PINAL COUNTY, ARIZONA
2014-2015 COMPREHENSIVE ANNUAL FINANCIAL REPORT

LETTER OF TRANSMITTAL

June 24, 2016

The Honorable Board of Supervisors
and the Citizens of Pinal County, Arizona:

Arizona Revised Statute (A.R.S.) § 41-1279.21 requires the Office of the Auditor General or a firm of licensed certified public accountants contracted by the Auditor General to conduct financial audits of the accounts and records of County governments. Pursuant to the statute, the Office of the Auditor General contracted with Walker & Armstrong LLP to audit the Pinal County (the County) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2015. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified (clean) opinion that the County's basic financial statements for the fiscal year ended June 30, 2015 are fairly presented in conformity with generally accepted accounting principles (GAAP). The independent auditor's report is located at the front of the financial section of this report.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of the information presented in this report. To provide a reasonable basis for making these representations, the management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the County's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Pinal County Profile

The County was founded in 1875 and is located in the south-central part of the State of Arizona, bordered on the north by Maricopa County and on the south by Pima County. Florence, established in 1866 was designated and has remained the county seat. This location, approximately halfway between Phoenix to the north and Tucson to the south, the two largest cities in Arizona, presents some unique problems to the County. Generally rural in nature, the County has a smaller tax base than either Maricopa or Pima counties, yet proximity to these major metropolitan areas keeps labor and supply costs high.

The County encompasses approximately 5,400 square miles. The principal geographic features consist of mountains with elevations to 6,000 feet in the eastern portion and low desert valleys in the western portion of the County. All of Pinal County is considered part of the Phoenix-Mesa-Glendale, AZ MSA.

The June 30, 2015 population of the County was estimated to be 402,000. The communities of Mammoth, Oracle, San Manuel, and Kearny have traditionally been active in copper mining, smelting, milling and refining, and tourism. Arizona City, Eloy, Maricopa, Picacho, Red Rock, and Stanfield have agriculture based economies. Apache Junction, Maricopa, Coolidge, Eloy, and particularly Casa Grande have diversified their economic base to include manufacturing, trade and services.

This expansion and diversification has been facilitated by their location in the major growth corridor between Phoenix and Tucson near the junction of I-10 and I-8, except for Apache Junction, which is to the east of Mesa. Most of the southern $\frac{3}{4}$ of Pinal County and a small area in Apache Junction are designated as Enterprise Zones.

The governing body of Pinal County is the Board of Supervisors, which sets policy for the administration of the County. The Board of Supervisors is comprised of five board members that are elected for a four-year term by the voters of the district in which each member resides. The Board of Supervisors appoints a County Manager to act as the administrative head of the County. The County Manager serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, directs business and administrative procedures, and recommends officers and personnel to be appointed by the Board of Supervisors. The County has several elected officials including the Assessor, Clerk of the Superior Court, Constables, County Attorney, Recorder, Sheriff, Superintendent of Schools, and the Treasurer.

The County provides a full range of services, including law enforcement and public safety, health care, sanitation, welfare programs, construction and maintenance of highways, streets and related infrastructure, recreational services and cultural activities, and education.

The financial reporting entity includes all activities of the primary government (Pinal County) and its component units. Component units are legally separate entities for which the County is financially accountable. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government. Additional information can be found in the notes to the financial statements (See Note 1.A).

The annual budget serves as the foundation for Pinal County's financial planning and control. The County maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Supervisors. Activities of the General Fund, certain Special Revenue Funds, Debt Service Funds, and Capital Projects Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the department level. Management further controls budgets by not allowing personnel savings to be reprogrammed to supplies and services within a department. Budgets for the Enterprise Funds are set for management purposes only. Pinal County's annual budget is available on the internet at the following address: <http://www.pinalcountyz.gov/departments/budgetoffice/>.

Information Useful in Assessing Pinal County's Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Local economy - The major economic activities within Pinal County include mining, farming, food manufacturing, tourism, transportation and logistics, aerospace and defense, and health services. Copper mining is the chief economic activity in the eastern portion of Pinal County. BHP Copper Inc., headquartered in Tucson, has mines located in Miami and Pinto Valley (Gila County). BHP is scheduled to open a mine within the next several years in Copper Creek (in Pinal County). ASARCO Inc., headquartered in Hayden (Gila County), has a mine in Ray (Pinal County), as well as one in Hayden at the headquarters.

Irrigated farming is prevalent in the low desert valleys of the western portion of Pinal County. Principal crops grown in the area include cotton, alfalfa and grain while plantings of specialty crops, including pecans, almonds, pistachio nuts, and vineyards, have been increasing. Cattle comprise the major livestock population, with sheep being the second largest part of that population. In addition, horses and horse-related events are popular activities in the western-oriented life style of the County.

Tourism also impacts the local economy as a mild climate and several points of interest attract tourists and winter visitors. Attractions include the Casa Grande Valley Historical Museum, the Biosphere II (largest living laboratory in the world), the Lost Dutchman State Park, the Casa Grande Ruins National Monument near Coolidge, and the Boyce Thompson Arboretum, located just outside Superior. Additional tourist spots include the Superstition Mountains Wilderness Area, which offers hiking and exploring for visitors in search of the Lost Dutchman's gold mine; Picacho Peak State Park, offering hiking, camping and picnic areas; and the Pinal Pioneer Parkway and the Apache Trail, two scenic drives with a variety of desert vegetation. For those tourists with a desire for more action, Eloy is an international location for skydiving.

A major factor in employment in the County is the prisons, both governmental and private. The State of Arizona operates prisons in Pinal County, including the State's maximum-security prison in Florence. Corrections Corporation of America (CCA) operates several private prisons, in Florence, Eloy, and La Palma, which is the largest CCA facility in the country. Also, there is a Federal Immigration Services facility in Florence.

Arizona's economy has been following suit with the national and most other state economies. Similar to the National and State economies, Pinal County follows the pattern of moderate growth. Stabilization in the residential home market and modest growth in retail sales across the state resulted in greater sales tax revenue, both County and State shared.

Long – Term Financial Planning - The County's responsiveness to emerging economic challenges and its careful long-range planning have been key factors in Pinal County's fiscal health. Fiscal conservatism, a streamlined budget, and operating efficiencies have resulted in a solid financial position for the County at the close of FY 2014-2015.

Relevant Financial Policies - Pinal County financial policies include the following:

- **Fiscal Conservatism:** Ensure the County is in a solid financial condition at all times, current revenues will be sufficient to support current operating expenditures. The County performs monthly reviews of operating budgets for all funds regardless of funding source.
- **Flexibility:** Ensure the County is in a position to respond to changes in the economy or new service challenges without undue amounts of financial stress.
- **Adherence to the Highest Accounting and Management Practices:** Comply with the Government Finance Officer's Association (GFOA) standards for reporting and budgeting, the Governmental Accounting Standards Board (GASB) and State reporting requirements.
- **Maintain Reserve:** Fund Balance coverage for the General Fund will be maintained at a minimum of 15% of adopted General Fund expenditures.

Major Initiatives. During FY 2014-2015 Pinal County continued to invest in basic government service programs and amenities. The planning parameters were Regional Leadership, Growth, Public Safety, Healthcare, Transportation, Jobs and Economic Development, and Accountability.

Initiatives to shape and maintain Pinal County as a sustainable community include:

- Focus on maintaining a strong credit rating in order to obtain desirable rates and terms for any necessary financing. Standard & Poor's rated several of Pinal County's Excise Tax Revenue Bonds as follows: Series 2010 at AA, Series 2014 at AA-, and Series 2015 at AA-, all with a stable outlook.
- Cost containment and improving efficiencies continue to be a top priority to help ensure the financial wellbeing of the County, while maintaining an adequate level of reserves.

- Seeking support at state and federal level for necessary approvals for the following:
 - efforts to plan and engineer ways to reduce flooding in the Lower Santa Cruz River Watershed.
 - funding to widen Hunt Highway to reduce congestion, improve commute times and attract more businesses to the area while also reducing dust and vehicle emission in the San Tan Valley area.
 - funding to pave dirt roads to reduce the amount of particulate matter (dust & dirt) in the air.
- A Corridor Study, in conjunction with the cities of Casa Grande and Maricopa, to define and obtain environmental approvals for an east-west parkway that will connect State Route 347 (in Maricopa) to Interstate 10 (in Casa Grande). Additionally, the County completed design and property acquisition for the first phase of the Hunt Highway improvement project.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Pinal County for its comprehensive annual financial report for the fiscal year ended June 30, 2014. This was the 19th consecutive year that Pinal County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, Pinal County published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report would not have been possible without the efficient, effective and dedicated services of the entire staff of the Finance Department, the assistance of administrative personnel in the various departments, and through the competent services of Walker & Armstrong LLP, Certified Public Accountants and the Arizona State Auditor General's Office. I appreciate all of those who assisted in and contributed to the preparation of this report. I also wish to express my sincere appreciation to the members of the Board of Supervisors, the County Manager, and the Assistant County Manager for Administrative Services for their unfailing support in maintaining the highest standards of professionalism in the management of Pinal County's finances.

Respectfully submitted,

Independent Auditors' Report

The Auditor General of the State of Arizona

Honorable Board of Supervisors of
Pinal County, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Pinal County, Arizona ("Pinal County") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Pinal County's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the following financial statements:

- Housing and community development fund, which represents 1.12 percent, 1.92 percent and 1.90 percent of the total assets, net position, and revenues, respectively, of the governmental activities opinion unit and .36 percent, .31 percent and .77 percent, respectively, of the total assets, fund balances/net position and revenues and additions of the aggregate remaining fund information opinion unit;
- Employee benefit trust fund, which represents 1.23 percent, 1.82 percent and 7.76 percent of the total assets, net position, and revenues, respectively, of the governmental activities opinion unit and 4.22 percent, 2.79 percent and 3.02 percent, respectively, of the total assets, fund balances/net position and revenues and additions of the aggregate remaining fund information opinion unit.

Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for the housing and community development and employee benefit trust funds are based solely on the reports of the other auditors. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and aggregate remaining fund information of Pinal County as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, for the year ended June 30, 2015, the County adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Our opinions are not modified with respect to this matter.

As described in Note 4 to the financial statements, the County restated beginning net position/fund balances of its financial statements for the year ended June 30, 2015, to correct misstatements in its previously issued financial statements. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5 through 20, the Budgetary Comparison Schedules on pages 81 through 86, and the pension related schedules on pages 87 through 96 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Pinal County's basic financial statements. The combining and individual fund statements and schedules and the introductory and statistical sections listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Compliance Over the Use of Highway User Revenue Fund and Other Dedicated State Transportation Revenue Monies

In connection with our audit, nothing came to our attention that caused us to believe that Pinal County failed to use highway user revenue fund monies received by Pinal County pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated state transportation revenues received by Pinal County solely for the authorized transportation purposes, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Pinal County's noncompliance with the use of highway user revenue fund monies and other dedicated state transportation revenues, insofar as they relate to accounting matters.

The communication related to compliance over the use of highway user revenue fund and other dedicated state transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the Auditor General of the State of Arizona, the Board of Supervisors, management, and other responsible parties within the County and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2016 on our consideration of Pinal County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

PINAL COUNTY Management's Discussion and Analysis

As management of Pinal County (County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages vii – x of this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the County exceeded liabilities and deferred inflows of resources at the close of fiscal year 2015 by \$292,210 (net position). Governmental activities unrestricted net position decreased from \$41,547 in fiscal year 2013-14 to a deficit of (\$87,284) in the current year, primarily due to the implementation of GASB 68.
- The County's total net position decreased by \$169,792 primarily due to the implementation of the provisions of GASB Statement No. 68, *Accounting and Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* (GASB 68).
- As of June 30, 2015, the County's governmental funds reported combined fund balances of \$178,498, an increase of \$43,293 in comparison with the prior year. Approximately 11% of the combined fund balances, or \$18,987 is available for spending at the County's discretion (assigned & unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$19,271, or 13% of total General Fund expenditures.
- The County's total long-term liabilities as of June 30, 2015, were \$379,071. Revenue bonds and loans payable, including unamortized premiums, and net pension liabilities, represent 96% of the total. The certificates of participation were refunded as part of the revenue bonds, series 2015A and 2015B. In addition, some of the loans were refunded as part of the refunding bonds, series 2014. The final payments on the loans payable are due in fiscal years 2019. The final payments for the 2010 revenue bonds are due in fiscal years 2021 and 2036, the final payments for the 2014 revenue bonds are due in fiscal years 2026 and 2035, and the final payments for the 2015 revenue bonds are due in fiscal years 2020 and 2030.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements are designed to provide readers with a broad overview of County finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets and deferred outflows of resources, and liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

PINAL COUNTY

Management's Discussion and Analysis

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public safety, highways and streets, sanitation, health, welfare, culture and recreation, and education. The business-type activities of the County include Sheriff Inmate Services and Airport Economic Development.

The government-wide financial statements can be found on pages 21-22 of this report.

Fund Financial Statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds*, and *fiduciary funds*.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows* and *outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances include a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County uses 168 individual governmental funds to satisfy legal and operating requirements. Some of these funds are combined according to their functional basis for financial reporting purposes. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General, Road Tax Districts, Public Works Highway, Development Impact Fee, Bond Funded Capital Projects, and Debt Service funds. Data from the other governmental funds are combined into a single, aggregated presentation. Fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for its General Fund and other governmental funds. A budgetary comparison schedule has been provided for the General Fund and major Special Revenue Funds to demonstrate compliance with this budget. These statements can be found on pages 81-85.

The basic governmental fund financial statements can be found on pages 23-26 of this report.

Proprietary funds are maintained in two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for Sheriff Inmate Services and Airport Economic Development. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses an internal service fund to account for the Employee Benefit Trust and Fleet Maintenance. Because the services of internal service funds predominantly benefit governmental rather than business-type activities, they have been included within *governmental activities* in the government-wide financial statements.

PINAL COUNTY

Management's Discussion and Analysis

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Fund data for non-major enterprise funds are combined into a single, aggregated presentation provided in the form of *combining statements* elsewhere in this report. The County's internal service fund is presented separately in the proprietary fund financial statements.

The proprietary fund financial statements can be found on pages 27-31 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 32-33 of this report.

Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35-80 of this report.

Required Supplementary Information is presented in addition to the basic financial statements and accompanying notes, concerning the County's progress in funding its obligation to provide pension benefits to its employees. Budgetary comparison schedules previously discussed are also included in this section. Required supplementary information can be found on pages 81-96 of this report.

Combining Statements and Other Schedules referred to earlier in connection with non-major governmental funds and enterprise funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules including statistical information can be found on pages 97-189 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. County assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$292,210 at the close of the most recent fiscal year.

Governmental Activities – Statement of Net Position

A significant portion of the net position (97%) reflects net investment in capital assets (e.g., land, buildings, infrastructure, and equipment) less any debt used to acquire these assets that is still outstanding. The County uses these assets to provide services to citizens; consequently, these assets are not available for future spending. As part of the County's net investment in capital assets, the resources needed to repay debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the net position (33%) represents resources that are subject to external restrictions on how they may be used. A majority of restrictions are imposed by grantor agencies and creditors. The remaining balance of unrestricted net position of \$41,547 in fiscal year 2013-14 decreased in the current year by \$128,831, to a deficit of (\$87,284). The majority of this decrease is due to the implementation of GASB 68.

The net position decreased by \$170,246 from net position reported at June 30, 2014. The majority of this decrease in net position is due to the implementation of GASB 68.

Current and other assets increased 25%. Notable changes included an increase in cash and investments held by trustees in the major fund Bond Funded Capital Projects.

Capital assets remained about the same increasing by 1% in total. This increase is attributable to an increase in land, infrastructure, and construction in progress capital assets.

PINAL COUNTY

Management's Discussion and Analysis

The increases in deferred outflows of resources and deferred inflows of resources \$34,487 and \$27,898, respectively, and \$50 and \$72, respectively, in the business-type activities, consist of the contributions to the pension plans after the measurement date and the changes in estimates and assumptions used to calculate the net pension liabilities. This increase is due to the implementation of GASB 68, *Accounting and Financial Reporting for Pensions*. Additional information on the County's pension plan activity can be found in Note 11 of the notes to the financial statements on pages 57-77 of this report.

Long-term liabilities increased in the current year by 152%. Notable changes included the issuance of pledged revenue obligation bonds for capital projects and road widening projects and pledged revenue refunding obligations which defeased the Greater Arizona Development Authority (GADA) Loan 2006-1, saving the County about \$2,590 in future debt service costs. Other notable changes included the issuance of pledged revenue bonds which refunded the certificates of participation, series 2004, saving the County about \$13,460 in future debt service costs. In addition, this increase included the net pension liability in accordance with GASB Statement No. 68.

Business-type Activities – Statement of Net Position

A significant portion of the net position (130%) reflects investment in capital assets (e.g., construction in progress, buildings, infrastructure, and equipment).

None of the net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net deficit (\$818) makes up (-30%) of net position.

The net position increased by \$454 from net position reported at June 30, 2014. The increase in net position is due to a prior period adjustment to record capital assets not previously recorded in the Airport Economic Development Fund.

Current and other assets decreased by 188%. This decline is due to cash deficits in the Airport Economic Development Fund and in the Sheriff Inmate Services Fund and due to expenses exceeding revenues in these funds.

Capital assets increased 64%. This increase is attributable to an increase in the Airport Economic Development Fund primarily due to a restatement resulting in an increase in infrastructure.

Long-term liabilities increased 113%. This increase is attributable to the implementation of GASB 68 including \$309 of net pension liabilities.

Management's Discussion and Analysis

Governmental Activities – Statement of Activities

- General revenue property taxes increased by \$5,386 (7%) during the year. The increase is primarily due to an increases in property taxes levied in the current year as well as increases in assessed property values.
- Charges for services decreased by \$7,971 (22%) primarily due to decreased ICE fees and boarding of Federal prisoners.
- Operating grants and contributions decreased by \$940 (5%), primarily due to a decrease in intergovernmental revenues for the Accommodation School and a decrease in housing operating grants.
- Capital grants and contributions are higher by \$11,520 (51%) from the prior year primarily due to an increase of contributions of capital assets, particularly for infrastructure (roads) and land. In addition, a capital grant received in the public works department was used to purchase a street sweeper.
- Expenses increased by \$12,052 (5%) primarily due to an increase in the general government function including expenditures related to outsourcing of professional services (IT services and engineering services). This increase is tempered by decreases in highways and streets and health functions. Highways and streets decreased due to the completion of the San Pedro Road project and a decrease in architect services for the Eloy Industrial Park and Cactus Forest Studies. The health function decreased primarily due to a decrease in professional services for radiology services and laboratory services, as well as a decrease in hospital services related to women's cancer.

Business-type activities – Statement of Activities

Business-type activities decreased the County's net position by \$913.

- Total revenue decreased by \$199 (17%) primarily due to a decrease in operating grants in the Airport Economic Development Fund and expenses decreased by \$203 (10%) due to a decrease in professional services for Airport Economic Development Fund.

The following table summarizes the changes in net position for governmental and business-type activities.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2015, the County's governmental funds reported combined fund balance of \$178,498, an increase of \$43,293 in comparison with the prior year. Less than 1%, \$84 of the combined fund balance constitutes *nonspendable fund balance*, made up of prepaid items and inventories that do not represent available spendable resources. Approximately 88% of the combined fund balance, \$156,998 constitutes *restricted fund balance* which represents resources that are subject to external restrictions on how they may be used. The remaining 12% of the combined fund balance is comprised of unassigned fund balance of \$17,452 which is available for spending at the County's discretion, while amounts of \$2,429 and \$1,535 of committed and assigned fund balances, respectively, have to be spent under the conditions specified by the Board of Supervisors and County Management.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$19,271, and total unassigned fund balance for all governmental funds was \$17,452. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance of \$19,271 and total fund balance of \$19,986 represent 13% of total General Fund expenditures.

The total fund balance of the County's General Fund decreased during the fiscal year by \$16,520. Key factors in the decrease to fund balance includes a decrease in revenues in comparison to prior year of \$6,156 primarily related to lower charges for services and transfers out increased \$1,290. The increase in transfers out is a result of additional budgeted transfers for debt service.

The Road Tax Districts Fund total fund balance increased during the fiscal year by \$2,799. The increase is primarily attributed to increased taxes and contributions for the Hunt Highway Phase 2 project.

The Public Works Highway Fund total fund balance increased during the year by \$4,762. This increase is mainly attributable to an increase in HURF and VLT revenues and an additional grant for the San Pedro River Road project.

The Development Impact Fee Fund total fund balance increased during the fiscal year by \$4,393. The fund decreased the amount of transfers out to debt service for the final debt payment of the County's Greater Arizona Development Authority 2006 loan.

The Bond Funded Capital Projects Fund is a new fund during the fiscal year. The fund has been created to account for debt issued for capital projects for Hunt Highway and Ironwood Drive improvements, public safety radio upgrades and other public safety projects, and improvements to County complexes.

The Debt Service Fund, during the year, has been included as a major fund. The total fund balance decreased \$6,691. This decrease is mainly attributable to an increase in principal retirement and interest expense. This decrease is coupled with a decrease in budgeted transfers in, and a payment to refunded bond escrow agent.

Management's Discussion and Analysis

Overview of all governmental funds

Revenues for governmental funds totaled \$231,865 in fiscal year 2015, which represents a decrease of 0.81% from fiscal year 2014.

The following table presents the amount of revenues from various sources as well as increases or decreases from the prior year.

Governmental Funds Revenues Classified by Source For the Years Ended June 30, 2015 and 2014

The following provides an explanation of revenues by source that changed significantly over the prior year.

- Intergovernmental – the increase of \$5,222 was primarily due to an increase in the grants for the Accommodation School and a grant for the San Pedro River Road project in the Public Works Highway Fund.
- Charges for services – the decrease of \$10,708 was primarily due to a decrease in demand for court fees, record fees, planning permits issued, animal care fees, and floodplain permits.
- Contributions – the increase of \$1,234 was primarily due to increased contributions in the Road Tax Districts Fund for \$1,075 for the Hunt Highway Phase 2 and an increase in contributions for health immunizations.

The following provides an explanation of the expenditures by function that changed significantly over the prior year.

- Highways and streets – expenditures for highways and streets increased approximately 20% primarily due to an increase in construction and engineering services for road construction and maintenance projects.
- Capital outlay – expenditures for capital outlay decreased approximately 25% primarily due to the contributions of land and easements and roads to the County which resulted in less purchases of capital outlay expenditures. The County completed the utility efficiency project and supplemental capital projects.
- Principal retirement – expenditures for principal retirement increased as the County refunded COPS 2004 of \$48,725.
- Costs of issuance – expenditures for the cost of issuance related to debt service increased as the County issued pledged revenue obligation bonds and pledged revenue refunding obligation bonds.

Proprietary funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net deficit for the enterprise funds totaled \$(818). Investment in capital assets totaled \$3,502.

Other factors concerning the finances of these funds have already been addressed in the discussion of the County's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

- General Fund revenues were less than the final budget by \$2,522 or 2%, due to less than expected collections of Charges for services due to a decrease court fees, record fees, planning permits issued, animal care fees, and floodplain permits.

General Fund expenditures were less than the budget by \$43,275 or 22%, due to the following reasons:

- The Assistant County Manager-Admin spent \$37,916 less than budgeted in the general government function primarily due to unspent funds, including the Board established Financial Stability Reserve and contingency funds not being used.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets

The County's capital assets for its governmental and business-type activities as of June 30, 2015, amounted to \$468,602 (net of accumulated depreciation). This investment in capital assets includes land and easements, infrastructure, buildings and improvements, machinery and equipment, software, and construction in progress.

Major capital asset events during the current fiscal year included the following:

Governmental activities:

- Donations of capital assets of \$12,922, which included roads, and easements and right-of-ways, contributed to the net increase in the County's land and machinery and equipment capital assets. Construction in progress increased due to the Hunt Highway widening project and the Florence Kelvin Highway project.

Management's Discussion and Analysis

Long-term Debt

At the end of the current fiscal year, the County had total long-term debt outstanding of \$187,765 for governmental activities as compared to \$136,298 in the prior year. This amount was comprised of \$179,445 of bonds payable, including unamortized discount on the 2010 revenue bonds and unamortized premium on the 2010 refunding revenue bonds, for the construction of two health clinics, the renovation of the County's historic courthouse and to refund the certificates of participation, Series 2001, respectively. This amount of bonds payable including unamortized premium on the 2014 revenue bond for road and highway improvements and improvements to public safety radio upgrades and unamortized premium on the 2014 refunding bonds related to the GADA 2006 loan, respectively. This amount of bonds payable including unamortized premium on the 2015 bonds payable to refund the certificates of participation, Series 2004; \$416 of capital leases; and \$7,904 of loans payable, including unamortized premium, for the animal shelter expansion project and several County building renovation projects.

Economic Factors and Next Year's Budgets

- The current 2015, preliminary, seasonally adjusted, unemployment rate for the State of Arizona as of September was 6.3%.¹ The national rate as of September was 5.1%.¹ The unemployment rate for Pinal County as of September was 6.6%.¹ The State of Arizona seasonally adjusted unemployment decreased 0.3% from one year ago and the average unemployment rate for Pinal County decreased 0.5% from the prior year. The largest job increase exists in Government with marginal increases in Leisure and Hospitality and Construction. Financial Activities, Information, Manufacturing, and Natural Resources and Mining remained flat%.¹
- The housing industry, which is stabilizing, continues to be one of the largest factors affecting the State of Arizona. Although property tax receivables have slightly decreased, we also expect revenues from permits to slightly decrease as new home construction remains steady.
- The County has projected that revenues from the Local Sales Taxes will increase in fiscal year 2016.

PINAL COUNTY
Management's Discussion and Analysis

- The County has projected that revenues from the Local Sales Taxes will increase in fiscal year 2016.
- The County has projected \$31,312 of transaction privilege taxes to be received from the State of Arizona in fiscal year 2016 (an increase of about \$747 from fiscal year 2015).
- In fiscal year 2016, the Board of Supervisors increased the property tax rate at 3.9999 cents. Increasing the primary tax rate combined with increased assessed valuations has resulted in \$6,106 more in primary property levied as was levied in during fiscal year 2015.

The County continues to monitor the local, state and national economy in order to identify opportunities and threats to budgeted revenues. Slight improvement in the residential home market and retail sales across the State of Arizona resulted in more sales tax revenue, both County and State-Shared. The County has chosen to keep some positions vacant and an overall 3% budget reductions from most County departments were implemented. The County continues to place great emphasis on control over expenditures.

Expenditures for general capital assets	\$ 11,529	
Less current year depreciation	<u>(16,361)</u>	(4,832)

In the Statement of Activities, only the gain/loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the capital assets sold.

Net book value of capital asset disposals	(1,615)	
Insurance reimbursement for capital assets	(2,126)	
Proceeds from the sale of capital assets	<u>(126)</u>	(3,867)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the in the funds.

Donations of capital assets	12,922	
Intergovernmental	(351)	
Charges for services	(20)	
Property tax revenues	4,090	
Other	<u>(13,423)</u>	3,218

County pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the County's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.

County pension contributions	(13,151)	
Pension expense	<u>21,491</u>	8,340

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of the debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.

Debt issued	(95,495)	
Debt service - principal payments	59,158	
Premiums on debt issued	(13,158)	
Proceeds on refunding bonds	(40,310)	
Premium on refunding bonds	(6,473)

Amortization of COPS premium	731	
Amortization of loan premium	652	
Amortization of deferred charge/credit on bond refunding	<u>(136)</u>	(51,603)

Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.

Change in compensated absences	(65)	
Change in estimated liabilities for claims and judgments	66	
Accrued interest	<u>(2,638)</u>	(2,637)

Some cash outlays, such as purchases of inventories, are reported as expenditures in the governmental funds when purchased. In the Statement of Activities, however, they are reported as expenses when consumed.

Decrease in prepaid items	<u>(1)</u>	13

Internal service funds are used by management to charge the costs of certain activities, including insurance and automotive maintenance and operation, to individual funds. The net expense of certain internal service funds is reported with governmental activities in the Statement of Activities.

Note 1 - Summary of Significant Accounting Policies

Pinal County's accounting policies conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

For the year ended June 30, 2015, the County implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. GASB Statement Nos. 68 and 71 establish standards for measuring and recognizing net pension liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures related to pension benefits provided through defined benefit pension plans. In addition, Statement No. 68 requires disclosure of information related to pension benefits.

A. Reporting Entity

The County is a general purpose local government that is governed by a separately elected board of five county supervisors. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are so intertwined with the County that they are in substance part of the County's operations. Component units should be blended in the County's financial statements when the component unit's governing body is substantively the same as the County's governing body and there is either a financial benefit or burden relationship between the County and the component unit or county management has operational responsibility for it; the component unit provides services entirely, or almost entirely, to the County; or the component unit's total debt outstanding is expected to be repaid entirely or almost entirely with the County's resources. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. Each blended component unit discussed below has a June 30 year-end. The County has no discretely presented component units.

The following table describes the County's component units:

Component Unit	Description; Criteria for Inclusion	Reporting Method	For Separate Financial Statements
Pinal County Flood Control District	A tax-levying district that provides flood control systems; the County's Board of Supervisors serves as board of directors and County management has operational responsibility	Blended	Not available
Pinal County Library District	Provides and maintains library services for County's residents; the County's Board of Supervisors serves as board of directors and County management has operational responsibility	Blended	Not available

PINAL COUNTY
Notes to the Financial Statements

(Amounts expressed in thousands)

The Pinal County Municipal Property Corporation and the Central Arizona Public Facility Corporation were formed to finance various construction projects including the new Superior Court facility and Sheriff's Administration facility. Because the County's Board of Supervisors serves as the Board of Directors of each of these corporations, they are reported as blended component units of the County. These corporations issue certificates of participation that evidence undivided proportionate interests in rent payments to be made under a lease agreement, with an option to purchase, between Pinal County and the corporations. Since this debt is in substance the County's obligations, these liabilities and resulting assets are reported in the government-wide statement of net position.

The Pinal County Employee Benefit Trust was created to provide benefits for County employees, elected officials, and eligible dependents. The Trustees are appointed by the Pinal County Board of Supervisors and may be removed by the Board of Supervisors at any time for cause or no cause. Based on these factors, the Pinal County Employee Benefit Trust is reported as a blended component unit in the accompanying financial statements.

The Public Health Services District was formed under A.R.S. §48-5802(C) as a taxing authority to provide health services to the growing population of Pinal County. The Public Health Services District is reported as a special revenue fund in the financial statements.

Related Organization

The Industrial Development Authority of Pinal County (Authority) is a legally separate entity that was created to promote economic development and the development of affordable housing. The Authority fulfills its function through the issuance of tax-exempt or taxable revenue bonds. The County Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. Therefore, the financial activities of the Authority have not been included in the accompanying financial statements.

B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the County as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

Government-wide statements—Provide information about the primary government (the County) and its component units. The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities, except for fiduciary activities. They also distinguish between the County's governmental and business-type activities and between the County and its discretely presented component units. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County does not allocate indirect expenses to programs or functions on a government-wide basis. Program revenues include:

PINAL COUNTY
Notes to the Financial Statements
June 30, 2015

(Amounts expressed in thousands)

- charges to customers or applicants for goods, services, or privileges provided;
- operating grants and contributions; and
- capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes the County levies or imposes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

Fund financial statements—Provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges, in which each party receives and gives up essentially equal values, are operating revenues. Other revenues, such as intergovernmental revenues, result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues ancillary activities generate. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered nonoperating expenses.

The County reports the following major governmental funds:

The General Fund—is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Road Tax Districts Fund—accounts for monies from the Pinal County Transportation Excise Tax which is used to provide continued funding for the construction, reconstruction, maintenance, repair, and roadside development of county roads, streets and bridges.

The Public Works Highway Fund—accounts for monies from Highway User Revenue Fund and Vehicle License Tax that are restricted for road maintenance and operations, pavement preservation, and fleet services.

The Development Impact Fee Fund—accounts for monies from development impact fees assessed on all new developments within the unincorporated areas of Pinal County. These funds are used for parks, public safety, and streets within the Impact Fee Area collected, as determined by a Pinal County development fee ordinance.

The Bond Funded Capital Projects Fund – accounts for bond monies used for financing capital facilities and capital projects related to highways and roads, and public safety projects.

The Debt Service Fund – accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Revenues are primarily from investment earnings, debt proceeds, and transfers in.

PINAL COUNTY
Notes to the Financial Statements

(Amounts expressed in thousands)

The County also reports the following fund types:

The internal service funds—account for the County's participation in the Pinal County Employee Benefit Trust for providing health insurance and other benefits to eligible County employees, elected officials and their respective eligible dependents and to account for automotive maintenance and operation of County vehicles.

The investment trust funds—account for pooled and nonpooled assets the County Treasurer holds and invests on behalf of County departments and other governmental entities.

The agency funds—account for assets the County holds as an agent for the State, various local governments and individuals, and for property taxes collected and distributed to the State, cities, local school districts, community college districts, and special districts.

C. Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The agency funds are custodial in nature and do not have a measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The County applies grant resources to such programs before using general revenues.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after fiscal year-end. The County's major revenue sources that are susceptible to accrual are property taxes, sales taxes, licenses and permits, and intergovernmental revenues. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

D. Cash and Investments

For the statement of cash flows, the County's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the County Treasurer, investments in the State Treasurer's Local Government Investment Pool, and only those highly liquid investments with a maturity of 3 months or less when purchased.

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest-earning investment contracts with a remaining maturity of 1 year or less at the time of purchase are stated at amortized cost. All other investments are stated at fair value.

PINAL COUNTY
Notes to the Financial Statements
June 30, 2015
(Amounts expressed in thousands)

E. Inventories

Inventories in the government-wide financial statements are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the lower of cost (first-in, first-out method) or market.

The County accounts for its inventories in the governmental funds using the purchase method. Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to indicate that they do not constitute "available spendable resources". These inventories are stated at cost using the lower of cost (first-in, first-out method) or market.

F. Property Tax Calendar

The County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

G. Capital Assets

Capital assets are reported at actual cost, or estimated historical cost if historical records are not available. Donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land	All	N/A	N/A
Buildings & improvements	\$25	Straight line	10-40 years
Machinery & equipment	\$5	Straight line	3-21 years
Intangibles - software	\$50	Straight line	10 or more years
Infrastructure	\$100	Straight line	20-50 years

The County currently has one network of infrastructure assets comprised of the County's roads and bridges.

H. Deferred Outflows and Inflows of Resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

I. Investment Earnings

Investment earnings are composed of interest, dividends, and net changes in the fair value of applicable investments.

J. Compensated Absences

Compensated absences payable consists of vacation leave and a calculated amount of sick leave employees earned based on services already rendered.

Employees may accumulate up to 360 hours of vacation. Any vacation hours in excess of the maximum amount that are unused at September 30 roll over and are added to an employee's sick leave balance. Upon terminating employment, the County pays all unused and unforfeited vacation benefits to employees. Accordingly, vacation benefits are accrued as a liability in the government-wide and proprietary funds' financial statements. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal year-end.

Employees may accumulate an unlimited number of sick leave hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but employees forfeit them upon terminating employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements. However, a certain percentage of sick leave can be converted to vacation leave upon retirement after an employee has worked 5 or more years for the County, and is accrued as a long-term liability.

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Fund Balance Classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on

PINAL COUNTY
Notes to the Financial Statements
June 30, 2015

(Amounts expressed in thousands)

their usage by creditors such as through debt covenants, grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations approved in a public meeting by the County's Board of Supervisors, which is the highest level of decision-making authority within the County. The constraints placed on committed fund balances can be removed or changed by only the Board in a public meeting. The formal action to commit fund balance for a particular purpose is by a resolution approved by the Board in a public meeting.

Assigned fund balances are resources constrained by the County's intent to be used for specific purposes, but that are neither restricted nor committed. The Board of Supervisors has authorized the County Manager, Elected Officials, and the Chief Financial Officer to make assignments of resources for a specific purpose by a resolution approved by the Board in a public meeting.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the County's policy to use restricted fund balance first. It is the County's policy to use committed amounts first when disbursing unrestricted fund balances, followed by assigned amounts, and lastly unassigned amounts.

Note 3 - Stabilization Arrangements

The Board of Supervisors established by resolution that the County General Fund maintain a Financial Stability Reserve at no less than 10% of the adopted General Fund expenditures to serve as financial protection for unforeseeable future economic circumstances. Any changes to the reserve must be approved by the Board of Supervisors in a public meeting. For the year ended June 30, 2015, the balance was \$19,673.

Note 4 – Change in Accounting Principle and Correction of Misstatements – Prior Period Adjustment

Net position as of July 1, 2014, has been restated as follows for the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. In addition, other adjustments have been made on the government-wide Statement of Activities and in the Enterprise Funds Statement of Revenue, Expenses, and Changes in Fund Balances/Net Position for the Airport Economic Development Fund. Other various error adjustments have been made on the government-wide Statement of Activities for prior year errors in land, construction in progress, infrastructure, and accumulated depreciation for the Housing Department. Note 5 – Deposits and Investments

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes, and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the County Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

Credit risk

Statutes have the following requirements for credit risk:

1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
2. Bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars must be rated "A" or better at the time of purchase by at least two nationally recognized rating agencies.
3. Fixed income securities must carry one of the two highest ratings by Moody's investors service and Standard and Poor's rating service. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

Custodial credit risk

Statutes require collateral for deposits at 102 percent of all deposits federal depository insurance does not cover.

Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

Foreign currency risk

Statutes do not allow foreign investments unless the investment is denominated in United States dollars.

Deposits—At June 30, 2015, the carrying amount of the County's deposits was \$116,027 and the bank balance was \$129,074. It is the County's investment policy to collateralize all deposits by at least 102 percent of the deposits not covered by depository insurance.

Investments—The County's investments at June 30, 2015, were as follows:

Investment Type	Amount
U.S. agency securities	\$ 168,344
State Treasurer's Investment Pools	394
Repurchase agreements	40,000
CD Held by Treasurer	50
Pooled CDs	3,257
School Bond	329
	<u>\$ 212,374</u>

The State Board of Investment provides oversight for the State Treasurer's pools. The fair value of a participant's position in the pool approximates the value of that participant's pool shares and the participant's shares are not identified with specific investments.

Credit Risk—The County's credit risk policy states that the County will minimize credit risk, the risk of loss due to the failure of the security issuer or backer, by limiting investments to those of the highest credit quality, pre-qualifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the County Treasurer will do business and by diversifying the investment portfolio so that potential losses on individual securities will be minimized. At June 30, 2015, credit risk for the County's investments was as follows:

Investment Type	Rating	Rating agency	Amount
U.S. agency securities	Aaa	Moody's	\$ 159,315
U.S. agency securities	A3	Moody's	2,002
U.S. agency securities	A2	Moody's	1,992

Repurchase agreements (implicitly guaranteed)	Unrated	Not Applicable	40,000
CD Held by Treasurer	Unrated	Not Applicable	50
Pooled CDs	Unrated	Not Applicable	3,257
School Bond	Unrated	Not Applicable	329
			<u>\$ 212,374</u>

Custodial credit risk—For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the County will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. The County's policy states that the County Treasurer will conform with Arizona Revised Statutes, which currently does not address custodial credit risk for investments.

Concentration of credit risk—The County's investment policy states that the County Treasurer will diversify its investments by security type and institution when practical and feasible to do so. The County Treasurer will limit investments to avoid over-concentration in securities from a specific issuer or business sector (excluding U.S. Treasury Securities), and will invest in securities with varying

maturities. The County had investments at June 30, 2015, of 5 percent or more in the Federal Farm Credit Bank, the Federal Home Loan Bank, the Federal Home Loan Mortgage Corporation, and the Federal National Mortgage Association. These investments were 17.4 percent, 26.0 percent, 18.8 percent, and 12.8 percent, respectively, of the County's total investments.

Interest rate risk—The County's investment policy states that the County Treasurer will minimize the risk that the market value of securities in the portfolio will fall due to changes in general interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in shorter term securities. At June 30, 2015, the County had the following investments in debt securities.

Investment Type	Investment Maturities		
	Amount	Less than 1 Year	1-5 Years

Note 8 – Due from Other Governments

Amounts due from other governments at June 30, 2015, of \$17,727 reported in the governmental funds General Fund balance sheet included \$8,686 for an Intergovernmental Agreement with the City of Apache Junction. The Intergovernmental Agreement was entered into by the County to share costs with the City of Apache Junction in the re-construction, re-design and improvement of Ironwood Drive within the corporate limits of the City of Apache Junction. An amendment to the original Intergovernmental Agreement specified an extension of the date of the first scheduled payment and the amount of future payments. This receivable is not expected to be collected within one year since under the terms of the amended Intergovernmental Agreement, payments are scheduled to commence in 2023. Accordingly, the amount has been reported as deferred inflow of resources in the General Fund balance sheet. The remaining outstanding amounts are primarily due from other outstanding contractual obligations.

The Greater Arizona Development Authority Loans

During the year ended June 30, 2015, the County defeased \$43,240 of Greater Arizona Development Authority Loan, Series 2006-1 (GADA). The in-substance defeasance resulted in the liability being removed from the government-wide Statement of Net Position. The issuance of refunding bonds, discussed in the section below, resulted in an economic gain of \$2,816 and a reduction of debt service by \$2,590. On December 17, 2014, the \$43,240 of GADA Series 2006-1 are held with a trustee until the loans early redemption date of August 2016.

On April 1, 2008, Pinal County entered into a loan agreement for \$4,495 with the GADA to provide funds to construct an animal shelter facility expansion and a long term care facility expansion. Interest will be payable on January 1 and July 1 of each year commencing January 1, 2009, and is calculated based on the principal amount of the loan outstanding during such period.

On February 1, 2009, Pinal County entered into a loan agreement for \$12,795 with the GADA to provide funds to construct a Justice Court Facility, construct various County facility expansions and upgrade the Sheriff's security system. Interest will be payable on January 1 and July 1 of each year commencing July 1, 2009, and is calculated based on the principal amount of the loan outstanding during such period.

The County has pledged a portion of future State Shared Revenues to repay the loans obtained from GADA, issued in 2008, and a portion of of State Shared Revenues and Excise Taxes Revenues to repay the GADA loan issued in fiscal year 2009. Total principal and interest payments remaining on the loans is \$8,525 payable through May 2019. State shared revenues have averaged \$27 million per year over the last 5 years, whereas, Excise Taxes Revenues have averaged \$12.9 million per year over the last 5 years. For the current year, state shared sales and excise revenues recognized by the County were \$30,565 and \$14,007, respectively. In the current year, principal and interest payments were \$1,805 and \$337, respectively.

The Greater Arizona Development Authority loans outstanding at June 30, 2015 were as follows:

Total principal and interest payments remaining on the bonds are \$60,426 payable through 2034. State shared revenues have averaged \$27 million per year over the last 5 years, whereas, Excise Taxes Revenues have averaged \$12.9 million per year over the last 5 years, and Vehicle License Tax Revenues have averaged \$15 million per year over the last 5 years. For the current year, state shared sales and excise revenues recognized by the County were \$30,565 and \$14,007, respectively, and vehicle license tax revenues recognized by the County were \$16,124. In the current year, the interest payments were \$421. Principal payments will begin in fiscal year 2018

Capital leases

The County has acquired heavy machinery, and other machinery and equipment under the provisions of various long-term lease agreements classified as capital leases for accounting purposes because they provide for a bargain purchase option or a transfer of ownership by the end of the lease term.

The following assets were acquired through capital leases:

	Governmental Activities
Machinery and equipment	\$ 1,608
Less: accumulated depreciation	1,036
Carrying value	<u>\$ 572</u>

The following schedule details debt service requirements to maturity for the County's capital leases payable at June 30, 2015:

Present value of net minimum lease payments	<u>\$ 416</u>

Landfill closure and postclosure care costs

The County has contracted with an outside agency to provide operations for its solid waste facility. The contract requires the outside agency to reserve funds in accordance with the closure plan for closure and postclosure care costs. In the event of termination of the contract, the required reserve funds are to be remitted to the Arizona Department of Environmental Quality. Consequently, no liability for landfill closure and postclosure care costs has been recorded on the basic financial statements.

Compensated absences and claims and judgments

Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. Claims and judgments are generally paid from the fund that accounts for the activity that gave rise to the claim. During fiscal year 2015, the County paid for governmental-type activity compensated absences as follows: 76 percent from the General Fund, 9 percent from the Public Works Highway Fund, and 15 percent from other governmental funds. The County paid for claims and judgments from the General Fund.

Note 10 – Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For these risks of loss, the County joined and is covered by two public entity risk pools: the Arizona Counties Property and Casualty Pool and the Arizona Counties Workers' Compensation Pool, which are described below. Settled claims have not exceeded coverage provided in any of the past 3 fiscal years.

The Arizona Counties Property and Casualty Pool is a public entity risk pool currently composed of 12 member counties. The pool provides member counties catastrophic loss coverage for risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters; and provides risk management services. Such coverage includes all defense costs as well as the amount of any judgment or settlement. The County is responsible for paying a premium based on its exposure in relation to the exposure of the other participants, and a deductible of \$10 per occurrence for property claims and \$50 per occurrence for liability claims. The County is also responsible for any payments in excess of the maximum coverage of \$300 million per occurrence for property claims and \$15 million per occurrence for liability claims. However, lower limits apply to certain categories of losses. A county must participate in the pool at least 3 years after becoming a member; however, it may withdraw after the initial 3-year period. If the pool were to become insolvent, the County would be assessed an additional contribution.

The Arizona Counties Workers' Compensation Pool is a public entity risk pool currently composed of 11 member counties. The pool provides member counties with workers' compensation coverage, as law requires, and risk-management services. The County is responsible for paying a premium, based on an experience-rating formula that allocates pool expenditures and liabilities among the members.

The Arizona Counties Property and Casualty Pool and the Arizona Counties Workers' Compensation Pool receive independent audits annually and an audit by the Arizona Department of Insurance every 5 years. Both pools accrue liabilities for losses that have been incurred but not reported. These liabilities are determined annually based on an independent actuarial valuation.

Pursuant to A.R.S. §11-981, the County has established the Pinal County Employee Benefit Trust, which covers medical, dental, vision, short-term disability and accidental disability. The County has provided each employee with \$50 of basic life insurance coverage. The premiums for spouse and children coverage is covered by the employee. All life insurance is underwritten by a third party company.

The County is responsible for paying a premium to the Trust for the costs incurred by the Trust for insurance premiums and an estimate of risk that is retained. The premiums are periodically adjusted for the difference between actual costs incurred by the Trust and the premiums paid by the County.

The liability for medical, dental, vision, and short-term disability claims of the Trust totaling \$2,648 at June 30, 2015 is the estimated ultimate cost of settling claims that have been reported but unpaid and incurred but not reported. This estimate is based on an actuarial estimate. Changes in the Trust's claims payable for the years ended June 30, 2014 and 2015 were as follows:

	2014	2015
Claims payable, beginning of year	\$ 2,212	\$ 2,021
Current-year claims and changes in estimate	15,161	16,579
Claim payments	(15,352)	(15,952)

As provided by A.R.S. §23-750, the State, its political subdivisions, and any instrumentality, agency, or board of the State or political subdivision have two options for satisfying unemployment compensation obligations: 1) direct quarterly payments to the unemployment fund administered by the Arizona Department of Economic Security (ADES) based on a computed contribution rate assigned to the employer by ADES or 2) the government may elect to be liable for any unemployment compensation obligations. Pinal County has elected to be responsible for its unemployment obligations. The County does not accumulate and reserve monies for its workforce.

Note 11 – Pensions and Other Post-Employment Benefits

The County contributes to the Arizona State Retirement System (ASRS), the Corrections Officer Retirement Plan – Detention Officers (CORP Detention), the Corrections Officer Retirement Plan - Dispatchers (CORP Dispatchers), the Corrections Officer Retirement Plan - Administrative Office of the Courts (CORP AOC), the Public Safety Personnel Retirement System - Pinal County Sheriff, and the Elected Officials Retirement Plan (EORP). The plans are component units of the State of Arizona.

At June 30, 2015, the County reported the following aggregate amounts related to pensions for all plans to which it contributes:

Statement of Net Position and Statement of Activities	Governmental Activities	Business-type Activities	Total
Net pension liabilities	\$ 176,900	\$ 309	\$ 177,209
Deferred outflows of resources	34,487	50	34,537
Deferred inflows of resources	27,898	72	27,970
Pension expense	21,491	346	21,837

The County's accrued payroll and employee benefits includes \$3,210 of outstanding pension contribution amounts payable to all pension plans for the year ended June 30, 2015. Also, the County reported \$13,178 of pension contributions as expenditures in the governmental funds related to all pension plans to which it contributes.

The ASRS, CORP Detention, CORP Dispatchers, CORP AOC, PSPRS – Pinal County Sheriff, and EORP are described below.

A. Arizona State Retirement System

Plan description – County employees not covered by other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its Web site at www.azasrs.gov.

Benefits provided – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2015, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.6 percent (11.48 percent for retirement and 0.12 percent for long-term disability) of the members' annual covered payroll, and the County was required by statute to contribute at the actuarially determined rate of 11.6 percent (10.89 percent for retirement, 0.59 percent for health insurance premium benefit, and 0.12 percent for long-term disability) of the active members' annual covered payroll.

In addition, the County was required by statute to contribute at the actuarially determined rate of 9.57 percent (9.31 percent for retirement, 0.20 percent for health insurance premium benefit, and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked for the County in positions that would typically be filled by an employee who contributes to the ASRS. The County's contributions to the pension plan for the year ended June 30, 2015, were \$7,472. The County's contributions for the current and 2 preceding years for OPEB, all of which were equal to the required contributions, were as follows:

ASRS	Health Benefit Supplement Fund	Long-Term Disability Fund
<u>Year Ended June 30</u>		
2015	\$ 368	\$ 75
2014	366	146
2013	410	152

During the fiscal year 2015, the County paid for ASRS pension as follows: 71 percent from the General Fund, 11 percent from major funds, and 18 percent from other funds. The County paid for

OPEB contributions as follows: 74 percent from the General Fund, 9 percent from major funds, and 17 percent from other funds.

Pension liability – At June 30, 2015, the County reported a liability of \$100,718 for its proportionate share of the ASRS' net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2013, to the measurement date of June 30, 2014. The County's proportion of the net pension liability was based on the actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2014. The County's proportion measured as of June 30, 2014 was 0.6807 percent, which was a decrease of 0.04 from its proportion measured as of June 30, 2013.

Pension expense and deferred outflows/inflows of resources – For the year ended June 30, 2015, the County recognized pension expense for ASRS of \$4,827. At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

ASRS

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 5,119	\$
Net difference between projected and actual earnings on pension plan investments		17,613

County contributions subsequent to the measurement date	<u>7,472</u>	
Total	<u>\$ 12,591</u>	<u>\$ 21,754</u>

The \$7,472 reported as deferred outflows of resources related to ASRS pensions resulting from county contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows:

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

ASRS	
Actuarial valuation date	June 30, 2013
Actuarial roll forward date	June 30, 2014
Actuarial cost method	Entry age normal
Investment rate of return	8%
Projected salary increases	3-6.75%
Inflation	3%
Permanent benefit increase	Included
Mortality rates	1994 GAM Scale BB

Actuarial assumptions used in the June 30, 2013, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2012.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.79 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

ASRS		
	Target	Long-Term
<u>Asset Class</u>	<u>Allocation</u>	<u>Expected Real</u>
Equity	63%	7.03%
Fixed income	25%	3.20%
Real estate	8%	4.75%
Commodities	4%	4.50%
Total	<u>100%</u>	

Discount Rate – The discount rate used to measure the ASRS total pension liability was 8 percent, which is less than the long-term expected rate of return of 8.79 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the ASRS net pension liability to changes in the discount rate – The following table presents the County's proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7 percent) or 1 percentage point higher (9 percent) than the current rate:

B. Public Safety Personnel Retirement System and Corrections Officer Retirement Plan

Plan descriptions – County sheriff employees who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS). The PSPRS administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit (OPEB) plan (agent plans). A seven-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.

County detention officers, county dispatchers, and Administrative Office of the Courts (AOC) probation, surveillance, and juvenile probation officers participate in the Corrections Officer Retirement Plan (CORP). The CORP administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit (OPEB) plan for county detention officers and dispatchers (agent plans), and a cost-sharing multiple-employer defined benefit pension plan and a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan for AOC officers (cost-sharing plans). The PSPRS Board of Trustees and the participating local boards govern CORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 6.

The PSPRS and CORP issue publicly available financial reports that include their financial statements and required supplementary information. The reports are available on the PSPRS Web site at www.psprs.com.

Benefits provided – The PSPRS and CORP provide retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on excess investment earnings. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

Employees covered by benefit terms – At June 30, 2015, the following employees were covered by the agent pension plans' benefit terms:

	PSPRS Sheriff	CORP Detention	CORP Dispatchers
Inactive employees or beneficiaries currently receiving benefits	87	22	2
Inactive employees entitled to but not yet receiving benefits	26	31	8

In addition, the County was required by statute to contribute at the actuarially determined rate of 19.65 percent for the PSPRS and 7.34 percent for the CORP of annual covered payroll of retired members who worked for the County in positions that would typically be filled by an employee who contributes to the PSPRS or CORP.

For the agent plans, the County's contributions to the pension plan and annual OPEB cost and contributions for the health insurance premium benefit for the year ended June 30, 2015, were:

	<u>PSPRS Sheriff</u>	<u>CORP Detention</u>	<u>CORP Dispatchers</u>
Pension contributions made	\$ 3,086	\$ 1,029	\$ 66

Contributions to the CORP AOC pension plan for the year ended June 30, 2015, were \$885. The County's contributions for the current and 2 preceding years for CORP AOC OPEB, all of which were equal to the required contributions, were as follows:

<u>Year Ended June 30</u>	<u>Health Insurance Fund</u>
2015	\$ 68
2014	63
2013	72

During fiscal year 2015, the County paid for PSPRS and CORP pension and OPEB contributions as follows: 95 percent from the General Fund and 5 percent from other nonmajor funds.

Pension liability – At June 30, 2015, the County reported the following net pension liabilities:

	<u>Net Pension Liability</u>
PSPRS Sheriff	\$34,850
CORP Detention	7,153
CORP Dispatchers	859
CORP AOC (County's proportionate share)	11,623

The net pension liabilities (and asset) were measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The total liabilities as of June 30, 2014, reflect the following changes of benefit terms and actuarial assumptions.

- In February 2014, the Arizona Supreme Court affirmed a Superior Court ruling that a 2011 law that changed the mechanism for funding permanent benefit increases was unconstitutional. As a result, the plans changed benefit terms to reflect the prior mechanism for funding permanent benefit increases and revised actuarial assumptions to explicitly value future permanent benefit increases.
- The wage growth actuarial assumption was decreased from 4.5 percent to 4.0 percent.

The projection of cash flows used to determine the PSPRS and CORP discount rates assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarial determined contribution rate and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan

The County's proportion of the CORP AOC net pension liability as of June 30, 2013 and 2014, was based on the County's actual contributions to the plan relative to the total of all participating counties' actual contributions for the year ended June 30, 2014. The County's proportion measured as of June 30, 2013 and 2014 was 5.18 percent.

Sensitivity of the County's net pension liability to changes in the discount rate – The following table presents the County's net pension liabilities calculated using the discount rates noted above, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

Agent plan OPEB actuarial assumptions – The health insurance premium benefit contribution requirements for the year ended June 30, 2015, were established by the June 30, 2013 actuarial valuations, and those actuarial valuations were based on the following actuarial methods and assumptions.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the plans' funded status and the annual required contributions are subject to continual revision as actual results are compared to past expectations and new estimates are made. The required schedule of funding progress for the health insurance premium benefit presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of the plans' assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits are based on (1) the plans as the County and plans' members understand them and include the types of benefits in force at the valuation date, and (2) the pattern of sharing benefit costs between the County and plans' members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The significant actuarial methods and assumptions used are the same for all PSPRS and CORP plans and related benefits (unless noted), and the following actuarial methods and assumptions were used to establish the fiscal year 2015 contribution requirements:

PSPRS and CORP – OPEB Contribution Requirements

Actuarial valuation date	June 30, 2013
Actuarial cost method	Entry age normal
Amortization method	Level percent closed for unfunded actuarial accrued liability, open for excess

Actuarial assumptions:	
Investment rate of return	7.85%
Projected salary increases	4.5% - 8.5% for PSPRS and 4.5% - 7.75% for CORP
Wage growth	4.5% for PSPRS and CORP

C. Elected Officials Retirement Plan

Plan descriptions – Elected officials and judges partipate in the Elected Officials Retirement Plan (EORP), EORP administers a cost-sharing multiple-employer defined benefit pension plan and a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan for elected officials and judges who were memebers of the plan on December 31, 2013. This plan was closed to new members as of January 1, 2014. The PSPRS Board of Trustees governs the EORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The EORP issues publicly available financial report that includes its financial statements and required supplementary information. The report is available in PSPRS's Web site at www.psprs.com.

Benefits provided – The EORP provides retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

EORP

	Initial membership date:

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on excess investment earning.

Contributions – State statutes establish active member and employer contribution requirements. Statute also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State of Arizona to supplement the normal cost plus an amount to amortize the unfunded accrued liability, and designates certain court fees for the EORP. For the year ended June 30, 2015, active EORP members were required by statute to contribute 13 percent of the members' annual covered payroll, and the County was required to contribute 23.5 percent of active EORP members' annual covered payroll. The County's contributions to the pension plan for the year ended June 30, 2015, were \$640. No OPEB contributions were required or made for the year ended June 30, 2015. The County's OPEB contributions for the current and 2 preceeding years for OPEB, all of which were equal to the required contributions, were as follows:

EORP	Health Insurance Fund
<u>Year Ended June 30</u>	<u>Fund</u>
2015	-
2014	\$ 12
2013	11

During fiscal year 2015, the County paid for EORP pension contributions as follows: 87 percent from the General Fund and 13 percent from other funds.

Pension liability – At June 30, 2015, the County reported a liability for its proportionate share of EORP's net pension liability that reflected a reduction for the County's proportionate share of the State's appropriation for EORP. The amount the County recognized as it proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the County were as follows:

PINAL COUNTY
Notes to the Financial Statements
June 30, 2015

(Amounts expressed in thousands)

County's proportionate share of the EORP net pension liability	\$ 22,006
State's proportionate share of the EORP net pension liability associated with the County	<u>6,747</u>
Total	<u>\$ 28,753</u>

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. In February 2014, the Arizona Supreme Court affirmed a Superior Court ruling that a 2011 law that changed the mechanism for funding permanent benefit increases was unconstitutional. As a result, for the June 30, 2014, actuarial valuation, the plan changed benefit terms to reflect the prior mechanism for funding permanent benefit increases and revised actuarial assumptions to explicitly value future permanent benefit increases.

The County's proportion of the net pension liability as of June 30, 2013 and 2014, was based on the County's actual contributions to the plan relative to the total of all participating employers' actual contributions for the year ended June 30, 2014. The County's proportion measured as June 30, 2013 and 2014, was 3.28 percent.

Pension expense and deferred outflows/inflows of resources – For the year ended June 30, 2015, the County recognized pension expense for EORP of \$8,523 and revenue of \$2,000 for the County's proportionate share of the State's appropriation to EORP. At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

EORP	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 97	
Changes of assumptions or other inputs	5,955	
Net difference between projected and actual earnings on pension plan investments		\$ 417
County contributions subsequent to the measurement date	<u>640</u>	
Total	<u>\$ 6,692</u>	<u>\$ 417</u>

The \$640 reported as deferred outflows of resources related to EORP pensions resulting from county contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions will be recognized in pension expense as follows:

<u>Year Ending June 30</u>

(Amounts expressed in thousands)

Actuarial assumption – The significant actuarial assumptions used to measure the total pension liability are as follows:

EORP

Actuarial valuation date	June 30, 2014
Actuarial cost method	Entry age normal
Investment rate of return	7.85%
Projected salary increases	4.25%
Permanent benefit increase	Included
Mortality rates	RP-2000 mortality table projected to 2025 with projection Scale AA

Actuarial assumptions used in the June 30, 2014, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2011.

The long-term expected rate of return on EORP pension plan investments was determined to be 7.85 percent using a building-block method in which best-investment ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

EORP

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Short term investments	2%	3.25%
Absolute return	4%	6.75%
Risk parity	4%	6.04%
Fixed income	7%	4.75%
Real assets	8%	5.96%
GTAA	10%	5.73%
Private equity	11%	9.50%
Real estate	11%	6.50%
Credit opportunities	13%	8.00%
Non-U.S. equity	14%	8.63%
U.S. equity	16%	7.60%
Total	<u>100%</u>	

Discount rate – At June 30, 2014, the discount rate used to measure the EORP total pension liability was 5.67 percent which was a decrease of 2.18 from the discount rate used as of June 30, 2013. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the statutorily set rates, and state contributions will be made as currently required by statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current plan members. Therefore, to determine the total pension liability for the plan, the long-term expected rate of return on pension plan investments of 7.85 percent was applied to periods of projected benefit payments through the year ended June 30, 2030. A municipal bond rate of 4.29 percent obtained from the 20-year Bond Buyer Index, as published by the Federal Reserve as of June 30, 2014, was applied to periods of projected benefit payments after June 30, 2030.

Note 13 – County Treasurer’s Investment Pool

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County monies under her stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments annually at June 30.

The County Treasurer’s investment pool is not registered with the Securities and Exchange Commission as an investment company and there is no regulatory oversight of its operations. The

PINAL COUNTY
Notes to the Financial Statements

pool's structure does not provide for shares and the County has not provided or obtained any legally binding guarantees to support the value of the participants' investments.

The Treasurer allocates interest earnings to each of the pool's participants. However, for the County's monies in the pool the Board of Supervisors authorized \$159 of interest earned in certain other funds to be transferred to the General Fund.

Substantially, all deposits and investments of the County's primary government are included in the County Treasurer's investment pool, except for \$29 in cash on hand, \$58,241 in deposits, \$394 of investments in the State Treasurer's Investment Pool and \$50 in Certificates of Deposit. Therefore, the deposit and investment risks of the Treasurer's investment pool are substantially the same as the County's deposit and investment risks exclusive of the investments just described above. See Note 5 for disclosure of the County's deposit and investment risks.

Note 1 – Budgeting and Budgetary Control

A.R.S. requires the County to prepare and adopt a balanced budget annually for each governmental fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Expenditures may not legally exceed appropriations at the department level. In certain instances, transfers of appropriations between departments or from the contingency account to a department may be made upon the Board of Supervisors' approval.

The County's budget is prepared on a basis consistent with U.S. generally accepted accounting principles.

The County did not legally adopt an annual budget for the Accommodation School.

Note 1 – Actuarially Determined Contribution Rates

Actuarial determined contribution rates for PSPRS and CORP are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Actuarial cost method	Entry age normal
Amortization period	Level percent closed for unfunded actuarial accrued liability, open for excess
Remaining amortization period	
As of the 2013 actuarial valuation	23 years for unfunded actuarial accrued liability, 20 years for Excess
Asset valuation method	7-year smoothed market value; 20% corridor
Actuarial assumptions:	
Investment rate of return	In the 2013 actuarial valuation, the investment rate of return was decreased from 8% to 7.85%
Projected salary increases	In the 2013 actuarial valuation, projected salary increases were decreased from 5.0%-9.0% to 4.5%-8.5% for PSPRS and from 5.0%-8.25% to 4.5%-7.75% for CORP
Wage growth	In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS and CORP
Retirement age	Experience-based table of rates that is specific to the type of of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006 – June 30, 2011.
Mortality	RP-2000 mortality table (adjusted by 105% for both males and females)

Note 1 – Factors That Affect the Identification of Trends

Beginning in fiscal year 2014, PSPRS and CORP established separate funds for pension benefits and health insurance premium benefits. Previously, the plans recorded both pension and health insurance premium contributions in the same Pension Fund. During fiscal year 2014, the plans transferred prior-year health insurance premium benefit contributions that exceeded benefit payments for each plan's Pension Fund to the new Health Insurance Fund.

Notes: Property in Pinal County is assessed annually with values being set by either the County Assessor or the Arizona Department of Revenue. The values are the basis for Primary Taxes and annual changes therein are restricted by the State Constitution. Assessment ratios are set by the legislature for individual property types. The taxable assessed value is arrived at by multiplying an assessment ratio that has varied from ten percent for residential property, to twenty-five percent for commercial property. Tax rates are per \$100 of assessed value.

- (a) These are "forward looking" statements based on projections and estimates.
- (b) Pursuant to Section 11-292, Arizona Revised Statutes, the Treasurer of the State withholds an amount of the State Shared Revenues sufficient to meet the County's portion of the non-federal costs of providing the long-term care system in the State ("ALTCS") from moneys otherwise payable to the County in accordance with the State's distribution of the State Shared Revenues. The County's contribution is based on a fixed State formula. In the event that the State Shared Revenues withheld from the County by the Treasurer of the State are insufficient to meet the funding requirement of ALTCS, the Treasurer of the State may withhold any other moneys payable to the County from any available State funding source.
- (c) Pursuant to Section 11-292, Arizona Revised Statutes, the County is also required to make annual appropriations for contributions to the Arizona Health Care Cost Containment System ("AHCCCS") fund. If the County does not make its contributions to the AHCCCS fund, which is used to offset certain indigent and related health care costs, the Treasurer of the State may withhold any amounts owed, plus interest retroactive to the first date the funding was due, from the County's State Shared Revenues.
