

LINDSEY A. PERRY AUDITOR GENERAL MELANIE M. CHESNEY

September 30, 2021

The Honorable Karen Fann, President Arizona State Senate

The Honorable Russell Bowers, Speaker Arizona House of Representatives

The Honorable Doug Ducey, Governor State of Arizona

Milton Dohoney, Jr., Assistant City Manager City of Phoenix

Transmitted herewith is a report of the Arizona Auditor General, *An Economic and Fiscal Impact Analysis Update of the Operation of the Phoenix Convention Center*. The consulting firm HVS Convention, Sports & Entertainment Facilities Consulting (HVS) conducted the analysis under contract with the Arizona Auditor General and in response to the requirements of Arizona Revised Statutes §9-626.

This analysis estimates tax revenues generated for the State of Arizona from regional and national conventions and trade shows held at the Phoenix Convention Center. For the calendar year ended December 31, 2020, HVS estimated that events held at the Phoenix Convention Center generated \$7.2 million in tax revenues for the State, which is less than the \$24.0 million the State contributed toward the Convention Center's expansion. However, since its expansion, the Phoenix Convention Center generated an estimated additional \$226.1 million in State tax revenues, which is more than the \$195.4 million the State distributed to the Phoenix Convention Center. Therefore, the City of Phoenix owes no monies back to the State for fiscal year 2022.

My staff and I will be pleased to discuss or clarify items in the report.

Sincerely,

Lindsey A. Perry, CPA, CFE

Lindsey A. Perry

Auditor General

ECONOMIC AND FISCAL IMPACT ANALYSIS UPDATE

> Re: Phoenix Convention Center Phoenix, AZ

Dear Ms. Perry:

As directed by our agreement with Arizona Auditor General and A.R.S. §9-626, HVS Convention, Sports, and Entertainment Facilities Consulting ("HVS") submits the attached Economic and Fiscal Impact Analysis Update of the Phoenix Convention Center.

HVS staff collected and analyzed all information contained in this report. HVS sought out reliable sources and deemed information obtained from third parties to be accurate. The results of this study are subject to the comments, assumptions, and limiting conditions described in the report.

It has been a pleasure working with you. Please let us know if we can provide any additional services.

Sincerely,

HVS Convention, Sports & Entertainment Facilities Consulting

Thomas Hazinski

# 1. Introduction and Executive Summary

## Nature of the Assignment

The Arizona Auditor General engaged HVS Convention, Sports & Entertainment Facilities Consulting ("HVS") to conduct an Economic and Fiscal Impact Analysis of the Phoenix Convention Center ("PCC") in Phoenix, Arizona.

HVS performed this analysis as directed by A.R.S. §9-626. This statute requires an assessment of the value of direct, indirect, and induced economic activity resulting from regional and national conventions and trade shows held at the PCC. These estimates of economic activity provide the basis for estimates of the gross amount of State General Fund revenues received from income, sales, and luxury taxes derived from the operation of the PCC. Gross State General Fund revenue minus the amounts distributed as directed by A.R.S. §9-602(D) plus construction impacts equal the net impact on the State General Fund.

In the original Economic and Fiscal Impact Analysis dated August 1, 2014, HVS estimated the impact of the PCC for the period from 2009 through 2013. In subsequent years, HVS estimated the prior year impact of the PCC. This update estimates the 2020 impact of the PCC.

# Impact of the COVID-19 Pandemic on PCC Performance

The impact of COVID-19 has been felt throughout the United States. In March 2020, federal, state, and local governments, individual corporations, and other institutions imposed travel restrictions and other safety measures. In addition, on March 11, 2020, Arizona Governor Doug Ducey issued a Declaration of Public Health Emergency and Executive Order to address the spread of COVID-19 and several subsequent Executive Orders that limited public gatherings. The City of Phoenix continues to follow CDC and WHO guidelines and recommendations for public gatherings.

In addition to the cost of human life, the broader impact of the spread of COVID-19 and the response to it has triggered an unprecedented economic contraction, from which the negative effects are likely to be longer-lived than the virus itself. Government responses have varied from state to state throughout the US. While the short-term impact on the economy is severe, it is difficult to assess the long-term impact of COVID-19 on activity and spending.

It remains unclear as to when local and national efforts to address the COVID-19 pandemic will be sufficient to allow the PCC and other major convention centers to return to normal operations.

We have attempted to account for potential short-term implications of COVID-19 in our forecast, but a significant level of uncertainty remains for activity levels in 2021 and 2022. For subsequent Economic and Fiscal Impact Analysis Updates, more information will be available that will allow HVS to estimate the impact of COVID-19 on Qualified Revenue.

# Economic Impact Methodology

To estimate the fiscal impacts of the expansion, HVS followed the methodology outlined in in the following figure.

FIGURE 1-1 **ECONOMIC AND FISCAL IMPACT ANALYSIS PROCESS** Qualified New Actual **Events** Qualified Qualified without **Events Events** Expansion **Net Direct** Overnight Visitors **Spending** Spending Gross per Visitor **IMPLAN** Indirect **Day Trip** Direct Day or Spending Visitors Spending Attendee Induced **Attendees** Spending Detailed Gross General Net **Effective** General General Fund **Spending Tax Rates** Fund Fund Support by Sector **Impacts Impacts** (Tax Base)

As required under A.R.S. §9-626, HVS estimated the change in economic activity related to "regional and national conventions and trade shows held at the site of the eligible project" referred to hereinafter as "Qualified Events." HVS relied on

historical data on Qualified Events, attendance, and room nights generated by the PCC before and after its expansion to estimate the increase in the number of and attendance at Qualified Events.

For the no-expansion scenario, HVS assumed that in 2009, the PCC would have achieved an average annual level of Qualified Events for the years 2003 through 2005. From 2006 through 2008, the project to expand the PCC was in process, negatively affecting the annual level of Qualified Events. From 2010 through 2013, we applied the actual percent change in demand to the historical averages. For 2014 through 2019, we assumed that the PCC without expansion would remain at the same level of demand as 2013. Without reinvestment, convention facilities in Phoenix would have become functionally obsolete and unable to attract new events. The difference between the expansion and the no-expansion scenarios represents net demand added by the expansion. HVS estimated overnight visitors, day-trip visitors, and attendees to the PCC.

For 2020, we adjusted the non-expansion demand to account for the COVID-related restrictions that stymied events at the PCC. Given that the only 20% of the calendar year was available for hosting Qualified Events, we used 20% of the historical average described in the previous paragraph.

HVS used estimates of the amounts of spending per visitor or attendee to estimate gross direct spending or income associated with Qualified Events. Gross direct spending provides the inputs into the IMPLAN model of the local area economy. IMPLAN is a nationally recognized input-output model that estimates the income and employment effects of changes in economic activity. The model used in the update relied on the most recent available data (2019) on the Arizona economy. IMPLAN generates estimates of total net spending. Spending falls into three categories: net direct spending, indirect spending, and induced spending. The sum of net direct, indirect, and induced spending estimates makes up the total estimated spending impact of the New Qualified Events.

To estimate fiscal impacts, HVS identified the sources of spending that would generate General Fund revenues: 1) Sales and Use Taxes, 2) Personal Income Taxes, 3) Corporate Income Taxes, and 4) Luxury Taxes. Detailed outputs of the IMPLAN model provide a basis for quantifying the tax base for each tax. We applied the appropriate effective tax rate to the tax base to estimate General Fund Revenue generated by Qualified Events ("Qualified Revenue"). Subtracting distributions from Qualified Revenue yields an estimate of the net impact on the State General Fund.

**Event Demand Analysis** 

The Greater Phoenix Convention and Visitors Bureau ("GPCVB") provided HVS with data on historical Qualified Events from 2009 through 2020.

The following figure shows the difference between the number of Qualified Events and their associated attendance and room nights for the past ten years in the non-expansion and expansion scenarios.

FIGURE 1-2
PROJECTED DIFFERENCE IN DEMAND

Year	No Expansion	Actual	Change
Qualified E	vents		
2011	23	52	29
2012	27	61	34

2018	96,000	784,634	688,634
2019	96,000	746,246	650,246
2020	18,000	205,180	187,180
Total	993,000	5,847,176	4,854,176

Source: GPCVB and HVS

As previously stated, the COVID-19 pandemic had the effect of completely terminating all Qualified Event activity at the PCC from March 12, 2020 until the end of the year. All events booked in this period were postponed or cancelled. This resulted in a 72% decrease in events and a 77% decrease in attendance from the previous year.

#### **Spending Impact**

HVS estimated direct spending by applying daily spending parameters of event attendees, event organizers, and exhibitors to the estimated demand from Qualified Events. HVS also estimated associated business spending ("Indirect Spending") and related personal income ("Induced Spending") using the IMPLAN input-output model. See the figure below for estimates of increased net spending related to Qualified Events.

FIGURE 1-3
NET SPENDING IMPACT ESTIMATES (\$ MILLIONS)

	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Direct	\$181.7	\$160.7	\$117.3	\$217.6	\$277.1	\$251.8	\$235.4	\$308.3	\$300.5	\$92.4
Indirect	56.7	49.9	36.1	65.9	82.2	89.7	90.3	117.5	114.6	36.7
Induced	73.0	63.3	46.1	74.3	121.5	145.9	119.1	144.8	147.7	44.9
Total	\$311.4	\$273.9	\$199.5	\$357.8	\$480.8	\$487.4	\$444.8	\$570.6	\$562.8	\$174.0

#### **Fiscal Impacts**

Net direct, induced, and indirect spending serves as the basis for estimating fiscal impacts. HVS identified four applicable taxes in the State of Arizona that would generate Qualified Revenue:

- Sales and Use Tax,
- Personal Income Tax,
- Corporate Income Tax, and
- Luxury Taxes (from tobacco, cigarettes, and liquor).

The following figure summarizes the estimated increase in General Fund revenues from 2009 to 2020 with construction impacts and fund distributions.

FIGURE 1-4
ESTIMATED NET GENERAL FUND IMPACT

	Impact
Annual Qualified Revenue	
2009	\$17,347,000
2010	14,681,000
2011	15,422,000
2012	13,620,000
2013	9,120,000
2014	14,996,000
2015	20,489,000
2016	20,647,000
2017	18,985,000
2018	23,543,000
2019	23,620,000
2020	7,163,000
Total Qualified Revenue	\$199,633,000
Construction Impacts	26,445,000
Sub-total	\$226,078,000
Less Fund Distributions 2009-2020	(195,384,100)
Qualified Revenue Less Distributions	\$30,693,900

Sources: AECOM, State of Arizona, and HVS

#### **Breakeven Analysis**

The cumulative difference of construction impacts and Qualified Revenue less fund distributions from 2009 to 2020 is approximately \$30.7 million. However, fund distributions will continue through 2044. HVS estimated the minimum attendance required for total fund distribution to equal Qualified Revenues for future years (see Figure 1-5).

As stated earlier, the COVID-19 pandemic has had both short- and long-term impacts on PCC operations, some of which are still unknown. HVS assumptions are based on observations of event restriction in other states and on available public information at the time of this writing. Assumptions regarding the impact of the COVID-19 pandemic on future PCC events and attendance cannot be guaranteed to be accurate.

To estimate future attendance HVS made the following calculations and assumptions:

- Calculated Qualified Revenues per Attendee from 2009 through 2020, by dividing Qualified Revenue (Figure 1-4) by Actual Attendance (Figure 1-2).
- Used a ten-year average from 2010 to 2019 in 2020 dollars to project Qualified Revenue per Attendee for 2021 and inflated that amount by an inflation rate of 2.5% for future years.
- We assume that events will be held at some point in 2021 but that ongoing health concerns and a weakened economy will affect attendance levels. We assume events will be held beginning in June 2021 and that impacts on attendance will be greatest in those first months of resumed activity in 2021 and gradually lessen through the end of the year. This context is further complicated by the possibility that some events that were cancelled or postponed in 2020 and early 2021 will return, leading to more robust event bookings once health concerns are manageable. Overall, we forecast that 2021 attendance will be between 75% and 80% of current bookings.
- To forecast attendance in 2022, 2023, and 2024, HVS assumed a consistent recovery to 230,000 attendees. Beginning with 2025, HVS estimates that the PCC requires an average of 234,490 attendees per year from 2025 through 2029 for cumulative Qualified Revenue to equal fund distributions.

See the following figure.

FIGURE 1-5
QUALIFIED REVENUE BREAKEVEN ANALYSIS

Bond Year <sup>1</sup>	State General Fund Distributions to City of Phoenix	Estimated Future Qualified Attendance	Qualified Revenue per Attendee <sup>2</sup>	Qualified Revenue	Qualified Revenue minus State General Fund Distributions to City of Phoenix	Cumulative Excess (Deficit) <sup>3</sup>
Actual <sup>4</sup>						\$30,693,900
2021	24,498,450	80,000	99.26	7,941,000	(16,557,450)	14,136,450
2022	24,999,400	180,000	101.74	18,313,931	(6,685,469)	7,450,981
2023	25,498,550	210,000	104.29	21,900,410	(3,598,140)	3,852,841
2024	25,998,700	230,000	106.89	24,585,817	(1,412,883)	2,439,958
2025	26,497,375	234,490	109.57	25,692,433	(804,942)	1,635,016
2026	26,997,100	234,490	112.31	26,334,744	(662,356)	972,659
2027	27,495,125	234,490	115.11	26,993,112	(502,013)	470,647
2028	27,998,700	234,490	117.99	27,667,940	(330,760)	139,887
2029	28,499,525	234,490	120.94	28,359,638	(139,887)	0
2030	28,999,575	233,933	123.97	28,999,575	0	0
2031	29,495,550	232,131	127.06	29,495,550	0	0
2032	29,999,150	230,336	130.24	29,999,150	0	0
2033	29,996,250	224,696	133.50	29,996,250	0	0
2034	29,995,775	219,212	136.83	29,995,775	0	0
2035	29,999,975	213,895	140.26	29,999,975	0	0
2036	29,995,825	208,650	143.76	29,995,825	0	0
2037	29,995,850	203,561	147.36	29,995,850	0	0
2038	29,996,750	198,602	151.04	29,996,750	0	0
2039	29,995,225	193,748	154.82	29,995,225	0	0
2040	29,997,975	189,040	158.69	29,997,975	0	0
2041	29,996,150	184,418	162.65	29,996,150	0	0
2042	29,996,175	179,920	166.72	29,996,175	0	0
2043	29,998,925	175,548	170.89	29,998,925	0	0

<sup>&</sup>lt;sup>1</sup>Beginning July 1.

Annual Fund Distribution amounts will increase from \$24.5 million in 2021 to \$30.0 million in 2032 and remain at roughly \$30.0 million until 2043. To generate enough Qualified Revenue to equal the cumulative amounts of Fund Distributions, the PCC will need to generate approximately 233,606 in annual attendance for the years 2025 through 2032.

<sup>&</sup>lt;sup>2</sup>Estimated average revenue per attendee at qualified events. Past years are in 2020 dollars and future estimates are estimated at an inflation rate of 2.5% per year.

<sup>&</sup>lt;sup>3</sup>Cumulative difference is the previous year's cumulative difference (as shown in Figure 1-4) plus current year Qualified Revenue minus Fund Distributions.

<sup>&</sup>lt;sup>4</sup>As of December 31, 2020.

Following 2032, Fund Distributions increase by less than inflation. Therefore, the PCC will need to generate approximately 199,208 in annual attendance for the years 2033 through 2043 for Qualified Revenue to equal Fund Distributions.

Conclusion

HVS estimates that through the year 2020, Qualified Revenues exceed the amounts of fund distributions by \$30.7 million. The current COVID-19 pandemic crisis has severely limited the ability of the PCC to generate Qualified Revenue in 2020 and 2021. It is currently unclear what levels of activity will return in the second half of 2021. In the next five to ten years, the PCC will need to attract attendance at levels higher than the ten-year historical average to generate amounts of Qualified Revenues sufficient to cover Fund Distributions.

## 2. Event Demand Analysis

#### **History of Phoenix Convention Center**

The Phoenix Civic Plaza opened in 1972. Demand for an expansion of the center arose as the population and economy of the City of Phoenix grew. In 1985, the venue doubled its total function space and expanded to approximately 300,000 square feet of rentable function space. It underwent renovations in the early 1990s.

In 2001, Phoenix voters approved a second large-scale convention center expansion project. The City gained permission to spend approximately \$300 million on the project. In 2003, the Arizona Legislature approved another \$300 million in funding from the State of Arizona. The project entailed:

- building a new three-story West Building on the old Symphony Terrace site with a lower level,
- demolishing and replacing the main North Building with a new three-story facility with a lower level that connects to the West Building, and
- renovating the interior of the South Building.

The following figure compares the amount of exhibit, ballroom, and meeting space in the 1985 expansion to the 2009 expansion.

FIGURE 2-1 PCC BEFORE AND AFTER EXPANSION

Specification	Pre-Expansion	Post-Expansion
Year Completed	1985	2009
Total Function Space (sf)	302,000	868,300
Total Space (sf)	580,000	2,700,000
Exhibit Space (sf)	221,000	584,500
Exhibit Divisions	4	13
Ballroom Space (sf)	28,000	118,800
Ballroom Divisions	1	9
Meeting Rooms (sf)	53,000	167,390
Meeting Room Divisions	43	107

Source: Phoenix Convention Center, City of Phoenix, GPCVB

The expansion nearly tripled the amount of rentable function space. The lower level of the North and West Buildings connect to form a 312,500-square-foot contiguous exhibit hall.

#### **Actual Qualified Events**

The Greater Phoenix Convention and Visitors Bureau ("GPCVB") provided HVS with data on historical Qualified Events for the calendar years 2009 through 2020. Appendix A provides a complete list of Qualified Events. The following figures present the number of events and attendee history at the PCC for the past ten years by calendar year and number of attendees.

FIGURE 2-2 **NUMBER OF QUALIFIED EVENTS**

Source: GPCVB

In 2020, the PCC was only able to hold events until March 12, 2020, or approximately 20% of the calendar year. This reflects a 72% decrease in events and a 77% decrease in attendance from 2019.

HVS estimated room nights for Qualified Events using attendance, event length, and information reported by delegates. The PCC provided HVS with delegate intercept survey data for 24 Qualified Events. The intercept surveys were conducted from 2008 through 2012. The survey asked the respondents whether they stayed overnight for the event and, if so, how many nights they stayed. On average, approximately 86 percent of attendees stayed overnight for their events.

For each event with a corresponding survey, we found the weighted average length of stay and compared it to the event's length. See the following figure.

FIGURE 2-4 **LENGTH OF STAY AND EVENT LENGTH (DAYS)** 

Qualified Event	Length of Stay Reported by Delegates	Event Length	Average Percent of Event Length Stayed
The Gideons International Convention	5.362	7	77%
General Council of the Assemblies of God	5.181	5	104%
Annual Meeting of Military Surgeons	4.717	4	118%
Imaging USA - Annual Conv & Expo	4.503	3	150%

Electric Utilities Environmental Conference	3.376	3	113%
NRA Annual Meetings and Exhibits	3.310	6	55%
Length of stay as a percent of event length for al	l events included	in survey	101%

Source: PCC Intercept Survey and GPCVB

The survey results indicate that the average overnight visitor stays for approximately the same length of time as the event length. From this analysis, we assumed that room nights per lodger equaled the event's length in the nonexpansion scenario.

For events with greater than 10,000 attendees, HVS estimated room nights and overnight visitation separately. These large events include sports tournaments, consumer shows, and a marathon, which are events that attract more drive-in visitation than other Qualified Events. Additionally, attendees to these events typically reflect a shorter length of stay than expected from event length and higher occupancy per room than conventions.

The figure below shows the room night history at the PCC from 2011 through 2020.

FIGURE 2-5 PHOENIX CONVENTION CENTER TOTAL ROOM NIGHTS

**Qualified Events** without Expansion To estimate the number of new Qualified Events, HVS estimated the number of events and average attendance that would have occurred at the venue if it did not undergo expansion. We based our estimates on the historical performance of the PCC for the years 2003 to 2005 prior to the expansion project as shown in the following figure. Appendix B lists Qualified Events from 2003 to 2005.

June 22, 2021 **Event Demand Analysis** Economic and Fiscal Impact Analysis Update - Arizona

Source: PCC

To estimate the number of Qualified Events that would have occurred without expansion, HVS assumed that in 2009 the PCC would have achieved the 2003 to 2005 three-year average level of events and attendance. In subsequent years, we applied the actual percent change in Qualified Events for the years 2010 through 2013 to the average levels in 2009. For 2014 through 2019, HVS assumed that without expansion, the PCC would hold the same number of events as the year before. For 2020, HVS adjusted the non-expansion estimates to reflect the venue's closure and limited activity for 80% of the calendar year due to restrictions from the COVID-19 pandemic.

See the figure below for the actual percent change in Qualified Event attendance that occurred from 2011 through 2020, followed by the resulting projections for Qualified Events without an expansion.

HVS excluded events from the set of events from 2003 to 2005 that the PCC provided that were not Qualified Events, such as gift shows and outdoor sporting events. Due to the space restrictions of the PCC prior to expansion, HVS assumed that without expansion, the PCC would not hold Qualified Events with more than 6,000 attendees. As mentioned on Page 2-5, for 2020, HVS adjusted the non-expansion estimates (to 20% of the pre-2020 non-expansion scenario) to reflect the effects of restrictions from the COVID-19 pandemic.

To estimate room nights in the non-expansion scenario, HVS used delegate intercept survey data described on Page 2-3 of this report. HVS used average event length to estimate the annual room nights for the non-expansion scenario. The 2003 to 2005 event data did not provide sufficient data to estimate event length. The GPCVB dataset of Qualified Events from 2009 to 2013 represents the best available source of event length for the PCC. HVS used this data to estimate room nights in the non-expansion scenario.

June 22, 2021 Event Demand Analysis

Economic and Fiscal Impact Analysis Update - Arizona

With our assumptions and Qualified Event and attendance forecasts, the following figure shows room night projections for Qualified Events.

FIGURE 2-9 PROJECTED ROOM NIGHTS WITHOUT EXPANSION

2-11

# 3. Spending Estimates

HVS estimated the amounts of spending caused by the economic activity generated by Qualified Events.

## Direct, Indirect, and **Induced Spending**

Spending falls into three categories:

- **Direct spending** includes the spending of event attendees, event organizers, and exhibitors. For example, an attendee's expenditure on a restaurant meal is a direct spending impact.
- Indirect spending follows from the business spending resulting from the initial direct spending. For example, an event attendee's direct expenditure on a restaurant meal causes the restaurant to purchase food and other items from suppliers. The portion of these restaurant purchases that remain within Arizona count as indirect impacts.
- **Induced spending** represents the change in local consumption due to the personal spending by employees whose incomes change from direct and indirect spending. For example, a waiter at a local restaurant may have more personal income as a result of an event attendee dining at the restaurant. The amount of the increased income that the waiter spends in the local economy is an induced impact.

To generate direct spending estimates, HVS applied assumptions about the amounts of spending generated by Qualified Events. HVS used the IMPLAN inputoutput model of the local economy to estimate net direct, indirect, and induced spending. The sum of net direct, indirect, and induced spending estimates makes up the total estimated spending impact of Qualified Events at the PCC.

## **Sources of Direct Spending**

HVS identified four sources of new direct spending impact:

- **Overnight Guests**: Delegates to Qualified Events who require overnight lodging, including convention delegates, meeting attendees, and attendees at other Qualified Events. Overnight delegate spending includes the spending on hotel catering by exhibitors and event organizers along with the personal spending of individual guests. Overnight delegate spending also includes spending from non-registered visitors, as described in Appendix F.
- **Day-trip Attendees:** Visitors to the PCC who do not require overnight lodging. In most markets, day-trippers typically spend money on meals,

June 22, 2021 **Spending Estimates** 

3-1

shopping, local transportation, recreation and entertainment, and other goods and services while in town.

- **Event Organizers**: Individuals, associations, or other organizations that plan, sponsor, organize, and coordinate events that take place at PCC facilities. In addition to facility spending, event organizers also spend on lodging, meals, local transportation, facility rentals, equipment rentals, and other goods and services required to plan and organize a successful event. Event Organizer spending is estimated on a per attendee day basis.
- **Exhibitors**: Individuals or companies that rent exhibition space, typically from event organizers, to display information or products at events. In addition to spending at the facility, exhibitors purchase lodging, meals, local transportation, vendor services, meeting room rentals, equipment rentals, and other goods and services. Event Organizer spending is estimated on a per attendee day basis.

## **Spending Parameters**

Delegates, attendees, event organizers, and exhibitors spend locally on lodging, meals, local transportation, facility rentals, vendor services, meeting room rentals, equipment rentals, and other goods and services.

We relied on Smith Travel Research ("STR") data to estimate hotel room rates paid by delegates in each year of the forecast. For 2020, ADR reflects the average for the first three months of 2020, the only months in which the PCC held events. See the following figure for a ten-year summary of average daily room rates in hotels near the Convention Center in downtown Phoenix.

FIGURE 3-1 **HOTEL AVERAGE DAILY ROOM RATES** 

Year	ADR
2011	\$140.06
2012 2013	145.42 143.83
2013	143.83
2015	159.71
2016	162.76
2017	161.49
2018	166.38
2019	173.49
2020	197.88

Source: STR

STR data has certain limitations. Not every property reports data in a consistent and timely manner. STR estimates the average daily room rate of non-reporting

hotels based on reported data. These factors can influence the overall quality of the information. Nonetheless, STR data provide the best available estimates of the average daily room rate.

HVS primarily relied on Longwoods International's 2017 Phoenix Visitor Profile Research for overnight and day-trip visitor spending. HVS relied on its own hotel revenue database to determine additional overnight visitor spending that Longwoods International does not include in its travel surveys. Beginning with activity from 2018 and for subsequent years, HVS adjusted overnight visitor spending to include 0.15 Non-Registered Visitors per attendee, as described in Appendix F. For exhibitor and organizer spending, we used a 2004 national survey of convention spending conducted by the Destinations International ("DI").

HVS adjusted all Longwoods and DI spending parameters for inflation using the Consumer Price Index as published by the US Bureau of Labor Statistics. Since DI data reflects national spending, we adjusted DI parameters for the relative cost of travel to Phoenix based on the Corporate Travel Index ("CTI"). CTI is an annual comparison of travel costs to the 100 largest U.S. cities conducted by Business Travel News.

The inclusion of Longwoods International data and HVS's local market data represents a major change in methodology from our studies prior to 2017. The significant changes to the overnight and day-trip visitor spending inputs materially change the calculation of Qualified Revenue. Although spending estimates for overnight and day-trip visitors may vary from pre-2017 estimates, it more accurately reflects current spending levels.

The following figures show the adjusted and appropriately inflated daily spending parameters for 2011 through 2020.

FIGURE 3-2 **OVERNIGHT VISITOR DAILY SPENDING**

**Facility Revenue Related to Qualified Events** 

The spending parameters discussed above exclude spending that occurs within the PCC. Visitors, event organizers, and exhibitors purchase facility rentals and equipment, food and beverage services, and other services at the PCC. HVS used actual PCC client spending data to estimate revenue in the following categories.

Food and Beverage—Most events that use the PCC's function space also arrange for food service for their attendees during their events. This food service includes catering, which can range from coffee breaks associated with a meeting to a full

dinner associated with a convention or banquet. Consumer shows, theater performances, and arena events may generate concession revenue. Most conventions and conferences generate demand for multiple meals during these multi-day events. Meetings and banquets generally include a single meal or refreshment services. Conventions and tradeshows typically experience the most spending per attendee.

Facility Rental—Facility rental revenue includes the revenue the PCC receives from clients that reserve one or more function areas. Despite having published rates, facilities typically charge rental fees based on negotiated daily rental fees. Not all events incur a facility rental fee. A facility may waive the space rental charges if the event meets a certain minimum of food and beverage charges.

**Utilities**—Utility revenue includes revenues from the sale of electricity, gas, water, and communication utilities to event organizers and exhibitors.

Audio Visual—Audio visual revenue includes the costs of sound and video systems used for presentations and productions during events.

Services—Event services include the fees charged to tenants for services that could include business services, technical assistance, information technology setup and take down of function spaces, cleaning services, security services, commissions from decorators, and other services provided by third-party contractors at events. Banquets and other upscale events often require elaborate decorating services. Almost all events require cleaning services; cleaning of common areas may be complimentary for most events while cleaning services offered to individual exhibitors can represent a significant source of revenue. Service charges vary by type of event. Some of these services may be included in the rental charges for using the facility, but others will be add-on service charges.

**Equipment**—The PCC earns revenue through equipment rental and use fees for event organizers and attendees.

Ticket Tax/Fees—The PCC earns revenues through both ticket office fees and service fees for running its ticket offices.

Parking—The PCC generates revenue through over 4,000 parking spaces in covered garages.

The following figure shows spending at the PCC for the years 2011 through 2020.

FIGURE 3-6 SPENDING AT THE PCC RELATED TO QUALIFIED EVENTS (\$ THOUSANDS)

We estimated net spending at PCC Qualified Events in the non-expansion scenario by calculating the actual spending per attendee in each year, then multiplying it by the number of attendees in the non-expansion scenario. The figure below shows the spending per year in the non-expansion scenario.

FIGURE 3-7 PROJECTED SPENDING AT THE PCC WITHOUT EXPANSION (\$ THOUSANDS)

Spending Category	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020

Refer to Appendix D for a complete listing of all PCC revenues in 2020.

#### **Attendance Estimates**

HVS applied the sources of spending impacts and spending parameters described in Figures 3-2 through 3-8 to estimate gross direct spending for 2020. For overnight visitors, day-trip visitors, exhibitors, and organizers, HVS multiplied the spending by the number of delegate days.

Since exhibitor and organizer spending parameters are based on event attendee days, HVS calculated attendee days as follows:

Number of attendees x Event length = Attendee days

Event length assumptions are based on the actual average event lengths of Qualified Events, as shown in the figure below. Beginning with the 2019 Study, HVS used the actual event lengths of Qualified Events for events with fewer than 10,000 attendees. For events with 10,000 of more attendees, HVS estimated attendee length of stay based on event schedule and typical behavior of attendees to consumer shows and sports tournaments.

The figure below shows the attendance and event lengths for Qualified Events.

FIGURE 3-9 TOTAL ATTENDANCE AND AVERAGE EVENT LENGTH BY YEAR

HVS estimated the number of net overnight delegate days by using the difference in room nights between the expanded PCC and non-expansion scenario projections (see Figure 2-11). For events with 10,000 or more attendees, HVS estimated that on average half of the attendees stayed overnight and half were day trip visitors. For lodgers attending these large events, HVS assumed an average occupancy of 2.25 visitors per room.

Based on these estimates, HVS calculated the number of overnight visits as follows:

Attendance x Event length x % Lodgers = Overnight visits

For events with fewer than 10,000 attendees, HVS estimated the percentage of non-lodgers based on the results of the intercept survey data (see Figure 2-8). HVS estimated that, on average, 14 percent of attendees did not stay overnight. Additionally, based on the results of the intercept survey, HVS assumed that all delegates attended the event for the full event length.

Based on these estimates, HVS calculated the number of day-trip visitors as follows:

Attendance x Event length x % Non-lodgers = Day-trips

See the following figure for estimated Gross Direct Spending from 2016 to 2020.

**Indirect and Induced Spending** 

The relationship between direct spending and the multiplier effects can vary based on the specific size and characteristics of a local area's economy. HVS entered the gross direct spending estimate into the IMPLAN input-output model of the local

June 22, 2021 **Spending Estimates** 3-11 Economic and Fiscal Impact Analysis Update - Arizona

economy to estimate the net direct, indirect, and induced spending. HVS obtained the most recent available data from IMPLAN for the state of Arizona.

**IMPLAN Impact Modeling** 

IMPLAN is a nationally recognized model developed at the University of Minnesota commonly used to estimate economic impacts. An input-output model generally describes the commodities and income that normally flow through the various sectors of a given economy. The indirect and induced spending and employment effects represent the estimated changes in the flow of income, goods, and services caused by the estimated direct spending. The IMPLAN model accounts for the specific characteristics of the local area economy and estimates the share of indirect and induced spending that it would retain.

HVS categorized new direct expenditures shown in Figures 3-2, 3-3, 3-4, 3-5, and 3-8 into sectors that best reflect the industries that absorb visitor and facility spending. These spending categories serve as inputs for the IMPLAN model. The following figure shows the gross spending estimates as inputs for IMPLAN allocated by sector.

**FIGURE 3-12 GROSS DIRECT SPENDING BY IMPLAN SECTOR (2020)\*** 

Sector	Spending (\$ Thousands)
Uatala and matala including easing batala	42.156
Hotels and motels, including casino hotels	43,156
Food services and drinking places	21,522
Retail Stores - General Merchandise	8,500
Amusement parks, arcades, and gambling industries	5,061
Automotive Equipment Rental and leasing	3,539
Advertising and Related Services	2,560
Transit and ground passenger transportation	2,589
Museums, Historical Sites, Zoos, and Parks	2,403
Other amusement and recreation industries	2,024
Real estate establishments	1,800
Commercial/industrial machinery and equipment rental	1,124
Scenic and sightseeing transportation	1,126
Performing Arts Companies	946
Retail Stores - Gasoline Stations	777
State and local government passenger transit	532
Spectator Sports Companies	508
Other support services	305
Motion picture and video industries	314
Other personal services	15
Promoters of performing arts	15
Total	\$98,815
*Numbers may not match total spending in Figure 3-11 due to rour	nding.

### **Annual Net Direct Spending**

A portion of gross direct spending does not generate income within the state of Arizona. HVS adjusted gross direct spending to account for spending that leaks out of the local economy by using IMPLAN's estimated retail margins and local purchase percentages. As a result, the realized direct spending ("net direct spending") is lower than the gross direct spending.

### **Retail Margins**

Retailers add value equal to the margin or price increase of the good above the original price paid to obtain the good. The IMPLAN model is product based, so HVS uses IMPLAN margin numbers to account for the discrepancy between retail purchaser prices and producer prices.

### **Local Purchase Percentage**

To accurately measure spending impacts, HVS counts spending on products and services located in the market area. The State of Arizona cannot accommodate all of the direct spending. For example, an event organizer may need to buy novelty items for all attendees but find that Arizona does not produce them. This effect occurs for direct, indirect, and induced spending. HVS uses IMPLAN's Social Accounting Matrix ("SAM") model values to track the actual dollar amounts of business transactions taking place in a localized region.

### **Annual Net Spending Impacts**

The figure below shows the annual net direct, indirect, and induced spending generated from Qualified Events.

**FIGURE 3-13 NET DIRECT, INDIRECT, AND INDUCED SPENDING (\$ THOUSANDS)** 

Year	Net Direct	Indirect	Induced	Total
2009	\$245,009	\$74,626	\$96,811	\$416,446
2010	\$188,729	\$58,561	\$75,453	\$322,743
2011	\$181,689	\$56,664	\$72,982	\$311,335
2012	\$160,708	\$49,893	\$63,328	\$273,929
2013	\$117,315	\$36,146	\$46,127	\$199,588
2014	\$217,597	\$65,891	\$74,335	\$357,823
2015	\$277,104	\$82,182	\$121,454	\$480,740
2016	\$251,837	\$89,704	\$145,939	\$487,480
2017	\$235,379	\$90,287	\$119,112	\$444,778
2018	\$308,330	\$117,487	\$144,812	\$570,629
2019	\$300,479	\$114,602	\$147,718	\$562,799
2020	\$92,411	\$36,691	\$44,876	\$173,977

Consistent with the impact of restrictions on events and attendance, total spending decreased by 69.1% from 2019 to 2020. For detailed output broken down by year and IMPLAN industry sector, please refer to Appendix E.

June 22, 2021 **Spending Estimates** 3-13

#### Other Considerations

While the Qualified Events generate a significant number of room night stays by convention delegates and other event attendees in local hotels, the precise estimates of room night generation are difficult to obtain. The analysis relies on attendance and room nights reported by Visit Phoenix, which tracks the number of rooms reserved through pre-arranged room blocks, which are set aside at designated room rates. However, a significant number of attendees book rooms through other channels (e.g., direct reservations or online hotel sites). Consequently, comprehensive historical data on the net number of room nights are not available. HVS used the results of the delegate intercept survey conducted from 2008 through 2012 to estimate the overnight visitation for Qualified Events and industry knowledge to estimate the length of stay and visitation for certain large events.

The Convention Center also influences the level of Average Daily Rate in the hotel market during event days. Consistent with a normal supply and demand relationship, higher levels of room night demand would cause an increase in price. On event days with higher demand, hoteliers could charge higher room rates to all of their customers, regardless of their association with the Convention Center room block.

While impacts of the Qualified Events on hotel room rates and occupancy are likely to occur, HVS did not include these impacts in this report because the statistical models we used to analyze these effects produced a wide range of estimates within a 90 percent confidence interval. Further analysis of market-wide hotel impact could be considered in future years. However, the results may not significantly affect the economic impact of events at the Convention Center.

June 22, 2021 **Spending Estimates** 3-14

### 4. Fiscal Impact Estimates

### **Fiscal Impacts**

To estimate fiscal impact, HVS considered, "the total amount of state general fund revenues derived from that economic activity," as stated in A.R.S. §9-626(A) and (B). In Chapter 3, HVS provided spending estimates for activity related to Qualified Events. They provide a basis for estimating potential tax revenue for the General Fund that results from Qualified Events ("Qualified Revenue"). The figure below lists sources that benefit the General Fund as a result of the expanded PCC.

FIGURE 4-1 SOURCES OF REVENUE FOR THE GENERAL FUND

Тах	Description
Sales and Use*	Applies to every engagement in the State in various business classifications.
Personal Income  Corporate Income	The taxable personal income rate increases as total income increases. It also depends on whether the member files jointly or separately.  Applies to every corporation's net income.
Luxury	Applies to any purchase of cigarettes, cigars, tobacco, and alcohol.

<sup>\*</sup>From 6/1/2010 to 5/31/2013, Prop 100 increased the Sales Tax by 1%. Source: Arizona Auditor General

The nominal tax rates represent the legally imposed rates that the State of Arizona charges for a tax.

In this study, we estimated only the portion of taxes that would flow to the General Fund. We use nominal rates and the portion allocated to the General Fund to estimate Qualified Revenues for each year. For each tax, HVS found data on General Fund revenue for 2009 through 2020. The following describes the calculations for the effective rate for each source of Qualified Revenue.

### Sales Tax and Use Tax

For each sector, HVS found effective rates and Qualified Revenue of Sales Tax and Use Tax by the following calculation:

Taxable Sales x Tax Rate x General Fund Share = Qualified Revenue

June 22, 2021 **Fiscal Impact Estimates**  HVS calculated General Fund Share as the sum of the non-shared base and the portion of the distributed base going to the General Fund. HVS added one percent to the tax rate in years 2011 and 2012 to account for Proposition 100. HVS prorated this one percent and only added seven-twelfths of one percent in 2010 and five-twelfths of one percent in 2013 since the measure began on June 1, 2010 and ended on May 31, 2013. For detailed tax rates and General Fund Shares, see Appendix E.

#### **Personal Income Tax**

HVS calculated the tax base for Personal Income Tax using U.S. Department of Commerce, Bureau of Economic Analysis's quarterly income summary report for the State of Arizona. See the figure below for the tax base and average effective tax rates from the past ten years.

FIGURE 4-2 PERSONAL INCOME TAX (IN BILLIONS)

	i Litot	THAT INCOME TAX (	iii billioiis,	
Year	General Fund Income Tax Revenue	Individual Income Tax Revenue*	Total Income	Effective Individual Income Tax Rate
2011	\$2.95	\$2.52	\$231.0	1.09%
2012	\$3.31	\$2.82	\$243.6	1.16%
2013	\$3.55	\$3.03	\$247.0	1.23%
2014	\$3.48	\$2.97	\$259.0	1.15%
2015	\$3.81	\$3.26	\$270.7	1.20%
2016	\$3.93	\$3.36	\$284.3	1.18%
2017	\$3.84	\$3.33	\$298.0	1.12%
2018	\$4.24	\$3.75	\$313.0	1.20%
2019	\$4.85	\$4.34	\$336.5	1.29%
2020	\$4.30	\$3.89	\$363.3	1.07%

<sup>\*2020</sup> Individual Income Tax is approximately 90.4% of all Income Taxes, which includes Individual Income Tax and Corporate Income Tax.

### **Corporate Income Tax**

The Arizona Department of Revenue Fiscal Year 2020 Annual Report stated that from FY 2016 through FY 2020, Corporate Income Tax averaged approximately 9.6% of Total Income Taxes per year. HVS calculated 2020 Qualified Revenue from Corporate Income Tax by multiplying Qualified Revenue from Personal Income Tax by the applicable percentage.

### **Luxury Tax**

The Arizona Department of Revenue Fiscal Year 2020 Annual Report stated that from FY 2016 through FY 2020, taxes on alcohol, tobacco, and cigarette sales averaged approximately 1.22% of all Sales Tax and Use Tax per year. HVS calculated Qualified Revenue for Luxury Tax by multiplying each year's Qualified Revenue from Sales Tax and Use Tax by the corresponding percentage.

June 22, 2021 **Fiscal Impact Estimates** 4-2

Sources: State of Arizona Staff of the Joint Legislative Budget Committee and Bureau of Economic **Analysis** 

#### **IMPLAN Categories**

HVS used the direct, indirect, and induced impacts as the tax base created by activities related to Qualified Events.

**Output**—serves as the sales tax base. In IMPLAN, this represents the value of a change in sales or the value of increased production.

**Employee Compensation**—serves as the tax base for personal income tax. IMPLAN defines employee compensation as "the total cost of labor including wages & salaries, other labor-related income such as health and retirement benefits, and both employee & employer contributions to social insurance." HVS calculated the effective income tax rate to adjust for the inclusion of benefits and social insurance in the tax base.

The figure below shows Qualified Revenue for the State of Arizona from 2011 to 2020.

FIGURE 4-3 QUALIFIED REVENUE TO THE STATE OF ARIZONA GENERAL FUND

Year	Sales & Use	Personal Income	Corporate Income	Luxury	Total
2011 2012 2013 2014 2015 2016 2017 2018 2019	\$13,813,000 \$12,152,000 \$8,012,000 \$13,276,000 \$17,841,000 \$18,090,000 \$16,511,000 \$21,120,000 \$20,857,000	\$1,192,000 \$1,094,000 \$841,000 \$1,311,000 \$2,060,000 \$1,997,000 \$1,639,000 \$1,921,000 \$2,262,000	\$204,000 \$187,000 \$144,000 \$206,000 \$326,000 \$301,000 \$217,000 \$221,000 \$238,000	\$213,000 \$187,000 \$123,000 \$203,000 \$262,000 \$259,000 \$228,000 \$281,000 \$263,000	\$15,422,000 \$13,620,000 \$9,120,000 \$14,996,000 \$20,489,000 \$20,647,000 \$18,595,000 \$23,543,000 \$23,620,000
2020	\$6,450,000	\$580,000	\$55,000	\$78,000	\$7,163,000

Four tax sources generated 7.2 million in 2020.

IMPLAN classifies direct, indirect, and induced spending into over 500 hundred economic sectors. Appendix E provides the detailed IMPLAN outputs and Qualified Revenue calculation by sector.

According to A.R.S. §9-602, the Arizona state treasurer annually distributes money from the convention center development fund starting in 2009. The figure below shows the distribution amounts.

June 22, 2021 **Fiscal Impact Estimates** 

FIGURE 4-4
CONVENTION CENTER DEVELOPMENT
FUND DISTRIBUTIONS (2009 TO 2020)

Bond Year*	Fund Distribution
2009	\$5,000,000
2010	10,000,000
2011	0
2012	5,595,000
2013	20,449,000
2014	20,449,000
2015	20,449,000
2016	20,449,000
2017	22,499,000
2018	22,996,250
2019	23,499,950
2020	23,997,900
Total	\$195,384,100

\*Beginning July 1

Source: Arizona Revised Statute 9-602 (D)

For each year, HVS took the difference between Qualified Revenue and amount distributed. The net impact from 2009 to 2020 equals the total difference between Qualified Revenue and distributions. A.R.S. §9-626 (B) states that net impact estimates must include General Fund revenues derived from construction activity. In 2010, the Arizona Auditor General contracted AECOM to estimate impacts from construction of the PCC expansion. HVS used estimates from AECOM's *Economic and Fiscal Impact Study—Construction of the Phoenix Convention Center* and added them to Qualified Revenue to obtain a total value of General Fund impact. See the figure below.

June 22, 2021 Fiscal Impact Estimates

Economic and Fiscal Impact Analysis Update - Arizona

FIGURE 4-5 **ESTIMATED NET GENERAL FUND IMPACT** 

	Impact
Annual Qualified Revenue	
2009	\$17,347,000
2010	14,681,000
2011	15,422,000
2012	13,620,000
2013	9,120,000
2014	14,996,000
2015	20,489,000
2016	20,647,000
2017	18,985,000
2018	23,543,000
2019	23,620,000
2020	7,163,000
Total Qualified Revenue	\$199,633,000
Construction Impacts	26,445,000
Sub-total	\$226,078,000
Less Fund Distributions 2009-2020	(195,384,100)
Qualified Revenue Less Distributions	\$30,693,900

Sources: AECOM, State of Arizona, and HVS

HVS estimates that the State of Arizona General Fund has a net positive impact of approximately \$30.7 million from the PCC expansion. This total is made of Qualified Revenue less convention center development fund distributions from 2009 to 2020 plus the construction impacts from 2004 to 2008.

June 22, 2021 **Fiscal Impact Estimates** 4-5

### 5. Statement of Assumptions and Limiting Conditions

- 1. This report is to be used in whole and not in part.
- 2. No responsibility is assumed for matters of a legal nature.
- 3. All information, financial operating statements, estimates, and opinions obtained from parties not employed by HVS are assumed to be true and correct. We can assume no liability resulting from misinformation.
- 4. We are not required to give testimony or attendance in court by reason of this analysis without previous arrangements, and only when our standard per-diem fees and travel costs are paid prior to the appearance.
- 5. If the reader is making a fiduciary or individual investment decision and has any questions concerning the material presented in this report, it is recommended that the reader contact us.
- 6. We take no responsibility for any events or circumstances that take place subsequent to the date of our report.
- 7. The impact analysis presented in this report is based upon assumptions, estimates, and evaluations of the market conditions in the local and national economy, which may be subject to sharp rises and declines. Over the projection period considered in our analysis, wages and other operating expenses may increase or decrease due to market volatility and economic forces outside the control of the PCC's management.
- 8. Many of the figures presented in this report were generated using sophisticated computer models. In the interest of simplicity, most numbers have been rounded. Thus, these figures may be subject to rounding errors.
- 9. Our responsibility is limited to the client and use of this report by third parties shall be solely at the risk of the client and/or third parties. The use of this report is also subject to the terms and conditions set forth in our engagement letter with the client.
- 10. This report was prepared by HVS Convention, Sports & Entertainment Facilities Consulting. All opinions, recommendations, and conclusions expressed during the course of this assignment are rendered by the staff of this organization, as employees, rather than as individuals.

### 6. Certification

The undersigned hereby certify that, to the best of our knowledge and belief:

- 1. the statements of fact presented in this report are true and correct;
- 2. the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions;
- 3. we have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved:
- 4. we have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment;
- 5. our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined outcome that favors the cause of the client, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this impact analsvis:
- Thomas A Hazinski designed the methodology of this study and reviewed 6. all results. Jorge Cotte participated in the research and analysis.

### C. Appendix - ExPact/Longwoods Report Calculations

This appendix explains how HVS converted the spending data from Longwoods International's Phoenix 2017 Visitor Research Profile and DI's ExPact 2004 report to the spending parameters in Section 3 of the report. Longwoods and DI reported survey results by type of expenditure and spending per delegate or exhibitor per event. HVS translated these results to daily spending, adjusted for inflation, and adjusted DI's national parameters for the cost of travel in Phoenix.

Longwoods International Visitor Profile For the 2020 update report, HVS applied Longwoods International's Phoenix 2017 Visitor Research Profile to estimate Qualified Spending of overnight visitors and day-trip visitors. The following figure shows the average per person expenditures on 2017 domestic overnight trips by spending sector.

FIGURE C-1
PHOENIX 2016 VISITOR RESEARCH PROFILE

Spending Category	Amount per Trip (\$2017)	Amount per Day (\$2017)
Lodging*	\$582	\$166
F&B	\$71	\$24
Retail	\$33	\$11
Transportation at Destination	\$32	\$11
Recreation & Entertainment	\$31	\$11
Total	\$749	\$224

<sup>\*</sup>STR data, in 2018 dollars

Source: Longwoods International and STR

HVS supplemented this profile with other sources of local market data. We performed the following adjustments:

- We used the Downtown Phoenix hotel market's average daily room rate ("ADR") reported by Smith Travel Research ("STR") for hotel spending (see Figure 3-1).
- We split the Transportation and Destination spending category into two subcategories for our analysis: Auto Rental and Leasing, and Transportation (e.g. taxi fares).
- HVS adjusted all spending amounts to account for the difference between leisure trip spending versus business trip spending.

- HVS inflated the figures from the 2017 study into 2020 dollars to reflect the actual year of spending.
- HVS researched the ratio to sales of other hotel spending to hotel room spending. Local hotels and comparable properties show that approximately one-third of hotel revenues come from sources other than the ADR.

The figure below shows the revised spending estimates for overnight and day-trip visitors. For day-trips, we assumed that no hotel-related spending would occur, and all other areas of spending would match overnight visitor spending.

FIGURE C-2
ESTIMATED OVERNIGHT AND DAY-TRIP VISITOR SPENDING PER DAY

Spending Category	Categories Used in HVS Report	Overnight Visitor Spending per Day (\$ 2020)	Day-trip Visitor Spending per Day (\$ 2020)
Lodging	Hotel Room Rental	\$197.88	\$0.00
Other Hotel Spending	Other Hotel Spending	98.94	0.00
F&B	Restaurants	33.35	33.35
Retail	General Retail	18.19	18.19
Transportation at Destination	Transportation	7.88	7.88
Transportation at Destination (rent)	Auto Rental and Leasing	7.88	7.88
Recreation & Entertainment	Other Amusement & Recreation	15.15	15.15
	Total	\$379.27	\$82.45

Sources: BLS, HVS, Longwoods International, and STR

### **DI ExPact Report**

DI reported survey results by type of expenditure and spending per delegate or exhibitor per event in the 2004 ExPact report, which is available on request. HVS translated the results to daily spending, adjusted them for the cost of travel in Phoenix, and for inflation.

To avoid double counting of venue related expenditures, we excluded certain categories of expenditures reported in the ExPact 2004 report. Instead we used actual venue related spending data from 2009 to 2020 as provided by the PCC. The following categories of ExPact 2004 data have been excluded from our spending parameters.

FIGURE C-3
EXCLUDED EXHIBITOR EXPENDITURE TYPES

Туре	Subtypes Excluded
Performing Arts Expenditures	All
Professional Sports Expenditures	All
Golf and Skiing Expenditures	All
Gaming Expenditures	All
Exhibit/Booth Expenditures	All
Food and Beverage Functions	All
Exhibition Space Fees to Facility	All
Additional Exhibit Hall & Meeting Room Expenses	All
Equipment Rental Fees	All
Technology Service Fees	All
Services Hired	All
Local Transportation Expenditures	Bridge and road tolls, private transportation fare*

<sup>\*</sup>Day-trip visitors only

HVS took spending data from the ExPact report and recalculated them on a per delegate day basis. HVS adjusted the daily spending parameters data with the Corporate Travel Index ("CTI"), a report from Business Travel News that compares travel costs across the 100 largest U.S. cities. The CTI released for a given year shows data collected during the prior year. Using the CTI data, HVS created an index, where the national average equals 100. For the years 2009 through 2015, HVS used the 2013 CTI. For Qualified Events in 2020, HVS used the 2020 CTI. See the figure below for the CTI multipliers.

FIGURE C-4
CTI ADJUSTMENT FOR PHOENIX EXHIBITORS AND ORGANIZERS

Hotel 0.8803 1.0437 Car 1.0213 1.1825	Category	2013 Index	2020 Index
Food & Beverage 1.0907 1.1418	Car	1.0213	1.1825
Other Categories 0.9649 1.0932	Food & Beverage	1.0907	1.1418

Source: CTI

Finally, HVS adjusted the data for inflation for each of the years in the scope of the study. HVS used Consumer Price Indexes provided by the Bureau of Labor Statistics for inflation values. See the figure below for adjustment factors.

FIGURE C-5
INFLATION ADJUSTMENT

Year	Index
2009	1.1341
2010	1.1522
2011	1.1891
2012	1.2141
2013	1.2287
2014	1.2532
2015	1.2549
2016	1.2707
2017	1.2977
2018	1.3294
2019	1.3528
2020	1.3699

Source: Bureau of Labor Statistics

The tables below show the calculation for spending parameters. To calculate spending parameters of 2010, we multiplied the inflation adjusted spending by the ratio of the index in 2010 to the index in 2009. We repeated that calculation to get inflation adjusted spending for each year. See the tables below for exhibitor and organizer spending parameters.

#### **EXHIBITING COMPANY SPENDING PARAMETERS**

Expenditure Category in Expact Survey	ExPact Page Reference	ExPact Reported Spending per Event	Spending Per Delegate **	CTI Adjusted Spending***	Categories used in HVS Report
Total Exhibit Staff Lodging Expenditures					
Total cost of sleeping rooms for all exhibit staff	Used Sm	nith Travel Researd	ch Data		
Other room-related expenses for all exhibit staff (phone calls, Internet, etc.)	p. 84	\$207.85			
Hotel parking/garage/valet fees for all exhibit staff (include tips)	p. 84	57.43			
Sub-total		265.28	\$3.65	\$3.21	Other Hotel Spending

## F. Appendix - Non-Registered Visitor Spending

This appendix explains how HVS estimated the visitation and spending from non-registered visitors to Phoenix associated with PCC events. HVS defines the term, summarizes available literature, and describes assumptions for estimating the number of non-registered visitors and associated spending. An estimate of non-registered visitor spending was inherent in delegate spending before the 2018 study. The 2019 study, which estimates the economic impact for 2018 activity, is the first to explicitly include this calculation after the shift from DI to Longwoods International as the primary source for convention delegate spending.

### **Definition of Non-Registered Visitors**

HVS defines "non-registered visitor" as a traveler that accompanies convention delegates to Phoenix but does not attend events at the PCC. Delegates often bring family, spouses, or partners to a convention destination. Non-registered visitors generate additional spending in Phoenix by eating meals, shopping, using transportation, and spending on recreation and entertainment. They do not generate additional lodging spending as that spending is already captured in the hotel room rate and other hotel spending described in Figure C-2. The rate of non-registered visitors that come to Phoenix varies depending on the type of organization and length of the event.

Non-registered visitation is distinct from "travel party size1" because a delegate's travel party often includes business associates or other visitors that may be registered for an event. For example, if a spouse wants to partake in a convention's social activities, the spouse would have to register as an attendee.

#### **Summary of Literature**

Accounting for non-registered guests is typical in estimating economic impact of conventions and meetings. The spending source used by HVS prior to the 2018 study, the DI ExPact report estimates a delegate party size of 1.06<sup>2</sup>.

<sup>&</sup>lt;sup>1</sup> Specifically, this would be size of travel party minus one delegate. For example, using 2.15 persons as the party size would yield 1.15 accompanying persons. This is not a correct estimate for the reasons described following the footnote.

<sup>&</sup>lt;sup>2</sup> The ExPact 2004 Convention Expenditure & Impact Study identified an average delegate travel party size of 1.05 for "International, National, and Regional Events" and 1.06 for "Large Market Events." Determined by hotel rooms within the MSA, Phoenix is considered a large market.

VERIS Consulting, LLC. (2005). ExPact 2004 Convention Expenditure & Impact Study. pp. 16-18.

HVS identified studies and data sources that reported non-registered guests from past 30 years both in the United States and globally. International surveys and studies report an average rate of 0.28 accompanying persons per delegate and ranged from 0.01 to  $0.67^3$ , depending on type of event and attendee. Studies from United States cities in the past six years report rates of non-registered guests as 0.07, 0.40, and  $0.60^4$  per delegate.

- Convention Tourism: International Research and Industry Perspectives, edited by Karin Webe and Kaye Chone. Identified the following results. 0.175 accompanying persons in Adelaide, Australia (KPMG 1993), 0.16 accompanying persons in Tasmania, Australia (Tasmanian Convention Bureau 1996), 0.67 accompanying persons in Singapore (Singapore Tourism Board, 2000). It also identifies a study by Dwyer, Mellor, et al. that "estimated that accompanying persons as around 15 to 20 percent to convention-related expenditure."
  - Sung Chon; Karin Weber. (2008). Convention Tourism: International Research and Industry Perspectives. Taylor & Francis. pp. 24.
- Conferences and Conventions (2008) by Tony Rogers identified a 2006 survey of conventions from the UK and Ireland that estimated a range of accompanying visitors depending on the length and type of event. One-day and multi-day corporate events reported 0.01 and 0.02 accompanying visitors, respectively; One-day and multiday domestic association events reported 0.02 and 0.07 accompanying visitors, respectively; international association events reported 0.12 accompanying visitors; and SMERF (Social, Military, Education, Religious, and Fraternal) and Government events reported 0.32 accompanying persons.
  - Tony Rogers (2013). Conferences and Conventions: A Global Industry. Routledge.
- An economic impact study of the Queenstown Convention Centre by Berl Economics in 2013 estimates an average of 0.10 accompanying persons for domestic delegates and 0.15 accompanying persons for international delegates. BERL Economics. (2013). Economic Impact of the proposed Queenstown Convention Centre. pp. 31.
- <sup>4</sup> Sources include the following.
  - CIC Research has prepared bi-annual updates of a visitors to San Diego
    Convention Center events. This profile distinguishes between lodgers per room
    (1.9 in 2015 and 1.5 in 2011), travel party size (2.1 in 2015 and 1.6 in 2011), and
    non-registered guest (0.07 in 2015 and 0.08 in 2011).
     CIC Research, Inc. (2016). SDCC Primary Event Visitor Profile (2008-2015). pp. 1-3.

<sup>&</sup>lt;sup>3</sup> Sources include the following.

#### Non-Registered Visitors Estimate

In the PCC Survey, reporting of travel party size supports the assumption that delegates travel with non-registered guests as many respondents reported travel party sizes of greater than one. However, the frequency of respondents reporting a travel party size greater than four indicates some ambiguity in the understanding of the question. The Longwoods International's 2017 Phoenix Visitor Profile estimates the average travel party size of travelers to Phoenix for conferences and conventions to be 2.15 persons. However, this number includes business associates and other registered event attendees.

Given the wide range in estimates of non-registered visitors and lacking data specific to Phoenix and the PCC, HVS assumes that 0.15 non-registered visitors accompany delegates to Qualified Events that stay overnight. This estimate is near the median of the data points collected (0.169). Additionally, we assume that day trip visitors do not bring non-registered guests. The following figure shows the adjustment for per overnight delegate spending and explains the difference in overnight spending in Figure 3-2 and Figure C-2.

**CALCULATION OF OVERNIGHT DELEGATE SPENDING (\$ 2019)** 

Spending Category	Spending per Person per Day (\$2019)	Non- Registered Visitor Parameter	Total Overnight Delegate Spending per Day (\$2019)
Hotel Room Rental	\$173.49	na	\$173.49
Other Hotel Spending	87.48	na	87.48
Restaurants	28.74	1.15	33.05
General Retail	15.67	1.15	18.02
Transportation	6.79	1.15	7.81
Auto Rental and Leasing	6.79	1.15	7.81
Other Amusement & Recreation	13.06	1.15	15.02
Total	\$332.02	\$5.75	\$342.68

- The economic impact study prepared by Fishkind & Associates for the Orange County Convention Center in Orlando, FL reported a 0.60 accompanying persons per delegate.
  - Fishkind & Associates, Inc. (2013). *The Economic and Fiscal Impacts of the Orange County Convention Center*. pp. 12.
- Economic Impacts of Juneau Conventions and Meetings prepared by McDowell Group from November 2018. A survey performed by McDowell Group reported an average of 0.40 accompanying person per delegate.
   McDowell Group. (2018). Economic Impacts of Juneau Conventions and Meetings. pp. 13.

# 2017 Economic and Fiscal Impact Analysis

Using this same method, HVS estimated the economic and fiscal impacts from the 2018 study. In the 2018 study, HVS did not adjust spending for non-registered visitors. Following the calculation shown above, spending for Overnight Visitors would increase from \$313.24 to \$324.78. This higher spending from Qualified Events would result in \$6.03 million more of Gross Direct Spending (Figure 3-12 in the 2018 report) and \$16.70 million more in Total Economic Impact (Figure 3-13 in the 2018 report). This higher estimate of economic impact would generate \$390,000 in Qualified Revenue for 2017.
