DEBRA K. DAVENPORT, CPA AUDITOR GENERAL

STATE OF ARIZONA OFFICE OF THE AUDITOR GENERAL

WILLIAM THOMSON DEPUTY AUDITOR GENERAL

Independent Auditors' Report

Members of the Arizona State Legislature

The Board of Supervisors of Pima County, Arizona

We have audited the accompanying financial statements of the Pima Health System and Services Enterprise Fund of Pima County as of and for the year ended June 30, 2009, as listed in the table of contents. These financial statements are the responsibility of the Pima Health System and Services Enterprise Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the Pima Health System and Services Enterprise Fund's financial statements are intended to present the financial position, and the changes in financial position and cash flows, of only that portion of the business-type activities and major funds of Pima County that is attributable to the Pima Health System and Services Enterprise Fund. They do not purport to, and do not, present fairly the financial position of Pima County as of June 30, 2009, and the changes in its financial position and its cash flows, in conformity with U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Pima Health System and Services Enterprise Fund as of June 30, 2009, and the changes in its financial position and its cash flows, for the year then ended in conformity with U.S. generally accepted accounting principles.

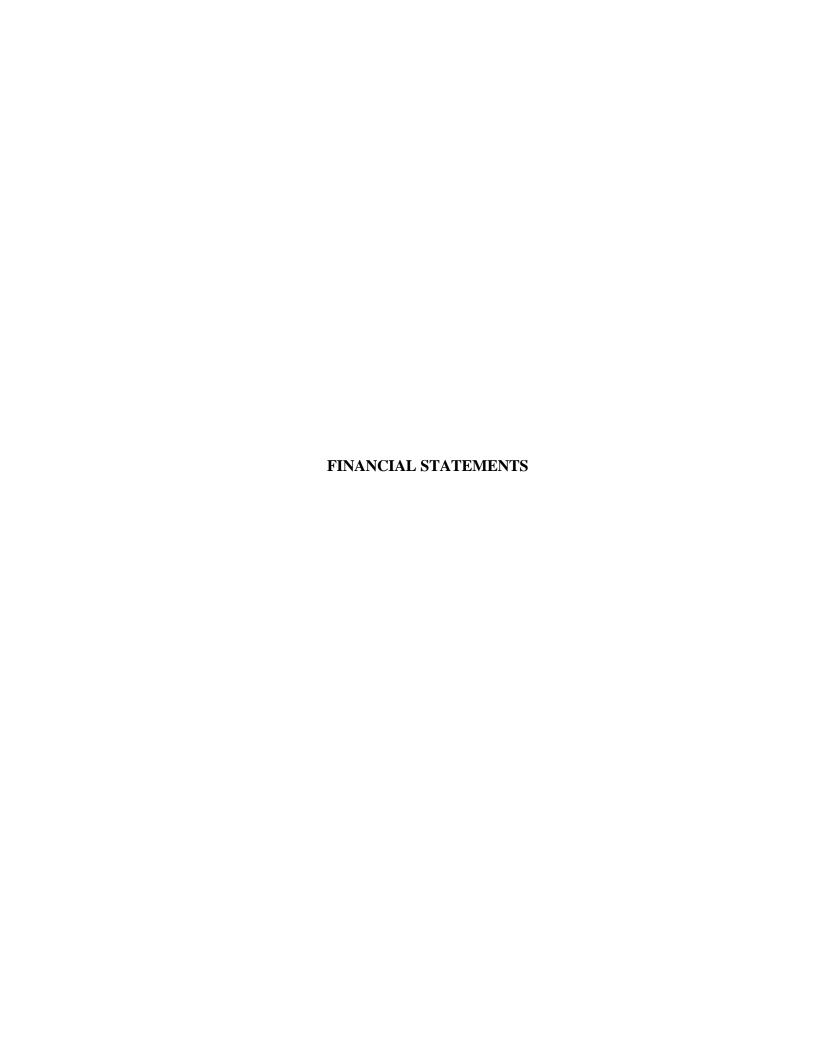

As described in Note 1, the Pima Health System and Services Enterprise Fund implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 51, Accounting and Financial Reporting for Intangible Assets, for the year ended June 30, 2009, which represents a change in accounting principle.

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Pima Health System and Services Enterprise Fund. The accompanying financial information listed as additional information in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 26, 2009, on our consideration of the Pima Health System and Services Enterprise Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Debbie Davenport Auditor General

October 26, 2009

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 1 - Summary of Significant Accounting Policies

The accounting policies of Pima County (County) and its Pima Health System and Services Enterprise Fund (Fund) conform to U.S. generally accepted accounting principles (GAAP) applicable to governmental units as promulgated by the Governmental Accounting Standards Board (GASB) and the regulatory requirements of the State of Arizona. A summary of the County's significant accounting policies affecting the Fund follows.

During the year ended June 30, 2009, the Fund adopted early implementation of the provisions of GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. GASB Statement No. 51 requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. As a result of the implementation of GASB 51, the Fund has recorded, and presented separately, material intangible assets. The Fund did not have any intangible assets in prior years.

A. Reporting Entity

The Fund is accounted for as an enterprise fund of Pima County, Arizona and the ultimate financial accountability for the Fund remains with Pima County. The Fund's management is responsible for overseeing the operations of Pima Health System (the AHCCCS contracts), Posada Del Sol Nursing Home, the Grants and Community Services System, and other Pima County programs, whose activities are included in the accompanying financial statements.

The financial statements present only the Pima Health System and Services Enterprise Fund and are not intended to present the balances and activity of Pima County or its business-type activities and enterprise funds. The County and Pima Health System and Services is a contractor with the Arizona Health Care Cost Containment System (AHCCCS) to provide health care services to eligible enrollees of the AHCCCS Ambulatory and Arizona Long-Term Care System (ALTCS) programs. The Ambulatory program provides both inpatient and outpatient medical and nursing services in addition to managed institutional and home- and community-based long-term care services to eligible enrollees of the ALTCS program. The Fund also provides long-term care services to Posada del Sol Nursing Home residents who are primarily ALTCS enrollees. The Fund receives monthly premiums from AHCCCS for all eligible enrollees under the respective Ambulatory and ALTCS programs.

On October 1, 2008, the ambulatory contract with AHCCCS was not renewed as a result of a competitive bidding process. However, PHS retained approximately 2,700 ambulatory members under a capped enrollment contract that were either dual-eligible (Medicaid and Medicare) or family members of PHS ALTCS members.

B. Fund Accounting

The Fund's accounts are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions on the Fund's available resources are observed. The principles of fund accounting require that the resources be classified for accounting and reporting purposes into funds in accordance with the activities or objectives specified for those resources. Each fund is considered a separate accounting entity, and its operations are accounted for in a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, revenues, and expenses.

The Fund's financial transactions are recorded and reported as an enterprise fund because its operations are financed and operated in a manner similar to private business enterprises. It is the intent of the Pima County Board of Supervisors that the costs (expenses including depreciation) of goods or services provided by the Fund on a continuing basis be financed or recovered primarily through contractual agreements and user charges.

C. Basis of Accounting

Basis of accounting relates to the timing of the measurements made, and determines when revenues and expenses are recognized in the accounts and reported in the financial statements. The financial statements of the Fund are reported using the economic resources measurement focus and are presented on the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. When both restricted and unrestricted net assets are available to finance Fund expenses, restricted resources are used before unrestricted resources. Interfund transactions that would be treated as revenues or expenses if they

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 1 - Summary of Significant Accounting Policies (continued)

involved parties external to the Fund are recorded in the appropriate revenue or expense accounts. Intrafund transactions within the Fund are eliminated for the financial statement presentation.

Unless in conflict with GASB pronouncements, the Fund follows Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins. The Fund has chosen the option not to follow FASB statements and interpretations issued after November 30, 1989.

D. Basis of Presentation

The financial statements include a statement of net assets; a statement of revenues, expenses, and changes in net assets; and a statement of cash flows. A statement of net assets provides information about the assets, liabilities, and net assets of the Fund at the end of the year. Assets and liabilities are classified as either current or noncurrent. Net assets are classified according to external restrictions or availability of assets to satisfy the Fund's obligations. Invested in capital assets, represents the cost of capital assets, net of accumulated depreciation. Restricted net assets represent grants, contracts, and other resources that have been externally restricted for specific purposes. Unrestricted net assets include all other net assets, including those that have been designated by management to be used for other than general operating purposes.

A statement of revenues, expenses, and changes in fund net assets provides information about the Fund's financial activities during the year. Revenues and expenses are classified as either operating or nonoperating, and all changes in net assets are reported, including capital contributions and transfers. Generally, capitation and other charges generated by the Fund for providing health care services are considered to be operating revenues. Other revenues used for health care, such as grants and interest earnings, are not generated from operations and are considered to be nonoperating revenues. Operating expenses include the costs of providing health care services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense and AHCCCS premium taxes are considered to be nonoperating expenses.

A statement of cash flows provides information about the Fund's sources and uses of cash and cash equivalents during the year. Increases and decreases in cash and cash equivalents are classified as operating, noncapital financing, capital and related financing, or investing.

E. Capitation Revenues

The Fund receives from AHCCCS fixed capitation payments, generally in advance, based on certain rates for each AHCCCS member enrolled with the Fund. The Fund is required to provide all covered health care services to their members, regardless of the cost of care. If there are funds remaining, the Fund retains the funds as profit; if the costs are higher than the amount of capitation payments from AHCCCS, the Fund absorbs the loss. The Fund may recover certain losses for those cases eligible for reinsurance payments. Capitation premiums are recognized in accordance with the Fund's contract with AHCCCS.

Capitation is paid prospectively as well as for prior period coverage (PPC). The PPC period is from the first day of the month of application to the time of enrollment with a contracted health plan. The risk under PPC is shared by both the Fund and AHCCCS for the contract year ended September 30, 2009. AHCCCS reconciles the actual PPC medical costs to the PPC capitation paid during the year. The reconciliation limits the contractor's profits and losses to 2%. Except for Title XIX waiver members, effective October 1, 2002, the PPC rates were adjusted and the reconciliation of PPC costs was not performed for the contract year ended September 30, 2003. The PPC reconciliation was reinstated for the contract year ended September 30, 2004 and thereafter. At June 30, 2009, the Fund has \$3,039,352 of estimated settlement payments due to AHCCCS for the PPC reconciliation for contract years 2007, 2008 and 2009.

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 1 - Summary of Significant Accounting Policies (continued)

Similar risk sharing was in place for the contract year ended September 30, 2009 for medical costs incurred by contracted health plans for the Social Security Disability Insurance-Temporary Medical Coverage (SSDI-TMC) members. AHCCCS reconciles the contractor's prospective medical costs to prospective capitation. This group is not eligible for prior period coverage, supplemental payments or reinsurance. The reconciliation limits the contractor's profits or losses to 2%.

Additional capitation payments from AHCCCS include the Home and Community-Based Services (HCBS) Mix reconciliation. The HCBS Mix reconciliation is designed to limit the risk for both the Fund and AHCCCS of placement assumptions utilized in creating capitation rates. When computing capitation rates, AHCCCS assumes a certain percentage of members will be living in an HCBS setting as compared to a nursing facility. The accuracy of this assumption can materially affect the Fund's profitability. At June 30, 2009, the Fund has \$757,349 of estimated settlement payments due to AHCCCS for the HCBS Mix reconciliation for contract years 2008 and 2009.

F. Reinsurance Revenues

AHCCCS provides a stop-loss reinsurance program for the Fund for partial reimbursement of reinsurable covered medical services incurred for members with an acute medical condition. The program includes a deductible, which varies based on the Fund's enrollment and the eligibility category of the members. AHCCCS reimburses the Fund based on a coinsurance amount for reinsurable covered services incurred above the deductible.

The reinsurance program includes reinsurance reimbursement for covered organ transplantation. The reinsurance program also includes a special catastrophic reinsurance program which covers conditions such as certain traumatic brain injuries and certain blood related disorders. There is no deductible for catastrophic reinsurance cases and AHCCCS reimburses the Fund at a percentage of the Fund's paid amount, less the coinsurance amount, unless the costs are paid under a subcapitated arrangement. AHCCCS pays 85% (75% for traumatic brain injuries) of the Fund's paid amount up to \$650,000 and 100% thereafter for catastrophic reinsurance. Regular reinsurance provides partial reimbursement of reinsurance eligible covered services and AHCCCS will reimburse 75% of eligible costs above a certain deductible level. The deductible is the responsibility of the program contractor. For transplants, payment is limited to 85% of the AHCCCS contract amount for the transplant services rendered or 85% of the Fund's paid amount, whichever is lower.

Reinsurance claims receivable result from additional payments from the AHCCCS Administration to the Fund for certain enrollees whose qualifying medical expenses paid by the Fund during the year ended June 30, 2009, were in excess of specified deductible limits. Reinsurance claims receivables are stated at the amount management expects to collect. Management provides for probable uncollectible amounts through a charge to earnings and a credit to reinsurance claims receivable based on its assessment of the current status of individual balances. Balances which are still outstanding after management has used reasonable collection efforts are also written off through a charge to earnings and a credit to reinsurance claims receivable. Reinsurance claims receivable at June 30, 2009 are considered by management to be fully collectible and, accordingly, an allowance for doubtful accounts has not been provided.

G. Share of Costs

The Fund's members covered under the ALTCS program that do not meet certain eligibility criteria are required to pay for a portion of the care they receive. AHCCCS reduces the contracted capitation rate with the Fund by the estimated amount of participant shared costs. After contract year end, AHCCCS analyzes the amount that the Fund should have received from members for share of costs. If the Fund receives less money from the participants in payment of their share of the costs than AHCCCS anticipated, AHCCCS reimburses the Fund for the difference. The share of costs receivables are based on contract year which runs from October 1 to September 30. At June 30, 2009, the Fund had approximately \$234,349 due to AHCCCS related to share of costs. This amount is comprised of \$52,225 and \$182,124 due to AHCCCS for contract years 2008 and 2009 respectively. The amount is included in due to other governments in the accompanying statement of net assets.

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 1 - Summary of Significant Accounting Policies (continued)

Share of cost receivables are based on assumptions and estimates, and while management believes the receivable is reasonable, the ultimate share of cost payment for the 2008 through 2009 contract years may be less than or in excess of an amount estimated once AHCCCS completes the contract year reconciliations. Management provides for probable uncollectible amounts through a charge to earnings and a credit to the share of cost receivables based on its assessment of the current status of individual balances. Balances which are still outstanding after management has used reasonable collection efforts are also written off through a charge to earnings and a credit to share of costs receivable. Share of costs receivable at June 30, 2009 are considered by management to be fully collectible and, accordingly, an allowance for doubtful accounts has not been provided.

H. Grant Revenues

Grants and assistance awards made on the basis of entitlement periods are recorded as grants receivable and revenues when entitlement occurs. Reimbursement grants are recorded as grants receivable and revenues as soon as all eligibility requirements have been met. Grantors may, at their discretion, request reimbursement for expenses or return of funds, or both, if the Fund does not comply with the terms of the contract.

I. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and cash and investments held by the Pima County Treasurer in an investment pool. All investments are stated at fair value.

J. Accounts and Grants Receivable

Accounts receivable consist primarily of amounts due from third-party payers, providers for health care services provided to members and recoupment from providers. Grants receivable consist primarily of amounts due directly from government agencies or passed through the Pima Council on Aging. These balances are stated at the amount management expects to collect. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual balances. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

At June 30, 2009, accounts receivable was net of an allowance for doubtful accounts of \$205,783. Grants receivable at June 30, 2009 are considered by management to be fully collectible and, accordingly, an allowance for doubtful accounts has not been provided.

K. Due to Other Governments

Due to other governments consists of amounts due to AHCCCS based on contractual agreement provisions of the Ambulatory and ALTCS programs. The largest component relates to the Prior Period Coverage (PPC) reconciliation (see E).

L. Inventory of Supplies

Inventories consist of medical supplies and are recorded as assets when purchased and expensed when consumed. These inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method.

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 1 - Summary of Significant Accounting Policies (continued)

M. Capital Assets

Purchased capital assets are capitalized at cost. Donated assets are capitalized at their estimated fair market value on the date received. The Fund capitalizes all land regardless of cost, buildings and intangibles valued at \$100,000 and above and all machinery and equipment valued at \$5,000 and above. Depreciation of assets is charged as an expense against operations. Assets are depreciated over their estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Building improvements 7-10 years
Machinery and equipment 5-15 years
Intangible 20 years

N. Medical and Health Care Claims Payable

The Fund is responsible for the cost of providing medical services on a fee-for-service basis to a majority of the health care service providers through which it contracts with the exception of three providers that have negotiated subcapitation agreements. The Fund paid \$356,175 to these sub-capitated providers during fiscal year 2009.

In the accompanying financial statements, medical and health care claims expense includes claims paid, claims in process and pending, and the estimate made by management for incurred but not reported (IBNR) programmatic claims. These IBNR programmatic claims include charges by physicians, hospitals and other health care providers for services rendered to eligible members during the period for which claims have not yet been submitted.

The estimates for IBNR programmatic claims are developed using methods based upon historical data for payment patterns and other relevant factors. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and adjustments are reflected in the period determined.

At June 30, 2009, medical and health care claims payable consists of estimates of \$16,439,378 in the ALTCS program, \$1,163,310 in the Ambulatory program and \$475,781 in the Grants and Community Service System.

O. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered.

Employees may accumulate up to 240 hours of vacation depending upon years of service, but any vacation hours in excess of the maximum amount that are unused at year-end are forfeited. Upon termination of employment, all unused and un-forfeited vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate up to 1,920 of sick hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but are forfeited upon termination of employment. Sick leave benefits do not vest with employees; however, employees who are eligible to retire from County service into the Arizona State Retirement System, Public Safety Personnel Retirement Plan, or Corrections Officer Retirement Plan may request sick leave be converted to annual leave, on a predetermined conversion basis. An estimate of those retirement payouts is accrued as a liability.

P. Taxes

The Fund is an enterprise fund of Pima County and is not subject to income taxes. However, payments from AHCCCS for acute care, ventilator dependent care, and ALTCS care are subject to a premium tax of 2%. Total premium tax expense for the year ended June 30, 2009, was \$4,403,305 which is included in the non-operating expenses portion of the accompanying Statement of Revenues, Expenses, and Changes in Net Assets. The Fund has \$2,552 due to the

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 1 - Summary of Significant Accounting Policies (continued)

Arizona Department of Insurance at June 30, 2009. This amount is included in the due to other governments in the accompanying Statement of Net Assets.

Q. Management's Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at June 30, 2009, and the reported amounts of revenues and expenses during the fiscal year then ended. Actual results may differ from these estimates.

Note 2 - Cash and Investments

Cash and cash equivalents at June 30, 2009 were as follows:

Cash on hand	\$ 2,500
Cash and investments in the Pima County Treasurer's investment pool	 25,231,963
Total	\$ 25,234,463

Cash and investments in the Pima County Treasurer's investment pool represent a portion of the County Treasurer's pool portfolio. The pool's structure does not provide for shares. The Fund's portion in the pool is not identified with specific investments. Investment income is allocated to the Fund on a pro-rata basis.

Credit risk – Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The County does not have a formal investment policy with respect to credit risk. The Pima County Treasurer's investment pool is unrated.

Interest rate risk – Interest rate risk is the risk that changes in interest rates will adversely affect an investment's fair value. The County does not have a formal investment policy with respect to interest rate risk. The Pima County Treasurer's investment pool had a weighted average maturity of 289 days at June 30, 2009.

Legal provisions – Arizona Revised Statutes authorize the County to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds; interest earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; and specified commercial paper, bonds, debentures, and notes issued by corporations organized and doing business in the United States. In addition, the County Treasurer may invest trust funds in fixed income securities of corporations doing business in the United States or District of Columbia.

Credit risk – Arizona Revised Statutes have the following requirements for credit risk:

- 1. Commercial paper must be rated P1 by Moody's investors service or A1 or better by Standard and Poor's rating service or their successors.
- 2. Corporate bonds, debentures, and notes must be rated A or better by Moody's investors service or Standard and Poor's rating service or their successors.
- 3. Fixed income securities must carry one of the two highest ratings by Moody's investors service and Standard and Poor's rating service or their successors. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

Custodial credit risk – Arizona Revised Statutes require collateral for demand deposits, certificates of deposit, and repurchase agreements at 101 percent of all deposits not covered by federal depository insurance.

Concentration of credit risk – Arizona Revised Statutes do not include any requirements for concentration of credit risk.

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 2 - Cash and Investments (continued)

Interest rate risk – Arizona Revised Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years and that public operating fund monies invested in securities and deposits have a maximum maturity of 3 years. Investments in repurchase agreements must have a maximum maturity of 180 days.

Foreign currency risk – Arizona Revised Statutes do not allow foreign investments.

Note 3 - Capital Assets

Capital assets activity for the year ended June 30, 2009, was as follows:

	July 1, 2008 Balance	Increases	Decreases	June 30, 2009 Balance			
Leasehold improvements Accumulated depreciation Net leasehold improvements	\$ 693,876 (518,984) 174,892	\$ (91,478) (91,478)		\$ 693,876 (610,462) 83,414			
Machinery and equipment Accumulated depreciation Net machinery and equipment	1,138,451 (712,106) 426,345	6,293 (122,963) (116,670)	\$ (90,150) 89,577 (573)	1,054,594 (745,492) 309,102			
Intangible Accumulated depreciation Net intangible Capital assets, net	\$ 601,237	381,100 (19,055) 362,045 \$ 153,897	\$ (573)	381,100 (19,055) 362,045 \$ 754,561			

Note 4 - Claims, Judgments and Risk Management

Compliance with Laws and Regulations – The Fund is subject to numerous laws, regulations and oversight by the state and federal governments. These laws and regulations include, but are not necessarily limited to, matters such as government health care program participation requirements, reimbursement for member services and Medicaid fraud and abuse. Violations of these laws and regulations could result in expulsion from government health care programs, together with the imposition of significant financial sanctions. Compliance with such laws and regulations can be subject to future review and interpretation as well as regulatory actions unknown at this time.

The Fund has received final notices from AHCCCS of possible sanctions for each quarter, in fiscal year 2009. The sanctions are a result of pended encounters. As of June 30, 2009, there were 74,100 pended encounters with associated sanction amounts of \$1,084,065. It is unknown whether pended encounters were due to the Fund's or AHCCCS' system issues and AHCCCS has preliminarily waived the monetary sanctions as of June 30, 2009. The sanctions could be reimposed if the Fund is unable to adjudicate all pended encounters once AHCCCS system issues are corrected. Fund management does not believe these sanctions will be re-imposed. During the current fiscal year, the Fund purchased additional software to correct known encounter billing problems.

Interim reconciliations are performed for amounts Due to Other Governments in accordance with provisions of the Fund's AHCCCS contracts. The Fund has received preliminary notice of a maximum potential liability of approximately \$4,636,370 for contract year ended September 30, 2008 for estimated profit in excess of the risk thresholds for Title XIX waiver group (TWG) members and Prior Period Costs (PPC). A significant portion of the estimated profit is due to AHCCCS calculating profit without being able to include the pended encounters noted above. The liability of \$2,318,185 included in Due to other Governments reported at fiscal year end represents management's assessment of a probable payout associated with the \$4,636,370 maximum potential liability notice from AHCCCS.

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 4 - Claims, Judgments and Risk Management (continued)

Self-insurance - The Fund is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; medical malpractice; and natural disasters. The Fund is a participant in Pima County's self-insurance program, and in the opinion of the Fund's management, that self-insurance program would cover any unfavorable outcomes from these risks. Accordingly, the Fund has no risk of loss beyond adjustments to future years' premium payments to Pima County's self-insurance program. All estimated losses for unsettled claims and actions of the Fund are determined on an actuarial basis and are included in the *Pima County Comprehensive Annual Financial Report*. As of June 30, 2009, the Fund incurred \$881,723 in self-insurance expense, of which \$289,044 is included in other operating expenses and \$592,679 in medical and health care claims, in the accompanying Statement of Revenues, Expenses, and Changes in Net Assets.

Medical Malpractice - The Fund has obtained modified claims-made insurance policies to cover medical malpractice claims. Deductibles are the responsibility of Pima County through Risk Management and are \$1,000,000 per occurrence with an annual aggregate self insurance retention of \$5,000,000. The Fund's primary medical malpractice policy has a retroactive date of June 26, 1993. Settled claims have not exceeded insurance coverage in any of the prior three fiscal years.

Note 5 - Related Party Transactions

During the course of its operations, the Fund had numerous transactions with other Pima County funds to finance operations and provide services. During the year ended June 30, 2009, the Fund received capitation revenues totaling \$100,752 from Pima County departments for services provided to Pima County patients and other income totaling \$257,182 for claims processing services. The Fund incurred expenses totaling \$6,791,383 for the allocation of overhead, insurance premiums, and other charges for miscellaneous supplies and services from Pima County.

Of the \$1,002,687 balance in due to other Pima County funds, \$981,890 represents advances received from other County funds to eliminate cash overdrafts in the Fund's following programs:

Grants/Community Services System	\$ 659,763
Other Pima County Programs	322,127
Total	\$ <u>981,890</u>

The remaining \$20,797 was for miscellaneous services.

Note 6 - Retirement Plan

Plan Descriptions—The Fund contributes to a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing multiple employer defined benefit health insurance premium plan; and a cost-sharing, multiple-employer defined benefit long-term disability plan administered by the *Arizona State Retirement System* (ASRS). The Plan covers employees of the State of Arizona and employees of participating political subdivisions and school districts. Benefits are established by state statute and generally provide retirement, long-term disability, and health insurance premium benefits, including death and survivor benefits. The retirement benefits are generally paid at a percentage, based on years of service, of the retiree's average compensation. Long-term disability benefits vary by circumstance, but generally pay a percentage of the employee's monthly compensation. Health insurance premium benefits are generally paid as a fixed dollar amount per month towards the retiree's health care insurance premiums, in amounts based on whether the benefit is for the retiree or for the retiree and his or her dependents. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

Funding Policy—The Arizona State Legislature establishes and may amend active plan members' and the Fund's contribution rates. For the year ended June 30, 2009, active ASRS members were required by statute to contribute at the actuarially determined rate of 9.45 percent (8.95 percent for retirement and 0.5 percent for long-term disability) of the members' annual covered payroll and the County was required by statute to contribute at the actuarially determined rate of 9.45 percent (7.99 percent for retirement, 0.96 percent for health insurance premium, and 0.5 percent for long-term disability) of the members' annual covered payroll.

Pima Health System and Services - Enterprise Fund Notes to Financial Statements June 30, 2009

Note 6 - Retirement Plan (continued)

The Fund's contributions for the current and two preceding years, all of which were equal to the required contributions, were as follows:

Years ended June 30,	Retirement Fund	Health Benefit Supplement Fund	Long-Term Disability Fund
2009	1,960,018	235,496	122,654
2008	2,395,671	312,479	148,799
2007	2,122,075	295,123	140,535

Note 7 – Capitation Revenues

For the year ended June 30, 2009, capitation revenues consist of the following amounts:

ALTCS long-term care	\$	181,865,852
AHCCCS ambulatory/acute care		29,229,068
Pima County residual and other programs	<u> </u>	140,506
Total	\$	211,235,426

DEBRA K. DAVENPORT, CPA AUDITOR GENERAL

STATE OF ARIZONA OFFICE OF THE AUDITOR GENERAL

WILLIAM THOMSON DEPUTY AUDITOR GENERAL

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance with Government Auditing Standards

Members of the Arizona State Legislature

The Board of Supervisors of Pima County, Arizona

We have audited the financial statements of the Pima Health System and Services Enterprise Fund as of and for the year ended June 30, 2009, and have issued our report thereon dated October 26, 2009. Our report was modified as to consistency because of the implementation of Governmental Accounting Standards Board Statement No. 51. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Fund's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control over financial reporting that we consider to be a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Fund's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Pima Health System and Services Enterprise Fund's financial statements that is more than inconsequential will not be prevented or detected by the Fund's internal control. We consider item 09-01 described in the accompanying Schedule of Findings and Recommendations to be a significant deficiency in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Fund's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that the significant deficiency described above is not a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying Schedule of Findings and Recommendations as item 09-01.

The Pima Health System and Services Enterprise Fund's response to the finding identified in our audit is presented on page 20. We did not audit the Fund's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors of Pima County, and the Fund's management, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Debbie Davenport Auditor General

October 26, 2009

Pima Health System and Services Schedule of Findings and Recommendations Year Ended June 30, 2009

09-01

Pima Health System and Services Enterprise Fund should improve its internal controls over claims processing

Criteria: The Fund's management is responsible for ensuring that medical claims are timely and accurately processed, paid, and submitted to the Arizona Healthcare Cost Containment System (AHCCCS). Also, medical claims submitted to AHCCCS must include the appropriate pay rates, medical service and procedure codes, and other information AHCCCS requires.

Condition and context: During fiscal year 2009, the Fund processed approximately 30,000 medical claims each month totaling on average approximately \$16 million. While testing a sample of the Fund's medical and healthcare claims, auditors noted claims that had not been submitted to AHCCCS and claims that were submitted more than once. Also, auditors noted that claims were submitted with missing information or other errors that the Fund had not corrected. Further, at June 30, 2009, the Fund had over 200,000 claims totaling approximately \$94,679,000 in the pended status with AHCCCS. Of those claims, over 106,000 had not been submitted to AHCCCS within the required timelines. These claims were submitted to AHCCCS more than 4 months after they were paid, and some were paid over 365 days ago.

Effect: Because of these deficiencies, AHCCCS has assessed the Fund a potential sanction of \$1,084,065 as of June 30, 2009. However, AHCCCS acknowledges it may waive this sanction if the Fund shows continued improvement in submitting complete and accurate claims within the contractual timelines. In addition, until complete and accurate claims information is submitted to AHCCCS, the Fund cannot reasonably estimate the amount of reinsurance revenues to report in its financial statements. Further, AHCCCS evaluates the Fund's profit margins by comparing capitation revenues to medical claims expenses submitted to AHCCCS. If they are in excess of specified contractual thresholds, AHCCCS requires the Fund to pay back the excess profits. This analysis is based on the total dollar value of only those claims properly submitted to AHCCCS. AHCCCS sent the Fund a preliminary notice of a maximum potential liability of \$4,636,370 for the contract year ended September 30, 2008. The Fund has until January 2010 to resubmit claims with errors and incomplete information, and submit all claims that had not been submitted for the contract year to reduce this potential liability.

This finding is considered to be a significant deficiency in the Fund's internal controls over its claims processing and noncompliance with AHCCCS contractual requirements.

Cause: The Fund lacked adequate policies and procedures over its claims processing systems to ensure that all medical and healthcare claims were submitted to AHCCCS in a timely manner and that the claims information submitted was accurate and complete. Software purchased and implemented by January 2009 to help correct deficiencies did not always properly synchronize with AHCCCS' systems, resulting in discrepancies. Further, problems during the implementation of the new software resulted in the Fund's not submitting all claims and in some instances submitting duplicate claims. The problems with this software were not discovered until after its implementation, and the problems and causes were not immediately detected.

Pima Health System and Services Schedule of Findings and Recommendations Year Ended June 30, 2009

Recommendation: To help ensure the Fund submits all medical and healthcare claims to AHCCCS in a timely manner and that claims information submitted is accurate and complete, the Fund should continue to develop and revise its internal control policies and procedures over its claims processing systems by continuing to implement the following:

- Assign experienced staff to accurately identify all pended claims as well as claims never encountered and ensure these claims are successfully encountered and adjudicated with AHCCCS as soon as possible to reduce or avoid possible sanctions and liabilities.
- Assign experienced staff to analyze pended encounters to determine the cause of such pends so that software or procedural modifications can be made to correct and prevent future errors.
- Ensure all software modifications are accurately documented, reviewed by appropriate supervisors, and approved by independent users.
- Ensure that all new software is adequately tested for accurate results prior to being placed into the production environment.
- Assign staff to monitor claims held by AHCCCS and ensure any necessary corrections are made within 90 days of submittal.
- Implement the available MDE program to migrate successfully encountered claims data into the Fund's QNXT claims processing software to help with additional analysis of pended claims and to aid in the preparation of the required financial reports.

PIMA COUNTY DEPARTMENT OF FINANCE AND RISK MANAGEMENT

Thomas E. Burke, Director

October 26, 2009

Ms. Debbie Davenport Auditor General 2910 N. 44th Street, Suite 410 Phoenix, Arizona 85018

Dear Ms. Davenport,

The following corrective action plan has been prepared as recommended by Government Auditing Standards. Specifically, we are providing you with the name of the contact person responsible for corrective action, the corrective action planned, and the anticipated completion date.

Sincerely,

Thomas Burke, Director

Department of Finance and Risk Management

09-01

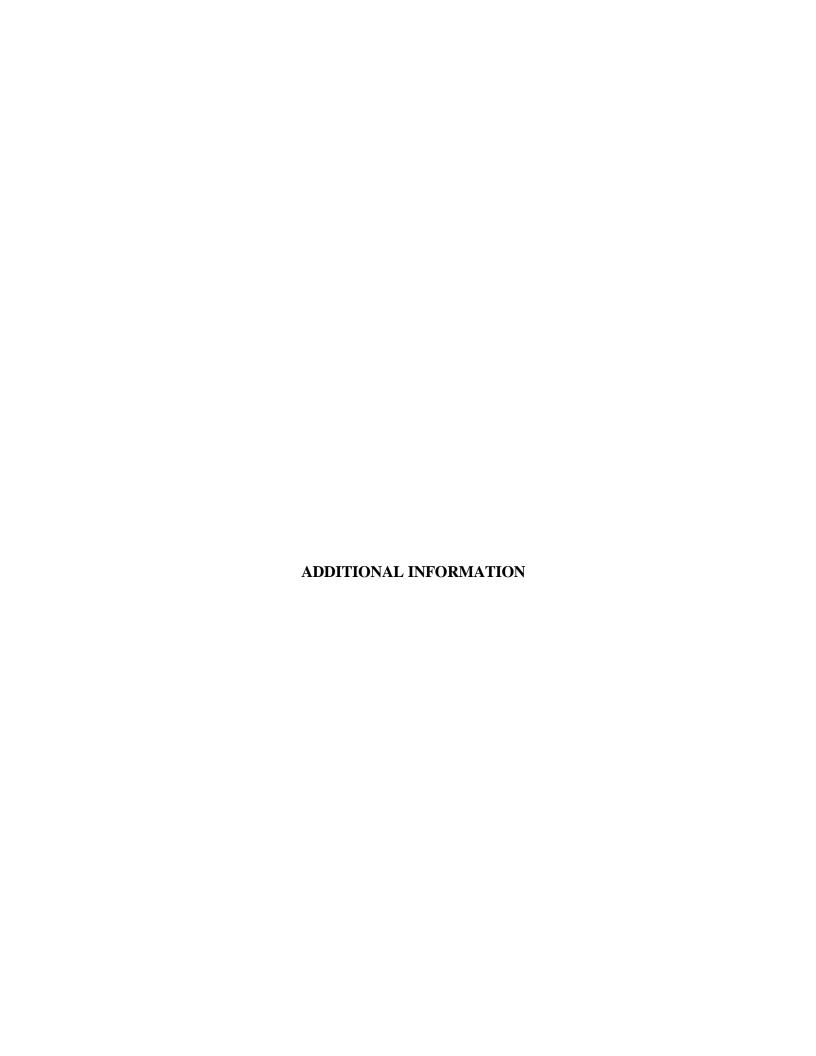

Pima Health System and Services should improve its internal controls over claims processing.

Contact Person – Mary Fellows, Chief Financial Officer, Pima Health Systems and Services **Anticipated completion Date** – December 31, 2009 to include all Internal Standards and Procedures

Pima County agrees with the finding and has taken steps to address the issues raised. Pima County has transferred management of the financial reporting requirements and claims unit to the Finance and Risk Management Department and transferred management of the PHS information technology to the County's Information Technology Department.

The County has taken the following corrective actions to address this finding:

- Purchased and are implementing an encountering software suite from Medical Data Express (MDE) to review PHS claims prior to payment, and correctly resolve any claims before submission that will not pass the AHCCCS edits.
- An Encounter Team within the Claims Division has been created and is daily reviewing pended encounters to clear the old encounters. A database has been developed by the PHS Information Technology Department to track and report pended encounters to the Encounter Team for remediation.
- The Encounter Team also reviews and aids in processing new pended encounters.
- An ongoing review is now being performed for all encounters pended in the AHCCCS Transaction Insight (TI) system to allow for the timely resolution of pended claims.
- Our QNXT Configuration Team continues to focus on issues that might affect new pended claims to determine the cause of such pends and to correct and prevent future errors.
- Internal Standards and Procedures are in the process of being developed for System Configuration, change management planning and monitoring the entire Encountering Process.
