The Honorable Board of Supervisors
Maricopa County
County Administration Building
301 W. Jefferson Street
Phoenix, AZ 85003

It is our pleasure to submit to you the Comprehensive Annual Financial Report of Maricopa County for the year ended June 30, 2002. This report has been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed in pronouncements of the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of Maricopa County. We believe the data, as presented, is accurate in all material aspects and shown in a manner designed to present fairly the financial position and results of operations.

With these statements, the County is implementing the requirements of Governmental Accounting Standards Board (GASB) Statement 34, as required. This statement represents a dramatic change in governmental financial reporting. The format and purpose of these changes are addressed in the Management's Discussion and Analysis, which can be found immediately following the Independent Auditors' Report. We trust you will find this new presentation helpful in understanding the financial status of Maricopa County.

Internal Controls

The management of Maricopa County is responsible for establishing and maintaining a system of internal control. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding: 1) the safeguarding of assets against loss from unauthorized use or disposition; and 2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that Maricopa County's accounting controls adequately safeguard assets and provide reasonable assurance that financial transactions are properly recorded.

Independent Audit

State law requires the State Auditor General to conduct financial audits of the accounts and records of County and State agencies. The examination is conducted in accordance with generally accepted governmental auditing standards, and the Auditor's Opinion is presented as the first component of the financial section of this report.

Single Audit

Maricopa County receives both federal and state financial assistance and is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. Management and the accounting staff periodically evaluate this internal control structure. As part of the government's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, and County compliance with applicable laws and regulations. The Federal Single Audit Report is issued separately from this report.

Expenditure Limitation

On June 30, 1980, Arizona voters approved general propositions amending the Arizona Constitution to establish expenditure and revenue limitations for local governments. The purpose of the expenditure limitation is to control expenditures and to limit future increases in spending to adjustments for inflation, deflation and population growth of the County. The Constitution also limits the amount of revenues that may be generated from property taxes. A two-percent plus new construction annual increase is the maximum allowed by law unless special voter approval is obtained.

The Reporting Entity

The financial reporting entity includes all the funds of the primary government (Maricopa County), as well as its component units. Component units are legally separate entities for which the primary government is financially accountable. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government. Accordingly, the Maricopa County Flood Control District, Stadium District, Library District and various improvement districts are reported as part of the governmental fund types of the primary government.

There are various school districts, irrigation districts, and fire districts within Maricopa County governed by independently elected boards. The financial statements of such districts are not included in this report except to reflect amounts held in an agency capacity by the County Treasurer. The reporting entity is further described in the Notes to the Financial Statements. (Note 1 - Summary of Significant Accounting Policies)

Cash Management and Investment

The Maricopa County Treasurer is responsible for investing cash from the county, schools, and special districts. The Arizona Revised Statutes for investment of public monies provides guidance to the Treasurer. The investment practice is to minimize credit and market risks while maintaining a competitive yield on its portfolio. The effective annual yield on investments for fiscal year 2002 was 4.35%. Interest earned by County funds is apportioned quarterly based on the average daily cash balance.

Risk Management

The County is exposed to various risks of loss related to general and auto liability, property, aviation liability, medical malpractice, and workers compensation. The County is self-insured for the first \$2,000,000 per occurrence of general and auto liability, \$2,000,000 per occurrence of medical malpractice, and \$1,000,000 per occurrence of workers compensation. Coverage in excess of these respective amounts is provided through the purchase of commercial insurance. The County has not had any claims that have exceeded the commercial coverage in the last three years. Maricopa County has a safety program that promotes employee safety on the job and focuses on risk control techniques designed to minimize accident-related losses. In addition to the safety program's preventative measures, the Risk Management Department investigates every claim and arbitrates each loss in order to minimize the County's liability exposure.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Maricopa County, Arizona for its comprehensive annual financial report for the fiscal year ended June 30, 2001. This was the thirteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgment

The preparation of this report could not be accomplished without the efficient and dedicated services of the Department of Finance staff, the assistance of administrative personnel in the various departments, and the competent service of the State Auditor General's Office. We appreciate all of those who assisted in and contributed to the preparation of this report. We also wish to express our sincere appreciation to the Board of Supervisors for their support in planning and overseeing the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

David R. Smith

Members of the Arizona State Legislature

The Board of Supervisors of
Maricopa County, Arizona

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and aggregate remaining fund information of Maricopa County as of and for the year ended June 30, 2002, as listed in the table of contents, which collectively comprise the County's basic financial statements. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Maricopa County Stadium District, which represents 15 percent of the assets, 12 percent of the liabilities, and 1 percent of the revenues and expenses of the County's governmental activities on the government-wide financial statements. The District represents approximately 1 percent of the assets, liabilities, revenues and other financing sources, and expenditures and other financing uses of the aggregate remaining fund information reported on the fund-based statements. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Maricopa County Stadium District, is based solely on the report of the other auditors.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business-type activities, each major fund, and aggregate remaining fund information of Maricopa County as of June 30, 2002, and the changes in financial position and cash flows, where applicable, of those activities and funds for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Notes 3, 10, and 12, the County adopted the provisions of GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, for the year ended June 30, 2002, to implement a new financial reporting model. Also, as described in Note 3, the County restated the governmental funds' beginning fund balances to remove compensated absences payable as a result of implementing GASB Interpretation No. 6. This resulted in a restatement of beginning fund balances reported on the fund-based financial statements for the governmental funds.

Management's Discussion and Analysis on pages 4 through 17, the Budgetary Comparison Schedules on pages 79 through 84, the Schedule of Agent Retirement Plans' Funding Progress on page 85, and the Modified Approach for Infrastructure Assets on page 86 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements of the activities and funds that collectively comprise the County's basic financial statements. The other supplementary information, combining and individual fund statements and schedules, and capital assets schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The information included in the introductory and statistical sections, and the Maricopa County Citizens Audit Advisory Committee Letter in the financial section, listed in the table of contents has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on such information.

In accordance with *Government Auditing Standards*, we will also issue our report on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants at a future date. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

June 30, 2002

The Honorable Maricopa County Board of Supervisors

The Maricopa County Citizen's Audit Advisory Committee has prepared this letter for inclusion in the county's Comprehensive Annual Financial Report (CAFR) according to the committee's charter. Described herein are the committee's composition, responsibilities, and an account of how the responsibilities were discharged.

Composition of the Committee

The membership of the committee shall consist of five voting members and three non-voting members. The voting members shall be board of supervisor appointees from the public and shall serve two-year terms. The non-voting members shall be the county's chief financial officer, the county attorney, the auditor general, or their designees. The chairman of the board of supervisors shall appoint a committee chairman from the voting members. The committee chairman shall serve a one-year term.

Responsibilities of the Committee

The committee's primary function is to assist the board of supervisors in fulfilling its oversight responsibilities. The committee accomplishes this function by reviewing the county's financial information, the established systems of internal controls, and the audit process. The committee also suggests areas requiring audit emphasis. Specific duties of the committee are described in the committee charter.

Accomplishments of the Committee (Fiscal Year 2001-2002)

The following duties were performed by the Citizen's Audit Advisory Committee:

- Reviewed the county's internal and external audit activities and management's responses thereto.
- Reviewed the county's annual financial statements and the auditor general's audit report.
- Enhanced the communication between the internal and external auditors.
- Met 10 times during the fiscal year, although the charter requires only four meetings.

Respectfully,

A handwritten signature in cursive script, reading "Jill Rissi".

Chair Jill Jamison Rissi, MPA, RN

Maricopa County

Management's Discussion and Analysis

This discussion and analysis is intended to be an easily readable analysis of Maricopa County's (County) financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the Transmittal Letter that begins on Page viii and with the County's basic financial statements following this section.

Financial Highlights

- At June 30, 2002, the assets of the County (primary government) exceeded liabilities by \$1,930,834,143 (net assets). Of this amount, \$214,823,899 (unrestricted net assets) may be used to meet ongoing obligations to citizens and creditors, \$375,721,923 is restricted for specific purposes (restricted net assets), and \$1,340,288,321 is invested in capital assets, net of related debt.
- The County's total net assets as reported in the Statement of Activities increased by \$300,097,722. Of this amount, \$294,021,377 is attributable to governmental activities and \$6,076,345 is attributable to business-type activities.
- At June 30, 2002, the governmental funds reported combined fund balances of \$673,536,272 (as restated), or an increase in fund balance of \$16,188,563 in comparison with the prior year. Approximately 96% of the combined fund balances or \$644,937,689 are available to meet the County's current and future needs (*unreserved fund balance*).
- The net assets for the proprietary funds (business-type activities) as of June 30, 2002, increased by \$6,076,345. However, the proprietary funds, which mainly consist of the Maricopa County Integrated Health System (Medical Center, Maricopa Health Plan, ALTCS, and Non-AHCCCS), showed a loss before transfers of over \$19.6 million. The increase in net assets is attributable to the net transfers of more than \$25.7 million.
- At June 30, 2002, unreserved fund balance for the General Fund was \$249,039,062, approximately 46% of total General Fund expenditures. In accordance with Arizona Revised Statutes (A.R.S.), this entire amount is budgeted to be spent in the next fiscal year. A.R.S. 42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. The estimated expenditures may include an amount for unanticipated contingencies or emergencies, per A.R.S. 42-17102.
- At June 30, 2002, the County's total long-term debt related to governmental activities for bonds, loans, and other payables was \$445,435,800. General obligation bonds, lease revenue bonds and Stadium District revenue bonds represent 50% of the governmental activities long-term debt. The final payments on the general obligation bonds, lease revenue bonds and Stadium District revenue bonds are due in fiscal years 2005, 2016, and 2019, respectively.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components 1) Government-wide financial statements; 2) Fund financial statements; and 3) Notes to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements. In addition, the comprehensive annual financial report includes the budget and actual schedules for the major Debt Service and Capital Projects Funds beginning on page 89. The Combining and Individual Fund Statements and Schedules – Nonmajor Funds begin on page 104.

Government-wide Financial Statements are designed to provide readers with a broad overview of the County finances, in a manner similar to private-sector businesses.

Maricopa County

Management's Discussion and Analysis

- The Statement of Net Assets presents information on all County assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The Statement of Activities presents information showing how net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or in part a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; education; and interest on long-term debt. The business-type activities of the County include the Medical Center, Arizona Health Care Cost Containment System (AHCCCS) Plan, Arizona Long-Term Care System (ALTCS) Plan, and other business-type activities (Non-AHCCCS Health Plans and Solid Waste).

Component units are included in our basic financial statements and consist of legally separate entities for which the County is financially accountable and that have substantially the same board as the County or provide services entirely to the County. The blended component units included are the Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Public Finance Corporation, Maricopa County Special Assessment Districts, Maricopa County Stadium District, and the Maricopa County Street Lighting Districts. The County has no discretely presented component units.

The Government-wide Financial Statements can be found on pages 23-25 of this report.

Fund Financial Statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

- **Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements. Governmental funds include the general, special revenue, debt service, and capital projects funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Maricopa County

Management's Discussion and Analysis

The County reports eight major governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Transportation, Flood Control, Jail Operations, General Obligation, Lease Revenue, Jail Construction and County Improvement funds.

Data from the other governmental funds (nonmajor) are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements*, which begin on page 104 of this report.

The governmental funds financial statements can be found on pages 26-30 of this report.

- **Proprietary funds** are maintained two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statement. The County uses enterprise funds to account for the Medical Center, Maricopa Health Plan, Arizona Long-Term Care System (ALTCS), and the Non-AHCCCS Health Plans – these four components comprise the Maricopa Integrated Health System - and Solid Waste operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its equipment services, telecommunications, reprographics, risk management, employee benefits trust and sheriff warehouse functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Fund financial statements for the proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Medical Center, Maricopa Health Plan and Arizona Long-Term Care System (ALTCS) operations are considered to be major funds of the County. Data from the other enterprise funds are combined into a single, aggregated presentation. The County's internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for each of these nonmajor enterprise and internal service funds is provided in the form of combining statements, which begin on page 198 of this report.

The proprietary funds financial statements can be found on pages 32-37 of this report.

- **Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary funds financial statements can be found on pages 38-39 of this report.

Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 44-76 of this report.

Required Supplementary Information is presented concerning the County's General Fund, Transportation, Flood Control and Jail Operations funds. A budgetary comparison schedule has been provided for each of these funds to demonstrate compliance with budget and additional information is provided by the Notes to Budgetary Comparison Schedules. Also presented is the schedule of funding progress for the County's two agent retirement plans and infrastructure assets reported using the modified approach. Required supplementary information can be found on pages 79-86 of this report.

Maricopa County

Management's Discussion and Analysis

Other Supplementary Information follows the Required Supplementary Information. Budgetary comparison schedules for the major Debt Service and Capital Projects Funds begin on page 89 of this report. The combining and individual fund statements and schedules referred to earlier provide information for nonmajor governmental funds and enterprise funds as well as the County's internal service funds, investment trust and agency funds. Combining and individual fund statements and schedules for nonmajor funds begin on page 104 of this report.

Government-wide Financial Analysis

This year is the first fiscal year that the County applied Governmental Accounting Standards Board (GASB) Statement No. 34. The County has not restated prior periods for purposes of providing the comparative data for the Management's Discussion and Analysis (MD&A) because certain prior-year information is unavailable. However, in future years, when prior-year information is available, a comparative analysis of government-wide data will be presented.

Net Assets

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, at June 30, 2002, assets exceeded liabilities by \$1,930,834,143.

By far the largest portion (\$1,340,288,321 or 69%) of the County's net assets reflects the investment in capital assets (e.g. land, buildings, machinery and equipment, infrastructure and construction in progress), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to its citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Statement of Net Assets June 30, 2002

	Governmental Activities	Business-type Activities	Total
Current and other assets	\$ 877,153,552	\$ 134,025,729	\$ 1,011,179,281
Capital assets	1,528,821,391	116,608,599	1,645,429,990
Total assets	2,405,974,943	250,634,328	2,656,609,271

Unrestricted net assets	222,913,694	(8,089,795)	214,823,899
Total net assets	\$ 1,804,093,253	\$ 126,740,890	\$ 1,930,834,143

From the County's total net assets, \$375,721,923 or approximately 20% represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$214,823,899 or 11%) may be used to meet the government's ongoing obligations to the citizens and creditors.

Maricopa County

Management's Discussion and Analysis

At the end of the current fiscal year, the County is able to report positive balances in all three categories of net assets for the governmental activities. However, the business-type activities are reporting a deficit in the unrestricted net assets category of \$8,089,795. The majority of the net assets reported for the business-type activities, \$126,740,890, are either invested in capital assets, \$81,077,781, or restricted to meet the reserve requirements set forth by the Arizona Health Care Cost Containment System (AHCCCS), the Arizona Long-Term Care System (ALTCS) and other debt related reserve restrictions, \$53,752,904. The main contributor to the deficit in the unrestricted net assets would be the Medical Center, which has historically reported operating deficits due in part to providing services to the indigent. The County continues its efforts to address the vision and strategic goals of the Medical Center operations as well as the Maricopa Integrated Health System as a whole.

The County's total net assets of \$1,930,834,143 increased by \$300,097,722 as reported in the Statement of Activities below. Of this amount, \$294,021,377 is attributable to governmental activities, and \$6,076,345 is related to business-type activities. The increase in total net assets for governmental activities resulted primarily from an increase in net capital assets due to significant capital projects during the current fiscal year. The net assets invested in capital assets balance increases as a result of capital expenditures and decreases as capital assets are depreciated over their useful lives.

Changes in Net Assets

The following table indicates the changes in net assets for governmental and business-type activities:

Maricopa County

Management's Discussion and Analysis

Governmental Activities

As stated earlier, the functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; and education. The County's total net assets increased by \$300,097,722 during the current fiscal year. Governmental activities of the County contributed \$294,021,377 or 98% to this increase. The majority of this increase is attributable to an increase in net capital assets.

For the most part, revenues and expenses grew 5% to 10% in line with the budget which anticipated a slower than normal economy. One of the main differences a reader will see between the governmental funds reported in the fund financial statements and the Statement of Activities is that governmental funds in the fund financial statements report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlay expenditures exceeded depreciation expense in the current period by \$261,655,774. The increase in net assets in governmental activities of \$294,021,377 was primarily the result of reporting depreciation expense in the Statement of Activities.

Business-Type Activities

As discussed earlier, the business-type activities of the County include the Medical Center, Arizona Health Care Cost Containment System (AHCCCS) Plan, Arizona Long-Term Care System (ALTCS) Plan, the Non-AHCCCS Health Plans – these four components are the Maricopa Integrated Health System - and Solid Waste. Business-type activities increased the County's net assets by only \$6,076,345, accounting for 2% of the total growth in the County's net assets. The change in net assets is a significant indicator to the profitability of the County's business-type activities. The Maricopa Integrated Health System makes up 93% of the net assets of the business-type activities. As alluded to above, the Maricopa Integrated Health System contributes only a small percent to the increase in net assets even though it comprises approximately 35% and 42% of the County's revenues and expenses, respectively. The County continues its efforts to address the vision and strategic goals of the Medical Center operations as well as the Maricopa Integrated Health System as a whole.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. Governmental activities are contained in the general, special revenue, debt service, and capital projects funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As discussed earlier, as of June 30, 2002, the governmental funds reported combined fund balances of \$673,536,272, and an increase in fund balance of \$16,188,563 in comparison with the prior year. Approximately 96% of the combined fund balances or \$644,937,689 is available to meet the County's current and future needs (*unreserved fund balance*). The remaining fund balance is reserved for inventories, capital lease expenditures and debt service.

Maricopa County

Management's Discussion and Analysis

The General Fund is the County's primary operating fund. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$249,039,062, while total fund balance reached \$254,122,264. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to the total fund expenditures. Unreserved fund balance represents 45.6% of total General Fund expenditures, while total fund balance represents 46.5% of that same amount. These ratios indicate a strong fund balance position in comparison to expenditures.

The following table presents the amount of governmental revenues from various sources as well as increases or decreases from the prior year.

Revenues Classified by Source Governmental Funds (in millions)

Totals	<u>\$ 1,290.4</u>	<u>100%</u>	<u>\$ 1,355.2</u>	<u>100%</u>	<u>\$ 64.8</u>	<u>100%</u>

During fiscal year 2002, the County experienced an increase in governmental revenues from the previous year of \$64.8 million, a 5% increase. This increase is very close to the increase experienced in fiscal year 2001 of 5.1%. The main sources of this increase are taxes and intergovernmental revenue. The following narrative will provide information regarding the year to year change for these two revenue sources.

Taxes

Assessed Valuations:

The primary valuation in fiscal year 2002 increased by 10.3% to \$21.4 billion and the secondary valuation increased by 9.7% to \$22.9 billion when compared to the previous year. The secondary valuation is a more accurate indicator of market conditions since increases in the primary valuation are controlled by State statute. The increase in fiscal year 2002 of 9.7% is less than the increase in fiscal year 2001 of 11.8%, which reflects the current slowing in the economy.

Property Tax Collections:

Current tax collections were 96.6% of the levy, down 0.3% from the previous year. Total property tax collections were \$323.1 million, approximately \$24.4 million more than the previous year, due to an increase of \$25.1 million in the levy. Historically, collections against the year's levy have been approximately 96.7%, based on the last 10 years. The balance of the tax revenue source is comprised of in-lieu taxes, penalties, and interest on past due taxes. In-lieu taxes include the Salt River Project contributions and in-lieu taxes from various governmental entities. In-lieu taxes increased \$1.7 million from the previous year to \$9.5 million. Penalties and interest remained the same from the previous year at \$9.9 million.

Management's Discussion and Analysis

Intergovernmental

Major items included in intergovernmental revenue during fiscal year 2002 are Sales Tax (\$325.7 million), Jail Tax (\$98.2 million), Vehicle License Tax (\$106.1 million), Highway User Fuel Tax (\$78.3 million), and Federal and State grants. The major items causing the increase in intergovernmental revenues (\$27.9 million), are increases of about \$18.5 million in Federal and State Grants and other miscellaneous intergovernmental revenue, plus an increase of about \$6.1 and \$3.3 million in Vehicle License Tax and Sales Tax, respectively.

Sales Tax:

The State collects transaction privilege taxes (Sales Tax) on nearly 20 types of business activities. A portion of each of these taxes is allocated to a pool for distribution to cities, counties and the State. Of this pool, 40.51% is allocated to Arizona counties. This allocation is based on a statutory formula that utilizes a county's population, assessed value and location of actual sales tax receipts compared to the total of all of these for all counties. Sales Tax of \$325,728,202 increased \$3,298,609 or 1% over the previous year. This is a significant drop from the prior year increase of 4%.

Jail Tax:

The County assesses a 0.2% Jail Tax on all transactions subject to the State transaction privilege tax to fund the construction and operation of adult and juvenile detention facilities. This tax became effective January 1, 1999. Total collections of Jail Tax of \$98,177,716 increased only \$425,341 from the prior fiscal year, or 0.4%.

Vehicle License Tax:

The State assesses Vehicle License Tax annually on all vehicles and distributes the tax to the cities and towns based upon relative population. The County General Fund receives the proceeds from the tax. In addition, the Transportation Fund receives a small portion of Vehicle License Tax directly from the State. Combined General Fund and Transportation Fund Vehicle License Tax of \$106,115,829 increased \$6,096,375 or 6% over the previous fiscal year. This tax held strong for the County as this increase was 0.2% greater than the prior year's increase.

Highway User Fuel Tax:

The State levies a gas tax (Highway User Fuel Tax) on motor fuel sold within the State. The primary purpose of the gas tax is to fund the construction and maintenance of streets and highways. Of the gas tax revenues collected, 19% is allocated to counties based upon State statute. Highway User Fuel Tax of \$78,285,210 increased \$41,941 from the prior fiscal year.

The following table presents governmental expenditures by function compared to prior year amounts.

Management's Discussion and Analysis

Expenditures for governmental fund types for fiscal year 2002 increased by \$116.6 million or 9.6% from the prior year. The percentage increase in expenditures during fiscal year 2001 was almost 1% higher. The increase in fiscal year 2002 is primarily attributed to capital outlay. The following narrative will provide information regarding the year to year change for the significant expenditure functions that experienced an increase from the prior year.

Public Safety

The major areas in Public Safety (\$481.8 million) include the Jail Operations Fund (\$120.6 million), the Court System (\$101.8 million), the County Attorney's Office (\$50.2 million), the Sheriff's Office (\$48.4 million), Indigent Representation (\$42.3 million) and Probation Services (\$63.2 million).

The major areas of increase in Public Safety expenditures (\$22.3 million) during fiscal year 2002, were predominately related to Jail Operations (\$6.5 million), Court System (\$6.1 million) and Indigent Representation (\$9.2 million). The remaining increase in Public Safety expenditures related to other various departments.

Health, Welfare and Sanitation

Expenditures in Health, Welfare and Sanitation increased by \$16.3 million from the prior year or 5.5%. The increase occurred primarily in the Health Care Mandates expenditures, with an offset in the Medical Assistance Program. The increase is attributable to state-mandated increases in our ALTCS, AHCCCS and restoration to competency shared revenue withholdings. The decrease in the Medical Assistance Program is the result of Proposition 204, which transferred this program to the State of Arizona effective October 1, 2001.

Capital Outlay

Capital Outlay increased \$64.3 million to \$294 million during fiscal year 2002. The most significant increase occurred in the Jail Construction Fund (in excess of \$103.8 million), due to the costs related to the new juvenile and adult detention facilities. However, there was a decrease in general capital spending for the county due to management's strategic planning and the impact of the unstable economic condition. The spending increase for jail construction was partially offset by reductions in spending in other funds including the County Improvement Fund (\$13.9 million), and the Flood Control and Transportation funds (\$28 million).

Debt Service

The increase of \$19.3 million in Debt Service expenditures compared to the previous fiscal year is primarily due to the debt service due on the Lease Revenue Bonds, Series 2001. See Long-Term Debt discussion on page 15 for further information.

Proprietary funds. The County's proprietary funds provide the same information found in the government-wide financial statements, but in more detail.

The following table shows actual revenues, expenses and results of operations for the current fiscal year for proprietary funds.

Change in net assets	\$ 23,751,518	\$ (21,308,148)	\$ 3,632,975	\$ 6,076,345

The net assets for the proprietary funds (business type activities) as of June 30, 2002, increased by \$6,076,345. However, total unrestricted net assets for the proprietary funds totaled a deficit of \$8,089,795. The majority of this deficit is attributable to the Medical Center deficit unrestricted net assets of \$15,827,761 which is offset by the Solid Waste unrestricted net assets balance.

The net loss before transfers for the proprietary funds of \$19,675,700 resulted primarily from a net loss of \$41,523,984 from the Medical Center, which is offset in part by the income in the other Major Funds of \$22,704,946. The loss before transfers in the Medical Center more than doubled from the prior fiscal year. The Medical Center received transfers from the General Fund of over \$66 million. Of these transfers over \$39 million were funded through the Maricopa Integrated Health System (AHCCCS and ALTCS). Some of the factors that impact the Medical Center's operations are the costs of pharmaceuticals, medical supplies and equipment that continue to rise and the challenge of providing services to the indigent.

Major Funds (General and Special Revenue Funds) Budgetary Highlights

The difference between the original budget and the final amended budget for the General Fund resulted in a \$5 million decrease of revenues and a \$27 million increase in expenditures. The increase in expenditures were primarily from a reduction in general government departments of \$9.8 million, and an increase in public safety departments of \$5.3 million, and a \$31.3 million increase in health, welfare and sanitation departments. The remaining \$.2 million is from culture and recreation and education departments.

The Transportation Fund had no changes from its original budget. Even though actual revenues and expenditures were below budget (22% and 12%, respectively), Transportation reported an ending fund balance in line with the budget. This was due to the fact that the actual beginning fund balance at July 1, 2001, exceeded the budgeted beginning fund balance offset by the difference between actual and budgeted revenues and expenditures of the current fiscal year.

The Flood Control District had minor budget adjustments to expenditures from its original budget. Actual revenues were below budget by about 7%, but expenditures were below by over 15%. Thus, ending fund balance exceeded budget estimates.

The Jail Operations Fund had minor adjustments to expenditures and transfers in between the original and final amended budget. The operations in the Jail Operations Fund are for the most part covered by a transfer in of Maintenance of Effort funds from the General Fund. So, when expenditures are increased, there will also be an increase in transfers.

Capital Assets and Debt Administration

Capital Assets

The County's investment in capital assets for its governmental and business-type activities as of June 30, 2002, amounted to \$1,645,429,990 (net of accumulated depreciation). This investment in capital assets includes land, buildings, infrastructure, machinery and equipment, and construction in progress. The total increase in the County's investment in capital assets for the current period was 17.4%.

The most significant impact on the increase in capital assets for the fiscal year ended June 30, 2002, was the ongoing construction of the adult and juvenile detention facilities. This accounted for approximately 60% of the increase in capital assets.

Capital assets for the governmental and business-type activities are presented below (in millions) to illustrate changes from the prior year:

	Governmental activities		Business-type activities		Total		Increase/ (Decrease)

The County reported infrastructure assets acquired during the fiscal year 2002 in the government-wide financial statements, as required by GASB Statement No. 34. The Statement also requires the retroactive reporting of all infrastructure assets acquired prior to July 1, 2001, to be reported by the fiscal year ended June 30, 2006. Infrastructure assets are reported in capital outlay expenditures within the Transportation and the Flood Control funds. All current and prior years infrastructure assets of the Transportation Fund are reported on the government-wide financial statements. For Flood Control, only infrastructure assets acquired in fiscal year 2002 are reported. Infrastructure assets acquired prior to July 1, 2001, are reported at estimated historical cost. Infrastructure assets acquired during the current fiscal year are reported at historical cost.

The Transportation Fund infrastructure assets consist of a roadway system and a bridge system. Both systems are reported under the modified approach, which means the County will maintain the assets using an asset management system and will document that the infrastructure assets are being preserved at the established condition level.

The roadway system is measured using the Road Management System (RMS), which is based on the weighted average of nine distress factors for the pavement surface. The RMS system uses a measurement scale to evaluate the pavement condition rating ranging from 0 for a failed pavement to 100 for a pavement in perfect condition.

The County's policy is to maintain at least 90% of the roadway system as very good to excellent. The County measures the pavement condition assessments annually for arterial roads and every other year for local roads. At June 30, 2002, 95% of the roadways were considered very good to excellent.

The bridge system is measured using the bridge inspection program, which follows Federal mandates and regulations. A bridge sufficiency rating is determined using a weighted average based on an assessment of the ability of individual bridge components to meet necessary performance requirements on a condition scale from 0 to 100.

Maricopa County Management's Discussion and Analysis

The County's policy is to maintain at least 90% of the bridges with a sufficiency rating of greater than or equal to 70. The County measures the bridge's sufficiency rating every two years. At June 30, 2002, 97% of the bridge system had a sufficiency rating greater than 70.

The Flood Control Fund accounts for the remaining infrastructure assets, which consists of drainage systems, dams, flood channels and canals. No depreciation expense was reported for Flood Control for the current fiscal year as all infrastructure assets were reported as construction in progress.

At June 30, 2002, the County's infrastructure assets totaled \$524,192,909 reported on the government-wide financial statements as infrastructure - \$357,036,458, construction in progress - \$92,166,431 and land - \$74,990,020. Additional information regarding infrastructure assets can be found in the Notes to the Financial Statements (Note 1 - Summary of Significant Accounting Policies and Note 10 - Capital Assets), and in the Required Supplementary Information Modified Approach for Infrastructure Assets page 86.

Long-Term Debt

At June 30, 2002, the County had total long-term debt outstanding of \$538,655,287. The largest components of debt consists of General Obligation Bonds \$58,370,000, Lease Revenue Bonds \$124,855,000, Stadium District Revenue Bonds \$58,225,000, claims and judgements payable \$133,353,486 and reported and incurred but not reported claims \$92,697,476.

General obligation bonds are paid from the secondary property tax levy. At June 30, 2002, net general obligation debt was \$57,596,083 (0.25% of taxable property), while the 6 percent limit was \$1,374,788,069 and the 15 percent limit was \$3,436,970,172.

On December 1, 2001, the County issued \$20,165,000 (par value) in refunding general obligation bonds to current refund term bonds with a par value of \$20,000,000. The result of the refunding was an economic gain of \$708,166.

Lease revenue bonds applicable to governmental activities are paid from the Lease Revenue Fund (debt service fund) that was funded in prior years by transfers from the General Fund and is predominately unrestricted. At June 30, 2002, fund balance to pay future liabilities was \$110,233,780. Proceeds from the bonds are currently being used for capital projects.

Stadium District revenue bonds are paid from car rental surcharges per State statute. On June 5, 2002, the Stadium District issued \$58,225,000 (par value) in revenue refunding bonds. Proceeds in the amount of \$57,390,570 plus an additional \$750,000 of Stadium District monies were used to redeem all outstanding bonds and debt with governmental commitment. The bonds were issued at a premium of \$3,115,977.

Claims and judgements payables of \$133,353,486 are estimated long-term liabilities for lawsuits and claims pertaining to indigent health care and environmental hazards that are paid from the General Fund.

Reported and incurred but not reported claims applicable to governmental activities of \$42,471,463 are reported in the Risk Management and Employee Benefits Trust funds (internal service funds). The claims are actuarial estimates for the County's self-insured portion of future claims for general litigation related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and certain health benefits that are paid through the operations of the funds. Reported and incurred but not reported claims applicable to business-type activities of \$50,226,013 are reported in the Maricopa Health Plan, ALTCS, and Non-AHCCCS Health Plans funds (enterprise funds). The claims are actuarial estimates for future claims that are paid through the operation of the funds.

Additional information regarding long-term liabilities can be found in the Notes to the Financial Statements (Note 12 – Long-Term Liabilities and Note 15 – Risk Management).

Maricopa County

Management's Discussion and Analysis

Economic Factors and Next Year's Budget and Rates

- The post September 11, 2001, events continue to impact Maricopa County's recessionary economy. The major areas hit hardest by the recession include manufacturing, transportation, tourism, construction and retail sales. Sales tax revenue decreased from the sustained market decline in the technology sector, higher unemployment, the bottoming out of the stock markets, far fewer visitors to the area, and a lack of consumer confidence. Unemployment reached 5% at year-end; the year began at 3.7%.
- According to the Economic Outlook 2003, a publication by the University of Arizona, nearly 10,000 manufacturing jobs were lost Countywide since the beginning of the recession, in March 2001. Major airlines, such as America West Airlines, have suffered significant revenue losses. Private industry continues to suffer from unprecedented drops in corporate profits necessitating continued layoffs, cost-control programs and deep reductions in capital spending. Businesses resort to slashing prices in order to attract customers. These business decisions negatively impact profits.
- Substantial State budget cuts have been passed onto the County for budget year 2003 and more are anticipated for 2004.
- A positive factor on the economic outlook is that Maricopa County is still one of the fastest growing counties in the Nation with a population of over 3 million. It is the 4th most populous county in the United States and is larger than 21 states. We continue to be the fastest growing, large County in the United States. Our annual population growth is projected at 2.8%, and according to 2000 census information, our County had 44.8% growth in the last decade. More than half of the state of Arizona's population resides in Maricopa County.
- When will the economy improve? The following is an excerpt from a December 2, 2002 news release from the Western Blue Chip Economic Forecast.

While the U.S. economic recovery still seems fragile, Western states are likely to outperform the nation when the recovery begins to hit its stride, according to an analysis in December's Western Blue Chip Economic Forecast. "Western economy-watchers project Nevada and Arizona will be stronger in 2003, and Oregon will begin to create jobs again," reported Lee McPheters, contributing editor of the Western Blue Chip. "Washington will continue to be sub par, but all Western states will return to positive growth." Economic analysts in the West will be happy to see 2002 drawing to a close, McPheters said. Last year at this time, the consensus was that 2002 would bring slow economic growth with recovery in the second half of the year. "But now it appears the final figures for key performance indicators such as unemployment, job growth, and personal income in 2002 will be weaker than expected throughout the Western region. Analysts are looking to 2003 to bring a reversal in job losses and rising unemployment rates."

Even though the growth and demand for services is high and coupled with a considerably slowing economy, continued fiscal discipline has allowed for the property rate to be held flat for the fiscal year 2003 budget, versus an undesirable increase in the tax rate. This is the first year in three budget years that the property tax overall rate has not decreased in line with the Board of Supervisor's County Strategic Plan to reduce the overall property tax rate for Maricopa County property owners. For fiscal year 2003, the tax rate will be held flat at \$1.5448.

In addition, the financial position of the Medical Center continued to decline during fiscal year 2002 and it is not expected to improve in the upcoming year. Subsidies from the General Fund for fiscal year 2003 are likely to recur.

Maricopa County Management's Discussion and Analysis

At the end of the fiscal year, unreserved fund balance for the General Fund was \$249,039,062, or 46% of total General Fund expenditures. Unreserved fund balance increased by more than 51%. In accordance with Arizona Revised Statutes (A.R.S.), this entire amount is budgeted to be spent in the next fiscal year. A.R.S. 42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. The estimated expenditures may include an amount for unanticipated contingencies or emergencies, per A.R.S. 42-17102.

Basic Financial Statements

Maricopa County

Definitions of Government-wide Financial Statements and Listing of Major Funds

Government-wide Financial Statements

The **Statement of Net Assets** presents information on all of Maricopa County's assets and liabilities, with the difference between the two reported as net assets.

The **Statement of Activities** presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The above two statements are presented utilizing the following types of activities:

Governmental Activities – generally are financed through taxes and intergovernmental revenues.

Business-Type Activities – are financed in whole or in part by fees charged to external parties.

Major Funds

General Fund – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue Funds

Transportation Fund – plans and implements an environmentally balanced multi-modal transportation system. Operations are funded through highway user taxes.

Flood Control Fund – provides flood control facilities and regulates floodplains and drainage to prevent flooding of property and endangering the lives of people in Maricopa County. Operations are funded by a secondary tax levy.

Jail Operations Fund – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 cent sales tax to be used for the construction and operation of adult and juvenile detention facilities.

Debt Service Funds

General Obligation Fund – accounts for debt service on all various purpose general obligation bonds. Funding is provided by the County's secondary property tax revenues, which may be used only for debt service.

Lease Revenue Fund – accounts for the debt service on the Lease Revenue Bonds, Series 2001. Funding is provided by transfers from the General Fund.

Capital Projects Funds

Jail Construction Fund – accounts for the proceeds associated with the temporary 1/5 of one-cent sales tax approved by voters in the General Election on November 3, 1998. The proceeds are for the construction and operation of adult and juvenile detention facilities. The voters approved the extension of the 1/5 of one-cent sales tax in the General Election on November 5, 2002. The extension shall be levied beginning in the month following the expiration of the previous tax as approved by the voters in 1998.

County Improvement Fund – accounts for capital projects funded through the issuance of the Lease Revenue Bonds, Series 2001.

Maricopa County Definitions of Government-wide Financial Statements and Listing of Major Funds (Continued)

Enterprise Funds

Medical Center Fund – provides quality, cost competitive health care and health professional education to assure the health security of individuals, families, and the community.

Maricopa Health Plan Fund – is an ambulatory health care plan operated by Maricopa Managed Care Systems (MMCS). MMCS contracts with the Arizona Health Care Cost Containment System (AHCCCS) which provides monthly capitation revenues based on Maricopa County Health Plan enrollment.

Arizona Long-Term Care System (ALTCS) Fund – is a managed care, long term care plan operated by Maricopa Managed Care Systems (MMCS). Chronically ill and physically disabled patients receive medical services as a result of an annual contract with the Arizona Health Care Cost Containment System (AHCCCS).

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.

Other assets are not available to pay for current period expenditures and therefore, are deferred in the funds.

Internal service funds are used by management to charge the costs of equipment services, telecommunications, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets.

Some long-term liabilities and compensated absences are not due and payable shortly after June 30, 2002, therefore, are not reported in the funds.

Maricopa County
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds to the
Statement of Activities

For the Fiscal Year Ended June 30, 2002

Net change in fund balances – total governmental funds (page 29) \$ 16,188,563

Amounts reported for governmental activities in the Statement of Activities
pages 24 – 25 are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. 261,655,774

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net assets. (28,178,294)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 9,722,831

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 35,465,237

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (220,479)

Internal service funds are used by management to charge the costs of equipment services, telecommunications, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The net revenue of internal service funds is reported with governmental activities. (612,255)

Change in net assets of governmental activities (page 25) \$ 294,021,377

Maricopa County

Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2002

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Maricopa County conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). During the year ended June 30, 2002, the County implemented GASB Statement No. 34, as amended by GASB Statement No. 37, which prescribes a new reporting model consisting of both government-wide and fund financial statements. The County also implemented GASB Statement No. 38, which prescribes new and revised note disclosures.

A. Reporting Entity

Maricopa County is a general purpose local government governed by a separately elected board of five county supervisors. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize they are legally separate from the County. Each blended component unit discussed below has a June 30 year-end. The County has no discretely presented component units.

The reporting entity is thus comprised of the primary government, Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Public Finance Corporation, Maricopa County Special Assessment Districts, Maricopa County Stadium District, and the Maricopa County Street Lighting Districts.

The blended component units are as follows:

Maricopa County Flood Control District

The Maricopa County Flood Control District is a legally separate entity that provides flood control facilities and regulates floodplains and drainage to prevent flooding of property in Maricopa County. As the County Board of Supervisors serves as the Board of Directors of the Flood Control District, the District is considered a component unit of the County.

Maricopa County Library District

The Library District is a legally separate entity that provides and maintains library services for the residents of Maricopa County. As the County Board of Supervisors serves as the Board of Directors of the Library District, the District is considered a component unit of the County.

Maricopa County Public Finance Corporation

The Maricopa County Public Finance Corporation is a nonprofit corporation created by the Maricopa County Board of Supervisors to assist in the acquisition, construction and improvement of County facilities, including real property and personal property. As the County Board of Supervisors serves as the Board of Directors of the Public Finance Corporation, the Corporation is considered a component unit of the County. The corporation issued certificates of participation and lease revenue bonds that evidence undivided proportionate interests in rent payments to be made under the lease agreements, with an option to purchase, between Maricopa County and the Corporation. The Corporation has no assets or operating activities to report.

Notes to the Financial Statements (Continued)

Maricopa County Special Assessment Districts

The Special Assessment Districts are legally separate entities that provide improvements to various properties within the County. As the County Board of Supervisors serves as the Board of Directors of the Maricopa County Special Assessment Districts, the Districts are considered a component unit of the County.

Maricopa County Stadium District

The Stadium District is a legally separate entity that provides regional leadership and fiscal resources to assure the presence of Major League Baseball in Maricopa County. As the County Board of Supervisors serves as the Board of Directors of the Maricopa County Stadium District, the District is considered a component unit of the County.

Maricopa County Street Lighting Districts

The Street Lighting Districts are legally separate entities that provide street lighting in areas of the County that are not under local city jurisdictions. As the County Board of Supervisors serves as the Board of Directors of the Maricopa County Street Lighting Districts, the Districts are considered a component unit of the County.

Complete financial statements of the Maricopa County Stadium District may be obtained at the entity's administrative office listed below:

Maricopa County Stadium District
Bank One Ballpark
401 East Jefferson
Phoenix, Arizona 85004

Separate financial statements of the remaining blended component units are not prepared.

Related Organization

The Industrial Development Authority of Maricopa County (Authority) is a legally separate entity that was created to assist in the financing of commercial and industrial enterprises; safe, sanitary, and affordable housing; and healthcare facilities. The Authority fulfills its function through the issuance of tax exempt or taxable revenue bonds. The County Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. Therefore, the financial activities of the Authority have not been included in the accompanying financial statements.

B. Basis of Presentation

The basic financial statements include both government-wide statements and fund-based financial statements. The government-wide statements focus on the County as a whole, while the fund-based financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

Government-wide financial statements – provide information about the primary government (the County) and its component units. The statements include a statement of net assets and a statement of activities. These statements report the financial activities of the overall government, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

Notes to the Financial Statements (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County allocates indirect expenses to programs or functions. Program revenues include:

- Charges to customers or applicants for goods, services, or privileges provided,
- Operating grants and contributions, and
- Capital grants and contributions.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if doing so would distort the direct costs and program revenues reported by the departments concerned.

Fund financial statements – provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund operating revenues, such as charges for services, result from transactions associated with the fund's principal activity in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from transactions in which the parties do not exchange equal values. Revenues generated by ancillary activities are also reported as nonoperating revenues.

The County reports the following major governmental funds:

The General Fund – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Transportation Fund – plans and implements an environmentally balanced multi-model transportation system. Operations are funded through highway user taxes.

The Flood Control Fund – provides flood control facilities and regulates floodplains and drainage to prevent flooding of property and endangering the lives of people in Maricopa County. Operations are funded by a secondary tax levy.

The Jail Operations Fund – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 cent sales tax to be used for the construction and operation of adult and juvenile detention facilities.

The General Obligation Fund – accounts for debt service on all various purpose general obligation bonds. Funding is provided by the County's secondary property tax revenues, which may be used only for debt service.

Notes to the Financial Statements (Continued)

The Lease Revenue Fund – accounts for the debt service on the Lease Revenue Bonds, Series 2001. Funding is provided by transfers from the General Fund.

The Jail Construction Fund – accounts for the proceeds associated with the temporary 1/5 of one-cent Sales Tax approved by voters in the General Election on November 3, 1998. The proceeds are for the construction and operation of adult and juvenile detention facilities. The voters approved the extension of the 1/5 of one-cent sales tax in the General Election on November 5, 2002. The extension shall be levied beginning in the month following the expiration of the previous tax as approved by the voters in 1998.

The County Improvement Fund – accounts for capital projects funded through the issuance of the Lease Revenue Bonds, Series 2001.

The County reports the following major enterprise funds:

The Medical Center Fund – accounts for the operations of the Maricopa Medical Center which provides quality, cost competitive health care and health professional education to assure the health security of individuals, families, and the community.

The Maricopa Health Plan Fund – is an ambulatory health care plan operated by Maricopa Managed Care System (MMCS). MMCS contracts with the Arizona Health Care Cost Containment System (AHCCCS) which provides monthly capitation revenues based on Maricopa Health Plan (MHP) enrollment.

The Arizona Long-Term Care System (ALTCS) Fund – is a managed care, long term care plan operated by Maricopa Managed Care Systems (MMCS). Chronically ill and physically disabled patients receive medical services as a result of an annual contract with the Arizona Health Care Cost Containment System (AHCCCS).

The County reports the following fund types:

The internal service funds – account for automotive maintenance and service, telecommunications services, printing and duplicating services, insurance services, self insured employee benefits, and warehouse services provided to County departments or to other governments on a cost reimbursement basis.

The investment trust funds – account for assets held and invested by the County Treasurer on behalf of other governmental entities.

The agency funds – account for assets held by the County as an agent for the State and various local governments, and for the property taxes collected and distributed to the State, local school districts, community college districts and special districts.

C. Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to the Financial Statements (Continued)

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, and landfill closure and postclosure care costs, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds.

Proceeds of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred there are both restricted and unrestricted net assets available to finance the program. The County applies grant resources to such programs before using general revenues.

The County's business-type activities and enterprise funds of the County follow FASB Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

D. Cash and Investments

For purposes of its statements of cash flows, the County considers only those highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest-earning investment contracts with a remaining maturity of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value.

E. Inventories

Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and are offset by a fund balance reserve to indicate that they do not constitute "available spendable resources." These inventories are stated at weighted-average cost.

Inventories of the proprietary funds are recorded as assets when purchased and expensed when consumed. The amount shown on the balance sheet for the enterprise funds is valued at cost using the first-in, first-out method. The amount shown on the balance sheet for the internal service funds is valued at cost using the moving average method.

F. Property Tax Calendar

The County levies real property taxes and commercial personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

During the year, the County also levies mobile home personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later.

Notes to the Financial Statements (Continued)

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the government-wide statements and the proprietary funds. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000. The Maricopa Health Plan, Medical Center, Arizona Long Term Care System and Non-AHCCCS Health Plans (Enterprise Funds) capitalize assets with a cost of \$1,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

TYPE OF ASSETS	ESTIMATED USEFUL LIFE IN YEARS
Buildings	20 - 50
Infrastructure	20 - 50
Autos and trucks	3 - 10
Other equipment	3 - 20

All infrastructure assets maintained by the County Department of Transportation, consisting of roadways, bridges and related assets, are reported on the government-wide financial statements. These assets will not be depreciated as they are maintained using the modified approach. The Flood Control District accounts for the County's remaining infrastructure assets consisting of drainage systems, dams, flood channels and canals. For the Flood Control District, only infrastructure assets acquired during fiscal year 2002 are reported on the government-wide financial statements. No depreciation expense was reported for the Flood Control District for the current fiscal year as all infrastructure assets were reported as construction in progress.

H. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

I. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered.

Employees may accumulate up to 240 hours of vacation leave, but any vacation hours in excess of the maximum amount that are unused at calendar year-end convert to sick leave. Upon termination of employment, all unused vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate an unlimited number of sick leave hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but are forfeited upon termination of employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements. However, upon retirement, County employees with accumulated sick leave in excess of 1,000 hours are entitled to a \$3,000 bonus. The amount of such bonuses is accrued as a liability.

Notes to the Financial Statements (Continued)

NOTE 2 – REPORTING CHANGES

During the fiscal year 2001-02, Maricopa County established the Intergovernmental Capital Projects Fund as a capital projects fund and the Clerk of Court EDMS as a special revenue fund. The County also retitled the County Improvement Fund to the Lease Revenue Fund (debt service fund). As a result of the implementation of GASB Statement No. 34, restricted donation activities were reclassified from the Expendable Trust Fund to the Animal Control Donations Fund and the Parks Donations Fund (special revenue funds).

NOTE 3 – BEGINNING BALANCES RESTATED

As a result of implementing GASB Statement No. 34, the County's governmental fund-type fund balances as of June 30, 2001, have been restated as net assets as of July 1, 2001, on the government-wide Statement of Activities and its Proprietary Funds fund equity have been relabeled net assets as of July 1, 2001, on the Proprietary Funds Statement of Revenues, Expenses, and Changes in Fund Net Assets. The reconciliation below summarizes the differences between governmental fund-type fund balances as of June 30, 2001, as previously reported, to net assets as of July 1, 2001, reported on the government-wide Statement of Activities.

Aggregate fund balances of governmental fund types as of June 30, 2001	\$	647,525,749
Add: Capital assets, net of accumulated depreciation		1,292,773,238
Revenues earned but not yet available		5,704,084
Reclassify Expendable Trust Fund to Special Revenue Funds		415,456
Less: Long-term liabilities		(425,451,046)
Internal Service Funds net assets deficit		(10,895,605)
Net assets of governmental activities as of July 1, 2001	\$	<u>1,510,071,876</u>

The net capital assets balance of \$1,292,773,238 represents the beginning restated net capital assets balance of \$1,297,302,080 for governmental activities reported in Note 10 less the June 30, 2001, Internal Service Funds net capital assets balance of \$4,528,842. The long-term liabilities balance of \$425,451,046 represents the beginning restated long-term liabilities balance of \$463,028,750 for governmental activities reported in Note 12 less the long-term liabilities balances at June 30, 2001, for the Internal Service Funds - \$40,708,931 and the Debt Service Funds - \$23,198,871 plus the previously reported long-term employee compensation liability at June 30, 2001, of \$26,330,098.

The aggregate fund balances of governmental fund types was restated at July 1, 2001, from \$647,525,749 to \$654,990,205, on the fund financial statements as a result of implementing GASB Interpretation No. 6 to remove compensated absences payable from the fund financial statements for the governmental funds. The restatement increased beginning fund balances for the following governmental funds: General Fund - \$3,749,000, Transportation Fund - \$327,000, Flood Control Fund - \$184,000, Jail Operations Fund - \$1,111,000, Jail Construction Fund - \$6,000 and Other Nonmajor Governmental Funds - \$1,672,000. In addition, as a result of implementing GASB Statement No. 34, the Expendable Trust Fund's prior year ending balance of \$415,456 was reclassified to governmental funds (see Note 2).

Notes to the Financial Statements (Continued)

The governmental fund reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances is a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide Statement of Activities. The details of this reconciliation follows:

Net change in fund balances – total governmental funds	\$ 16,188,563
--	---------------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Governmental funds capital outlay	\$ 294,010,771
Government-wide depreciation expense for the year ended June 30, 2002	(33,071,391)
Add: Internal service funds depreciation expense for the year ended June 30, 2002	716,394
	<u>\$ 261,655,774</u>

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net assets.

Disposed capital assets for the year ended June 30, 2002	\$ (74,313,592)
Accumulated depreciation associated with disposed capital assets	46,135,298
	<u>\$ (28,178,294)</u>

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Housing long-term notes receivable at June 30, 2002	\$ 3,000,000
Grant revenues earned during the year ended June 30, 2002	5,290,035
Property taxes earned during the year ended June 30, 2002	1,432,796
	<u>\$ 9,722,831</u>

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments on bonds	\$ 39,618,137
Proceeds from capital leases	(9,843,870)
Proceeds from bond issuance	(78,450,670)
Premium on refunding bonds	(3,541,257)
Payment to escrow agent	77,980,850
Principal payments on certificates of participation	3,770,803
Principal payments on capital leases	4,752,140
Other debt service payments	1,179,104
	<u>\$ 35,465,237</u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.

Employee compensation payable incurred during the year ended June 30, 2002	\$ 1,061,498

NOTE 5 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

At June 30, 2002, the following funds reported deficits in fund balances or net assets.

FUND	DEFICIT
Governmental Funds:	
Accommodation Schools	\$ 265,943
Adult Probation Grants	40,421
Animal Control	517,245
Clerk of Court Grants	423,890
Correctional Health Grants	41,675
County Attorney Grants	310,373
Human Service Grants	2,245,722
Juvenile Court Grants	91,267
Public Defender Training	78,623
Proprietary Funds:	
Equipment Services	\$ 374,013
Non-AHCCCS Health Plans	182,869
Risk Management	18,020,030

The deficits in fund balances or net assets for Adult Probation Grants, Clerk of Court Grants, Correctional Health Grants, County Attorney Grants, Human Service Grants and Juvenile Court Grants Funds were attributed to the deferring of certain grant revenues. The County accrues grant revenue received within 60 days after year-end, as it is available and measurable. Revenues received after 60 days are considered not available and are therefore deferred.

The Non-AHCCCS Health Plans deficit of \$182,869 was partially corrected from the prior fiscal year by transfers in from other funds. The deficit is not expected to be corrected through normal operations in fiscal year 2002-03.

The Risk Management Fund deficit is the result of the County Board of Supervisors electing to not fund the Risk Management Fund's unpaid claims. Consequently, the Risk Management Fund only billed user departments for operating costs and administrative expenses from fiscal year 1995-96 to fiscal year 1998-99, resulting in a fund deficit of \$23,321,519 at June 30, 1999. On July 1, 1999, Risk Management began billing user departments for actuarially determined paid claim estimates.

The remaining deficits in fund balances or net assets resulted from operations during the year and are expected to be corrected through normal operations in fiscal year 2002-03.

NOTE 6 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; U.S. Treasury obligations; specified state and local government bonds; and interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories. Statute requires collateral for demand deposits, certificates of deposit, and repurchase agreements at 101 percent of all deposits not covered by federal depository insurance.

County Treasurer's Investment Pool – Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer (see Note 7). Those monies are pooled with County monies for investment purposes.

Notes to the Financial Statements (Continued)

At June 30, 2002, the investment pool had cash on hand of \$4,500. The carrying amount of the pool's total cash in bank was \$9,484,395 and the bank balance was \$28,520,114. Of the bank balance, \$100,000 was covered by federal depository insurance or by collateral held by the County or its agent in the County's name; and \$28,420,114 was covered by collateral held by the pledging financial institution's trust department or agent in the County's name.

At June 30, 2002, the investments in the County Treasurer's investment pool consisted of the following:

NOTE 7 – CONDENSED FINANCIAL STATEMENTS OF COUNTY TREASURER'S INVESTMENT POOL

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County monies under his stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments monthly and at June 30.

The County Treasurer's investment pool is not registered with the Securities and Exchange Commission as an investment company and there is no regulatory oversight of its operations. The structure of the pool does not provide for shares and the County has not provided or obtained any legally binding guarantees to support the value of the participants' investments.

Details of each major investment classification follows.

NOTE 11 – CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

At June 30, 2002, Maricopa County had the following major contractual commitments related to various capital projects. Commitments have been grouped into four major categories: Transportation Construction Projects, Flood Control Construction Projects, Construction and Maintenance of Adult and Juvenile Jail Facilities, and Construction of the Administration Center and various County facilities.

Transportation Construction Projects

At June 30, 2002, the Maricopa County Transportation Department had contractual commitments of \$15,291,933 for construction of various highway projects. Funding for these expenditures will be provided from Highway User Fuel Tax, the primary source of revenue for the Transportation Department.

Flood Control Construction Projects

At June 30, 2002, the Maricopa County Flood Control District had contractual commitments of \$39,418,000 for the construction of various flood control projects. Funding for these expenditures will be provided from the Flood Control District's tax levy of property within Maricopa County, the primary source of revenue for the Flood Control District.

Construction and Maintenance of Adult and Juvenile Jail Facilities

On November 3, 1998, at the general election, the voters approved a 1/5 of one-cent sales tax to begin January 1, 1999, for the construction and maintenance of adult and juvenile jail facilities. The tax shall continue in effect until \$900 million of revenue is collected, but in no event more than nine years. At June 30, 2002, Maricopa County had contractual commitments of \$175,940,472.

On November 5, 2002, at the general election, the voters approved an extension of the existing jail sales tax of 1/5 of one-cent for jail facilities and programs. The extension shall be levied beginning the month following the expiration of the previous tax as approved by the voters in 1998.

Notes to the Financial Statements (Continued)

Construction of Administration Center and various County facilities

At June 30, 2002, Maricopa County had contractual commitments of \$2,009,165 related to major capital projects financed by the Lease Revenue Bonds, Series 2001.

Notes to the Financial Statements (Continued)

The Stadium District revenue bonds and contractual obligations were restated at July 1, 2001, resulting in an increase in long-term liabilities of \$1,486,469 and \$13,888,888, respectively, due to the recalculation of the liability for variable rate debt and the inclusion of contractual obligations. In addition, compensated absences previously reported as a long-term liability is substantially paid within one year from fiscal year-end and is therefore reported as a current liability on the government-wide financial statement in accordance with GASB Statement No. 34.

Bonds and loans payable were as follows at June 30, 2002:

General Obligation Bonds

General obligation bonds are direct obligations of the government. Prior to issuance, general obligation bonds have a majority vote approval from the residents. Principal and interest are payable from secondary property taxes levied on all taxable property within the County without limitation as to rate or amount. The bonds are generally callable and the interest is payable semiannually.

Refunded and Refinanced Obligations - On December 1, 2001, the County issued general obligation bonds of \$20,165,000 (par value) with an interest rate of 4% to current refund term bonds from the 1986 Bond Issue Series D (1993) with an interest rate of 4.875% and a par value of \$20,000,000. The term bonds would have matured on July 1, 2004, and were redeemed on January 1, 2002. The general obligation bonds were issued at a premium of \$425,280, and accrued interest of \$38,089. After paying issuance costs of \$102,780, the net proceeds were \$20,525,589. The net proceeds from the issuance of the general obligation bonds were used to current refund the term bonds redeemed on January 1, 2002.

As a result of the current refunding, the County reduced its total debt service requirements by \$714,372, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$708,166.

Legal Debt Margin - County indebtedness pertaining to general obligation bonds may not exceed six percent of the value of the County's taxable property ascertained by the last assessment. However, with voter approval, the County may become indebted for an amount not to exceed 15 percent of such taxable property. At June 30, 2002, the County's net general obligation debt was \$57,596,083, (0.25% of taxable property), while the 6 percent limit was \$1,374,788,069 and the 15 percent limit was \$3,436,970,172.

Lease Revenue Bonds

On June 1, 2001, Maricopa County Public Finance Corporation issued \$124,855,000 of Lease Revenue Bonds to pay for the acquisition, construction, and equipment for the Public Service Building, Forensic Science Center, Superior Court Customer Service Center, parking garages, and related projects. Under the terms of the bond indentures, the Corporation received the proceeds to construct and purchase these assets and the County will make lease payments to extinguish the debt. Lease payments will equal the aggregate amount of principal and interest due at that date. Upon the final lease payment, the title to the assets will transfer to the County. The County's obligation to make lease payments will be subject to and dependent upon annual appropriations being made by the County.

The following Lease Revenue Bonds were outstanding at June 30, 2002:

Stadium District Revenue Bonds

Stadium District Revenue Bonds are special obligations of the District. The bonds are payable solely from pledged revenues, consisting of car rental surcharges levied and collected by the Stadium District pursuant to A.R.S. §48-4234. Under the statute, the Stadium District may set the surcharge at \$2.50 on each lease or rental of a motor vehicle licensed for hire, for less than one year, and designed to carry fewer than 15 passengers, regardless of whether such vehicle is licensed in the State of Arizona. The Stadium District Board of Directors initially levied a surcharge at a rate of \$1.50 beginning in January 1992 and increased the surcharge to \$2.50, the maximum amount permitted by statute, in January 1993. The bonds do not constitute a debt or a pledge of the faith or credit of Maricopa County, the State of Arizona, or any other political subdivision. The payment of the bonds is enforceable solely out of the pledged revenues and no owner shall have any right to compel any exercise of taxing power of the District, except for surcharges.

Refunded and Refinanced Obligations - On June 5, 2002 the Stadium District issued \$58,225,000 (par value) of Revenue Refunding Bonds, Series 2002 dated June 1, 2002, with an average interest rate of 5.23%. The Stadium District revenue bonds were issued at a premium of \$3,115,977 and accrued interest of \$32,634. The proceeds were used to prepay and redeem the following obligations and fund debt service reserves.

1993 Peoria IGA - Net proceeds of \$20,071,107 were used to prepay the 1993 Peoria IGA. Under the terms of an Intergovernmental Agreement (IGA) dated June 1, 1993, among the Stadium District, the City of Peoria (Peoria), and the City of Peoria Municipal Sports Complex Authority (Peoria Authority), the Authority issued revenue bonds to construct the Peoria Sports Complex. The District was obligated to Peoria from car rental surcharge revenues sufficient to pay the debt service on the Authority bonds. The Authority's bonds were issued at taxable rates, with remaining interest ranging from 6.75% to 7.70% and the outstanding principal was \$18,375,000. All requirements under the IGA have been met and the liability has been removed from the government-wide financial statements.

1996 Mesa IGA - Net proceeds of \$8,522,524 were used to prepay the 1996 Mesa IGA. Under the terms of an IGA, dated April 1, 1996 between the Stadium District and the City of Mesa (Mesa), the Stadium District was obligated to make payments to Mesa based on the Stadium District's net revenue from the car rental surcharge. Mesa in turn used the revenue to pay debt service on bonds issued by the City of Mesa Municipal Development Corporation, the proceeds of which were used to construct the Hohokam Stadium. The City of Mesa Municipal Development Corporation bonds were issued at a variable interest rate and were remarketed on an annual basis. The outstanding principal was \$8,350,000. All requirements under the IGA have been met and the liability has been removed from the government-wide financial statements.

Second Subordinate Capital Appreciation Net Revenue Bonds - Net proceeds of \$7,838,344 were used to redeem and retire the outstanding principal and compound accreted value of the Stadium District's Second Subordinate Capital Appreciation Net Revenue Bonds, dated March 10, 1997. The interest rate on the bonds ranged from 6.26% to 8.77%. The bonds were called upon delivery of the 2002 Bonds, and the liability has been removed from the government-wide financial statements.

Notes to the Financial Statements (Continued)

Senior Bonds - Net proceeds of \$20,958,595 were used to advance refund \$10,265,000 of outstanding Revenue Bonds Series 1993A Bonds (issued 1993) with interest rates of 5.1% - 5.5%, to advance refund \$1,375,000 of outstanding Revenue Bonds Series 1993B (issued 1993) with interest rates of 4.7% - 4.75%, and to advance refund \$8,565,000 of outstanding Revenue Bonds, Series 1996 Bonds (issued 1996) with interest rates of 5.0% - 5.75%. Net proceeds of \$20,958,595 (after payment of underwriting fees, insurance, and other issuance costs) plus an additional \$750,000 of Stadium District monies were used to purchase U.S. Government securities. The securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds until the refunded bonds are called (repaid by the trustee) on July 1, 2003 for the Series 1993A, July 1, 2002, and July 1, 2003 for the Series 1993B and July 1, 2006 for the Series 1996. As a result, the total \$20,205,000 refunded Series 1993A, Series 1993B and Series 1996 bonds are considered to be defeased and the liability for those bonds has been removed from the government-wide financial statements. Advance refunding the bonds was undertaken to reduce the Stadium District's total debt service payments by \$92,509 and provided an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$66,672.

Special Assessment Debt With Governmental Commitment

Special Assessments Bonds are payable from assessments collected from property owners benefited by the respective improvements. The proceeds were used to finance construction in these districts. While there is no legal obligation for the County to further secure the special assessment bonds of the districts below, the County has made a moral commitment to take steps necessary to prevent default.

Certificates of Participation

Certificates of Participation represent proportionate interests in semiannual lease payments. The County's obligation to make lease payments are subject to annual appropriations being made by the County for that purpose.

On November 1, 2000, Maricopa County Public Finance Corporation issued \$6,975,000 of Certificates of Participation to pay for the acquisition of and improvements to the Desert Vista Hospital and medical office facilities.

On February 1, 2000, Maricopa County Public Finance Corporation issued \$5,300,000 of Certificates of Participation to pay for the cost of construction for the Avondale Family Health Center.

On August 1, 1996, Maricopa County Public Finance Corporation issued \$2,500,000 of Certificates of Participation to pay for the cost of a building for the Maricopa County Regional School District 509.

On August 1, 1994, Maricopa County Public Finance Corporation issued \$30,000,000 of Certificates of Participation to assist in the acquisition of the County's Southeast Juvenile Court and Detention Center and its adult detention facility known as the Estrella Jail Complex.

On August 1, 1993, Maricopa County issued \$3,850,000 of Certificates of Participation to assist in the acquisition, construction and equipping of the County's West Mesa Justice Court and Northwest Regional Probation Center facilities. Additionally, the proceeds were used for an advance refunding of the Certificates of Participation Series 1989 and to prepay land purchase agreements the County had previously executed with the State of Arizona.

Conduit Debt Obligations

Maricopa County issues revenue bonds on behalf of private sector entities to provide financial assistance for projects deemed to be of public interest. Neither the principal, accrued interest or premium, if any, shall ever constitute an indebtedness of the County or State of Arizona or any political subdivision, nor shall it be a liability or a charge against the general credit or taxing powers. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2002, there were three revenue bond issues outstanding, with an aggregate principal amount payable of \$124,235,000.

Notes to the Financial Statements (Continued)

Arbitrage Compliance

The County is in compliance with all Federal arbitrage regulations for tax-exempt debt securities. As of June 30, 2002, the County had no arbitrage liability.

NOTE 13 – MUNICIPAL LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

State and Federal laws and regulations require Maricopa County to place a final cover on the eight County landfills (this includes three transfer stations) when they stop accepting waste and to perform specific maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will not be paid until near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs in each operating period even though actual payouts will not occur until the landfill is closed. These costs will be paid from the Solid Waste (Enterprise) Fund.

Accrued liabilities of \$12,526,278 have been reduced by \$4,409,138 for actual closure and postclosure care costs incurred. The accrued liability balance at June 30, 2002, for the Solid Waste Business-Type Activity includes \$8,117,140 for the remaining costs.

At June 30, 2002, all closure and postclosure liabilities have been accrued. These amounts are based on what it would cost to perform all closure and postclosure care in fiscal year 2002. The actual cost to close the sites may differ from the estimates due to changes in technology, inflation or changes in regulations. The estimated costs to be incurred in future fiscal years are as follows:

Effective September 1, 1997, State and Federal laws and regulations require that the County demonstrate financial assurance to ensure that the funds necessary to meet the costs of closure, postclosure care and corrective action will be available when needed. The County is in compliance with these requirements.

NOTE 14 – OPERATING LEASES

Operating Leases – The County's operating leases are for office equipment, land and buildings. Rental expenses under the terms of these operating leases for governmental activities and business-type activities were \$15,990,245 and \$1,612,462, respectively, for the year ended June 30, 2002. These operating leases have remaining lease terms from one to nine years. Also, they provide renewal options and are contingent on budgetary appropriations each fiscal year. The future minimum rental payments required under these operating leases as of June 30, 2002, are as follows:

YEAR ENDED JUNE 30	GOVERNMENTAL ACTIVITIES	BUSINESS-TYPE ACTIVITIES
2003	\$ 10,476,338	\$ 510,230

NOTE 15 – RISK MANAGEMENT

Self Insurance

The Risk Management Fund (internal service fund) accounts for the financing of the insured risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County carries commercial insurance for general and automobile liability in excess of \$2,000,000 per occurrence and medical malpractice liability in excess of \$2,000,000 per occurrence. Settled claims have not exceeded this commercial coverage since the inception of these insurance policies. Payment of workers' compensation benefits is self-funded up to \$1,000,000 per occurrence.

Notes to the Financial Statements (Continued)

Liabilities for unpaid claims are estimates determined by an independent actuary using the following actuarial methods: incurred loss development, paid loss development, frequency/severity, incremental paid loss and the paid ALAE/paid loss development. Accrued actuarial liabilities are based on a discounted 55 percent confidence level assuming a 4.69 percent annual rate of return on future investment income. Accrued actuarial liabilities at June 30, 2002, for each insurable area follows.

General liability	\$ 18,614,264
Automobile liability	418,926
Malpractice	11,668,861
Workers' compensation	10,580,506
Property reserve	327,036
Auto physical damage reserve	67,786
Total	<u>\$ 41,677,379</u>

Changes in the unpaid claims liability reported in the Risk Management Fund follows.

YEAR	BALANCE JULY 1	CURRENT-YEAR CLAIMS AND CHANGES IN ESTIMATE	CLAIM PAYMENTS	BALANCE JUNE 30

2001-02	40,569,044	8,410,852	(7,302,517)	41,677,379

The Employee Benefits Trust Fund (internal service fund) accounts for the financing of the insured risk of loss for certain health benefits (dental and short-term disability) to eligible employees and their dependents.

The liability for dental and short-term disability claims is based on fiscal year 2002 actuarial reports and claims paid in fiscal years 1999 through 2002. Effective January 1, 1998, all employee medical benefits are provided through commercial insurance. The County is still liable for claims filed under the previous medical coverage. The liability for medical is based on the 1997 actuarial report minus the paid claims for medical. Accrued actuarial liabilities at June 30, 2002, for each insurable area follow:

Employee medical	\$ 52,859
Employee dental	487,764
Short-term disability	253,461
Total	<u>\$ 794,084</u>

Changes in the unpaid claims liabilities reported in the Employee Benefit Fund follows:

Notes to the Financial Statements (Continued)

Other Claims

The County has exposure to the following claims areas carrying no commercial insurance:

Indigent Health Care Litigation - At June 30, 2002, there were lawsuits and claims pending against the County in the amount of \$172,501,621 for Indigent Health Care. The County has accrued a liability of \$51,750,486 in the government-wide financial statements for governmental activities (in Claims and Judgements Payable) in accordance with GASB Statement No. 10 - Accounting and Financial Reporting for Risk Financing and Related Insurance Issues. Claims are paid from the County General Fund. The County believes that the amounts accrued are reasonable based on previous claims history.

Environmental Claims - The County has estimated and recorded a probable liability of \$81,603,000 in the government-wide financial statements for governmental activities (in Claims and Judgements Payable) for claims resulting from environmental hazards such as illegal dumping by previous landowners and tenants. There is a potential incremental liability of \$98,497,000, which is contingent upon the extent to which additional environmental contamination is found. The County is researching historical records and performing investigations to identify the previous landowners and parties who are responsible for the environmental hazards.

The County also has outstanding claims pertaining to eminent domain cases and disputes regarding property taxes levied. At June 30, 2002, there was a possible liability of \$16.3 million for these cases. As these are considered possible losses only, no accrual is reported in the government-wide financial statements.

Health Plans

The County operates four health plans that are accounted for in the Maricopa Health Plan, ALTCS and NON-AHCCCS Health Plans Funds to provide health care services to the plans' enrollees. The liability for reported and incurred but not reported claims of \$50,226,013 presented in the Statement of Net Assets for the Proprietary Funds represents the outstanding medical claims for health care services received by the plans' enrollees. The incurred but not reported portion of this liability was actuarially calculated.

NOTE 16 – EMPLOYEE RETIREMENT PLANS

Plan Descriptions

The County contributes to the four retirement plans described below. Benefits are established by state statute and generally provide retirement, death, long-term disability, survivor, and health insurance premium benefits.

The Arizona State Retirement System (ASRS) administers a cost-sharing multiple-employer defined benefit pension plan that covers general employees of the County. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 2.

The Public Safety Personnel Retirement System (PSPRS) (Sheriff, Investigators and Park Rangers) is an agent multiple-employer defined benefit pension plan that covers public safety personnel who are regularly assigned hazardous duty as employees of the State of Arizona or one of its political subdivisions. The PSPRS, acting as a common investment and administrative agent, is governed by a five member board, known as The Fund Manager, and 181 local boards according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 4.

Notes to the Financial Statements (Continued)

The Corrections Officer Retirement Plan (CORP) is an agent multiple-employer defined benefit pension plan that covers certain employees of the State of Arizona, Departments of Corrections and Juvenile Corrections, and County employees whose primary duties require direct inmate contact. The CORP is governed by The Fund Manager of PSPRS and 23 local boards according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 6.

The Elected Officials Retirement Plan (EORP) is a cost-sharing multiple-employer defined benefit pension plan that covers elected officials and judges of certain state and local governments. The EORP is governed by The Fund Manager of PSPRS according to the provisions of Arizona Revised Statutes Title 38, Chapter 5, Article 3.

Financial Reports

Each plan issues a publicly available financial report that includes its financial statements and required supplementary information. A report may be obtained by writing or calling the applicable plan.

Funding Policy

The Arizona State Legislature establishes and may amend active plan members' and the County's contribution rates.

Cost-Sharing Plans - For the year ended June 30, 2002, active ASRS members and the County were each required by statute to contribute at the actuarially determined rate of 2.49 percent (2.00 percent retirement and 0.49 percent long-term disability) of the members' annual covered payroll. The County's contributions to ASRS for the years ended June 30, 2002, 2001, and 2000 were \$11,046,104, \$10,836,327, and \$9,916,689, respectively, which were equal to the required contributions for the year.

In addition, active EORP members were required by statute to contribute 7.00 percent of the members' annual covered payroll. The County was required to remit a designated portion of court docket fees plus additional contributions of -0- percent of the member's annual covered payroll, as determined by actuarial valuation. The County's contributions to EORP for the years ended June 30, 2002, 2001, and 2000 were \$2,350,549, \$2,451,845, and \$2,488,516, respectively, which were equal to the required contributions for the year.

Agent Plans - For the year ended June 30, 2002, active PSPRS (Maricopa County Sheriff) members were required by statute to contribute 7.65 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 3.51 percent. Active PSPRS (Maricopa County Attorney Investigators) members were required by statute to contribute 7.65 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 5.05 percent. Active PSPRS (Maricopa County Park Rangers) members were required by statute to contribute 7.65 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 13.94 percent. Active CORP members were required by statute to contribute 8.50 percent of the members' annual covered payroll, and the County was required to contribute at the actuarially determined rate of 2.00 percent.

Annual Pension Cost - The County's pension cost for the two agent plans for the year ended June 30, 2002, and related information follow.

Notes to the Financial Statements (Continued)

	PSPRS			CORP
	(Sheriff)	(Investigators)	(Park Rangers)	
Contribution rates:				
County	3.51%	5.05%	13.94%	2.00%

Contributions made	\$1,028,902	\$28,371	\$64,913	\$704,556

The current-year annual required contributions for both the PSPRS (Sheriff and Investigators) and CORP were determined as part of their June 30, 2000, actuarial valuations using the entry-age actuarial cost method. PSPRS (Park Rangers) annual required contributions were determined as part of their June 30, 2001, actuarial valuation. The actuarial assumptions included (a) 9 percent investment rate of return and (b) projected salary increases ranging from 6.5 percent to 9.5 percent per year. Both (a) and (b) included an inflation component of 5.5 percent. The assumptions did not include cost-of-living adjustments. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a 4-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2000, was 20 years.

NOTE 17 – INTERFUND BALANCES AND ACTIVITY

Interfund receivables and payables – interfund balances at June 30, 2002, were as follows:

The balance due to the General Fund of \$56,905,273 from the Medical Center resulted from a cash deficit that is not expected to be collected in the subsequent year. All remaining balances resulted from cash deficits in individual funds or cash transfers that had not occurred at June 30, 2002.

Interfund transfers – interfund transfers for the year ended June 30, 2002, were as follows:

Transfers out of general capital assets:

Internal Service Funds	2,666,002
Total Transfers Out	<u>\$ 317,271,592</u>

In the fund financial statements, total transfers-in of \$314,605,590 are less than total transfers-out of \$317,271,592 because of the treatment of transfers of capital assets from the internal service funds. During the year existing capital assets with a book value of \$2,666,002, were transferred from the internal service funds to County-wide capital assets. The internal service funds reported a transfer-out for the net carrying value of the assets, however; there was no offsetting transfers-in reported as internal service funds capital assets are combined with County-wide capital assets on the government-wide financial statements.

All interfund transfers are budgeted and are used to move revenues from the fund that collects them to the fund that expends them.

In addition, in fiscal year 2002, the ALTCS Fund and Maricopa Health Plan Fund (enterprise funds) transferred fund balance in excess of reserve requirements to the General Fund for a total amount of \$39,962,058. The General Fund transferred the amount to the Medical Center (enterprise fund).

NOTE 18 – DISPROPORTIONATE SHARE SETTLEMENT

Section 1923 of the Social Security Act establishes federal requirements designed to aid entities that provide medical services to a disproportionate share of medically indigent patients. These requirements were met for the year ended June 30, 2002, through disproportionate share settlements established by Laws 2001, Second Special Session, Chapter 5. AHCCCS was directed to distribute such settlements based on various qualifying criteria and allocation processes. Laws 2001 appropriated disproportionate share settlement amounts to be distributed to the hospitals for the year ended June 30, 2002. The Medical Center's share of the settlement for the year ended June 30, 2002, totaled \$45,895,500. However, Laws 2001, Second Special Session, Chapter 7, also mandated the reimbursement of the total settlement through the State Treasurer to the State General Fund.

Note 1 Budgetary Basis of Accounting

Budgeting and Budgetary Control

Arizona Revised Statutes (A.R.S.) require the County to prepare and adopt a balanced budget annually for each separate fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibit expenditures or liabilities in excess of the amounts budgeted.

Essentially, the County prepares its budget on the same modified accrual basis of accounting used to record actual revenues and expenditures.

The County has adopted budgets in accordance with the A.R.S. requirements for the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds. In accordance with GASB Statement No. 34 budgetary comparison schedules should be presented in the required supplementary information for only the General Fund and for each major Special Revenue Fund. Formal budget integration is not employed for the Proprietary Funds because effective budgetary control is alternatively achieved through capability of cost recovery. Budgeted amounts are reported as originally adopted and as amended by authorization from the Board of Supervisors. All budget adjustments require authorization from the Board of Supervisors. Budgeted appropriations include expenditures and transfers out. Expenditures and transfers out may not legally exceed appropriations at the department level. With the exception of the General Fund, each fund includes only one department.

The County budget is prepared on a basis consistent with generally accepted accounting principles, except capital lease expenditures were not budgeted in the General Fund. In addition, General Fund indirect cost recoveries and disproportionate share settlement payments were budgeted activities but these activities were eliminated on the Statement of Revenues, Expenditures, and Changes in Fund Balances.

The following schedule reconciles the excess of revenues over expenditures from the Statement of Revenues, Expenditures, and Changes in Fund Balances to the budgetary comparison schedules.

	General Fund
Excess of revenues over expenditures from the Statement of Revenues, Expenditures, and Changes in Fund Balances	\$ 206,195,128
Disproportionate share payment - expenditures	(45,895,500)
Indirect cost adjustment – expenditures	(8,154,989)
Capital lease expenditures	9,870,963
	<hr/>
Excess of revenues over expenditures from the budgetary comparison schedules	\$ 162,015,602
	<hr/>

Note 2 Expenditures in Excess of Appropriations

For the year ended June 30, 2002, expenditures exceeded final budget amounts at the department level (the legal level of budgetary control) as follows:

The condition of road pavement is measured using the MCDOT Road Management System (RMS), which is based on weighted averages of nine distress factors of the pavement surface. The RMS system uses a measurement scale to evaluate the Pavement Condition Rating (PCR) ranging from zero for a failed pavement to 100 for a pavement in perfect condition. The PCR index is used to classify roads in very good or excellent condition (71-100) good condition (55 -70), and substandard condition (less than 55). It is the County's policy to maintain at least 90% of the roadways at a very good or excellent condition level. No more than 5% should be in a substandard condition. Pavement condition assessments are determined annually for all arterial roads and approximately one-half of the local roads are inspected annually.

The condition of the County's bridges is determined using the MCDOT bridge inspection program that follows federal mandates and regulations. The bridge sufficiency rating, which is a weighted average of an assessment of the ability of individual components to meet necessary performance requirements, uses a numerical condition scale ranging from 0 to 100. It is the County's policy that 90% of bridges will have a rating of >=70 and no more than 3% of bridges will have a rating of <50. All bridges are inspected every two years (approximately one-half of the bridges are inspected annually).

The Comparison of Estimated to Actual Maintenance/Preservation cost for both the Roadway System and the Bridge System is available for only fiscal year 2002, therefore the five reporting periods of historical data are not shown.

Maricopa County

Listing of Nonmajor Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private enterprises where the intent of the County is that the costs of providing goods and services to the general public on a continuing basis be financed through user charges. This allows for the evaluation of these funds on the same basis as investor-owned enterprises in the same industry.

Non-AHCCCS Health Plans - The Non-AHCCCS Health Plans are primarily:

- *Health Select* - a managed care health plan offered to employees, spouses and their families;
- *Senior Select* - a Medicare plan operating under contract with the Federal government.

Solid Waste - Solid Waste assists the cities and towns, businesses, and citizens in continuously improving regional waste management systems. This includes an ever-increasing focus on reducing the amount of waste generated, maximizing resource recovery, proper management of special wastes, and environmentally sound disposal.

Maricopa County

Listing of Internal Service Funds

Internal Service Funds are used to account for services and commodities provided by one department or agency to other departments or agencies of the County. These services are provided on a cost-reimbursement basis. The following is a listing of the Internal Service Funds reported within Maricopa County.

Equipment Services - This fund provides assistance to other Maricopa County departments to ensure quality service to the citizens of Maricopa County by furnishing and maintaining the necessary County mobile equipment in an efficient manner.

Telecommunications - This fund provides cost effective voice, data, and radio communications to County employees.

Reprographics - This fund provides the County's printing and duplicating services.

Risk Management - This fund supports the comprehensive insurance/self-insurance program, which safeguards County assets and employees by means of a Trust Fund. Personnel skilled in loss control, claims and litigation and workers' compensation work together to avert risk and conserve the human and financial resources of Maricopa County.

Employee Benefits Trust - This fund collects employee and employer contributions for payment of the employees' dental and short-term disability benefits.

Sheriff Warehouse - Sheriff Warehouse tracks inventory activity for supplies purchased by the warehouse for resale and stores consignment inventory for other departments.

Trust and Agency Funds**

Maricopa County

Listing of Trust and Agency Funds

Trust and Agency Funds are used to account for assets held by the County in a fiduciary capacity or as an agent for individuals, private organizations, other governments and/or other funds.

The County maintains Investment Trust Funds to account for investments made by the County on behalf of other governmental entities using the economic resources measurement focus.

INVESTMENT TRUST FUNDS

Treasurer's Investment Pool - The Treasurer's Investment Pool accounts for pooled investments made on behalf of School Districts and other governmental units.

Individual Investment Accounts - Individual Investment Accounts record specific investments made on behalf of other governmental units.

The County maintains Agency Funds, which are not under the control of the Board of Supervisors. Agency Funds are custodial in nature and do not involve measurement of results of operations.

AGENCY FUNDS

Property Tax Collection - The Property Tax Collection Fund accounts for property tax receipts prior to apportionment to the taxing governmental units.

Special Purpose - The Special Purpose Fund accounts for receipts, which are designated for special purposes and are not related to an individual governmental unit.

The levy for unsecured personal property tax is based on an estimate of the assessed value. As a result, collections often vary from the levy. To show a more accurate portrayal of delinquencies (levy less collections), delinquencies for unsecured personal property tax have been excluded.

The levy for education equalization, formerly reported as part of the County levy (through fiscal year 1992-93), has been reclassified as an other jurisdiction levy to conform with the rest of the financial statements. The Equalization levy is a legally mandated tax that is distributed to school districts.

Refunding of general obligation debt in fiscal year 1993-94 resulted in a decrease to the secondary tax rate (Debt Service) and an increase to the primary tax rate (County Operating).

The above amounts include general, special revenue, debt service, and capital projects funds.

General obligation bonds reported in the special assessment debt with government commitment have been excluded. Bond issuance and other costs have also been excluded.

The absence of principal payments in fiscal years 1994-95 is due to the advanced refunding of the outstanding Maricopa County general obligation bonds. This refunding allowed the County to restructure its general obligation bond payments so that no principal payments would be required in fiscal year 1994-95.
