

Financial Audit Division

Single Audit

Pima County June 30, 2002

The **Auditor General** is appointed by the Joint Legislative Audit Committee, a bipartisan committee composed of five senators and five representatives. Her mission is to provide independent and impartial information and specific recommendations to improve the operations of state and local government entities. To this end, she provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits of school districts, state agencies, and the programs they administer.

Copies of the Auditor General's reports are free. You may request them by contacting us at:

Independent Auditors' Report on Compliance and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Members of the Arizona State Legislature

The Board of Supervisors of Pima County, Arizona

We have audited the financial statements of Pima County as of and for the year ended June 30, 2002, and have issued our report thereon dated December 31, 2002, which was modified due to our reliance on the reports of other auditors and as to consistency because of the implementation of Governmental Accounting Standards Board Statement No. 34 and a change in capitalization threshold. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests and the reports of the other auditors disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily disclose all such internal control matters that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We and the reports of the other auditors noted no matters involving internal control over financial reporting and its operation that we and the other auditors consider to be material weaknesses. However, we noted other matters involving internal control over financial reporting that we will report to the County's management in a separate letter.

This report is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and on Internal Control over Compliance in
Accordance with OMB Circular A-133

Compliance

We have audited the compliance of Pima County with the types of compliance requirements described in the *U.S. Office of Management and Budget* (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2002. The County's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, Pima County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2002. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements that is required to be reported in accordance with OMB Circular A-133 and is described in the accompanying Schedule of Findings and Questioned Costs as item 02-101.

Internal Control over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control over compliance that, in our judgment, could adversely affect the County's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as item 02-101.

A material weakness is a condition in which the design or operation of one or more internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of internal control over compliance would not necessarily disclose all such internal control matters that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described above is not a material weakness.

Schedule of Expenditures of Federal Awards

We have audited the County's financial statements as of and for the year ended June 30, 2002, and have issued our report thereon dated December 31, 2002, which was modified due to our reliance on the reports of other auditors and as to consistency because of the implementation of Governmental Accounting Standards Board Statement No. 34 and a change in capitalization threshold. Our audit was made for the purpose of forming opinions on the financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

This report is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Note 1 - Basis of Accounting

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Pima County and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Note 2 - Catalog of Federal Domestic Assistance (CFDA) Numbers

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the 2002 *Catalog of Federal Domestic Assistance*. When the CFDA number was nonexistent or unknown, the first two digits applicable to the federal agency were used followed by the federal contract number to identify the program. If the federal contract number was also unknown, the identifying number was composed of the first two digits applicable to the federal agency followed by the word "unknown."

Note 3 - Subrecipients

From the federal expenditures presented in the schedule, the County awarded the following to subrecipients from its major programs.

Federal Identification No.: 07.I2PSAP549—High Intensity Drug Trafficking Areas (HIDTA)

U.S. Office of National Drug Control Policy Award Period: 10/1/1997 to 12/31/2002

Award Number: 18PSAP549 Allowable Costs/Cost Principles

Questioned Cost: Unknown

The County did not have adequate policies and procedures to ensure that it allocated costs based on the relative benefits received as required by OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments,* Attachment A, Subpart C(3). The County Sheriff's Office purchased a \$167,304 telephone switch upgrade for its administrative building and charged \$56,537 of the costs to the HIDTA program. However, the County lacked adequate documentation that showed how it determined the relative benefits to the HIDTA program.

It was not practical to extend our auditing procedures to determine the relative benefits and questioned costs, if any, that may have resulted from this finding.

To help ensure compliance with allowable costs/cost principles, the County should further develop its policies and procedures to ensure that it appropriately allocates costs based on the relative benefits received.
