Capital assets are defined as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Type of Assets</u>	<u>Estimated Useful Life (In Years)</u>
Buildings and improvements	20 - 50
Infrastructure	25 - 50
Autos and trucks	3 - 10
Other equipment	3 - 20

All infrastructure assets are reported on the government-wide financial statements. Infrastructure maintained by the County Department of Transportation consists of roadways, bridges and related assets. These assets are not depreciated as they are reported using the modified approach. Under the modified approach, the County's roadway and bridge systems are being preserved at a specified condition level established by the County. For information on the modified approach, see Required Supplementary Information – Modified Approach for Infrastructure Assets. The Flood Control District accounts for the County's remaining infrastructure assets consisting of drainage systems, dams, flood channels and canals.

### H. Deferred Outflows and Inflows of Resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as revenue in future periods.

### I. Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### J. Fund Balance Classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations the County's Board of Supervisors approved, which is the highest level of decision-making authority within the County. Only the Board can remove or change the constraints placed on committed fund balances through formal Board action.

Assigned fund balances are resources constrained by the County's intent to be used for specific purposes, but that are neither restricted nor committed. Only the Board of Supervisors has authorization to assign fund balances.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

The County's policy is to account for most restricted and committed revenue sources (subject to legal restriction, etc.) by segregating them in a separate fund; however, by its nature, the General Fund may have several different classifications of fund balance. Therefore, when expending General Fund balance, if an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the County's policy to use unrestricted fund balance first. For the disbursement of unrestricted fund balances, it is the County's policy to use unassigned amounts first, followed by assigned amounts, and lastly committed amounts.

#### K. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

#### L. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave employees earned based on services already rendered. Employees may accumulate, and roll-over from year-to-year, up to 240 or 320 hours (depending on employee classification) of vacation leave, but any vacation hours in excess of the maximum amount that are unused at calendar year-end convert to sick leave. Upon terminating employment, all unused vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate an unlimited number of sick leave hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but employees forfeit them upon terminating employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements. However, upon retirement, County employees with accumulated sick leave in excess of 1,000 hours are entitled to a \$10,000 nontaxable investment in a Post-Employment Health Plan (PEHP) established pursuant to Internal Revenue Code §501(c)(9). The obligations vested at June 30, 2020, under this policy are accrued as a liability.

## Notes to the Financial Statements

(Continued)

---

Compensated absences are substantially paid within one year from fiscal year-end and, therefore, are reported as a current liability on the government-wide financial statements. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal year-end.

### M. Other Disclosures

Pursuant to A.R.S. §35-391, the County must disclose in its annual financial report the amount of any rewards, discounts, incentives or other financial consideration resulting from credit card payments. The County earned \$412 thousand in credit card rebates during calendar year 2019.

### **NOTE 2 – REPORTING CHANGES**

Beginning in fiscal year 2020, the County established the following funds: Coronavirus Relief Fund (special revenue fund), a major governmental fund, and Sheriff MASH Capital Donation Fund (nonmajor capital project fund).

During fiscal year 2020, the Animal Control Field Operations Fund (nonmajor special revenue fund) was eliminated and the County transferred all remaining assets and liabilities to the Animal Control License/Shelter Fund (nonmajor special revenue fund). In addition, the Stadium District Debt Service Fund (nonmajor debt service fund) was eliminated and the County transferred all remaining assets and liabilities to the Cactus League Operations Fund (nonmajor special revenue fund). As these funds were closed during the fiscal year, there was no effect on beginning net position or beginning fund balance.

### NOTE 4 – BEGINNING BALANCE RESTATEMENT

On July 1, 2019, Maricopa County restated governmental activities infrastructure-depreciable, net of accumulated depreciation, and net position by (\$2,386,389) for corrections of prior periods. These corrections were a result of construction in progress related to infrastructure that should have been placed in service in a prior fiscal year. The restatement was comprised of adjustments to infrastructure, accumulated depreciation, and construction in progress, of \$13,488,684, (\$2,386,389), and (\$13,488,684), respectively.

Beginning net position was adjusted for the above as follows:

	Governmental Activities
Net position reported as of June 30, 2019	\$3,418,079,046

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	
Governmental funds capital outlay	181,109,257
Government-wide depreciation expense for the year ended June 30, 2020	(105,302,763)
Add: Internal service funds depreciation expense for the year ended June 30, 2020	6,776,818
	<u>82,583,312</u>
The net effect of various miscellaneous transactions involving capital assets is a decrease to net position.	
Donations of capital assets	11,021,780
Net value of disposed capital assets for the year ended June 30, 2020	(32,012,688)
Adjustment for net value of assets acquired in prior years	711,493
	<u>(20,279,415)</u>
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	
Grant revenues earned but not yet received during the year ended June 30, 2020	1,067,662
Property taxes earned but not yet received during the year ended June 30, 2020	2,536,532
Collections of unavailable revenue plus current-year revenues exceeding amount reported as earned during the year ended June 30, 2020	(1,793,500)
	<u>1,810,694</u>
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is issued, whereas these amounts are amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Proceeds from certificates of participation	(133,440,000)
Principal payments on certificates of participation	65,255,000
Proceeds from capital leases	(20,397,791)
Principal payments on capital leases	1,195,775
Increase in COPs premium	(7,397,084)
Amortization of COPs premium	2,883,784
Amortization of deferred charges on debt refunding	49,476
	<u>(91,850,840)</u>
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.	
Net increase in employee compensation payable	(835,975)
Increase in inventories	2,811,348
Net decrease in closure and postclosure care costs	787,068
Net decrease in claims and judgments	2,595,631
	<u>5,358,072</u>
Internal service funds are used by management to charge the costs of equipment services, technology infrastructure, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The net expense of external activities of these funds is reported with governmental activities.	
	<u>(12,258,500)</u>
County pension and OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension and OPEB liability is measured a year before the County's report date. Pension and OPEB expense, which is the change in the net liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.	
County pension and OPEB contributions	159,495,431
Pension and OPEB expense	(140,752,437)
	<u>18,742,994</u>
Change in net position of governmental activities	<u>\$ 262,669,841</u>

## NOTE 6 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

At June 30, 2020, the following nonmajor governmental and proprietary funds reported deficits in fund balance or net position.

<u>FUND</u>	<u>DEFICIT</u>
<b>Governmental Funds:</b>	
Adult Probation Grants	\$ 69,902
Air Quality Grants	382,007
Animal Control Grants	8,458
CDBG Housing Trust	4,336
Clerk of the Court Grants	145,162
Correctional Health Grants	482
County Attorney Grants	275,834
Emergency Management	227,730
Human Services Grants	3,098,855
Non-Departmental Grants	307
Public Defender Grants	1,355
Public Health Grants	2,963,613
School Grants	1,681,833
Sheriff Grants	524,969
Superior Court Grants	108,743
Transportation Grants	56,638
<b>Proprietary Funds:</b>	
Equipment Services	\$ 2,573,946
Risk Management	62,974,992

The deficits in fund balances for Adult Probation Grants, Air Quality Grants, Animal Control Grants, CDBG Housing Trust, Clerk of the Court Grants, Correctional Health Grants, County Attorney Grants, Emergency Management, Human Services Grants, Non-Departmental Grants, Public Defender Grants, Public Health Grants, School Grants, Sheriff Grants, Superior Court Grants, and Transportation Grants funds were attributed to the deferring of certain grant revenues. The County accrues grant revenue received within 60 days after year-end, as it is available and measurable. Revenues received after 60 days are considered not available and are therefore not accrued.

As of June 30, 2020, Equipment Services had deficit net position of \$2,573,946. This is primarily due to the reporting of noncurrent net pension liabilities as a result of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*.

The Risk Management Fund's funding plan calls for the fiscal year ending cash balance to equal the next year's estimated claims and claims related expenses. As of June 30, 2020, the total net position deficit was \$62,974,992. This is primarily due to the Risk Management Fund not being funded for noncurrent accrued claim liabilities.

For the year ended June 30, 2020, expenditures exceeded final budget amounts at the department level in the Coronavirus Relief Fund as follows:

<u>Fund/Department</u>	<u>Excess</u>
Coronavirus Relief Fund:	
Correctional Health	\$ 12,694,483
Sheriff	64,783,346

The Coronavirus Relief Fund was created to account for U.S. Department of Treasury CARES Act funding and the necessary expenditures due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19). As this was a new source of revenue with specific expenditure guidelines, the County established each department's estimated budget based on the guidelines initially established by the U.S. Department of Treasury. However, as updated guidance was issued by the U.S. Department of the Treasury which provided clarity on what types of expenditures would be allowable, additional expenditures were incurred by the departments over what was originally budgeted. The excesses for Correctional Health and Sheriff were primarily the result of public safety and public health salaries that were allocated out of the General and Detention funds to the Coronavirus Relief Fund. The allocation of these salaries was approved by the Board of Supervisors, however, due to the timing of the allocation, the departmental budgets could not be adjusted.

### NOTE 7 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes, and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the County Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

#### Credit risk

Statutes have the following requirements for credit risk:

1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
2. Specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars must be rated "A" or better at the time of purchase by at least two nationally recognized rating agencies.
3. Fixed income securities must carry 1 of the 2 highest ratings by Moody's investors service and Standard and Poor's rating service. If only 1 of the above-mentioned services rates the security, it must carry the highest rating of that service.

#### Custodial credit risk

Statutes require collateral for deposit at 102 percent of all deposits federal depository insurance does not cover.

#### Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

#### Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. However, the Stadium District is allowed by a separate statute to invest monies, not held for operations, in eligible investments with a maturity of greater than 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

#### Foreign currency risk

Statutes do not allow foreign investments, unless the investment is denominated in United States dollars.

**Deposits**—At June 30, 2020, the carrying amount of the County's deposits was \$1,556,432,281 and the bank balance was \$1,550,798,343. It is the County's investment policy to collateralize all deposits not covered by depository insurance in accordance with Statutes. At a minimum, the collateral is to be held by the pledging financial institution or its agent, but does not have to be held in the County's name.

**Investments**—The County had total investments of \$4,891,505,954 at June 30, 2020. The County categorized certain investments measured at fair value within the fair value hierarchy established by generally accepted accounting principles as follows:

## Notes to the Financial Statements (Continued)

Investments by fair value level	Amount	Fair value measurement using		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)

<b>Total investments measured at the NAV</b>	<b>1,052,162,708</b>			
<b>Investments measured at amortized cost</b>				
School/fire district bonds	5,550,258			
Other investments	2,582,577			
<b>Total investments measured at amortized cost</b>	<b>8,132,835</b>			
<b>Total investments</b>	<b>\$ 4,891,505,954</b>			

Investments categorized as level 2 are valued using institutional bid evaluations based on Intercontinental Exchange (ICE) Data Services automated pricing models. Corporate bonds categorized as level 3 are valued using Bloomberg. Money market mutual funds are valued using a net asset value (NAV) of \$1.00 per share. Privately placed school/fire district bonds with maturities beyond 90 days categorized as level 3 are valued using information from similar assets. Privately placed school/fire district bonds with a maximum maturity of 90 days are measured at amortized cost.

The \$2,582,577 of other investments are related to the Public Fiduciary, which invests in equities, mutual funds, U.S. Treasury securities, and other types of investments as directed by court order. As these investment amounts are immaterial, no deposits or investment risk (credit risk, custodial credit risk, concentration of credit risk, and interest rate risk) disclosures will be reported for these investments.

**Credit risk** – It is the County's investment policy to preserve the principal value and the interest income of an investment. The County can invest in obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, or instrumentalities. The County can also invest in commercial paper and corporate bonds with ratings that meet the statutory requirements specified above. At June 30, 2020, credit risk for the County's investments was as follows:

Investment Type	Rating	Rating Agency	Amount
U. S. agency securities	Aaa	Moody's	\$ 778,837,692
U. S. agency securities	AA+	S & P	731,105,478

Money market mutual funds with trustee	Aaa-mf	Moody's	69,890,951
			\$ 4,854,319,194

The \$93,006,333 of unrated school/fire district bonds are issued by various school districts that deposit their monies with the County Treasurer.

**Custodial credit risk** – For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the County will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. It is the County's investment policy that all of the Treasurer's securities be held by the agent or trust department and in the County's name. At June 30, 2020, the County did not have investments exposed to custodial credit risk.

**Concentration of credit risk** – It is the County's investment policy to preserve the principal value of its investments. However, due to the limited investments allowed under statutes and the desire to preserve the principal value, the County's investments may have a concentration of credit risk of more than 5 percent of total investments in one issuer. Five percent or more of the County's investments at June 30, 2020, were in the Goldman Sachs, Federal Home Loan Mortgage Corporation (Freddie Mac), JP Morgan Chase, the Federal Farm Credit Banks (FFCB), and Wells Fargo. These investments were 12.9 percent, 11.8 percent, 10.5 percent, 9.1 percent, and 7.9 percent, respectively, of the County's total investments.

**Interest rate risk** – It is the County's investment policy to hold investments to maturity, where practical, and avoid any loss on investments resulting from an early sale or retirement of an investment.

Additionally, securities should be invested for a shorter duration, where applicable. At June 30, 2020, the County had the following investments in debt securities.

Investment Type	Amount	Investment Maturities	
		Less than 1 Year	1 – 5 Years
U.S. Treasury securities	\$ 34,604,183	\$ 34,604,183	\$

School/fire district bonds	93,066,333	5,550,258	87,516,075
Money market mutual funds	982,271,757	982,271,757	
Money market mutual funds with trustee	69,890,951	69,890,951	
	\$4,888,923,377	\$1,412,651,494	\$3,476,271,883

**Foreign currency risk** – The County does not have a formal investment policy with respect to foreign currency risk because State statutes do not allow foreign investments.

### NOTE 8 – CONDENSED FINANCIAL STATEMENTS OF COUNTY TREASURER’S INVESTMENT POOL

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County’s monies under his stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments monthly and at June 30.

The County Treasurer’s investment pool is not registered with the Securities and Exchange Commission as an investment company and there is no regulatory oversight of its operations. The pool’s structure does not provide for shares, and the County has not provided or obtained any legally binding guarantees to support the value of the participants’ investments.

The Treasurer allocates interest earnings to each of the pool’s participants. However, for the County’s monies in the pool, the Board of Supervisors authorized \$9,469,000 of interest earned in certain other funds to be transferred to the General Fund.

The County’s deposits and investments are included in the County Treasurer’s investment pool, except for \$165,241 of cash on hand, \$69,890,951 of mutual funds with trustee, \$580,991,608 of cash and investments held by the County Treasurer in an individual investment account, and \$125,881,005 of other deposits and investments. The deposit and investment risks of the Treasurer’s investment pool are substantially the same as the County’s deposit and investment risks. The amount held in an individual investment account consists solely of cash and investments held for a separate legal entity. Although these assets are held in a separate investment account, it is the County’s investment policy to preserve the principal value and the interest income of an investment. See Note 7 – Deposits and Investments for disclosure of the County’s deposit and investment risks.

Certificates of participation, loans, and other payables were as follows at June 30, 2020:

#### Certificates of Participation

On August 26, 2016, the Maricopa County Public Finance Corporation issued Certificates of Participation, Series 2016, direct placement, for \$44,460,000 with an interest rate at 1.35% to refund \$51,095,000 of outstanding Lease Revenue Bonds, Series 2007A with interest rates ranging from 4.00% - 5.00%. The certificates are payable semiannually on January 1 and July 1 of each year through 2023. These certificates are secured by the collateralization of the South Court Tower. The certificates are not callable prior to their scheduled maturity dates.

On March 14, 2018, Maricopa County issued \$106,295,000 of Certificates of Participation, Series 2018A, to pay for the redevelopment of the County's former Madison Street Jail into office space and related parking facilities. The 2018A Certificates were executed and delivered under a trust agreement, dated June 1, 2015, and by a second supplement to the trust agreement, dated as of March 1, 2018. The certificates have interest rates ranging from 4.0 to 5.0 percent, payable semiannually on January 1 and July 1 each year, commencing on July 1, 2018 through 2024. These certificates are secured by the collateralization of the South Court Tower. The certificates are not callable prior to their scheduled maturity dates.

On February 4, 2020, Maricopa County issued \$133,440,000 of Certificates of Participation, Series 2020 to pay for various capital projects. The two largest projects are the Administration Building Renovation and the Southeast Regional Justice Center at Mesa. The 2020 Certificates were executed and delivered under

a trust agreement, dated June 1, 2015, and by a third supplement to the trust agreement, dated as of February 1, 2020. The certificates have interest rates ranging from 4.0 to 5.0 percent, payable semiannually on January 1 and July 1 each year, commencing on July 1, 2020 through 2022. These certificates are secured by the collateralization of the South Court Tower. The certificates are not callable prior to their scheduled maturity dates.

The County's outstanding Certificates of Participation, direct placement and Certificates of Participation of \$25,850,000 and \$210,275,000, respectively, contain provisions that in an event of default, the trustee may at its option elect to terminate the lease, take possession of the leased property, and/or sell, convey, re-rent or re-let the leased property. The County's Certificates of Participation also contain a subjective acceleration clause that in an event of default allows the owners of at least 5% in outstanding principal amount to request the trustee to declare the certificates to be immediately due and payable.

The County also has an unused revolving line of credit in the amount of \$35,000,000.

The following certificates of participation were outstanding at June 30, 2020:

DESCRIPTION	AMOUNT OF ISSUE	INTEREST RATES	MATURITY DATES	OUTSTANDING AT JUNE 30, 2020
COP, Series 2016 direct placement	\$ 44,460,000	1.35%	7-1-20/23	\$ 25,850,000

### Capital Leases

The County has entered into various lease-purchase agreements, which are non-cancellable, for the acquisition of the following equipment:

	Governmental Activities
Vehicles, Computer Systems, and Equipment	\$ 7,738,702
Construction in Progress - Vehicles	2,737,988
Total Capital Assets	10,476,690
Less: Accumulated Depreciation	(1,846,768)
Net Value of Leased Capital Assets	<u>\$ 8,629,922</u>

These lease-purchase agreements require the County to pay all maintenance costs. At the time of the final principal and interest payments, title to the leased equipment transfers to the County. These leases are contingent on budgetary appropriations each fiscal year. The assets are capitalized at total principal cost.

The following schedule details debt service requirements to maturity for the County's capital leases payable at June 30, 2020.

## Notes to the Financial Statements (Continued)

Year Ending June 30	Governmental Activities
2021	\$ 400,855
2022	20,770,136
Total minimum lease payments	21,170,991
Less: amount representing interest	(387,141)
Present value of net minimum lease payments	<u>\$ 20,783,850</u>

The present value of net minimum lease payments at June 30, 2020, of \$20,783,850 exceeds the net value of leased assets of \$8,629,922 because a portion of the assets acquired through capital leases are for computer related equipment that is below the County's capitalization threshold.

Governmental Activities Liabilities	Funding Source
Certificates of participation	County Improvement Debt Fund
Capital leases	County Improvement Debt Fund, General Fund, Recorders Surcharge Fund
Claims and judgments	General Fund, Transportation Operations Fund and Flood Control Fund (nonmajor special revenue funds)
Reported and incurred but not reported claims	Risk Management Fund and Employee Benefits Trust Fund (internal service funds)
Liability for closure and postclosure costs	General Fund
Net pension and other postemployment benefits liabilities	Various funds

### Legal Debt Margin

County indebtedness pertaining to general obligation bonds may not exceed six percent of the value of the County's taxable property ascertained by the last assessment. However, with voter approval, the County may become indebted for an amount not to exceed fifteen percent of such taxable property. At June 30, 2020, the allowable six and fifteen percent limits were \$2,591,659,584 and \$6,479,148,959, respectively. The County had no outstanding general obligation debt at June 30, 2020 and was therefore within the legal debt margin.

### Arbitrage Compliance

The County is in compliance with all Federal arbitrage regulations for tax-exempt debt securities. As of June 30, 2020, the County had no arbitrage liability.

## Notes to the Financial Statements

### NOTE 14 – MUNICIPAL LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The County has five landfills which are subject to closure and postclosure care requirements. Federal and State laws and regulations require the County to place a final cover on all its landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for 30 years after closure. Although one landfill is exempt from these regulations, the County is performing postclosure monitoring of this site and has included the estimated costs in the closure and postclosure liability.

The County's last remaining landfill stopped accepting waste May 2007 and the final cover was completed in October 2010. At June 30, 2020, the County updated the estimates required to pay for maintenance and monitoring at the County's five landfill sites, in accordance with generally accepted accounting principles. The County estimated these costs to be approximately \$10,121,751.

The County's estimate for closure and postclosure care requirements for the five landfills are subject to change due to inflation, changes in technology, changes in regulations, or results of an investigational study. All associated closure and postclosure costs will be paid from the General Fund. These amounts are based on what it would cost to perform all closure and postclosure care and remedial investigation costs in fiscal year 2020.

According to Federal and State laws and regulations, the County must comply with the local government financial test requirements that ensure the County can meet the costs of landfill closure, postclosure, and corrective action when needed. The County is in compliance with these requirements.

### NOTE 15 – MUNICIPAL REVOLVING LINE OF CREDIT AND IRREVOCABLE STANDBY LETTER OF CREDIT

On July 1, 2019, the County maintained a \$35,000,000 municipal revolving line of credit with a qualified interest rate of 61% and a non-qualified interest rate of 66% of the bank's prime rate, which had a maturity date of June 30, 2020. Outstanding principal and interest are due on June 30 of each year. During fiscal year 2020, the County had not borrowed against the line of credit. The municipal revolving line of credit was renewed to June 30, 2021.

On July 1, 2019, the County maintained a \$12,937,811 irrevocable standby letter of credit issued to the Industrial Commission of Arizona for unfunded workers' compensation claims. On January 1, 2020, the letter of credit was increased to \$14,552,488. The letter of credit was reserved against the municipal revolving line of credit. During fiscal year 2020, the letter of credit had not been drawn upon. The irrevocable standby letter of credit was renewed to June 30, 2021. However, an amendment will be issued on January 1, 2021, for the new liability amount.

### NOTE 16 – OPERATING LEASES

The County's operating leases are for land, buildings, office equipment, and vehicles under the provisions of various long-term lease agreements classified as operating leases for accounting purposes. Rental expenses under the terms of these operating leases for governmental activities were \$11,743,831 for the year ended June 30, 2020. These operating leases have remaining lease terms from one to eleven years. Also, they provide renewal options and are contingent on budgetary appropriations each fiscal year. The future minimum rental payments required under these operating leases as of June 30, 2020, are as follows:

Year Ending June 30	Governmental Activities
2021	\$ 5,866,370
2022	4,173,756
2023	3,646,233
2024	1,775,166
2025	1,188,436
2026-2030	1,508,817
2031	69,600
Total minimum payments required	<u>\$ 18,228,378</u>

### NOTE 17 – RISK MANAGEMENT

The Risk Management Fund (internal service fund) accounts for the financing of the insured risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries commercial insurance for all such risks of loss, including workers' compensation and employees' health and accident insurance. Settled claims resulting from these risks have not exceeded this commercial coverage since the inception of these insurance policies.

Liabilities for unpaid claims are estimates determined by an independent actuary using the following actuarial methods: developed paid loss, developed reported incurred losses, developed case reserves, frequency times severity analysis, loss rate analysis, and the Bornhuetter-Ferguson method. Accrued actuarial liabilities are based on a discounted expected confidence level assuming a 2.0 percent annual rate of return on investments. Accrued actuarial liabilities at June 30, 2020, for each insurable area follow:

Auto liability	\$ 1,588,000
General liability	16,045,000
Workers' compensation	18,654,000
Medical malpractice	2,182,000
Auto physical damage	112,000
Property	149,000
Professional liability	619,000
Environmental property damage	1,959,020
Environmental liability	24,570,661
Unallocated	4,486,000
Total	<u>\$ 70,364,681</u>

Changes in the unpaid claims liability reported in the Risk Management Trust Fund follow:

Year	Balance July 1	Current-Year Claims And Changes In Estimates	Claims Payments	Balance June 30
2017-18	\$ 74,498,549	\$ 18,355,104	\$ (15,858,067)	\$ 76,995,586
2018-19	76,995,586	7,155,306	(19,209,920)	64,940,972
2019-20	64,940,972	20,685,617	(15,261,908)	70,364,681

The Employee Benefits Trust Fund (internal service fund) accounts for the financing of the insured risk of loss for certain health benefits (medical, dental, short-term disability, behavioral health, and vision claims) to eligible employees and their dependents.

Accrued actuarial liabilities at June 30, 2020, for each insurable area follow:

Medical	\$ 14,483,343
Dental	538,129
Short-term disability	396,859
Behavioral health	266,856
Vision	77,706
Pharmacy	70,956
Total	<u>\$ 15,833,849</u>

Changes in the unpaid claims liabilities reported in the Employee Benefits Trust Fund follow:

Year	Balance July 1	Current-Year Claims and Changes In Estimates	Claims Payments	Balance June 30
2017-18	\$ 14,544,612	\$ 141,278,161	\$ (143,385,621)	\$ 12,437,152
2018-19	12,437,152	152,951,923	(150,949,662)	14,439,413
2019-20	14,439,413	160,130,988	(158,736,552)	15,833,849

### NOTE 18 – POLLUTION REMEDIATION OBLIGATIONS

Maricopa County has estimated and reported a pollution remediation obligation in the Risk Management internal service fund financial statements for the current or potential detrimental effects of existing pollution. These obligations are categorized under environmental property damage and environmental liability in Note 17 – Risk Management. At June 30, 2020, the County reported \$26,147,643 of reported but unpaid claims, which is composed of the following pollution remediation obligations.

Landfill – The County entered into a Consent Decree with ADEQ to remediate contaminated groundwater at a County landfill. A Remedial Action Plan was approved by ADEQ in November 2016. The County’s reported pollution remediation liability is an estimate provided by a professional environmental consultant. The estimate consists of a groundwater remediation program, a soil vapor extraction system and continued mandated monitoring and reporting to ADEQ.

A portion of County property adjacent to a municipal landfill is on the Superfund National Priorities List by the United States Environmental Protection Agency (EPA), pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. §9605(a)(8), due to suspected groundwater contamination. The County is responsible for 27.78% of the remediation costs. The County’s reported pollution remediation liability is an estimate provided by a professional environmental consultant. The groundwater extraction and soil vapor extraction treatment systems will continue to be run until the groundwater and soil meet cleanup levels.

The County pollution remediation liability is subject to change due to changes in the cost of goods and services, changes in remediation technology, or changes in laws and regulations governing the remediation effort. The County has no estimated recoveries at this time.

### NOTE 19 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The County contributes to the pension plans described below. The plans are component units of the State of Arizona.

At June 30, 2020, the County reported the following aggregate amounts related to pensions and other postemployment benefits (OPEB) for all plans to which it contributes:

Statement of Net Position and Statement of Activities	Governmental Activities	Business-Type Activities	Total
Net pension and OPEB asset	\$ 16,637,315	\$	\$ 16,637,315
Net pension and OPEB liability	1,877,262,004	2,865,124	1,880,127,128
Deferred outflows of resources related to pensions and OPEB	382,854,241	326,653	383,180,894
Deferred inflows of resources related to pensions and OPEB	94,010,803	315,399	94,326,202
Pension and OPEB expense	142,279,240	81,590	142,360,830

The details of the OPEB plans are not disclosed in the note below as the amounts are not material.

The County’s accrued payroll and employee benefits includes \$6,201,144 of outstanding pension contribution amounts payable to all pension plans for the year ended June 30, 2020. Also, the County reported \$155,574,948 of pension contributions as expenditures in the governmental funds related to all pension plans to which it contributes.

#### A. Arizona State Retirement System

**Plan description**—County employees not covered by the other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan. The Arizona State Retirement System Board governs

## Notes to the Financial Statements

the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 2. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at [www.azasrs.gov](http://www.azasrs.gov).

**Benefits provided**—The ASRS provides retirement and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial membership date:	
	Before July 1, 2011	On or after July 1, 2011
Years of service and age required to receive benefit	Sum of years and age equals 80 10 years, age 62 5 years, age 50* any years, age 65	30 years, age 55 25 years, age 60 10 years, age 62 5 years, age 50* any years, age 65
Final average salary is based on	Highest 36 consecutive months of last 120 months	Highest 60 consecutive months of last 120 months
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%

\*With actuarially reduced benefits.

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions**—In accordance with State statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2020, statute required active ASRS members to contribute at the actuarially determined rate of 11.94 percent of the members' annual covered payroll for retirement, and statute required the County to contribute at the actuarially determined rate of 11.45 percent of the active members' annual covered payroll. In addition, the County was required by statute to contribute at the actuarially determined rate of 10.29 percent of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the ASRS would typically fill. The County's contributions to the pension plan for the year ended June 30, 2020, were \$62,456,719.

During fiscal year 2020, the County paid for ASRS pension contributions as follows: 60 percent from the General Fund, 12 percent from major funds, and 28 percent from other funds.

**Pension liability**—At June 30, 2020, the County reported a liability of \$740,981,614 for its proportionate share of the ASRS' net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2018, to the measurement date of June 30, 2019. The County's proportion of the net pension liability was based on the County's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2019. The County's proportion measured as of June 30, 2019, was 5.1 percent, which was an increase of 0.2 from its portion measured as of June 30, 2018.

## Notes to the Financial Statements

(Continued)

**Pension expense and deferred outflows/inflows of resources**—For the year ended June 30, 2020, the County recognized pension expense for the ASRS of \$70,600,947. At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience	\$ 13,386,038	\$ 139,318
Changes of assumptions or other inputs	3,132,164	29,507,347
Net difference between projected and actual earnings on plan investments		16,654,720
Changes in proportion and differences between county contributions and proportionate share of contributions	17,051,891	4,544,178
County contributions subsequent to the measurement date	62,456,719	
<b>Total</b>	<b>\$ 96,026,812</b>	<b>\$ 50,845,563</b>

The amount reported as deferred outflows of resources related to ASRS pensions resulting from county contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as expenses as follows:

Year ending June 30	
2021	\$ (6,115,428)
2022	(12,422,232)
2023	(3,198,402)
2024	4,460,592

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension liability are as follows:

### ASRS

Actuarial valuation date	June 30, 2018
Actuarial roll forward date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.5%
Projected salary increases	2.7–7.2%
Inflation	2.3%
Permanent benefit increase	Included
Mortality rates	2017 SRA Scale U-MP

Actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by

## Notes to the Financial Statements

(Continued)

adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Geometric Real Rate of Return
Equity	50%	6.09%
Credit	20%	5.36%
Interest rate sensitive bonds	10%	1.62%
Real estate	20%	5.85%
Total	100%	

**Discount rate**— The discount rate used to measure the ASRS total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the County's proportionate share of the ASRS net pension liability to changes in the discount rate**—The following table presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5 percent) or 1 percentage point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
County's proportionate share of the Net pension liability	\$ 1,054,588,476	\$ 740,981,614	\$ 478,887,005

**Pension plan fiduciary net position**—Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

### **B. Public Safety Personnel Retirement System and Corrections Officer Retirement Plan**

**Plan descriptions**—County sheriff employees and County attorney investigators who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). Previously, County park rangers participated in the PSPRS; however, the plan currently has no active members and only four inactive members. This plan has not had any active members since fiscal year 2006-07. The net pension liability for this plan of \$510,725 is included in the County's total net pension liability; however, the details of this plan are not disclosed in the note below as there are no active members and it is not material. The PSPRS administers agent and cost-sharing multiple-employer defined benefit pension plans. A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. County sheriff employees who are PSPRS members participate in the agent plan. County attorney investigators who were PSPRS members before July 1, 2017, participate in the agent plan, and those who became PSPRS members on or after July 1, 2017, participate in the cost-sharing plan (PSPRS Tier 3 Risk Pool), which is not further disclosed because of its relative insignificance to the County's financial statements.

County detention officers and Administrative Office of the Courts (AOC) probation, surveillance, and juvenile detention officers participate in the Corrections Officer Retirement Plan (CORP) or the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The CORP administers an agent multiple-employer defined benefit pension plan (agent plan), which was closed to new members as of July 1, 2018, and a cost-sharing multiple-employer defined benefit pension plan for AOC officers (cost-sharing plan). Employees who were CORP members before July 1, 2018, participate in CORP, and AOC probation and surveillance officers who became members on or after July 1, 2018, participate in CORP or PSPDCRP. Detentions officers who became members on or after July 1, 2018, participate in PSPDCRP. The PSPRS Board of Trustees and the participating local boards govern CORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 6.

The PSPRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPRS and CORP plans. The report is available on the PSPRS website at [www.psprs.com](http://www.psprs.com).

**Benefits provided**—The PSPRS and CORP provide retirement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

<b>PSPRS</b>			
Initial membership date:			
	Before January 1, 2012	On or after January 1, 2012 and before July 1, 2017	On or after July 1, 2017

Final average salary is based on	Highest 36 consecutive months of last 20 years	Highest 60 consecutive months of last 20 years	Highest 60 consecutive months of last 15 years
<b>Benefit percent</b>			
Normal retirement	50% less 2.0% for each year of credited service less than 20 years OR plus 2.0% to 2.5% for each year of credited service over 20 years, not to exceed 80%	1.5% to 2.5% per year of credited service, not to exceed 80%	
Accidental disability retirement	50% or normal retirement, whichever is greater		
Catastrophic disability retirement	90% for the first 60 months then reduced to either 62.5% or normal retirement, whichever is greater		
Ordinary disability retirement	Normal retirement calculated with actual years of credited service or 20 years of credited service, whichever is greater, multiplied by years of credited service (not to exceed 20 years) divided by 20		
<b>Survivor Benefit</b>			
Retired members	80% to 100% of retired member's pension benefit		
Active members	80% to 100% of accidental disability retirement benefit or 100% of average monthly compensation if death was the result of injuries received on the job		

\*With actuarially reduced benefits.

<b>Survivor benefit</b>			
Retired members	80% of retired member's pension benefit		
Active members	40% of average monthly compensation or 100% of average monthly compensation if death was the result of injuries received on the job. If there is no surviving spouse or eligible children, the beneficiary is entitled to 2 times the member's contributions.		

\*With actuarially reduced benefits.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

**Employees covered by benefit terms**—At June 30, 2020, the following employees were covered by the agent pension plans' benefit terms:

	PSPRS Sheriff	PSPRS Attorney Investigators	CORP Detention
Inactive employees or beneficiaries currently receiving benefits	514	19	630
Inactive employees entitled to but not yet receiving benefits	108	4	496
Active employees	591	10	1,754
<b>Total</b>	<b>1,213</b>	<b>33</b>	<b>2,880</b>

**Contributions**—State statutes establish the pension contribution requirements for active PSPRS and CORP employees. In accordance with State statutes, annual actuarial valuations determine employer contribution requirements for PSPRS and CORP pension benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2020, are indicated below. Rates are a percentage of active members' annual covered payroll.

	Active member- pension	County-pension
PSPRS Sheriff	7.65%-11.65%	56.83%-61.74%
PSPRS Attorney Investigators	7.65%-11.65%	46.17%
CORP Detention	8.41%	25.53%
CORP AOC	8.41% or 9.90%	27.91% or 30.71%

In addition, statute required the County to contribute at the actuarially determined rate indicated below of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the PSPRS or CORP would typically fill and employees participating in the PSPDCRP in addition to the County's required contributions to the PSPDCRP.

	Pension
PSPRS Sheriff	46.63%
PSPRS Attorney Investigators	30.73%
CORP Detention	17.79%
CORP AOC	22.96%

The County's contributions to the pension plans for the year ended June 30, 2020, were:

	Pension
PSPRS Sheriff	\$ 32,315,977
PSPRS Attorney Investigators	1,377,237
CORP Detention	25,084,557
CORP AOC	22,028,084

During fiscal year 2020, the County paid for PSPRS and CORP pension contributions as follows: 51 percent from the General Fund, 48 percent from major funds, and 1 percent from other funds.

**Pension liability**—At June 30, 2020, the County reported the following liabilities:

	Net pension liability
PSPRS Sheriff	\$ 358,716,320
PSPRS Attorney Investigators	3,565,056
CORP Detention	275,467,410
CORP AOC (County's proportionate share)	254,496,651

The net pension liabilities were measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liabilities as of June 30, 2019, reflect changes of actuarial assumptions to decrease the investment rate of return from 7.4 percent to 7.3 percent and update the mortality rates.

**Pension actuarial assumptions**—The significant actuarial assumptions used to measure the total pension liability are as follows:

## Notes to the Financial Statements

(Continued)

### PSPRS and CORP

Actuarial valuation date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.3%
Wage inflation	3.5%
Price inflation	2.5%
Cost-of-living adjustment	1.75%
Mortality rates	PubS-2010 tables

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on PSPRS and CORP pension plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

### PSPRS and CORP

Asset class	Target allocation	Long-term expected geometric real rate of return
Short term investments	2%	0.25%
Risk parity	4%	4.01%
Fixed income	5%	3.00%
Real assets	9%	6.75%
GTS	12%	4.01%
Private credit	16%	5.36%
Real estate	10%	4.50%
Private equity	12%	8.40%
Non-U.S. equity	14%	5.00%
U.S. equity	16%	4.75%
Total	100%	

**Pension discount rates**—At June 30, 2019, the discount rate used to measure the PSPRS and CORP total pension liabilities was 7.3 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2018. The projection of cash flows used to determine the discount rates assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The County's proportion of the CORP AOC net pension liability was based on the County's actual contributions to the pension plans relative to the total of all participating counties' actual contributions for the year ended June 30, 2019. The County's proportion measured as of June 30, 2019, was 60.3 percent, which was an increase of 1.4 from its proportion measured as of June 30, 2018.

**Sensitivity of the County's net pension liability to changes in the discount rate**—The following table presents the County's net pension liabilities calculated using the discount rate of 7.3 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.3 percent) or 1 percentage point higher (8.3 percent) than the current rate:

**PSPDCRP plan**—County sheriff employees, County attorney investigators, County detention officers, and AOC probation, surveillance, and juvenile detention officers who are not members of PSPRS or CORP participate in the PSPDCRP. The PSPDCRP is a defined contribution pension plan. The PSPRS Board of Trustees governs the PSPDCRP according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.1. Benefit terms, including contribution requirements, are established by State statute.

For the year ended June 30, 2020, active PSPDCRP members were required by statute to contribute at least 9 percent (County sheriff employees and County attorney investigators) or 5 percent (County detention officers, and AOC probation, surveillance, and juvenile detention officers) of the member's annual covered payroll, and the County was required by statute to contribute 9 percent or 5 percent, respectively, of active members' annual covered payroll to an individual employee account. Employees are immediately vested in their own contributions and the earnings on those contributions. Employees vest in a portion of the County's contributions each year as set forth in statute. The plan retains nonvested County contributions when forfeited because of employment terminations. For the year ended June 30, 2020, the County recognized pension expense of \$544,182.

### C. Elected Officials Retirement Plan

**Plan description**—Elected officials and judges participate in the Elected Officials Retirement Plan (EORP), ASRS or the Elected Officials Defined Contribution Retirement System (EODCRS). EORP administers a cost-sharing multiple-employer defined benefit pension plan for elected officials and judges who were members of the plan on December 31, 2013. The plan was closed to new members as of January 1, 2014. The PSPRS Board of Trustees governs the EORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The PSPRS issues a publicly available financial report that

## Notes to the Financial Statements

includes financial statements and required supplementary information for the EORP plan. The report is available on PSPRS's website at [www.psprs.com](http://www.psprs.com).

**Benefits provided**—The EORP provides retirement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

	Initial membership date:	
	Before January 1, 2012	On or after January 1, 2012
<b>Retirement and disability</b>		
Years of service and age required to receive benefit	20 years, any age 10 years, age 62 5 years, age 65 5 years, any age* any years and age if disabled	10 years, age 62 5 years, age 65 any years and age if disabled
Final average salary is based on	Highest 36 consecutive months of last 10 years	Highest 60 consecutive months of last 10 years
<b>Benefit percent</b>		
Normal Retirement	4% per year of service, not to exceed 80%	3% per year of service, not to exceed 75%
Disability Retirement	80% with 10 or more years of service 40% with 5 to 10 years of service 20% with less than 5 years of service	75% with 10 or more years of service 37.5% with 5 to 10 years of service 18.75% with less than 5 years of service
<b>Survivor benefit</b>		
Retired Members	75% of retired member's benefit	50% of retired member's benefit
Active Members and other inactive members	75% of disability retirement benefit	50% of disability retirement benefit

\* With reduced benefits of 0.25% for each month early retirement precedes the member's normal retirement age, with a maximum reduction of 30%.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. In addition, the Legislature may enact permanent one-time benefit increases after a Joint Legislative Budget Committee analysis of the increase's effects on the plan.

**Contributions**—State statutes establish active member and employer contribution requirements. Statute also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State of Arizona to supplement the normal cost plus an amount to amortize the unfunded accrued liability and designates a portion of certain court fees for the EORP. For the year ended June 30, 2020, statute required active EORP members to contribute 7 or 13 percent of the members' annual covered payroll and the County to contribute at the actuarially determined rate of 61.43 percent of all active EORP members' annual covered payroll. Also, statute required the County to contribute 49.49 percent to EORP of the annual covered payroll of elected officials and judges who were ASRS members and 55.43 percent to EORP of the annual covered payroll of elected officials and judges who were EODCRS members, in addition to the County's required contributions to ASRS and EODCRS for these elected officials and judges. In addition, statute required the County to contribute 39.72 percent of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the EORP would typically fill. The County's contributions to the pension plan for the year ended June 30, 2020, were \$14,032,510.

## Notes to the Financial Statements

(Continued)

During fiscal year 2020, the County paid for EORP pension contributions as follows: 97.6 percent from the General Fund and 2.4 percent from other nonmajor funds.

**Pension liability**—At June 30, 2020, the County reported a liability for its proportionate share of the EORP’s net pension liability that reflected a reduction for the County’s proportionate share of the State’s appropriation for EORP. The amount the County recognized as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the County were as follows:

County’s proportionate share of the EORP net pension liability	\$ 240,825,637
State’s proportionate share of the EORP net pension liability associated with the County	<u>22,635,120</u>
Total	<u>\$ 263,460,757</u>

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total liability as of June 30, 2019, reflect changes of actuarial assumptions to decrease the investment rate of return from 7.4 percent to 7.3 percent and update the mortality rates.

The County’s proportion of the net pension liability was based on the County’s required contributions to the plan relative to the total of all participating employers’ required contributions for the year ended June 30, 2019. The County’s proportion measured as of June 30, 2019, was 36.3 percent, which is an increase of 10.2 from its proportion measured as of June 30, 2018.

**Pension expense and deferred outflows/inflows of resources**—For the year ended June 30, 2020, the County recognized pension expense for EORP of (\$56,991,642) and revenue of (\$1,573,613) for the County’s proportionate share of the State’s appropriation to EORP and the designated court fees. At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<b>EORP</b>	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience	\$ 5,369,263	\$ 228,392
Changes of assumptions or other inputs	757,105	6,843,638
Net difference between projected and actual earnings on pension plan investments	1,638,436	
Changes in proportion and differences between county contributions and proportionate share of contributions	45,411,115	2,545,872
County contributions subsequent to the measurement date	<u>14,032,510</u>	
Total	<u>\$ 67,208,429</u>	<u>\$ 9,617,902</u>

The amounts reported as deferred outflows of resources related to EORP resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions will be recognized in pension expense as follows:

<u>Year ending June 30</u>	
2021	\$ 43,093,747
2022	(417,828)
2023	457,530
2024	424,568

## Notes to the Financial Statements

(Continued)

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension liability are as follows:

<b>EORP</b>	
Actuarial valuation date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.3%
Wage inflation	3.75%
Price inflation	2.5
Cost-of-living adjustment	1.75%
Mortality rates	PubG-2010 tables

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on EORP pension plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset class</u>	<u>Target allocation</u>	<u>Long-term geometric real rate of return</u>
Short term investments	2%	0.25%
Risk parity	4%	4.01%
Fixed income	5%	3.00%
Real assets	9%	6.75%
GTS	12%	4.01%
Private credit	16%	5.36%
Real estate	10%	4.50%
Private equity	12%	8.40%
Non-U.S. equity	14%	5.00%
U.S. equity	16%	4.75%
Total	<u>100%</u>	

**Discount rate**—At June 30, 2019, the discount rate used to measure the EORP total pension liability was 7.3 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the actuarially determined rates, and State contributions will be made as currently required by statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the County's proportionate share of the EORP net pension liability to changes in the discount rate**—The following table presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.3 percent, as well as what the County's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower (6.3 percent) or 1 percentage point higher (8.3 percent) than the current rate:

<u>EORP</u>	<u>1% Decrease (6.3%)</u>	<u>Current discount rate (7.3%)</u>	<u>1% Increase (8.3%)</u>
County's proportionate share of the net pension liability	\$ 275,781,577	\$ 240,825,637	\$ 211,052,583

**Pension plan fiduciary net position**—Detailed information about the pension plan's fiduciary net position is available in the separately issued EORP financial report.

**EODCRS plan**—Elected officials and judges who are not members of EORP or ASRS participate in the EODCRS. The EODCRS is a defined contribution pension plan. The PSPRS Board of Trustees governs the EODCRS according to the provisions of A.R.S Title 38, Chapter 5, Article 3.1. Benefit terms, including contribution requirements, are established by State statute.

For the year ended June 30, 2020, active EODCRS members were required by statute to contribute 8 percent of the members' annual covered payroll, and the County was required by statute to contribute 6 percent of active members' annual covered payroll to an individual employee account. Employees are immediately vested in their own contributions and the County's contributions to the individual employee account and the earnings on those contributions. For the year ended June 30, 2020, the County recognized pension expense of \$287,905.

### NOTE 21 – DISCRETELY PRESENTED COMPONENT UNIT DISCLOSURES

The significant accounting disclosures for Maricopa County's discretely presented component unit, the Industrial Development Authority of Maricopa County (Authority), are presented below. For additional information on the Authority, see Note 1 – Summary of Significant Accounting Policies, Section A – Reporting Entity.

#### A. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Authority's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

The statement of net position and the statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### B. Deposits and Investments

Investments in securities are stated at fair value.

Deposits and investments at June 30, 2020, consist of the following:

Deposits:	
Cash in bank	\$ 833,454
Certificates of deposit	3,083,554
Investments:	
Money market	6,443,056
Federal Home Loan Banks	10,366,175
Federal National Mortgage Association	50,133
Federal Farm Credits Banks Funding Corporation	4,999,991
Federal Home Loan Mortgage Corporation	2,545,676
Government National Mortgage Association	90,407
Arizona Community Foundation	1,782,138
Down Payment Assistance Investment Notes	12,017
Total deposits and investments:	<u>\$ 30,206,601</u>

#### Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority places its cash with high-credit quality financial institutions. At various times throughout the year and at year-end, the Authority's cash balances exceed the federally insured limits. At June 30, 2020, \$6,566,999 was uninsured and uncollateralized. Management believes there are no unusual risks associated with current depository institutions. The Authority has no policy concerning exposure to custodial credit risk.

#### Investments

Interest Rate Risk – The Authority's investment policy concerning exposure to interest rate risk is acceptance of no return lower than the market return normally associated with any specific asset class into which the Authority invests.

## Notes to the Financial Statements (Continued)

Estimated maturities of the Authority's investments consisted of the following at June 30, 2020:

Investment Type	Within six months	Six months to one year	One to three years	More than three years	Totals
Federal National Mortgage Association	\$	\$	\$	\$ 50,133	\$ 50,133

**Concentration Risk** – The Authority's investment policy concerning exposure to concentration risk is to diversify investments so as to minimize the risk of large losses, unless under certain circumstances it is clearly prudent not to do so. More than 5% of IDA's investments at June 30, 2020 were in Federal Home Loan Mortgage Corporation (Freddie Mac), Federal Home Loan Banks, Federal Farm Credits Banks Funding Corporation and the Arizona Community Foundation. These investments were 12.8%, 52.2%, 25.2% and 9.0%, respectively, of the IDA's total investments.

**Credit Risk** – The Authority's investment policy concerning exposure to credit risk is acceptance of no risk in excess of market risks normally associated with any specific asset class into which the Authority invests. At June 30, 2020, credit risk for the Authority's investments was as follows:

Investment type	Moody's Rating	Standard and Poor's Rating
Federal Home Loan Banks	Aaa	AA+
Federal National Mortgage Association	Aaa	AA+
Federal Farm Credit Banks Funding Corporation	Aaa	AA+
Federal Home Loan Mortgage Corporation	Aaa	AA+
Government National Mortgage Association	Aaa	AA+

**Custodial Credit Risk** – The Authority has no policy concerning exposure to custodial credit risk. All investments are reported at fair value. Investments are uninsured and unregistered and held by investment brokers in the Authority's name.

The Authority had an unrealized gain in the fair value of investments of \$185,156 and realized gain of \$107,460 for the year ended June 30, 2020. The unrealized and realized gains are included in unrestricted investment earnings in general revenues in the accompanying Statement of Activities.

**Fair Value of Investments** – In determining fair value, the Authority uses various valuation approaches within the fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability.

The fair value measurement framework establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

## Notes to the Financial Statements

(Continued)

The fair value measurements define levels within the hierarchy based on the reliability of inputs as follows:

Level 1 – Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;

Level 2 – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

The Authority's investments at June 30, 2020, categorized within the fair value hierarchy detailed above were as follows:

	Fair Value Measurements Using			
	Total	Level 1	Level 2	Level 3
Investments by fair value level				
Federal Home Loan Banks	\$ 10,366,175	\$	\$ 10,366,175	\$

**NOTE 1 - BUDGETARY BASIS OF ACCOUNTING**

Budgeting and Budgetary Control

Arizona Revised Statutes (A.R.S.) require the County to prepare and adopt a balanced budget annually for each governmental fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Essentially, the County prepares its budget on the same modified accrual basis of accounting used to record actual revenues and expenditures. However, in the General Fund, Coronavirus Relief Fund, and Detention Operations Fund, the County records capital outlay and debt service expenditures by the expenditure function and department.

The County has adopted budgets in accordance with the A.R.S. requirements for the General, Special Revenue, Debt Service, and Capital Projects Funds, with the exception of the following funds: Accommodation Schools, Children’s Issues Education, Emancipation Administrative Costs, Justice Courts Photo Enforcement, Street Lighting District, Stadium District Debt Service, Intergovernmental Capital Projects, and the Special Improvement Districts funds. In accordance with GASB Statement No. 34, budgetary comparison schedules should be presented in the required supplementary information for only the General Fund and for each major Special Revenue Fund. Formal budget integration is not employed for the Internal Service Funds because effective budgetary control is alternatively achieved through capability of cost recovery. Budgeted amounts are reported as originally adopted and as amended by authorization from the Board of Supervisors. All budget adjustments with the exception of the Judicial Branch, which includes Adult Probation, Justice Courts, Juvenile Probation and Superior Court, require authorization from the Board of Supervisors. The Judicial Branch appropriations can be moved between the Judicial Branch departments by fund, as requested and approved by the Presiding Judge, without further Board approval. Budgeted appropriations include expenditures and transfers out. Expenditures and transfers out may not legally exceed appropriations at the department level. With the exception of the General Fund, Coronavirus Relief Fund, and the Detention Operations Fund, each fund includes only one department.

**NOTE 2 – EXPENDITURES IN EXCESS OF APPROPRIATIONS**

For the year ended June 30, 2020, expenditures exceeded final budget amounts at the department level as follows:

<u>Fund/Department</u>	<u>Excess</u>
Coronavirus Relief Fund:	
Correctional Health	\$ 12,694,483
Environmental Services	14,112
Facilities Management	53,143
Human Resources	15,925
Human Services	380,146
Recorder	130,569
Sheriff	64,783,346
Transportation	112,173
Treasurer	2,801

The Coronavirus Relief Fund was created to account for U.S. Department of Treasury CARES Act funding and the necessary expenditures due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19). As this was a new source of revenue with specific expenditure guidelines, the County established each department’s estimated budget based on the guidelines initially established by the U.S. Department of Treasury. However, as updated guidance was issued by the U.S. Department of the Treasury which provided clarity on what types of expenditures would be allowable, additional expenditures were incurred by the departments over what was originally budgeted. For Correctional Health and Sheriff, the excesses were primarily the result of public safety and public health salaries that were allocated out of the General and Detention funds to the Coronavirus Relief Fund. The allocation of these salaries was approved by the Board of Supervisors, however, due to the timing of the allocation, the departmental budgets could not be adjusted.

**NOTE 1 – ACTUARIALLY DETERMINED CONTRIBUTION RATES**

Actuarial determined contribution rates for PSPRS and CORP are calculated as of June 30 2 years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Actuarial cost method	Entry age normal
Amortization method	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: Level percent-of-pay, closed PSPRS members with initial membership on or after July 1, 2017: Level dollar closed
Remaining amortization period as of the 2018 actuarial valuation	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: 18 years PSPRS members with initial membership on or after July 1, 2017: 10 years
Asset valuation method	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: 7-year smoothed market value; 80%/120% market corridor PSPRS members with initial membership on or after July 1, 2017: 5-year smoothed market value; 80%/120% market corridor
Actuarial assumptions: Investment rate of return	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%. In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%. In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85%. PSPRS members with initial membership dates on or after July 1, 2017: 7%
Projected salary increases	In the 2017 actuarial valuation, projected salary increases were decreased from 4.0%–8.0% to 3.5%–7.5% for PSPRS and from 4.0%–7.25% to 3.5%–6.5% for CORP. In the 2014 actuarial valuation, projected salary increases were decreased from 4.5%–8.5% to 4.0%–8.0% for PSPRS and from 4.5%–7.75% to 4.0%–7.25% for CORP. In the 2013 actuarial valuation, projected salary increases were decreased from 5.0%–9.0% to 4.5%–8.5% for PSPRS and from 5.0%–8.25% to 4.5%–7.75% for CORP.
Wage growth	In the 2017 actuarial valuation, wage growth was decreased from 4.0% to 3.5% for PSPRS and CORP. In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0% for PSPRS and CORP. In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS and CORP.
Retirement age	Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006–June 30, 2011.
Mortality	In the 2017 actuarial valuation, changed to RP-2014 tables, with 75% of MP-2016 fully generational projection scales. RP-2000 mortality table (adjusted by 105% for both males and females)

**NOTE 2 – FACTORS THAT AFFECT TRENDS**

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS, CORP, CORP-AOC, and EORP changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS and EORP also reduced those members' employee contribution rates. These changes are reflected in the plans' pension liabilities for fiscal year 2015 (measurement date 2014) for members who were retired as of the law's effective date and fiscal year 2018 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes also increased the PSPRS-, CORP-, and CORP-AOC-required pension contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS-, CORP-, and CORP-AOC-required contributions beginning in fiscal year 2019 for members who retired or will retire after the law's effective date. EORP-required contributions are not based on actuarial valuations, and therefore, these changes did not affect them. Also, the County refunded excess employee contributions to PSPRS and EORP members. PSPRS and EORP allowed the County to reduce its actual employer contributions for the refund amounts. As a result, the County's pension contributions were less than the actuarially or statutorily determined contributions for 2018.

The fiscal year 2019 (measurement date 2018) pension liabilities for EORP and CORP reflect the replacement of the permanent benefit increase (PBI) for retirees based on investment returns with a cost of living adjustment based on inflation. Also, the EORP liability and required pension contributions for fiscal year 2019 reflect a statutory change that requires the employer contribution rate to be actuarially determined. This change increased the discount rate used to calculate the liability thereby reducing the total pension liability.

The condition of road pavement is measured using the Maricopa County Department of Transportation (MCDOT) Road Management System (RMS), which is based on weighted averages of nine distress factors of the pavement surface. The RMS used a measurement scale to evaluate the Pavement Condition Rating (PCR) ranging from zero for a failed pavement to 100 for a pavement in perfect condition. The PCR index is used to classify roads in very good or excellent condition (71-100), good condition (55-70), and substandard condition (less than 55). It is the County's policy to maintain at least 75% of the roadways at a very good or excellent condition level. No more than 5% should be in a substandard condition. Pavement condition assessments are determined annually for all arterial roads and approximately one-half of the local roads are inspected annually.

The condition of the County's bridges is determined using the MCDOT bridge inspection program that follows federal mandates and regulations. The bridge sufficiency rating, which is a weighted average of an assessment of the ability of individual components to meet necessary performance requirements, uses a numerical condition scale ranging from 0 to 100. It is the County's policy that 90% of bridges will have a rating of >=70 and no more than 3% of bridges will have a rating of <50. All bridges are inspected every two years (approximately one-half of the bridges are inspected annually).

## Combining and Individual Fund Statements Internal Service Funds

## **Maricopa County**

### **Listing of Internal Service Funds**

---

Internal Service Funds are used to account for services and commodities provided by one department or agency to other departments or agencies of the County. These services are provided on a cost-reimbursement basis. The following is a listing of the Internal Service Funds reported within Maricopa County.

**Equipment Services** - This fund provides assistance to other Maricopa County departments to ensure quality service to the citizens of Maricopa County by furnishing and maintaining the necessary County mobile equipment in an efficient manner.

**Technology Infrastructure** - This fund provides cost effective voice, data, and radio communications to County employees.

**Sheriff Warehouse** - Sheriff Warehouse tracks inventory activity for supplies purchased by the warehouse for resale and stores consignment inventory for other departments.

**Risk Management** - This fund supports the comprehensive insurance/self-insurance program, which safeguards County assets and employees by means of a Trust Fund. Personnel skilled in loss control, claims and litigation and workers' compensation work together to avert risk and conserve the human and financial resources of Maricopa County.

**Employee Benefits Trust** - This fund collects employee and employer contributions for payment of the employees' medical, dental, pharmacy, and short-term disability benefits.

## Combining and Individual Fund Statements Fiduciary Funds

## Maricopa County Listing of Fiduciary Funds

---

### FIDUCIARY FUNDS

**Treasurer's Investment Pool** – The Treasurer's Investment Pool is used to account for net position of the County's external investment pool. The fund primarily consists of deposits held on behalf of School Districts with minor amounts related to Fire Districts, Street Lighting Districts and other Improvement Districts.

**Individual Investment Accounts** – The individual investment accounts are used to account for net position of individual investment accounts in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

### AGENCY FUNDS

Agency Funds are used to account for assets held by the County in a fiduciary capacity or as an agent for individuals, private organizations, and/or other funds.

The County maintains two Agency Funds, which are not under the control of the Board of Supervisors. The Agency Funds are custodial in nature and do not involve measurement of results of operations.

**Property Tax Collections** - The Property Tax Collections Fund accounts for property tax collections not yet disbursed to taxing jurisdictions.

**Special Purpose** - The Special Purpose Fund accounts for receipts, which are held in a custodial capacity, are designated for special purposes and are not related to an individual governmental unit.
