JANET NAPOLITANO
GOVERNOR

BETSEY BAYLESS
DIRECTOR

**ARIZONA DEPARTMENT OF ADMINISTRATION
OFFICE OF THE DIRECTOR**

100 NORTH 15th AVENUE • SUITE 401
PHOENIX, ARIZONA 85007
Phone: (602) 542-1500

February 11, 2005

The Honorable Janet Napolitano
Governor of the State of Arizona,
Members of the Legislature, Chief Justice of
the Supreme Court and Citizens and Taxpayers
of the State of Arizona

Ladies and Gentlemen:

It is our pleasure to transmit to you the Comprehensive Annual Financial Report (CAFR) of the State of Arizona for the fiscal year ended June 30, 2004. Responsibility for the accuracy of data, completeness and fairness of presentation, including all disclosures, rests with the State's management. The data presented in this report, to the best of our knowledge and belief, is accurate in all material respects and is reported in a manner which fairly presents the financial position and results of operations of the major and non-major funds of the State. All disclosures needed for the reader to gain a reasonable understanding of the State's financial activities have been included.

The report is presented in three sections: Introductory, Financial, and Statistical.

The **Introductory Section** includes this Letter of Transmittal, the State's organizational chart and a list of principal State officials.

The **Financial Section** includes the State Auditor General's Independent Auditors' Report, Management's Discussion and Analysis (MD&A) and the basic financial statements (which include the government-wide financial statements, the fund financial statements and the notes to the financial statements). The financial section also includes Required Supplementary Information (RSI), which includes budgetary comparison schedules, infrastructure condition and maintenance data, and agent retirement plans' funding progress. In addition, the financial section includes other supplemental financial data, which includes combining financial statements.

The **Statistical Section** includes selected financial, economic, and demographic data.

U.S. generally accepted accounting principles require that management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The State's MD&A can be found immediately following the Independent Auditors' Report.

FINANCIAL REPORTING ENTITY

The accompanying CAFR includes all funds of the State of Arizona (primary government), as well as its component units. In fiscal year 2004, the State implemented the Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, an amendment to GASB Statement No. 14, *The Financial Reporting Entity*. Statement No. 39 provides additional guidance in determining whether certain organizations for which the primary government is not financially accountable should be reported as component units, based on the nature and significance of their relationship with the primary government. Based on this guidance, the State has added component units affiliated with Universities (i.e., foundations and financing authorities) that prepare financial statements in conformity with U.S. generally accepted accounting principles as adopted by the Financial Accounting Standards Board (FASB).

Discretely presented component units are shown separately to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of the primary government. Discretely presented component units prepared in accordance with GASB standards are reported in a separate column in the government-wide financial statements. Discretely presented component units prepared in accordance with FASB standards are presented as separate financial statements immediately following the government-wide financial statements to emphasize that they are prepared in accordance with accounting standards other than those promulgated by GASB.

The criteria for inclusion in the reporting entity and presentation are defined by the Codification of Governmental Accounting and Financial Reporting Standards, issued by the Governmental Accounting Standards Board, (Section 2100). Note 1 of the Notes to the Financial Statements explains which component units are included in the Financial Reporting Entity of the State.

ECONOMIC CONDITION AND OUTLOOK

The following economic summary is excerpted from the Arizona Department of Economic Security's Arizona's Workforce, September 2, 2004.

Arizona's Department of Economic Security, Research Administration's forecast update calls for Arizona's economy to continue expanding through the forecast period of 2004-05. Essentially unchanged from the original forecast, Arizona's non-farm jobs are forecast to grow by 2.4% in 2004 and 3.0% in 2005. Over the two-year period, non-farm job growth is forecast to total more than 125,000.

Meanwhile, the national economy is forecast to show continued improvement during the 2004-05 period. According to Global Insight, non-farm jobs at the national level are forecast to grow at annual rates of 1.0% in 2004 and 1.7% in 2005.

During the forecast period, some issues will continue to capture attention and restrain the growth of the economy. Slower expansion is the result of, first, higher-than-anticipated energy costs that have eroded consumer purchasing power and elevated business costs. Second, firms have been reluctant to hire new workers because of the continued upward spiral of health care costs and advances in productivity. Third, real growth in wages has been slow because of weak hiring that has maintained slack labor markets.

While the overall economy in Arizona is expected to grow at essentially the same pace as forecasted in April, some industries are projected to expand at a more rapid rate. Construction has the largest upward revision with a projected increase of more than 28,000 jobs over the forecast period as compared to an original increase of 9,000 jobs. A rising population level, coupled with affordable housing and low interest rates, has provided a stronger-than-expected stimulus to construction job growth.

Educational and health services are also forecast to have slightly larger job gains with a projected increase of more than 29,000 jobs over the forecast period. Growth in Arizona's communities is driving the employment increases in this industry.

Natural resources and mining is now projected to have fewer job reductions, a loss of only 100 jobs, with the revised forecast. Gradual improvements in global demand for industrial materials and rising energy costs have increased the need to use local sources of raw materials.

However, the forecast update has decreased the rate of employment growth for most other industries in the State. Job losses deepened in manufacturing to a total decrease of 4,500 jobs over the two-year period while only 600 jobs were lost in the earlier forecast.

Trade, transportation and utilities are projected to gain more than 19,000 jobs. Higher energy prices and stagnant wages have limited the ability of consumers to increase their spending. Rising consumer spending would have generated greater levels of demand required to have higher rates of job growth in this industry group.

Projected losses in information technology have increased to a total of more than 3,300 jobs. The original forecast had a recovery beginning in 2005. However, revised projections have losses in both years. The factors of outsourcing, overcapacity and enhanced productivity are expected to continue limiting job growth in this industry.

Financial activities is forecast to have fewer jobs created as a result of a slower pace of expansion in the overall economy. Some of the fast-growing sectors related to mortgage financing and real estate are expected to have more consolidation over this period.

Professional and business services are projected to add more than 23,000 jobs. The attempt of firms to control rising costs with the outsourcing of many functions, especially labor, is expected to create new jobs in this industry group.

Job gains in leisure and hospitality are expected to number more than 10,000 according to the forecast update. Despite stretched budgets, consumers and businesses are still expected to spend on travel, dining-out and recreation. Improvement in this tourism-related industry is anticipated in Arizona as the economies of other states continue to expand.

Employment growth in other services is projected to increase by more than 3,600 jobs.

Government is forecast to gain more than 13,000 jobs as a result of an increasing population creating greater demand for public services such as education, police and fire.

In conclusion, Arizona's economy has been adding jobs for nearly two years at a rate that ranks it among the top ten states in the nation, in terms of annual percentage growth. While the nation has shown six consecutive months of over-the-year increases, not all states have yet realized job creation. For those states now adding jobs, the pace of recovery has been slow. Research Administration is convinced that Arizona's economy will continue on a path of modest growth that will accelerate well into 2005.

MAJOR INITIATIVES

When Governor Napolitano took office in January 2003, the State was facing an unprecedented fiscal crisis. The FY2004 deficit was projected to be \$1 billion, or 14% of projected expenditures. Arizona, like most other states, was experiencing dramatic revenue shortfalls, and projected 2.3% negative revenue growth in FY2003, after experiencing an 11.1% decline from FY2001 to FY2002. Of further concern, was that there was no unified voice among economists on a future fiscal recovery. Under these circumstances, Governor Napolitano immediately began the task of developing a plan to address the projected deficit. The Governor's approach was a multi-faceted one that examined all the key drivers of the State's budget. In addition, she established key principles that she deemed essential to the State's most vulnerable citizens and necessary for the State's prosperity when the inevitable economic recovery began. Outlined below are the actions taken and the principles specified by the Governor as the solution to the FY2004 deficit was developed:

- Preserve the core functions of State government and continue the commitment to excellence in the quality of essential services and the manner in which they are provided.
- Apply spending reductions with specificity, agency by agency, program by program. The FY2004 Executive Budget only considered specific operating budget reductions, not across-the-board cuts.
- Programs and services that directly benefit children – including, but not limited to K-12 education – are immune to spending reductions. A degradation of services to children would only give rise to future societal burdens that will confound future planning.
- Universities and community colleges are crucial to economic development – a key ingredient to fiscal health – and are protected from spending cuts.
- Make appropriate use of accepted cost-shifting methods to address immediate needs until the current fiscal crisis has passed.
- Take full advantage of federal funds available to the State.

SERVICES PROVIDED BY THE STATE

The services provided by the State are administered through various agencies, departments, boards, commissions and institutions of higher learning. These services include: (1) General Government, (2) Health and Welfare, (3) Inspection and Regulation, (4) Education, (5) Protection and Safety, (6) Transportation and (7) Natural Resources.

GENERAL FUND BALANCE

Graph 1 details the General Fund revenues and expenditures for the last five fiscal years. This graph does not include transfer amounts relating to other fund types and other financing sources (uses), which affect the ending fund balance.

Graph 1

General Fund Revenues and Expenditures
for last 5 fiscal years
(Dollars in billions)

The General Fund ended the June 30, 2004, fiscal year with \$561.0 million in unreserved fund balance and a \$185.6 million reserved fund balance for a total fund balance of \$746.6 million. This compares to the previous year's total fund balance of \$546.4 million. Included in the \$185.6 million reserved fund balance is \$13.5 million for the Budget Stabilization Fund. The Budget Stabilization Fund is a form of "Rainy Day Fund" established by the Legislature in 1991.

Graph 2 details the General Fund Balance for the last five fiscal years:

Graph 2

General Fund Balance for last 5 fiscal years
(Dollars in millions)

BUDGETARY CONTROLS

Budgetary control is maintained through legislative appropriation and the executive branch allotment process. The Governor is required to submit an annual budget to the Legislature. The budget is legally required to be adopted through passage of appropriation bills by the Legislature and approval by the Governor. The appropriated funds are controlled by the executive branch through an allotment process. This process allocates the appropriation into quarterly allotments by legal appropriation level. The State also maintains an encumbrance accounting system to further enhance budgetary control. Encumbered amounts generally lapse as of the end of the fiscal year, with the exception of capital outlay items. Capital outlay appropriations and their encumbrances continue from year to year. The State's budgetary policies are explained in detail in the Required Supplementary Information (RSI).

INTERNAL CONTROLS

The State is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the State are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with U.S. generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. In the opinion of management, the State's internal controls are adequate to provide reasonable assurance that these objectives are met.

CASH MANAGEMENT

The responsibility for cash management of the State is shared by the Office of the Treasurer (Treasurer) and the General Accounting Office of the Department of Administration, Financial Services Division (GAO). The Treasurer is responsible for the depository, custodial and investment functions of cash. The GAO is responsible for drawing down monies available for State functions and the expenditure or disbursement of those monies.

The State requires that Treasurer's deposits and investments with financial institutions be entirely covered by Federal depository insurance or alternatively collateralized with surety equal to 102% of the deposit or investment. Component units may have collateralization policies that differ from those of the Treasurer.

The Legislature has passed statutes authorizing State investments. Note 2.A. in the Notes to the Financial Statements describes these investments.

The Treasurer deposits receipts in accordance with applicable statutes and invests excess cash of the General Fund and various other funds. All interest, not otherwise apportioned by law, is deposited in the General Fund. Investment earnings for the General Fund totaled \$9.5 million for the fiscal year ended June 30, 2004.

PROPRIETARY OPERATIONS

The State's Enterprise Funds are comprised of governmental and quasi-governmental agencies that provide goods and services to the public on a fee for service basis. One of the largest Enterprise Funds is the Lottery Fund. The Lottery Fund generated \$366.7 million of operating revenues and \$63.0 million of income before contributions and transfers for fiscal year 2004. The Enterprise Funds ended fiscal year 2004 with total ending net assets of \$2.507 billion for the Primary Government.

The State has Internal Service Funds, which provide a variety of services to State agencies. These include risk management, computer services, telecommunications, transportation services, and employee benefits. The operating revenues for the Internal Service Funds were \$622.0 million for fiscal year 2004.

FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations and other governments, including the four State Retirement Systems. See Note 5. in the Notes to the Financial Statements for more information on the four State Retirement Systems. The fiduciary activities are not included on the government-wide financial statements because the resources of these funds are not available to support the State's own programs.

RISK MANAGEMENT

The State purchases property and liability coverage whenever available on reasonable terms. The State is insured by a property insurer for claims in excess of \$3.5 million, but less than \$450 million, and liability claims in excess of \$2 million for the Universities and \$7 million for all other state agencies, but less than \$107 million. The State also maintains first dollar aircraft coverage up to \$200 million. Other purchased coverages include fidelity, foreign liability, medical malpractice (limited to the University of Arizona's medical professional staff), and employment practices. The State's self-insurance fund provides property and liability coverage for claims less than or in excess of this coverage, or whenever coverage, such as workers' compensation and medical malpractice for non-University of Arizona professional staff, is unavailable on reasonable terms.

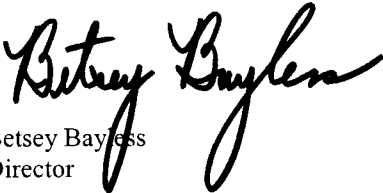

The State pays self-insurance losses, defense costs, premiums and administrative costs from an appropriated fund which all of the State's agencies participate in. Total costs (excluding the cost of administering the program) have risen from approximately \$15.3 million in fiscal year 1988 to approximately \$71.6 million in fiscal year 2004. Yearly appropriations have also increased from approximately \$27.7 million in fiscal year 1988 to approximately \$88.6 million in fiscal year 2004 to meet rising losses and claims-related expenses. Although there are no assurances, historically the Legislature has appropriated sufficient funds to cover all costs.

INDEPENDENT AUDIT

In compliance with State statute, an annual financial audit of the "State Entity" is completed each year by the State of Arizona, Office of the Auditor General in conjunction with other audit firms. Their audit was conducted in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Their report on the basic financial statements has been included in the financial section of this report. In addition, ARS §41-1279.03 requires at least a biennial single audit by the Office of the Auditor General. The Single Audit will be issued as a separate report at a later date.

ACKNOWLEDGMENTS

We wish to express our sincere appreciation to the many individuals whose dedicated efforts have made this report possible. The preparation of this report could not have been accomplished without the professionalism and dedication demonstrated by the financial and management personnel of each State agency, board, commission, institution of higher education and all other organizations within the reporting entity.

We have audited the accompanying financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of and for the year ended June 30, 2004, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain departments and the component units, which account for the following percentages of the assets and revenues of the opinion units affected:

Opinion Unit/Department	Assets	Revenues
<u>Government-wide Statements</u>		
Governmental activities:		
Arizona Health Care Cost Containment System	2.02%	16.75%
Department of Transportation	69.00%	15.74%
Business-type activities:		
Lottery Department	1.16%	11.76%
Arizona Health Care Cost Containment System	.17%	1.08%
Department of Transportation	4.77%	.46%
Aggregate discretely presented component units:		
Component Units	100.00%	100.00%
Universities— affiliated Component Units	100.00%	100.00%

Opinion Unit/Department	Assets	Revenues
<u>Fund Statements</u>		
General Fund:		
Arizona Health Care Cost Containment System	10.33%	20.32%
Transportation and Aviation Planning, Highway Maintenance and Safety Fund:		
Department of Transportation	100.00%	100.00%
Lottery Fund:		
Lottery Department	100.00%	100.00%
Aggregate Remaining Fund Information:		
Arizona Health Care Cost Containment System	.09%	2.44%
Department of Transportation	0.96%	11.34%
Arizona State Retirement System	66.45%	52.06%
Public Safety Personnel Retirement System	12.85%	8.92%
Corrections Officer Retirement Plan	2.16%	1.73%
Elected Officials' Retirement Plan	.87%	.63%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for those entities, is based solely on the reports of the other auditors.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the discretely presented component units, except for the Water Infrastructure Finance Authority, and the fiduciary fund financial statements of the Public Safety Personnel Retirement System, Corrections Officer Retirement Plan, and Elected Officials' Retirement Plan, were not audited by the other auditors in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of June 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Note 8, the State's Arizona State University increased its capitalization threshold for equipment, works of art, and historical treasures, which represents a change in the application of an accounting principle. Also described in Notes 1 and 8, respectively, the State implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 39, *Determining Whether Certain Organizations Are Component Units* and GASB Technical Bulletin No. 2004-1, *Tobacco Settlement Recognition and Financial Reporting Entity Issues* for the year ended June 30, 2004. GASB Statement No.

39 requires reporting as a component unit those organizations that raise and hold economic resources for the direct benefit of the State or its constituents. GASB Technical Bulletin No. 2004-1 prescribes when to recognize revenues and related receivables for tobacco settlements. Also, as described in Note 16, beginning in fiscal year 2004, the State Compensation Fund, that was previously reported in the State's basic financial statements as a discretely presented component unit is no longer financially accountable to the State, and therefore, is not reported in the State's basic financial statements. This change constitutes a change in the State's reporting entity.

The Management's Discussion and Analysis on pages 21 through 33, the Budgetary Comparison Schedules on pages 125 through 144, the Infrastructure Assets information on pages 145 through 149, and the Agent Retirement Plans' Funding Progress on page 150 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we and the other auditors, did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The introductory section, combining and individual fund statements, and schedules, and statistical section listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we will also issue our report on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Debbie Davenport
Auditor General

MANAGEMENT'S
DISCUSSION
AND
ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the State of Arizona's (the State's) financial performance, providing an overview of the activities for the fiscal year ended June 30, 2004. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section. The completeness and fairness of the following information is the responsibility of the State's officials and management.

FINANCIAL HIGHLIGHTS

Government-Wide:

- The assets of the State exceeded liabilities at the close of the fiscal year by \$15.2 billion (reported as *net assets*). Of this amount, a \$496 million deficit for (*unrestricted net assets*) exists at fiscal year end, \$3.3 billion is restricted for specific purposes (*restricted net assets*), and \$12.4 billion is invested in capital assets, net of related debt.
- The State's total net assets increased in fiscal year 2004 by \$473 million. Net assets of governmental activities increased by \$680 million, while net assets of the business-type activities decreased by \$207 million.

Fund Level:

- As of the close of the fiscal year, the State's governmental funds reported combined ending fund balances of \$3.1 billion, an increase of \$443 million from the beginning of the year. Approximately 33% of the combined fund balances, \$1.0 billion is available to meet the State's current and future needs (*unreserved fund balance*).
- As of the close of the fiscal year, unreserved fund balance for the General Fund was \$561 million, or 4%, of total General Fund expenditures.
- The enterprise funds reported net assets at year-end of \$2.5 billion, a decrease of \$205 million during the year.
- The Land Endowments Fund reported fund balance at year-end of \$1.4 billion, an increase of \$238 million during the year. The Land Endowments Fund is used to help finance public education within the State as required by the federal government and the State's Constitution.

Long-term Debt:

- The State's total long-term primary government debt rose during the fiscal year to \$5.2 billion, an increase of \$1.0 billion (or 23%). During the year, the State issued revenue bonds and certificates of participation of \$689 million and \$550 million, respectively. More detailed information regarding the government-wide financial statements, fund level financial statements and long-term debt activity can be found beginning on **page 23**.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. Required Supplementary Information and other supplementary information are included in addition to the basic financial statements.

Government-Wide Statements (Reporting the State as a Whole)

The government-wide financial statements provide a broad overview of the State of Arizona's finances in a manner similar to private sector business. The financial statements report information about the State, as a whole, and about its activities that should help answer this question: Is the State, as a whole, better or worse off as a result of this year's activities? These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid. The government-wide financial statements include the following statements:

The Statement of Net Assets and the Statement of Financial Position (pages 38-40) presents all of the State's assets and liabilities, with the difference between the two reported as "net assets". Over time, increases and decreases in net assets measure whether the State's financial position is improving or deteriorating.

The Statement of Activities (pages 42-44) presents information showing how the State's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying events giving rise to the change

occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide statements report three activities:

- *Governmental Activities* – Most of the State’s basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary and the general operations of the Executive departments fall within the governmental activities.
- *Business-type Activities* – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Lottery tickets, the State’s unemployment compensation services, Industrial Commission rehabilitation services, and the State’s three universities are examples of business-type activities.
- *Discretely Presented Component Units* – Component units are legally separate organizations for which the elected officials of the State are financially accountable. The University Medical Center, the Arizona Power Authority, and the Water Infrastructure Finance Authority are discretely presented component units reported by the State. Additionally, in fiscal year 2004, the State implemented the GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, an amendment to GASB Statement No. 14, *The Financial Reporting Entity*. Statement 39 provides additional guidance in determining whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government. Based on this guidance, the State has added university foundations and financing authorities whose financial statements are prepared in conformity with U.S. generally accepted accounting principles as adopted by the Financial Accounting Standards Board. These organizations include the ASU Foundation, the U of A Foundation, and other non-major foundations and financing authorities. Financial statements for these organizations are presented immediately following the government-wide statements to emphasize that they are prepared in accordance with accounting standards other than those promulgated by GASB, and include a statement of financial position (**page 40**) and a statement of activities (**page 44**). See **pages 63-65 and 107-121** for more information on discretely presented component units.

Fund Financial Statements (Reporting the State’s Major Funds)

The fund financial statements begin on **page 45** and provide detailed information about the major individual funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. In addition to the major funds, **page 154** begins the individual fund data for the non-major funds. The State’s funds are divided into three categories – governmental, proprietary, and fiduciary – each category uses different accounting approaches.

- *Governmental funds* – Most of the State’s basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of the State’s general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the State’s programs. These funds are reported using *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. This report includes two schedules (**pages 46 and 48**) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) reported on the appropriate government-wide statement.

Governmental fund financial statements can be found on pages 45 and 47 of this report.

- *Proprietary funds* – When the State charges customers for the services it provides, whether to outside customers or to other agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting; the same method used by private sector businesses. Enterprise funds report activities that provide supplies and services to the general public – such as the State Lottery Fund and Universities. Internal service funds report activities that provide supplies and services for the State’s other programs and activities – such as the State’s Risk Management Fund. Internal service fund operations primarily benefit governmental funds and are reported as governmental activities on the government-wide statements. The reconciliation between the government-wide financial statement business-type activities and the proprietary fund financial statements is presented at the end of the financial statements on **pages 52-55**.

Proprietary fund financial statements can be found on pages 50-59 of this report.

- *Fiduciary funds* – The State acts as a trustee or fiduciary for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State’s fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets beginning on **page 60**. These funds, which include pension, investment trust and agency funds are reported using accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

Fiduciary fund financial statements can be found on pages 60-61 of this report.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes can be found beginning on page 62 of this report.

Required Supplementary Information

Following the basic financial statements is additional Required Supplementary Information that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparison schedules for the general fund and each major special revenue fund and a reconciliation of the schedules of statutory and U.S. generally accepted accounting principles (GAAP) expenditures for the fiscal year. This section also includes schedules of condition and maintenance data regarding certain portions of the State’s infrastructure and agent retirement plans’ funding progress schedules.

Required supplementary information begins on page 125 of this report.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, all internal service funds, and all fiduciary funds. These funds are added together, by fund type, and presented in single columns in the basic financial statements, but are not reported individually, as with major funds on the governmental funds and proprietary funds financial statements. Budgetary expenditure comparison schedules for the non-major governmental funds are also included.

Other supplementary information begins on page 154 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The State’s overall financial position and operations for the past year for the primary government are summarized as follows based on the information included in the government-wide financial statements. The fiscal year 2003 governmental activities net assets amount has been restated for the GASB Technical Bulletin No. 2004-1, *Tobacco Settlement Recognition and Financial Reporting Entity Issues*. The fiscal year 2003 business-type activities net assets amount has been restated due to increasing the capitalization threshold for capital assets of one of the Universities.

These changes have not been audited and are provided to the reader for comparative purposes. See Note 4, capital assets, on **page 81** and Note 8, accounting changes and restatements, on **page 100** for additional restatement information.

State of Arizona-Primary Government

Total net assets	<u>\$ 12,693,473</u>	<u>\$ 12,013,573</u>	<u>\$ 2,504,599</u>	<u>\$ 2,711,678</u>	<u>\$ 15,198,072</u>	<u>\$ 14,725,251</u>

The largest portion of the State's net assets (82%) represents *capital assets, net of related debt* of \$12.4 billion. The State uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the State's investment in its capital assets is reported net of accumulated depreciation and related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The State's net assets also include \$3.3 billion (22%) of resources that are subject to external restrictions on how they may be used. The largest restrictions are by the federal government and State constitution for basic education funded by the Land Endowment Earnings of the Permanent Funds and unemployment insurance premiums from employers for funding the Unemployment Compensation Fund. Another major restriction is unspent debt instrument proceeds for the construction of additional capital assets.

The remaining negative balance of the State's net assets of \$496 million (approximately 4%) represents *unrestricted net assets*, including restatements of beginning net assets.

The State's net assets increased by \$473 million during the current fiscal year. This increase is primarily caused by governmental activities increases for sales taxes, income taxes, capital assets, earnings on investments and trust land sales. Governmental Activities net asset increases were reduced by Business-type Activities reductions for the Unemployment Compensation Fund and the Industrial Commission Special Fund.

Change in Net Assets

Governmental Activities – Net assets increased by \$680 million, or 6%. This increase is primarily attributed to the increases in earned general tax revenues. Reported sales tax and income tax revenue increased by \$465 million, or 10%, and \$429 million, or 18%, as compared to fiscal year 2003, respectively. Several key elements have led to this increase. The State has ranked in the top ten nationally in terms of annual percentage job growth for nearly two years as reported by Arizona’s Department of Economic Security, Research Administration. As a result, personal income growth has improved and consumer spending confidence is up. Furthermore, population inflows have continued to outpace outflows, fueling the expanding economy. Additionally, the State has improved its efforts in tax enforcement and exceeded its fiscal year 2003 collections by \$137 million. Another significant contributor to the net asset increase was record auction sales of \$320 million in State trust land, a \$182 million increase as compared to fiscal year 2003. Intense and competitive bidding in these auctions raised total sales prices approximately \$167 million above the appraised value of the land. Net asset increases were reduced by increases in long-term debt. The School Facilities Board issued revenue bonds in the amount of \$247 million and certificates of participation in the approximate amount of \$242 million. The debt instruments are being issued to construct or repair K through 12 schools throughout the State. Although the debt instruments are obligations of the State, the constructed and improved schools are the capital assets of the school districts, which are separate and sovereign governmental entities. For each dollar of debt proceeds expended on construction and repair of schools, the State’s governmental activities net assets are reduced by one dollar. A comparison of the cost of services by function, net of program revenues, for the State’s governmental activities is shown below for fiscal years 2004 and 2003.

	2004 Governmental Activities (expressed in thousands)	2003, as restated, Governmental Activities (expressed in thousands)
Expenses, Net of Program Revenues:		
General government	\$ (415,740)	\$ (452,184)

**Expenses and Program Revenues
Governmental Activities for Fiscal Year 2004
(in millions of dollars)**

Business-type Activities – The net assets decreased by \$207 million, or 8%. The net assets reduction is primarily caused by the net losses of the Unemployment Compensation Fund and the Industrial Commission Special Fund of \$97 million and \$138 million, respectively. The Unemployment Compensation Fund’s fiscal year 2003 net loss amount was \$162 million. The declining rate of loss for the Unemployment Compensation Fund was primarily caused by an increase in employer assessments of \$34 million and a decrease in unemployment claims of \$58 million. The Industrial Commission’s net assets decreased \$138 million primarily due to workers’ compensation insurance carriers becoming insolvent during the year. The increase in insolvent insurers primarily increased the Industrial Commission’s expenses and long-term liabilities. As allowed by Title 23 of the Arizona Revised Statutes, the Industrial Commission has assessed the State Compensation Fund, privately owned insurance companies, and all self-insured plans that provide workers’ compensation insurance a two and one-half percent premium assessment for calendar year 2005, the largest amount currently authorized in Arizona law. The Industrial Commission had imposed no premium revenue assessments since calendar year 1992. For fiscal years 2005, 2006 and 2007 the Industrial Commission is projecting receipt of \$57 million from liquidated assets of insolvent carriers. A comparison of the cost of services by business-type, net of program revenues, for the State’s business-type activities is shown below for fiscal years 2003 and 2004.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

The State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The general government functions are contained in the General, Special Revenue, Debt Service, Capital Projects and Permanent Funds. The focus of the State's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the State's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

General Fund

The General Fund is the chief operating fund of the State. At June 30, 2004, unreserved fund balance of the General Fund was \$561 million, while total fund balance closed the year at \$747 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures and other financing uses. Unreserved fund balance represents 4% of total expenditures and other financing uses, while total fund balance represents 5% of the same amount.

The fund balance of the State's General Fund increased by \$200 million during the fiscal year. The primary source of the increase in fund balance is from the increase of sales tax and income tax revenues. Sales tax revenues increased approximately \$370 million from fiscal year 2003, an increase of approximately 10%. Sales taxes paid by retail stores, construction contractors, restaurants and bars and utility companies increased approximately \$150 million, \$80 million, \$27 million and \$24 million, respectively, when compared to fiscal year 2003 sales tax receipts. Receipts for the sales tax "amnesty" program not collected in fiscal year 2003 totaled approximately \$14 million. Income tax revenues increased approximately \$431 million, an increase of approximately 18%. Income taxes paid by individuals increased by approximately \$212 million when compared to fiscal year 2003 individual income tax receipts. Income taxes paid by businesses increased approximately \$136 million. Receipts for individual and business income tax "amnesty" programs not collected in fiscal year 2003 totaled approximately \$57 million.

Intergovernmental revenue and health and welfare expenditures increased by \$1.1 billion, or 20%, and \$1.1 billion, or 18%, as compared to fiscal year 2003, respectively. These increases are primarily due to the rising cost of health care programs for the State's indigent population, including Title XIX Medicaid and the Title XXI State Children's Health Insurance Program. Inflationary trends for health care costs are incorporated in the rate development process for the managed care organization capitation rates. Due to substantial increases in utilization and costs for pharmacy, outpatient/ER and inpatient, the capitation rates were increased by an average of 13% for the contract period of October 2003 to September 2004. The inflation rate is indicative of medical inflation including the rising cost of pharmaceuticals. The State received additional federal grants and county funding to cover a portion of these increased costs.

Transportation and Aviation Planning, Highway Maintenance and Safety Fund

The Transportation and Aviation Planning, Highway Maintenance and Safety Fund is responsible for repair and maintenance of existing roads, paying the debt service for roads that are built from the issuing of revenue bonds, and providing technical assistance with road construction provided by contractors hired by the Arizona Department of Transportation. Total fund balance increased approximately \$52 million during fiscal year 2004. The fund balance increase was primarily caused by a \$20 million increase in sales taxes, a \$90 million increase in motor vehicle and fuel taxes and a \$27 million decrease in intergovernmental revenues. The fiscal year 2004 collections for both sales taxes and motor vehicle and fuel taxes recorded the highest year-over-year growth since fiscal year 1999 due mainly to the improved state and national economies and population growth. The sales tax growth was primarily attributable to a significant increase in registered vehicles (236 thousand) over fiscal year 2003. The motor vehicle and fuel tax growth was primarily attributable to the increase in population, which tends to follow job growth.

Land Endowments Fund

The fund was established when the federal government granted statehood. Both the State constitution and the federal government require that the land grants given to the State be maintained indefinitely, and the earnings from the land grants should be used for public education, primarily K through 12 grades. The Land Endowments Fund total fund

balance increased \$238 million during fiscal year 2004. Unrealized valuation increases for investments at fiscal year end, compared to the initial investment purchase price, were approximately \$102 million. This increase was primarily due to the rise in stock values of the S&P 500 and the S&P Mid Cap 400 Index Pools held by the State. Payments from the sale of trust land by the Land Department increased by approximately \$61 million, from \$88 million during fiscal year 2003 to \$149 million during fiscal year 2004. This increase is primarily the result of land contract payoffs that occurred for sales in prior fiscal years.

Proprietary funds

The business-type activities discussion for the fund level financial statements of the State's enterprise funds provide the same type of information found in the government-wide financial statements analysis on **page 27**.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, the original budget was amended by various supplemental appropriations and appropriation revisions. Budgetary Comparison Schedules for the major governmental funds are in the Required Supplementary Information section beginning on **page 125**. Differences between the original budget and the final amended budget resulted in a \$281 million increase in appropriations for the General Fund. The following comments summarize current year budgetary results:

- The General Fund appropriations increase of \$281 million is comprised primarily of 1) \$119 million of prior year obligations that are expended in the current year as allowed by §ARS 35-191; 2) \$69 million for the Department of Economic Security appropriations; 3) \$43 million for the Department of Education appropriations; 4) \$21 million for the Arizona Health Care Cost Containment System appropriations; 5) \$7 million for the Department of Health Services appropriations; and 6) a net original budget increase of \$22 million for all remaining general fund agencies. The original General Fund appropriation total was \$10.8 billion. The final General Fund appropriation total was \$11.1 billion. No State agency's budget was either increased or decreased a significant amount.
- The difference between the final budget and actual expenditures was approximately \$311 million. Of this amount, approximately \$75 million will continue as legislative multiple fiscal year spending authority for fiscal year 2005 and beyond depending upon the budgetary guidelines of the Legislature. The remaining \$236 million represents the unused portion of the State's legislatively authorized annual operating budget.

Additional budgetary information can be found on pages 143-144 of this report.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2004 totaled \$15.8 billion, net of accumulated depreciation. The total primary government increase in capital assets for the current period was 6%, with a 5% increase in capital assets used for governmental activities and a 10% increase for business-type activities. Depreciation charges of the governmental and business-type activities for the fiscal year totaled \$236 million.

Major capital assets activity during the current fiscal year included the following:

- The universities' additions to capital assets totaled approximately \$378 million.
- The Department of Transportation started or completed roads and bridges totaling \$2.0 billion during the fiscal year.

For government-wide financial statement presentation, all depreciable assets, except infrastructure using the modified approach, were depreciated from acquisition date to the end of the current fiscal year. Governmental fund financial statements record capital asset purchases as expenditures.

Capital assets for the governmental and business-type activities as of June 30, 2004 are presented below (amounts in thousands):

	Governmental Activities		Business-type Activities		Total	
	2004	2003	2004	2003, as restated	2004	2003, as restated
Land	\$ 1,958,827	\$ 1,938,169	\$ 135,715	\$ 135,095	\$ 2,094,542	\$ 2,073,264
Buildings	1,488,193	1,196,997	2,488,685	2,232,616	3,976,878	3,429,613

Less accumulated depreciation	(888,289)	(834,350)	(1,748,158)	(1,638,490)	(2,636,447)	(2,472,840)
Total	<u>\$ 13,389,970</u>	<u>\$ 12,771,929</u>	<u>\$ 2,379,915</u>	<u>\$ 2,161,439</u>	<u>\$ 15,769,885</u>	<u>\$ 14,933,368</u>

See Note 4, capital assets, beginning on **page 81** for additional capital asset data and Note 8, accounting changes and restatements, on **page 100** for information concerning Arizona State University raising its capitalization threshold to \$5,000 for equipment and collections.

As provided by GASB 34, the State has elected to record its infrastructure assets using the modified approach. Assets accounted for under the modified approach include approximately 6,912 centerline miles (18,391 travel lane miles) and 4,488 bridges (deck area of 41.2 million square feet) that the Department of Transportation (Department) is responsible for maintaining.

The Department manages its roads using the Present Serviceability Rating (PSR), which measures the condition of the pavement and its ability to serve the traveling public. The PSR uses a five-point scale (5 excellent, 0 poor) to characterize the condition of the roadway. The Department's serviceability rating goal is 3.23 for the overall system. The most recent assessment indicated that an overall rating of 3.8 was achieved for fiscal year end 2004.

The Department manages its bridges using the Arizona Bridge Information and Storage System (ABISS). The Department determines the condition rating based on standards developed by the Federal Highway Administration and additional internal criteria. It is the policy of the State to maintain a Condition Rating Index (CRI) of 92.5% or better. In fiscal year 2004, a CRI of 93.8% was obtained.

In addition to many smaller projects, each of the following major highway construction projects in excess of \$20 million were started during fiscal year 2004 (amounts in thousands):

<u>Project Description</u>	<u>Contract Start</u>	<u>Contract Amount</u>	<u>Current Year Expenditures</u>
Construction of new roadway on State Route Loop 202, from Elliot Road to Power Road in Maricopa County.	03/23/2004	\$ 54,114	\$ 7,445
Widening US 60 and constructing part of the State Route Loop 202 urban interchange, starting at Sossaman Road and ending west of Ellsworth Road in Maricopa County.	10/20/2003	\$ 40,952	\$ 31,462
Construction of new roadway on State Route Loop 202, from Elliot Road to Baseline Road in Maricopa County.	11/24/2003	\$ 39,463	\$ 18,703
Reconstruction of roadway to a 4 lane divided highway on the Burro Creek Section of US 93 in Mohave County.	12/23/2003	\$ 25,934	\$ 5,055
Construction of new roadway on State Route 188, from Resort Road to Devore Wash in Gila County.	09/05/2003	\$ 25,643	\$ 11,219
Construction of new roadway on State Route Loop 202, west of Higley Road to Power Road in Maricopa County.	01/20/2004	\$ 22,855	\$ 4,736

In addition to many smaller projects, the following major highway construction projects had expenditures in excess of \$15 million in fiscal year 2004:

<u>Project Description</u>	<u>Project Expenditures</u>
Construction of HOV lanes, roadway and drainage improvements on State Route 51, from Interstate 10 to Shea Boulevard in Maricopa County.	\$ 74,690
Construction of a bridge to by-pass the Hoover Dam on Interstate 93 in Mohave County.	\$ 50,041
Construction of new roadway at the interchange of State Route Loop 202 and Interstate 60 in Maricopa County.	\$ 36,479
Construction of new roadway on State Route Loop 202, from Gilbert Road to Higley Road in Maricopa County.	\$ 30,619
Construction of the roadway at the interchange of Interstate 10 and Interstate 19 in Pima County.	\$ 23,425
Construction of new roadway on State Route Loop 202, at Price Road in Maricopa County.	\$ 22,086
Construction of new roadway on State Route Loop 202, from Elliot Road to Baseline Road in Maricopa County.	\$ 20,470
Construction on Interstate 95 from McCulloch Boulevard to London Bridge Road in Mohave County.	\$ 19,194
Construction of new roadway on State Route Loop 202, from Dobson Road to Arizona Avenue in Maricopa County.	\$ 17,416
Construction of two overpasses on Grand Avenue (US 60): One at 43rd Ave. and Camelback Road and another at 51st Ave. and Bethany Home Rode in Maricopa County.	\$ 16,076
Construction on State Route 260 in Camp Verde area in Yavapai County.	\$ 15,166
Construction of new roadway on State Route Loop 202, from Price Road to Arizona Avenue in Maricopa County.	\$ 15,138

Capital assets financed by debt instruments do not generate funds to repay the debt instruments.

More detailed information regarding capital assets are on pages 81 and 82.

Long-term debt:

The State issues no general obligation debt instruments. The Arizona Constitution, under Article 9, Section 5, provides that the State may contract debts not to exceed \$350 thousand. This provision has been interpreted to restrict the State from pledging its credit as a sole payment for debts incurred for the operation of the State government. As a result, the State pledges either dedicated revenue streams or the constructed building or equipment acquired as security for the repayment of long-term debt instruments.

Major long-term debt activity during the current fiscal year included the following:

- The Department of Transportation issued revenue bonds for \$251 million to acquire land for future construction of controlled access roads, statewide road construction and early redemption of revenue bonds prior to maturity in the amount of approximately \$115 million. The School Facilities Board issued \$247 million of revenue bonds to do school repairs at K through 12 public schools throughout the State.
- The Universities issued revenue bonds for \$191 million (including refunding bonds of \$9.8 million) primarily to fund the acquisition, construction or renovation of capital facilities, and information technology and telecommunications upgrade projects.
- The Department of Transportation issued \$200 million of grant anticipation notes to (i) pay costs of the projects (as specified), (ii) pay costs of issuing the notes, (iii) pay interest on the notes, and (iv) refund the 2000A Series Notes in the aggregate principal amount of \$26.255 million.
- The School Facilities Board issued \$242 million of certificates of participation to acquire and construct leasehold interests in new schools. The schools will be subleased to county school districts. At no time during the construction and sublease of the schools will the leasehold improvements be reported as assets of the State government.
- Universities issued \$260 million of certificates of participation primarily for construction and building renewal projects and early redemption of certificates of participation prior to maturity.

ECONOMIC CONDITION AND OUTLOOK

Research Administration's forecast update calls for Arizona's economy to continue expanding through the forecast period of 2004-05. Essentially unchanged from the original forecast, Arizona's non-farm jobs are forecast to grow by 2.4% in 2004 and 3.0% in 2005. Over the two-year period, non-farm job growth is forecast to total more than 125,000. Meanwhile, the national economy is forecast to show continued improvement during the 2004-05 period. According to Global Insight, non-farm jobs at the national level are forecast to grow at annual rates of 1.0% in 2004 and 1.7% in 2005.

During the forecast period, some issues will continue to capture attention and restrain the growth of the economy. Slower expansion is the result of, first, higher-than-anticipated energy costs that have eroded consumer purchasing power and elevated business costs. Second, firms have been reluctant to hire new workers because of the continued upward spiral of health care costs and advances in productivity. Third, real growth in wages has been slow because of weak hiring that has maintained slack labor markets.

In conclusion, Arizona's economy has been adding jobs for nearly two years at a rate that ranks it among the top ten states in the nation, in terms of annual percentage growth. While the nation has shown six consecutive months of over-the-year increases, not all states have yet realized job creation. For those states now adding jobs, the pace of recovery has been slow. Research Administration is convinced that Arizona's economy will continue on a path of modest growth that will accelerate well into 2005.

CONTACTING THE STATE COMPTROLLER'S OFFICE

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Department of Administration, General Accounting Office, Financial Reporting Section at (602) 542-5405. You may also access and print this report at <http://www.gao.state.az.us/financials/>.

The State's component units issue their own separately issued audited financial statements. These statements may be obtained by directly contacting the component unit. Contact information regarding the component units begins on **page 63**.

STATE OF ARIZONA
**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
 TO THE STATEMENT OF NET ASSETS**
 JUNE 30, 2004
 (Expressed in Thousands)

Total fund balances - governmental funds \$ 3,119,895

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. 13,331,214

Long-term receivables are not available to pay for current period expenditures and, therefore, are deferred in the funds. 602,044

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. (140,808)

The allocation of internal service fund net loss results in an amount due from business-type activities, which is not reported in the funds. 2,614

Deferred issue costs are reported as current expenditures in the funds. However, deferred issue costs are amortized over the life of the bonds and are included in the governmental activities in the Statement of Net Assets. 5,078

Long-term debt is not due and payable from current financial resources and, therefore, is not reported in the funds. These amounts consist of:

Revenue bonds	(2,278,225)	
Premium on revenue bonds	(83,686)	
Grant anticipation notes	(308,585)	
Premium on grant anticipation notes	(9,623)	
Certificates of participation	(845,804)	
Premium on certificates of participation	(51,450)	
Capital leases	(125,974)	
Installment purchase contracts	<u>(4,602)</u>	(3,707,949)

Accrued liabilities for AHCCCS programmatic costs are not due and payable from current financial resources and, therefore, are not reported in the funds. (153,304)

Accrued long-term contract payable to Accenture is not due and payable from current financial resources and, therefore, is not reported in the funds. (39,550)

Other long-term liabilities are not due and payable from current financial resources and, therefore, are not reported in the funds. Those liabilities consist of:

Compensated absences	(135,064)	
Claims and judgments	<u>(304,446)</u>	(439,510)

Other long-term assets are not available to pay for current-period expenditures and, therefore, are not reported in the funds. Those assets consist of:

AHCCCS programmatic cost reimbursements	110,760	
Other long-term assets	<u>2,989</u>	113,749

Net assets of governmental activities \$ 12,693,473

The Notes to the Financial Statements are an integral part of this statement.

The Notes to the Financial Statements are an integral part of this statement.

STATE OF ARIZONA
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**
 GOVERNMENTAL FUNDS
 FOR THE YEAR ENDED JUNE 30, 2004
 (Expressed in Thousands)

Net change in fund balances - total governmental funds \$ 443,499

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlay	695,289	
Depreciation expense	<u>(76,670)</u>	618,619

The net loss of internal service funds that is included with governmental activities in the Statement of Activities. (6,940)

Some revenues reported in the Statement of Activities are not currently available at year-end and are not reported as revenue in the governmental funds.

Licenses, fees and permits	4,848	
Sales taxes	31,161	
Other revenue	<u>5,736</u>	41,745

Certain revenues that are reported as resources in the funds, but were earned in prior fiscal years, are not reported in the Statement of Activities.

Operating grants	(42,685)	
Income taxes	<u>(18,317)</u>	(61,002)

In the Statement of Activities, only the gain/loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increased financial resources. Thus, the change in net assets differs from the change in fund balance by the book value of the capital assets sold. (1,872)

In the Statement of Activities, the gain on the sale of trust land is reported, whereas in the governmental funds, the proceeds from the sale increased financial resources. 170,516

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Accrued contract payable	(39,550)	
Litigation	(1,300)	
Compensated absences	(2,452)	
Other noncurrent expenses	<u>(4,160)</u>	(47,462)

The Notes to the Financial Statements are an integral part of this statement. (Continued)

STATE OF ARIZONA
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**
 GOVERNMENTAL FUNDS
 FOR THE YEAR ENDED JUNE 30, 2004
 (Expressed in Thousands)

Certain expenditures that are reported in the funds in the current year, but were incurred in prior fiscal years, are not reported in the Statement of Activities.

AHCCCS accrued programmatic costs	36,344	
Ladewig vs. State of Arizona lawsuit	<u>5,761</u>	42,105

The estimated liability for the Ladewig vs. State of Arizona lawsuit, which was accrued at the government-wide level in fiscal year 2003, has been revised, in the State's favor, in fiscal year 2004. This accrual was not financed from current financial resources in fiscal year 2003 and, therefore, was not reported in the fund statements in fiscal year 2003.

41,907

Bond proceeds provide current financial resources to the governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Assets. In the current period, proceeds were received from:

New bonds issued	(389,746)	
Refunding bonds issued	(107,940)	
Premium on bonds issued	(22,024)	
Bond premium/discount amortization	8,043	
New certificates of participation issued	(273,735)	
Premium on COPs issued	(17,187)	
COP premium amortization	4,247	
Refunding certificates of participation issued	(16,725)	
Grant anticipation notes issued	(177,322)	
Refunding grant anticipation notes issued	(22,633)	
Premium on grant anticipation notes issued	<u>(9,623)</u>	(1,024,645)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces noncurrent liabilities in the Statement of Net Assets. In the current year, these amounts consist of:

Debt service principal	327,595	
Payment to refunded bond escrow agent	141,000	
Payment to refunded certificates of participation escrow agent	16,645	
Bond issuance costs	<u>2,539</u>	487,779

Some capital asset additions were financed through capital leases and installment purchase contracts. Such financing arrangements are reported as an other financing source in the governmental funds, however, these amounts are reported as liabilities in the Statement of Net Assets.

(24,349)

Change in net assets of governmental activities

\$ 679,900

The Notes to the Financial Statements are an integral part of this statement.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona (the State) conform to U.S. generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

The State of Arizona is a general purpose government. The accompanying financial statements present the activities of the State (the primary government) and its component units. Component Units' footnote disclosures are presented in Note 16. – *Summary of Significant Accounting Policies – Component Units.*

Component Units

Component units are legally separate entities for which the State is considered to be financially accountable, or organizations that raise and hold economic resources for the direct benefit of the State. Blended component units, although legally separate entities, are in substance part of a government's operations. Therefore, data from these units is combined with data of the primary government. The State has no blended component units. Discretely presented component units of the State, except for component units affiliated with the State's Universities, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the State. Because the component units affiliated with the Universities follow Financial Accounting Standards Board (FASB) statements, these financial statements have been reported on separate pages following the respective counterpart financial statements of the State. For financial reporting purposes, only the statement of financial position and the statement of activities for component units affiliated with the Universities are included in the State's financial statements as required by GASB.

During fiscal year 2004, the State of Arizona implemented GASB Statement No. 39 – *Determining Whether Certain Organizations Are Component Units*, an amendment to GASB Statement No. 14. GASB 39 provides additional guidance in determining whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government.

The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.

In addition, GASB 39 requires that legally separate, tax-exempt entities that meet *all* of the following criteria should be discretely presented as component units: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents, (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization, and (3) The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The State reports the following component units:

University Medical Center (UMC) – The UMC is the primary teaching hospital for the College of Medicine, College of Nursing, the College of Pharmacy, the College of Public Health, and the School of Health Related Professions of the University of Arizona. The UMC was created in 1984 when the State Legislature passed a bill that allowed the Arizona Board of Regents (ABOR) to convey the UMC to a private, not-for-profit, tax-exempt corporation. Although an autonomous entity was created, the teaching missions and research alliances with the University of Arizona and the State of Arizona remained. The ABOR confirms all members of the UMC's Board of Directors, and must approve all amendments to the UMC's articles of incorporation and bylaws. Complete financial statements may be obtained from the University Medical Center's administrative offices at 655 East River Road, Tucson, Arizona 85704, (520) 694-2700.

Arizona Power Authority (APA) – The APA purchases the State's allocation of power produced at the federally owned Boulder Canyon Project hydropower plant and resells it to Arizona entities that are eligible purchasers under federal and state laws. The APA is governed by a commission of five members appointed by the Governor and approved by the Senate. The term of office of each member is six years and the members select a chairman and vice-chairman from among their membership for a term of

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

two years. All revenue bonds issued by the APA must be approved by the State Certification Board. Complete financial statements may be obtained from the Arizona Power Authority's administrative offices at 1810 West Adams Street, Phoenix, Arizona 85007-2697, (602) 542-4263

Water Infrastructure Finance Authority (WIFA) – The WIFA is authorized to administer the Clean Water Revolving Fund. The Clean Water Revolving Fund was created pursuant to the Federal Water Pollution Control Act, which required the State to establish the Clean Water Revolving Fund to accept federal capitalization grants for publicly owned wastewater treatment projects. The WIFA has also entered into an agreement with the Environmental Protection Agency to administer the Drinking Water Revolving Fund pursuant to the Safe Drinking Water Act. The WIFA is governed by a twelve-member board of directors. The 10 Governor appointed directors serve staggered terms of five years and serve at the pleasure of the Governor. Complete financial statements may be obtained from the Water Infrastructure Finance Authority's administrative offices at 1100 West Washington, Suite 290, Phoenix, Arizona 85007, (602) 364-1310.

Component units of the State affiliated with the Universities are legally separate, tax-exempt organizations controlled by separate Boards of Directors that meet the criteria established in GASB Statement No. 39, with the exception of the Collegiate Golf Foundation and Campus Research Corporation. The Collegiate Golf Foundation is included because it is a legally separate organization that the State believes would be misleading to exclude due to its financial relationship to the State. The Campus Research Corporation (CRC) is included because the University of Arizona (U of A) appoints a majority of the board of directors and approves the budget; the U of A can thus impose its will on CRC.

The following component units affiliated with the Universities are reported as *major* component units of the State:

ASU Foundation – The Arizona State University Foundation's (ASU Foundation) resources are disbursed at the discretion of the Foundation's independent board of trustees, in accordance with donor directions and Foundation policy.

U of A Foundation - The U of A Foundation supports the U of A through various fund-raising activities and contributes funds to the U of A in support of various programs.

The following component units affiliated with the Universities are reported as *non-major* component units of the State:

ASU Alumni Association, Sun Angel Foundation, and Sun Angel Endowment - These three foundations receive funds primarily through donations and dues, and contribute funds to ASU for support of various programs.

Price-Elliott Research Park, Inc. - Price Elliott Research Park, Inc., is developing a research park to promote and support research activities in coordination with ASU.

Collegiate Golf Foundation - This foundation operates an ASU-owned golf course.

Arizona Capital Facilities Finance Corporation (ACFFC) and Mesa Student Housing, LLC. - These two foundations are providing facilities for either the use by students of ASU or ASU itself.

Southern Arizona Capital Facilities Finance Corporation (SACFFC) - SACFFC acquires, constructs, and operates student housing for the benefit of the U of A.

U of A Alumni Association - The U of A Alumni Association was established to serve the U of A and its graduates, former students, and friends by attracting, organizing and encouraging them to advance the U of A's missions - teaching, research, and public service.

Law College Association of the U of A (Law Association) - The Law Association was established to provide support and financial assistance to the College of Law at the U of A. The Law Association funds provide support to the College on many levels, from endowed student scholarships to named faculty professorships.

Campus Research Corporation (CRC) - The CRC was established to assist the U of A in the acquisition, improvement, and operation of the UA Science and Technology Park (Park) and related properties. CRC currently leases from the U of A the remaining 32% of building space of the Park not leased to the Arizona Research Park Authority. CRC is responsible for assisting in the development of the presently undeveloped portions of the Park and for subleasing unoccupied space, newly developed

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

space, and space now occupied by IBM or its subtenants once the current subleases expire. The U of A is responsible for payment of operational expenses associated with the space occupied by the U of A departments, offices, and programs.

Northern Arizona University Foundation, Inc. (NAU Foundation) - The NAU Foundation receives gifts and bequests, administers and invests securities and property, and disburses payments to and on behalf of NAU for advancement of its mission.

Northern Arizona Capital Facilities Finance Corporation (NACFFC) - The NACFFC was established for the purpose of acquiring, developing, constructing, maintaining and operating student housing and other capital facilities and equipment for the use and benefit of NAU's students.

Complete financial statements for each of the aforementioned component units, except for the U of A Foundation, may be obtained at the following addresses:

ASU Foundation, ASU Alumni Association, Sun Angel Foundation, Sun Angel Endowment, Price-Elliott Research Park, Inc., Collegiate Golf Foundation, Arizona Capital Facilities Finance Corporation (ACFFC), and Mesa Student Housing, LLC - Arizona State University, Financial Services, P.O. Box 875812, Tempe, Arizona 85287-5812 or (480) 965-3601.

SACFFC - U of A, Financial Services, P.O. Box 3310, Tucson, Arizona 85722-3310

The U of A Alumni Association - P.O. Box 210109, Tucson, Arizona 85721-0109

Law College Association of the U of A - P.O. Box 210176, Tucson, Arizona 85721-0176

Campus Research Corporation - University of Arizona Science and Technology Park, 9040 South Rita Road, Suite 1400. Tucson, Arizona 85747

NAU Foundation and NACFFC - Northern Arizona University, Comptroller's Office, P.O. Box 4069, Flagstaff, Arizona 86011

The financial statements of the U of A Foundation are not publicly available. For information regarding the U of A Foundation's financial statements, contact the University of Arizona Comptroller at the following address: University of Arizona, Financial Services, P.O. Box 3310, Tucson, Arizona 85722-3310.

Related Organizations

Related organizations are legally separate entities for which the State is not considered to be financially accountable, and that do not meet the criteria established by GASB Statement No. 39. The State's accountability for these organizations does not extend beyond making the appointments, nor are the economic resources accessible to the State. As a result, financial activity for the organizations described below is not included in the State's financial statements.

Arizona Health Facilities Authority (the Authority) – Arizona Revised Statutes (ARS) §36-482 established the Authority to issue tax-exempt bonds and loans for the purpose of reducing health care costs and improving health care for Arizona residents by providing less expensive financing for health care institutions. Proceeds from bond issues are loaned to various qualifying nonprofit health care institutions. The health care institutions reimburse the Authority for expenses for issuance of the bonds, pay fees of the Authority, and make payments under the loans for the benefit of the holders of the bonds. The Authority is governed by a seven-member board of directors that is appointed by the Governor and approved by the Senate. The directors serve staggered terms of seven years, and can be removed for cause or at will by the Governor with the consent of the Senate.

Arizona International Development Authority (the Authority) – ARS §41-1553 established the Authority to facilitate the development of international trade or commerce between Arizona and other countries. The Authority is governed by a seven-member board of directors appointed by the Governor for five-year terms, and can be removed only for cause.

Arizona Tourism and Sports Authority (the Authority) – ARS §5-802 established the Authority to construct, finance, maintain, improve, operate, market and promote the use of a multipurpose facility and do all things necessary to accomplish those purposes. The Authority may issue revenue bonds in such principal amounts to accomplish the above stated purposes. The Authority is governed by a nine-member board of directors of which five are appointed by the Governor and approved by the

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

Senate and two members each by the President of the Senate and the Speaker of the House. The directors serve terms of five years, and may be re-appointed for one full subsequent term, and can be removed only for cause.

Arizona Housing Finance Authority (the Authority) – ARS §41-3902 established the Authority to issue bonds for residential dwelling units and multifamily residential rental projects in rural areas. The Authority may also establish mortgage credit certificate programs to finance residential dwelling units in rural areas. The Authority is required to notify and obtain written consent from the governing bodies of any city, town, county, tribal government or existing corporation for any multifamily residential rental projects planned for their jurisdiction. The Authority is governed by a seven-member board of directors that is appointed by the Governor and approved by the Senate. The directors serve terms of seven years, and can be removed only for cause.

State Compensation Fund (the Fund) – ARS §23-981 established the Fund to provide insurance to employers for workers' compensation, occupational disease compensation, and medical, surgical and hospital benefits. The Fund is governed by a board of directors that consists of five members appointed by the Governor for staggered terms of five years, and can be removed only for cause. Annually, the Governor appoints a chairman from among the board members.

Joint Ventures

As described in Notes 10 and 16 respectively, the University of Arizona and the University Medical Center both participate in joint ventures. In accordance with U.S. generally accepted accounting principles, the financial activities of these joint ventures are not included in the State's financial statements.

B. BASIS OF PRESENTATION

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the State as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

Government-wide statements - provide information about the primary government (the State) and its component units. The statements include a statement of net assets and a statement of activities. These statements report the financial activities of the overall government, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the State and between the State and its discretely presented component units. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The **Statement of Net Assets** presents the State's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or voter initiative.

Unrestricted net assets consist of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

The **Statement of Activities** presents a comparison between direct expenses and program revenues for each function of the State's governmental activities, and its different business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular program or function.

The State does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers or applicants for goods, services, privileges provided, and fines or forfeitures,

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

- operating grants and contributions, and
- capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Interfund balances have been eliminated from the government-wide financial statements to the extent that they occur within either the governmental or business-type activities. Balances between governmental or business-type activities are presented as internal balances and are eliminated in the total column. Revenues and expenses associated with reciprocal transactions within governmental or within business-type activities have not been eliminated.

Fund financial statements - provide information about the State's funds, including fiduciary funds. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The State reports the following major governmental funds:

The General Fund - is the State's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Transportation and Aviation Planning, Highway Maintenance and Safety Fund - accounts for all financial transactions applicable to the general operations of the Arizona Department of Transportation. The Department builds and maintains the State's highway system and the Grand Canyon Airport.

The Land Endowments Fund - holds lands granted to the State by the Federal government for the benefit of public schools and other public institutions. Principal is maintained intact and investment earnings and lease revenues are distributed to beneficiaries in accordance with State statute.

The State reports the following major enterprise funds:

The Universities - account for transactions of the State's three universities, which comprise the State's university system.

Unemployment Compensation - pays claims for unemployment to eligible recipients from employer contributions and reimbursements.

The Industrial Commission Special Fund - accounts for deposits not to exceed 1½% of all premiums received by the State Compensation Fund and private insurance carriers during the preceding calendar year. These monies are used to provide additional awards as necessary to enable injured employees to accept the benefits of any law for promotion of vocational rehabilitation of persons disabled in industry. In addition, benefits may be paid for workers' compensation claims filed by employees of non-insured employers. The Industrial Commission then pursues against the non-insured employer for reimbursement of all benefits paid, including assessed penalties.

The Lottery - accounts for the activities of the Arizona State Lottery.

Additionally, the State reports the following fund types:

Internal Service Funds - account for insurance coverage, employee benefits, automotive maintenance and operation, highway equipment rentals, and data processing and telecommunication services provided to State agencies on a cost-reimbursement basis. It is the policy of the State to classify immaterial proprietary fund activities in governmental funds. This policy helps to reduce the number of funds reported in the financial statements to the minimum amount needed. These funds allocate a fixed

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

rate payroll processing charge among all agencies, allocate postage and mailing costs among all agencies, and arrange for the sale of the State's office equipment and motorized vehicles at public auctions.

Pension Trust Funds - account for the activities of the Arizona State Retirement System, the Public Safety Personnel Retirement System, the Elected Officials' Retirement Plan, and the Corrections Officer Retirement Plan, for which the State acts as a trustee. These retirement plans accumulate resources to pay pension benefits of State employees and employees of other governmental entities participating in the plans.

Investment Trust Funds - account for transactions by local governments and political subdivisions that elect to participate in the State Treasurer's investment pools. The Treasurer acts as trustee for the original deposits made into the investment pools.

Agency Funds - account for the receipt and disbursement of various taxes, deposits, deductions, and property collected by the State, where the State acts as an agent for distribution to other governments and organizations.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Grants and donations are recognized as revenues as soon as all eligibility requirements the provider imposed have been met.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The State considers all revenues reported in the governmental funds to be available if the revenues are collected within 31 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the State funds certain programs through a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The State's policy regarding whether to first apply restricted or unrestricted resources is made on a case-by-case basis.

The State's business-type activities and enterprise funds follow FASB Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The State has chosen the option not to follow FASB Statements and interpretations issued after November 30, 1989.

D. CASH AND INVESTMENTS

Cash and Cash Equivalents - on the Statement of Cash Flows, the amount reported as "Cash and Cash Equivalents" is equal to the total of the amounts on the Statement of Net Assets "Cash", "Cash with U.S. Treasury", "Cash and pooled investments with State Treasurer", "Cash held by trustee" and "Collateral investment pool" (for the Industrial Commission Special Fund). For purposes of the Statement of Cash Flows, the State considers only those highly liquid debt instruments with an original maturity of ninety days or less to be cash equivalents.

- *Cash (not with State Treasurer)* - cash includes undeposited receipts, petty cash, bank accounts, non-negotiable certificates of deposit, and demand deposits with banking institutions other than the State Treasurer.
- *Cash with U.S. Treasury* - consists of unemployment compensation contributions from Arizona employers that are deposited in a trust fund maintained by the United States Treasury.
- *Cash and pooled investments with State Treasurer* - the State Treasurer maintains a centralized management of most State cash resources. From the perspective of the various State funds, the pool functions as both a cash management pool and a demand deposit account. The operations and investments of the State Treasurer's pooled investments are described in Note 2.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

- *Collateral investment pool* – consists of cash received as collateral on securities lending transactions and investments made with that cash. The State records the collateral received as an asset. A corresponding liability is also recorded for such securities lending transactions.

Investments (not with State Treasurer) – investments are stated at fair value or amortized cost which approximates fair value, except for Treasurer’s Custodial Securities of the Agency Funds, which are reported at par value.

E. TAXES RECEIVABLE

Taxes receivable include amounts owed by taxpayers for the 2003 and prior calendar years including assessments for underpayments, penalties and interest. In the government-wide financial statements, a corresponding amount is recorded as revenue using the accrual basis of accounting. In the governmental fund financial statements, revenue is recorded using the modified accrual basis of accounting. The remainder is recorded as deferred revenues.

The income tax receivable is composed of individual and corporate estimated payments, withholding payments, and payments with final returns and assessments that relate to income earned through June 30, 2004. Sales and motor vehicle and fuel tax receivable represent amounts that are earned by the State in the fiscal period ended June 30, 2004, but not collected until the following month.

F. INVENTORIES

Inventories consist of expendable supplies held for consumption in all funds and merchandise intended for sale to customers in the Proprietary Funds. Inventories are stated at cost using the first-in, first-out method. In the Governmental Funds, inventories are accounted for using the consumption method. Under this method, inventories are recorded as expenditures as they are used.

G. PROPERTY TAX CALENDAR

Real property taxes are levied on or before the third Monday in August and become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. A lien attaches on the first day of January preceding assessment and levy.

H. CAPITAL ASSETS

Capital assets are stated at cost at the date of acquisition or, if donated, at the estimated fair market value at the date received. Interest incurred during the construction of capital assets is only capitalized in the proprietary funds.

Most capital assets are depreciated over their useful life. However, the State utilizes an alternative accounting treatment for most infrastructure assets in which costs to maintain and preserve these assets are expensed and no depreciation expense is recorded. This approach is discussed further in the Required Supplementary Information portion of this report. The State has adopted a general policy for capitalization thresholds, depreciation, and estimated useful lives of capital assets. In addition, the State has approved alternative policies for some State agencies.

Depreciable capital assets are depreciated on a straight-line basis. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets being depreciated in the government-wide financial statements and the proprietary funds are as follows:

Asset Category	General State Policy		Other Authorized Agency Policies	
	Capitalization Threshold	Estimated Useful Life (yrs)	Capitalization Threshold	Estimated Useful Life (yrs)
Land	All capitalized	Not depreciated	All capitalized	Not depreciated
Buildings	All capitalized	25-40	\$300-\$100,000	5-50
Improvements other than buildings	\$5,000	15	\$300-\$5,000	1-40
Equipment	\$5,000	3-15	\$0-\$5,000	3-25
Infrastructure	All capitalized	Not depreciated	\$5,000-\$100,000	10-100

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

The State is trustee for approximately 9.3 million acres of land acquired through U.S. Government land grants in the early 1900's. The State acquired a substantial portion of this land at no cost and its fair market value at acquisition has not been reliably estimated. Accordingly, this land is not reported in the accompanying financial statements. A portion of the land that the State is trustee for has been sold and the buyers of the land have defaulted on the loans. The value of this land has been recorded at the sales price and properly included in the financial statements.

The State has interest in, and maintains significant special collections, works of art, and historical treasures. All special collections, works of art, and historical treasures which are held for financial gain are capitalized at fair market value at the date of acquisition or donation. Those special collections, works of art, and historical treasures which are held for educational, research, or public exhibition purposes are not capitalized, as they are not subject to disposal for financial gain or encumbrance. Such items are inventoried for property control purposes.

Additional disclosures related to capital assets and assets acquired through capital leases are provided in Notes 4 and 6, respectively.

I. INVESTMENT INCOME

Investment income is composed of interest, dividends, and net changes in fair value of applicable investments.

J. SCHOLARSHIP ALLOWANCES

Student tuition and fee revenues, and certain other revenues earned by the three State Universities are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Fund Net Assets. A scholarship discount and allowance is the difference between the stated charge for goods and services provided and the amount that is paid by the student or third party making payment on behalf of the student. Accordingly, some types of student financial aid such as Pell grants and scholarships awarded by the Universities are considered to be scholarship allowances. These allowances are netted against applicable revenues in the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

K. DEFERRED REVENUE

Deferred revenue consists of payments to the State for goods and services, not yet rendered, or taxes, grants, and other non-exchange transactions for which related resources are not available to pay current liabilities. In the government-wide and proprietary fund financial statements, revenue is deferred when cash, receivables, or other assets are received prior to their being earned. In the governmental fund financial statements, revenue is deferred when that revenue is unearned or unavailable.

L. COMPENSATED ABSENCES

In the government-wide and proprietary fund financial statements, the State accrues liabilities for compensated absences as required by GASB. In the governmental fund financial statements, liabilities for compensated absences are not accrued, because they are not considered "due and payable".

In general, State employees accrue vested annual leave at a variable rate based on years of service. Except for University employees, an employee forfeits accumulated annual leave in excess of 240 hours at the end of a calendar year, unless the Director of the Department of Administration authorizes an exception. University employees may accumulate up to 264 hours of vacation, and any vacation hours in excess of the maximum amount that are unused at December 31 are forfeited. Except for University employees, an employee who separates from State service is paid for all unused and unforfeited annual leave at the employee's rate of pay at the time of separation. University employees, upon termination of employment, are paid all unused vacation benefits not exceeding 176 hours (annual accrual amount), depending on years of service and full-time equivalent employment status.

Some employees accumulate compensatory leave for time worked over 40 hours per week. An employee may accumulate up to 240 hours of compensatory leave (480 if working in a public safety activity or an emergency response activity). An employee who separates from State service is paid for all unused compensatory leave at either the employee's average base salary during the last three years of employment or final base salary, whichever is higher.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

Sick leave includes any approved period of paid absence granted an employee due to illness, injury or disability. Most State employees accrue sick leave at the rate of eight hours per month without an accumulation limit. Because sick leave benefits do not vest with employees, a liability for sick leave is not accrued in the financial statements. However, State employees are eligible to receive payment for an accumulated sick leave balance of 500 hours or more, with a maximum of 1500 hours, upon retirement directly from State service (See Note 11.C).

M. LONG-TERM OBLIGATIONS

In the government-wide and proprietary fund financial statements, long-term debt and long-term liabilities are reported as liabilities. Amounts due within one year are reported as current liabilities, and amounts due thereafter are reported as non-current liabilities. Premiums and discounts on revenue bonds and certificates of participation are deferred and amortized over the life of the debt instrument using the straight-line method. Bonds and certificates of participation are reported net of the applicable premium or discount. Except for the Arizona Department of Transportation, bond issuance costs are immaterial and are charged to expense in the period incurred.

In the fund financial statements, governmental fund types recognize proceeds from revenue bonds, certificates of participation, and premiums and discounts on revenue bonds and certificates of participation as other financing sources and uses in the current period. Long-term liabilities are more fully described in Note 6.

NOTE 2. CASH AND INVESTMENTS

A. CASH AND INVESTMENT POLICIES

Cash and cash equivalents are under the control of the State Treasurer, the retirement systems or other administrative bodies. Arizona Revised Statutes §35-312, §35-313 and §35-314 authorize the Treasurer to invest operating, trust and permanent endowment fund monies. Therefore, surplus cash deposited with the State Treasurer by State agencies with a statutory authorization to invest and all General Fund monies are invested by the Treasurer in a pooled fund. Any interest earned is allocated monthly into each respective fund based on average daily cash balances. There is no income from investments associated with one fund that is assigned to another fund.

The State Treasurer invests in short-term securities and other investments. Provisions of Arizona law restrict these investments to obligations of the U.S. Government and its agencies, obligations of the State and certain local government subdivisions, interest-bearing savings accounts and certificates of deposit, collateralized repurchase agreements, certain obligations of U.S. corporations, and certain other securities.

The State Treasurer also invests in various mortgage-backed securities for seventeen of the twenty-six investment pools it manages. These securities are reported at fair value on the Statement of Fiduciary Net Assets. In addition, they are reported in aggregate as U.S. Government securities. The securities are purchased to diversify the State's exposure to maturity and credit risks while providing for enhanced yields. The credit risk associated with holding these securities is reduced since all securities are rated AAA by Standard and Poor's and/or Moody's rating service. The market risk associated with holding these securities is linked to maturity risk in that as interest rates rise, the fair value of these securities will fall and prepayment of principal balances will decelerate. When interest rates fall, the fair value of these securities will rise and prepayment of principal balances will accelerate. The mortgage-backed securities are authorized under ARS §35-313.

Statutes enacted by the Legislature authorize the retirement systems to make investments in accordance with the "Prudent Person" rule. This rule imposes the responsibility of making investments with the judgment and care that persons of ordinary prudence would exercise in the management of their own affairs when considering both the probable safety of their capital and the probable income from that capital. Within this broad framework, the retirement systems have chosen to invest in short-term securities and repurchase agreements, obligations of the U.S. Government and its agencies, corporate bonds, common and preferred stocks and mortgages. The Statutes also place certain restrictions on the investment fund portfolios of the retirement systems.

Investments maintained by the State Treasurer are reported at fair value based upon an independent outside pricing service. Investments with a maturity of 91 days or more and all investments with a maturity of 90 days or less that were held at the beginning of the current fiscal year, not valued by the pricing service, are valued using a market price solicited from the selling broker or a second outside pricing service. All investments with a remaining maturity of 90 days or less, that have no available

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

market price, and were not held at the beginning of the current fiscal year, are valued using amortized cost. If different amortized cost values exist, the weighted average amortized cost is given to like investments.

The State Treasurer also maintains external investment pools [the Local Government Investment Pool (LGIP) and Local Government Investment Pool-Government (LGIP – GOV)] with no regulatory oversight. The pools are not required to register (and are not registered) with the Securities and Exchange Commission under the 1940 Investment Advisors Act. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with ARS §35-311. The fair value of investments is measured on a monthly basis. Participant shares are purchased and sold based on the Net Asset Value (NAV) of the shares. The NAV is determined by dividing the fair value of the portfolio by the total shares outstanding. The State Treasurer does not contract with an outside insurer in order to guarantee the value of the portfolio or the price of shares redeemed.

During the year, the United States Bankruptcy Court for the Southern District of Ohio entered an order confirming the NCFE's Joint Plan of Liquidation. Approximately \$9.5 million was received as an initial payout of funds being held by the Indenture Trustee for NPF-XII securities. As of June 30, 2004, the payout was recorded in the LGIP and the funds were subsequently distributed to the appropriate pool participants in August 2004. The likelihood of recovering the remaining amount is unknown.

The State Treasurer only makes investments that are registered with the Securities and Exchange Commission or issued directly by the U.S. Treasury and federal agencies. The State Treasurer is not an involuntary participant in another entity's external investment pool.

The State Treasurer is not aware of any involuntary participation of local governments in the State's external investment pools. Participants meeting the criteria established under ARS §35-316 are eligible to participate in the pools and are not required to disclose the reason for requesting the account.

The investments of the State Treasurer's Custodial Securities, an Agency Fund, are recorded at par value. The investments are held by the State Treasurer for State agencies that perform a business compliance function.

The investments of the Industrial Commission and the Arizona Coliseum and Exposition Center are reported at fair value.

The Arizona State Retirement System investments are reported at fair value and cost. Investments, other than real estate and commercial mortgages, are reported at fair values determined by the custodial agents. The agent's determination of fair values includes, among other things, using pricing services or prices quoted by independent brokers at current exchange rates. Commercial mortgages have been valued on an amortized cost basis, which approximates fair value. Short-term investments are reported at cost plus accrued interest, which approximates fair value. For investments where no readily ascertainable fair value exists, management, in consultation with its investment advisors, has determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The fair value of real estate investments is based on independent appraisals or estimated value.

The Public Safety Personnel, Elected Officials' and Corrections Officer Retirement Systems investments are reported at fair value. Fair values are determined as follows: Short-term investments are reported at fair value, which approximates cost. Equity securities are valued at the last reported sales price. Fixed-income securities are valued using the last reported sales price or the estimated fair market value as determined by an outside pricing service. Investments that do not have an established market are reported at estimated fair value.

The investments of the Universities are reported at fair value determined by quoted market prices, except the joint venture, which is reported at cost. Donated land is reported at fair market value at time of donation.

B. UNEMPLOYMENT COMPENSATION

ARS §23-703 requires that unemployment compensation contributions from Arizona employers be deposited in an unemployment trust fund account with the Secretary of the Treasury of the United States that is established and maintained pursuant to Section 1104 of the Social Security Act. The cash on deposit in the trust fund account is pooled and invested. Interest earned from investments purchased with such pooled monies is deposited in the trust fund account. The Unemployment Compensation Fund, reported as a major proprietary fund, has been established for this purpose.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

C. COLLATERAL AND INSURANCE

The State requires that deposits and investments with financial institutions be entirely covered by Federal depository insurance or, alternatively, collateralized with surety equal to at least 100% (102% for the Treasurer) of the deposits so collateralized. Cash deposited with banks is collateralized based on bank balances. Surety collateralized includes U.S. Government obligations, State obligations, obligations of counties and municipalities within the State, and certain other securities.

D. DEPOSITS COLLATERALIZATION

At June 30, 2004, the carrying amount of the State's deposits for the Primary Government was a deficit of \$32.010 million and \$89.786 million for Fiduciary funds. The cash deficit results from the State Treasurer not reducing investments until the servicing bank presents warrants for payment. At June 30, 2004, the bank balance was \$142.419 million for the Primary Government and \$112.229 million for Fiduciary funds. For the Primary Government bank balances, \$2.200 million was collateralized by Federal depository insurance. The remaining \$140.219 million was collateralized by securities held by the bank's trust division or agent in the State's name in book-entry form. For the Fiduciary funds, \$1.603 million was collateralized by Federal depository insurance, \$110.623 million was collateralized by securities held by the bank's trust division or agent in the State's name in book-entry form, and \$3 thousand was not collateralized or the securities held in the bank's custodial account with the Federal Reserve were in the bank's name.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

E. INVESTMENTS CUSTODIAL RISK

The following tables summarize the credit risk of the State's investments (expressed in thousands). Category A includes investments that are insured or registered, or for which securities are held by the State or the State's agent in the State's name. Category B includes uninsured and unregistered investments for which securities are held by the counterparty's agent or trust department in the State's name. Category C includes uninsured and unregistered investments for which securities are held by the counterparty, or by its agent or trust department but not in the State's name.

At June 30, 2004, the State had no commitments to resell securities under yield maintenance agreements.

During the year ended June 30, 2004, the State did not make significant investments in types of investments beyond those enumerated in the preceding tables.

F. SECURITIES LENDING

Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. A corresponding liability is also recorded for such securities lending transactions.

1. State Treasurer

The State Treasurer (Treasurer) is permitted by Title 35, Chapter 2, Article 2 of the Arizona Revised Statutes to enter into securities lending transactions. During the fiscal year ended June 30, 2004, there were no violations of legal or contractual provisions, and there were no borrower or lending agent default losses to the securities lending agent. At June 30, 2004, the State Treasurer had no securities on loan.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

2. Industrial Commission

State statutes and Industrial Commission (the Commission) policies permit the Commission to enter into securities lending transactions with its custodial bank. There were no significant violations of legal or contractual provisions, and there were no borrower or lending agent default losses to the securities lending agent. The custodial bank, Northern Trust, manages the securities lending operations through a contractual agreement with the Commission and splits the fees received with the Commission. There was no credit risk (i.e., lender's exposure to the borrowers of its securities) related to the securities lending transactions at June 30, 2004. Northern Trust's indemnification responsibilities include performing appropriate borrower and collateral investment credit analysis, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examinations Council regulations concerning securities lending. Securities are loaned for collateral that may include cash, U.S. Government securities and irrevocable letters of credit. Domestic securities are loaned for collateral valued at 102% of the market value of securities loaned plus accrued interest. International securities are loaned for collateral valued at 105% of the market value of securities loaned plus accrued interest. The market value at June 30, 2004 for loaned securities collateralized by cash and non-cash collateral was \$33.409 million and \$12.321 million, respectively. As part of the securities lending transactions, Northern Trust received cash and non-cash collateral valued at \$33.996 million and \$12.540 million, respectively at June 30, 2004. Non-cash collateral cannot be pledged or sold unless the borrower defaults. Securities lent at year-end for cash collateral are presented as unclassified in the preceding schedule of custodial credit risk; securities lent for securities collateral are classified according to the category for the collateral received on the securities lent.

All securities loans can be terminated on demand by either the lender or the borrower. The average term of the loans is 88 days and cash open collateral is invested in a short-term investment pool, the Core USA Collateral Section, which had an average weighted maturity of 24 days as of June 30, 2004. Cash collateral may also be invested separately in "term loans", in which case the investments match the loan term. Cash open loans can be terminated on demand by either lender or borrower and there were no dividends or coupon payments owing on securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month. Investments made with cash collateral received are classified as an asset on the Statement of Net Assets. A corresponding liability is recorded as the Commission must return the cash collateral to the borrower upon expiration of the loan. At June 30, 2004, the Commission had \$33.996 million outstanding as payable for securities lending.

3. Arizona State Retirement System

The Arizona State Retirement System (ASRS) is permitted by Arizona Revised Statutes §38-715(D)(3), to enter into securities lending transactions. The ASRS' custodial bank enters into agreements with counterparts to loan securities and have the same securities redelivered at a later date. All securities are eligible for loan (U.S. fixed income securities, U.S. equities, international equities) with a higher percentage of U.S. Treasuries on loan than most other security types. It is the policy of the ASRS to receive as collateral at least 102% of the market value of the loaned securities and maintain collateral at no less than 100% for the duration of the loan. At year-end, the ASRS has no credit risk exposure to borrowers because the amount the ASRS owes the borrowers exceeds the amount the borrowers owe the ASRS. The ASRS records the collateral received as an asset and the same amount as an obligation for securities on loan. Any cash collateral received is invested in short-term investments. The maturities of the investments are closely matched to those of the security loans to avoid interest rate exposure. The ASRS receives a spread for its lending activities. Investments made with cash collateral received are classified as an asset on the Statement of Plan Net Assets. A corresponding liability is recorded as the ASRS must return the cash collateral to the borrower upon expiration of the loan. At June 30, 2004, the ASRS had \$2.3 billion outstanding as payable for securities on loan.

Due to the flow of securities to and from transfer agents and the security loan program, securities occasionally cannot be delivered for a sale or received for a purchase, resulting in a "failed" transaction. Securities with trade dates in June and settlement dates in July result in "outstanding" transactions. Since these securities have contractually changed ownership, receivables and payables result from these transactions. Such transactions resulted in a receivable for securities sold of \$309.2 million and a payable for securities purchased of \$1 billion at June 30, 2004.

4. Public Safety Personnel Retirement System, Elected Officials' Retirement Plan and Corrections Officer Retirement Plan

The Public Safety Personnel Retirement System (PSPRS), the Elected Officials' Retirement Plan (EORP) and the Corrections Officer Retirement Plan (CORP) are permitted by Title 38, Chapter 5, Articles 3, 4, and 6 of the Arizona Revised Statutes to

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

enter into securities lending transactions. The PSPRS, EORP and CORP are parties to securities lending agreements with a bank. The bank, on behalf of the PSPRS, EORP and CORP, enters into agreements with brokers to loan securities and have the same securities returned at a later date. The loans are fully collateralized, primarily by cash. Collateral is marked-to-market on a daily basis. Non-cash collateral can be sold only upon borrower default. The PSPRS, EORP and CORP require collateral of at least 102% of the fair value of the loaned U.S. Government or corporate security. Securities on loan are carried at fair value. As of June 30, 2004, the fair value of securities on loan were (expressed in millions):

PSPRS	\$ 806.532
EORP	49.257
CORP	142.269

The PSPRS, EORP and CORP receive a negotiated fee for their loan activities and are indemnified for broker default by the securities lending agent. The PSPRS, EORP and CORP participate in a collateral investment pool. All security loans can be terminated on demand by either the pool participants or the borrower. The total cash collateral investments received for unmatched loans (any loan for which the cash collateral has not been invested for a specific maturity) will have a maximum effective duration of 233 days. And, at least 20% of total collateral investments shall be invested on an overnight basis. All matched loans shall have matched collateral investments. At June 30, 2004, the weighted average maturity was eleven days for all investments purchased with cash collateral from unmatched loans. The PSPRS, EORP, and CORP have no credit risk because the amounts owed to borrowers exceed the amounts borrowers owe to them. Under this program, they have not experienced any defaults or losses on these loans.

5. University of Arizona

During the fiscal year, the U of A engaged in securities lending transactions. The U of A entered into an agreement with Bank of New York, the U of A's custodian, to carry out these transactions. The custodian enters into agreements with brokers to loan securities and have the same securities returned at a later date. It is the policy of the U of A to receive as collateral at least 102% of the market value of the loaned securities and accrued interest, and maintain collateral at no less than 100% for the duration of the loan. At year-end, the U of A had no credit risk to borrowers because the U of A was holding more collateral than the amount of loaned securities outstanding.

The U of A records the collateral received as an asset, which is offset by an obligation recorded under securities lending. During the fiscal year ended June 30, 2004, there were no violations of legal or contractual provisions, and there were no borrower or lending agent default losses. Bank of New York does indemnify the U of A against losses due to borrower defaults. Collateral can be received in the form of U.S. Government securities, letters of credit, or cash. As of June 30, 2004, the custodian has received only cash collateral. Cash collateral received from the borrower is invested in short term securities which, at June 30, 2004, had a weighted average of less than 30 days to either maturity or to the next coupon reset date, in the case of floating rate securities. In general, the average number of days outstanding for securities lent matched the weighted average maturity of collateral investments. Investments, consisting of asset-backed securities, bank notes, corporate floating rate notes, and collateralized repurchase agreements, are held in an account in the name of the U of A. At June 30, 2004, cash collateral investments totaled \$17.963 million with a corresponding market value of securities on loan of \$17.634 million. Securities lent for cash collateral included corporate stocks, corporate bonds, government notes, and government bonds. The U of A or the borrower can terminate all securities loans on demand. The U of A cannot sell or pledge securities received as collateral unless the borrower defaults. The U of A earns a negotiated fee for participating in securities lending activities.

G. DERIVATIVES

A derivative instrument is a financial instrument or other contract with all three of the following characteristics:

- It has (1) one or more underlyings and (2) one or more notional amounts or payment provisions or both. Those terms determine the amount of the settlement or settlements, and in some cases whether or not a settlement is required.
- It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- Its terms require or permit net settlement, it can readily be settled net by means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

The principal categories of derivatives employed and their uses during the year were as follows:

Category	Purpose
Foreign exchange forward contracts	Hedge currency risk of investments denominated in foreign currencies.
Futures	Reduce transaction costs; obtain market exposure; enhance returns.
SWAPS	Interest rate risk management; enhance returns.

Generally, derivatives are subject to both market risk and counterparty risk. The derivatives utilized by ASRS internal investment managers typically have no greater market risk than their physical counterparts, and in many cases are offset by exposure elsewhere in the portfolio. All derivatives are reported at fair value.

The ASRS believes that it is unlikely that any of the derivatives used by its internal investment managers could have a material adverse effect on the financial conditions of the System.

H. CUSTODIAL SECURITIES

In accordance with Arizona Revised Statutes, various State agencies deposit securities with the Treasurer for safekeeping. The State agencies have securities in safekeeping with the Treasurer in the form of U.S. Government and agency securities, certificates of deposit, municipal and corporate bonds, and surety bonds at June 30, 2004. These securities are reported in the Fiduciary Agency Fund.

I. STATE TREASURER'S SEPARATELY ISSUED FINANCIAL STATEMENTS

The State Treasurer issues a separately published Annual Financial Report. The report provides additional information relating to the State Treasurer's total investing activities and the internal and external participants of the Investment Trust Funds. The Investment Trust Funds report on the activities of the Local Government Investment Pools and Central Arizona Water Conservation District Investment Accounts. A copy of the State Treasurer's Office Annual Financial Report can be obtained from their temporary office location until April 30, 2005, at:

State Treasurer's Office
3443 N. Central, 17th Floor
Phoenix, Arizona 85012-2204

After April 30, 2005, a copy of the State Treasurer's Office Annual Financial Report can be obtained from their office at:

State Treasurer's Office
1700 W. Washington
Phoenix, Arizona 85007-2812

The Treasurer's financial statements are audited by the Office of the Auditor General.

NOTE 5. RETIREMENT PLANS

The State contributes to the four plans described below. The four plans are considered part of the State’s financial reporting entity and are included in the State’s financial statements as Pension Trust Funds.

A. PLAN DESCRIPTIONS

The State participates in the Arizona State Retirement System (ASRS), the Public Safety Personnel Retirement System (PSPRS), the Elected Officials’ Retirement Plan (EORP) and the Corrections Officer Retirement Plan (CORP). Benefits are established by State statutes and provide retirement, death, long-term disability, survivor and health insurance premium benefits to State employees, public school employees and employees of counties, municipalities and certain other State political subdivisions.

The **ASRS** is a cost-sharing, multiple-employer defined benefit pension plan that benefits employees of the State, its political subdivisions and public schools. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of ARS Title 38, Chapter 5, Article 2.

The **PSPRS** is an agent, multiple-employer defined benefit pension plan that benefits fire fighters and police officers employed by the State or certain local governments. The PSPRS, acting as a common investment and administrative agent, is governed by a five-member board, known as the Fund Manager, and 190 local boards according to the provisions of ARS Title 38, Chapter 5, Article 4.

The **EORP** is a cost-sharing, multiple-employer defined benefit pension plan that benefits all elected State and county officials and judges and certain elected city officials. The EORP is governed by the Fund Manager of the PSPRS according to the provisions of ARS Title 38, Chapter 5, Article 3.

The **CORP** is an agent, multiple-employer defined benefit pension plan that benefits town, city and county detention officers and certain employees of the Arizona Department of Corrections and the Arizona Department of Juvenile Corrections. The CORP is governed by the Fund Manager of the PSPRS and 18 local boards according to the provisions of ARS Title 38, Chapter 5, Article 6.

Each plan issues a publicly available financial report that includes its financial statements and required supplementary information. A report may be obtained by writing or calling the applicable plan.

School districts	233	-	-	-
Charter schools	177	-	-	-
Community college districts	10	-	-	-
Dispatchers	-	-	-	5

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As part of the Pension Trust Funds, the financial statements are prepared using the accrual basis of accounting under which expenses are recorded when the liability is incurred and revenues are recorded in the accounting period in which they are earned and become measurable. Employee contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Contributions from employees and employers for service through June 30 are accrued. These contributions are considered to be fully collectible and, accordingly, no allowance for uncollectible receivables is reflected in the financial statements.

For the ASRS, investments are reported at fair value and at cost. Security transactions and any resulting gains or losses are accounted for on a trade-date basis. Investments, other than real estate and commercial mortgages, are reported at fair values determined by the custodial agents. The agent's determination of fair values includes, among other things, using pricing services or prices quoted by independent brokers at current exchange rates. Commercial mortgages have been valued on an amortized cost basis, which approximates fair value. No allowance for loan loss has been provided as all loans and bonds are considered by management to be fully collectible. Short-term investments are reported at cost plus accrued interest, which approximates fair value. For investments where no readily ascertainable fair value exists, management, in consultation with its investment advisors, has determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The fair value of real estate investments is based on independent appraisals or estimated value. Net investment income includes net increase in fair value of investments, interest income, dividend income and total investment expense, which includes investment management and custodial fees and all other significant investment related costs.

For the PSPRS, EORP and the CORP, investments are reported at fair value. Fair values are determined as follows: Short-term investments are reported at fair value, which approximates cost. Equity securities are valued at the last reported sales price. Fixed-income securities are valued using the last reported sales price or the estimated fair market value as determined by one of the world's largest and most prominent fixed-income broker/dealers. Investments that do not have an established market are reported at estimated fair value. Investment income is recognized as earned.

C. INVESTMENT RESTRICTIONS

Statutes enacted by the Arizona State Legislature restrict the four retirement plans from investing more than five percent of each plan's total assets in securities issued by any one institution, agency or corporation, other than securities issued as direct obligations of or fully guaranteed by the U.S. Government. As of June 30, 2004, the four retirement plans are in compliance with the State statutes.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

D. FUNDING POLICY

The contribution requirements of plan members and the State are established by Title 38, Chapter 5 of the Arizona Revised Statutes. These contribution requirements may be amended by the Arizona State Legislature.

Cost-sharing plans – For the year ended June 30, 2004, active ASRS members and the State were each required by statute to contribute at the actuarially determined rate of 5.7 percent (5.2 percent retirement and 0.50 percent long-term disability) of the members’ annual payroll. The State’s contributions to ASRS for the years ended June 30, 2004, 2003 and 2002 were \$87.657, \$37.777 and \$36.605 million, respectively, for the primary government.

In addition, active EORP members were required by statute to contribute 7.00 percent of the members’ annual covered payroll. The State was required to contribute a designated portion of certain fees collected by the Supreme Court plus additional contributions of 7.55 percent of the members’ annual covered payroll, as determined by actuarial valuation. The State’s contributions to EORP for the years ended June 30, 2004, 2003 and 2002 were \$987, \$81 and \$77 thousand, respectively, which were equal to the required contributions for the year.

Agent plans – For the year ended June 30, 2004, active PSPRS members were required by statute to contribute 7.65 percent of the members’ annual covered payroll and the participating State agencies were required to contribute at actuarially determined rates of 7.52 – 28.99 percent. Active CORP members were required by statute to contribute 8.50 percent of the members’ annual covered payroll and the participating State agencies were required to contribute at actuarially determined rates of 5.51 - 5.56 percent.

E. ANNUAL PENSION COST

The State’s annual pension cost and related actuarial data for each of the agent, multiple-employer defined benefit pension plans for the year ended June 30, 2004, is as follows (expressed in thousands):

	PSPRS	CORP
Contribution rates:		
State	7.52% - 28.99%	5.51% - 5.56%
Plan members	7.65%	8.50%
Annual pension cost	\$6,299	\$11,900
Contributions made	\$6,299	\$11,900
Actuarial valuation date	6/30/02	6/30/02
Actuarial cost method	entry age	entry age
Actuarial assumptions:		
Investment rate of return	8.75%	8.75%
Projected salary increases	6.25% - 9.25%	6.25% - 9.25%

NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

F. TREND INFORMATION

Information for each of the agent, multiple-employer defined benefit plans as of the most recent actuarial valuations is as follows (expressed in thousands):

	Fiscal Year Ended	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
PSPRS	6/30/04	\$6,299	100%	\$ 0
	6/30/03	3,951	100%	0
	6/30/02	4,834	100%	0
CORP	6/30/04	11,900	100%	0
	6/30/03	5,789	100%	0
	6/30/02	5,775	100%	0

G. UNIVERSITIES' RETIREMENT PLANS

Faculty, academic professional and administrative officers at the three universities (Arizona State University, Northern Arizona University, and University of Arizona) may select one of six retirement plans: the Teachers Insurance Annuity Association/College Retirement Equities Fund (TIAA/CREF), Variable Annuity Life Insurance Company (VALIC), Fidelity Investments Tax-Exempt Services Company (Fidelity), Aetna Life Insurance and Annuity Company (Aetna), The Vanguard Group (Vanguard) or the Arizona State Retirement System (ASRS). The ASRS is a defined benefit plan (described above) and the other five plans are defined contribution plans. The five defined contribution plans are administered by independent insurance and annuity companies approved by the Arizona Board of Regents. In addition, University of Arizona employees hired before July 1, 1972, have the option to participate in the defined contribution plan administered by the ASRS. Eligible classified staff belong to the Arizona State Retirement System. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

The Arizona State Legislature establishes and may amend active plan members' and the Universities' contribution rates. For the year ended June 30, 2004, plan members and the three Universities were each required by statute to contribute an amount equal to seven percent of an employee's compensation, except for an 8.10 percent contribution for the ASRS defined contribution plan.

Contributions to these plans for the year ended June 30, 2004, were as follows (expressed in thousands):

Plan	University Contributions	Employee Contributions	Total Contributions
TIAA/CREF	\$ 24,249	\$ 24,249	\$ 48,498
VALIC	2,904	2,904	5,808
Fidelity	4,852	4,852	9,704
Aetna	760	760	1,520
Vanguard	1,684	1,684	3,368
ASRS	126	109	235

H. POSTEMPLOYMENT BENEFITS

In addition to the pension benefits described, the ASRS offers the Retiree Group Insurance Program and the Health Insurance Premium Benefit Program to eligible retired and disabled members. A retired member is defined as a member actively receiving an annuity benefit and a disabled member is defined as a member receiving a Long-Term Disability (LTD) benefit through the LTD program administered by the ASRS or through their former member employer's group LTD plan.

Pursuant to ARS §38-782, the Retiree Group Insurance Program makes available group health insurance coverage to eligible retired and disabled members and their dependents. Retired and disabled members of the ASRS, the Public Safety Personnel Retirement System, the Elected Officials' Retirement Plan, and the Corrections Officer Retirement Plan may participate if they

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

are no longer eligible for health insurance benefits through their former employer. More than 44,000 coverage agreements currently exist for retired and disabled members and their dependents.

Pursuant to ARS §38-783, retired and disabled members with at least five years of credited service are eligible to participate in the Health Insurance Premium Benefit (subsidy) Program. This assistance is provided to those members that elect group coverage through either the Retiree Group Insurance Program or their former member employer.

The ASRS offers a monthly “subsidy” to decrease the cost of group healthcare insurance offered to all retired and disabled persons of the ASRS, PSPRS, CORP and EORP that is provided by the primary government of the State. The amount of the subsidy provided retired or disabled participants is dependent upon the number of years of credited service; whether the participant is eligible for Medicare coverage; if the participant elects group insurance coverage for spouse or dependents; and if the participant lives in an isolated or rural location of the State. The amount of the monthly subsidy paid on a member’s and their dependents’ behalf toward the cost of group health insurance by the ASRS ranges from \$50 to \$600. The ASRS reimbursed approximately \$83.6 million and \$84.5 million towards the cost of group health insurance coverage for the years ended June 30, 2004 and June 30, 2003, respectively. Employment functions of the retired and disabled members eligible for the “subsidy” are teachers, State employees, and political subdivision employees.

The “subsidy” was enacted by the State Legislature as part of the enabling and operating laws of the ASRS (ARS §§38-782 and 38-783). The actuarial calculation of the ASRS plan liabilities used to assess Annual Required Contribution Rate to all participating employers includes an actuarial dollar amount of approximately \$851 million for fiscal year 2004 (0.35% of the total actuarial liabilities) to fund the health insurance “subsidy” program. The Total Annual Required Contribution Rate for both employers and employees during fiscal year 2004 was 0.70%. The participating ASRS employers and employees make no other contributions for funding the health insurance “subsidy” benefit enacted by the State Legislature.

Total actuarial liabilities of the ASRS, including funding for the healthcare insurance “subsidy”, are determined on a projected unit-credit basis. As the ASRS is a cost-sharing plan, the number of “subsidy” participants and amount contributed for the “subsidy” by each participating employer is not available. Total Net Assets available to pay the “subsidy” for all participants at June 30, 2004, is \$808 million.

The State Legislature in ARS §38-783 has made the payment of the healthcare “subsidy” to retired and disabled participants subordinate to the payment of normal retirement benefits.

During the November 1998 general election, voters added Article XXIX to the State of Arizona Constitution. Article XXIX is titled “Public Retirement Systems.” Article XXIX provided for the following actions:

1. Public retirement systems shall be funded with contributions and investment earnings using actuarial methods and assumptions that are consistent with generally accepted actuarial standards.
2. The assets of the State’s public retirement systems, including investment earnings and contributions, are separate and independent trust funds and shall be invested, administered, and distributed as determined by law solely in the interests of the members and beneficiaries of the public retirement systems.
3. Membership in a public retirement system is a contractual relationship that is subject to Article II, Section 25 of the State’s constitution, and public retirement system benefits shall not be diminished or impaired.

Article II, Section 25 of the State’s constitution indicates that no law impairing the obligation of a contract shall ever be enacted.

Governmental Activities

1. Arizona Department of Transportation

The Arizona Department of Transportation (ADOT) issued Senior and Subordinated Highway Revenue Bonds to provide funds for acquisition of right-of-way and construction of federal, state and local highways. The original amount of Highway Revenue Bonds issued in prior years and outstanding at the start of the fiscal year was \$932.700 million. During the year, Highway Revenue Bonds totaling \$250.560 million were issued to (i) finance portions of the Transportation Board's Five Year Transportation Facilities Construction Program, (ii) pay costs of issuing the Bonds, (iii) pay interest on any bonds issued for highway purposes, and (iv) refund portions of the ADOT's outstanding Senior 1993 A/B bonds in the aggregate principal amount of \$114.745 million.

The Highway Revenue Bonds are secured by a prior lien on and a pledge of motor vehicle and related fuel fees and taxes. Arizona Revised Statutes prohibit the total principal amount of Arizona Highway Revenue Bonds, excluding refunded bonds, from exceeding \$1.3 billion.

The Maricopa County Regional Area Road Bond Fund is used to record all payments of principal and interest for Transportation Excise Tax Revenue Bonds issued by ADOT. The Bonds are secured by transportation excise taxes collected by the Arizona Department of Revenue on behalf of Maricopa County. The original amount of Transportation Excise Tax Revenue Bonds issued in prior years and outstanding at the start of the fiscal year was \$488.400 million.

The Bond Resolution adopted by the Transportation Board on July 25, 1986 established a debt service reserve requirement equal to the maximum annual interest due in the current year or future years on any series of outstanding Transportation Excise Tax Revenue Bonds. The Second Supplemental Transaction Excise Revenue Bond Resolution adopted by the Board on September 22, 1988, gives the Board the option, which it has elected, of acquiring debt service reserve insurance policies in lieu of the debt service reserve requirement. Accordingly, no debt service reserve is reported in the accompanying financial statements. The policies (aggregating \$70.064 million at June 30, 2004) were issued by Financial Guaranty Insurance Company, except for the 1993 Series Subordinated Bonds policies, which were issued by MBIA Insurance Corporation, and the 1995 Series A and Series B Subordinated Bonds policies, which were issued by AMBAC Assurance Corporation. These policies are noncancelable and insure payment, up to the policy amount, of the bond interest on their respective payment dates. The policies shall terminate on the earlier of July 1, 2005, or the date when no respective bonds are outstanding under the bond resolution. The premiums on these insurance policies are recorded as expenditures in the year of payment.

The carrying basis of the 1988 Series A Capital Appreciation Bonds increases as a result of accretion of the original issuance discount. At June 30, 2004, the carrying basis was \$7.897 million. At June 30, 2004, the outstanding balance was \$8.50 million.

In fiscal year 2003 (\$103.045 million) and fiscal year 2004 (\$141.000 million), the ADOT refinanced various bond issues through advance refunding arrangements. Under the terms of the refunding bond issues, sufficient assets to pay all principal, redemption premium, if any, and interest on the refunded bond issues have been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues refunded. The assets, liabilities, and financial transactions of these trust accounts and the liability for the defeased bonds are not reflected in the accompanying financial statements. Refunded bonds for the ADOT at June 30, 2004 totaled \$192.421 million.

During the year ended June 30, 2004, the ADOT refunded a portion of the Highway Refunding Subordinated Series 1993A/B bonds (\$114.745 million) and all of the 2000 Series A Grant Anticipation Notes (\$26.255 million) to reduce its total debt service payments by \$7.600 million and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$6.838 million.

2. School Facilities Board

On October 3, 2003, the Arizona School Facilities Board issued \$247.125 million of State School Trust Revenue Bonds. The Series 2003A Bonds were issued initially as Auction Rate Securities, and bear interest at Auction Rates for generally successive 28-day Auction Periods. The Series 2003A Bonds may be converted, in whole, to Auction Rate Securities (ARS) bearing interest at Auction Rates determined on the basis of a 7-day Auction Period or, with the consent of the Insurer, to other interest rate modes. As long as there is no continuing Event of Default under the terms of the Indenture, the ARS shall be subject to redemption prior to stated maturity by the Board, at the written direction of the Board, on any ARS Interest Payment Date. The 2003A Bonds mature in 2019. The 2003A Bonds were issued to (i) pay the costs of correcting existing deficiencies in school facilities within the State of Arizona, (ii) pay capitalized interest on the 2003A bonds, and (iii) pay issuance costs of the 2003A Bonds. Net proceeds totaled \$226.465 million, after payment of \$8.304 million of bond issuance costs, and \$12.356 million deposit to the bond reserve account.

Business-Type Activities

3. Universities

a. University of Arizona

The University's bonded debt consists of various issues of system revenue bonds that are generally callable with interest payable semi-annually. Bond proceeds are used to pay for acquiring or constructing capital facilities and infrastructure. Bond proceeds are also used for refunding obligations from previously issued bonds. Principal and interest on bonds are secured by a pledge of tuition and fees, sales and services, auxiliary enterprises, and other charges.

On May 19, 2004, the University sold System Revenue Bonds Series 2004A (2004A Bonds) for \$17.780 million dated June 1, 2004. The 2004A Bonds include \$12.415 million of serial bonds with interest rates ranging from 3.0% to 5.0% and maturity dates ranging from 2005 to 2024. The 2004A Bonds also include \$5.365 million of term bonds with an interest rate of 5.0% due June 1, 2029. The 2004A Bonds with maturity on or after June 1, 2015, are subject to optional redemption without premium. The 2004A Bonds with maturity on June 1, 2029, are subject to mandatory sinking fund redemption without premium pursuant to the debt documents. The 2004A Bonds were sold at a discount of \$18 thousand. The University realized net proceeds of \$17.500 million after payment of \$262 thousand for issuance costs, underwriter discounts, and bond insurance. The net proceeds are being used to finance \$17.500 million of the \$30.000 million Arizona Health Sciences Center's Drachman Hall. The other \$12.500 million will come from gift donations.

Restricted cash and investments are held in trust for capital projects by various commercial banks. Of this amount, \$235.832 million is available for future construction costs, and \$3.057 million is from bond proceed earnings for unrestricted purposes. Trust funds are invested by the trustee in accordance with the Arizona Board of Regent's authorizing resolutions.

In fiscal year 2003, the University refunded, in advance of maturity, a portion of outstanding System Revenue Bonds Series 2000A. At June 30, 2004, the outstanding principal balance of the refunded bonds was \$5.515 million, which will be paid by investments held in trust with a fair value of \$5.852 million. These amounts are not included in the accompanying financial statements.

b. Northern Arizona University

The University's bonded debt consists of various issues of student housing and system revenue bonds that are generally callable with interest payable semiannually. Bond proceeds primarily pay for acquiring, constructing or renovating capital facilities. System revenue bonds are repaid from pledged gross revenues that primarily consist of student tuition and fees, and certain auxiliary revenues.

In November 2003, the University issued System Revenue Bonds, Series 2003, totaling \$31.0 million. The bonds were issued at interest rates ranging from 2.5% to 5.5%, maturing serially on June 1, 2005, through 2034, secured by a first lien on certain gross revenues, on parity with the Series 1997 System Revenue Bonds, the Series 2002 System Revenue Refunding Bonds, and the Series 2002 System Revenue Bonds. The Series 2003 System Revenue Bonds were issued to finance various capital projects and renovations on the main campus.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

In prior years, the University defeased certain revenue bonds by either placing the proceeds of new bonds, or cash and investments accumulated in the sinking fund, in an irrevocable trust to provide for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the accompanying financial statements. At June 30, 2004, \$270 thousand of such bonds outstanding are considered defeased.

At June 30, 2004, the bond trustee funds, of \$37.293 million held for future construction projects and \$520 thousand held to meet debt service requirements, were invested in money market mutual funds that primarily consist of U.S. government securities. The bond trustees are authorized to purchase and sell securities.

c. Arizona State University

In October 2003, the University issued two series of Variable Rate Demand System Revenue Bonds, Series 2003A and 2003B, totaling \$103.000 million. Both series of bonds bear interest at a weekly rate determined by the respective remarketing agent. Both series of bonds have a final maturity date of July 1, 2034. The bonds are subject to conversion, at the option of the Arizona Board of Regents on behalf of the University, to a different or alternate adjustable rate mode, or a fixed rate pursuant to the debt instruments. If not converted, the Series 2003A and Series 2003B bonds will bear interest at a weekly rate not to exceed 12% per annum based upon prevailing market conditions as determined by the respective remarketing agents. The bonds were issued primarily to fund the construction Biodesign Institute A building, infrastructure improvements, and other Tempe campus projects. The interest rates in effect at June 30, 2004 were 1.04% for the Series 2003A bonds and 1.05% for the Series 2003B bonds. The remaining bonds of the University are fixed rate bonds.

The variable rate bonds are subject to purchase on the demand of the holder at a price equal to principal plus accrued interest on seven days' notice and delivery to the remarketing agents. If the remarketing agents are unable to resell the bonds, the University has a Standby Purchase Agreement with Bank of America, N.A. to extend credit through the purchase of the unremarketed bonds.

Assuming all of the \$51.500 million Series 2003A bonds and \$51.500 million Series 2003B bonds are not resold within 90 days, the University would be responsible to make annual installment principal payments of \$20.600 million over a five-year period, plus interest to be calculated as established in the Standby Purchase Agreement. The University has agreed to pay Bank of America, N.A. an annual commitment fee of 0.18% on the outstanding principal for the Standby Purchase Agreement. The Standby Purchase Agreement is valid through October 15, 2008.

In June 2004, the University issued \$39.300 million of system revenue (\$29.500 million) and refunding (\$9.800 million) bonds primarily for the financing of renovation and information technology/telecommunications upgrade projects at the Tempe campus.

The University has pledged portions of its gross revenues towards the payment of debt related to various system revenue bonds outstanding at June 30, 2004. These pledged revenues include student tuition and fees, auxiliary enterprises revenue, investment income, and indirect cost recovery revenue. Pledged revenues do not include State appropriations, gifts, endowment income, or other restricted revenues.

The Housing Revenue Bonds are payable from housing revenues as defined in the bond indentures. The Series 1993, 2002, 2003 and 2004 System Revenue Refunding Bonds, and the outstanding Series 1989, 1991, 2000, 2002, 2003 and 2004 System Revenue Bonds are payable from tuition, fees, certain auxiliary enterprises revenues, and certain other revenues as defined in the bond indentures.

The University's fixed rate bonded debt consists of various issues of system revenue bonds that are generally callable at a prescribed date with interest payable semi-annually. In prior years, certain system revenue bonds of the University were defeased through advance refundings by depositing sufficient U.S. Government securities to pay all future debt service in an irrevocable trust. Accordingly, liabilities for these defeased bonds are not included in the accompanying financial statements. The principal amount of all such bonds outstanding at June 30, 2004, was \$13.900 million.

Securities and cash restricted for bond debt service funds and maintenance and replacement reserves held by trustees at June 30, 2004 totaled \$17.8 million.

STATE OF ARIZONA

B. GRANT ANTICIPATION NOTES

Grant Anticipation Notes are issued by the Transportation Board and secured by revenues received from the Federal Highway Administration under a grant agreement and certain other federal-aid revenues. The original amount of Grant Anticipation Notes issued in prior years and outstanding at the start of the fiscal year was \$169.145 million. During the year, Grant Anticipation Notes totaling \$199.955 million were issued to (i) pay costs of the projects (as specified), (ii) pay costs of issuing the notes, (iii) pay interest on the notes, and (iv) refund the 2000A Series Notes in the aggregate principal amount of \$26.255 million.

The following schedule summarizes grant anticipation notes outstanding at June 30, 2004 (expressed in thousands):

Grant Anticipation Notes Outstanding	Dates Issued	Maturity Dates	Interest Rates	Outstanding Balance at June 30, 2004
Governmental Activities:				
Department of Transportation	2000-2004	2005-2015	2.5-6.0%	\$ 308,585

Total	\$ 308,585	\$ 72,237	\$ 380,822

C. CERTIFICATES OF PARTICIPATION

1. Department of Administration

The State has issued Certificates of Participation (COPs) to finance construction or improvements of office buildings that are primarily leased to State agencies. The State’s obligation to make lease payments and any other obligations of the State under the lease are subject to, and dependent upon, annual appropriations made by the State Legislature and annual allocations of such appropriations being made by the Department of Administration for such purpose. The Department of Administration agrees to use its best efforts to budget, obtain, allocate and maintain sufficient appropriated monies to make lease payments. In the event any such appropriation and allocation is not made, the lease will terminate and there can be no assurance that the proceeds for the re-leasing or sale of the project will be sufficient to pay principal and interest with respect to the then outstanding Certificates. The scheduled payments of principal and interest with respect to the Certificates of Participation are guaranteed under certificate insurance policies. The State’s obligation to make lease payments does not constitute a debt or liability of the State within the meaning of any constitutional or statutory limitation. Neither the full faith and credit nor the general taxing power of the State is pledged to make payments of principal or interest due with respect to the Certificates of Participation. Such payments will be made solely from amounts derived under the terms of the lease, including lease payments, and amounts from time to time on deposit under the terms of the declaration of trust.

Capitalized interest costs include interest incurred during the construction of an asset.

On May 1, 2004, the Department of Administration issued series 2004A Certificates of Participation for \$16.725 million, with interest rates ranging from 2.00% to 5.00%, and maturity dates ranging from 2005 to 2012. The Certificates are being issued to refund all outstanding Certificates of Participation, Series 1993B, dated as of December 1, 1993, originally executed and delivered in the aggregate amount of \$31.250 million and currently outstanding of \$16.645 million, and to pay the costs of issuing the Series 2004A Certificates. The 2004A Certificates are subject to extraordinary redemption prior to maturity in whole at any time, or in part on any interest payment date, from the net proceeds of insurance or condemnation awards, at a redemption price equal to the principal amount represented thereby plus accrued interest to the redemption date, without premium. Net proceeds from the Series 2004A Certificates totaled \$17.096 million, after receipt of a net original issue premium of \$548 thousand and payment of \$177 thousand in underwriter discounts.

The above refunding reduced the State’s debt service requirements by \$864 thousand, which resulted in an economic gain (difference between the present values of the old and new debt service payments) of \$748 thousand.

On May 15, 2004, the Department of Administration issued series 2004B Certificates of Participation for \$31.965 million, with interest rates ranging from 2.50% to 5.25%, and maturity dates ranging from 2006 to 2019. The Certificates are being issued to finance the acquisition of real and personal property, and to fund interest on, and pay the costs of issuing the Series 2004B Certificates. The 2004B Certificates maturing on or after September 1, 2015 are subject to optional redemption prior to maturity, at the option of the Department of Administration. The Certificates are also subject to extraordinary redemption prior to maturity in whole at any time, or in part on any interest payment date, from the net proceeds of insurance or condemnation awards, at a redemption price of the principal amount represented thereby plus accrued interest to the redemption date, without premium. Net

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

proceeds from the Series 2004B Certificates totaled \$33.010 million, after receipt of a net original issue premium of \$1.386 million and payment of \$341 thousand in underwriter discounts.

2. School Facilities Board

On September 1, 2003, the Arizona School Facilities Board issued 2003B Certificates of Participation for \$194.610 million, with interest rates ranging from 2.25% to 6.00%, and maturity dates ranging from 2006 to 2019. Series 2003B Certificates maturing on or after September 1, 2014 are subject to optional redemption and payment prior to maturity, at the sole option of the Board. Net proceeds from the Series 2003B Certificates totaled \$199.811 million, after receipt of a net reoffering premium of \$11.311 million, payment of \$1.494 million in underwriter discounts, and payment of capitalized interest of \$4.616 million. The Certificates are being issued to finance the costs of acquiring leasehold interests in school sites and constructing and equipping thereon certain school facilities, which will be subleased to various school districts within the State participation in the Board's Lease-to-Own program, to pay capitalized interest on, and pay the costs of, issuing the 2003B Certificates.

On March 1, 2004, the Arizona School Facilities Board issued 2004A Certificates of Participation for \$47.160 million, with interest rates ranging from 2.00% to 5.00%, and maturity dates ranging from 2006 to 2019. Series 2004A Certificates maturing on or after September 1, 2015 are subject to optional redemption and payment prior to maturity, at the sole option of the Board. Net proceeds from the Series 2004A Certificates totaled \$50.000 million, after receipt of a net reoffering premium of \$3.230 million, and payment of \$390 thousand in underwriter discounts. The Certificates are being issued to finance the costs of acquiring leasehold interests in school sites and constructing and equipping thereon certain school facilities, which will be subleased to various school districts within the State participation in the Board's Lease-to-Own program, and to pay the cost of issuing the 2004A Certificates.

3. Industrial Commission

The exempt adjustable mode refunding Certificates of Participation (COPs), Series 1985 were issued to refund the 1984 certificates which were used to finance the cost of acquiring and constructing the building at 800 W. Washington Street, Phoenix, Arizona. The COPs mature serially at six-month intervals and lease payments are made to the trustee, J.P. Morgan Trust Co. The sale-leaseback agreement provides that title will pass to the Commission at the end of the lease term, once the COPs are completely redeemed. The refunded amount was \$17.5 million. This amount has been paid and is not included in the outstanding amounts.

The Trust Indenture for COPs specifies that the rates of specific types of financial instruments must be considered by the remarketing agent in setting the variable interest rates for the COPs. These instruments include the following: other issues of bonds marketed under the TEAMS program or similar programs; variable rate demand bonds; variable rate notes; and fixed rate notes that, in the judgment of the remarketing agent, are otherwise comparable to TEAM certificates in credit quality and length of time prior to which such instruments mature or become subject to purchase at par on the demand of the owner. The interest rate ranged from 1.20% to 1.70% during the fiscal year ended 2004.

4. University of Arizona

On October 15, 2003, the University of Arizona (U of A) issued Certificates of Participation Series 2003B for \$153.960 million dated October 1, 2003. The 2003B Certificates include \$113.695 million of serial certificates with interest rates ranging from 2% to 5.25% and maturity dates ranging from 2005 to 2027. The serial certificates maturing on or after June 1, 2015, are subject to optional redemption prior to maturity without premium. The 2003B Certificates also include two sets of term certificates consisting of \$14.455 million with an interest rate of 5% due June 1, 2028, and \$25.810 million with an interest rate of 5% due June 1, 2031. The term certificates maturing on June 1, 2028 and June 1, 2031 are subject to mandatory sinking fund redemption in part on June 1 of the years 2027 through 2030 before maturity without premium. There are also extraordinary redemption dates pursuant to the debt documents. The 2003B Certificates were issued at a premium of \$3.158 million. The U of A realized net proceeds of \$154.742 million after payment of \$2.376 million for issuance costs, underwriters discount and bond insurance. The net proceeds are being used to finance the Thomas W. Keating Bioresearch Building, the Medical Research Building, and the Technology Infrastructure Project to support the new facilities.

On May 19, 2004 and June 4, 2004, the U of A issued Certificates of Participation Series 2004A and B for \$42.020 million and \$41.400 million respectively dated June 1, 2004 for both issues. The 2004A Certificates include \$35.250 million of serial certificates with interest rates ranging from 2.5% to 5.25% and maturity dates ranging from 2005 to 2024. The 2004A serial Certificates maturing on or after June 1, 2015, are subject to optional redemption prior to maturity without premium. The 2004A Certificates also include \$6.770 million of term certificates with an interest rate of 5.125% due June 1, 2029. The 2004A term

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

certificates maturing on June 1, 2029 are subject to mandatory sinking fund redemption in part on June 1 of the years 2025 through 2028 before maturity without premium. There are also extraordinary redemption dates for the 2004A Certificates pursuant to the debt documents. The 2004A Certificates were issued at a premium of \$1.274 million. The 2004B Certificates were issued bearing interest at a weekly rate determined by J.P. Morgan Securities Inc., as the remarketing agent, and were issued without a premium or a discount. The 2004B Certificates are also subject to mandatory sinking fund redemption without premium, by lot, on June 1, 2015 through 2031, the final maturity year. The U of A realized net proceeds for the 2004A and 2004B Certificates of \$83.295 million after payment of \$1.399 million for issuance costs, underwriters discount and bond insurance. The net proceeds are being used to finance the Chemistry Building Expansion, the Highland Avenue Parking Garage, the Residence Life Building Renewal Phase I, and to refund in advance of maturity the Certificates of Participation Series 1994A with an outstanding principal balance of \$11.185 million at June 30, 2004. The advance-refunding generated an economic gain of \$297 thousand (difference between the present values of old debt and new debt service payments) for the U of A. The advance-refunding reduced the U of A's debt service by \$801 thousand in year 1 and \$502 thousand in year 2; however, annual debt service will increase by an average of \$56 thousand in year 3 through year 9 and \$1.5 million in the last year. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$765 thousand. This difference, reported in the accompanying financial statements as a deduction from long-term debt, is being charged to operations through the year 2013 using the straight-line method. The refunded Certificates of Participation Series 1994A will be paid by investments held in an irrevocable trust with a fair value of \$11.684 million. As a result, the refunded debt is considered to be defeased and is not included in the accompanying financial statements.

The U of A has outstanding at June 30, 2004, three variable rate Certificates of Participation: Series 1999B, 2000A, and 2004B, totaling \$104.200 million. These certificates bear interest at a weekly rate, determined by UBS Financial Services for the 1999B and 2000A Certificates and by J.P. Morgan Securities for the 2004B Certificates, as remarketing agents, with final maturity dates of June 1, 2024, June 1, 2025, and June 1, 2031 respectively. These certificates are subject to conversion, at the option of the Arizona Board of Regents, to an adjustable rate, an annual rate, or a term rate pursuant to the debt documents. If not converted, the 1999B, 2000A, and 2004B certificates will bear interest at a weekly rate not to exceed 12% per year determined under prevailing market conditions by the remarketing agent. The variable rate Certificates of Participation are subject to purchase on demand of the holder at a price equal to principal plus accrued interest on seven days' notice and delivery to the remarketing agents. If the remarketing agents are unable to resell the demand certificates, the U of A has Standby Purchase Agreements with Bayerische Landesbank to extend credit through the purchase of the un-remarketed certificates. Assuming all of the \$104.200 million COPs are not resold within 90 days, the U of A would be responsible to make annual installment principal payments of \$20.840 million over a five-year period, plus interest to be calculated as established in the Standby Purchase Agreements. Bayerische Landesbank charges the U of A an annual commitment fee on the outstanding principal for each of the Standby Purchase Agreements. The fees are 0.17%, 0.18%, and 0.19% respectively, for the Series 1999B, 2000A, and 2004B Certificates of Participation. The Standby Purchase Agreements are valid through November 30, 2015.

In fiscal year 2003, the U of A refunded, in advance of maturity, the Certificates of Participation Series 1994B and a portion of outstanding Certificates of Participation 2001B. At June 30, 2004, the outstanding principal balances for the Certificates of Participation Series 1994B was \$12.100 million and \$7.020 million for the Certificates of Participation Series 2001B, which will be paid by investments held in trust with a fair value of \$12.568 million and \$7.231 million respectively. These amounts are not included in the accompanying financial statements.

5. Arizona State University

In April 2004, Arizona State University (ASU) issued \$22.500 million of Refunding Certificates of Participation Series 2004, with an average rate of 2.40% to refund a portion of the outstanding 1993 ASU West refunding Certificates of Participation of \$22.400 million with an average interest rate of 5.18%. The net proceeds of \$23.300 million, after the net addition of \$800 thousand for premium, underwriting fees, and other issuance costs, were used to purchase U.S. Government securities which were deposited into a depository trust fund in order to retire the 2004 and 2006 through 2009 maturities of the 1993 Certificates of Participation. The refunded debt is considered defeased and related liabilities are not included in the accompanying financial statements. The issuance of the refunding Certificates of Participation at a lower interest rate than the rate of the refunded debt resulted in a \$900 thousand reduction in future debt service payments, with an economic gain of \$1.200 million based on the present value savings.

2030-2031	0	0	0	24,080	1,504	25,584
Total	<u>\$ 845,804</u>	<u>\$ 343,580</u>	<u>\$ 1,189,384</u>	<u>\$ 641,315</u>	<u>\$ 372,573</u>	<u>\$ 1,013,888</u>

D. LEASES AND INSTALLMENT PURCHASES

1. Leases

The total operating lease expenses for the fiscal year ended June 30, 2004, were \$29.812 million for governmental activities and \$18.528 million for business-type activities. The future minimum lease payments for long-term operating leases as of June 30, 2004, are summarized below (expressed in thousands):

Fiscal Year	Governmental Activities	Business-type Activities	Total
2005	\$ 26,621	\$ 2,698	\$ 29,319
2006	19,657	2,393	22,050
2007	13,319	1,956	15,275
2008	5,867	1,667	7,534
2009	2,492	313	2,805
2010-2014	531	-	531
Total Minimum Lease Payments	<u>\$ 68,487</u>	<u>\$ 9,027</u>	<u>\$ 77,514</u>

Many operating leases are for buildings and land leased by State agencies. Although these leases are considered to be long-term, they are cancelable under certain circumstances.

- * An agency must be able to cancel the lease if monies are not appropriated to cover the lease expenditures.
- * If an agency is ordered to move into State-owned property and a 60-day notice is given, the lease can be canceled without penalty.
- * In situations where the use of the leased property is dependent on the use of Federal monies, the lease must be cancelable in the event Federal monies are no longer available.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

The State has entered into capital lease agreements for the acquisition of buildings, telephone systems, copy machines and other equipment. Capital leases' assets and liabilities are reported on the government-wide Statement of Net Assets. A lease is reported as a capital lease if one or more of the following criteria is met:

- Title to or ownership of the asset is transferred to the State at the end of the lease.
- The lease contains a bargain purchase option.
- The lease term is equal to 75% or more of the useful life of the leased asset. (This criteria does not apply if the beginning lease term falls within the last 25% of the total useful life of the asset.)
- The present value of the minimum lease payments at the inception of the lease, excluding executory costs, equals at least 90% of the fair market value of the lease asset. (This criteria does not apply if the beginning lease term falls within the last 25% of the total useful life of the asset.)

The future minimum lease payments for long-term capital leases as of June 30, 2004 are summarized below (expressed in thousands):

Fiscal Year	Annual Debt Service	
	Governmental Activities	Business-type Activities
2005	\$ 11,996	\$ 7,780
2006	12,750	7,550
2007	12,913	6,999
2008	13,107	5,450
2009	13,132	5,362
2010-2014	61,450	19,407
2015-2019	69,731	11,349
2020-2024	79,099	12,167
2025-2029	57,083	21,827
2030-2032	-	2,659
Total minimum lease payments	331,261	100,550
Less: amount representing interest	(100,446)	(20,212)
Less: amount representing executory costs	(104,841)	-
Obligations under capital leases	<u>\$ 125,974</u>	<u>\$ 80,338</u>

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

2. Installment Purchases

The State has installment purchase contracts payable for acquisitions of computer and other equipment. Installment purchases assets and liabilities are reported in the government-wide Statement of Net Assets.

The future minimum payments for long-term installment purchases as of June 30, 2004, are summarized below (expressed in thousands):

Fiscal Year	Annual Debt Service	
	Governmental Activities	Business-type Activities
2005	\$ 2,115	\$ 1,180
2006	1,111	1,074
2007	739	867
2008	595	511
2009	280	446
2010-2014	-	1,613
2015-2019	-	342
Total future minimum payments	4,840	6,033
Less: amount representing interest	(238)	(995)
Obligations under installment purchases	\$ 4,602	\$ 5,038

3. Capital Assets Financed through Capital Leases and Certificates of Participation

The following table summarizes the historical costs of assets acquired under capital leases and certificates of participation:

	Governmental Activities	Business-type Activities
Land	\$ 6,078	\$ -
Construction in Progress	26,463	-
Buildings	280,986	428,714
Improvements other than Buildings	3,653	-
Equipment	45,768	-
	362,948	428,714
Less: Accumulated Depreciation	(91,667)	(46,063)
Carrying Value	\$ 271,281	\$ 382,651

E. LITIGATION

The amounts shown for the *Ladewig vs. Arizona Department of Revenue* settlement and the *Schofield vs. State of Arizona* settlement are further discussed in Note 11 – *Commitments, Contingencies, and Compliance*. The State has typically paid for litigation from the General Fund.

F. COMPENSATED ABSENCES

Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. The compensated absence liability attributable to governmental activities will be liquidated primarily by the General Fund. During fiscal year 2004, the State paid for compensated absences as follows: 78% from the General Fund, 12% from other major funds and 10% from other funds.

STATE OF ARIZONA

Other Long-term Liabilities:						
Compensated Absences	47,588	57,222	(53,794)	51,016	8,859	42,157
Total Other Long-term Liabilities	<u>47,588</u>	<u>57,222</u>	<u>(53,794)</u>	<u>51,016</u>	<u>8,859</u>	<u>42,157</u>
Total Long-term Obligations	<u>\$ 1,120,226</u>	<u>\$ 575,687</u>	<u>\$ (144,131)</u>	<u>\$ 1,551,782</u>	<u>\$ 49,929</u>	<u>\$ 1,501,853</u>

The above long-term obligations relating to governmental activities include internal service funds. Amounts for notes payable and compensated absences differ from those in the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets because liabilities of \$562 thousand of notes payable and \$11.052 million of compensated absences are attributable to internal service funds. These amounts are included in the reconciliation as part of internal service fund net assets.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

NOTE 7. INTERFUND TRANSACTIONS

INTERFUND BALANCES AND TRANSFERS

Interfund Receivables/Payables

Interfund balances, as of June 30, 2004, are as follows (expressed in thousands):

Due From	Due To							Total Due To
	General Fund	Transportation & Aviation Planning, Highway Maintenance & Safety Fund	Land Endowments Fund	Non-Major Governmental Funds	Non-Major Enterprise Funds	Internal Service Funds		
General Fund	\$ -	\$ -	\$ 214	\$ 33,315	\$ 305	\$ 2,217	\$ 36,051	
Transportation & Aviation Planning, Highway Maintenance & Safety Fund	62,325	-	-	5,967	106,261	-	174,553	
Land Endowments Fund	1,686	-	-	5,130	-	-	6,816	
Non-Major Governmental Funds	23,371	-	-	1,147	-	586	25,104	
Unemployment Compensation Fund	4	-	-	177	-	-	181	
Lottery Fund	4,431	-	-	3,872	-	-	8,303	
Non-Major Enterprise Funds	142,414	20,000	-	-	-	2	162,416	
Internal Service Funds	1,661	-	-	4	-	24	1,689	
Total Due From	\$ 235,892	\$ 20,000	\$ 214	\$ 49,612	\$ 106,566	\$ 2,829	\$ 415,113	

Interfund balances represent (1) amounts due to and from the internal service funds for goods and services rendered, and (2) cash transferred between funds for various interfund activities subsequent to the balance sheet date. The cash is recorded in the fund which initiated the transfer, and a corresponding liability is recorded. The receiving fund records an interfund receivable.

An interfund balance of \$61.397 million between the General Fund and the Transportation & Aviation Planning, Highway Maintenance & Safety Fund is not due until fiscal year 2008. The entire interfund balance between the General Fund and Non-Major Enterprise Funds is not due until fiscal year 2008. The entire interfund receivable in the Transportation & Aviation Planning, Highway Maintenance & Safety Fund is not due until fiscal year 2009. An interfund balance of \$103.346 million between the Transportation & Aviation Planning, Highway Maintenance & Safety Fund and Non-Major Enterprise Funds is not due until fiscal year 2008.

Interfund Transfers

Transfers for the year ended June 30, 2004 are as follows (expressed in thousands):

Transferred From	Transferred To						Total Transfers Out
	General Fund	Transportation & Aviation Planning, Highway Maintenance & Safety Fund	Non-Major Governmental Funds	Universities	Non-Major Enterprise Funds		
General Fund	\$ -	\$ 731	\$ 43,175	\$ 741,487	\$ 2,989	\$ 788,382	
Transportation & Aviation Planning, Highway Maintenance & Safety Fund	18,938	-	508,770	-	282	527,990

Non-Major Governmental Funds	228,076	53,772	12,691	-	123	294,662	
Unemployment Compensation Fund	17	-	1,637	-	-	1,654	
Lottery Fund	37,929	-	24,572	-	-	62,501	
Non-Major Enterprise Funds	2,000	-	-	-	-	2,000	
Internal Service Funds	1,657	-	1,014	-	-	2,671	
Total Transfers In	\$ 288,617	\$ 54,503	\$ 596,930	\$ 741,487	\$ 3,394	\$ 1,684,931	

Interfund transfers represent legally authorized non-exchange transfers of funds. These transfers include: (1) Legislative appropriations from the General Fund, (2) other legislative transfers, (3) statutorily required transfers, (4) transfers related to the elimination of funds, and (5) transfers for debt service.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

NOTE 8. ACCOUNTING CHANGES AND RESTATEMENTS

A. FUND FINANCIAL STATEMENTS

Fund Balances and Net Assets have been restated as follows (expressed in thousands):

	Universities	Investment Trusts	
Fund Balances, as previously reported	\$ 1,746,807	\$ 3,192,544	
Change in application of an accounting principle	(22,095)		
Prior year correction of errors		47,752	
Fund Balances/Net Assets, as restated	\$ 1,724,712	\$ 3,240,296	

B. GOVERNMENT-WIDE STATEMENT

Government-Wide Net Assets have been restated as follows (expressed in thousands):

	Governmental Activities of Primary Government	Business-type Activities of Primary Government	
Net Assets, as previously reported	\$ 11,967,761	\$ 2,733,773	
Change in accounting principle	45,812		
Change in application of an accounting principle		(22,095)	
Net Assets, as restated	\$ 12,013,573	\$ 2,711,678	

1. Change in Accounting Principle

The State implemented GASB Technical Bulletin No. 2004-1, *Tobacco Settlement Recognition and Financial Reporting Entity Issues*. The provision of the Technical Bulletin applicable to the State is the recognition of an accrual period for estimated tobacco settlement payments for the period January 1 through June 30, pursuant to the tobacco companies' Master Settlement Agreement. Accordingly, a receivable and deferred revenues have been accrued in the General Fund and revenues recognized at the government-wide statements for the governmental activities. In addition, the governmental activities Net Assets beginning balance was restated for the cumulative effect of applying this Technical Bulletin. This resulted in an increase of net assets of \$45.812 million. Refer to Note 12 for further discussion on the tobacco settlement.

2. Change in Application of an Accounting Principle

In fiscal year 2004, Arizona State University increased its capitalization threshold for equipment and works of art and historical treasures to \$5,000 to enhance asset management and capital asset data integrity. The decrease in net assets was \$22.095 million.

3. Prior Year Correction of Errors

Permanent Funds' investments in the Local Government Investment Pool were incorrectly excluded from fiscal year end 2003 Net Assets. The increase in net assets was \$47.752 million.

NOTE 9. FUND DEFICIT

The major contributor to the Industrial Commission Special Fund deficit of \$162.610 million is the \$145.198 million increase in the actuarial liability for several insolvent insurance carriers and self-insured plans. The Industrial Commission Fund is responsible for paying all current and future Arizona workers' compensation claims of these companies. Some of the claims expense will be recovered over a period of years as the Industrial Commission Special Fund receives liquidation distributions from the bankrupt companies. The deficit will also be recovered from the Industrial Commission reinstating assessments of gross

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

premium revenues received by the State Compensation Fund and privately owned insurance companies that provide workers' compensation insurance. The 2005 calendar year assessments percentage for the State Compensation Fund and privately owned insurance companies that provide workers' compensation insurance will be two and one-half percent, the largest amount currently authorized in Arizona law. The Industrial Commission has imposed no premium revenue assessments since calendar year 1992.

The Internal Service Funds deficit results from the following:

- Risk Management Fund (the "RMF") net losses in prior years. The RMF deficit of \$211.370 million is primarily due to the RMF receiving annual funding for "expected paid claims" (self-insured and excess insurance expenditures, legal and other claim related expenditures, and administrative expenditures). "Accrued insurance losses" of the RMF are not considered when determining funding for each fiscal year.
- The Sick Leave Liability Fund pays retirees their accumulated sick leave upon retirement from State service when they meet certain criteria. When a retiree submits an application to receive their sick leave benefits, the entire liability is recorded in the fund. The retirees receiving benefits are paid in three equal annual installments, however, State agencies pay for only one year based on a .4% charge on gross payroll. The \$5.228 million fund deficit is primarily due to the above funding mechanism.
- The Employee Benefits Fund collects medical and dental health insurance premiums from State employees and State agencies and remits those amounts to health and dental insurance carriers. At the beginning of each year, the estimated amount of premiums due is transferred from the General Fund to the Employee Benefits Fund to cover premium payments for the year. The amount transferred during fiscal year 2004 was not sufficient to cover billed health and dental insurance premiums. Additionally, at fiscal year end, amounts owed to insurance carriers are accrued as a liability, however, revenue related to this liability is not earned until the next fiscal year. The above two factors are the major contributors to the Employee Benefits Fund fund deficit of \$4.591 million at the end of fiscal year 2004.

NOTE 10. JOINT VENTURE

The University of Arizona (the University) is a participant in the Large Binocular Telescope Corporation (LBT). The LBT was formally incorporated as a nonprofit corporation in August 1992, pursuant to a Memorandum of Understanding, as amended, executed on February 24, 1989, between the University and the Arcetri Astrophysical Observatory in Florence, Italy (Arcetri). The purpose of the joint venture is to design, develop, construct, own, operate and maintain a binocular telescope currently being constructed in Arizona. The current members of the LBT are the University, Arcetri Research Corporation, Ohio State University and the LBT Beteiligungsgesellschaft.

The University has committed resources equivalent to 25% of the project's construction costs and the LBT's annual operating costs. As of June 30, 2004, the University has made cash contributions of \$14.0 million toward the project's construction costs. The University's financial interest represents its future viewing/observation rights. Upon completion of construction, viewing rights will be divided among the participants in proportion to their contributions. According to the audited financial statements of the LBT for the year ended December 31, 2003, assets, liabilities, revenues and expenses totaled \$92.0 million, \$3.0 million, \$8.0 million and \$2.0 million, respectively.

The LBT's separate audited financial statements can be obtained from LBT Project Office, Steward Observatory, University of Arizona, Tucson, AZ 85721-0065.

NOTE 11. COMMITMENTS, CONTINGENCIES AND COMPLIANCE

A. RISK MANAGEMENT INSURANCE LOSSES

The Department of Administration – Risk Management Section manages the State's property, environmental, liability and workers' compensation losses. The State has determined that the management of these losses can be performed effectively and efficiently through the Risk Management Section. Consequently, all agencies and the State's three universities are required to participate in this program. The State's Risk Management Section evaluates the proper mix of purchased commercial insurance and self-insurance annually.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

The Industrial Commission Special Fund provides payment of workers' compensation losses which are not covered by the State Compensation Fund, the Department of Administration – Risk Management Section, private insurance carriers, or self-insured employers. The workers' compensation claims paid by the Industrial Commission encompass losses against uninsured or underinsured employers, insolvent insurance carriers' payments for vocational rehabilitation, medical conditions incurred prior to 1973, apportionment claims for pre-existing industrial and non-industrial related physical impairments and compensation for loss of earnings associated with the disability. The Industrial Commission is totally self-insured.

The State records claims liability when the reported loss is probable and reasonably estimated. On an annual basis, independent actuarial firms are engaged to estimate the State's total year-end outstanding claims liability, which takes into account recorded claims and related allocated claims adjustment expenditures, salvage, subrogation, loss development factors and an estimate for incurred but not reported claims.

The management and payment of these losses is accomplished through the funding mechanism of the Risk Management Fund (Internal Service Fund) and the Industrial Commission Special Fund (Enterprise Fund). As discussed in the above paragraph, an independent annual actuarial analysis is performed to evaluate the needed funding. The Risk Management Section will assess each agency an annual portion of the necessary funding for the Risk Management Fund based on their exposures and prior loss experience. Interest and dividend earnings of investments and assessments on gross premium revenues currently fund the Industrial Commission Special Fund. To provide funding for workers' compensation claims, the Industrial Commission may direct payment to the State Treasurer an amount not to exceed one and one-half percent of all premiums received by the State Compensation Fund, private carriers and self-insured plans during the immediately preceding calendar year. Beginning in calendar 2004 a one and one-half percent assessment was levied under § 23-1065(A) because of a deficit net assets balance resulting from an increase in accrued insurance losses due to defunct insurance carriers.

The majority of the liability increase from July 1, 2003 through June 30, 2004 was the result of \$107.600 million Arizona workers' compensation claims from the defunct California domiciled Fremont Companies that were assigned to the State Compensation Fund (SCF) under § 23-966(A). Effective for 2005, the Industrial Commission approved an additional one-half percent Special Fund assessment under § 23-966(D), based on insolvent carrier losses, bringing the total to two percent before including the pending § 23-1065(F) one-half percent assessment based on the total apportionment liability. With the inclusion of the § 23-1065(F) assessment, the total of all three assessments for the Special Fund in 2005 would be two and one-half percent. Over the next three fiscal years of 2005, 2006, and 2007, a projected \$57.000 million will be received by the Special Fund from liquidated assets of insolvent carriers.

The Industrial Commission Special Fund discounts all benefit reserves at three and one-half percent, except for medical. Medical benefits are discounted at an assumed inflation rate equal to the investment rate of return earned by the Industrial Commission Special Fund. The State Compensation Fund, on behalf of the Industrial Commission, has filed pending proof of claim requests with ancillary receivers, liquidators holding deposits and surety bonds of several insolvent companies. Since the actual amount that will ultimately be received cannot be determined, the Industrial Commission will continue to recognize receipt of insolvent carrier deposits (no insurance settlement income) as revenue at the time received rather than recording a receivable.

Occasionally, the Risk Management Section agrees with claimants to purchase an annuity contract to settle these specific claims when it is determined that it is in the best interest of the State to do so. In these instances, the State requires the claimant to sign an agreement releasing the State from any further obligation. As a result of these requirements, the likelihood that the State will be required to make future payments on these claims is remote.

There have been no significant reductions in the current fiscal year insurance coverage. There have been no settlements that have exceeded insurance premium coverage in the last three years.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

The following table presents the changes in claims liabilities balances (short- and long-term combined) during fiscal years ended June 30, 2003 and June 30, 2004 (expressed in thousands):

Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claims Payments	Ending Balance
Risk Management Fund:				
2003	\$ 234,331	\$ 55,005	\$ 56,256	\$ 233,080
2004	233,080	68,430	58,382	243,128
Industrial Commission Fund:				
2003	187,665	69,355	17,282	239,738
2004	239,738	163,108	17,910	384,936

B. LITIGATION

In *Ladewig vs. Arizona Department of Revenue*, Ladewig is a class action tax refund case. The class members are seeking refunds for Arizona income tax paid on dividends received from corporations doing less than 50% of their business in Arizona during the years 1986 through 1989. The trial court held that such taxes violated the Commerce clause of the U.S. Constitution and certified the class. The class certification was upheld by the Arizona Supreme Court in 2001. The Tax Court approved a settlement in December 2002, however, three class members objected to the settlement and appealed to the Arizona Court of Appeals. The Court denied one appeal and dismissed the other two. A Petition for Review is pending at the Arizona Supreme Court. Accordingly, the State has recorded a long-term liability in its financial statements in the amount of \$291.746 million.

In *Kerr vs. Killian*, federal employees claimed an income tax refund on taxes paid on federal employee contributions. The Board of Tax Appeals granted these claims for the years before 1991, but has denied the claim for later years. The State did not appeal. The plaintiffs appealed for years after 1990. The Tax Court awarded attorneys fees from refunds the State is paying, and this ruling was upheld on appeal. The State has filed a petition for review. The attorneys' fees will be paid from funds otherwise due to taxpayers, so there will be little monetary effect on the State if the fees are awarded. The Tax Court has denied class certification, and ruled for the Plaintiffs on the merits regarding entitlement to refunds for years after 1990. The State appealed the substantive law issue and the Plaintiffs have appealed the denial of class certification, and the Court of Appeals ruled against the State. The Arizona Supreme Court held that Arizona's tax statutes after 1990 did not discriminate against federal employees based on the source of the income. The potential outcome is uncertain at this time. If this case were to have an unfavorable outcome, the State could incur losses ranging from \$20 million to \$70 million.

In *Roosevelt Elementary School District No. 66 vs. State of Arizona*, the plaintiffs allege the State failed to fully fund the Building Renewal Fund established by the Students FIRST legislation. On October 13, 2000, the court held that the State did not violate the statutory provisions regarding funding of the Building Renewal Fund for fiscal year 1998-99. However, the court held that neither party was entitled to summary judgment regarding funding for fiscal year 1999-00, and that in order to prevail on that claim, the plaintiffs would have to demonstrate that they were injured by the alleged underfunding. On February 21, 2002, the court granted the plaintiffs' motion to file an amended complaint, which included similar allegations regarding funding for fiscal year 2001-02. The parties both moved for summary judgment once again regarding the remaining claims in the case (fiscal years 1999-2000 and 2001-02), and on May 7, 2002, the trial court granted the plaintiffs' motion for summary judgment as to both years. The State timely appealed the decision to the Arizona Court of Appeals. On August 14, 2003, the Court of Appeals reversed the decision of the trial court and remanded the matter back to the trial court. Plaintiffs filed a petition for review in the Arizona Supreme Court, which was denied. The matter has been remanded to the superior court, and discovery is now ongoing. The potential outcome is uncertain at this time. If this case were to have an unfavorable outcome, it is possible that the State could incur losses of approximately \$88 million.

In the *Somerton Elementary School District No. 66 vs. State of Arizona*, the plaintiffs' claim is identical to that alleged in the *Roosevelt Elementary School District* case discussed above, except that it involves the level of State funding for the Building Renewal Fund for the fiscal year 2002-03. Because the issues raised in this case are identical to those raised in the *Roosevelt Elementary School District* case, it was assigned to the same trial court judge. The potential outcome is uncertain at this time. If this case were to have an unfavorable outcome, it is possible that the State could incur losses of approximately \$90 million.

In *Schofield vs. State of Arizona*, a class action for on-call compensation was filed on behalf of all current and former State employees who were required to be on-call after normal working hours under State Personnel Rule R2-5-307. The parties

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

entered a settlement agreement providing for the administration of individual claims by arbitrators. All State agencies, except the Department of Corrections (DOC), have completed the claims process. Accordingly, the State has recorded a long-term liability in its financial statements in the amount of \$12.7 million to settle DOC claims.

In *Smith vs. Winkelman* the plaintiffs have filed an action in Maricopa County Superior Court seeking an accounting, declaratory relief and damages for breach of trust. Damages are for the value of land disposed of by the State Land Department between 1929 and 1967 for approximately 600 rights of way that were issued without appraisal or auction, and without the payment of any compensation, plus interest or rent or lost revenues. The State has filed a motion to dismiss based on statute of limitations and other grounds. The plaintiffs have moved to reassign the case to a judge handling complex civil litigation. The State has opposed the motion to reassign. The potential outcome is uncertain at this time. If this case were to have an unfavorable outcome, it is possible that the State General Fund would have to pay the Land Endowments Fund between \$100 and \$500 million.

The State has a variety of claims pending against it that arose during the normal course of its activities. Management believes, based on advice of legal counsel, that losses, if any, resulting from settlement of these claims will not have a material effect on the financial position of the State. All losses for any unsettled litigation or contingencies involving workers' compensation, medical malpractice, construction and design, highway operations, employment practices, criminal justice, fidelity and surety, environmental property damage, general liability, environmental liability, building and contracts, auto liability, or auto physical damage are determined on an actuarial basis and included in the Accrued Insurance Losses of the Internal Service Funds and the Industrial Commission Special Fund.

C. ACCUMULATED SICK LEAVE

State employees are eligible to receive payment for an accumulated sick leave balance of 500 hours or more with a maximum of 1500 hours upon retirement directly from State service. The benefit value is calculated by taking the State employee's hourly rate of pay at the retirement date, multiplied by the number of sick hours at the retirement date times the eligibility percentage. The eligibility percentage varies based upon the number of accumulated sick hours from 25 percent for 500 hours to a maximum of 50 percent for 1500 hours. The maximum benefit value is \$30,000. The benefit is paid out in annual installments over three years. The Retiree Accumulated Sick Leave Fund is accounted for on the financial statements as an Internal Service Fund and accounts for the retiree accumulated sick leave. Unused accumulated sick leave of employees of the State, excluding Universities, at June 30, 2004, totaled \$309.559 million.

D. UNCLAIMED PROPERTY

The State of Arizona's Uniform Unclaimed Property Act requires deposit of certain unclaimed assets into a managed Agency Fund. ARS §44-313 requires a separate trust fund of not less than \$100 thousand to be retained for prompt payment of claims. The excess amount, above that which is required to be retained, is required to be deposited to the General Fund where it is included as other revenue. Under ARS §46-731, unclaimed utility deposits are deposited in the Utility Assistance Fund to help low income and elderly people make utility deposits and repairs. Monies in the Utility Assistance Fund shall not exceed \$1.0 million. Any amount in excess of \$1.0 million shall be deposited General Fund. Fifty-five and twenty percent of the remaining net cash collected, after refunds, is transferred to the Department of Commerce Housing Fund to be used for low-cost housing and the State Treasurer for distribution as provided for in ARS §5-113, respectively. The balance is to be deposited in the General Fund. For fiscal year 2004, \$1.308 million was deposited in the Utility Assistance Fund, \$20.708 million was deposited in the Housing Fund, \$7.530 million was deposited with the State Treasurer and \$8.044 million was deposited in the General Fund. A total of approximately \$298.240 million has been remitted since inception of the fund. In addition, the State is also holding securities valued at \$37.0 million, and mutual funds of \$6.283 million. The remittances to the General Fund and the holdings by the State represent contingencies, as claims for refunds can be made by the owners of the property. The Governmental Accounting Standards Board requires that a liability be reported to the extent that it is probable that escheat property will be reclaimed and paid to claimants. This liability is also reported as a reduction of revenue. This liability is reported in the General Fund because it is the fund to which the property ultimately escheats in Arizona. At June 30, 2004, this amount, reported as Due to Others in the General Fund, is \$76.580 million.

E. CONSTRUCTION COMMITMENTS

The Arizona Department of Transportation had outstanding commitments under construction contracts of approximately \$624.464 million at June 30, 2004.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

F. ARIZONA STATE LOTTERY

Annuities are purchased for all prizes over \$400 thousand for which winners will receive the jackpot in annual installments for the Pick on-line game. These annuities are purchased from qualifying insurance companies which have the highest ratings from among A.M. Best Company, Standard & Poor's, Moody, Duff & Phelps or Weiss. The Lottery remains contingently liable on all annuities. Aggregate future payments to prize winners on existing annuities totaled approximately \$233.103 million at June 30, 2004. Approximately \$162.730 million of the total aggregate future payments at June 30, 2004 relate to annuities purchased from five separate insurance companies, of which approximately \$69.601 million relates to a single insurance company.

In 1994, an insurance company from which the Lottery purchased annuities during the period 1983 through 1989 was placed under State supervision. At June 30, 2004, remaining aggregate minimum future payments on such purchased annuities approximated \$5.407 million. In 1997, an insurance company from which the Lottery purchased annuities in 1986 was placed under State supervision. At June 30, 2004, remaining aggregate minimum future payments on such purchased annuities approximated \$923 thousand. As of November 12, 2004, both insurance companies were current in their required annuity payments. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the operations or financial position of the Lottery.

NOTE 12. TOBACCO SETTLEMENT

The State is one of many states participating in the settlement of litigation with the tobacco industry over the reimbursement of healthcare costs. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The State expects to receive settlement payments through 2025.

During fiscal year 2004, the State implemented the applicable provisions of the Governmental Accounting Standards Board Technical Bulletin No. 2004-1, *Tobacco Settlement Recognition and Financial Reporting Entity Issues*. Accordingly, tobacco settlement revenue of \$92.550 million and \$91.601 million is recognized in the fund statements and the government-wide statements in fiscal year 2004, respectively. Refer to Note 8 for further discussion on the Technical Bulletin.

Future settlement payments are subject to several adjustments, but the amounts are not presently determinable. These adjustments include a "volume adjustment", which could reflect any decreasing cigarette production under a formula that also takes into account increased operating income from sales. Other factors that might affect the amounts of future payments include ongoing and future litigation against the tobacco industry and the future financial health of the tobacco manufacturers. Because the net realizable value of the future settlement payments is not measurable and there is no obligation for the tobacco companies to make settlement payments until cigarettes are shipped, the State did not record a receivable for the future payments related to cigarette sales after June 30, 2004.

NOTE 13. PUBLIC-PRIVATE PARTNERSHIP

The State of Arizona has entered into a partnership agreement with Accenture. The purpose of this partnership is to fund the Department of Revenue's technology needs. This agreement stipulates that Accenture will be paid 85 percent of the new revenue generated from the system enhancements, even if this amount is insufficient to cover the total contract cost. Accordingly, Accenture has created a system that increases the State's efficiency in collecting tax revenues. As of June 30, 2004, the State has paid Accenture \$17.175 million and accrued \$39.550 million towards the \$120.138 million contract cost. Included in the \$120.138 million contract cost, are application support charges of \$24.729 million.

NOTE 14. CONDUIT DEBT

In October 2003, the Greater Arizona Development Authority (GADA) issued \$11.230 million Infrastructure Revenue Bonds, Series 2003A for public infrastructure projects in the communities of the Town of Queen Creek, the City of Williams, and the Drexel Heights Fire District in the amounts of \$5.530 million, \$3.590 million and \$2.110 million, respectively. In February 2004, GADA issued \$12.955 million Infrastructure Revenue Bonds, Series 2004A for public infrastructure projects in the communities of the Town of Pinetop-Lakeside and the Cities of Apache Junction and El Mirage in the amounts of \$1.435 million, \$6.665 million, and \$4.855 million, respectively. GADA's bond structure provides lower borrowing costs for Arizona's communities by diversifying the risk to investors and by sharing financing costs among several borrowers. The GADA Fund is

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

leveraged when GADA issues its bonds, which maximizes loan capacity for communities. An intercept mechanism for intercepting state-shared revenues for loans to political subdivisions enhances the security of the GADA bonds even further.

In certain previous years, the State appropriated a total of \$20.0 million to GADA for the express purpose of securing bonds issued by GADA. As of June 30, 2004, the remaining balance in the appropriations account was \$16.607 million. The Series 2003A and 2004A bonds were issued by GADA to make loans to the participants listed above and constitute special and limited obligations of GADA. The principal of and interest on the bonds are payable solely from the funds which are held in Trust by the Trustee (the Trust Estate). The Trust Estate includes debt service payments required to be made by the respective participants in the Series 2003A and 2004A bond issues. The principal of and interest premium, if any, on the Series 2003A and 2004A bonds shall not constitute or give rise to a pecuniary liability on the part of the directors and officers of GADA. The Series 2003A and 2004A bonds do not constitute a legal debt of the State and are not enforceable against the State. At June 30, 2004, the outstanding face value of the Series 2003A and 2004A bonds was \$11.230 million and \$12.955 million, respectively, and the total outstanding face value of all bonds issued by GADA was \$65.510 million.

NOTE 15. SUBSEQUENT EVENTS

In July 2004, Northern Arizona University issued approximately \$38.0 million of Certificates of Participation (COPs) for various capital projects and renovations on the main campus. Northern Arizona University will be issuing approximately \$39.7 million of system revenue and refunding bonds in December 2004. Northern Arizona University will use \$15.0 million of the bonds for various capital projects and renovations on the main campus. The remaining \$24.7 million will be used to refund the Series 1997 system revenue bonds. These bonds are secured by a first lien on certain gross revenues and are on parity with the Series 2002 System Revenue Bonds, the Series 2002 System Revenue Refunding Bonds, and the Series 2003 System Revenue Bonds.

On July 16, 2004, the Arizona School Facilities Board issued \$246.600 million of State School Trust Revenue Bonds, Series 2004A, with interest rates ranging from 3.25% to 6.00%, and maturity dates ranging from 2006 to 2019. Series 2004A Bonds maturing after July 1, 2015 are subject to redemption and payment prior to maturity at the option of the Board. The 2004A Bonds are being issued to (i) refund and redeem the Series 2003A State School Trust Revenue Bonds, (ii) pay the costs of correcting existing deficiencies in school facilities within the State of Arizona, (iii) pay costs of issuance of the 2004A Bonds. Net proceeds totaled \$24.080 million after receipt of an original issue premium of \$25.788 million, payment of \$247.417 million to advance refund the Series 2003A Bonds, and payment of \$891 thousand of bond issuance costs.

On August 1, 2004, the Arizona School Facilities Board issued \$190.040 million of Certificates of Participation, Series 2004B, with interest rates ranging from 3.5% to 6.0%, and maturity dates ranging from 2006 to 2020. Series 2004B Certificates maturing on or after September 1, 2015 are subject to redemption and payment prior to maturity at the option of the Board. The 2004B Certificates are being issued (i) to finance the costs of acquiring leasehold interests in certain school sites and constructing and equipping thereon certain school facilities which will be subleased to various school districts within the State of Arizona, (ii) pay capitalized interest on the 2004B Certificates, and (iii) pay the costs of executing and delivering the 2004B Certificates. Net proceeds totaled \$200.000 million after receipt of \$16.260 million of original issue premium, payment of \$5.111 million of capitalized interest, and payment of \$1.189 million of issuance costs.

On September 8, 2004, the Arizona Department of Transportation issued \$188.260 million in Subordinated Highway Revenue Bonds, Series 2004B to (i) finance a portion of the Arizona Department of Transportation's Five-Year Construction Program, (ii) pay interest on any bonds issued for highway purposes, and (iii) pay costs of issuing the Series 2004B Subordinated Bonds. The 2004B Bonds are due July 1, 2012, through July 1, 2024. Net proceeds totaled \$200.0 million (after receipt of \$12.863 million reoffering premium and payment of \$1.123 million in underwriting fees and costs of issuance).

On October 27, 2004, the University of Arizona issued System Revenue Bonds Series 2004B in the amount of \$50.265 million dated November 1, 2004, to purchase a student housing complex from Southern Arizona Capital Facilities Corporation (SACFFC), and to refund in advance of maturity a portion of the University's System Revenue Bonds Series 1998 and System Revenue Bonds Series 2000A. The System Revenue Bonds Series 2004B bear interest rates ranging from 3% to 5% and mature in 2034. The complex consists of 150 units with 325 beds located on campus within the University of Arizona's planning boundary. SACFFC is an Arizona non-profit corporation formed to finance capital facilities construction.

On December 1, 2004, the Arizona School Facilities Board issued \$47.585 million of Certificates of Participation, Series 2004C, with interest rates ranging from 3.0% to 5.0%, and maturity dates ranging from 2007 to 2020. Series 2004C Certificates payable as to principal on or after September 1, 2015 are subject to optional prepayment prior to the scheduled principal payment date at

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

the option of the Board. The 2004C Certificates are being issued (i) to finance the costs of acquiring leasehold interests in certain school sites and constructing and equipping thereon certain school facilities which will be subleased to various school districts within the State of Arizona, (ii) pay capitalized interest on the 2004C Certificates, and (iii) pay the costs of executing and delivering the 2004C Certificates. Net proceeds totaled \$50.000 million after receipt of \$3.303 million of original issue premium, payment of \$523 thousand of capitalized interest, and payment of \$365 thousand of issuance costs.

NOTE 16. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – COMPONENT UNITS

The accounting policies of the State of Arizona's component units conform to U.S. generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB), except for those component units affiliated with the State's Universities. Because the component units affiliated with the Universities are not governmental entities, they follow Financial Accounting Standards Board (FASB) statements for not-for-profit organizations for financial reporting purposes. Each component unit has a June 30 year-end with the exception of the Law College Association, which has a May 31 year-end.

A. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The State's component units and component units affiliated with the Universities are presented using the economic resources measurement focus and the accrual basis of accounting. The State's component units follow FASB Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The State has chosen the option not to follow FASB Statements and interpretations issued after November 30, 1989, except for UMC, which has elected to apply the provisions of all relevant pronouncements of the FASB, including those issued after November 30, 1989, unless those pronouncements conflict or contradict GASB pronouncements.

1. Net Assets

Component units affiliated with the Universities classify net assets, revenues, expenses, gains and losses based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the component units affiliated with the Universities and changes therein are classified and reported as follows:

- *Unrestricted net assets* include assets and contributions that are not restricted by donors or for which such restrictions have expired.
- *Temporarily restricted net assets* include contributions for which donor imposed restrictions have not been met (either by the passage of time or by actions of the Foundations), charitable remainder unitrusts, pooled income funds, gift annuities, and pledges receivable for which the ultimate purpose of the proceeds is not permanently restricted. Donor-restricted contributions are classified as temporarily restricted if the restrictions are satisfied in the same reporting period in which the contributions are received, except for the Foundations associated with ASU, which classify such contributions as unrestricted.
- *Permanently restricted net assets* include contributions, charitable remainder unitrusts, pooled income funds, gift annuities, and pledges receivable which require by donor restriction that the corpus be invested in perpetuity and only the board-approved payout be made available for program operations in accordance with donor restrictions.

2. Cash and Cash Equivalents

Cash and cash equivalents includes monies held in certificates of deposit, overnight money market accounts, and money market funds. Cash and cash equivalents are stated at cost, which approximates fair value.

3. Investments

Investments are recorded in accordance with SFAS No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*. Under SFAS No. 124, entities are required to report investments in equity securities that have readily determinable fair values, and all investments in debt securities at fair value. Equities, fixed income, and mutual funds are stated at fair market value based on quoted market prices. Investment securities, in general, are exposed to various risks, such as

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

interest rate credit and overall market volatility. Investment income or loss (including realized and unrealized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses in the Statement of Activities.

4. Income Taxes

The Foundations qualify as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code and, accordingly, there is no provision for income taxes in the accompanying financial statements, except for the Collegiate Golf Foundation, and the ACFFC. In addition, they qualify for the charitable contribution deduction and have been classified as organizations that are not private foundations. Any income determined to be unrelated business taxable income would be taxable. The ACFFC and NACFFC are exempt from taxes under the provisions of Section 501(c)(4) of the Internal Revenue Code. The ACFFC does not qualify for the charitable contribution deduction.

5. Annuities Payable and Other Trust Liabilities

Annuities payable and other trust liabilities for the U of A Foundation are stated at the actuarially computed present value of future payments to the annuitants. The excess of the fair values of assets received (classified according to their nature in the Statement of Financial Position) pursuant to annuity agreements over the actuarially computed annuities payable (using market rates in effect on the contribution date) is recorded as contributions in the year received.

6. Contributions

Contributions are recorded in accordance with SFAS No. 116, *Accounting for Contributions Received and Contributions Made*. Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support depending on the existence and/or nature of any donor restrictions. All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets depending on the nature of the restriction.

7. Net Assets Released from Restriction

Expenses are not incurred in the temporarily restricted or permanently restricted net asset categories. As the restrictions on these net assets are met, the assets are reclassified to unrestricted net assets. The total assets reclassified are reported as net assets released from restriction in the accompanying statement of activities.

8. Use of Estimates

The preparation of the Universities-affiliated component units' financial statements in conformity with U.S. generally accepted accounting principles required management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

B. CASH AND INVESTMENTS

1. Component Units

A. Cash and Investment Policies

The University Medical Center's short-term investments are reported at cost, which approximates fair value. Long-term investments are reported at fair value as determined by quoted market prices.

The investments of the Water Infrastructure Finance Authority in Guaranteed Investment Contracts are stated at cost, since they are non-participating contracts. The other investments are stated at fair value, which approximates cost.

B. Investments Custodial Risk

The following tables summarize the credit risk of the investments (expressed in thousands). Category A includes investments that are insured or registered, or for which securities are held by the component unit or the component unit's agent in the component unit's name. Category B includes uninsured and unregistered investments for which securities are held by the counterparty's agent or trust department in the component unit's name. Category C includes uninsured and unregistered investments for which securities are held by the counterparty, or by its agent or trust department but not in the component unit's name.

2. Universities-Affiliated Component Units

A. Investment Summary

Investments of the Universities-affiliated component units are comprised of the following amounts at June 30, 2004. All investments are stated at fair value (expressed in thousands):

	ASU <u>Foundation</u>	U of A <u>Foundation</u>	NAU <u>Foundation</u>
Money market funds and cash equivalents	\$ 17,908	\$ -	\$ -
U.S. Government/agency obligations and mutual funds	-	63,878	9,538
Domestic/international equity securities and mutual funds	176,188	130,257	26,510
Fixed income	76,111	-	-
Corporate bonds	-	26,199	5,970
REIT fund, real estate and timber partnerships	-	7,198	44
Absolute return limited partnerships	-	27,183	-
Other investments	7,500	8,279	-
Total Investments	<u>\$ 277,707</u>	<u>\$ 262,994</u>	<u>\$ 42,062</u>

B. Endowment Trust Agreement

In March 2003, the ASU Foundation and Arizona State University entered into a trust agreement, appointing the ASU Foundation the trustee of selected University Endowments. In accordance with the trust agreement, the ASU Foundation receives a management fee for providing these services. Unrealized and realized gains and losses, and interest and dividends, if any, are added to or subtracted from the recorded value of the invested trust assets managed by the ASU Foundation. The invested trust assets are separate from ASU Foundation investments, and a corresponding liability is presented for the fair value of the invested trust assets managed for ASU.

C. Securities Lending Program

The U of A Foundation participates in a securities lending program established by Wells Fargo Bank, the custodian of the majority of the U of A Foundation's investment assets (the "Program"). Under the Program, the custodian makes the U of A Foundation's securities available for loan to selected brokerage firms and other borrowing organizations. Each loan is required to be collateralized in an amount equal to at least 102 percent of the market value of the loaned security and accrued interest thereon. Each loaned security is marked to market daily, and the custodian is required to ensure that collateralization remains at an amount of at least 102 percent on a daily basis. At June 30, 2004, \$33.819, \$34.305 and \$2.159 million in U.S. government and agency obligations, equity securities and corporate bonds, respectively, were in use under the Program.

C. PROGRAM LOANS

WIFA has made loans to local governments and others in Arizona to finance various projects pursuant to the requirements of the Clean Water and Safe Drinking Water Acts. The loans are generally payable in semiannual installments due January 1 and July 1 of each year, including interest. However, several loans are payable monthly or quarterly. Changes in the program loans during fiscal year 2004 are as follows (expressed in thousands):

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Clean Water Fund	\$ 229,934	\$ 85,453	\$ (22,912)	\$ 292,475
Drinking Water Fund	108,621	15,486	(7,412)	116,695
Total	<u>\$ 338,555</u>	<u>\$ 100,939</u>	<u>\$ (30,324)</u>	<u>\$ 409,170</u>

Repayment of these loans will be made from pledged property taxes, net revenues from the systems, transaction privilege taxes or from special assessments. Most loans have a .3 to 4.0 percent annual administrative fee.

Some program loans require a monthly or quarterly payment into a debt service reserve to assure payments of the loans. The debt service reserve is a liability of WIFA to the borrowers and interest on the reserve accrues to the borrowers.

D. DIRECT FINANCING LEASE AGREEMENT - UNIVERSITIES-AFFILIATED COMPONENT UNITS

For the ACFFC, there were, as of June 30, 2004, five projects that it owns. Four of the projects consist of three privatized, on-campus housing operations, and one on-campus privatized energy management arrangement, for which independent management companies are responsible for providing services to students served by ASU or for ASU itself. In conjunction with these privatized arrangements, the independent management companies, with the approval and assistance of ASU, have obtained tax-exempt financing in order to maximize the overall financial benefits to ASU and its students. The fifth project is a flexible display multi-use clean room facility, located at the Price-Elliott Research Park. This facility was acquired by ACFFC, due primarily to the seller not desiring to sell the facility directly to ASU. This facility is leased to ASU, with up to one-half of the facility being available for sub-lease by ASU to industry partners. The lease has been recorded by ASU as a capital lease.

For the ACFFC facilities, ASU is not legally responsible for repayment of the debt, and there is no pledge or guarantee by ASU for repayment of the debt. Upon final principal repayment by ACFFC of the outstanding debt for each project, and termination of the respective ground lease, title to the facilities effectively transfers to ASU.

Pursuant to a Sublease Agreement, Nanotechnology Research, LLC, a wholly-owned subsidiary of ACFFC, leases its interest in the Research Park to ASU, which will pay rent at times and in amounts sufficient to pay all principal and interest (after utilization of amounts held in the Capitalized Interest Accounts) on the Series 2004 Bonds, as well as all fees and expenses related to the Series 2004 Bonds. The Sublease Agreement is a net lease, and Nanotechnology is entitled to receive the rents and all other sums payable pursuant to the Sublease Agreement free from all taxes, charges, fees, and expenses, all of which will be paid by ASU.

The Sublease Agreement commenced on April 7, 2004, and continued until June 30, 2004, with successive automatic annual renewals for the period July 1 through June 30 of each year without action on the part of Nanotechnology or ASU, through the period ending March 31, 2034. The Sublease Agreement is subject to early termination by Nanotechnology or ASU upon payment in full of the Series 2004 Bonds.

Upon termination or expiration of the Sublease Agreement, Nanotechnology's interest in the premises, including all buildings and improvements on the leased premises, transfers to ASU without further consideration. Therefore, the lease is classified as a direct financing capital lease.

Lease payments are based on a variable interest rate currently determined on a weekly basis. The average interest rate approximates 1.22% at June 30, 2004. Lease payments commence once the Capitalized Interest Accounts are fully utilized, which at present interest rates is expected to be in 2007. ACFFC's net investment in this direct financing lease is \$35.000 million.

E. PLEDGES RECEIVABLE - UNIVERSITIES-AFFILIATED COMPONENT UNITS

Unconditional promises to give are included in the accompanying financial statements as pledges receivable and revenue of the appropriate net asset category. Unconditional promises to give are recorded at their net realizable value using various yields as determined by the University Foundations. The following summarizes unconditional promises as of June 30, 2004, except for the Law Association, which is as of May 31, 2004 (expressed in thousands):

	Net Pledges <u>Receivable</u>
ASU Foundation	\$ 50,616
U of A Foundation	\$ 30,932
Law Association	\$ 30,041

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

G. LONG-TERM OBLIGATIONS

1. Component Units

A. Arizona Power Authority

On September 12, 2001 the Arizona Power Authority (APA) issued \$57.520 million of Special Obligation Crossover Refunding Bonds (Crossover Bonds). Proceeds from the sale of the bonds along with a fund contribution by the APA were held in an escrow trust account invested in government securities until October 1, 2003 (the "Crossover Date") when a crossover refunding took place. The crossover refunding resulted in \$57.520 million of Special Obligation Crossover Refunding Bonds being exchanged for 2001 Series Power Resource Revenue Refunding Bonds of the same principle amount, maturity date and interest rates as the crossover bonds. In addition, as part of the crossover and as required by regulation, the APA applied an additional \$600 thousand of funds held in their Debt Service Reserve Account to effect the crossover transaction and called the \$62.630 million of the 1993 Series Power Resource Revenue Refunding Bonds maturing on and after October 1, 2005.

The proceeds in the government securities escrow trust account, together with the income realized from investment of trust assets, served as collateral for the Crossover Bonds and paid the debt service on those bonds until the Crossover Date. The Crossover Bonds were payable solely from the amounts in the escrow trust account and were not payable from any other source. Because they were not payable from revenues derived by the APA or secured by any assets held by the APA, neither the Crossover Bonds nor the assets held in the escrow trust account were reflected on the APA's Statement of Net Assets at June 30, 2003. However, in conjunction with the issuance of the Crossover Bonds, the APA deposited \$2.695 million with a crossover bond trustee which is reflected as "Cash with Trustee" in the APA's Statement of Net Assets at June 30, 2003.

As a result of the crossover refunding transaction on October 1, 2003, the 2001 Series Bonds are reflected as obligations of the APA at June 30, 2004 and the called portion of the 1993 Series Bonds are no longer outstanding and cease to be entitled to any lien on the revenues pledged to payment of those bonds. Instead, the revenue stream originally pledged to secure the called portion of the 1993 Series bonds "crossed over" to pay debt service on the 2001 Series Bonds on October 1, 2003. The 2001 Series Bonds bear interest at a rate of 5% and 5.25% payable on April 1 and October 1 of each year, commencing April 1, 2004 and maturing in 2017. In addition, the APA recognized an economic gain (difference between the present value of the old and new debt service payments) of \$2.096 million. The crossover refunding also resulted in the recognition of a deferred amount of \$2.412 million that has been reflected as a decrease in bonds payable and which will be amortized using the effective interest method as a component of interest expense over the life of the refunded bonds. The APA amortized \$200 thousand for the year ended June 30, 2004 resulting in a net deferred amount of \$2.212 million in the Statement of Net Assets. The APA also recognized a premium of \$3.537 million on the crossover refunding which has been reflected as an increase in bonds payable and which will be amortized using the effective interest method. The APA amortized \$293 thousand for the year ended June 30, 2004. The cash flows required to service the new debt are \$4.572 million less than the cash flows required to service the old debt.

In prior years, the APA defeased various issues of bonds by purchasing U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide future debt service until the call dates. As a result, those bonds are considered to be defeased and the liability has been removed from the Hoover Upgrading Fund. Accordingly, these trust account assets and related liabilities are not included in the accompanying financial statements.

B. University Medical Center

In March 1992, the University Medical Center (UMC) issued \$28.405 million of Hospital Revenue Bonds (the Series 1992 Bonds) and in May 1993, the UMC issued \$54.750 million of Hospital Revenue Refunding Bonds (the Series 1993 Bonds). The proceeds of the Series 1992 Bonds and the Series 1993 Bonds were used to advance refund a portion of prior bonds. In March 2004, the UMC issued \$52.000 million of Hospital Revenue Bonds (the "Series 2004 Bonds"). The Series 2004 Bonds were issued at a net premium to yield an effective interest rate of 4.82% and were used in part to advance refund the Series 1992 Bonds.

The UMC is subject to certain financial covenants under the Master Trust Indenture (the Indenture), with which the UMC is in compliance as of and for the year ended June 30, 2004. In addition, the Indenture places certain restrictions on the incurrence of additional indebtedness and the sale or acquisition of property.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

The UMC has established and maintains separate funds as a bond reserve fund on outstanding bonds payable. These funds totaled \$8.540 million at June 30, 2004 which are held by the trustee and are reflected as restricted investments held by trustee in the accompanying financial statements.

The bonds or other obligations of the UMC do not constitute general obligations of the Arizona Board of Regents, the University of Arizona, the State of Arizona or any political subdivision thereof.

C. Water Infrastructure Finance Authority

The Water Infrastructure Finance Authority (WIFA) issued Financial Assistance Revenue Bonds in 1992, 1995, 1996, 1997 and 1998. The WIFA also issued Capitalization Revenue Bonds in 1992, 1995, 1996, and 1997. WIFA also issued Water Quality Refunding Bonds in 1999, 2001 and 2004. The bonds are callable and interest is payable semiannually. The bonds are special obligations of the WIFA payable solely from and secured by the WIFA's assets. The bonds are not obligations, general, specific or otherwise, of the State of Arizona or any other political subdivision thereof other than the WIFA.

Bond premiums are being amortized over the life of the bonds. The amortization for the year ended June 30, 2004, is \$292 thousand and is offset against interest expense.

On September 8, 1999, the WIFA issued \$64.000 million of Water Quality Refunding Bonds to advance refund all of the 1991A bonds, and part of the 1992A, 1995A, and 1996A bonds. Under the terms of the refunding issue, sufficient assets to pay all of the principal and interest on the refunded bonds have been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with the interest earned thereon, will provide amounts sufficient for future debt service requirements of the refunded bonds. The amount outstanding on the refunded bonds as of June 30, 2004 is \$19.230 million. These bonds have been defeased through advanced refunding and, therefore, the corresponding liability has been removed from the accompanying financial statements.

The \$1.688 million deferred loss on retirement of bonds is being amortized over the lives of the defeased bonds on the straight-line basis. The amortization for the year ended June 30, 2004, is \$142 thousand and has been included in interest expense.

On April 7, 2004, WIFA issued \$97.100 million of Water Quality Refunding Bonds to do an advance refunding of part of the 1992, 1997A, 1998A and 2001 bonds. Under the terms of the refunding issue, sufficient assets to pay all principal and interest on the refunded bond issues have been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest on the issues refunded. The amount outstanding on those bonds as of June 30, 2004 is \$97.100 million. These bonds are fully defeased, and, therefore, the corresponding liability has been removed from the accompanying financial statements.

The net present value cash flow savings on issuing the refunding bonds at 3.213% bond yield was \$3.120 million.

The \$8.336 million deferred amount on retirement of bonds is being amortized over the lives of the defeased bonds on a straight-line basis. No amortization for the year ended June 30, 2004 was taken on the deferred amount.

During fiscal year 2004, WIFA issued \$195.980 million of Water Quality Revenue Bonds, Series 2004, due in annual principal installments ranging from \$5.500 million to \$15.080 million, plus semi-annual interest ranging from 2.0% to 5.0% through October 1, 2024.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2004

Summary of Revenue Bonds

The following schedule summarizes revenue bonds outstanding at June 30, 2004 (expressed in thousands):

Revenue Bonds Outstanding	Dates Issued	Maturity Dates	Interest Rates	Outstanding Balance at June 30, 2004
Component Units:				
Arizona Power Authority	2001-2004	2005-2017	5.0-5.25%	\$60,065
University Medical Center	1992-2004	2005-2033	4.82-6.11%	99,425

H. ACCOUNTING CHANGES AND RESTATEMENTS

1. Prior Year Correction of Errors

Net Assets have been restated as follows (expressed in thousands):

	Component Units
Net assets, as previously reported	\$ 333,397
Prior year correction of errors	(284)
Net assets, as restated	<u>\$ 333,113</u>

The Water Infrastructure Finance Authority had a borrower refinance their loan in a prior period. In that process, part of the balance of the old loan was not removed from program loan receivables. The decrease in net assets was \$790 thousand. Also, for a prior period, the Water Infrastructure Finance Authority recognized an administrative draw from grant funds as deferred revenue. It should have been recognized as revenue. The increase in net assets was \$506 thousand. For both adjustments, the net decrease in net assets was \$284 thousand.

2. Change in Accounting Principle

As a result of implementing GASB Statement No. 39 – *Determining Whether Certain Organizations Are Component Units*, an amendment to GASB Statement No. 14 during fiscal year 2004, no restatements of beginning net assets will be reported in the year of implementation.

3. State Compensation Fund

The State Compensation Fund (the Fund) was reported in the CAFR as a discretely presented component unit (shown as separate financial statements) presented on the statutory basis of accounting in prior years. Component unit determination was based on the criterion set forth in GASB Statement No. 14 - *The Financial Reporting Entity*, that the State had the ability to impose its will on the Fund. The Fund challenged State House Bill 2002 Section 21 that directed a transfer of monies from the Fund to the State’s General Fund with the argument it would violate Arizona Constitution. The court ordered granting the Fund’s Motion for Summary Judgment during fiscal year 2004, citing that the rights of the contributing employers are vested rights that the Arizona Constitution provides shall not be impaired by any law and this transfer would interfere with the contracted rights, responsibilities and expectations of the parties to the contract. As a result of this decision, the State is not considered to have imposition of will and the Fund is not presented as a component unit in fiscal year 2004. Instead, the Fund is defined and disclosed as a related organization (see Note 1).

I. RELATED PARTY TRANSACTIONS

University Medical Center

The University Medical Center (UMC) and the U of A both provide and receive services from each other under various contracts. Payments to the University by the UMC include resident and intern salaries, utilities, ground maintenance, mailroom operations and various administrative functions. Amounts paid to the University for these services were approximately \$16.313 million for the year ended June 30, 2004.

The UMC has entered into contractual agreements with the University to provide support for the academic mission of the University. Charges to the University for such services and facilities provided by the UMC were approximately \$9.80 million for the year ended June 30, 2004. These amounts are included in other operating revenue in the accompanying financial statements.

University Physicians, Inc. (UPI) is a not-for-profit corporation whose members are physicians employed by the University and who practice at the UMC. The UMC has agreements with UPI whereby the UPI provides physician and other services to the UMC. The UMC also has an agreement to provide healthcare services to members of a health plan owned by UPI.

Effective July 1, 2003, the UMC became the region’s sole Level I Trauma Center and entered into an arrangement with UPI to pay trauma physician call pay. Funding for the physician call pay was derived primarily from funds designated by the State of

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

Arizona to cover trauma readiness costs. During 2004, amounts incurred for these services totaled \$3.118 million. As of June 30, 2004, accrued expenses include approximately \$418 thousand payable to UPI for these services. These amounts were funded primarily by amounts the UMC received from the State of Arizona during fiscal year 2004 and in August 2004.

J. JOINT VENTURE

University Medical Center

The University Medical Center entered into a joint venture with Med-Forte Research Foundation, a Utah Corporation and an affiliate of the University of Utah, to form CardioWest Technologies, Inc. (CardioWest) in 1991. CardioWest was established to continue research and production of artificial heart technology and similar products. During 2002, the University Medical Center sold certain assets of CardioWest in exchange for a note receivable in the original amount of \$1.0 million and 15,000 shares of common stock of a newly formed company, Syncardia Systems, Inc. There was no material gain or loss on the sale of the assets.

K. SUBSEQUENT EVENTS

Subsequent to June 30, 2004, \$22.4 million of Variable Rate Revenue Bonds, Tax Exempt Series A 2004, and \$12.1 million Variable Rate Revenue Bonds, Taxable Series B, were sold by the Industrial Development Authority of the City of Tempe, Arizona. The net proceeds of these bonds, upon closing, were lent to ASUF Brickyard, LLC, a wholly-owned subsidiary of the Arizona State University Foundation, to acquire, improve, and equip a retail and office building located at Mill Avenue and Seventh Street in Tempe, Arizona.

Also, subsequent to June 30, 2004, the ASUF Scottsdale, LLC, a wholly-owned subsidiary of the Arizona State University Foundation, signed a 99-year lease with the City of Scottsdale to develop the ASU/Scottsdale Center for New Technology and Innovation. Development plans include approximately 1.2 million square feet of space, with approximately 90% devoted to research and related office space, and 10% devoted to retail businesses.

In September 2004, the University of Arizona sought approval from the Arizona Board of Regents to issue \$21.9 million of bonds to purchase the La Aldea project from Southern Arizona Capital Facilities Finance Corporation and assume management responsibilities. As a result of significant operating losses on the La Aldea project, the related bonds are in technical default and the management agreement is subject to termination. Southern Arizona Capital Facilities Finance Corporation would use the net proceeds to redeem the bonds and pay outstanding construction costs.

At a meeting held on September 28, 2004, the board of Northern Arizona Capital Facilities Finance Corporation (the "NACFFC") unanimously authorized the remarketing of the existing bonds to a fixed rate product as soon as possible, and authorized the sale of new bonds not to exceed \$30.0 million for the purpose of constructing new student housing. The board also authorized the manager of the student housing facility to develop and negotiate capital lease agreements between the NACFFC and Northern Arizona University for both the current housing project, and the proposed new project for subsequent presentation to the board.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULES
 JUNE 30, 2004

A. RECONCILIATION OF BUDGETARY TO GAAP EXPENDITURES

The accompanying Budgetary Comparison Schedules for the General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund present comparisons of the legally adopted budget with actual expenditure data on the budgetary basis. The original budget represents any appropriation bills passed by June 30, 2003 that affect available appropriations during fiscal year 2004. The final budget represents any appropriation bills passed during fiscal year 2004 for fiscal year 2004 plus the original budget. Appropriation bills passed after the end of fiscal year 2004 for fiscal year 2004 would also be included in the final budget.

The Budgetary Comparison Schedules present actual amounts on the State's budgetary basis for expenditures only. The Schedules include appropriations authorized in one fund and transferred, by legislation, to another fund. The State does not have a legally adopted budget for revenues; therefore, only expenditures are presented on the Budgetary Comparison Schedule, Expenditures for the General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund. As the budgetary and GAAP presentations of actual data differ, a reconciliation of the two follows (amounts expressed in thousands):

	General Fund	Transportation & Aviation Planning, Highway Maintenance & Safety Fund
Uses/outflows of resources		
Actual expenditure amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	\$ 10,241,521	\$ 721,422
Differences - budget to GAAP:		
Increase (decrease) in unpaid incurred expenditures from fiscal year end 2003 to fiscal year end 2004.	(17,412)	375,467
(Decrease) in unpaid payroll expenditures from fiscal year end 2003 to fiscal year end 2004. For budgetary reporting, final June 2004 payroll expenditures were charged to fiscal year 2005 budget.	(1,039)	-
Distributions to counties and cities of sales taxes are recognized as expenditures on the modified accrual basis, but have no effect on budgetary expenditures.	756,605	-
Distribution to counties and cities for Urban Revenue Sharing, derived from the State's income tax collections, is recognized as an expenditure on the modified accrual basis, but has no effect on budgetary expenditures.	365,065	-
Capital leases and installment purchase contracts initiated during the fiscal year, which are not reported in budgetary expenditures.	21,485	-
Programs which are not controlled by legislative appropriations but have disbursed cash or incurred obligations during fiscal year 2004.	3,759,547	1,418,097
Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes.	(788,382)	(527,990)
Total expenditures, as reported on the Statement of Revenues, Expenditures and Changes in Fund Balances	<u>\$ 14,337,390</u>	<u>\$ 1,986,996</u>

There were no expenditures in excess of appropriations or allotments in the individual budget accounts for the year.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULES
JUNE 30, 2004

B. BUDGETARY BASIS OF ACCOUNTING

Formulation of the budget begins with the preparation of estimates of expenditure requirements by the head of each budgeted agency and institution. These estimates are submitted no later than September 1 of each year to the Governor's Office of Strategic Planning and Budgeting. The budget is prepared by line item and/or program elements for each agency.

The budget document, as finally developed by the Governor, must be submitted to the Legislature no later than five days after the regular session convenes. The Legislature must approve the budget by passing a general and a capital outlay appropriation bill. The Governor may veto any item in an appropriation bill. Such vetoes are subject to legislative overrides. The budget can be amended throughout the year by special legislative appropriations and/or budget transfers. The State's Constitution prohibits budgeted expenditures from exceeding 7.41 percent of aggregate personal income as estimated by the Economic Estimates Commission.

The State prepares its operating budget on the cash basis of accounting. Encumbrances as of June 30 can be liquidated during a three-week administrative period known as the 13th month. At the time of the appropriation bill's passage, estimates prepared by legislative and executive branch professional staff assure the State Legislature that adequate revenues will be available to meet the level of appropriations approved. Anticipated revenue is estimated on the cash basis but is not part of the legally adopted budget. Consequently, the accompanying Budgetary Comparison Schedules only present budget to actual expenditure comparisons.

The Budgetary Comparison Schedules present all appropriation line items as passed by the State Legislature in order to demonstrate compliance with the legal level of budgetary control.

The State budgets on both an annual and biennial basis. Laws 2001, Chapter 236 appropriated biennial budgets for all state agencies. In biennial budgets, an agency receives a separate appropriation for each of two fiscal years. For "small" regulatory agencies, comprised of five to ten people, whose budgets were merely amended for technical adjustments in Laws 2002, Chapter 327, the first year appropriations do not lapse until the end of the second year. Except where specifically noted by the appropriation bills, the appropriations for all other agencies lapse at the end of each fiscal year. For the "large" fifteen state agencies, Laws 2002, Chapter 210 returned their budgets to a "one" year cycle beginning with the 2003 Legislative Session (fiscal year 2004 budget request). In prior years the "large" agencies have accounted for approximately ninety percent or more of the appropriations for the General Fund.

The budget format used by the State Legislature determines how an agency's appropriation appears in the General Appropriations Act. A less detailed format provides an agency with more discretion in implementing the budget. Conversely, a more detailed format may require an agency to use formal processes for redirecting appropriated funding. Among the possible format choices are the following:

Lump Sum – The appropriation of an agency for each fiscal year consists of a single dollar amount, thereby allowing the agency to shift funds among line items, programs and subprograms without further Legislative or Executive Branch review. Within this format, any programs or Special Line Items may be listed separately.

Modified Lump Sum – The appropriation of an agency for each fiscal year consists of at least three lines: Personal Services, Employee Related Expenditures and All Other Operating Expenditures. Any Special Line Items would be listed separately. Under this format, pursuant to ARS §35-173, an agency must seek approval of the Joint Legislative Budget Committee before moving any funding into or out of the Personal Services and Employee Related Expenditures line items. Any other funding transfers would require approval by the Department of Administration (ADOA), but not the Joint Legislative Budget Committee.

Detailed Line Item – The agency appropriation for each fiscal year consists of each line item listed in the Appropriation Report including Professional and Outside Services, Travel, Other Operating Expenditures, Equipment, Food and any Special Line Items. The same rules govern Personal Services and Employee Related Expenditures funding transfers as noted in the Modified Lump Sum description. This appropriation format requires an agency to seek ADOA approval before initiating funding transfers between all line items.

STATE OF ARIZONA
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULES
JUNE 30, 2004

During the fiscal year, \$374.653 million in supplemental appropriations net of increases and reversions were provided to major and non-major governmental funds to enhance various programs. The General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund received \$281.318 and \$1.247 million, respectively, and those amounts are included in the Budgetary Comparison Schedules.

State agencies are responsible for exercising budgetary control and ensuring that expenditures do not exceed appropriations. The State Department of Administration – Financial Services Division exercises oversight and does not disburse funds in excess of appropriations.

The Governor shall have in continuous process of preparation and revision a tentative budget report for the next two ensuing years for which a budget report is required to be prepared.

Whenever the expenses of any fiscal year shall exceed the income, the Legislature *may* provide for levying a tax for the ensuing fiscal year sufficient, with other sources of income, to pay the deficiency, as well as the estimated expenses of the ensuing fiscal year.

All expenditure of the State's money must be authorized by law. Authorization can be granted directly by law or contingent upon appropriation from the State Legislature. Periodically, the State Legislature may appropriate monies for program expenditures already authorized by law, resulting in duplicate spending authority. In appropriating monies, the State Legislature has, in some cases, included external funding sources as a portion of an agency's total program expenditure authorization (budget) and has identified the external funding sources as an offset against the program appropriations total in order to reflect the State funding amount. An example of this is found in the Department of Economic Security's Long Term Care appropriation line items on pages 129 and 130. Accordingly, sometimes program expenditures may not exhaust specific legislative appropriations. To properly present the total budget (appropriation) information, in relationship to "actual" expenditure amounts, duplicate expenditure authorizations have been eliminated from general fund budget (appropriation) totals on page 139.

INFRASTRUCTURE ASSETS
JUNE 30, 2004

Information About Infrastructure Assets Reported Using the Modified Approach

As allowed by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments* (GASB 34), the State of Arizona reports its roads and bridges using the modified approach. Assets accounted for under the modified approach include 6,912 center lane miles (18,391 travel lane miles) of roads and 4,488 bridges that the State is responsible to maintain.

In order to utilize the modified approach, the State is required to:

- Maintain an asset management system that includes an up to date inventory of eligible infrastructure assets
- Perform condition assessments of eligible assets and summarize the results using a measurement scale
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the State
- Document that the assets are being preserved approximately at or above the established condition level

As adopted by the State Transportation Board on an annual basis, the Five-Year Transportation Facilities Construction Program contains estimated expenditures for highway system improvements and the preservation of existing roadway’s and bridges. Both of these factors impact the condition assessment of the roads and bridges as described in the following sections. The Five-Year Transportation Facilities Construction Program, in effect for fiscal year 2005 and beyond, was adopted by the Transportation Board on June 18, 2004.

This program is a dynamic instrument and adjustments are made to the annual plans based on the needs of the State to maintain the condition level of the roads and bridges at a level equal to, or greater than, the goals established by the State. In addition, not only are adjustments made during the life of the Five-Year Transportation Facilities Construction Program, circumstances may require that refinements to the individual components of the Program be made during the fiscal year.

In comparing Estimated to Actual Expenditures, significant variances can occur. These variances are primarily due to the methodology used in the preparation of the Program. In this Program, the Estimated Expenditures for the current year are based on “programmed” projects which may or may not be spent in the current year of the Program. “Programmed” expenditures consist of those items that are planned for the future and contracts that have not yet been awarded. Furthermore, the Actual Expenditures will include projects that were “programmed” for a prior year’s Estimated Expenditures but which did not occur, or were not completed, in the prior year.

The following information pertains to the condition assessment and maintenance of infrastructure assets and reflects the State’s success in achieving condition levels that exceed the established levels.

Roads

The mission of the ADOT Pavement Management Section (PMS) is to develop and provide a cost effective pavement rehabilitation construction program that preserves the State’s investment in its highway system and enhances public transportation and safety. The requirements of GASB 34 and the ADOT PMS both work toward the same basic goal, the efficient, effective management of the State’s assets to produce long term benefits, while minimizing expenditures.

The PMS has developed performance goals for the condition level of the pavement in the State’s highway system. These goals require periodic assessment of pavement conditions and the budget level needed to meet that goal. The goal is expressed as a measure called “Serviceability”, which can be defined as the ability of a pavement to serve the travelling public (as documented in 1961 after AASHTO Road Test, 1956-1961). Serviceability is based on detailed measurements of objective features of the pavement and many surveys since the original road test have shown that these measurements closely track the subjective opinion of the travelling public. Most commonly, this

STATE OF ARIZONA
 REQUIRED SUPPLEMENTARY INFORMATION
INFRASTRUCTURE ASSETS
 JUNE 30, 2004

number is called “Present Serviceability Rating” (PSR). PSR is a five-point scale (5 excellent, 0 impassable), similar to the Weaver/AASHTO Scale shown as follows:

Numerical Rating	PSR	Weaver/AASHTO Scale
5	Excellent	Perfect
4	Good	Very Good
3	Fair	Good
2	Poor	Fair
1	Very Poor	Poor
0	Impassable	Very Poor

The goal of the State is to maintain a condition level (PSR) rating of 3.23 or better for all roads in the State’s highway system. Annually, Transportation Material Technicians drive over the system with inertial profiling equipment and measure the roughness of the pavement. This process is continuous throughout the year in order to assess the condition level of all pavement on an annual basis. As of the end of fiscal year 2004, an overall rating of 3.8 was achieved, as shown in the following graph:

Figure 1

Preservation of the roads is accomplished through programs managed by the ADOT PMS, as well as other units within the Department. The estimated (as specified in the Program as programmed amounts) and actual expenditures for fiscal years 2002 through 2004 were as follows:

	Estimated Expenditures (in millions)	Actual Expenditures (in millions)
2002	\$227.4	\$234.8
2003	\$243.5	\$220.8
2004	\$198.5	\$215.5

STATE OF ARIZONA
 REQUIRED SUPPLEMENTARY INFORMATION
INFRASTRUCTURE ASSETS
 JUNE 30, 2004

Bridges

Bridges constitute a significant portion of all infrastructure assets in Arizona. As of June 30, 2004, the State owns and maintains 4,488 bridges with an approximate total deck area of 41,189,551 square feet. Bridges, for purposes of this report, include all structures erected over an opening or depression with a centerline of 20 feet or more. Information related to these bridges is stored and updated in the Arizona Bridge Information and Storage System (ABISS). This system is used to efficiently manage the bridge inventory through storing all bridge-related data and assist bridge engineers in arriving at appropriate bridge preservation decisions. Also, ABISS is used for reporting bridge inventory and condition, on a biennial basis, to the Federal Highway Administration (FHWA).

A Condition Rating Index (CRI) is used to track the condition of the bridge network. The CRI is based on four selected bridge inspection condition ratings, which in turn are based on standards established in the FHWA's Recording and Coding Guide for the Structural Inventory of the Nation's Bridges. The four selected condition ratings that are included in the CRI computation are: the bridge joints condition, the deck condition, the superstructure condition, and the substructure condition. The bridge joints condition rating is an Arizona specific rating item not included in the FHWA condition rating guidelines, whereas the three other condition ratings are federally mandated condition ratings. The CRI is computed by subtracting from one the ratio of the sum of the deck areas of all bridges with a condition rating of four or less, which indicates that the rated element is at best in a poor condition, to the total sum of the deck areas. The rating system in this guide is as follows:

Numerical Rating	Condition Rating
9	Excellent
8	Very Good
7	Good
6	Satisfactory
5	Fair
4	Poor
3	Serious
2	Critical
1	Imminent Failure

Management of the bridge inventory is a major function of ADOT's Bridge Group, and regularly scheduled biennial inspections are made of all bridges. A civil or structural engineer, licensed to practice in Arizona, performs these inspections. It is the policy of the State to maintain State highway bridges so that the CRI exceeds 92.5%. In fiscal year 2004, the CRI was computed at 93.8%.

Figure 2

Bridges represent a major public investment and their inspection and maintenance is an essential function of the State in its mission of products and services for a safe, efficient, and cost effective transportation system. Figure 3 indicates that approximately 65% of the bridges in the State were constructed prior to the 1970s while only 22% have been constructed in the last two decades.

Age of ADOT's Bridge Population

NON-MAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

The School Facilities Revenue Bond Proceeds Fund accounts for the receipt of the Education Transaction Privilege Revenue Bond proceeds. Funds are restricted to be expended to (1) pay the costs of correcting existing deficiencies in public school facilities for grades K-12, (2) pay bond related expenses, and (3) fully or partially fund any reserves or sinking fund accounts established by the bond resolution.

The Public Safety and Correctional Programs Fund accounts for law enforcement, military, custody, and related services provided to the general public.

The Environmental Protection Fund accounts for the protection of the State's public health by administering the State's environmental quality laws and delegating federal programs to prevent, control, and abate pollution of our air, water, and land resources.

The Healthcare and Social Services Fund accounts for health and welfare services provided to the general public.

The Tobacco Tax and Healthcare Fund accounts for the receipt of monies levied on tobacco products. The monies are used for health education programs; research, prevention and treatment of tobacco related diseases; and medically needy healthcare programs.

The Judicial and Legal Services Fund accounts for the anti-racketeering, consumer protection, consumer fraud, anti-trust, and collections enforcement programs of the Attorney General's Office and statewide court improvement functions supervised by the Arizona Supreme Court.

The Regulating and Licensing Fund accounts for inspection and regulatory services provided to the general public.

The Game and Fish Fund accounts for the receipt of monies collected by the Department of Game and Fish for various hunting and fishing licenses, for the purpose of conserving, enhancing, and restoring Arizona's diverse wildlife resources and habitats, as well as providing safe watercraft and off-highway vehicle recreation.

The State Parks Development Fund accounts for the receipt of monies collected by the State Parks Fund for the purpose of acquiring and developing State park land, sites and facilities.

The Business Development Fund accounts for the promotion of statewide economic and community development, which supports a globally competitive Arizona.

The Educational Programs Fund accounts for supplemental building needs and instructional improvement programs specifically identified in a voter initiative that enacted a six-tenth of one percent statewide sales tax dedicated to education functions. The Educational Programs Fund supports programs from the kindergarten through university educational levels.

The Groundwater Protection and Conservation Fund accounts for statewide water protection planning; storage of Colorado River water; statewide water and groundwater conservation; county and metropolitan areas water use and dam repairs. All of these programs are the responsibility of the Department of Water Resources.

The Clean Elections System Fund accounts for fines and fees collected to pay for campaign expenses of statewide candidates and state legislative candidates who choose not to accept private source campaign funds. The fund was established as a result of a voter initiative.

NON-MAJOR GOVERNMENTAL FUNDS CAPITAL PROJECTS FUNDS

The Department of Transportation Financed Fund administers the proceeds from the Highway Revenue Bonds issued by the Arizona Department of Transportation Board. These monies are expended for the construction of federal, state and local highways.

The Grant Anticipation Notes Financed Fund administers the proceeds from the Grant Anticipation Notes issued by the Arizona Department of Transportation Board. These monies are expended for the acquisition of right-of-way purchases or the construction of certain controlled access highways within Maricopa County.

Certificates of Participation Financed Fund administers the proceeds from the Certificates of Participation issued by the State of Arizona (acting by and through the Director of the Department of Administration). These monies are expended on various projects including new building construction, development of the Human Resource Information System, and the retiring of former Certificates of Participation.

NON-MAJOR ENTERPRISE FUNDS

Enterprise Funds account for operations (a) financed and operated in a manner similar to private business enterprises, where the State intends that the cost of providing goods or services to the general public be financed or recovered primarily through service charges, or (b) where the State decides that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The Arizona Industries for the Blind Fund accounts for the manufacturing, sale, distribution and marketing of products manufactured by employees at training centers, workshops, business enterprises and home industries programs for the training and employment of adaptable visually impaired persons.

The Arizona Correctional Industries Fund employs prison inmates in its manufacturing, service and agricultural operations for the sale of goods and services primarily to other State agencies (including the Arizona Department of Corrections) and political subdivisions.

The Arizona Highways Magazine Fund publishes and markets the Arizona Highways Magazine and various other products that promote the State of Arizona.

The Coliseum & Exposition Center Fund provides rental space to a variety of entertainment and promotional lessees, and sponsors the annual State Fair.

Highway Expansion & Extension Loan Program provides the state and communities in Arizona a new financing mechanism to stretch limited transportation dollars and bridge the gap between needs and available revenues.

The Healthcare Group of Arizona administers prepaid medical coverage primarily to small, uninsured businesses with 2 to 50 employees and employees of political subdivisions. The HCGA processes premium billing, collections and fund disbursement, and data analysis and is responsible for the regulatory oversight of the health plans.

The Other Enterprise Funds consist of the Arizona Historical Society Revolving Fund, State Hospital Revolving Fund, and the State Home for Veterans Trust Fund.

INTERNAL SERVICE FUNDS

Internal Service Funds account for the financing of goods and services provided by one State department or agency to other State departments or agencies on a cost-reimbursement basis.

The Risk Management Fund provides insurance coverage to all State agencies using an optimal combination of self-insurance and private excess insurance. It includes the Workers' Compensation section that receives monies from State agencies and uses these monies to pay for insurance and risk management services including loss control services and self-insured liability losses.

The Transportation Equipment Fund administers the purchase, storage and distribution of supplies, equipment and furniture for other Department of Transportation Funds.

The Employee Benefits Fund (HITF) administers the State's benefits program available to State employees and retirees.

The Technologies and Telecommunications Fund receives monies from State agencies for services related to the operation of the data processing and telecommunications programs.

The Sick Leave Liability Fund (RASL) accounts for monies paid out to retirees for their accumulated sick leave.

The Motor Pool Fund receives monies from State agencies for use of State vehicles and uses these monies for operation of the State Motor Pool.

INVESTMENT TRUST FUNDS

Investment Trust Funds account for assets held by the State in a trustee capacity for local governments and political subdivisions, of the State of Arizona, which have elected to invest idle cash with the State Treasurer's Office. The Treasurer acts as trustee for the deposits made by participants.

Central Arizona Water Conservation District is an Investment Trust Account composed of corporate debt and United States Government securities. The Central Arizona Water Conservation District is the only participant in the account.

Local Government Investment Pool is an Investment Trust Account composed of corporate debt, negotiable certificates of deposit and United States Government securities.

Local Government Investment Pool-Government is an Investment Trust Account composed of repurchase agreements and United States Government securities. All investments of the fund are backed by the full faith and credit of the United States Government.
