INTRODUCTORY SECTION

JANICE K. BREWER
GOVERNOR

DAVID RABER
INTERIM DIRECTOR

ARIZONA DEPARTMENT OF ADMINISTRATION
OFFICE OF THE DIRECTOR
100 NORTH 15th AVENUE • SUITE 401
PHOENIX, ARIZONA 85007
(602) 542-1500

May 7, 2010

The Honorable Janice K. Brewer,
Governor of the State of Arizona;
Members of the Legislature;
Rebecca White Berch, Chief Justice of the Supreme Court;
and Citizens and Taxpayers of the State of Arizona

Ladies and Gentlemen:

It is our pleasure to transmit to you the Comprehensive Annual Financial Report (CAFR) of the State of Arizona for the fiscal year ended June 30, 2009. Responsibility for the accuracy of data, as well as the completeness and fairness of presentation, including all disclosures, rests with the State's management. The data presented in this report, to the best of our knowledge and belief, is accurate in all material respects and is reported in a manner which fairly presents the financial position and results of operations of the major and non-major funds of the State. All disclosures needed for the reader to gain a reasonable understanding of the State's financial activities have been included.

U.S. generally accepted accounting principles (GAAP) require that management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The State's MD&A can be found immediately following the Independent Auditors' Report.

INTERNAL CONTROLS

The State is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the State are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with U.S. GAAP. Internal accounting controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. In the opinion of management, the State's internal controls are adequate to provide reasonable assurance that these objectives are met.

INDEPENDENT AUDIT

In compliance with State statute, an annual financial audit of the State Entity is completed each year by the State of Arizona, Office of the Auditor General in conjunction with other audit firms. Their audit was conducted in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Their report on the basic financial statements has been included in the financial section of this report. In addition, ARS §41-1279.03 requires at least a biennial single audit by the Office of the Auditor General. The Single Audit will be issued as a separate report at a later date.

PROFILE OF THE GOVERNMENT

The State of Arizona was admitted to the Union as the 48th state in 1912. Arizona is the sixth largest state, with 113,998 square miles. Arizona is known for the Grand Canyon, one of the Seven Wonders of the World, and its cacti and other desert landscape. A number of national forests, four national parks, eighteen national monuments, and over 20 million acres of Native American reservations and tribal communities are located in Arizona.

The State has three branches of government: Executive, Legislative, and Judicial. The Executive branch is headed by a governor elected for a four-year term. Arizona's Legislative branch is bicameral, consisting of a thirty-member Senate and a sixty-member House of Representatives. Legislators are elected for two-year terms. The Judicial branch consists of the Arizona Supreme Court, Court of Appeals (with two divisions), superior courts, justice of the peace courts, and municipal courts. The superior courts, justice of the peace courts, and municipal courts are excluded from the State's reporting entity. The Supreme Court is the highest court in the State and is comprised of five justices. Article 6, Section 5 of the Arizona State Constitution describes the types of cases and matters handled by the Supreme Court.

The services provided by the State are administered through various agencies, departments, boards, commissions, councils, administrations, offices, and institutions of higher learning. These services include: (1) General Government, (2) Health and Welfare, (3) Inspection and Regulation, (4) Education, (5) Protection and Safety, (6) Transportation, and (7) Natural Resources.

FINANCIAL REPORTING ENTITY

The accompanying CAFR includes all funds of the State of Arizona (primary government), as well as its component units. Blended component units, although legally separate entities, are in substance, part of a government's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units are shown separately to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of the primary government. Discretely presented component units prepared in accordance with the Governmental Accounting Standards Board (GASB) are reported in separate columns in the government-wide financial statements. Discretely presented component units prepared in accordance with the Financial Accounting Standards Board are presented as separate financial statements immediately following the government-wide financial statements to emphasize that they are prepared in accordance with accounting standards other than those promulgated by the GASB.

The criteria for inclusion in the reporting entity and presentation are defined by the Codification of Governmental Accounting and Financial Reporting Standards, issued by the GASB, (Section 2100). Note 1 of the Notes to the Financial Statements explains which component units are included in the Financial Reporting Entity of the State.

BUDGETARY CONTROLS

Budgetary control is maintained through legislative appropriation and the executive branch allotment process. The Governor is required to submit an annual budget to the Legislature. The budget is legally required to be adopted through passage of appropriation bills by the Legislature and approval by the Governor. The appropriated funds are controlled by the executive branch through an allotment process. This process generally allocates the appropriation into quarterly allotments by legal appropriation level. The State also maintains an encumbrance accounting system to further enhance budgetary control. Encumbered amounts generally lapse as of the end of the fiscal year, with the exception of capital outlay and other continuing appropriations. These appropriations and their encumbrances continue from year to year. The State's budgetary policies are explained in detail in the Required Supplementary Information.

GENERAL FUND BALANCE

Graph 1 summarizes the General Fund revenues and expenditures for the last five fiscal years. This graph does not include transfer amounts relating to other fund types and other financing sources (uses), which affect the ending fund balance.

Graph 1
General Fund Revenues and Expenditures
for last 5 fiscal years
(Dollars in billions)

The General Fund ended the June 30, 2009 fiscal year with a deficit of \$1.4 billion in unreserved fund balance and a \$423.103 million reserved fund balance for a total fund balance deficit of \$978.278 million. This compares to the previous year's total fund balance of \$361.622 million. Included in the \$423.103 million reserved fund balance is \$2.767 million for the Budget Stabilization Fund. The Budget Stabilization Fund is a form of Rainy Day Fund established by the Legislature in 1991.

Graph 2 summarizes the General Fund Balance (Deficit) for the last five fiscal years:

(Dollars in millions)

ECONOMIC CONDITION AND OUTLOOK

The following economic summary is excerpted from the Arizona Department of Commerce's Arizona's Workforce, released on October 1, 2009.

The Arizona Department of Commerce, Research Administration's (RA) updated forecast projects nonfarm job losses for both calendar years 2009 (-178,500) and 2010 (-17,300). A total of more than 195,800 (7.5%) nonfarm jobs are expected to be lost over the two year period. Although projected job losses for 2009 have increased by 32,300 from the April 30th, 2009 Forecast, the projected losses in 2010 have decreased by 4,200 as the result of a gradually improving economy. The updated projected rate of loss for Arizona in 2009 is 6.8% and 0.7% for 2010. The nation, however, is forecast to have a slower rate of job loss of 3.7% in 2009 and 0.5% in 2010.

Projected Arizona nonfarm job losses increased in this Forecast Update because the first eight months of 2009 have shown greater losses than earlier forecast. As of August 2009, the annual, average, over-the-year nonfarm job losses numbered 183,200 (7.0%), or 37,000 more than expected in the original Forecast.

The bursting of the housing bubble and ensuing financial crisis caused substantial damage to Arizona's economy. Construction was a significant economic driver of Arizona employment during the housing boom in 2001-06. In June 2006, Arizona construction employment reached its historical peak of 247,500 jobs, and the share of total nonfarm employment held by construction was noticeably higher in Arizona (9.5%) in comparison to the nation (5.6%).

As the housing bubble burst in 2006, the share of construction employment in Arizona began to fall, reaching 5.8% in August 2009 compared to the nation at 4.7%. Along with Nevada, California, and Florida, Arizona has experienced significant economic decline including job losses, home price devaluation, and rising home mortgage foreclosures.

Compounding the effects of the housing collapse and the resulting downturn in Arizona's economy is the use of income by businesses and consumers to reduce debt, instead of purchasing goods and services. A large fraction of the consumer debt was created through home equity loans as people borrowed against the rising value of their homes. Businesses increased borrowing to expand operations to take advantage of opportunities in a growing economy.

As Arizona's economy starts to recover, RA projects nonfarm job growth will begin by the end of 2010 based on the following factors:

- Federal government economic stimulus spending is projected to boost the State's economy in the areas of infrastructure for energy, transportation, health care, and education.
- Federal government expenditures are expected to be maintained for border security, rural area firefighting, military bases, and private sector contracting for civilian and military purposes.
- Federal monetary policy is encouraging lending through low interest rates and the injection of liquidity into financial institutions.
- A buildup in the inventory cycle is anticipated as businesses and consumers increase spending to replenish depleted inventories and buy essential and other goods such as cars, clothing, and household appliances.
- Stable prices for many goods are expected to motivate some increased level of purchasing.

Recent trends have shown increasing stabilization in the U.S. and global economies. These include increased orders for manufactured goods; a rise in the overall capacity utilization rate; an uptick of national housing starts and sales; a greater willingness to lend in financial institutions; and a leveling of world trade. Recently, the economies of major U.S. trading partners, including China, France, and Germany, have shown economic growth. As a result, U.S. export figures have increased.

All these trends will have a positive impact on Arizona's economy, but the growth rates are forecast to be slow for several reasons:

- In an effort to reduce high debt levels, businesses and consumers will continue to moderate spending for goods and services. Stagnant wages and the fear of unemployment will result in constrained spending and increased savings by consumers. As of August 2009, Arizona's unemployment rate had reached 9.1%. Rates above 9% have not been seen since 1983.
- Risk of further credit losses exists due to deteriorating performance of commercial real estate loans. Financing for commercial properties and projects has been extremely difficult with the worsening fundamentals in this sector.
- The national demographic shift of population from northern and eastern states to those in the south and west has long fueled Arizona's economy. Until the national housing market recovers and people can sell their homes in order to move to Arizona, population growth will slow.

- Tourism, a primary driver of Arizona's economy, is not expected to recover quickly because of the weaknesses in the U.S. and global economies.

The following projections are updates for the 11 major sectors in Arizona for the two year forecast period 2009-10.

Manufacturing job losses are forecast to total more than 15,200, or -8.8%. Aerospace products and parts is the only manufacturing industry expected to gain jobs as a result of ongoing civilian and military contracts. Increased export demand is projected to strengthen all fabrication industries.

The Natural Resources and Mining sector is forecast to lose more than 2,400 jobs (-18.1%) over the two-year forecast period. Gradually increasing national and global demand for both metallic and non-metallic mineral ores from rising industrial production is projected to bolster this sector.

Construction employment is forecast to lose more than 61,400 jobs, or -32.7%, due to continued weakness in residential and commercial real estate. However, federal government economic stimulus spending in energy and transportation projects is expected to bolster civil engineering and heavy construction.

Employment reductions in Trade, Transportation, and Utilities are projected to be greater than 37,700 jobs, or -7.3%. Wholesale trade, and transportation and warehousing are forecast to lose jobs in both 2009 and 2010. However, the growth in the inventory cycle is forecast to propel growth in retail trade as consumers replace worn out and broken goods. In addition, federal government economic stimulus spending in energy projects is forecast to cause expansion in utilities. As a result, retail trade and utilities are projected to lose jobs in 2009 and add jobs in 2010.

The Information industry is forecast to lose more than 4,400 jobs, or -10.7%. Consolidation and transformation in the video rental sectors could exacerbate job losses as firms close retail stores and expand kiosks and online operations.

Financial Activities is projected to lose more than 9,400 jobs, or -5.3%. Gradual improvements are forecast to result in job gains for both 2009 and 2010 in the industries of securities and commodity contracts along with insurance, funds, and trusts due to increased investment activity. However, continued weakness in housing and commercial real estate is projected to contribute towards large jobs losses in the real estate, rental, and leasing industries.

Job losses in Professional and Business Services are forecast to be more than 42,500, or -11.0%, over the two-year forecast period. Despite projected losses in 2009, slight gains are forecast for 2010 as demand increases from businesses that use contingent labor and outsourced services provided by the industries of employment services and business services.

Educational and Health Services is the only sector in Arizona to have job gains forecast for both 2009 (+600) and 2010 (+5,800). These projected increases are primarily in health care industries as a result of the continued growth and aging of Arizona's population. Despite projected losses in 2009, private educational services and social services are forecast to gain jobs in 2010.

In Leisure and Hospitality, job losses are projected to total more than 14,500, or -5.4%, over the two-year period. Local travel and tourism (as a lower cost alternative to out-of-state travel) is projected to mitigate leisure and hospitality job losses.

Other Services is projected to lose more than 6,900 jobs, or -6.9%. Repair of appliances and automobiles and refurbishment of existing items (as opposed to new purchases) is forecast to limit losses in this sector.

Overall, Government (federal, state and local) employment losses are forecast to be more than 7,500, or -1.8%. Only the federal government is forecast to gain jobs as a result of the decennial census, economic stimulus, and ongoing activities in civilian and military spheres. However, state and local governments are expected to slash jobs in both 2009 and 2010 as a result of budget deficits and a more constrained ability to borrow funds. Education at the state and local level is forecast to hold steady due to support from federal government economic stimulus expenditures.

Employment in Arizona is projected to show a gradual improvement with slowing nonfarm job losses over the period 2009-10. The primary reasons include a buildup of the inventory cycle; federal government economic stimulus spending; ongoing federal government expenditures in civilian and military sectors; federal government bailouts of financial services industries; and stable prices. Educational and Health Services is the only sector expected to see job gains for both 2009 and 2010 (+6,400 total). Construction is expected to see the greatest number of job losses (-61,400), at the most rapid rate (-32.7%).

MAJOR INITIATIVES

Further deterioration in Arizona's economic conditions during fiscal year 2009 has resulted in a continued downward trend in the State of Arizona's General Fund tax revenue collections. To address the General Fund fiscal year 2009 budget impact created by these revenue shortfalls, the Legislature enacted laws that included measures such as the reduction in State agencies' General Fund spending authority, transfer of amounts from other funds, draw practically all of the remaining amount in the Budget Stabilization Fund, and temporary suspension of cash payments to universities and K-12 education. Additionally, the State used federal stimulus funds through The American Recovery and Reinvestment Act of 2009 as part of the measures to balance the fiscal year 2009 budget.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Arizona for its CAFR for the fiscal year ended June 30, 2008. This was the fifth consecutive year that the State has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

We wish to express our sincere appreciation to the many individuals whose dedicated efforts have made this report possible. The preparation of this report could not have been accomplished without the professionalism and dedication demonstrated by the financial and management personnel of each State agency, board, commission, council, administration, office, institution of higher education, and all other organizations within the reporting entity.

We have audited the accompanying financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of and for the year ended June 30, 2009, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain departments and the component units, which account for the following percentages of the assets and revenues, additions, and other financing sources, as applicable, of the opinion units affected:

Opinion Unit/Department	Assets	Revenues/Additions/ Other Financing Sources
<u>Government-wide Statements</u>		
Governmental activities:		
Arizona Health Care Cost Containment System	2.76%	21.28%
Department of Transportation	70.42%	12.69%
Business-type activities:		
Lottery Department	.90%	10.61%
Arizona Health Care Cost Containment System	.19%	1.39%
Department of Transportation	1.31%	.22%
Aggregate discretely presented component units:		
Component Units	100.00%	100.00%
Universities—Affiliated Component Units	100.00%	100.00%

Opinion Unit/Department	Assets	Revenues/Additions/ Other Financing Sources
<u>Fund Statements</u>		
Major Governmental Funds:		
General Fund—Arizona Health Care Cost Containment System	35.94%	23.13%
Transportation and Aviation Planning, Highway Maintenance and Safety Fund—Department of Transportation	100.00%	100.00%
Major Enterprise Fund:		
Lottery Fund—Lottery Department	100.00%	100.00%
Aggregate Remaining Fund Information:		
Arizona Health Care Cost Containment System	.10%	2.63%
Department of Transportation	2.17%	13.00%
Arizona State Retirement System	60.37%	(35.90)%
Public Safety Personnel Retirement System	11.23%	(5.70)%
Corrections Officer Retirement Plan	2.63%	(1.38)%
Elected Officials' Retirement Plan	.71%	(.50)%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Arizona Power Authority and the universities—affiliated component units, which were reported as discretely presented component units, were not audited by the other auditors in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of June 30, 2009, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

The financial statements of the Healthcare Group of Arizona, a nonmajor enterprise fund, are included as part of the State's business-type activities and aggregate remaining fund information. As discussed in Note 9, the Healthcare Group of Arizona has incurred significant operating losses in the past years and has a fund deficit of \$10.789 million at June 30, 2009, that raise substantial doubt about its ability to continue operations. Management's plans in regard to these matters are also described in Note 9. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Management's Discussion and Analysis on pages 21 through 33, the Budgetary Comparison Schedules on pages 131 through 153, the Infrastructure Assets information on pages 154 through 157, and the Schedule of Agent Retirement Plans' Funding Progress on page 158 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we and the other auditors did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The introductory section, combining financial statements and schedules, and statistical section listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements. The combining financial statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we will also issue our report on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Debbie Davenport
Auditor General

MANAGEMENT'S
DISCUSSION
AND
ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the State of Arizona's (the State's) financial performance, providing an overview of the activities for the fiscal year ended June 30, 2009. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section. The completeness and fairness of the following information is the responsibility of the State's officials and management.

FINANCIAL HIGHLIGHTS

Government-wide:

- The assets of the State exceeded liabilities at the close of the fiscal year by \$18.9 billion (reported as *net assets*). Of this amount, a deficit of \$2.6 billion exists for *unrestricted net assets*, \$5.1 billion is restricted for specific purposes (*restricted net assets*), and \$16.4 billion is invested in capital assets, net of related debt.
- The State's total net assets decreased in fiscal year 2009 by \$2.7 billion. Net assets of governmental activities decreased by \$2.3 billion, while net assets of the business-type activities decreased by \$366.256 million.

Fund Level:

- As of the close of the fiscal year, the State's governmental funds reported combined ending fund balances of \$3.6 billion, a decrease of \$1.9 billion from the beginning of the year. A deficit of \$634.123 million exists for unreserved fund balance, which is approximately 17% of the combined fund balances.
- As of the close of the fiscal year, unreserved fund balance for the General Fund had a deficit of \$1.4 billion, which is approximately 7% of total General Fund expenditures.
- The Land Endowments Fund reported fund balance at year end of \$2.2 billion, a decrease of \$348.591 million during the year. The Land Endowments Fund is used to help finance public education within the State as required by the federal government and the State's Constitution.
- The enterprise funds reported net assets at year end of \$2.8 billion, a decrease of \$356.788 million during the year.

Long-term Debt:

- The State's total long-term primary government debt increased during the fiscal year to \$8.1 billion, an increase of \$1.4 billion (or 21%). Changes during the year included the addition of revenue bonds, grant anticipation notes, and certificates of participation of \$1.0 billion, \$55.420 million, and \$580.231 million, respectively. Also, the State retired \$176.970 million of revenue bonds, \$24.050 million of grant anticipation notes, and \$97.015 million of certificates of participation.

More detailed information regarding the government-wide financial statements, fund level financial statements, and long-term debt activity can be found beginning on **page 24**.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. Required Supplementary Information and other supplementary information are included in addition to the basic financial statements.

Government-wide Statements (Reporting the State as a Whole)

The government-wide financial statements provide a broad overview of the State of Arizona's finances in a manner similar to private sector business. The financial statements report information about the State, as a whole, and about its activities that should help answer this question: Is the State, as a whole, better or worse off as a result of this year's activities? These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid. The government-wide financial statements include the following:

The Statement of Net Assets and the Statement of Financial Position (pages 38-40) present all of the State's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets measure whether the State's financial position is improving or deteriorating.

The Statements of Activities (pages 42-44) present information showing how the State’s net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave). Additionally, long-term assets and liabilities are reported regardless of when these assets are expected to be converted to cash, or when the liability is expected to be liquidated (e.g., capital assets and bonded debt).

Government-wide statements report three activities:

- *Governmental Activities* – Most of the State’s basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- *Business-type Activities* – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Lottery tickets, the State’s unemployment compensation services, Industrial Commission rehabilitation services, and the State’s three universities are examples of business-type activities.
- *Discretely Presented Component Units* – Component units are legally separate organizations for which the elected officials of the State are financially accountable. The Greater Arizona Development Authority, the University Medical Center, the Arizona Power Authority, and the Water Infrastructure Finance Authority are discretely presented component units reported by the State. Based on GASB Statement No. 39, the State has added University Foundations and financing authorities whose financial statements are prepared in conformity with U.S. generally accepted accounting principles as adopted by the Financial Accounting Standards Board. These organizations include the ASU Foundation, Arizona Capital Facilities Finance Corporation, the U of A Foundation, and other non-major foundations and financing authorities. Financial statements for these organizations are presented immediately following the government-wide statements to emphasize that they are prepared in accordance with accounting standards other than those promulgated by GASB, and include a statement of financial position (**page 40**) and a statement of activities (**page 44**). See **pages 69-72 and 115-126** for more information on discretely presented component units.

Fund Financial Statements (Reporting the State’s Major Funds)

The fund financial statements begin on **page 45** and provide detailed information about the major individual funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. In addition to the major funds, **page 162** begins the individual fund data for the non-major funds. The State’s funds are divided into three categories – governmental, proprietary, and fiduciary – each category uses different accounting approaches.

- *Governmental funds* – Most of the State’s basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of the State’s general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the State’s programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. This report includes two schedules (**pages 46 and 48-49**) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) reported on the appropriate government-wide statement.

Governmental fund financial statements can be found on pages 45 and 47 of this report.

- *Proprietary funds* – When the State charges customers for the services it provides, whether to outside customers or to other agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting; the same method used by private sector businesses. Enterprise funds report activities that provide supplies and services to the general public – such as the State Lottery Fund and Universities. Internal service funds report activities that provide supplies and services for the State’s other programs and activities – such as the State’s Risk Management Fund. Internal service fund operations primarily benefit governmental funds and are reported as governmental activities on the government-wide statements. The reconciliation between the government-wide financial statement business-type activities and the proprietary fund financial statements is presented at the end of the financial statements on **pages 52-55**.

Proprietary fund financial statements can be found on pages 50-59 of this report.

- *Fiduciary funds* – The State acts as a trustee or fiduciary for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State’s fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets beginning on **page 60**. These funds are reported using accrual accounting and include pension and other employee benefit trust, investment trust, and agency funds. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

Fiduciary fund financial statements can be found on pages 60-61 of this report.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes can be found beginning on page 69 of this report.

Required Supplementary Information

Following the basic financial statements is additional Required Supplementary Information that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparison schedules for the General Fund and each major special revenue fund and a reconciliation of the schedules of statutory and U.S. GAAP expenditures for the fiscal year. This section also includes schedules of condition and maintenance data regarding certain portions of the State’s infrastructure and agent benefit plans’ funding progress schedules.

Required supplementary information begins on page 131 of this report.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, all internal service funds, all fiduciary funds, and non-major universities – affiliated component units. These funds are added together, by fund type, and presented in single columns in the basic financial statements, but are not reported individually, as are major funds on the governmental funds and proprietary funds financial statements. A budgetary expenditure comparison schedule for the non-major special revenue funds is also included.

Other supplementary information begins on page 162 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The State's overall financial position and operations for the past year for the primary government are summarized, as follows, based on the information included in the government-wide financial statements.

State of Arizona-Primary Government
Net Assets as of June 30, 2009 and 2008
(expressed in thousands)

	Governmental Activities		Business-type Activities		Primary Government Total	
	2009	2008	2009	2008, as restated	2009	2008, as restated
Current assets	\$ 2,833,059	\$ 3,980,247	\$ 1,685,745	\$ 1,897,597	\$ 4,518,804	\$ 5,877,844
Capital assets	17,859,557	16,801,737	3,404,613	3,309,868	21,264,170	20,111,605
Other non-current assets	4,946,384	5,269,246	1,076,150	973,408	6,022,534	6,242,654
Total Assets	25,639,000	26,051,230	6,166,508	6,180,873	31,805,508	32,232,103
Current liabilities	3,551,427	2,745,864	654,971	599,548	4,206,398	3,345,412
Non-current liabilities	5,986,888	4,892,380	2,720,572	2,424,104	8,707,460	7,316,484
Total Liabilities	9,538,315	7,638,244	3,375,543	3,023,652	12,913,858	10,661,896
Net assets:						
Invested in capital assets, net of related debt	15,094,719	14,530,867	1,328,658	1,387,655	16,423,377	15,918,522
Restricted net assets	3,990,594	4,987,365	1,085,399	1,581,212	5,075,993	6,568,577
Unrestricted net assets	(2,984,628)	(1,105,246)	376,908	188,354	(2,607,720)	(916,892)
Total Net Assets	\$ 16,100,685	\$ 18,412,986	\$ 2,790,965	\$ 3,157,221	\$ 18,891,650	\$ 21,570,207

The largest portion of the State's net assets (87%) represents *capital assets, net of related debt* of \$16.4 billion. The State uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the State's investment in its capital assets is reported net of accumulated depreciation and related debt, it should be noted that the resources needed to repay this debt are planned to be provided from other sources, since the capital assets themselves are not typically used to liquidate these liabilities.

The State's net assets also include \$5.1 billion (27%) of resources that are subject to external restrictions on how they may be used. The largest restrictions are by the State's Constitution for basic education funded by the earnings of the Land Endowments Fund and by federal regulations for unemployment insurance premiums from employers for funding the Unemployment Compensation Fund. Another major restriction is unspent debt instrument proceeds primarily for the acquisition and construction of federal, state, and local highways.

After accounting for the above net asset restrictions, the State has a remaining deficit of \$2.6 billion (14%) reported as *unrestricted net assets*.

The State's net assets decreased \$2.7 billion during the current fiscal year. This decrease was primarily caused by decreases in revenues for sales taxes, income taxes, and losses on trust land sales, while expenses for health and welfare and unemployment compensation increased. The net asset decrease was partially offset by federal stimulus funds through the American Recovery and Reinvestment Act of 2009. Refer to Note 4 on page 91 for explanation of business-type activities restatement.

Change in Net Assets

Governmental Activities – Net assets decreased by \$2.3 billion, or 13%. This decrease was primarily attributed to decreases in earned general tax revenues and losses on State trust land sales, coupled with increased costs to the State’s health and welfare programs. Reported income tax and sales tax revenues decreased by \$1.1 billion, or 26%, and \$827.856 million, or 13%, as compared to fiscal year 2008, respectively. The costs of the State’s health and welfare increased \$1.2 billion, or 11%, as compared to fiscal year 2008. Several key elements of the economy have led to the decreased general tax revenues, and increased health and welfare costs. Since the bursting of the housing bubble and ensuing financial crisis, Arizona has experienced significant economic decline including job losses, home price devaluation, and rising home mortgage foreclosures. Compounding the effects of the housing collapse and the resulting downturn in Arizona’s economy is the use of income by businesses and consumers to reduce debt, instead of purchasing goods or services. Stagnant wages and the fear of unemployment have also resulted in constrained spending and increased savings by consumers. Arizona’s unemployment rate increased from 5.5% June 30th, 2008, to 8.7% June 30th, 2009. Another significant contributor to the net asset decrease was a \$362.649 million net decrease on the sale of State trust land. Many buyers bought at or near the peak of the real estate market and were unable to make their scheduled payments. Consequently, nine of the financed sales were canceled during the fiscal year. Some of the net asset decreases have been offset by a \$1.4 billion, or 16%, increase in operating grant and contribution revenues, as compared to fiscal year 2008. These revenues partially consisted of federal stimulus funds through the American Recovery and Reinvestment Act of 2009.

A comparison of the net cost (income) of services by function for the State’s governmental activities is shown below for fiscal years 2009 and 2008. Net cost (income) is the total cost less revenues generated by the activities and shows the financial burden placed upon the State’s taxpayers by each of these functions.

	Governmental Activities (expressed in thousands)			
	Total Cost of Services		Net Cost (Income) of Services	
	2009	2008	2009	2008
Functions/Programs:				
General government	\$ 928,485	\$ 982,382	\$ 594,087	\$ 698,543
Health and welfare	12,055,439	10,884,297	2,654,326	3,001,882
Inspection and regulation	176,354	185,996	4,577	8,825
Education	6,084,342	6,242,173	5,128,458	5,179,662

Total Governmental Activities	<u>\$ 24,660,963</u>	<u>\$ 23,929,525</u>	<u>\$ 12,680,290</u>	<u>\$ 13,396,150</u>

Expenses and Program Revenues
Governmental Activities for Fiscal Year 2009
(in millions of dollars)

Business-type Activities – The net assets decreased by \$366.256 million, or 12%. This decrease was primarily caused by the net decrease in the Unemployment Compensation Fund of \$453.993 million and partially offset with the net increase in the Universities Fund of \$106.988 million. The Unemployment Compensation Fund had an increase in costs of sales and benefits of \$729.997 million, which was partially offset by an increase in intergovernmental revenue of \$324.689 million. The primary cause for the increase in the benefits paid was Arizona’s unemployment rate increased from 5.5% June 30th, 2008, to 8.7% June 30th, 2009. This amounts to a decrease of 194,000 individuals employed than the previous fiscal year. The Universities Fund net increase was primarily attributed to a net student tuition and fees increase due to increased tuition rates and enrollment. Federal Stabilization Funds from the American Recovery and Reinvestment Act of 2009 were used to help offset reductions in State appropriations.

A comparison of the net cost (income) of services by function for the State’s business-type activities is shown on the next page for fiscal years 2009 and 2008. Net cost (income) is the total cost less revenues generated by the activities and shows the financial burden placed upon the State’s taxpayers by each of these functions.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

The State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The general government functions are contained in the general, special revenue, debt service, capital projects, and permanent funds. The focus of the State's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the State's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

General Fund

The General Fund is the chief operating fund of the State. At June 30, 2009, unreserved fund balance of the General Fund had a deficit of \$1.4 billion, while total fund balance closed the year at a deficit of \$978.278 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures and other financing uses. Unreserved fund balance represents a negative 6% of total expenditures and other financing uses, while total fund balance represents a negative 4% of the same amount.

The fund balance of the State's General Fund decreased \$1.3 billion during the fiscal year. The primary reason for the decrease in fund balance during the fiscal year is expenditures were \$21.1 billion, while revenues were \$19.5 billion. Although intergovernmental revenues increased \$1.8 billion from the prior fiscal year, sales tax revenues decreased \$780.330 million (14%) and income tax revenues decreased \$1.0 billion (25%). In particular, sales taxes paid by retail stores and construction contractors decreased by 12% and 26%, respectively, when compared to fiscal year 2008 sales tax receipts. In addition, income tax collections decreased from the previous year as a result of the 194,000 decrease in the amount of individuals employed and a decrease in the amount of corporate income taxes collected during the fiscal year.

Health and welfare expenditures and intergovernmental revenue (including federal grants and county funding) increased by \$1.1 billion, or 11%, and \$1.8 billion, or 20%, as compared to fiscal year 2008, respectively. The increase in expenditures in fiscal year 2009 can be attributable to increased enrollment in the Arizona Health Care Cost Containment System's (AHCCCS) programs and associated provider rates. The AHCCCS program experienced the most significant enrollment growth since the Proposition 204 expansion in calendar years 2001 to 2003. During fiscal year 2009, overall program enrollment in the various AHCCCS programs increased 12.0%, primarily due to growth in the Social Security Act Title XIX Waiver Group childless adults and Title XIX families and children program populations. The AHCCCS sets capitation rates within actuarially sound risk bands as required by the Federal Balanced Budget Act of 1997. The capitation rates were increased by a weighted average of 7.3% for the contract period of October 2008 to September 2009. The intergovernmental revenue increase was partially due to the use of federal stimulus funds from the American Recovery and Reinvestment Act of 2009.

Education expenditures decreased by \$241.280 million, or 4%, compared to fiscal year 2008. The decrease can be primarily attributed to a decrease in State assistance for kindergarten through twelfth grade (K-12) and University operating expenditures to address mid-year budget shortfalls.

Transportation and Aviation Planning, Highway Maintenance and Safety Fund

The Transportation and Aviation Planning, Highway Maintenance and Safety Fund is responsible for the repair and maintenance of existing roads, paying the debt service for roads that are built from the issuance of revenue bonds and grant anticipation notes, and providing technical assistance with road construction provided by contractors hired by the Arizona Department of Transportation (ADOT). Total fund balance decreased \$172.385 million during fiscal year 2009. The fund balance decrease was due, in part, to the transfer of \$203.695 million to the General Fund due to House Bill 2209, Chapter 285, and Senate Bills 1001 and 1002, Chapters 1 and 2, respectively, which required the transfer in order to help the State balance the General Fund budget during Fiscal Year 2009. In addition, distributions to Arizona counties and cities decreased during fiscal year 2009 as collections for the Transportation and Aviation Planning, Highway Maintenance and Safety Fund decreased.

Land Endowments Fund

The fund was established when the federal government granted Arizona statehood. Both the State's Constitution and the federal government require that the land grants given to the State be maintained indefinitely, and the earnings from the land grants should be used for public education, primarily K-12. The Land Endowments Fund total fund balance decreased \$348.591 million during fiscal year 2009. Endowment investments decreased \$381.342 million, at fiscal year end, due to receipts from land sales of \$143.674 million, a \$39.276 million decrease for distribution of prior year land sale installments collected on loans defaulted in the current fiscal year, a \$59.359 million decrease for annual distributions as required by the State's Constitution, and a net decrease in the fair value of investments of \$403.213 million.

Proprietary funds

The business-type activities discussion for the fund level financial statements of the State's enterprise funds provide the same type of information found in the government-wide financial statements analysis on **page 27**.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, the original budget was amended by various supplemental appropriations and appropriation revisions. Budgetary Comparison Schedules for the major governmental funds are in the Required Supplementary Information section beginning on **page 131**. Differences between the original budget of \$16.836 billion and the final amended budget of \$16.781 billion resulted in a \$55.006 million net decrease in appropriations for the General Fund, before adjustments. Some of the significant changes in the General Fund appropriations were:

1. \$266.231 million increase due to prior fiscal year obligations that were paid in the current fiscal year per ARS §35-191
2. \$272.000 million increase for the payment of the Department of Education's Basic State Aid and Additional State Aid to school districts that was deferred in fiscal year 2008
3. \$300.000 million decrease for the deferral of the Department of Education's Basic State Aid and Additional State Aid payments to school districts
4. \$123.000 million decrease for the Department of Education's K-12 formula payment reductions, including \$21.000 million soft capital suspension
5. \$41.300 million increase for the Department of Education's Arizona Structured English Immersion Fund
6. \$37.441 million decrease to the AHCCCS primarily for agency budget reductions
7. \$32.376 million decrease to the Department of Economic Security primarily for agency budget reductions

8. \$142.000 million decrease for reductions to the Universities Fund appropriations
9. \$100.000 million decrease for the deferral of appropriations to the Universities Fund
10. \$31.384 million increase to the Universities Fund to make debt service payments associated with the financing of research infrastructure projects
11. \$117.000 million increase to the School Facilities Board's (SFB) for new construction costs until SFB receives their newly authorized lease proceeds later in the fiscal year
12. \$20.000 million increase for the Parks Board "Growing Smarter" transfer to the Land Conservation Fund per ARS §41-511.23 to provide grants to purchase State trust land for conservation purposes

The actual expenditures were less than the final budget by \$751.777 million, after adjustments. Of this amount, \$43.091 million will continue as legislative multiple fiscal year spending authority for fiscal years 2010 and beyond, depending upon the budgetary guidelines of the Legislature. The remaining \$708.686 million represents the unused portion of the State's legislatively authorized annual operating budget.

Additional budgetary information can be found on pages 151-153 of this report.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2009 totaled \$21.3 billion, net of accumulated depreciation. The total primary government increase in capital assets for the current period was 6%, with a 6% increase in capital assets used for governmental activities and a 3% increase for business-type activities. Depreciation charges of the governmental and business-type activities for the fiscal year totaled \$336.213 million.

Major capital asset activity during the current fiscal year included the following:

- The Universities' additions to capital assets totaled \$329.203 million and included increased investments in instruction, research, student housing, athletic facilities, and other projects.
- The ADOT started or completed roads and bridges totaling \$1.6 billion during the fiscal year.

For the government-wide financial statement presentation, all depreciable assets were depreciated from the acquisition date to the end of the current fiscal year. Capital asset purchases of the governmental funds are reported in the fund-level financial statements as expenditures.

Capital assets for the governmental and business-type activities as of June 30, 2009 are presented below (expressed in thousands):

	Governmental Activities		Business-type Activities		Total	
	2009	2008	2009	2008, as restated	2009	2008, as restated
Land	\$ 2,502,039	\$ 2,513,888	\$ 181,400	\$ 166,613	\$ 2,683,439	\$ 2,680,501
Buildings	1,747,807	1,709,900	3,877,636	3,701,943	5,625,443	5,411,843
Improvements other than buildings	142,248	136,246	4,811	4,811	147,059	141,057
Equipment	760,820	772,238	1,345,615	1,282,525	2,106,435	2,054,763
Collections (non-depreciable)	-	-	17,882	15,853	17,882	15,853
Infrastructure	10,647,110	10,108,526	367,408	346,268	11,014,518	10,454,794
Construction in progress	3,282,323	2,719,856	131,054	125,230	3,413,377	2,845,086
Less accumulated depreciation	(1,222,790)	(1,158,917)	(2,521,193)	(2,333,375)	(3,743,983)	(3,492,292)
Total	\$ 17,859,557	\$ 16,801,737	\$ 3,404,613	\$ 3,309,868	\$ 21,264,170	\$ 20,111,605

As provided by GASB Statement 34, the State has elected to record its infrastructure assets, that the ADOT is responsible for maintaining, using the modified approach. Assets accounted for under the modified approach include 6,753 center lane miles (18,544 travel lane miles) and 4,648 bridges.

The State manages its roads using the Present Serviceability Rating (PSR), which measures the condition of the pavement and its ability to serve the traveling public. The PSR uses a five-point scale (5 excellent, 0 impassable) to characterize the condition of the roadway. The State's serviceability rating goal is 3.23 for the overall system. The most recent assessment indicated that an overall rating of 3.74 was achieved for fiscal year 2009.

The State manages its bridges using the Arizona Bridge Information and Storage System. The State determines the condition rating based on standards developed by the Federal Highway Administration and additional internal criteria. It is the policy of the State to maintain a Condition Rating Index (CRI) of 92.5% or better. In fiscal year 2009, a CRI of 93.4% was obtained.

In addition to many smaller projects, each of the following major highway construction projects in excess of \$20.000 million were started during fiscal year 2009 (expressed in thousands):

<u>Project Description</u>	<u>Contract Start Date</u>	<u>Contract Amount</u>	<u>Current Year Expenditures</u>
Major widening on State Route Loop 202 from the Interstate 10 and State Route 51 interchange to State Route Loop 101 in Maricopa County.	11/17/08	\$ 188,895	\$ 45,158
Construction of new roads on State Route Loop 303 from Happy Valley Parkway to Lake Pleasant Parkway in Maricopa County.	11/17/08	100,416	29,771
Major widening of US 93 from Hoover Dam to Mile Post 17 in Mohave County.	10/28/08	71,270	17,546
Construction of new roads on State Route Loop 303 from Lake Pleasant Parkway to Interstate 17 in Maricopa County.	04/17/09	69,348	-
Construction of new roads on Interstate 10 in Pima County.	04/20/09	50,484	4,272
Construction of new roads on State Route 195 from Avenue B to 14 th Street in Yuma County.	08/18/08	43,206	35,244
Reconstruction on State Route Loop 303 at the Cactus, Waddell, and Bell Road traffic interchanges in Maricopa County.	01/30/09	28,197	-
Construction of frontage road on State Route 85 in Maricopa County.	09/22/08	23,855	11,347
Reconstruction on State Route Loop 202 from State Route Loop 101 to Gilbert Road in Maricopa County.	02/23/09	20,565	4,151

In addition to many smaller projects, the following major highway construction projects had expenditures in excess of \$20.000 million in fiscal year 2009 (expressed in thousands):

<u>Project Description</u>	<u>Project Expenditures</u>
Interstate 10 from Price Road to 29 th Street in Pima County.	\$ 97,772
Interstate 17 from Jomax Road to Carefree Highway in Maricopa County.	91,635
Interstate 10 from Sarival to State Route Loop 101 in Maricopa County.	54,908
State Route 195 from Avenue B to 14 th Street in Yuma County.	54,655
State Route Loop 202 from the Interstate 10 and State Route 51 interchange to State Route Loop 101 in Maricopa County.	48,059
State Route Loop 101 from Princess Drive to State Route Loop 202 in Maricopa County.	36,374
State Route Loop 303 from Happy Valley Parkway to Lake Pleasant Parkway in Maricopa County.	34,588
State Route 179 south of Sedona in Coconino and Yavapai Counties.	30,979
Interstate 10 from the Picacho Peak interchange to the Pinal Air Park in Pinal County.	30,102
Construction of frontage road on State Route 85 in Maricopa County.	24,955
State Route Loop 101 from State Route Loop 202 (Red Mountain) to State Route Loop 202 (Santan) in Maricopa County.	24,259
State Route Loop 202 from the junction of Interstate 10 west to the junction of Interstate 10 south in Maricopa County.	22,849

Capital assets financed by debt instruments do not generate funds to repay the debt instruments.

More detailed information regarding capital assets are on pages 90 and 91.

Long-term debt:

The State issues no general obligation debt instruments. The Arizona Constitution, under Article 9, Section 5, provides that the State may contract debts not to exceed \$350 thousand. This provision has been interpreted to restrict the State from pledging its credit as a sole payment for debts incurred for the operation of the State government. As a result, the State pledges either dedicated revenue streams or the constructed building or equipment acquired as security for the repayment of long-term debt instruments.

Major long-term debt activity during the current fiscal year included the following:

- The ADOT issued revenue bonds totaling \$621.050 million to finance the costs of right-of-way purchase, design, and construction of federal, state, and local highways and to pay the costs of issuing the bonds.
- The Universities issued revenue bonds for \$385.850 million to fund the acquisition, construction, or renovation of capital facilities and infrastructure and to pay capitalized interest on certain bonds.
- The ADOT issued \$55.420 million of grant anticipation notes to pay a portion of the costs of certain controlled-access highways in Maricopa County and to pay the costs of issuance.
- The School Facilities Board issued \$580.035 million of certificates of participation to finance the following: (i) finance the costs of acquiring leasehold interests in school sites and certain school facilities, which will be subleased to various school districts within the State, as well as the costs of other new school facilities, (ii) pay capitalized interest with respect to the 2008 COPs, and (iii) pay the costs of issuance.

More detailed information regarding long-term debt begins on page 97.

ECONOMIC CONDITION AND OUTLOOK

Arizona's economy, along with the rest of the nation, continued to contract in fiscal year 2009, as problems in the financial and housing markets continued, along with continued decline in labor markets. As previously mentioned, since the bursting of the housing bubble and ensuing financial crisis, Arizona has experienced significant economic decline including job losses, home price devaluation and rising home mortgage foreclosures. Compounding the effects of the housing collapse and the resulting downturn in Arizona's economy is the use of income by businesses and consumers to reduce debt, instead of purchasing goods or services. Stagnant wages and the fear of unemployment have also resulted in constrained spending and increased savings by consumers. Arizona's unemployment rate increased from 5.5% June 30th, 2008, to 8.7% June 30th, 2009.

Arizona's economy is projected to continue losing jobs in calendar years 2009 and 2010. The Arizona Department of Commerce, Research Administration (RA), forecasts a loss of 195,800 jobs (-7.5%) for the calendar year 2009-2010 forecast period. However, RA expects employment in Arizona to show a gradual improvement with slowing job losses over the 2009-2010 calendar year forecast period (from losses of 178,500 in 2009 to losses of 17,300 in 2010). The primary reasons include a buildup of the inventory cycle; federal government economic stimulus spending; ongoing

federal government expenditures in civilian and military sectors; federal government bailouts of financial services industries; and stable prices.

The State has recently experienced its worst economic downturn in at least 50 years. Over the period of fiscal year end 2007 through February 2010, the total revenue from the State's major tax sources (sales and use, individual and corporate) has decreased by approximately one-third. With revenues falling short of budgeted levels, the State's General Fund was faced with a fiscal year 2009 ending balance shortfall and approximately a \$3.2 billion on-going structural deficit. The State Legislature has enacted a series of laws in response. Significant measures include deep cuts to education and health/welfare programs. Additionally, the State Legislature referred a temporary 1-cent increase in the transaction privilege tax to voters. The special election will be held on May 18, 2010. If approved, the increase would become effective June 1, 2010 and expire May 31, 2013. The State Legislature has already enacted laws for additional cuts to State spending authority that will be triggered if the temporary tax is not passed. Accordingly, the State has adopted a workable budget for fiscal year 2010 and 2011, and has made significant progress towards eliminating the long-term structural deficit.

The State will continue to use federal stimulus funds through The American Recovery and Reinvestment Act of 2009 (ARRA) as part of the measures to balance the budget. From fiscal year 2009 through fiscal year 2011, the State is scheduled to receive approximately \$2.8 billion in ARRA funding, that is a direct help to the General Fund, to be used largely for education and for health/welfare programs. The State recorded \$834.355 million in ARRA revenue in fiscal year 2009. Further, the decline in tax revenues has created problems in the management of the State's cash flow needs. As a result, throughout most of fiscal year 2010, the State Treasurer issued Treasurer's Warrant Notes (TWNs) in lieu of immediate redemption of warrants presented to the State Treasurer for payment of authorized General Fund expenditures. At May 7, 2010, the outstanding balance of the TWNs was approximately \$594.316 million.

CONTACTING THE STATE COMPTROLLER'S OFFICE

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Arizona Department of Administration, General Accounting Office, Financial Reporting Section at (602) 542-5405. You may also access and print this report at <http://www.gao.az.gov/financials/>.

The State's component units issue their own separately issued audited financial statements. These statements may be obtained by directly contacting the component unit. Contact information regarding the component units begins on **page 70**.

STATE OF ARIZONA
**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
 TO THE STATEMENT OF NET ASSETS**
 JUNE 30, 2009
 (Expressed in Thousands)

Total fund balances - governmental funds \$ 3,645,045

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds. 17,787,093

Certain receivables related to reimbursements are not available at year end and, therefore, are not reported in the governmental funds. 2,341

Certain receivables are not available to pay for current period expenditures and, therefore, are deferred in the governmental funds. 1,319,330

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. (326,657)

The allocation of the internal service fund accumulated net loss results in an amount due from business-type activities, which is not reported in the governmental funds. 46,193

Deferred issue costs are reported as current expenditures in the governmental funds. However, deferred issue costs are amortized over the life of the bonds and are included in the governmental activities in the Statement of Net Assets. 13,697

Long-term debt is not due and payable from current financial resources and, therefore, is not reported in the governmental funds. These amounts consist of:

Revenue bonds	(3,251,580)	
Grant anticipation notes	(329,650)	
Certificates of participation	(1,649,870)	
Capital leases	(233,044)	
Installment purchase contracts	(6,343)	
Notes payable	(42,668)	
Premium on debt	(285,613)	
Deferred amount on refundings	<u>9,171</u>	(5,789,597)

Accrued liabilities for AHCCCS programmatic costs and reimbursements are not due and payable from current financial resources and, therefore, are not reported in the governmental funds. (380,814)

Accrued interest on long-term obligations is not due and payable from current financial resources and, therefore, is not reported in the governmental funds. (26,434)

Other long-term liabilities are not due and payable from current financial resources and, therefore, are not reported in the governmental funds. Those liabilities consist of:

Compensated absences	(166,696)	
Pollution remediation obligations	<u>(22,813)</u>	(189,509)

Other long-term assets are not available to pay for current-period expenditures and, therefore, are not reported in the governmental funds. Those assets consist of:

Other non-current assets		<u>(3)</u>
--------------------------	--	------------

Net assets of governmental activities \$ 16,100,685

The Notes to the Financial Statements are an integral part of this statement.

STATE OF ARIZONA
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**
 FOR THE YEAR ENDED JUNE 30, 2009
 (Expressed in Thousands)

Net change in fund balances - total governmental funds \$ (1,878,961)

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlay	1,295,530	
Infrastructure and land adjustment	(128,578)	
Depreciation expense	<u>(104,243)</u>	1,062,709

The net expense of internal service funds is included with governmental activities in the Statement of Activities. (61,589)

Some revenues reported in the Statement of Activities are not currently available at year-end and are not reported as revenue in the governmental funds.

Sales taxes	13,110	
Tobacco settlement	2,138	
Accrued interest on land sales' contracts	35,025	
Operating grants	15,630	
Other revenue	<u>9,118</u>	75,021

Certain revenues that are reported as resources in the funds, but were earned in prior fiscal years, are not reported in the Statement of Activities.

Income taxes	(11,718)	
Right-of-way lease revenue	<u>(10,689)</u>	(22,407)

Trust land sales are financed with long-term mortgages. In the Statement of Activities, the gain on sale of trust land is reported, whereas in the governmental funds, the proceeds from the collection of mortgage payments are reported. In FY 2009, mortgage payments exceeded gains resulting from current year land sales. Land sale defaults also resulted in write-offs of receivables deemed uncollectible. Write off of long-term mortgage receivables related to land sales defaults are not reported in the governmental funds.

Mortgage payment proceeds	(34,906)	
Land sale defaults	<u>(274,464)</u>	(309,370)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

AHCCCS accrued programmatic costs	(52,960)	
Pollution remediation obligations	<u>(22,813)</u>	(75,773)

The Notes to the Financial Statements are an integral part of this statement. (Continued)

STATE OF ARIZONA
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**
 FOR THE YEAR ENDED JUNE 30, 2009
 (Expressed in Thousands)

Certain expenditures that are reported in the governmental funds in the current year, but were incurred in prior fiscal years, are not reported in the Statement of Activities.

Compensated absences		136
----------------------	--	-----

Bond proceeds provide current financial resources to the governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Assets. In the current period, proceeds were received from:

Bonds issued	(621,050)	
Grant anticipation notes issued	(55,420)	
Certificates of participation issued	(580,035)	
Proceeds from notes and loans	(23,139)	
Bond issuance costs	3,967	
Premium on debt issued	(70,083)	
	(70,083)	(1,345,760)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces noncurrent liabilities in the Statement of Net Assets. In the current year, these amounts consist of:

Debt service principal	235,971	
Debt premium/discount amortization	27,286	
Amortization of bond issuance costs	(982)	
Amortization of deferred amount	(3,974)	
	(3,974)	258,301

Accrued interest on long-term obligations is not due and payable from current financial resources and, therefore, is not reported in the governmental funds.		(10,552)
--	--	----------

Some capital asset additions were financed through capital leases and installment purchase contracts. Such financing arrangements are reported as an other financing source in the governmental funds, however, these amounts are reported as liabilities in the Statement of Net Assets.		(4,056)
---	--	---------

Change in net assets of governmental activities		\$ (2,312,301)
--	--	-----------------------

The Notes to the Financial Statements are an integral part of this statement.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona (the State) conform to U.S. Generally Accepted Accounting Principles (GAAP) applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

The State is a general purpose government. The accompanying financial statements present the activities of the State (the primary government) and its component units. Component Units' footnote disclosures are presented in Note 16 – *Discretely Presented Component Unit Disclosures*.

Component Units

Component units are legally separate entities for which the State is considered to be financially accountable, or organizations that raise and hold economic resources for the direct benefit of the State. Blended component units, although legally separate entities, are in substance, part of a government's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units of the State, except for component units affiliated with the State's Universities, are reported in separate columns in the government-wide financial statements to emphasize they are legally separate from the State. Because the component units affiliated with the Universities follow Financial Accounting Standards Board (FASB) statements, these financial statements have been reported on separate pages following the respective counterpart financial statements of the State. For financial reporting purposes, only the statement of financial position and the statement of activities for component units affiliated with the Universities are included in the State's financial statements, as required by the GASB.

GASB Statement No. 14, *The Financial Reporting Entity* has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.

In addition, GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units* (GASB 39) requires that legally separate, tax-exempt entities that meet *all* of the following criteria should be discretely presented as component units: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents, (2) The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization, and (3) The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The State reports the following blended component units:

The Arizona State Retirement System (ASRS) is a cost-sharing, multiple-employer, defined benefit pension plan that benefits employees of the State, its political subdivisions, and school districts. The ASRS is administered in accordance with provisions of Arizona Revised Statutes (ARS) Title 38, Chapter 5, Articles 1, 2, and 2.1. The ASRS is governed by a nine-member board that is appointed by the Governor and approved by the Senate to serve three-year terms.

The Public Safety Personnel Retirement System (PSPRS) is an agent, multi-employer public employee retirement system that benefits fire fighters and police officers employed by the State and its political subdivisions. The PSPRS is jointly administered by the Fund Manager and 224 local boards according to the provisions of ARS Title 38, Chapter 5, Article 4. The Fund Manager is a five-member board appointed by the Governor and approved by the Senate to serve a fixed three-year term. Each eligible group participating in the system has a five-member local board. In general, all members serve a fixed four-year term.

The Elected Officials' Retirement Plan (EORP) is a cost-sharing, multi-employer public employee retirement plan that benefits all State and county elected officials and judges and certain elected city officials. The Fund Manager of the PSPRS administers the EORP plan according to the provisions of ARS Title 38, Chapter 5, Article 3.

The Corrections Officer Retirement Plan (CORP) is an agent, multi-employer public employee retirement plan that benefits county detention officers, certain employees of the State's Department of Corrections and Department of Juvenile Corrections,

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

and judiciary, probation, surveillance and juvenile detention officers. The Fund Manager of the PSPRS administers the CORP plan according to the provisions of ARS Title 38, Chapter 5, Article 6.

Each plan issues a publicly available financial report that includes its financial statements and required supplementary information. A report may be obtained from the applicable plan's office or website at:

Arizona State Retirement System
P.O. Box 33910
Phoenix, Arizona 85067-3910
(602) 240-2000 or (800) 621-3778

3010 East Camelback Road, Suite 200
Phoenix, Arizona 85016
(602) 255-5575
www.psprs.com

The State reports the following discretely presented component units:

Governmental Fund:

Greater Arizona Development Authority (GADA) – The purpose of the GADA is to provide cost-effective access to capital for local communities, certain special districts, and tribal governments for public infrastructure projects. The GADA was created by an Act of the Arizona Legislature in 1997 and is a body, corporate and politic, of the State. The GADA is governed by a nine member Board of Directors consisting of four State of Arizona agency heads and five members, one of which shall be a representative of a tribal nation in Arizona, appointed by the Governor of the State. Members appointed by the Governor serve staggered five year terms. The GADA fund was originally capitalized with General Fund appropriations and requests for additional capitalization of the GADA must be approved by the Arizona Legislature. Complete financial statements may be obtained from the GADA's administrative office at 1700 West Washington Street, Executive Tower, Suite 600, Phoenix AZ 85007, (602) 771-1100.

Proprietary Funds:

University Medical Center (UMC) – The UMC is the primary teaching hospital for the College of Medicine, the College of Nursing, the College of Pharmacy, the College of Public Health, and the School of Health Related Professions of the University of Arizona (U of A). The UMC was created in 1984 when the State Legislature passed a bill that allowed the Arizona Board of Regents (ABOR) to convey the UMC to a private, not-for-profit, tax-exempt corporation. Although an autonomous entity was created, the teaching missions and research alliances with the U of A and the State remained. The ABOR confirms all members of the UMC's Board of Directors, and must approve all amendments to the UMC's articles of incorporation and bylaws. Complete financial statements may be obtained from the UMC's administrative offices at 655 East River Road, Tucson, Arizona 85704, (520) 694-2700.

Arizona Power Authority (APA) – The APA purchases the State's allocation of power produced at the federally owned Boulder Canyon Project hydropower plant and resells it to Arizona entities that are eligible purchasers under federal and state laws. The APA is governed by a commission of five members appointed by the Governor and approved by the Senate. The term of office of each member is six years and the members select a chairman and vice-chairman from among their membership for a term of two years. All revenue bonds issued by the APA must be approved by the State Certification Board. Complete financial statements may be obtained from the APA's administrative offices at 1810 West Adams Street, Phoenix, Arizona 85007, (602) 368-4265.

Water Infrastructure Finance Authority (WIFA) – The WIFA is authorized to administer the Clean Water Revolving Fund. The Clean Water Revolving Fund was created pursuant to the Federal Water Pollution Control Act, which required the State to establish the Clean Water Revolving Fund to accept federal capitalization grants for publicly owned wastewater treatment projects. The WIFA has also entered into an agreement with the Environmental Protection Agency to administer the Drinking Water Revolving Fund pursuant to the Safe Drinking Water Act. The WIFA is governed by a twelve-member board of directors.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

The ten Governor appointed directors serve staggered terms of five years and serve at the pleasure of the Governor. Complete financial statements may be obtained from the WIFA's administrative offices at 1100 West Washington Street, Suite 290, Phoenix, Arizona 85007, (602) 364-1324.

Component units of the State affiliated with the Universities are legally separate, tax-exempt organizations controlled by separate boards of directors that meet the criteria established in GASB 39, with the exception of the Collegiate Golf Foundation, University Public Schools, Inc., and Campus Research Corporation (CRC). The Collegiate Golf Foundation and University Public Schools, Inc. are included because each is a legally separate organization that the State believes would be misleading to exclude due to its financial relationship or close affiliation to the State. The CRC is included because the U of A approves the budget, thus fiscal dependency exists.

The following discretely presented component units affiliated with the Universities are reported as *major* component units of the State:

Arizona State University Foundation (ASU Foundation) – The ASU Foundation's resources are disbursed at the discretion of the Foundation's independent board of directors, in accordance with donor directions and Foundation policy.

Arizona Capital Facilities Finance Corporation (ACFFC) – The ACFFC provides facilities for either use by students of ASU or ASU itself.

University of Arizona Foundation (U of A Foundation) – The U of A Foundation supports the U of A through various fund-raising activities and contributes funds to the U of A in support of various programs.

The following discretely presented component units affiliated with the Universities are reported as *non-major* component units of the State:

Arizona State University Alumni Association, Sun Angel Foundation, and Sun Angel Endowment – These three foundations receive funds primarily through donations and dues, and contribute funds to ASU for support of various programs.

Arizona State University Research Park, Inc. (ASU Research Park) – ASU Research Park manages a research park to promote and support research activities in coordination with ASU.

Mesa Student Housing, LLC and Downtown Phoenix Student Housing, LLC – These foundations provide facilities for use by students of ASU.

Collegiate Golf Foundation – This foundation operates an ASU-owned golf course.

University Public Schools, Inc. (UPSI) – The UPSI operates a public school designed to be on the forefront of education innovation and improvement, with the goal of developing educational models that can be scaled across the State and nation to improve the academic achievement of children.

University of Arizona Alumni Association (U of A Alumni Association) – The U of A Alumni Association was established to serve the U of A and its graduates, former students, and friends by attracting, organizing, and encouraging them to advance the U of A's missions - teaching, research, and public service.

University of Arizona Law College Association (Law Association) – The Law Association was established to provide support and financial assistance to the College of Law at the U of A. The Law Association funds provide support to the College on many levels, from endowed student scholarships to named faculty professorships.

University of Arizona Campus Research Corporation (CRC) – The CRC was established to assist the U of A in the acquisition, improvement, and operation of the U of A Science and Technology Park (Park) and related properties. The CRC currently leases from the U of A the remaining 67.00% of building space of the Park not leased to the Arizona Research Park Authority. The CRC is responsible for assisting in the development of the presently undeveloped portions of the Park and for subleasing unoccupied space, newly developed space, and space now occupied by IBM or its subtenants once the current subleases expire. The U of A is responsible for payment of operational expenses associated with the space occupied by the U of A departments, offices, and programs.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

Northern Arizona University Foundation, Inc. (NAU Foundation) – The NAU Foundation receives gifts and bequests, administers and invests securities and property, and disburses payments to and on behalf of NAU for advancement of its mission.

Northern Arizona Capital Facilities Finance Corporation (NACFFC) – The NACFFC was established for the purpose of acquiring, developing, constructing, maintaining, and operating student housing and other capital facilities and equipment for the use and benefit of NAU's students.

Complete financial statements for each of the aforementioned component units, except for the U of A Foundation, may be obtained at the following addresses:

ASU Foundation, ASU Alumni Association, Sun Angel Foundation, Sun Angel Endowment, ASU Research Park, Collegiate Golf Foundation, ACFFC, Mesa Student Housing, LLC, Downtown Phoenix Student Housing, LLC, and the UPSI – Arizona State University, Financial Services, P.O. Box 875812, Tempe, Arizona 85287-5812 or (480) 965-3601

The U of A Alumni Association – Alumni Association, University of Arizona, P.O. Box 210109, Tucson, Arizona 85721-0109

The Law Association – Law College Association, University of Arizona, P.O. Box 210176, Tucson, Arizona 85721-0176

CRC - University of Arizona Science and Technology Park, 9030 South Rita Road, Suite 302, Tucson, Arizona 85747

NAU Foundation and NACFFC – Northern Arizona University, Comptroller's Office, P.O. Box 4069, Flagstaff, Arizona 86011

The financial statements of the U of A Foundation are not publicly available. For information regarding the U of A Foundation's financial statements, contact the U of A Comptroller at the following address: University of Arizona, Financial Services, P.O. Box 3310, Tucson, Arizona 85722-3310.

Related Organizations

Related organizations are legally separate entities for which the State is not considered to be financially accountable, and that do not meet the criteria established by GASB 39. The State's accountability for these organizations does not extend beyond making the appointments, nor are the economic resources accessible to the State. As a result, financial activity for the organizations described below is not included in the State's financial statements.

Arizona Health Facilities Authority (the Authority) – ARS §36-482 established the Authority to issue tax-exempt bonds and loans for the purpose of reducing health care costs and improving health care for Arizona residents by providing less expensive financing for health care institutions. Proceeds from bond issues are loaned to various qualifying nonprofit health care institutions. The health care institutions reimburse the Authority for expenses for issuance of the bonds, pay fees of the Authority, and make payments under the loans for the benefit of the holders of the bonds. The Authority is governed by a seven-member board of directors that is appointed by the Governor and approved by the Senate. The directors serve staggered terms of seven years, and can be removed for cause or at will by the Governor with the consent of the Senate. The State cannot abrogate the rights of the Authority until all bonds, together with the interest thereon, are fully paid and discharged and all agreements are fully performed.

Arizona International Development Authority (the Authority) – ARS §41-1533.01 established the Authority to facilitate the development of international trade or commerce between Arizona and other countries. The Authority is governed by a seven-member board of directors appointed by the Governor and approved by the Senate for five-year terms, and can be removed only for cause.

Arizona Sports and Tourism Authority (the Authority) – ARS §5-802 established the Authority to construct, finance, furnish, maintain, improve, operate, market, and promote the use of a multipurpose facility and do all things necessary or convenient to accomplish those purposes. The Authority may issue revenue bonds in such principal amounts to accomplish the above stated purposes. The Authority is governed by a nine-member board of directors of which five are appointed by the Governor and approved by the Senate and two members each by the President of the Senate and the Speaker of the House. The directors serve terms of five years, and may be re-appointed for one full subsequent term, and can be removed only for cause.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

Arizona Housing Finance Authority (the Authority) – ARS §41-3902 established the Authority to issue bonds for residential dwelling units and multifamily residential rental projects in rural areas. The Authority may also establish mortgage credit certificate programs to finance residential dwelling units in rural areas. The Authority is required to notify and obtain written consent from the governing bodies of any city, town, county, tribal government, or existing corporation for any multifamily residential rental projects planned for their jurisdiction. The Authority is governed by a seven-member board of directors that is appointed by the Governor and approved by the Senate. The directors serve terms of seven years, and can be removed only for cause.

State Compensation Fund (the Fund) – ARS §23-981 established the Fund to provide insurance to employers for workers' compensation, occupational disease compensation, and medical, surgical, and hospital benefits. The Fund is governed by a board of directors that consists of five members appointed by the Governor for staggered terms of five years. Annually, the Governor appoints a chairman from among the board members.

Joint Ventures

As described in Note 10, the U of A participates in a joint venture. In accordance with U.S. GAAP, the financial activities of this joint venture are not included in the State's financial statements.

B. BASIS OF PRESENTATION

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the State as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

Government-wide statements provide information about the primary government and its component units. The statements include a statement of net assets and a statement of activities. These statements report the financial activities of the overall government, except for fiduciary activities. They also distinguish between the governmental and business-type activities of the State and between the State and its discretely presented component units. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The **Statement of Net Assets** presents the State's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or voter initiative.

Unrestricted net assets consist of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

The **Statement of Activities** presents a comparison between direct expenses and program revenues for each function of the State's governmental activities, and its different business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular program or function.

The State does not allocate indirect expenses to programs or functions.

Program revenues include:

- charges to customers or applicants for goods, services, privileges provided, and fines or forfeitures
- operating grants and contributions
- capital grants and contributions, including special assessments

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Interfund balances have been eliminated from the government-wide financial statements to the extent that they occur within either the governmental or business-type activities. Balances between governmental and business-type activities are presented as internal balances and are eliminated in the total column. Revenues and expenses associated with reciprocal transactions within governmental or within business-type activities have not been eliminated.

Fund financial statements provide information about the State's funds, including fiduciary funds. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Fiduciary funds are aggregated and reported by fund type.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The State reports the following major governmental funds:

The General Fund – is the State's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Transportation and Aviation Planning, Highway Maintenance and Safety Fund – accounts for all financial transactions applicable to the general operations of the Arizona Department of Transportation (ADOT). The ADOT builds and maintains the State's highway system and the Grand Canyon Airport.

The Land Endowments Fund – holds lands granted to the State by the Federal government for the benefit of public schools and other public institutions. Principal is maintained intact and investment earnings and lease revenues are distributed to beneficiaries in accordance with State statute.

The State reports the following major enterprise funds:

The Universities – account for transactions of the State's three universities, which comprise the State's university system.

Unemployment Compensation – pays claims for unemployment to eligible recipients from employer contributions and reimbursements.

The Industrial Commission Special Fund – accounts for deposits not to exceed 1.50% of all premiums received by the State Compensation Fund and private insurance carriers during the preceding calendar year. These monies are used to provide additional awards as necessary to enable injured employees to accept the benefits of any law for promotion of vocational rehabilitation of persons disabled in industry. In addition, benefits may be paid for workers' compensation claims filed by employees of non-insured employers. The Industrial Commission (Commission) then pursues against the non-insured employer for reimbursement of all benefits paid, including assessed penalties.

The Lottery – accounts for the activities of the Arizona State Lottery.

Additionally, the State reports the following fund types:

Internal Service Funds – account for insurance coverage, employee benefits, automotive maintenance and operation, highway equipment rentals, and data processing and telecommunication services provided to State agencies on a cost-reimbursement basis. It is the policy of the State to classify immaterial proprietary fund activities in governmental funds. This policy helps to reduce the number of funds reported in the financial statements to the minimum amount needed. These funds allocate a fixed rate payroll processing charge among all agencies, allocate postage and mailing costs among all agencies, or arrange for the sale of the State's office equipment and motorized vehicles at public auctions.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

Pension and Other Employee Benefit Trust Funds – account for the activities of the ASRS, the PSPRS, the EORP, and the CORP, for which the State acts as a trustee. These retirement and other post-employment benefit plans accumulate resources to pay pension, health insurance premium subsidies, and long-term disability benefits of State employees and employees of other governmental entities participating in the plans.

Investment Trust Funds – account for transactions by local governments and political subdivisions that elect to participate in the State Treasurer’s investment pools. The Treasurer acts as trustee for the original deposits made into the investment pools.

Agency Funds – account for the receipt and disbursement of various taxes, deposits, deductions, property collected by the State, and payment of the health insurance subsidy by the PSPRS, the EORP, and the CORP, where the State acts as an agent for distribution to other governments and organizations.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The agency funds are custodial in nature and do not have a measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Grants and donations are recognized as revenues as soon as all eligibility requirements the provider imposed have been met.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The State considers all revenues reported in the governmental funds to be available if the revenues are collected within 31 days after year-end, except for State fiscal stabilization funds, which consider revenues to be available if collected within 90 days after year-end, and except for the Transportation and Aviation Planning, Highway Maintenance and Safety Major Fund, as well as certain non-major governmental funds administered by the ADOT, which consider revenues to be available if collected within 60 days after year-end. Those revenues susceptible to accrual are federal reimbursements, highway user revenue tax, and state sales tax. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the State funds certain programs through a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The State’s policy regarding whether to first apply restricted or unrestricted resources is made on a case-by-case basis.

The State’s business-type activities and enterprise funds follow Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The State has chosen the option not to follow FASB Statements and Interpretations issued after November 30, 1989.

D. DEPOSITS AND INVESTMENTS

1. Cash and Cash Equivalents

On the Statement of Cash Flows, the amount reported as “Cash and Cash Equivalents” is equal to the total of the amounts on the Statement of Net Assets “Cash”, “Cash with U.S. Treasury”, “Cash and pooled investments with State Treasurer”, “Cash held by trustee” and “Collateral investment pool”. For purposes of the Statement of Cash Flows, the State considers only those highly liquid debt instruments with an original maturity of ninety days or less to be cash equivalents.

- *Cash (not with State Treasurer)* – includes undeposited receipts, petty cash, bank accounts, non-negotiable certificates of deposit, and demand deposits with banking institutions other than the State Treasurer.
- *Cash with U.S. Treasury* – consists of unemployment compensation contributions from Arizona employers that are deposited in a trust fund maintained by the United States Treasury.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

- *Cash and pooled investments with State Treasurer* – consists of a centralized management of most State cash resources maintained by the State Treasurer. From the perspective of the various State funds, the pool functions as both a cash management pool and a demand deposit account. The operations and investments of the State Treasurer’s pooled investments are described in Note 2.
- *Cash held by trustee* – consists of capital projects and bond debt service funds invested by the trustee in accordance with the applicable financing indenture, generally limited to United States Treasury securities and other Federal agency securities, certificates of deposit, commercial paper, and money market funds.
- *Collateral investment pool* – consists of cash received as collateral on securities lending transactions and investments made with that cash. The State records the collateral received as an asset. A corresponding liability is also recorded for such securities lending transactions.

2. Investment Valuation

Investments maintained by the State Treasurer are reported at fair value using JP Morgan prices, as determined by independent, industry recognized data vendors who provide values that are either exchange based or matrix based. Equities are priced utilizing the primary exchange close price. In the absence of a closed price, the mid/bid price will be utilized. If no pricing source is available, the cost price or last available price from any source will be utilized. All bonds are priced using an evaluated price, the closing trade/bid price or the most recent mid/bid price, except securities with a remaining maturity of 90 days or less are priced at amortized cost (amortizing premium/accreting discount on a straight-line to maturity method). If no pricing source is available, the cost price or the last available price from any source will be utilized.

The ASRS’ publicly traded investments are reported at fair value determined by the custodial agents. The agents’ determination of fair values includes, among other things, using pricing services or prices quoted by independent brokers at current exchange rates. The fair value of currency forward contracts is calculated by interpolating the spot rate and the forward rates based upon the number of days to maturity. Each future contract value is marked to market daily during the period that the contract is held. Private real estate, private equity, and opportunistic partnership investments are valued based on the partnership’s March 2009 financial statements adjusted for cash flows through June 30, 2009. Short-term investments are reported at cost plus accrued interest, which approximates fair value. For investments where no readily ascertainable fair value exists, the ASRS, in consultation with its investment advisors, has determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment’s degree of risk. Security transactions and any resulting gains or losses are accounted for on a trade date basis. Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, real estate, private equity and opportunistic investments income and total investment expense. This includes investment management, custodial fees, real estate, private equity and opportunistic investment expenses and all other significant investment related costs.

For the PSPRS, the EORP, and the CORP, investments are reported at fair value. Short term investments are reported at fair value, which approximates cost. Equity securities are valued at the last reported sales price. Fixed income securities are valued using the last reported sales price or the estimated fair market value as determined by the fixed income broker/dealers. Investments that do not have an established market are reported at estimated fair value. Directed real estate and venture capital investments are reported at fair value using appraisals to estimate the fair market value. Appraisals will be performed every three years on a rolling schedule unless circumstances warrant otherwise. Investment income is recognized as earned.

E. TAXES RECEIVABLE

Taxes receivable include amounts owed by taxpayers for prior periods including assessments for underpayments, penalties, and interest. In the government-wide financial statements, a corresponding amount is recorded as revenue using the accrual basis of accounting. In the governmental fund financial statements, revenue is recorded using the modified accrual basis of accounting. The remainder is recorded as deferred revenues.

The income tax receivable is composed of individual and corporate estimated payments, withholding payments, and payments with final returns and assessments that relate to income earned through June 30, 2009. Sales and motor vehicle and fuel tax receivables represent amounts that are earned by the State in the fiscal period ended June 30, 2009, but not collected until the following month.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

F. INVENTORIES

Inventories consist of expendable supplies held for consumption in all funds and merchandise intended for sale to customers in the proprietary funds. Inventories are stated at cost using the first-in, first-out method, weighted average, or lower of cost or market. In the governmental funds, inventories are accounted for using the consumption method. Under this method, inventories are recorded as expenditures as they are used.

G. PROPERTY TAX CALENDAR

Real property taxes are levied on or before the third Monday in August and become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. A lien attaches on the first day of January preceding assessment and levy.

H. CAPITAL ASSETS

Capital assets are stated at cost at the date of acquisition or, if donated, at the estimated fair market value at the date received. Interest incurred during the construction of capital assets is only capitalized in the proprietary funds.

Most capital assets are depreciated over their useful life. However, the State utilizes an alternative accounting treatment for most infrastructure assets in which costs to maintain and preserve these assets are expensed and no depreciation expense is recorded. This approach is discussed further in the Required Supplementary Information (RSI) portion of this report. The State has adopted a general policy for capitalization thresholds, depreciation, and estimated useful lives of capital assets. In addition, the State has approved alternative policies for some State agencies.

Depreciable capital assets are depreciated on a straight-line basis. Capitalization thresholds (the dollar values at which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets being depreciated in the government-wide financial statements and the proprietary funds are as follows:

Asset Category	General State Policy		Other Authorized Agency Policies	
	Capitalization Threshold	Estimated Useful Life (years)	Capitalization Threshold	Estimated Useful Life (years)
Land	All capitalized	Not depreciated	All capitalized	Not depreciated
Buildings	All capitalized	25-40	\$0-\$100,000	10-50
Improvements other than buildings	\$5,000	15	\$5,000-\$100,000	20-50
Equipment	\$5,000	3-15	\$5,000	3-25
Infrastructure	All capitalized	Not depreciated	\$0-\$100,000	20-100

The State is trustee for approximately 9.3 million acres of land acquired through U.S. Government land grants in the early 1900's. The State acquired a substantial portion of this land at no cost and its fair market value at acquisition has not been reliably estimated. Accordingly, this land is not reported in the accompanying financial statements.

The State has interest in and maintains significant special collections, works of art, and historical treasures. Except for Arizona State University (ASU), all special collections, works of art, and historical treasures which are held for financial gain are capitalized at fair market value at the date of acquisition or donation. Those special collections, works of art, and historical treasures which are held for educational, research, or public exhibition purposes are not capitalized, as they are not subject to disposal for financial gain or encumbrance. Such items are inventoried for property control purposes. ASU capitalizes all works of art and historical treasures with a unit cost of \$5,000 or more.

Additional disclosures related to capital assets and assets acquired through capital leases are provided in Notes 4 and 7, respectively.

I. INVESTMENT EARNINGS

Investment earnings are composed of interest, dividends, and net changes in fair value of applicable investments.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

J. SCHOLARSHIP ALLOWANCES

Student tuition and fee revenues, and certain other revenues earned by the three State Universities are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses and Changes in Fund Net Assets. A scholarship discount and allowance is the difference between the stated charge for goods and services provided and the amount that is paid by the student or third party making payment on behalf of the student. Accordingly, some types of student financial aid such as Pell grants and scholarships awarded by the Universities are considered to be scholarship allowances. These allowances are netted against applicable revenues in the Statement of Revenues, Expenses and Changes in Fund Net Assets.

K. DEFERRED REVENUE

Deferred revenue consists of payments to the State for goods and services not yet rendered, or taxes, grants, and other non-exchange transactions for which related resources are not available to pay current liabilities. In the government-wide and proprietary fund financial statements, revenue is deferred when cash, receivables, or other assets are received prior to their being earned. In the governmental fund financial statements, revenue is deferred when that revenue is unearned or unavailable.

L. COMPENSATED ABSENCES

In the government-wide and proprietary fund financial statements, the State accrues liabilities for compensated absences as required by the GASB. In the governmental fund financial statements, liabilities for compensated absences are not accrued, because they are not considered due and payable.

In general, State employees accrue vested annual leave at a variable rate based on years of service. Except for uncovered State employees and University employees, an employee generally forfeits accumulated annual leave in excess of 240 hours as of the last day of the last pay period for a calendar year, unless the Director of the Department of Administration authorizes an exception. Uncovered State employees shall forfeit accumulated annual leave in excess of 320 hours as of the end of each calendar year, unless an exception is authorized. University employees may accumulate up to 264 hours of vacation, and any vacation hours in excess of the maximum amount that are unused at December 31 are forfeited. Except for University employees, an employee who separates from State service is paid for all unused and unforfeited annual leave at the employee's rate of pay at the time of separation. University employees, upon termination of employment, are paid all unused vacation benefits not exceeding 176 hours (annual accrual amount), depending on years of service and full-time equivalent employment status.

Some employees accumulate compensatory leave for time worked over 40 hours per week. An employee may accumulate up to 240 hours of compensatory leave (480 if working in a public safety activity or an emergency response activity). An employee who separates from State service is paid for all unused compensatory leave at either the employee's average base salary during the last three years of employment or final base salary, whichever is higher.

For sick leave policy, see Note 11.C.

M. LONG-TERM OBLIGATIONS

In the government-wide and proprietary fund financial statements, long-term debt and long-term liabilities are reported as liabilities. Amounts due within one year are reported as current liabilities, and amounts due thereafter are reported as non-current liabilities. Premiums and discounts on revenue bonds and COPs are deferred and amortized over the life of the debt instrument using the straight-line method. Bonds and COPs are reported net of the applicable premium or discount. Bond issuance costs and deferred gains or losses on debt refundings are charged to expense in the period incurred unless those costs are deemed to be material to the State's financial statements by management, in which case, they are deferred and amortized using either the straight-line method or the effective interest method.

In the fund financial statements, governmental fund types recognize proceeds from revenue bonds, COPs, and premiums and discounts on revenue bonds and COPs as other financing sources and uses in the current period. Long-term liabilities are more fully described in Note 7.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

N. NEW ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*. This Statement addresses accounting and financial reporting standards for pollution (including contamination) remediation obligations, which are obligations to address the current or potential detrimental effects of *existing* pollution by participating in pollution remediation activities such as site assessments and cleanups. The scope of the document excludes pollution *prevention* or *control* obligations with respect to current operations, and future pollutions remediation activities that are required upon retirement of an asset, such as landfill closure and post-closure care and nuclear power plant decommissioning. When an obligating event occurs, the State is required to accrue and report a pollution remediation obligation (PRO) for those components of the PRO which are reasonably estimable. Accordingly, the State has recorded a new PRO liability for soil and groundwater contaminations and releases of petroleum based products from underground storage tanks on non-State-owned property regulated by the Arizona Department of Environmental Quality, using the expected cash flow technique. PRO liabilities include all outlays at current value expected to be expended to remediate polluted sites. Additionally, the provisions of GASB 49 are required to be applied retroactively. Therefore, net assets as of June 30, 2008 would have been restated, however, the State's adoption of GASB 49 was not material to the financial statements for the governmental activities. The requirements of this Statement are effective for periods beginning after December 15, 2007.

GASB Statement No. 52, *Land and Other Real Estate Held as Investments by Endowments*. This Statement establishes consistent standards for the reporting of land and other real estate held as investments by essentially similar entities. It requires endowments to report their land and other real estate investments at fair value. Governments also are required to report the changes in fair value as investment income and to disclose the methods and significant assumptions employed to determine fair value, and other information that they currently present for other investments reported at fair value. The requirements of this Statement are effective for periods beginning after June 15, 2008. The State has implemented the requirements of this standard, but they had no material effect on the financial statements.

NOTE 2. DEPOSITS AND INVESTMENTS

A. DEPOSITS AND INVESTMENT POLICIES

The State's deposits and investments are primarily under the control of the State Treasurer, the Retirement Systems, the Universities, and the Commission. These entities maintain the majority of the deposits and investments of the primary government. The investment policies of these organizations are defined according to State statutes or a governing board or both and are described below.

ARS §35-312, §35-313, and §35-314 authorize the State Treasurer to invest operating, trust, and permanent endowment fund monies. Monies deposited with the State Treasurer by State agencies are invested by the State Treasurer in a pooled fund. Any interest earned is allocated monthly into each respective fund based on average daily cash balances. There is no income from investments associated with one fund that is assigned to another fund.

The State statutes and the State Treasurer's investment policies designed to administer these statutes restrict investments to obligations of the U.S. Government and its agencies, obligations or other evidence of indebtedness of the State and certain local government subdivisions, negotiable certificates of deposit, bonds, debentures and notes issued by U.S. corporations, commercial paper issued by entities organized and doing business in the United States, bankers acceptances, collateralized repurchase agreements, money market mutual funds, domestic equities, and other securities. The State Treasurer is not allowed to invest in foreign investments.

The State Treasurer maintains external investment pools [the Local Government Investment Pool (LGIP), Local Government Investment Pool-Government, Local Government Investment Pool – Long Term, and the Central Arizona Water Conservation District]. The pools are not required to register (and are not registered) with the Securities and Exchange Commission under the 1940 Investment Advisors Act. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with ARS §35-311. The fair value of investments is measured on a monthly basis. Participant shares are purchased and sold based on the Net Asset Value (NAV) of the shares. The NAV is determined by dividing the fair value of the portfolio by the total shares outstanding. The State Treasurer does not contract with an outside insurer in order to guarantee the value of the portfolio or the price of shares redeemed.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

During the year, the State agencies' and an external investment pool's share of the Lehman Brothers bond value of \$39.427 million was transferred to a new pool due to Lehman Brothers filing for Chapter 11 bankruptcy protection on September 15, 2008. The transfer was made to provide for the decline in fair value of the Lehman Brothers securities. As of June 30, 2009, the fair value of the pool was \$5.819 million. The likelihood that these participant monies will be recovered is not known.

State statutes authorize the retirement systems to make investments in accordance with the "Prudent Person" rule. As such, investment management shall discharge the duties of their position with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a "prudent person" acting in enterprise of a like character and with like aims as that of the systems, subject to certain statutory limitations and restrictions.

The ASRS invests in short-term securities, obligations of the U.S. government or agencies of the U.S. government, corporate bonds, common and preferred stocks (domestic and foreign), mortgages, real estate, private equity and opportunistic investments. Per ARS §38-719, no more than 80.00% of the ASRS' total assets may be invested at any given time in corporate stocks or equity equivalents, based on cost value of the stocks or equity equivalents irrespective of capital appreciation. No more than 5.00% of the voting stock of any one corporation may be owned. No more than 30.00% of the ASRS' assets may be invested in foreign securities, and those investments shall be made only by investment managers with demonstrated expertise in such investments. No more than 10.00% of the ASRS' assets may be invested in bonds or other evidences of indebtedness of those multinational development banks in which the U.S. is a member nation, including the International Bank for Reconstruction and Development, the African Development Bank, the Asian Development Bank, and the Inter-American Development Bank. No more than 1.00% of the ASRS' assets may be invested in economic development projects authorized as eligible for such investment by the Arizona Department of Commerce. ARS §35-392 requires divestment from investments in companies that do business in Sudan, Iran, or other State Sponsors of Terrorism countries under certain conditions. Subject to the limitations noted above, the ASRS Board may authorize the ASRS Director to make investments that are designated by the ASRS Board and that do not exceed 50.00% of the assets of the investment account measured at cost. The ASRS Board has not formally adopted more restrictive policies for the various types of risks.

Per ARS §38-848, §38-803A(4), and §38-883A(4), the PSPRS, the EORP, and the CORP, respectively, may not invest at any given time more than 80.00% of the combined assets of the system or other plans that the fund manager manages in corporate stocks, based on cost value of such stocks irrespective of capital appreciation. In addition, the PSPRS, the EORP, and the CORP investments shall be restricted to stocks and exchange traded funds that, except for bank and insurance stocks and membership interests in limited liability companies, are either: 1) listed or approved on issuance for listing on an exchange registered under the Securities Exchange Act of 1934, as amended, 2) designated or approved on notice of issuance for designation on the national market system of a national securities association registered under the Securities Exchange Act of 1934, as amended, 3) listed or approved on issuance for listing on an exchange registered under the laws of this State or any other State, 4) listed or approved on issuance for listing on an exchange registered of a foreign country with which the U.S. is maintaining diplomatic relations at the time of purchase, except that no more than 20.00% of the combined assets of the system or other plans that the fund manager manages shall be invested in foreign securities, based on the cost value of the stocks irrespective of capital appreciation, or 5) an exchanged traded fund that is recommended by the chief investment officer of the system, that is registered under the Investment Company Act of 1940, and that is both traded on a public exchange and based on a publicly recognized index. Not more than 5.00% of the voting stock of any one corporation shall be owned by the system and other plans that the fund manager administers, except that this limitation does not apply to membership interests in limited liability companies.

The ABOR governs the investment policies of the Universities. The Universities are generally limited to investing their pooled operating funds in collateralized certificates of deposit and repurchase agreements, U.S. Treasury securities, Federal agency securities, investment grade corporate bonds, or in the LGIP administered by the State Treasurer. Investment of capital project funds is also governed by the financing indenture agreements. For endowment investments, ABOR policy dictates that these funds are to be invested under the direction of an investment committee designated by the president of each university. The investment committee is responsible for advising on the definition, development, and implementation of investment objectives, policies, and restrictions. However, if donors restrict the investments, ABOR policy requires the University to invest those funds separately as directed by the donor, and the individual endowments bear all changes in value.

Per ARS §23-1065, the Commission's investment committee is responsible for prescribing investment policies and supervising the investment activities of the Commission. The Commission requires that their investment policy be responsive to the unpredictable nature of the incidence and severity of claims, the long periods over which losses may be paid, and the effect on both claims and losses of increases in treatment and rehabilitation costs. The investment committee may invest in any legal investment authorized under ARS §38-719.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

B. CUSTODIAL CREDIT RISK – DEPOSITS AND INVESTMENTS

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party. The State Treasurer, the Retirement Systems, and the Universities' deposits of State treasury monies with financial institutions are required by State statutes to be entirely covered by the Federal Depository Insurance Corporation (FDIC) or, alternatively, collateralized for amounts in excess of the amount insured. Surety collateral for the Universities and the Retirement Systems must be equal to at least 100.00% of the bank balance required to be collateralized (102.00% for the State Treasurer). Beyond this requirement, these organizations do not have a formal policy specifically addressing custodial credit risk on deposits, except for the State Treasurer. The State statutes require surety collateral for the State Treasurer to consist of U.S. Government obligations, State obligations, and obligations of counties and municipalities within the State. As of June 30, 2009, some State agencies have uncollateralized and uninsured deposits in the amount of \$535 thousand and \$4.815 million in deposits collateralized with securities held by the pledging financial institution's trust department or agent, but not in the State's name.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered. The State does not have a formal policy in regards to custodial credit risk for investments. As of June 30, 2009, the State had \$61.323 million in securities that were uninsured, not registered in the State's name and held by a counterparty or a counterparty's trust department or agent but not in the State's name.

C. INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The State manages interest rate risk using the segmented time distribution, weighted average maturity, and effective duration methods.

The State Treasurer manages interest rate risk by incorporating ARS limitations into their investment policy and setting forth various thresholds or parameters in accordance with each investment pool's portfolio structure. The State Treasurer's policy provides either maturity or duration limitations for the various investment pools. The interest rate risk inherent in the portfolio is monitored monthly by measuring the weighted average maturity and/or duration.

The ASU policy for operating funds limits the maximum maturity of any fixed rate issue to five years. The capital projects funds portfolio is not limited as to the overall maturity of its investments, with funds invested per the financing indentures to coincide with capital spending needs and debt service requirements, which are typically less than three years, with the additional limitation that certificates of deposit and commercial paper have maximum maturities of 360 days and 270 days, respectively.

The Commission approves and contracts with different investment managers of fixed income equities in order to manage the exposure to interest rate risk with each different fund manager focusing on different goals of yield periods or duration of maturities of their particular portion of the investment pool.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

The following table presents the State Treasurer's, the ASU's, and the Commission's weighted average maturity in years by investment type (expressed in thousands):

Investment Type	Fair Value	Weighted Average Maturity (in years)
Bond mutual funds	\$ 8,109	9.30
Commercial mortgage backed securities	6,901	28.61
Commercial paper	314,731	0.13
Corporate asset backed securities	67,360	0.33
Corporate collateralized mortgage obligations	17,095	16.61
Corporate notes & bonds	1,601,702	3.55
Government bonds	6,876	10.86
Government mortgage backed securities	43,810	17.18
Index linked government bonds	8,734	4.60
Money market mutual funds	157,734	0.15
Repurchase agreements	3,614,477	0.02
U.S. agency securities	1,775,273	1.30
U.S. agency securities-full faith	15,344	0.77
U.S. agency mortgage backed securities	785,608	17.34
U.S. Treasury securities	1,243,636	0.92
Other	8,619	4.28
Total Debt Securities	\$ 9,676,009	2.52

The ASRS does not have a formal policy in regards to interest rate risk, but does manage interest rate risk using effective duration. Effective duration measures the expected change in value of a fixed income security for a given change in interest rate. This method takes into account the likely timing and amounts of variable cash flows for bonds with call options and prepayment provisions. The following table presents ASRS' effective duration by investment type (expressed in thousands):

Investment Type	Fair Value	Effective Duration (in years)
Asset backed securities	\$ 139,591	1.00
Collateralized mortgage obligations (CMOs) of government agencies	16,969	1.70
Commercial mortgage backed	458,816	3.30
Corporate bonds	1,735,814	3.60
Government agencies	564,510	5.00
Government bonds	659,902	5.00
Government mortgage backed	1,663,108	2.80
Non-government backed CMOs	196,804	6.00
Total Debt Securities	\$ 5,435,514	3.66

The PSPRS, the EORP, the CORP, and the NAU do not have a formal policy in regards to interest rate risk. The U of A's investment policy limits its operating funds to having a portfolio comprised of a significant proportion of authorized securities with maturities of one year or less, and requires that a maximum maturity of any fixed rate issue may not exceed five years and the final maturity of any floating rate issue may not exceed five years. The U of A capital projects and endowment funds have no such limitations.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

The following table presents the interest rate risk for the PSPRS, the EORP, the CORP, the NAU, the U of A, and other State agencies utilizing the segmented time distribution (expressed in thousands):

Investment Type	Fair Value	Investment Maturities (in years)					
		Less than 1	1-5	6-10	11-15	16-20	More than 20
Corporate notes & bonds	\$ 1,363,034	\$ 3,207	\$ 89,867	\$ 306,916	\$ 69,929	\$ 192,155	\$ 700,960
Collateralized bond obligations (CBOs)	41,317	-	12,460	12,314	-	5,157	11,386
Collateralized debt obligations (CDOs)	1,119	-	-	1,118	-	1	-
Money market mutual funds	266,481	266,481	-	-	-	-	-
U.S. agency securities	433,274	32,050	144,724	73,346	13,789	121,793	47,572
U.S. Treasury securities	75,676	52,834	20,847	449	-	531	1,015
Other investments	21,361	5,292	1,955	8,534	193	1,063	4,324
Total Debt Securities	\$ 2,202,262	\$ 359,864	\$ 269,853	\$ 402,677	\$ 83,911	\$ 320,700	\$ 765,257

The following table presents the State's investments at fair value that are considered to be highly sensitive to interest rate changes (expressed in thousands):

Interest Rate Terms	Corporate Securities	U.S. Agency Securities	Total
The London Interbank Offered Rate (LIBOR) plus/minus fixed basis point which resets from monthly to quarterly.	\$ 810,057	\$ 266,120	\$ 1,076,177
Corporate asset backed securities with coupon tied to LIBOR plus/minus fixed basis point which resets monthly.	66,945	-	66,945
Mortgage backed securities - when interest rates fall, mortgages are refinanced and paid off early and the reduced stream of future interest payments diminishes fair value.	-	830,678	830,678
Callable step-up notes - where on certain specified dates, the issuer can call the security. If the security is not called, the interest rate is increased by a specified amount. Prevailing interest rates may go up faster than this increase in the coupon interest rate.	-	65,377	65,377
Other securities with high sensitivity to rate changes.	-	125,437	125,437
Total	\$ 877,002	\$ 1,287,612	\$ 2,164,614

D. CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the holder of the investment.

The State statutes and the State Treasurer's investment policy require that commercial paper must be rated by at least two nationally recognized statistical rating organizations (NRSROs) and that the ratings assigned by at least two of the NRSROs be of the two highest rating categories for short-term obligations. Corporate bonds, debentures, and notes must carry a minimum Baa or better rating from Moody's Investor Service (Moody's) or a BBB or better rating from Standard and Poor's Rating Service (S & P). For investments not rated by Moody's, Fitch rating information is used. There is no statute or investment policy on ratings or credit quality for obligations issued by the U.S. Government or its agencies or repurchase agreements. The underlying securities for repurchase agreements must be explicitly guaranteed by the U.S. Government.

The ASRS has not adopted a formal policy with respect to credit risk.

The PSPRS, the EORP, and the CORP's investment policy is specific as to permissible credit quality ranges, exposure levels within individual quality tiers, and the average credit quality of the overall portfolios. The fixed income portfolio must have a minimum weighted average quality rating of A3 by Moody's and A- by S & P. Fixed income investments must have a minimum quality rating of Baa3 by Moody's and BBB- by S & P at the time of purchase. Commercial paper must have a minimum quality rating of P-1 by Moody's and A1 by S & P at the time of purchase. The portion of the bond portfolio in investments rated Baa3

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

through Baa1 by Moody's and BBB- through BBB+ by S & P must be 20.00% or less of the fair value of the fixed income portfolio.

The Universities' policies mirror that of the ABOR, which requires that negotiable certificates of deposit, corporate bonds, debentures and notes, bankers acceptances, and State of Arizona bonds carry a minimum BBB or better rating by S & P or Baa or better rating by Moody's; and that commercial paper be rated by at least two NRSROs and must be of the two highest rating categories for short-term obligations of at least two of the NRSROs. Also, ASU's capital projects and bond debt service funds are invested by the bond trustee in accordance with the applicable financing indenture.

The Commission's investment policy requires that purchases of fixed income securities will consist of U.S. Treasury or Federal agency obligations or those bonds rated not less than Ba by Moody's or BB by S & P, except for fixed income managers who have been hired to manage funds in a specialized manner (high yield).

The following table presents the State's investments which were rated by S & P and/or an equivalent national rating organization as of June 30, 2009. The ratings are presented using S & P's rating scale (expressed in thousands):

Investment Type	Fair	AAA	AA	A	BBB	BB	B	CCC	A1	Not
	Value							Thru D		Rated
Asset backed securities	\$ 211,158	\$ 144,116	\$ 6,358	\$ 11,525	\$ 4,508	\$ 7,970	\$ 27,167	\$ 9,040	\$ -	\$ 474
Bond mutual funds	13,213	-	-	-	-	-	-	-	-	13,213

E. CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The State Treasurer's, the ASRS', ASU's, the U of A's, and the Commission's investment policies state that no more than 5.00% of their investments may be invested in securities issued by any one institution, agency, or corporation, other than securities issued as direct obligations of or are fully guaranteed by the U.S. Government or mortgage backed securities and agency debentures issued by federal agencies. The PSPRS', the EORP's, and the CORP's investment policy states that no more than 5.00% of the combined assets of the system or other plans that the fund manager manages shall be invested in corporate stock issued by any one corporation, other than corporate stock issued by corporations chartered by the U.S. government or corporate stock issued by a bank or insurance company. NAU has no formal policy in regards to concentration of credit risk. At June 30, 2009, more than 5.00% of the Governmental Activities' total investments were held in the following single issues (expressed in thousands):

Issuer Description	Fair Value	Percentage
Federal Home Loan Mortgage Corporation	\$ 475,902	8.64%
Federal National Mortgage Association	455,590	8.27%

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

F. FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in the foreign exchange rate will adversely impact the fair value of an investment or deposit. The State does not have a formal policy regarding foreign currency risk. The ASRS is the primary State agency that has foreign currency risk. Per ARS §38-719, no more than 30.00% of the ASRS assets may be invested in foreign equity securities and those investments shall be made only by investment managers with demonstrated expertise in those investments. The ASRS has not adopted a formal policy that is more restrictive. The following table summarizes the State's foreign currency risk as of June 30, 2009 (expressed in thousands):

Currency	Foreign Currency Risk by Investment Type at Fair Value				
	Short Term	Fixed Income	Equities	Other Investments	Total
Australian Dollar	\$ 45,211	\$ -	\$ 56,301	\$ -	\$ 101,512

Various mutual funds	-	3,632	44,724	4,420	52,776
Total	\$ 270,767	\$ 41,326	\$ 2,394,211	\$ 51,165	\$ 2,757,469

G. UNEMPLOYMENT COMPENSATION

Pursuant to Section 904 of the Social Security Act (42 U.S.C. §1104), unemployment insurance contributions from Arizona employers are deposited in an unemployment trust fund account with the Secretary of the Treasury of the United States. The cash on deposit in the trust fund account is pooled and invested. Interest earned from investments purchased with such pooled monies is deposited in the trust fund account. The Unemployment Compensation Fund, reported as a major enterprise fund, has been established for this purpose.

H. SECURITIES LENDING

Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. A corresponding liability is also recorded for such securities lending transactions.

1. Industrial Commission

State statutes and the Commission's policies permit the Commission to enter into securities lending transactions with its custodial bank. There were no significant violations of legal or contractual provisions, and there were no borrower or lending agent default

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

losses to the securities lending agent. The custodial bank, Northern Trust, manages the securities lending operations through a contractual agreement with the Commission and splits the fees received with the Commission. There was no credit risk (i.e., lender's exposure to the borrowers of its securities) related to the securities lending transactions at June 30, 2009. Northern Trust's indemnification responsibilities include performing appropriate borrower and collateral investment credit analysis, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examinations Council regulations concerning securities lending. Securities are loaned for collateral that may include cash, U.S. Government securities, and irrevocable letters of credit. Domestic securities are loaned for collateral valued at 102.00% of the market value of securities loaned plus accrued interest. International securities are loaned for collateral valued at 105.00% of the market value of securities loaned plus accrued interest. The market value at June 30, 2009 for loaned securities collateralized by cash and non-cash collateral was \$43.631 million and \$0, respectively. As part of the securities lending transactions, Northern Trust received cash and non-cash collateral valued at \$44.736 million and \$0, respectively at June 30, 2009. Non-cash collateral cannot be pledged or sold unless the borrower defaults. Deposit and investment risk disclosures are only reported for collateral received on securities lent.

All securities loans can be terminated on demand by either the lender or the borrower. The average term of the loans is 52 days and cash open collateral is invested in a short-term investment pool, the Core USA Collateral Section, which had an average weighted maturity of 15 days as of June 30, 2009. Cash collateral may also be invested separately in term loans, in which case the investments match the loan term. Cash open loans can be terminated on demand by either the lender or the borrower and there were no dividends or coupon payments owing on securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month. Investments made with cash collateral received are classified as an asset on the Statement of Net Assets. A corresponding liability is recorded as the Commission must return the cash collateral to the borrower upon expiration of the loan. At June 30, 2009, the Commission had \$44.736 million outstanding as payable for securities lending. A cap restriction on the amount of securities that can be out on loan at any one time of \$43.976 million was set by the Commission on September 29, 2008.

2. Arizona State Retirement System

The ASRS is permitted by ARS §38-715(D) (3), to enter into securities lending transactions. The ASRS' custodial bank enters into agreements with counterparts to loan securities and have the same securities redelivered at a later date. All securities are eligible for loan (U.S. fixed income securities, U.S. equities, and international equities) with a higher percentage of U.S. Treasuries on loan than most other security types. It is the policy of the ASRS to receive as collateral at least 102.00% of the market value of the loaned securities and maintain collateral at no less than 100.00% for the duration of the loan. At year-end, the ASRS has no credit risk exposure to borrowers because the amount the ASRS owes the borrowers exceeds the amount the borrowers owe the ASRS. The ASRS records the collateral received as an asset and the same amount as an obligation for securities on loan. Cash collateral received may be reinvested. The maturities of the investments are closely matched to those of the security loans to avoid interest rate exposure. The ASRS receives a spread for its lending activities. Investments made with cash collateral received are classified as an asset on the Statement of Fiduciary Net Assets. A corresponding liability is recorded as the ASRS must return the cash collateral to the borrower upon expiration of the loan. At June 30, 2009, the fair value of securities on loan was \$3.5 billion. Cash of \$3.4 billion received as collateral for securities loaned was reinvested and had a net asset value of \$3.4 billion, as of June 30, 2009. The securities lending payable at June 30, 2009 was \$3.4 billion. The ASRS does not have the ability to pledge or sell the collateral unless there is a borrower default. The ASRS is indemnified against gross negligence and borrower default by the lending agents.

3. Public Safety Personnel Retirement System, Elected Officials' Retirement Plan, and Corrections Officer Retirement Plan

The PSPRS, the EORP, and the CORP are permitted by ARS Title 38, Chapter 5, Articles 4, 3, and 6, respectively, to enter into securities lending transactions. The PSPRS, the EORP, and the CORP are parties to securities lending agreements with a bank. The bank, on behalf of the PSPRS, the EORP, and the CORP, enters into agreements with brokers to loan securities and have the same securities returned at a later date. The loans are fully collateralized, primarily by cash. Collateral is marked-to-market on a daily basis. Non-cash collateral can be sold only upon borrower default. The PSPRS, the EORP, and the CORP require collateral of at least 102.00% of the fair value of the loaned U.S. Government or corporate security. The PSPRS, the EORP, and the CORP have no credit risk because the amounts owed to the borrowers exceed the amounts the borrowers owe to the retirement system or plan. Securities on loan are carried at fair value. As of June 30, 2009, the fair values of securities on loan for the PSPRS, the EORP, and the CORP were \$617.673 million, \$38.842 million, and \$144.776 million, respectively. At June 30, 2009, the fair

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

value of the associated collateral for the PSPRS, the EORP, and the CORP were \$632.722 million, \$39.598 million, and \$148.495 million, respectively. The PSPRS, the EORP, and the CORP are indemnified for broker default by the securities lending agent.

4. University of Arizona

During the fiscal year, the U of A elected not to participate in securities lending. This investment option remains available to the U of A.

I. DERIVATIVES

A derivative instrument is a financial instrument or other contract with all three of the following characteristics:

- It has one or more underlyings and one or more notional amounts or payment provisions or both. Those terms determine the amount of the settlement or settlements, and in some cases, whether or not a settlement is required.
- It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- Its terms require or permit net settlement, it can readily be settled net by means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

The principal categories of derivatives employed and their uses during the year were as follows:

Category	Purpose
Currency forward contracts	Hedge currency risk of investments denominated in foreign currencies.
Equities index futures contracts	Reduce transaction costs; obtain market exposure; enhance returns.

Derivatives are reported at fair value. The fair value of currency forward contracts is a calculated value, determined by interpolating the spot rate and the forward rates based upon number of days to maturity. Futures contracts on equity indexes trade daily and are settled the following trade day. The value of each contract is marked-to-market daily during the period that the contract is held. This value is determined by calculating the daily difference, called "margin," between the closing Bloomberg market price of the applicable contract(s) on the valuation date as compared to the prior day. The ASRS exchanges the daily per-contract margin, by the number of contracts held, with the counterparty brokerage firm with whom the ASRS transacts its equity index futures trading. The counterparty pays the total margin to the ASRS if the daily market value of the contract(s) rises; the ASRS pays the counterparty if the daily market value declines.

Generally, derivatives are subject to both interest rate risk and credit risk. The derivatives utilized by the ASRS internal investment managers typically have no greater interest rate risk than their physical counterparts, and in many cases, are offset by exposure elsewhere in the portfolio. As of June 30, 2009, the ASRS had \$814 thousand in temporary investments held as collateral for equity and fixed income derivatives which may have a positive or negative notional value.

The ASRS believes that it is unlikely that any of the derivatives used by its internal investment managers could have a material adverse effect on the financial conditions of the ASRS.

Refer to Note 7.A.3.c. for information on derivatives utilized by ASU.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

The capital assets beginning balance for business-type activities has been restated by \$11.989 million to correct ASU’s building assets related to a capital lease with one of ASU’s affiliated component units, which was offset by the fund held for others liability, therefore the restatement did not impact the business-type activities.

Depreciation expense was charged to governmental functions as follows (expressed in thousands):

General government	\$ 22,338
Health and welfare	16,192
Inspection and regulation	1,769
Education	844
Protection and safety	51,652
Transportation	17,460
Natural resources	8,172
Total Governmental Activities	<u>\$ 118,427</u>

Depreciation expense was charged to business-type activities as follows (expressed in thousands):

Lottery	\$ 356
Industrial Commission Special Fund	1,305
Universities	214,156
Other	1,969
Total Business-type Activities	<u>\$ 217,786</u>

NOTE 5. PENSION BENEFITS

The State participates in the ASRS, the PSPRS, the EORP, and the CORP. Benefits are established by State statutes and provide retirement, death, and survivor benefits to State employees, public school employees and employees of counties, municipalities, and other State political subdivisions.

A. PARTICIPATING EMPLOYERS

The number of participating government employers as of June 30, 2009 is shown below:

Employer	ASRS	PSPRS	EORP	CORP
Cities and towns	78	143	21	1
Counties and county agencies	15	21	15	14
State	1	1	1	1
Special districts	94	59	-	-
School districts	242	-	-	-
Charter schools	156	-	-	-
Community college districts	10	-	-	-
Dispatchers	-	-	-	8

B. CONTRIBUTIONS, BENEFITS, AND REFUND PAYMENTS

For the ASRS, contributions from employees and employers for service through June 30 are accrued. These contributions are considered to be fully collectible and, accordingly, no allowance for uncollectible receivables is reflected in the financial statements. Pension benefit and refund payments are recognized when due and payable in accordance with the terms of the plan.

For the PSPRS, the EORP, and the CORP, member and employer contributions are recognized when due, pursuant to formal commitments, as well as statutory or contractual requirements. Pension benefits are recognized when due and payable in accordance with the terms of the plan. Refunds are due and payable by state law within 20 days of receipt of a written application for a refund. Refunds are recorded when paid.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

C. FUNDING POLICY

The contribution requirements of plan members and the State are established by Title 38, Chapter 5 of the ARS. These contribution requirements may be amended by the Arizona State Legislature.

Cost-sharing plans

For the year ended June 30, 2009, active ASRS members and the State were each required by statute to contribute at the actuarially determined rate of 8.95% and 7.99% of the members' annual covered payroll, respectively. The State's contributions to the ASRS for the years ended June 30, 2009, 2008, and 2007 were \$155.820 million, \$162.121 million, and \$142.382 million, respectively, for the primary government which were equal to the required contributions for these years.

In addition, active EORP members were required by statute to contribute 7.00% of the members' annual covered payroll. The State was required to contribute a designated portion of certain fees collected by the Supreme Court plus additional contributions of 26.00% of the members' annual covered payroll, as determined by actuarial valuation. The State's contributions to EORP for the years ended June 30, 2009, 2008, and 2007 were \$2.830 million, \$2.230 million, and \$1.789 million, respectively, which were equal to the required contributions for these years.

Agent plans

For the year ended June 30, 2009, active PSPRS members were required by statute to contribute 7.65% of the members' annual covered payroll and the participating State agencies were required to contribute at actuarially determined rates of 13.02 - 48.33%. Active CORP members were required by statute to contribute 8.41% of the members' annual covered payroll and the participating State agencies were required to contribute at actuarially determined rates of 7.48 - 7.85%.

D. ANNUAL PENSION COST

The State's annual pension costs, required contributions, and excess other post-employment benefit (OPEB) contributions applied to pensions (see Note 6.A. and B. for explanation) for each of the agent, multiple-employer defined benefit pension plans for the year ended June 30, 2009, is as follows (expressed in thousands):

	Annual Pension Costs	Pension Contributions Made	
		Required Contributions	Excess OPEB Contributions
PSPRS	\$ 30,588	\$ 30,588	\$ 674
CORP	35,022	35,022	2,188

The State's annual pension cost, the percentage of annual pension cost contributed to the plan, and the net pension for the current and preceding year follows for each of the agent, multiple-employer defined benefit pension plans. The year ended June 30, 2007, contains both pension and OPEB information. (expressed in thousands)

	Fiscal Year Ended	Annual Pension/ OPEB Cost	Percentage of Annual Cost Contributed	Net Pension
PSPRS	6/30/09	\$ 30,588	102%	\$ 1,274
	6/30/08	25,879	102%	600
	6/30/07	19,993	100%	-
CORP	6/30/09	35,022	106%	4,791
	6/30/08	26,405	110%	2,603
	6/30/07	17,494	100%	-

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

E. FUNDED STATUS AND FUNDING PROGRESS

The State's funded status for each of the agent, multiple-employer defined benefit pension plans, as of the most recent actuarial valuation, is as follows (expressed in thousands):

Plan	Actuarial Valuation Date	Actuarial Value of Plan Assets	Actuarial Accrued Liability (AAL)	(Unfunded) AAL	Funded Ratio	Annual Covered Payroll	(Unfunded) AAL as a Percentage of Covered Payroll
PSPRS	6/30/2009	\$ 564,000	\$ 857,854	\$ (293,854)	65.7%	\$ 99,558	(295.2)%
CORP	6/30/2009	806,941	910,317	(103,376)	88.6%	373,674	(27.7)%

The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

F. ACTUARIAL METHODS AND ASSUMPTIONS

The State's actuarial methods and significant assumptions for each of the agent, multiple-employer defined benefit pension plans for the most recent actuarial valuation as of 6/30/09 and actuarial valuation as of 6/30/07 that was used to determine the fiscal year 2009 annual required contribution are as follows:

	PSPRS	CORP	PSPRS	CORP
Actuarial valuation date	6/30/07	6/30/07	6/30/09	6/30/09
Actuarial cost method	projected unit credit	projected unit credit	projected unit credit	projected unit credit
Actuarial assumptions:				
Investment rate of return	8.50%	8.50%	8.50%	8.50%
Projected salary increases includes inflation at	5.50 – 8.50%	5.50 – 8.50%	5.50 – 8.50%	5.50 – 8.50%
Cost-of-living adjustments	5.00%	5.00%	5.50%	5.50%
Amortization method	None	None	None	None
Remaining amortization	level percent closed for unfunded actuarial accrued liability, open for excess 29 years for unfunded actuarial accrued liability, 20 years for excess	level percent closed for unfunded actuarial accrued liability, open for excess 29 years for unfunded actuarial accrued liability, 20 years for excess	level percent-of-pay closed 27 years for unfunded actuarial accrued liability, 20 years for excess	level percent-of-pay closed 27 years for unfunded actuarial accrued liability, 20 years for excess
Asset valuation method	smoothed market value	smoothed market value	7-year smoothed market	7-year smoothed market

G. UNIVERSITIES' RETIREMENT PLANS

Faculty, academic professionals, service professionals, and administrative staff at the three universities (the ASU, the NAU, and the U of A) may select one of four retirement plans: the Teachers Insurance Annuity Association/College Retirement Equities Fund (TIAA/CREF), Variable Annuity Life Insurance Company (VALIC), Fidelity Investments Tax-Exempt Services Company (Fidelity), or the ASRS. The ASRS is a defined benefit plan and the other three plans are defined contribution plans. The three defined contribution plans are administered by independent insurance and annuity companies approved by the ABOR. In addition, the U of A employees hired before July 1, 1972, have the option to participate in the defined contribution plan administered by the ASRS. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Contributions made by employees vest immediately and the Universities' contributions vest no later than after five years of full-time employment. Employees and Universities' contributions and associated returns earned on investments may be withdrawn starting upon termination of employment, death, or retirement. The distribution of employee contributions and associated investment earnings are made in accordance with the employee's contract with the applicable insurance and annuity

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

company. Universities' contributions and associated investment earnings must be distributed to the employee in the form of an annuity paid over the employee's life.

The Arizona State Legislature establishes and may amend active plan members' and the Universities' contribution rates. For the year ended June 30, 2009, plan members and the three Universities were each required by statute to contribute an amount equal to 7.00% of an employee's compensation, except for a 7.50% member contribution and an 8.46% University contribution for the ASRS defined contribution plan.

Contributions to these plans for the year ended June 30, 2009, were as follows (expressed in thousands):

Plan	University Contributions	Employee Contributions	Total Contributions
TIAA/CREF	\$ 29,903	\$ 29,903	\$ 59,806
VALIC	2,917	2,917	5,834
Fidelity	13,464	13,464	26,928
ASRS	33	29	62

NOTE 6. OTHER POST-EMPLOYMENT BENEFITS

A. PLAN DESCRIPTION

Cost-sharing plans

In addition to the pension benefits described, the ASRS provides health insurance premium supplemental benefits and disability benefits to retired members, disabled members, and eligible dependents through the Health Benefit Supplement Fund (HBS) and the Long Term Disability Fund (LTD), which are cost-sharing, multiple-employer defined benefit post-employment plans. Title 38, Chapter 5 of the ARS assigns the authority to establish and amend the benefit provisions of the HBS plan and the LTD plan to the Arizona State Legislature. The ASRS issues a publicly available financial report that includes the financial information and disclosure requirements for the HBS plan and the LTD plan. Information on how to obtain this report is included in Note 1.A.

The EORP, by statute, is a cost-sharing, multiple employer plan. However, because of its statutory structure, in accordance with GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, paragraphs 5 and 41, the EORP's health insurance premium subsidy benefit (OPEB) is reported for such purposes as an agent, multiple-employer plan. Information on how to obtain the EORP's publicly available financial report is included in Note 1.A. However, the EORP's OPEB benefit is relatively insignificant to the State's financial statements and, therefore, is not further described in these notes or the RSI that follows.

Agent plans

In addition to pension benefits described, the PSPRS and the CORP each offer a health insurance premium subsidy benefit to retired members and survivors, which are agent, multiple-employer defined benefit post-employment plans. Title 38, Chapter 5 of the ARS assigns the authority to establish and amend the health insurance subsidy benefit provisions to the Arizona State Legislature. The PSPRS and the CORP do not administer a separate healthcare plan as defined under IRC § 401(h) or an equivalent agreement. In addition, the PSPRS and the CORP are not statutorily authorized to maintain a separate account for the health insurance subsidy assets and benefits payments. Therefore, in accordance with GASB Statement No. 43, the health insurance subsidy benefit is reported as an agency fund. There are no accumulated assets or liabilities, only contributions and benefit distributions are presented in these funds. All assets of the PSPRS and the CORP are available to pay both pension benefits and the health insurance subsidy benefits. The PSPRS and the CORP each issue publicly available financial reports that include the financial information and disclosure requirements for the health insurance subsidy benefits. Information on how to obtain these reports is included in Note 1.A.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

B. CONTRIBUTIONS, BENEFITS, AND REFUND PAYMENTS

Cost-sharing plan

The ASRS recognition of contributions for the HBS plan and the LTD plan are the same as the pension benefit in Note 5.B. Benefit and refund payments are recognized when due and payable in accordance with the terms of the HBS plan and LTD plan.

Agent plans

The PSPRS and the CORP recognition of employer contributions and refunds for the health insurance subsidy benefit are the same as the pension benefit in Note 5.B. Contributions in excess of the health insurance subsidy payments are reported as excess pension contributions in the pension benefit plan. Health insurance subsidy benefits are recognized when due and payable in accordance with the terms of the plan.

C. FUNDING POLICY

The contribution requirements of plan members and the State are established by Title 38, Chapter 5 of the ARS. These contribution requirements are established and may be amended by the Arizona State Legislature.

Cost-sharing plan

For the year ended June 30, 2009, active ASRS members and the State were each required by statute to contribute at the actuarially determined rate of 0.50% of the members' annual covered payroll for LTD. In addition, the State also contributed 0.96% for the HBS. The State's contributions for LTD to the ASRS for the years ended June 30, 2009, 2008, and 2007 were \$9.751 million, \$10.070 million, and \$9.429 million, respectively, for the primary government which were equal to the required contributions for these years. The State's contributions for the HBS to the ASRS for the years ended June 30, 2009, 2008, and 2007 were \$18.722 million, \$21.146 million, and \$19.802 million, respectively, for the primary government which were equal to the required contributions for these years.

Agent plans

For the year ended June 30, 2009, the PSPRS participating State agencies were required to contribute at actuarially determined rates of 1.21 - 4.48% of covered payroll. The CORP participating State agencies were required to contribute at actuarially determined rates of 0.94 - 1.05% of covered payroll.

D. ANNUAL OPEB COST

The State's annual OPEB costs, OPEB contributions made, and increase in OPEB obligation for each of the agent, multiple-employer defined benefit post-employment plans for the year ended June 30, 2009, is as follows (expressed in thousands):

	Annual OPEB Costs	OPEB Contributions Made	Increase in OPEB Obligation
PSPRS	\$ 2,401	\$ 1,727	\$ 674
CORP	3,918	1,730	2,188

The State's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the current and preceding year follows for each of the agent, multiple-employer defined benefit post-employment plans. Information for the last year of the required trend information will be reported next year when it becomes available. (expressed in thousands)

	Fiscal Year Ended	Annual OPEB Cost (AOC)	Percentage of AOC Contributed	Net OPEB Obligation
PSPRS	6/30/09	\$ 2,401	71.9%	\$ 1,274
	6/30/08	2,350	74.5%	600
CORP	6/30/09	3,918	44.2%	4,791
	6/30/08	4,301	39.5%	2,603

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

E. FUNDED STATUS AND FUNDING PROGRESS

The State's funded status for each of the agent, multiple-employer defined benefit post-employment plans, as of the year ended June 30, 2009, is as follows (expressed in thousands):

Plan	Actuarial Valuation Date	Actuarial Value of Plan Assets	Actuarial Accrued Liability (AAL)	(Unfunded) AAL	Funded Ratio	Annual Covered Payroll	(Unfunded) AAL as Percentage of Covered Payroll
PSPRS	6/30/2009	-	\$ 26,141	\$ (26,141)	0.0%	\$ 99,558	(26.3)%
CORP	6/30/2009	-	43,951	(43,951)	0.0%	373,674	(11.8)%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

F. ACTUARIAL METHODS AND ASSUMPTIONS

Projections of benefits for financial reporting purposes are based on the plan and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The State's actuarial methods and significant assumptions for each of the agent, multiple-employer defined benefit post-employment plans for the most recent actuarial valuation as of 6/30/09 and actuarial valuation as of 6/30/07 that was used to determine the fiscal year 2009 annual required contribution are as follows:

	PSPRS 6/30/07	CORP 6/30/07	PSPRS 6/30/09	CORP 6/30/09
Actuarial valuation date	6/30/07	6/30/07	6/30/09	6/30/09
Actuarial cost method	projected unit credit	projected unit credit	projected unit credit	projected unit credit
Actuarial assumptions:				
Investment rate of return	8.50%	8.50%	8.50%	8.50%
Projected salary increases includes inflation at	5.50 – 8.50%	5.50 – 8.50%	5.50 – 8.50%	5.50 – 8.50%
Cost-of-living adjustments	5.00%	5.00%	5.50%	5.50%

NOTE 7. LONG-TERM OBLIGATIONS

A. REVENUE BONDS

Governmental Activities

1. Arizona Department of Transportation

The ADOT has issued Senior and Subordinated Lien Highway Revenue Bonds to provide funds for acquisition of right-of-way, design, and construction of federal, state, and local highways. The original amount of Highway Revenue Bonds issued in prior years and outstanding at the start of the fiscal year was \$1.6 billion. During the year, Highway Revenue Bonds totaling \$181.050 million were issued to finance portions of the ADOT's Five Year Transportation Facilities Construction Program and pay the costs of issuing the bonds.

The Highway Revenue Bonds are secured by a prior lien on and a pledge of motor vehicle and related fuel fees and taxes. On September 21, 2006, House Bill 2206 became effective and eliminated the restriction that limited the principal amount of the Highway Revenue Bonds that could be outstanding at any time to 1.3 billion. Also during fiscal year 2007, the ADOT received legislative authority to begin issuing Highway Revenue Bonds with maturities of up to 30 years in length, replacing the 20 year maturity requirement that has been in place since 1980.

The ADOT has pledged future motor vehicle and related fuel fees and taxes to repay \$1.7 billion in outstanding Highway Revenue Bonds issued since 1993. Proceeds from the bonds finance portions of the ADOT's Five Year Transportation Facilities Construction Program. The bonds are payable solely from motor vehicle and related fuel fees and taxes and are payable through 2033. The total principal and interest remaining to be paid on the bonds is \$2.7 billion. Principal and interest paid for the current year and total pledged revenues were \$154.000 million and \$509.200 million, respectively. The annual principal and interest payments on the bonds required 30.20% of the pledged revenues.

The Maricopa County Regional Area Road Fund is used to record all payments of principal and interest for Transportation Excise Tax Revenue Bonds issued by the ADOT. The Bonds are secured by transportation excise taxes collected by the Arizona Department of Revenue on behalf of Maricopa County. The original amount of Transportation Excise Tax Revenue Bonds issued in prior years and outstanding at the start of the fiscal year was \$350.955 million. During the year, Transportation Excise Tax Revenue Bonds totaling \$440.000 million were issued to pay the costs of design, right-of-way purchase, or construction of certain freeways and other routes within Maricopa County, Arizona and the costs of issuing the bonds.

On September 21, 2007, the ADOT adopted a Master Resolution relating to Transportation Excise Tax Revenue Bonds. On April 17, 2009, the ADOT adopted the Second Supplemental Resolution authorizing the issuance of the second series of bonds under the Master Resolution in an amount not to exceed \$440.000 million. No debt service reserve is required for the outstanding bonds.

Transportation Excise Tax Revenue Bonds aggregating \$404.805 million are subject to redemption prior to their maturity dates at the option of the ADOT in whole or in part, at any time, on or after July 1, 2017. These bonds may be redeemed at par, plus accrued interest to the date fixed for redemption. Transportation Excise Tax Revenue Bonds aggregating \$372.325 million are not subject to redemption.

The ADOT has pledged future transportation excise taxes to repay \$777.130 million in outstanding Transportation Excise Tax Revenue Bonds issued since 2007. Proceeds from the bonds pay the costs of design, right-of-way purchase, or construction of certain freeways and other routes within Maricopa County, Arizona. The bonds are payable solely from transportation excise taxes and are payable through 2025. The total principal and interest remaining to be paid on the bonds is \$1.1 billion. Principal and interest paid for the current year and total pledged revenues were \$31.000 million and \$219.200 million, respectively. The annual principal and interest payments on the bonds required 14.10% of the pledged revenues.

In prior fiscal years, the ADOT refinanced various bond issues through advance-refunding arrangements. Under the terms of the refunding bond issues, sufficient assets to pay all principal, redemption premium, if any, and interest on the refunded bond issues have been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues refunded.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

The assets, liabilities, and financial transactions of these trust accounts and the liability for the defeased bonds are not reflected in the accompanying financial statements. Refunded bonds for the ADOT at June 30, 2009 totaled \$212.880 million.

2. School Facilities Board

In prior fiscal years, the SFB refinanced various bond issues through advance-refunding arrangements. Under the terms of the refunding bond issues, sufficient assets to pay all principal, redemption premium, if any, and interest on the refunded bond issues have been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues refunded. The assets, liabilities, and financial transactions of these trust accounts and the liability for the defeased bonds are not reflected in the accompanying financial statements. Refunded bonds for the SFB at June 30, 2009 totaled \$535.310 million.

The SFB has pledged portions of its gross revenues towards payment of debt related to State school improvement revenue bonds, State school improvement revenue refunding bonds, State school trust revenue bonds, and State school trust revenue refunding bonds outstanding at June 30, 2009. These bonds finance the correction of existing deficiencies in school facilities in the State of Arizona. These pledged revenues include Education Transaction Privilege Taxes approved by voters as part of Proposition 301 and expendable State School Trust Revenues. Expendable State School Trust Revenues include State Trust Lands' land lease revenue, interest earnings on land sales financed over time, and a formula distribution from the State's Permanent Fund prescribed by the State's Constitution. Pledged revenues do not include sales of State Trust Lands, sales of natural products derived from State Trust Lands, or royalties from minerals extracted from State Trust Lands. These revenues are held in perpetuity for the benefit of various beneficiaries of the State Land Trust and are not available to pay debt service. Expendable State School Revenues in excess of \$72.263 million are not available to pay debt service on the State school trust revenue bonds and State school trust revenue refunding bonds per the debt documents. During fiscal year 2009, total expendable trust revenues exceeded the maximum allowable amount to pay debt service by \$56.165 million. This excess is not included in total pledged revenues. At June 30, 2009, pledged revenues totaled \$631.163 million, of which 14.03% (\$88.553 million) was required to cover current year debt service. Future pledged revenues required to pay all future debt service on these bonds through final maturity of July 1, 2021 is \$948.188 million.

Business-Type Activities

3. Universities

a. University of Arizona

The U of A's bonded debt consists of various issues of system revenue bonds that are generally callable with interest payable semi-annually. Bond proceeds are used to pay for acquiring or constructing capital facilities and infrastructure. Bond proceeds are also used for refunding obligations from previously issued bonds.

On April 28, 2009, the U of A sold System Revenue Bonds Series 2009A (2009A Bonds) for \$202.370 million dated May 14, 2009. The 2009A Bonds include \$137.895 million of serial bonds with interest rates ranging from 3.00% to 5.00% and maturity dates ranging from 2012 to 2032. The 2009A Bonds also include two term bonds consisting of \$24.965 million with an interest rate of 5.00% due June 1, 2035; and \$39.510 million with an interest rate of 5.00% due June 1, 2039. The 2009A Bonds with maturity on or after June 1, 2020, are subject to optional redemption without premium. The 2009A Bonds with maturity on June 1, 2035 and June 1, 2039 (the Term Bonds) are subject to mandatory sinking fund redemption without premium pursuant to the debt documents. The 2009A Bonds sold at a premium of \$8.341 million. The U of A realized net proceeds of \$209.115 million after payment of \$1.596 million for issuance costs and underwriter discounts. The net proceeds were used to finance the Sixth Street Residence Halls, the Residence Life Building Renewal Phase 3 and 4 Projects, and to pay capitalized interest until December 1, 2011 on bonds allocated to the Sixth Street Residence Halls Project.

In fiscal year 2003, the U of A refunded, in advance of maturity, a portion of outstanding System Revenue Bonds Series 2000A. At June 30, 2009, the outstanding principal balance of the refunded bonds was \$2.320 million, which will be paid by investments held in an irrevocable trust with a fair value of \$2.378 million. Accordingly, the trust account assets and liability for these defeased bonds are not included in the accompanying financial statements.

In fiscal year 2005, the U of A refunded, in advance of maturity, the remaining principal balance of System Revenue Bonds Series 2000A. At June 30, 2009, the total outstanding principal balance of the refunded System Revenue Bonds Series 2000A

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

was \$14.210 million, which will be paid by investments held in an irrevocable trust with a total fair value of \$14.365 million. Accordingly, the trust account assets and liability for these defeased bonds are not included in the accompanying financial statements.

The U of A has pledged portions of its gross revenues towards the payment of debt related to all system revenue and system revenue refunding bonds outstanding at June 30, 2009. The bonds generally provide financing for various capital projects of the U of A. These pledged revenues include student tuition and fees, auxiliary enterprise revenue, sales and service revenue, and other operating revenues such as indirect cost recovery and certain investment income. Pledged revenues do not include State appropriations, gifts, endowment income, or other restricted revenues. At June 30, 2009, pledged revenues totaled \$681.900 million, of which 5.60% (\$38.200 million) was required to cover current year debt service. Future pledged revenues required to pay all remaining debt service for the system revenue and system revenue refunding bonds through final maturity of June 1, 2040 is \$828.900 million.

b. Northern Arizona University

On August 14, 2008, the NAU sold System Revenue Bonds Series 2008 for \$43.130 million dated August 14, 2008 for the purpose of constructing a residence life warehouse, expanding the distance learning facility, expanding recreational fields, replacing the turf in the Skydome athletic facility, and various infrastructure improvements. The 2008 Bonds include \$22.310 million of serial bonds with interest rates ranging from 3.00% to 5.25% and maturity dates ranging from June 1, 2009 to June 1, 2028. The 2008 Bonds also include \$20.820 million of term bonds, with interest rates ranging from 5.00% to 5.25% and maturing on June 1, 2033 and 2038, and are subject to annual sinking fund contributions. The bonds maturing on or after June 1, 2019, are subject to optional redemption without premium on June 1, 2018. The 2008 Bonds were sold with net original issue discount of \$88 thousand. The NAU realized net proceeds of \$43.042 million after payment of \$319 thousand for issuance costs, underwriter discounts, and bond insurance. The costs associated with this issue were recorded in the current fiscal year. The Series 2008 have an average interest rate of 5.04%.

In prior years, the NAU defeased certain revenue bonds by either placing the proceeds of new bonds, or cash and investments accumulated in the sinking fund, in an irrevocable trust to provide for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the accompanying financial statements. At June 30, 2009, \$41.130 million of such bonds outstanding are considered defeased.

The NAU has pledged portions of its gross revenues towards the payment of debt related to various senior lien system revenue bonds outstanding at June 30, 2009. The bonds generally provide financing for various capital projects of the NAU. These pledged revenues include student tuition and fees, certain auxiliary enterprise revenue, investment income, and indirect cost recovery revenue. Pledged revenues do not include State appropriations, gifts, endowment income, or other restricted revenues. At June 30, 2009, pledged revenues totaled \$164.900 million, of which 9.30% (\$15.400 million) was required to cover current year debt service. Future pledged revenues required to pay all remaining debt service for the system revenue bonds through final maturity of June 1, 2040 is \$320.600 million.

c. Arizona State University

At June 30, 2009, the ASU held a combination of fixed and variable rate bonds. The ASU's fixed rate bonded debt consists of various issues of system revenue bonds that are generally callable at a prescribed date with interest payable semi-annually. Certain system revenue bonds of the ASU were defeased through advance refundings by depositing sufficient U.S. Government securities to pay all future debt service in an irrevocable trust. Accordingly, the liabilities for these defeased bonds are not included in the accompanying financial statements. The principal amount of all such bonds outstanding at June 30, 2009 was \$46.900 million.

In November 2008, the ASU issued \$104.100 million in system revenue bonds having an average maturity of 14 years and an average interest rate of 5.89%. The bonds were issued to fund construction of the Polytechnic Campus Academic Complex.

In April 2009, the ASU issued \$36.250 million in system revenue bonds having an average maturity of 8 years and an average interest rate of 3.76%. The bonds were issued primarily to fund the new Weatherup Center, an indoor basketball practice facility, the Memorial Union fire renovation project, and several building renewal and deferred maintenance projects.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

The ASU has outstanding two series of Variable Rate Demand System Revenue Refunding Bonds, Series 2008A and 2008B (2008A&B Bonds), totaling \$103.700 million with final maturities of July 1, 2034. Both series continue to bear interest at a weekly rate not to exceed 12.00% per annum based upon prevailing market conditions, as determined by the respective remarketing agents. The bonds are subject to conversion, at the option of the Arizona Board of Regents (ABOR) on behalf of the ASU, to a different or alternate adjustable rate mode, or a fixed rate pursuant to the bond indenture. The interest rate in effect on June 30, 2009 was .20% for the Series 2008A and .16% for the Series 2008B bonds.

The variable rate bonds are subject to purchase on the demand of the holder at a price equal to principal plus accrued interest on seven days' notice to the remarketing agents. To provide credit and liquidity support for the bonds, the ASU entered into an Irrevocable Letter of Credit and Reimbursement Agreement (LOC) with Lloyds TSB Bank, PLC, upon execution of the refunding bonds. The LOC was extended on June 18, 2009 and expires on June 15, 2012. Assuming all of the \$51.800 million Series 2008A and \$51.800 million Series 2008B Bonds are not resold within 90 days, the ASU would be responsible to make quarterly installment principal payments of \$5.200 million over a five-year period, plus interest to be calculated as established in the letter of credit. The ASU has agreed to pay TSB Bank, PLC, an annual commitment fee for the letter of credit of 1.55% per annum on the stated amount which consists of outstanding principal of the bonds, plus 51 days of interest, at an assumed rate of 12.00% per annum.

Effective January 1, 2007, the ASU entered into a swap agreement on \$103.000 million, notional amount, relating to the 2008A&B Bonds. The \$103.000 million in bond principal is not exchanged; it is only the basis on which the interest payments are calculated. The notional amount under the swap decreases as principal payments are made on the 2008A&B Bonds. The intention of the swap was to effectively change the variable rate interest on the 2008A&B Bonds to a synthetic fixed rate. The swap agreement expires on July 1, 2034. Under the terms of the swap agreement, the ASU pays the counterparty interest calculated at a fixed rate of 3.91% and receives payments from the counterparty based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index set weekly. The SIFMA rate at June 30, 2009 was .35%. At June 30, 2009, the synthetic fixed interest rate on the bonds was:

Interest Rate Swap	Terms	Rates (%)
Fixed payment to counterparty	Fixed	3.91
Variable payment from counterparty	SIFMA	(.35)
Net interest rate swap payments		3.56
Variable-rate bond coupon payments	Spread to SIFMA	.18
Synthetic fixed interest rate on bonds		3.74

As of June 30, 2009, the swap had a fair value of \$(5.700) million, which represents the cost to the ASU to terminate the swap. The fair value was developed by an independent third party, with no vested interest in the transaction, using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement on the swaps.

As of June 30, 2009, the ASU was not exposed to credit risk because the swap had a negative fair value. However, should interest rates change and the fair value of the swap becomes positive, the ASU would be exposed to credit risk in the amount of the derivative's fair value. The swap counterparty was rated A+ by Fitch, A by Standard & Poor's, and A2 by Moody's Investor Services as of June 30, 2009. Based on current ratings, the counterparty was not required to provide collateral. In the event a rating downgrade occurs, the counterparty may be required to provide collateral if the ASU's overall exposure exceeds predetermined levels. Collateral may be held by the ASU or a third party custodian.

The swap exposes the ASU to basis risk should the weekly SIFMA rate paid by the counterparty fall below the weekly interest rate due on the bonds which is also a variable rate with a spread to SIFMA. This basis risk can be the result of a downgrade of the ASU's rating or the pricing of the ASU's bonds by the remarketing agent at rates higher than the SIFMA index.

The ASU continues to pay interest to the bondholders at the variable rate provided by the bonds. However, during the term of the swap agreement, the ASU effectively pays a fixed rate on the debt. If a default occurs regarding the swap agreement, the non-defaulting party may designate a date to terminate the agreement. The ASU will revert to a variable rate if the counterparty

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

defaults or if the swap is terminated. A termination of the swap agreement may also result in the ASU making or receiving a termination payment.

Securities and cash restricted for bond debt service held by the trustee at June 30, 2009 totaled \$36.900 million.

The ASU has pledged portions of its gross revenues towards the payment of debt related to various senior lien system revenue bonds outstanding at June 30, 2009. The related revenue bonds are primarily for new academic and research facilities, academic and laboratory renovations, and infrastructure improvements. These pledged revenues include student tuition and fees, certain auxiliary enterprise revenue, investment income, and indirect cost recovery revenue. Pledged revenues do not include State appropriations, gifts, endowment income, or other restricted revenues. For the year ended June 30, 2009, annual pledged revenues totaled \$702.800 million, of which 6.40% (\$44.800 million) was required to cover current year debt service. Future pledged revenues required to pay all remaining debt service for system revenue bonds through final maturity of July 1, 2036 is \$827.800 million. In addition, the ASU has pledged the same revenues on a subordinate basis to secure the Series 2006 Arizona State University Research Park, Inc. Development Refunding Bonds. Research Park bonds outstanding at June 30, 2009 were \$10.900 million with annual debt service requirements of approximately \$1.200 million through July 1, 2021.

The ASU presently plans to issue up to \$230.000 million in system revenue bonds in fiscal year 2010.

Summary of Revenue Bonds

The following schedule summarizes revenue bonds outstanding at June 30, 2009 (expressed in thousands):

Revenue Bonds Outstanding	Dates Issued	Maturity Dates	Interest Rates	Outstanding Balance at June 30, 2009
Governmental Activities:				
Department of Transportation	1994-2009	2010-2033	2.00-6.00%	\$2,517,895
School Facilities Board	2001-2008	2010-2021	.14-5.75%	733,685
Proprietary Funds:				
University Revenue Bonds	1992-2009	2010-2040	.18-6.50%	1,239,675

Principal and interest debt service payments on revenue bonds outstanding at June 30, 2009 are as follows (expressed in thousands):

Fiscal Year	Annual Debt Service						
	Governmental Activities			Business-type Activities			
	Total Principal	Total Interest	Total	Total Principal	Total Interest	Net Payments (Receipts) on Swap Agreement	Total
2010	\$ 154,395	\$ 159,390	\$ 313,785	\$ 51,960	\$ 55,366	\$ 3,692	\$ 111,018

B. GRANT ANTICIPATION NOTES

Grant Anticipation Notes (GANs) are issued by the ADOT and secured by revenues received from the Federal Highway Administration under a grant agreement and certain other federal-aid revenues. The original amount of GANs issued in prior

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

years and outstanding at the start of the fiscal year was \$298.280 million. During the year, GANs totaling \$55.420 million were issued to pay the costs of projects (as specified) and the costs of issuing the bonds.

The ADOT has pledged federal revenues to repay \$329.650 million in outstanding GANs issued since 2003. Proceeds from the bonds pay the costs of design, right-of-way purchase, or construction of certain freeways and other routes within Arizona. The bonds are payable solely from federal revenues and are payable through 2016. The total principal and interest remaining to be paid on the bonds is \$394.800 million. Principal and interest paid for the current year and total pledged revenues were \$38.500 million and \$532.000 million, respectively. The annual principal and interest payments on the bonds required 7.20% of the pledged revenues.

Grant Anticipation Notes currently outstanding are as follows (expressed in thousands):

Grant Anticipation Notes Outstanding	Dates Issued	Maturity Dates	Interest Rates	Outstanding Balance at June 30, 2009
Governmental Activities: Department of Transportation	2004-2009	2010-2016	2.50-5.00%	\$ 329,650

Future debt service principal and interest payments on Grant Anticipation Notes issues for fiscal years ended June 30 are summarized below (expressed in thousands):

Fiscal Year	Annual Debt Service		
	Governmental Activities		
	Total Principal	Total Interest	Total Debt Service
2010	\$ 25,170	\$ 16,370	\$ 41,540
2011	70,570	14,835	85,405
2012	43,885	11,404	55,289
2013	45,340	9,284	54,624
2014	55,265	7,121	62,386
2015-2016	89,420	6,165	95,585
Total	\$ 329,650	\$ 65,179	\$ 394,829

C. CERTIFICATES OF PARTICIPATION

Governmental Activities

1. Department of Administration

The State has issued COPs to finance construction or improvements of office buildings that are primarily leased to State agencies. The State's obligation to make lease payments and any other obligations of the State under the lease are subject to, and dependent upon, annual appropriations made by the State Legislature and annual allocations of such appropriations being made by the Department of Administration for such purpose. The Department of Administration agrees to use its best efforts to budget, obtain, allocate, and maintain sufficient appropriated monies to make lease payments. In the event any such appropriation and allocation is not made, the leases will terminate and there can be no assurance that the proceeds for the re-leasing or sale of the projects will be sufficient to pay principal and interest with respect to the then outstanding COPs. The scheduled payments of principal and interest with respect to the COPs are guaranteed under certificate insurance policies. The State's obligation to make lease payments does not constitute a debt or liability of the State within the meaning of any constitutional or statutory limitation. Neither the full faith and credit nor the general taxing power of the State is pledged to make payments of principal or interest due with respect to the COPs. Such payments will be made solely from amounts derived under the terms of the lease, including lease payments, and amounts from time to time on deposit under the terms of the declaration of trust.

2. School Facilities Board

In prior fiscal years, the SFB refinanced various COPs through advance-refunding arrangements. Under the terms of the refundings, sufficient assets to pay all principal, redemption premiums, if any, and interest on the refunded COPs have been placed in irrevocable trust accounts at commercial banks and invested in U.S. securities which, together with interest earned

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

thereon, will provide amounts sufficient for future payment of principal and interest of the issues refunded. The assets, liabilities, and financial transactions of these trust accounts and the liability for the defeased COPs are not reflected in the accompanying financial statements. Refunded COPs for the SFB at June 30, 2009 totaled \$311.130 million.

On November 14, 2008, the SFB, through The Bank of New York Mellon Trust Company, NA (BNY), issued COPs Series 2008 for \$580.035 million. The 2008 COPs include \$430.835 million of serial certificates with interest rates ranging from 4.00% to 5.75% and maturity dates ranging from 2011 to 2024. The 2008 COPs also include two term certificates consisting of \$89.655 million, with an interest rate of 5.13% due September 1, 2021, and \$59.545 million, with an interest rate of 5.25% due September 1, 2023. The 2008 COP certificates maturing on or after September 1, 2019 are subject to optional prepayment, prior to maturity, without premium. The 2008 COP term certificates maturing on September 1, 2021 and September 1, 2023 are subject to mandatory prepayment without premium. The State realized net proceeds of \$581.000 million after receipt of \$11.960 million net original issue premium, deposit to BNY Certificate Account of \$8.096 million for capitalized interest, and payment of \$2.899 million of issuance costs, including underwriters' discount. The 2008 COPs were issued to: (i) finance the costs of acquiring leasehold interests in school sites and certain school facilities, which will be subleased to various schools districts within the State, as well as the costs of other new school facilities, (ii) pay capitalized interest with respect to the 2008 COPs, and (iii) pay the costs of issuance.

Business-Type Activities

3. Universities

a. University of Arizona

The U of A utilizes COPs and various capital leases to acquire buildings, equipment, and land. The COPs are generally callable, and the capital leases are subject to prepayment.

In fiscal year 2003, the U of A refunded, in advance of maturity, a portion of outstanding COPs Series 2001B. At June 30, 2009, the outstanding principal balance for the COPs Series 2001B was \$2.905 million, which will be paid by investments held in an irrevocable trust with a fair market value of \$3.132 million. Accordingly, the trust account assets and liability for these defeased COPs are not included in the accompanying financial statements.

In fiscal year 2005, the U of A refunded, in advance of maturity, a portion of outstanding COPs Series 2001A. At June 30, 2009, the total outstanding principal balance for the COPs Series 2001A was \$8.730 million, which will be paid by investments held in an irrevocable trust with a fair value of \$8.931 million. Accordingly, the trust account assets and liability for these defeased COPs are not included in the accompanying financial statements.

In fiscal year 2007, the U of A refunded, in advance of maturity, a portion of outstanding COPs Series 2001A, 2001B, and 2002A. At June 30, 2009, the total outstanding principal balance for the COPs Series 2001A, 2001B, and 2002A was \$59.195 million, which will be paid by investments held in an irrevocable trust with a fair value of \$60.333 million. Accordingly, the trust account assets and liability for these defeased COPs are not included in the accompanying financial statements.

b. Arizona State University

At June 30, 2009, the ASU has issued fixed rate COPs. The ASU's non-bonded debt consists of various issues of COPs that are generally callable at a prescribed date with interest payable semi-annually. Certain COPs of the ASU have been defeased through advance refundings by depositing sufficient U.S. Government securities to pay all future debt service in an irrevocable trust. Accordingly, the liabilities for these defeased COPs are not included in the accompanying financial statements. The principal amount of all such COPs outstanding at June 30, 2009 was \$65.400 million.

Securities and cash restricted for COP debt service held by the trustee at June 30, 2009 totaled \$13.000 million.

Total	<u>\$ 1,649,870</u>	<u>\$ 610,767</u>	<u>\$ 2,260,637</u>	<u>\$ 872,829</u>	<u>\$ 457,895</u>	<u>\$ 1,330,724</u>

D. LEASES

1. Leases

The State has entered into capital lease agreements for the acquisition of buildings, telephone systems, copy machines, and other equipment. Capital lease assets and liabilities are reported on the government-wide Statement of Net Assets. A lease is reported as a capital lease if one or more of the following criteria are met:

- Title to or ownership of the asset is transferred to the State at the end of the lease.
- The lease contains a bargain purchase option.
- The lease term is equal to 75.00% or more of the useful life of the leased asset. (This criterion does not apply if the beginning lease term falls within the last 25.00% of the total useful life of the asset.)
- The present value of the minimum lease payments at the inception of the lease, excluding executory costs, equals at least 90.00% of the fair market value of the leased asset. (This criterion does not apply if the beginning lease term falls within the last 25.00% of the total useful life of the asset.)

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

The future minimum lease payments for long-term capital leases as of June 30, 2009 are summarized below (expressed in thousands):

Fiscal Year	Annual Debt Service	
	Governmental Activities	Business-type Activities
2010	\$ 29,502	\$ 14,591
2011	27,839	14,582
2012	27,526	14,362
2013	26,990	14,293
2014	32,268	12,538
2015-2019	106,674	58,468
2020-2024	110,396	56,793
2025-2029	67,307	58,363
2030-2034	5,567	54,306
2035-2039	-	8,345
Total minimum lease payments	434,069	306,641
Less: amount representing interest	(110,545)	(131,188)
Less: amount representing executory costs	(87,399)	-
Present Value of Net Minimum Lease Payments	\$ 236,125	\$ 175,453

2. Capital Assets Financed through Capital Leases and Certificates of Participation

The following table summarizes the historical costs of assets acquired under capital leases and COPs (expressed in thousands):

	Governmental Activities	Business-type Activities
Land	\$ 6,663	\$ 6,882
Construction in progress	135,385	-
Buildings	585,637	1,020,037
Infrastructure	-	53,762
Improvements other than buildings	2,420	-
Equipment	71,147	23,540
	801,252	1,104,221
Less: accumulated depreciation	(191,007)	(144,773)
Carrying Value	\$ 610,245	\$ 959,448

E. COMPENSATED ABSENCES

Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. The compensated absence liability attributable to governmental activities will be liquidated primarily by the General Fund. During fiscal year 2009, the State paid for compensated absences as follows: 82.39% from the General Fund, 12.03% from other funds, and 5.58% from other major funds.

F. CHANGES IN LONG-TERM OBLIGATIONS

The following is a summary of changes in Long-Term Obligations (expressed in thousands):

	Balance July 1, 2008	Increases	Decreases	Balance June 30, 2009	Due Within One Year	Due Thereafter
Governmental Activities:						
Long-term Debt:						
Revenue bonds	\$ 2,759,070	\$ 621,050	\$ (128,540)	\$ 3,251,580	\$ 154,395	\$ 3,097,185
Grant anticipation notes	298,280	55,420	(24,050)	329,650	25,170	304,480
Certificates of participation	1,135,640	580,035	(65,805)	1,649,870	77,540	1,572,330
Capital leases	249,876	1,300	(15,051)	236,125	14,522	221,603
Installment purchase contracts	8,908	2,756	(5,321)	6,343	3,591	2,752
Notes payable	22,838	23,139	(3,309)	42,668	3,451	39,217
Premiums and discounts on debt	242,816	70,083	(27,286)	285,613	30,979	254,634
Deferred amounts on refundings	(13,145)	-	3,974	(9,171)	(3,974)	(5,197)
Total Long-term Debt	4,704,283	1,353,783	(265,388)	5,792,678	305,674	5,487,004
Other Long-term Liabilities:						
Compensated absences	252,323	262,382	(234,292)	280,413	171,738	108,675
Pollution remediation obligations	-	23,712	(899)	22,813	1,092	21,721
Total Other Long-term Liabilities	252,323	286,094	(235,191)	303,226	172,830	130,396
Total Long-term Obligations	\$ 4,956,606	\$ 1,639,877	\$ (500,579)	\$ 6,095,904	\$ 478,504	\$ 5,617,400
Business-type Activities:						
Long-term Debt:						
Revenue bonds	\$ 902,255	\$ 385,850	\$ (48,430)	\$ 1,239,675	\$ 51,960	\$ 1,187,715
Certificates of participation	903,843	196	(31,210)	872,829	32,315	840,514
Capital leases	179,052	2,945	(6,544)	175,453	6,127	169,326
Installment purchase contracts	13,024	7,935	(4,541)	16,418	4,040	12,378
Notes payable	1,022	-	(348)	674	314	360
Premiums and discounts on debt	38,211	9,149	(4,248)	43,112	1,966	41,146
Deferred amounts on refundings	(27,711)	-	2,417	(25,294)	(1,657)	(23,637)
Total Long-term Debt	2,009,696	406,075	(92,904)	2,322,867	95,065	2,227,802
Other Long-term Liabilities:						
Compensated absences	66,117	80,122	(75,970)	70,269	15,196	55,073
Total Other Long-term Liabilities	66,117	80,122	(75,970)	70,269	15,196	55,073
Total Long-term Obligations	\$ 2,075,813	\$ 486,197	\$ (168,874)	\$ 2,393,136	\$ 110,261	\$ 2,282,875

The above long-term obligations relating to governmental activities include internal service funds. Amounts for capital leases and compensated absences differ from those in the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets because \$3.081 million of capital leases and \$113.717 million of compensated absences are attributable to internal service funds. These amounts are included in the reconciliation as part of internal service fund net assets.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

NOTE 8. INTERFUND TRANSACTIONS

INTERFUND BALANCES AND TRANSFERS

Interfund Receivables/Payables

Interfund balances as of June 30, 2009 are as follows (expressed in thousands):

Due From	Due To								Total Due To
	General Fund	Transportation & Aviation Planning, Highway Maintenance & Safety Fund	Land Endowments Fund	Non-Major Governmental Funds	Universities Funds	Non-Major Enterprise Funds	Internal Service Funds		
General Fund	\$ -	\$ -	\$ 1,703	\$ 295,263	\$ 254,138	\$ 9	\$ 1,851	\$ 552,964	
Transportation & Aviation Planning, Highway Maintenance & Safety Fund	1,789	-	-	2,908	-	77	-	4,774	
Land Endowments Fund	12	-	-	24,552	-	-	1,647	26,211	
Non-Major Governmental Funds	11,912	8	-	1,688	-	-	448	14,056	
Unemployment Compensation Fund	2	-	-	196	-	-	-	198	
Lottery Fund	8,058	-	-	587	-	-	-	8,645	
Non-Major Enterprise Funds	-	-	-	-	-	-	1	1	
Internal Service Funds	1,157	-	-	1	-	-	9	1,167	
Total Due From	\$ 22,930	\$ 8	\$ 1,703	\$ 325,195	\$ 254,138	\$ 86	\$ 3,956	\$ 608,016	

Interfund balances represent (1) amounts due to and from the internal service funds for goods and services rendered, and (2) cash transferred between funds for various interfund activities subsequent to the balance sheet date. The cash is recorded in the fund which initiated the transfer, and a corresponding liability is recorded. The receiving fund records an interfund receivable.

Interfund Transfers

Transfers for the year ended June 30, 2009 are as follows (expressed in thousands):

Transferred From	Transferred To								
	General Fund	Transportation & Aviation Planning, Highway Maintenance & Safety Fund	Land Endowments Fund	Non-Major Governmental Funds	Universities Fund	Industrial Commission Special Fund	Non-Major Enterprise Funds	Internal Service Funds	Total Transfers Out
General Fund	\$ -	\$ 1,183	\$ 8	\$ 46,837	\$ 1,075,756	\$ -	\$ 2,800	\$ -	\$ 1,126,584
Transportation & Aviation Planning, Highway Maintenance & Safety Fund	349,626	-	-	255,642	-	-	500	-	605,768
Land Endowments Fund	-	-	-	66,501	-	-	-	-	66,501
Non-Major Governmental Funds	331,646	251	-	32,117	-	6,000	97	-	370,111
Unemployment Compensation Fund	6,224	-	-	2,050	-	-	-	-	8,274
Lottery Fund	64,125	-	-	26,813	-	-	-	-	90,938
Non-Major Enterprise Funds	2,935	-	-	-	-	-	-	-	2,935
Internal Service Funds	60,801	1,464	-	44	-	-	-	1,087	63,396
Total Transfers In	\$ 815,357	\$ 2,898	\$ 8	\$ 430,004	\$ 1,075,756	\$ 6,000	\$ 3,397	\$ 1,087	\$ 2,334,507

Interfund transfers represent legally authorized non-exchange transfers of funds. These transfers include: (1) legislative appropriations from the General Fund, (2) other legislative transfers, (3) statutorily required transfers, (4) transfers related to the elimination of funds, and (5) transfers for debt service.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

NOTE 9. FUND DEFICIT

A. GENERAL FUND

The General Fund deficit of \$978.278 million is primarily due to lower-than-expected economic growth and resulted in revenues falling short of budgeted levels. For fiscal year 2009, expenditures were \$21.1 billion, while revenues were \$19.5 billion. Sales tax and income tax revenues were significantly impacted by these economic conditions. Reported sales tax and income tax decreased by \$780.330 million, or 14.32%, and \$1.0 billion, or 24.84%, as compared to fiscal year 2008, respectively.

B. INDUSTRIAL COMMISSION SPECIAL FUND

The Industrial Commission Special Fund (Special Fund) deficit increased in the amount of \$15.265 million, from \$30.596 million to \$45.861 million, during fiscal year 2009. The main contributor to the increase in the Special Fund deficit was the net decrease in fair value of investments of \$30.206 million during fiscal year 2009. The Special Fund is responsible for paying all current and future Arizona workers' compensation claims of insolvent insurance carriers and self-insured plans, which accounted for \$238.150 million of the \$378.520 million total actuarial liability at June 30, 2009. Some of the claims expense will be recovered over a period of years as the Special Fund receives liquidation distributions from the insolvent companies.

A 1.50% Special Fund assessment, under ARS §23-1065(A), was levied beginning in calendar year 2004 because of the growth in insolvent carrier liabilities. Furthermore, in 2005, ARS §23-1081(B) was amended to permit a surplus in the Industrial Commission Administrative Fund to be transferred to the Special Fund when the Special Fund is not actuarially sound. During fiscal year 2009, \$6.000 million was transferred from the Administrative Fund to the Special Fund.

C. HEALTHCARE GROUP OF ARIZONA

As of June 30, 2009, the Healthcare Group of Arizona (HCG) had a fund deficit of \$10.789 million as a result of significant losses in prior fiscal years. In fiscal years 2008 and 2009, HCG revenues were sufficient to cover all expenses incurred in the respective years. In addition to HCG's fiscal year 2009 operating income of \$3.157 million, HCG received a net \$2.648 million General Fund subsidy in order to reduce its liabilities owed to its contracted HMOs for reconciliations incurred in previous fiscal years. HCG management also made significant administrative and programmatic changes in order to eliminate future losses and reduce the net deficit. Some significant changes included the elimination of the PPO program in Maricopa and Pima Counties, employers with groups of one being placed in a separate group with adjusted premiums to cover higher cost of care, and a continued decrease in administrative costs. As a result, HCG was able to reduce their net deficit in fiscal year 2009 by \$5.008 million.

For fiscal year 2010, management is projecting that HCG will continue to operate without incurring additional losses. The following table summarizes HCG's reconciliation liability, as of June 30, 2009, for fiscal year 2009 activity (in thousands of dollars):

	<u>Reconciliation Period</u>			
	FY 07	FY 08	FY 09	Total
Balance June 30, 2008	\$ 14,877	\$ 4,324	\$ -	\$ 19,201
Payments made	(5,281)	-	(150)	(5,431)
Accruals and adjustments	(13)	(502)	150	(365)
Balance June 30, 2009	\$ 9,583	\$ 3,822	\$ -	\$ 13,405

The remaining reconciliation liability will be paid by allocating 2.00% of medical premium revenues for a reconciliation reserve, from residual earnings, and from any State subsidies provided by the Legislature.

There can be no assurance that operating improvements realized over the past two fiscal years will continue to occur or will provide sufficient cash to fund operating expenses. Additionally, if there is an adverse change in enrollment and the premium increases are not sufficient to fund the reserves for past losses and future medical claims experience costs, then HCG will be required to further scale back administrative expenditures to the level supported by actual enrollment.

Subsequent to June 30, 2009, HCG took over the provider payment function from HCG's preferred point of service third party administrator. As a result of provider payment reconciliations and payment history research, HCG determined that due to certain

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

errors on the part of the third party administrator, approximately \$996 thousand was owed to providers for services provided in fiscal years 2009 and prior. This amount is reflected on the Statement of Revenues, Expenses and Changes in Fund Net Assets as an other non-operating expense. HCG is currently working with AHCCCS legal counsel to resolve this ongoing issue and is seeking reimbursement for this loss.

Even though deficit reduction measures resulted in a net gain for fiscal year 2009, a net deficit of \$10.789 million still exists as of June 30, 2009. It is not anticipated in the near future that operations will generate sufficient cash flow to significantly pay down the deficit. Additionally, should the health plans elect to call the prior year reconciliation liabilities before HCG has sufficient funds to provide such payments and new terms are not negotiated, or the Legislature does not provide HCG with additional subsidies, it raises substantial doubt in HCG's ability to continue as a going concern.

In conclusion, even though HCG posted operating income of \$3.157 million in fiscal year 2009, and management currently projects that the positive trend will continue, \$10.789 million remained as a net deficit at year end due to the outstanding reconciliation liability owed to the HMO's for prior fiscal years. It is not anticipated in the near future that operations will generate sufficient cash flow to entirely pay off the outstanding obligation.

Accordingly, the accompanying financial statements have been prepared assuming that HCG will continue as a going concern. The matters discussed above raise substantial doubt about HCG's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should HCG be unable to continue as a going concern.

D. ARIZONA HIGHWAYS MAGAZINE

The Arizona Highways Magazine had a fund deficit of \$278 thousand which stemmed from four legislatively mandated cash transfers to the General Fund totaling \$1.483 million in fiscal year 2009. These transfers were mandated by House Bill 2209, section 46, and Senate Bill 1001, sections 4, 5, and 7.

E. RISK MANAGEMENT FUND

The Risk Management Fund (RMF) deficit of \$313.425 million is primarily due to the RMF receiving annual funding only for expected paid claims (self-insured and excess insurance expenditures, legal and other claim related expenditures, and administrative expenditures), and not being funded for non-current accrued insurance losses. Accrued insurance losses of the RMF are not considered when determining funding for each fiscal year.

F. RETIREE SICK LEAVE FUND (RASL)

The RASL pays retirees for their accumulated sick leave upon retirement from State service when they meet certain criteria. Beginning with fiscal year 2008, the State applied the provisions of GASB Statement No. 16 – *Accounting for Compensated Absences* to the RASL. This results in a liability in the RASL which is significantly greater than the actual funding of the RASL, because the liability is based upon an estimate of the total RASL benefit earned by existing employees at the balance sheet date; however, State agencies pay for only one year based on a 0.40% charge on gross payroll. The \$107.609 million fund deficit is primarily due to the above funding mechanism.

NOTE 10. JOINT VENTURE

The U of A is a participant in the Large Binocular Telescope Corporation (LBT). The LBT was formally incorporated as a nonprofit corporation in August 1992 pursuant to a Memorandum of Understanding, as amended, executed on February 24, 1989, between the U of A and the Arcetri Astrophysical Observatory in Florence, Italy (Arcetri). The purpose of the joint venture is to design, develop, construct, own, operate, and maintain a binocular telescope currently being constructed in Arizona. The current members of the LBT are the U of A, INAF Astrophysical Observatory, Research Corporation, Ohio State University, and the LBT Beteiligungsgesellschaft.

The U of A has committed resources equivalent to 25.00% of the LBT's construction costs and annual operating costs. As of June 30, 2009, the U of A has made cash contributions of \$18.159 million toward the project's construction costs, which were recorded as long-term investments on the Statement of Net Assets. The U of A's financial interest represents its future viewing/observation rights. As of December 31, 2007, the assets had been substantially completed and the telescope has entered the commissioning phase. During calendar year 2007, the telescope has become operational for research purposes; thus,

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

depreciation of the property and equipment has commenced. The U of A recorded its proportionate share of the use of the viewing/observation rights, \$726 thousand in calendar year 2008, as a reduction in its investment. At June 30, 2009, the investment totaled \$16.757 million. According to the audited financial statements of the LBT for the year ended December 31, 2008, assets, liabilities, revenues, and expenses totaled \$125.000 million, \$3.000 million, \$15.000 million, and \$11.000 million, respectively.

The LBT's separate audited financial statements can be obtained from the University of Arizona Comptroller at the University of Arizona, Financial Services, P.O. Box 3310, Tucson, AZ 85722-3310.

NOTE 11. COMMITMENTS, CONTINGENCIES, AND COMPLIANCE
--

A. INSURANCE LOSSES

The Department of Administration – Risk Management Division manages the State's property, environmental, general liability, and workers' compensation losses. The State has determined that the management of these losses can be performed effectively and efficiently through the Risk Management Division. Consequently, all agencies are required to participate in this program. The State's Risk Management Division evaluates the proper mix of purchased commercial insurance and self-insurance annually.

The Industrial Commission Special Fund (Special Fund) provides payment of workers' compensation losses which are not covered by the State Compensation Fund, the Department of Administration – Risk Management Division, private insurance carriers, or self-insured employers. The workers' compensation claims paid by the Special Fund encompass claims against uninsured or underinsured employers and insolvent insurance carriers and would include payments for vocational rehabilitation, medical conditions incurred prior to 1973, apportionment claims for pre-existing industrial and non-industrial related physical impairments, and compensation for loss of earnings associated with the disability.

The State records claims liability when the reported loss is probable and reasonably estimated. On an annual basis, independent actuarial firms are engaged to estimate the State's total year-end outstanding claims liability, which takes into account recorded claims and related allocated claims adjustment expenditures, loss development factors, and an estimate for incurred but not reported claims. There were no non-incremental claims adjustment expenses included in the liability for claims and adjustments.

The management and payment of these losses is accomplished through the funding mechanism of the Risk Management Fund (internal service fund) and the Special Fund (enterprise fund). As discussed in the above paragraph, an independent annual actuarial analysis is performed to evaluate the needed funding. The Risk Management Division will assess each agency an annual portion of the necessary funding for the Risk Management Fund based on their exposures and prior loss experience. Interest and dividend earnings of investments and assessments on gross premium revenues currently fund the Special Fund. To provide funding for workers' compensation claims, the Special Fund may direct payment to the State Treasurer an amount not to exceed one and one-half percent of all premiums received by the State Compensation Fund, private carriers, and self-insured plans during the immediately preceding calendar year. Beginning in calendar year 2004, this 1.50% assessment was levied under ARS §23-1065(A) because of a deficit net assets balance.

AMI Risk Consultants, Inc. was retained to evaluate the medical and compensation related liabilities of the Special Fund as of June 30, 2009. The estimated loss reserve of \$378.520 million is \$3.618 million lower than the \$382.138 million reserve estimate at June 30, 2008. The most significant category of change was the insolvent carrier claims that decreased in the amount of \$4.621 million from \$242.771 million at June 30, 2008 to \$238.150 million at June 30, 2009. The reserves were discounted at an assumed rate of 2.89% for the compensation claims and zero percent for the medical claims. For medical benefits, it was assumed that the inflation in medical costs will equal the investment return earned by the Special Fund on those reserves.

The only Special Fund assessment levied in 2009 was the 1.50% assessment under ARS §23-1065(A). The .50% assessment under ARS §23-966(D), based on the insolvent carrier losses, and .50% assessment under ARS §23-1065(F), based on the total apportionment liability, were not levied in 2009. The Special Fund has filed pending proof of claim requests with ancillary receivers and liquidators holding deposits and surety bonds of several insolvent companies. Since the actual amount that will ultimately be received cannot be determined, the Special Fund will continue to recognize receipt of insolvent carrier deposits (settlement income) as revenue at the time received rather than recording a receivable.

Occasionally, the Risk Management Division agrees with claimants to purchase an annuity contract to settle specific claims when it is determined that it is in the best interest of the State to do so. In these instances, the State requires the claimant to sign an

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

agreement releasing the State from any further obligation. As a result of these requirements, the likelihood that the State will be required to make future payments on these claims is remote.

There have been no significant reductions in the current fiscal year insurance coverage. There have been no settlements that have exceeded insurance premium coverage in the last three years.

The following table presents the changes in claims liabilities balances (short- and long-term combined) during fiscal years ended June 30, 2008 and June 30, 2009 (expressed in thousands):

Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claims Payments	Ending Balance
Risk Management Fund:				
2008	\$ 344,105	\$ 84,363	\$ 64,541	\$ 363,927
2009	363,927	61,179	65,293	359,813
Industrial Commission Special Fund:				
2008	401,148	7,576	26,586	382,138
2009	382,138	24,467	28,085	378,520

B. LITIGATION

In *Roosevelt Elementary School District No. 66 vs. State of Arizona* and *Somerton Elementary School District No. 11 vs. State of Arizona*, the plaintiffs are seeking a declaration that Arizona’s funding of the Building Renewal Fund for school district capital resources under ARS §15-2031 is unconstitutional. The actions were originally commenced in 1999 and 2002, but they were remanded by the Arizona Court of Appeals after its decision in *Roosevelt Elem. Sch. Dist. v. State of Arizona*, 205 Ariz. 594, 74 P.3d 258 (App. 2003). On remand, plaintiffs substituted some parties, leaving the plaintiff school districts as Globe Unified School District, Williams Unified School District, and Sierra Vista Unified School District, and discovery recommenced. In October, 2006, the court granted the State summary judgment, finding that the named school districts had failed to seek emergency funding under ARS §15-2022. The court indicated that if the districts proved subsequently that they had sought emergency funding and been rejected, and had exhausted all sources of State funding available to them for their facility needs, they might reinstate their claims. Plaintiff Globe Unified School District is no longer a party. The court later agreed to stay the judgment against plaintiffs through June 1, 2007, and plaintiffs successfully sought even further continuance on the inactive calendar. The plaintiffs moved to add a new plaintiff district, Tempe Union High School District, and to transfer the case to the active calendar and set it for trial. The State objected, and sought dismissal of the cases. The motions were argued in September, 2008, and the court issued an order requiring a further evidentiary hearing on the status of the plaintiff districts’ alleged capital needs and financial resources for late February, 2009. In the meantime, plaintiff, Williams Unified School District decided not to continue as a plaintiff in the case. After considering the evidence presented in the evidentiary hearing, the trial court issued an order granting the State’s cross-motion to dismiss the plaintiff’s claims without prejudice but placing the case on the inactive calendar and providing that “should plaintiffs in the future establish that they have exhausted all appropriate sources of State funding and yet been denied emergency funds, their claims may be reinstated.” After receiving the court’s ruling, the plaintiffs filed a motion for reconsideration of the ruling. The court ordered the State to file a response, which the State did. The plaintiffs have filed their reply in support of the motion for reconsideration, and the parties are awaiting a ruling on the motion for reconsideration. The plaintiffs are not seeking damages. However, they are seeking a declaration that would require the State to provide additional funding for building maintenance and renewal needs. The plaintiffs are likely to argue that the Arizona State Legislature was required to fund according to the Building Renewal Fund Formula, which was ultimately suspended by the Arizona State Legislature. The formula-calculated amounts that were not funded for just the 1999-2000, 2001-2002, and 2002-2003 fiscal years amounted to almost \$186.000 million. The potential outcome is uncertain at this time. If this case were to have an unfavorable outcome, it is possible that the State could incur losses in excess of \$200.000 million.

In the *Mayer vs. Winkelman* case disclosed in prior fiscal years, the State prevailed on statute of limitation grounds.

The State has a variety of claims pending against it that arose during the normal course of its activities. Management believes, based on advice of legal counsel, losses, if any, resulting from settlement of these claims will not have a material effect on the financial position of the State. All losses for any unsettled litigation or contingencies involving workers’ compensation, medical malpractice, construction and design, highway operations, employment practices, criminal justice, fidelity and surety,

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

environmental property damage, general liability, environmental liability, building and contracts, auto liability, or auto physical damage are determined on an actuarial basis and included in the Accrued Insurance Losses of the internal service funds and the Industrial Commission Special Fund.

C. ACCUMULATED SICK LEAVE

Sick leave includes any approved period of paid absence granted an employee due to illness, injury, or disability. Most State employees accrue sick leave at the rate of eight hours per month without an accumulation limit. State employees are eligible to receive payment for an accumulated sick leave balance of at least 500 hours, with a maximum of 1,500 hours, upon retirement directly from State service. The benefit value is calculated by taking the State employee’s hourly rate of pay at the retirement date, multiplied by the number of sick hours at the retirement date times the eligibility percentage. The eligibility percentage varies based upon the number of accumulated sick hours from 25.00% for 500 hours to a maximum of 50.00% for 1,500 hours. The maximum benefit value is \$30 thousand. The benefit is paid out in annual installments over three years. The RASL Fund is accounted for in the financial statements as an internal service fund and accounts for the retiree accumulated sick leave liability of \$111.978 million.

D. UNCLAIMED PROPERTY

The State of Arizona’s Uniform Unclaimed Property Act requires the deposit of certain unclaimed assets into a managed agency fund. A total of approximately \$652.315 million (net of refunds issued) has been collected since the inception of the fund. The State is also holding securities valued at \$21.509 million and mutual funds valued at \$1.371 million. In accordance with ARS §44-313 and ARS §44-314, for fiscal year 2009, \$28.554 million was deposited in the Department of Commerce Housing Fund, \$10.383 million was deposited in the Racing Fund, and \$10.879 million was deposited in the General Fund. The remittances to the General Fund and the holdings by the State represent contingencies, as claims for refunds can be made by the owners of the property. The GASB requires that a liability be reported to the extent that it is probable that escheat property will be reclaimed and paid to claimants. This liability is also reported as a reduction of revenue. This liability is reported in the General Fund because it is the fund to which the property ultimately escheats in Arizona. At June 30, 2009, \$165.604 million of this liability is included as Due to Others in the General Fund.

E. CONSTRUCTION COMMITMENTS

The ADOT had outstanding commitments under construction contracts of approximately \$1.1 billion at June 30, 2009.

	(in thousands)	
	Expenditures to Date	Remaining Commitments
Construction contracts:		
Rural roadways	\$ 408,912	\$ 264,056
Small urban roadways	72,713	51,786
Urban roadways	109,005	42,002
Large urban roadways	712,495	299,316
Sub-total	1,303,125	657,160
Design contracts	811,432	94,255
Other commitments	437,732	385,832
Total	\$ 2,552,289	\$ 1,137,247

F. ARIZONA STATE LOTTERY

Annuities are purchased for all prizes over \$400 thousand for which winners will receive the jackpot in annual installments for The Pick on-line game. These annuities are purchased from qualifying insurance companies which have the highest ratings from among A.M. Best Company, Standard & Poor’s, Moody’s, Duff & Phelps, or Weiss. The Lottery may incur future liabilities on these annuities. Aggregate future payments to prize winners on existing annuities totaled approximately \$76.105 million at June 30, 2009. Approximately \$56.652 million of the total aggregate future payments at June 30, 2009 relate to annuities purchased from five separate insurance companies, of which approximately \$13.026 million relates to a single insurance company.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

NOTE 12. TOBACCO SETTLEMENT

The State is one of many states participating in the settlement of litigation with the tobacco industry over the reimbursement of healthcare costs. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The State expects to receive settlement payments through 2025.

The State recorded tobacco settlement revenue of \$125.571 million and \$127.709 million in the fund statements and the government-wide statements in fiscal year 2009, respectively. Future settlement payments are subject to several adjustments, but the amounts are not presently determinable. These adjustments include a volume adjustment, which could reflect any decreasing cigarette production under a formula that also takes into account increased operating income from sales. Other factors that might affect the amounts of future payments include ongoing and future litigation against the tobacco industry and the future financial health of the tobacco manufacturers. Because the net realizable value of the future settlement payments is not measurable and there is no obligation for the tobacco companies to make settlement payments until cigarettes are shipped, the State did not record a receivable for the future payments related to cigarette sales after June 30, 2009.

NOTE 13. PUBLIC-PRIVATE PARTNERSHIP

The State of Arizona has entered into a partnership agreement with Accenture. The purpose of this partnership is to fund the Department of Revenue's technology needs. The agreement stipulates that Accenture will be paid 85.00% of the new revenue generated from the system enhancements, even if this amount is insufficient to cover the total contract cost. Accordingly, Accenture had created a system that increases the State's efficiency in collecting tax revenues. As of June 30, 2009, the State has paid Accenture \$151.129 million towards the \$160.936 million contract cost. Included in the \$160.936 million contract cost is capitalized interest charges of \$7.000 million and application support charges of \$54.610 million.

NOTE 14. TREASURER'S WARRANT NOTES

On April 15, 2009 through April 27, 2009, May 13, 2009 through May 20, 2009, and May 22, 2009 through May 26, 2009, pursuant to ARS §35-185.01 and §35-185.02, the State Treasurer issued Treasurer's Warrant Notes (TWNs) in daily amounts ranging from \$5.163 million to \$339.904 million in lieu of immediate redemption of warrants presented to the State Treasurer for payment of authorized General Fund expenditures. The TWNs were purchased by the State's internal investment pools. TWNs are issued only in the event the State Treasurer has insufficient funds to redeem warrants presented for payment of authorized expenditures of the State's General Fund. TWNs are issued daily depending on cash flow needs, and are redeemed the next business day. Any time TWNs are outstanding, all monies which would normally be deposited into the State General Fund, except amounts sufficient to pay constitutional officers of the State, shall be deposited into the TWN Redemption Fund to redeem outstanding TWNs. No TWNs were outstanding at June 30, 2009.

NOTE 15. SUBSEQUENT EVENTS

On December 8, 2009, the NAU issued \$108.860 million of System Revenue Bonds, Taxable Series 2009A and \$5.640 million of System Revenue Bonds, Tax Exempt Series 2009B. These bonds have maturity dates ranging from 2015 to 2024 and interest rates ranging from 4.84% to 5.84%.

On January 13, 2010, the State of Arizona issued COPs, Series 2010A for \$709.090 million. The 2010A COPs include \$709.090 million of serial certificates with interest rates ranging from 2.00% to 5.25% and maturity dates ranging from 2013 to 2030. The 2010A COP certificates maturing on or after October 1, 2020 are subject to optional redemption prior to maturity, without premium. The 2010A COP certificates are subject to extraordinary redemption prior to maturity from the net proceeds of insurance or condemnation awards, without premium. The 2010A COP certificates maturing on or after October 1, 2017 are subject to mandatory redemption and shall be redeemed prior to maturity from the Mandatory Prepayment Amounts, if any, calculated in accordance with the Lease, at the direction of the State, on any date on or after October 1, 2016 in whole or in part, at the "Adjusted Redemption Value" plus premium. The State realized net proceeds of \$735.419 million after receipt of \$34.187 million net original issue premium and payment of \$7.858 million of issuance costs, including underwriters' discount. The 2010A COPs are being issued to: (i) finance the costs of acquiring leasehold interests in State-owned buildings by U.S. Bank, NA, as trustee; upon receipt of the 2010A COP proceeds by the trustee, the trustee will immediately purchase the State property as defined in the debt documents and (ii) pay the costs of issuance.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

On March 30, 2010, the ASU issued System Revenue Bonds totaling \$178.350 million, consisting of \$165.980 million of Taxable Series 2010A (2010A Bonds) with interest rates ranging from 4.01% to 6.30% and \$12.370 million of Tax-Exempt Series 2010B (2010B Bonds) with interest rates ranging from 3.00% to 5.00%. The 2010A Bonds and the 2010B Bonds have final maturities of 2030 and 2039, respectively. These bonds are being issued to finance various projects of the ASU.

On April 28, 2010, the NAU issued \$64.785 million of Stimulus Plan for Economic and Educational Development Revenue Bonds, Taxable Series 2010. These bonds have maturity dates ranging from 2017 to 2031 and interest rates ranging from 4.27% to 6.59%.

Throughout most of fiscal year 2010, the State Treasurer issued TWNs in lieu of immediate redemption of warrants presented to the State Treasurer for payment of authorized General Fund expenditures. At May 7, 2010, the outstanding balance of the TWNs was approximately \$594.316 million.

The State has recently experienced its worst economic downturn in at least 50 years. Over the period of fiscal year end 2007 through February 2010, the total revenue from the State's major tax sources (sales and use, individual and corporate) has decreased by approximately one-third. With revenues falling short of budgeted levels, the State's General Fund was faced with a fiscal year 2009 ending balance shortfall and approximately a \$3.2 billion on-going structural deficit. The State Legislature has enacted a series of laws in response. Significant measures include deep cuts to education and health/welfare programs. Additionally, the State Legislature referred a temporary 1-cent increase in the transaction privilege tax to voters. The special election will be held on May 18, 2010. If approved, the increase would become effective June 1, 2010 and expire May 31, 2013. The State Legislature has already enacted laws for additional cuts to State spending authority that will be triggered if the temporary tax is not passed. Accordingly, the State has adopted a workable budget for fiscal year 2010 and 2011, and has made significant progress towards eliminating the long-term structural deficit.

NOTE 16. DISCRETELY PRESENTED COMPONENT UNIT DISCLOSURES

The accounting policies of the State's component units conform to U.S. GAAP applicable to governmental units adopted by the GASB, except for those component units affiliated with the State's Universities. Because the component units affiliated with the Universities are not governmental entities, they follow FASB statements for not-for-profit organizations for financial reporting purposes. Each component unit has a June 30 year-end with the exception of the Law College Association, which has a May 31 year-end.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Measurement Focus and Basis of Accounting

The State's component units and component units affiliated with the Universities are presented using the economic resources measurement focus and the accrual basis of accounting. The State's component units follow FASB Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The State has chosen the option not to follow FASB Statements and Interpretations issued after November 30, 1989, except for the UMC, which has elected to apply the provisions of all relevant pronouncements of the FASB, including those issued after November 30, 1989, unless those pronouncements conflict or contradict GASB pronouncements.

2. Net Assets

Component units affiliated with the Universities classify net assets, revenues, expenses, gains and losses based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the component units affiliated with the Universities and changes therein are classified and reported as follows:

- *Unrestricted net assets* include assets and contributions that are not restricted by donors or for which such restrictions have expired.
- *Temporarily restricted net assets* include contributions for which donor imposed restrictions have not been met (either by the passage of time or by actions of the Foundations), charitable remainder unitrusts, pooled income funds, gift annuities, and pledges receivable for which the ultimate purpose of the proceeds is not permanently restricted. Donor-

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

restricted contributions are classified as temporarily restricted if the restrictions are satisfied in the same reporting period in which the contributions are received; however, the component units affiliated with the ASU, other than the ASU Foundation, classify such contributions as unrestricted.

- *Permanently restricted net assets* include contributions, charitable remainder unitrusts, pooled income funds, gift annuities, and pledges receivable which require by donor restriction that the corpus be invested in perpetuity and only the board-approved payout be made available for program operations in accordance with donor restrictions.

3. Cash and Cash Equivalents

Cash and cash equivalents includes monies held in certificates of deposit, overnight money market accounts, and money market funds. Cash and cash equivalents are stated at cost, which approximates fair value.

4. Investments

Investments are recorded in accordance with Statements of Financial Accounting Standards (SFAS) No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*. The fair values of publicly traded securities are based on quoted market prices and exchange rates, if applicable. Absolute return limited partnership interests are recorded at fair value based on quoted market prices (where the underlying investment is a mutual fund) or as determined by the fund manager. Purchases and sales of investment securities are reflected on a trade-date basis. Realized gains and losses are calculated using the average cost for securities sold. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in the increases or decreases in net assets in the Statement of Activities.

5. Income Taxes

The Foundations qualify as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code and, accordingly, there is no provision for income taxes in the accompanying financial statements, except for the Collegiate Golf Foundation and the ACFFC. In addition, they qualify for the charitable contribution deduction and have been classified as organizations that are not private foundations. Any income determined to be unrelated business taxable income would be taxable. The ACFFC and NACFFC are exempt from taxes under the provisions of Section 501(c)(4) of the Internal Revenue Code. The ACFFC does not qualify for the charitable contribution deduction.

6. Annuities Payable and Other Trust Liabilities

Annuities payable and other trust liabilities for the U of A Foundation are stated at the actuarially computed present value of future payments to the annuitants. The excess of the fair values of assets received (classified according to their nature in the Statement of Financial Position) pursuant to annuity agreements over the actuarially computed annuities payable (using market rates in effect on the contribution date) is recorded as contributions in the year received.

7. Contributions

Contributions are recorded in accordance with SFAS No. 116, *Accounting for Contributions Received and Contributions Made*. Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets depending on the nature of the restriction.

8. Net Assets Released from Restriction

Expenses are not incurred in the temporarily restricted or permanently restricted net asset categories. As the restrictions on these net assets are met, the assets are reclassified to unrestricted net assets. The total assets reclassified are reported as net assets released from restriction in the accompanying Statement of Activities.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

9. Use of Estimates

The preparation of the Universities-affiliated component units' financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

B. DEPOSITS AND INVESTMENTS

1. Component Units

a. Deposits and Investment Policies

The investments of the WIFA are stated at fair value, except guaranteed investment contracts, which are stated at cost since they are non-participating contracts. The investments of the UMC are stated at fair value.

b. Custodial Credit Risk - Deposits and Investments

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from the outside party. The WIFA and the UMC do not have a formal policy regarding custodial credit risk for deposits.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered. The WIFA and the UMC do not have a formal policy regarding custodial credit risk for investments. The investments of the UMC are uninsured, unregistered, and held by brokers in the UMC's name.

c. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The WIFA does not have a formal policy regarding interest rate risk. The following table presents the interest rate risk for the WIFA utilizing the segmented time distribution method as of June 30, 2009 (expressed in thousands):

Investment Type	Fair Value	Investment Maturities (in years)			
		Less than 1	1-5	6-10	More than 10
Corporate asset backed securities	\$ 2,137	\$ 2,137	\$ -	\$ -	\$ -
Corporate notes	20,312	20,312	-	-	-
Guaranteed investment contracts	80,893	-	-	80,893	-
Money market mutual funds	3,021	3,021	-	-	-
Repurchase agreements	30,570	30,570	-	-	-
U.S. agency securities	32,975	17,998	14,977	-	-
U.S. agency mortgage backed securities	1,260	-	-	-	1,260
U.S. Treasury securities	11,827	11,827	-	-	-
Total	\$ 182,995	\$ 85,865	\$ 14,977	\$ 80,893	\$ 1,260

The UMC's investment policy limits the portfolio duration related to debt securities to the Lehman Brothers Intermediate Government/Credit Index. This is an index based on all publicly issued intermediate government and corporate debt securities with average maturities of four to five years. The following table presents the estimated maturities of the UMC's investments, utilizing the segmented time distribution method as of June 30, 2009 (expressed in thousands):

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

Investment Type	Fair Value	Investment Maturities (in years)			
		Less than 1	1-5	6-10	More than 10
Commercial paper	\$ 15,610	\$ 15,610	\$ -	\$ -	\$ -
Corporate fixed income	6,658	-	6,658	-	-
Guaranteed investment contracts	4,396	153	-	-	4,243
Money market mutual funds	85,656	85,656	-	-	-
Structured notes	22,632	-	22,632	-	-
U.S. Treasury securities	8,948	8,948	-	-	-
Total	\$ 143,900	\$ 110,367	\$ 29,290	\$ -	\$ 4,243

d. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the holder of the investment. The WIFA does not have a formal policy regarding credit risk. The following table presents the WIFA's investments which were rated by S & P's and/or an equivalent national rating organization. The ratings are presented using S & P's rating scale as of June 30, 2009 (expressed in thousands):

Investment Type	Fair Value	AAA	AA	A	A1	BB	Not Rated
Corporate asset backed securities	\$ 2,137	\$ 2,137	\$ -	\$ -	\$ -	\$ -	\$ -
Corporate notes	17,816	370	4,639	11,582	-	1,225	-
Guaranteed investment contracts	80,893	80,893	-	-	-	-	-
Money market mutual funds	3,021	-	-	-	-	-	3,021
U.S. agency securities	32,975	31,212	-	-	1,763	-	-
U.S. agency mortgage backed securities	1,260	1,260	-	-	-	-	-
Total	\$ 138,102	\$ 115,872	\$ 4,639	\$ 11,582	\$ 1,763	\$ 1,225	\$ 3,021

The UMC's investment policy establishes ranges which limit the level of investments held in domestic and international equities, fixed income securities, and alternative investment strategies. Investment in fixed income securities is limited to investment grade securities with a credit rating of BBB, or equivalent, or better. The portfolio of fixed income securities must maintain an average rating of A or better at all times. The following table presents the UMC's investments which were rated by S & P's and/or an equivalent national rating organization. The ratings are presented using S & P's rating scale as of June 30, 2009 (expressed in thousands):

Investment Type	Fair Value	AAA	AA	A	Not Rated
Alternative investments	\$ 2,893	\$ -	\$ -	\$ -	\$ 2,893
Commercial paper	15,610	-	-	-	15,610

Total	\$ 191,386	\$ 5,123	\$ 21,796	\$ 6,614	\$ 157,853

e. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The WIFA's investment policy contains no limitations on the amount that can be invested in any one issuer. As of June 30, 2009, an investment in Bayerische Landesbank (fair value of \$40.586 million) was approximately 22.18% of the WIFA's total investments, an investment in AIG Matched Funding Corp. (fair value of \$25.153 million) was approximately 13.74% of the WIFA's total investments, an investment in Royal Bank of Canada (fair value \$15.155 million) was approximately 8.28% of the

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

WIFA's total investments, and an investment in Federal Home Loan Mortgage Corporation (fair value \$16.226 million) was approximately 8.87% of the WIFA's total investments.

f. Foreign Currency Risk

The UMC's investment policy permits it to invest a portion of its holdings in international equities, alternative, and managed future investments. The UMC's current holdings in international securities totaled approximately \$23.217 million, or 18.05% of total investments not held by trustee. The following table summarizes the UMC's foreign currency risk as of June 30, 2009 (expressed in thousands):

Foreign Currency Risk by Investment Type at Fair Value			
(Expressed in Thousands)			
Currency	Fixed Income	Equities	Total
Australian Dollar	\$ 14	\$ 1,513	\$ 1,527

Total Investments	<u>\$ 418,222</u>	<u>\$ 48,934</u>	<u>\$ 335,256</u>	<u>\$ 59,646</u>

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

C. PROGRAM LOANS

The WIFA has made loans to local governments and others in Arizona to finance various projects pursuant to the requirements of the Clean Water and Safe Drinking Water Acts. The loans are generally payable in semi-annual installments due January 1 and July 1 of each year, including interest. However, several loans are payable monthly or quarterly. Changes in the program loans during fiscal year 2009 are as follows (expressed in thousands):

	Beginning Balance	Increases	Decreases	Ending Balance
Clean Water Fund	\$ 600,725	\$ 128,709	\$ (48,008)	\$ 681,426
Drinking Water Fund	297,038	27,763	(13,586)	311,215
Total	<u>\$ 897,763</u>	<u>\$ 156,472</u>	<u>\$ (61,594)</u>	<u>\$ 992,641</u>

Repayment of these loans will be made from pledged property taxes, net revenues from the systems, transaction privilege taxes, or from special assessments. Most loans have a .30% to 4.00% annual administrative fee.

Some program loans require a monthly or quarterly payment into a debt service reserve to assure payments of the loans. The debt service reserve is a liability of the WIFA to the borrowers and interest on the reserve accrues to the borrowers.

D. PLEDGES RECEIVABLE

Pledges receivable (unconditional promises to give) are recorded at their net realizable value, which is net of a discount and any applicable loss allowance. The ASU Foundation's pledges are discounted using the applicable risk free rate at the date the pledge was recognized. The discount rates range from 2.40% to 10.90%. An allowance for uncollectible pledges is estimated based on the ASU Foundation's collection history and is recorded as a reduction to contribution support and revenue and an increase in the allowance for uncollectible pledges. The Sun Angel Foundation's pledges receivable are recorded using a 5.14% discount rate for the year ended June 30, 2009.

Pledges receivable, as of June 30, 2009, include the following (expressed in thousands):

	ASU Foundation	Sun Angel Foundation
Gross pledges receivable	\$ 152,740	\$ 9,998
Present value discount	(32,776)	(753)
Allowance for uncollectible pledges	(13,517)	-
Net Pledges Receivable	<u>\$ 106,447</u>	<u>\$ 9,245</u>

E. DIRECT FINANCING LEASE AGREEMENTS

1. ASU Foundation

The ASU Foundation leases a portion of the Fulton Center building (the ASU Foundation's headquarters) to the ASU under a direct financing lease. At the end of lease, the ASU Foundation and affiliates will gift their portion of the building to the ASU and the ASU will receive title to the building. The ASU Foundation's net investment in this direct financing lease at June 30, 2009 is \$27.605 million.

2. ACFFC

Pursuant to a Sublease Agreement, dated April 7, 2004, Nanotechnology Research, LLC, a wholly-owned subsidiary of ACFFC, leases its interest in the Research Park to the ASU. The Sublease Agreement commenced April 7, 2004, and continued until June 30, 2005, with successive automatic annual renewals for the period July 1 through June 30 of each year without action on the part of Nanotechnology or the ASU, through the period ending March 31, 2034. The Sublease Agreement is subject to early termination by Nanotechnology or the ASU upon the payment in full of the outstanding debt. Upon termination or expiration of the Sublease Agreement, Nanotechnology's interest in the premises, including all buildings and improvements on the leased premises, transfers to the ASU without further consideration. Therefore, the lease is classified as a direct financing capital lease. ACFFC's net investment in the Nanotechnology facility direct financing lease is \$34.900 million at June 30, 2009.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

Effective April 29, 2009, the Sublease Agreement was amended and the Series 2004 A&B Bonds were refunded by the Series 2009 Refunding Bonds. The refunding bonds effectively converted the interest payments from variable rate to fixed rate, with interest rates ranging from 4.00% to 6.40%.

Pursuant to the ASU Lease Agreement, dated July 1, 2005, McAllister Academic Village, LLC, a wholly-owned subsidiary of ACFFC, leases its interest in the non-residential portion of Hassayampa Academic Village (HAV) to the ASU which consists of the academic, tutorial, retail, and food service facilities. The lease commenced on July 1, 2005 and continued until June 30, 2006 with annual renewals through June 30, 2045. Any right, title, or interest of McAllister (HAV) in and to the academic portions of the project will pass to the ASU without further cost upon payment in full of the Bonds by McAllister (HAV) of the ASU. Therefore, the lease is considered a direct financing capital lease. ACFFC's net investment in the McAllister (HAV) direct financing lease is \$12.400 million at June 30, 2009.

Effective September 1, 2008, the ASU Lease agreement was amended and the Series 2005 A&B Bonds were refunded by the Series 2008 Refunding Bonds. The refunding bonds effectively converted the interest payments from variable rate to fixed rate, with interest rates ranging from 3.50% to 5.80%.

3. NACFFC

On May 19, 2005, the NAU entered into a lease purchase agreement with NACFFC. During the 28 year lease term, the NAU will make lease payments on two apartment style student housing complexes, Pine Ridge Village and McKay Village. The NACFFC recorded a sales-type lease receivable of \$13.225 million in fiscal year 2005 for the Pine Ridge complex. The agreement also provided for the NAU's lease purchase agreement of the McKay Village complex for \$22.685 million in fiscal year 2007. Upon expiration of the lease, the real property will become the sole property of the NAU without further cost.

On September 1, 2006, the NAU entered into a lease purchase agreement with NACFFC. During the 30 year lease term, the agreement provides for the NAU lease purchase of the convention center/parking garage complex for \$12.400 million in fiscal year 2008. Upon expiration of the lease, the real property will become the sole property of the NAU without further cost.

F. CAPITAL ASSETS

Capital asset activity for the UMC for the fiscal year ended June 30, 2009 was as follows (expressed in thousands):

	University Medical Center				
	Beginning Balance	Additions	Retirements	Adjustments & Reclassifications	Ending Balance
Non-depreciable capital assets:

Less: Accumulated Depreciation	(4,763)	(35,637)	(2,449)
Total Property and Equipment, Net	<u>\$ 20,149</u>	<u>\$ 223,591</u>	<u>\$ 120,771</u>

G. LONG-TERM OBLIGATIONS

1. Component Units

a. Water Infrastructure Finance Authority

The WIFA's bonds are callable and interest is payable semiannually. The bonds are special obligations of the WIFA payable solely from and secured by the WIFA's assets. The bonds are not obligations, general, specific, or otherwise, of the State or any other political subdivision, thereof, other than the WIFA.

In prior fiscal years, the WIFA refinanced various bond issues through advance-refunding arrangements. Under the terms of the refunding bond issues, sufficient assets to pay all principal, redemption premium, if any, and interest on the refunded bond issues have been placed in irrevocable trust accounts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future payment of principal and interest of the issues refunded. The assets, liabilities, and financial transactions of these trust accounts and the liability for the defeased bonds are not reflected in the accompanying financial statements. The amount outstanding on the refunded bonds for the WIFA at June 30, 2009 totaled \$62.995 million.

The \$6.372 million deferred amount on retirement of bonds is being amortized over the lives of the defeased bonds on a straight-line basis. The amortization for the year ended June 30, 2009 is \$554 thousand. Amortization has been offset against interest expense.

Bond premiums are being amortized over the life of the bonds. The amortization for the year ended June 30, 2009 is \$3.196 million. Further, bond issuance costs are amortized over the life of the bond and offset to interest expense. The amortization for the ended June 30, 2009 is \$313 thousand.

b. University Medical Center

The UMC is subject to certain financial covenants under the Master Trust Indenture (the Indenture). In addition, the Indenture places certain restrictions on the incurrence of additional indebtedness and the sale or acquisition of property.

The UMC has established and maintains separate funds as a bond reserve fund on outstanding bonds payable. These funds, which totaled \$20.067 million at June 30, 2009, are held by the trustee and are reflected as restricted investments held by trustee in the accompanying financial statements. These principally consist of money market investments, collateralized by U.S. government securities.

The bonds or other obligations of the UMC do not constitute general obligations of the Arizona Board of Regents, the U of A, the State, or any political subdivision thereof.

In May 2009, the UMC issued \$61.800 million of Hospital Revenue Bonds (Series 2009 Bonds). The Series 2009 Bonds were issued at a discount to yield an effective interest rate of 6.48% and are being used for the construction of the Diamond Children's Medical Center and to finance other capital needs of the UMC. The total debt issuance costs for the Series 2009 Bonds were \$890 thousand at June 30, 2009. These costs will be amortized over the term of the Series 2009 Bonds.

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2009

c. Arizona Power Authority

In prior years, the APA defeased various issues of bonds by purchasing U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide future debt service until the call dates. As a result, those bonds are considered to be defeased and the liability has been removed from the Hoover Uprating Fund. Accordingly, these trust account assets and related liabilities are not included in the accompanying financial statements.

Summary of Revenue Bonds

The following schedule summarizes revenue bonds outstanding at June 30, 2009 (expressed in thousands):

Revenue Bonds Outstanding	Dates Issued	Maturity Dates	Interest Rates	Outstanding Balance at June 30, 2009
Component Units:				
Water Infrastructure Finance Authority	1995-2008	2010-2029	2.00-5.63%	\$ 742,840

H. CONDUIT DEBT

During the year ended June 30, 2009, the Greater Arizona Development Authority (GADA) issued \$26.725 million of Bonds, Series 2009A for public infrastructure projects in the communities of the Mayer Fire District, Pinal County, and the City of San Luis. During the year ended June 30, 2009, the GADA issued \$16.300 million of Bonds, Series 2009B for public infrastructure projects in the communities of the City of El Mirage and the Town of Sahuarita. The GADA's bond structure allows it to lower borrowing costs for Arizona's communities by issuing and selling bonds tax-exempt and by sharing financing costs among several borrowers. Eligible applicants include cities, towns, counties, Indian tribes, and certain special districts. Principal and

STATE OF ARIZONA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

interest are payable semiannually. Loans are secured by the Pledged Collateral Reserve Fund, a requirement that is calculated and deposited by the GADA from the GADA Fund, which is held by the State Treasurer. Some borrowers also have separate, additional reserve funds, which are held by the Trustee. An intercept mechanism of state-shared revenues for political subdivisions enhances the security of the GADA bonds.

In previous years, the State appropriated a total of \$20.000 million to the GADA for the express purpose of securing bonds issued by the GADA. As of June 30, 2009, the remaining balance in the appropriations account was \$14.252 million including interest earned. Although issued in the name of the GADA, loans funded through the GADA bonds are solely the obligation of the underlying borrowers and are documented by loan repayment agreements. Pursuant to ARS §41-1554.08, the GADA's bonds do not constitute nor create a general, special, or other obligation or other indebtedness of the State or any governmental unit within the meaning of any constitutional or statutory debt limitation. The bonds do not constitute a legal debt of the State and are not enforceable against the State. The only exposure to the State is related to the *restricted* net assets of \$9.860 million in the Pledged Collateral Reserve Fund. As such, the Series 2009A and 2009B bonds do not constitute a legal debt of the State and are not enforceable against the State. At June 30, 2009, the total outstanding face value of all bonds issued by the GADA was \$368.335 million.

I. RELATED PARTY TRANSACTIONS

The UMC and the U of A both provide and receive services from each other under various contracts. Payments to the U of A by the UMC include mission and program support, resident and intern salaries, utilities, ground maintenance, mailroom operations, and various administrative functions. Amounts paid to the U of A for these services were approximately \$27.556 million for the year ended June 30, 2009. At June 30, 2009, the amount outstanding for mission support agreements is \$4.920 million.

The UMC has entered into contractual agreements with the U of A to provide support for the academic mission of the U of A. Charges to the U of A for such services and facilities provided by the UMC were approximately \$9.040 million for the year ended June 30, 2009. This amount is included in sales and charges for services in the accompanying financial statements.

The UMC also has an agreement to provide health care services to members of an AHCCCS health plan owned by University Physicians Healthcare (UPH) called University Family Care (UFC). UFC, an AHCCCS-funded health maintenance organization (HMO), manages approximately 15,000 members. The UMC provides health care services to UFC members in the normal course of business. The UMC operates under a contract with UFC at rates that are substantially the same as rates received from other unaffiliated AHCCCS HMOs. Such rates are generally at or below the maximum rates established by AHCCCS and do not cover the UMC's costs of providing care to UFC members. Sales and charges for services include \$20.312 million from this payor, based on negotiated rates.

During fiscal year 2009, AHCCCS committed approximately \$28.000 million to the UMC related to the UMC's eligible unreimbursed Indirect Medical Education (IME) costs. Of the \$28.000 million, \$8.000 million was paid to the UMC in 2009, with the remainder received by the UMC subsequent to year-end. The availability of these funds was made possible due to the UMC's unreimbursed IME costs and facilitated by matching funds made available by the U of A and Pima County. Pursuant to a separate but related agreement, the UMC agreed to pay \$21.000 million of the funds to UPH in support of unreimbursed costs of residents and fellows incurred by UPH. At June 30, 2009, a receivable in the amount of \$23.000 million is recorded in the accompanying financial statements. At June 30, 2009, accounts payable included \$14.500 million due to UPH under this agreement.

J. SUBSEQUENT EVENTS

In July 2009, the WIFA issued \$148.785 million of Water Quality Revenue Bonds, Series 2009A and \$39.655 million of Water Quality Revenue Refunding Bonds, Series 2009A, due in annual principal installments ranging from \$3.000 million to \$11.610 million, plus semi-annual interest ranging from 2.00% to 5.00% through October 1, 2029.

 REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULES
 JUNE 30, 2009

A. RECONCILIATION OF BUDGETARY TO GAAP EXPENDITURES

The accompanying Budgetary Comparison Schedules for the General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund present comparisons of the legally adopted budget with actual expenditure data on the budgetary basis. The original budget represents any appropriation bills passed by June 30, 2008 that affect available appropriations during fiscal year 2009. The final budget represents any appropriation bills passed during fiscal year 2009 for fiscal year 2009 plus the original budget. Appropriation bills passed after the end of fiscal year 2009 for fiscal year 2009 would also be included in the final budget.

The Budgetary Comparison Schedules present actual amounts on the State's budgetary basis for expenditures only. The Schedules include appropriations authorized in one fund and transferred, by legislation, to another fund. The State does not have a legally adopted budget for revenues; therefore, only expenditures are presented on the Budgetary Comparison Schedule, Expenditures for the General Fund and the Transportation and Aviation Planning, Highway Maintenance and Safety Fund. As the budgetary and GAAP presentations of actual data differ, a reconciliation of the two follows (amounts expressed in thousands):

	<u>General Fund</u>	<u>Transportation & Aviation Planning, Highway Maintenance & Safety Fund</u>
Uses/outflows of resources		
Actual expenditure amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	\$ 15,157,662	\$ 901,280
Differences – budget to GAAP:		
Increase in unpaid incurred expenditures from fiscal year end 2008 to fiscal year end 2009.	372,040	390,827
Increase in unpaid payroll expenditures from fiscal year end 2008 to fiscal year end 2009. For budgetary reporting, final June 2009 payroll expenditures were charged to fiscal year 2010 budget.	7,415	-
Distributions to counties and cities of sales taxes are recognized as expenditures on the modified accrual basis, but have no effect on budgetary expenditures.	936,140	-
Distribution to counties and cities for Urban Revenue Sharing, derived from the State's income tax collections, is recognized as an expenditure on the modified accrual basis, but has no effect on budgetary expenditures.	727,677	-
Capital leases and installment purchase contracts initiated during the fiscal year, which are not reported in budgetary expenditures.	3,134	-
Programs which are not controlled by legislative appropriations but have disbursed cash or incurred obligations during fiscal year 2009.	5,057,905	1,603,657
Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes.	<u>(1,126,584)</u>	<u>(605,768)</u>
Total expenditures, as reported on the Statement of Revenues, Expenditures and Changes in Fund Balances	<u>\$ 21,135,389</u>	<u>\$ 2,289,996</u>

There were no expenditures in excess of appropriations or allotments in the individual budget accounts for the year.

STATE OF ARIZONA
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULES
JUNE 30, 2009

B. BUDGETARY BASIS OF ACCOUNTING

Formulation of the budget begins with the preparation of estimates of expenditure requirements by the head of each budgeted agency and institution. These estimates are submitted no later than September 1 of each year to the Governor's Office of Strategic Planning and Budgeting, unless an extension is granted for up to an additional 30 days. The budget is prepared by line item and/or program elements for each agency.

The budget document, as finally developed by the Governor, must be submitted to the Legislature no later than five days after the regular session convenes. The Legislature must approve the budget by passing a general and a capital outlay appropriation bill and various omnibus reconciliation bills, which are used for statutory adjustments that must be implemented to carry out the budget. The Governor may veto any item in an appropriation bill. Such vetoes are subject to legislative overrides. The budget can be amended throughout the year by special legislative appropriations and/or budget transfers. The State's Constitution prohibits the appropriation of certain state revenues (primarily tax and fee collections) from exceeding 7.41% of Arizona personal income as estimated by the Economic Estimates Commission.

The State prepares its operating budget on the cash basis of accounting. Encumbrances as of June 30 can be liquidated during an administrative period of up to four weeks known as the 13th month. At the time of the appropriation bill's passage, estimates prepared by legislative and executive branch professional staff assure the State Legislature that adequate revenues will be available to meet the level of appropriations approved. Anticipated revenue is estimated on the cash basis but is not part of the legally adopted budget. Consequently, the accompanying Budgetary Comparison Schedules only present budget to actual expenditure comparisons.

The Budgetary Comparison Schedules present all appropriation line items as passed by the State Legislature in order to demonstrate compliance with the legal level of budgetary control.

The State budgets on both an annual and biennial basis. Laws 1997, Chapter 210 required appropriated biennial budgets for all state agencies. In biennial budgets, an agency receives a separate appropriation for each of two fiscal years. For the "larger" seventeen state agencies, Laws 2002, Chapter 210 returned their budgets to a "one" year cycle beginning with the 2003 Legislative Session (fiscal year 2004 budget request).

The budget format used by the State Legislature determines how an agency's appropriation appears in the General Appropriation Act. A less detailed format provides an agency with more discretion in implementing the budget. Conversely, a more detailed format may require an agency to use formal processes for redirecting appropriated funding. Among the possible format choices are the following:

Lump Sum – The appropriation of an agency for each fiscal year consists of a single dollar amount, thereby allowing the agency to direct funds to its activities at its own discretion, without further Legislative or Executive Branch review. Within this format, any programs or Special Line Items may be listed separately.

Modified Lump Sum – The appropriation of an agency for each fiscal year consists of at least three lines: Personal Services, Employee Related Expenditures, and All Other Operating Expenditures. Any Special Line Items would be listed separately. Under this format, pursuant to ARS §35-173, an agency must seek approval of the Joint Legislative Budget Committee (JLBC) before moving any funding into or out of the Personal Services and Employee Related Expenditures line items. Any other funding transfers would require approval by the Arizona Department of Administration (ADOA), but not the JLBC. ADOA funding transfers require approval from the JLBC.

Detailed Line Item – The agency appropriation for each fiscal year consists of each line item listed in the Appropriations Report including Professional and Outside Services, Travel, Other Operating Expenditures, Equipment, Food, and any Special Line Items. The same rules govern Personal Services and Employee Related Expenditures funding transfers as noted in the Modified Lump Sum description. This appropriation format requires an agency to seek ADOA approval before initiating funding transfers between all other line items.

During the fiscal year, \$465.198 million in supplemental appropriations, net of mid-year reversions and adjustments, were provided to major and non-major governmental funds primarily for fund transfers to the General Fund to address the State's budget impact created by revenue shortfalls. The General Fund appropriations decreased by \$55.006 million and the

STATE OF ARIZONA
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULES
JUNE 30, 2009

Transportation and Aviation Planning, Highway Maintenance and Safety Fund appropriations increased by \$112.620 million, and those amounts are included in the Budgetary Comparison Schedules.

State agencies are responsible for exercising budgetary control and ensuring that expenditures do not exceed appropriations. The ADOA's General Accounting Office exercises oversight and does not disburse funds in excess of appropriations.

The Governor shall have in continuous process of preparation and revision a tentative budget report for the next two ensuing years for which a budget report is required to be prepared.

Whenever the expenses of any fiscal year shall exceed the income, the Legislature *may* provide for levying a tax for the ensuing fiscal year sufficient, with other sources of income, to pay the deficiency, as well as the estimated expenses of the ensuing fiscal year.

All expenditures of the State's money must be authorized by law. Authorization can be granted directly by law or contingent upon appropriation from the State Legislature. Periodically, the State Legislature may appropriate monies for program expenditures already authorized by law, resulting in duplicate spending authority. In appropriating monies, the State Legislature has, in some cases, included external funding sources as a portion of an agency's total program expenditure authorization (budget) and has identified the external funding sources as an offset against the program appropriations total in order to reflect the State funding amount. An example of this is found in the \$283.381 million Department of Health Services Children's Behavioral Health State Match for Title XIX on **page 141**. Accordingly, sometimes program expenditures may not exhaust specific legislative appropriations. To properly present the total budget (appropriation) information, in relationship to "actual" expenditure amounts, duplicate expenditure authorizations have been eliminated from the General Fund's budget (appropriation) totals on **page 148**.

Information About Infrastructure Assets Reported Using the Modified Approach

As allowed by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments* (GASB 34), the State of Arizona reports its roads and bridges using the modified approach. Assets accounted for under the modified approach include 6,753 center lane miles (18,544 travel lane miles) of roads and 4,648 bridges that the State is responsible to maintain.

In order to utilize the modified approach, the State is required to:

- Maintain an asset management system that includes an up to date inventory of eligible infrastructure assets
- Perform condition assessments of eligible assets and summarize the results using a measurement scale
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the State
- Document that the assets are being preserved approximately at or above the established condition level

As adopted by the State Transportation Board on an annual basis, the Five-Year Transportation Facilities Construction Program (Program) contains estimated expenditures for highway system improvements and the preservation of existing roadways and bridges. Both of these factors impact the condition assessment of the roads and bridges as described in the following sections. The Program in effect for fiscal year 2010 and beyond was adopted by the Transportation Board on June 19, 2009.

This Program is a dynamic instrument and adjustments are made to the annual plans based on the needs of the State to maintain the condition level of the roads and bridges at a level equal to, or greater than, the goals established by the State. In addition, not only are adjustments made during the life of the Program, circumstances may require that refinements to the individual components of the Program be made during the fiscal year.

In comparing Estimated to Actual Expenditures in the tables that follow, significant variances can occur. These variances are primarily due to the methodology used in the preparation of the Program. In this Program, the Estimated Expenditures for the current year are based on “programmed” projects which may or may not be spent in the current year of the Program. “Programmed” expenditures consist of those items that are planned for the future and contracts that have not yet been awarded. Furthermore, the Actual Expenditures will include projects that were “programmed” for a prior year’s Estimated Expenditures but which did not occur, or were not completed, in the prior year.

The following information pertains to the condition assessment and maintenance of infrastructure assets and reflects the State’s success in achieving condition levels that exceed the established levels.

Roads

The mission of the Arizona Department of Transportation’s (ADOT) Pavement Management Section (PMS) is to develop and provide a cost effective pavement rehabilitation construction program that preserves the State’s investment in its highway system and enhances public transportation and safety. The requirements of GASB 34 and the ADOT PMS both work toward the same basic goal, the efficient, effective management of the State’s assets to produce long-term benefits, while minimizing expenditures.

The PMS has developed performance goals for the condition level of the pavement in the State’s highway system. These goals require periodic assessment of pavement conditions and the budget level needed to meet that goal. The goal is expressed as a measure called “Serviceability”, which can be defined as the ability of a pavement to serve the traveling public (as documented in 1961 after the American Association of State Highway and Transportation Officials (AASHTO) Road Test, 1956-1961). Serviceability is based on detailed measurements of objective features of the pavement and many surveys since the original road test have shown that these measurements closely track the subjective opinion of the traveling public. Most commonly, this number is called

STATE OF ARIZONA
 REQUIRED SUPPLEMENTARY INFORMATION
INFRASTRUCTURE ASSETS
 JUNE 30, 2009

the “Present Serviceability Rating” (PSR). PSR is a five-point scale (5 excellent, 0 impassable), similar to the Weaver/AASHTO Scale shown as follows:

Numerical Rating	PSR	Weaver/AASHTO Scale
5	Excellent	Perfect
4	Good	Very Good
3	Fair	Good
2	Poor	Fair
1	Very Poor	Poor
0	Impassable	Very Poor

The goal of the State is to maintain a condition level (PSR) rating of 3.23 or better for all roads in the State’s highway system. Annually, Transportation Material Technicians drive over the system with inertial profiling equipment and measure the roughness of the pavement. This process is continuous throughout the year in order to assess the condition level of all pavement on an annual basis. As of the end of fiscal year 2009, an overall rating of 3.74 was achieved, as shown in the following graph:

Figure 1

Preservation of the roads is accomplished through programs managed primarily by the ADOT PMS, as well as other units within the ADOT. The estimated (as specified in the Program as programmed amounts) and actual expenditures for fiscal years 2005 through 2009 were as follows:

Fiscal Year	Estimated Expenditures (in millions)	Actual Expenditures (in millions)
2005	\$235.7	\$195.0
2006	\$218.5	\$211.5
2007	\$216.4	\$196.5
2008	\$260.7	\$247.9
2009	\$264.4	\$236.0

STATE OF ARIZONA
 REQUIRED SUPPLEMENTARY INFORMATION
INFRASTRUCTURE ASSETS
 JUNE 30, 2009

Bridges

Bridges constitute a significant portion of all infrastructure assets in Arizona. As of June 30, 2009, the State owns and maintains 4,648 bridges with an approximate total deck area of 44,441,921 square feet. Bridges, for purposes of this report, include all structures erected over an opening or depression with a centerline of 20 feet or more. Information related to these bridges is stored and updated in the Arizona Bridge Information and Storage System (ABISS). This system is used to efficiently manage the bridge inventory through storing all bridge related data and assisting bridge engineers in arriving at appropriate bridge preservation decisions. Also, ABISS is used for reporting bridge inventory and condition, on a biennial basis, to the Federal Highway Administration (FHWA).

A Condition Rating Index (CRI) is used to track the condition of the bridge network. The CRI is based on four selected bridge inspection condition ratings, which in turn are based on standards established in the FHWA’s “Recording and Coding Guide for the Structural Inventory of the Nation’s Bridges.” The four selected condition ratings that are included in the CRI computation are: the bridge joints condition, the deck condition, the super-structure condition, and the sub-structure condition. The bridge joints condition rating is an Arizona specific rating item not included in the FHWA condition rating guidelines, whereas the three other condition ratings are federally mandated condition ratings. The CRI is computed by subtracting from one, the ratio of the sum of the deck areas of all bridges with a condition rating of four or less, which indicates that the rated element is at best in a poor condition, to the total sum of the deck areas. The rating system in this guide is as follows:

Numerical Rating	Condition Rating
9	Excellent
8	Very Good
7	Good
6	Satisfactory
5	Fair
4	Poor
3	Serious
2	Critical
1	Imminent Failure

Management of the bridge inventory is a major function of the ADOT’s Bridge Group and regularly scheduled biennial inspections are made of all bridges. A civil or structural engineer, licensed to practice in Arizona, performs these inspections. It is the policy of the State to maintain State highway bridges so that the CRI exceeds 92.5%. In fiscal year 2009, the CRI was computed at 93.4%.

Figure 2

STATE OF ARIZONA
 REQUIRED SUPPLEMENTARY INFORMATION
INFRASTRUCTURE ASSETS
 JUNE 30, 2009

Bridges represent a major public investment and their inspection and maintenance is an essential function of the State in its mission of providing products and services for a safe, efficient, and cost effective transportation system. Figure 3 indicates that approximately 59% of the bridges in the State were constructed prior to the 1970s while only 21% have been constructed in the last two decades.

Age of the ADOT's Bridge Population

Figure 3

Preservation of the bridges is accomplished through programs managed by the Bridge Group. The estimated (as specified in the Program as programmed amounts) and actual expenditures for fiscal years 2005 through 2009 were as follows:

Fiscal Year	Estimated Expenditures (in millions)	Actual Expenditures (in millions)
2005	\$ 7.4	\$11.0
2006	\$10.6	\$11.3
2007	\$17.1	\$22.5
2008	\$13.4	\$18.1
2009	\$14.3	\$17.3

COMBINING FINANCIAL STATEMENTS AND SCHEDULES

NON-MAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds

The Debt Service Funds account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs.

Capital Projects Funds

Capital Projects Funds account for financial resources used to acquire or construct major capital facilities (other than those financed by Proprietary Funds, Pension Trust Funds or Component Units).

NON-MAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

The Public Safety and Correctional Programs Fund accounts for law enforcement, military, custody, and related services provided to the general public.

The Environmental Protection Fund accounts for the protection of the State's public health by administering the State's environmental quality laws and delegating federal programs to prevent, control, and abate pollution of our air, water, and land resources.

The Healthcare and Social Services Fund accounts for health and welfare services provided to the general public.

The Tobacco Tax and Healthcare Fund accounts for the receipt of monies levied on tobacco products. The monies are used for health education programs; research, prevention and treatment of tobacco related diseases; to increase the quality of, and access to, the early childhood development and health system that ensures a child entering school comes healthy and ready to succeed; and for medically needy healthcare programs.

The Judicial and Legal Services Fund accounts for the anti-racketeering, consumer protection, consumer fraud, anti-trust, and collections enforcement programs of the Attorney General's Office and statewide court improvement functions supervised by the Arizona Supreme Court.

The Regulating and Licensing Fund accounts for inspection and regulatory services provided to the general public.

The Game and Fish Fund accounts for the receipt of monies collected by the Department of Game and Fish for various hunting and fishing licenses, for the purpose of conserving, enhancing, and restoring Arizona's diverse wildlife resources and habitats, as well as providing safe watercraft and off-highway vehicle recreation.

The State Parks Development Fund accounts for the receipt of monies collected by the State Parks Fund for the purpose of acquiring and developing State park lands, sites and facilities.

The Business Development Fund accounts for the promotion of statewide economic and community development, which supports a globally competitive Arizona.

The Educational Programs Fund accounts for supplemental building needs and instructional improvement programs specifically identified in a voter initiative that enacted a six-tenth of one percent statewide sales tax dedicated to education functions. The Educational Programs Fund supports programs from the kindergarten through university educational levels.

The Groundwater Protection and Conservation Fund accounts for strategic water resources planning, Colorado River water management, drought management planning, dam safety, flood mitigation, administration of the Arizona Groundwater Management Code, and administration of water rights. These programs are the responsibility of the Department of Water Resources.

The Clean Elections System Fund accounts for fines and fees collected to pay for campaign expenses of statewide candidates and State legislative candidates who choose not to accept private source campaign funds. The fund was established as a result of a voter initiative.

NON-MAJOR GOVERNMENTAL FUNDS CAPITAL PROJECTS FUNDS

The Department of Transportation Financed Fund administers the proceeds from the Highway Revenue Bonds issued by the Arizona Department of Transportation Board. These monies are expended for the construction of federal, state, and local highways.

The Grant Anticipation Notes Financed Fund administers proceeds from Arizona Transportation Board Grant Anticipation Notes. These monies are expended for the acquisition of right-of-way purchase, or construction of certain controlled access highways within Maricopa County.

The Certificates of Participation Financed Fund administers the proceeds from the certificates of participation issued by the State of Arizona (acting by and through the Director of the Department of Administration). These monies are expended on various projects including new building construction and the development of the Human Resource Information System.

The Maricopa Regional Area Road Debt Financed Fund (MRARF) administers the bond proceeds from the Transportation Board of the State of Arizona Transportation Excise Tax Revenue Bonds. These monies are spent on the construction of State highways within Maricopa County.

NON-MAJOR ENTERPRISE FUNDS

Enterprise Funds account for operations (a) financed and operated in a manner similar to private business enterprises, where the State intends that the cost of providing goods or services to the general public be financed or recovered primarily through service charges, or (b) where the State decides that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The Arizona Industries for the Blind Fund accounts for the manufacturing, sale, distribution, and marketing of products manufactured by employees at training centers, workshops, business enterprises and home industries programs for the training and employment of adaptable visually impaired persons.

The Arizona Correctional Industries Fund employs prison inmates in its manufacturing, service, and agricultural operations for the sale of goods and services primarily to other State agencies (including the Arizona Department of Corrections) and political subdivisions.

The Arizona Highways Magazine Fund publishes and markets the Arizona Highways Magazine and various other products that promote the State of Arizona.

The Coliseum & Exposition Center Fund provides rental space to a variety of entertainment and promotional lessees, and sponsors the annual State Fair.

The Highway Expansion & Extension Loan Program provides the State and communities in Arizona a new financing mechanism to stretch limited transportation dollars and bridge the gap between needs and available revenues.

The Healthcare Group of Arizona administers prepaid medical coverage primarily to small, uninsured businesses with 50 or fewer employees and employees of political subdivisions. The Healthcare Group of Arizona processes premium billing, collections and fund disbursements, performs data analysis, and is responsible for the regulatory oversight of the health plans.

The Other Enterprise Funds consist of the State Hospital Revolving Fund, the State Home for Veterans Trust Fund, and the Arizona Beef Council.

INTERNAL SERVICE FUNDS

Internal Service Funds account for the financing of goods and services provided by one State department or agency to other State departments or agencies on a cost-reimbursement basis.

The Risk Management Fund provides insurance coverage to all State agencies using an optimal combination of self-insurance and private excess insurance. It includes the Workers' Compensation section that receives monies from State agencies and uses these monies to pay for insurance and risk management services including loss control services and self-insured liability losses.

The Transportation Equipment Fund administers the purchase, storage and distribution of supplies, equipment and furniture for other Department of Transportation Funds.

The Employee Benefits Fund (HITF) administers the State's benefits program available to State employees and retirees.

The Telecommunication Fund receives monies from State agencies for services related to administering the State's contracts for the installation and maintenance of telecommunications equipment through the Telecommunications Program Office.

The Technology Fund receives monies from State agencies for services related to the implementation and operation of automation programs throughout the State.

The Retiree Sick Leave Fund accounts for monies paid out to retirees for their accumulated sick leave.

The Motor Pool Fund receives monies from State agencies for the use of State vehicles and uses these monies for operation of the State Motor Pool.

PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

Pension Trust Funds account for transactions of the four public employee retirement systems for which the State acts as trustee.

The Arizona State Retirement System (ASRS) is a cost-sharing, multiple-employer pension system that benefits employees of public schools, the State and its political subdivisions.

The Public Safety Personnel Retirement System (PSPRS) is an agent multiple-employer pension system that benefits fire fighters and police officers employed by the State and its political subdivisions.

The Elected Officials' Retirement Plan (EORP) is a cost-sharing, multiple-employer pension plan that benefits all elected State and county officials and judges and certain elected city officials.

The Corrections Officer Retirement Plan (CORP) is an agent multiple-employer pension plan that benefits town, city and county detention officers and certain employees of the State's Department of Corrections and Department of Juvenile Corrections.

Other Employee Benefit Trust Funds account for health insurance premium subsidies and long-term disability benefits paid by the ASRS to State employees and employees of other governmental entities participating in the plans.

The Health Benefit Supplement Fund is a benefit cost-sharing, multiple-employer post-employment benefit plan that provides for health insurance premium subsidies to eligible retired and disabled members.

The Long-Term Disability Fund is a benefit cost-sharing, multiple-employer post-employment benefit plan that provides for long term disability benefits to eligible participants.

INVESTMENT TRUST FUNDS

Investment Trust Funds account for assets held by the State in a trustee capacity for local governments and political subdivisions of the State of Arizona which have elected to invest idle cash with the State Treasurer's Office. The Treasurer acts as trustee for the deposits made by participants.

Central Arizona Water Conservation District is an Investment Trust Account composed of corporate debt and United States Government securities. The Central Arizona Water Conservation District is the only participant in the account.

Local Government Investment Pool is an Investment Trust Account composed of corporate debt, negotiable certificates of deposit, and United States Government securities.

Local Government Investment Pool – Long-Term is an Investment Trust Account composed of corporate debt, negotiable certificates of deposit, and United States Government securities.

Local Government Investment Pool – Government is an Investment Trust Account composed of repurchase agreements and United States Government securities. All investments of the fund are backed by the full faith and credit of the United States Government.

Lehman Brothers Pool is an Investment Trust Account composed of the Local Government Investment Pool's share of the Lehman Brothers bond value that was transferred to this pool due to Lehman Brothers filing for Chapter 11 bankruptcy. The transfer was made to provide for the decline in fair value of the Lehman Brothers securities held by the Local Government Investment Pool.

AGENCY FUNDS

Agency Funds account for the receipt and disbursement of various taxes, deposits, deductions, property collected by the State, and payment of the health insurance subsidy by the PSPRS, the EORP, and the CORP, where the State acts as an agent for distribution to other governmental units or organizations.

The Treasurer Custodial Securities Fund consists of securities held by the State Treasurer for various State agencies as required by statute.

The Other Treasurer Funds account for other various deposits that are required to be made by other governmental units or organizations with the State Treasurer.

The Health Insurance Subsidy Fund accounts for other post-employment benefit payments of the health insurance subsidy by the PSPRS, the EORP, and the CORP for eligible retired and disabled members.

The Other Funds consist of various funds where the State acts as an agent for distribution to other governmental units or organizations.

NON-MAJOR UNIVERSITIES – AFFILIATED COMPONENT UNITS

Component units affiliated with the Universities are legally separate, tax-exempt organizations controlled by separate Boards of Directors that meet the criteria established in GASB 39, with the exception of the Collegiate Golf Foundation, University Public Schools, Inc. (UPSI), and University of Arizona Campus Research Corporation (CRC). The Collegiate Golf Foundation is included because it is a legally separate organization that the State believes would be misleading to exclude due to its financial relationship to the State. The UPSI is included because it is a legally separate, tax-exempt organization that the State believes would be misleading to exclude due to its close affiliation with the State. The CRC is included because the U of A appoints a majority of the board of directors and approves the budget; the U of A can thus impose its will on the CRC.

The Northern Arizona University Foundation receives gifts and bequests, administers and invests securities and property, and disburses payments to and on behalf of the NAU for advancement of its mission.

The Northern Arizona Capital Facilities Finance Corporation was established for the purpose of acquiring, developing, constructing, maintaining and operating student housing and other capital facilities and equipment for the use and benefit of the NAU's students.

Mesa Student Housing, LLC provides facilities for use by students of the ASU.

Sun Angel Foundation receives funds primarily through donations and dues, and contribute funds to the ASU for support of various programs.

Sun Angel Endowment receives funds primarily through donations and dues, and contribute funds to the ASU for support of various programs.

The Collegiate Golf Foundation operates an ASU-owned golf course.

Arizona State University Research Park, Inc. is developing a research park to promote and support research activities in coordination with the ASU.

The Arizona State University Alumni Association receives funds primarily through donations and dues, and contribute funds to the ASU for support of various programs.

Downtown Phoenix Student Housing, LLC provides facilities for use by students of the ASU.

University Public Schools, Inc. operates a public school designed to be on the forefront of education innovation and improvement, with the goal of developing educational models that can be scaled across the State and nation to improve the academic achievement of children.

The University of Arizona Law College Association was established to provide support and financial assistance to the College of Law at the U of A. The Law Association funds provide support to the College on many levels, from endowed student scholarships to named faculty professorships.

The University of Arizona Campus Research Corporation was established to assist the U of A in the acquisition, improvement, and operation of the U of A Science and Technology Park and related properties.

The University of Arizona Alumni Association was established to serve the U of A and its graduates, former students, and friends by attracting, organizing and encouraging them to advance the U of A's missions - teaching, research, and public service.

STATISTICAL SECTION

(Not Covered by the Independent Auditors' Report)

STATISTICAL SECTION

This part of the State of Arizona's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Financial Trends – *Schedules 1 thru 4* contain trend information to help the reader understand how the State's financial performance and well-being have changed over time.

Revenue Capacity – *Schedules 5 thru 9* contain information to help the reader assess the State's most significant own-source revenues, the sales tax, and personal income tax.

Debt Capacity – *Schedules 10 thru 21* present information to help the reader assess the affordability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.

Demographic and Economic Information – *Schedules 22 and 23* offer demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place and to help make comparisons over time and among other governments.

Operating Information – *Schedules 24 thru 26* contain service and infrastructure data to help the reader understand how the information in the State's financial report relates to the services the State provides and the activities it performs.

STATE OF ARIZONA
SCHEDULE 1
NET ASSETS BY COMPONENT (1)
FOR THE LAST EIGHT FISCAL YEARS (2)
FISCAL YEAR ENDED JUNE 30, 2009
(Expressed in Thousands)

	Fiscal Year				
	2009	2008	2007, as restated	2006, as restated	2005, as restated

Loans and other financial assistance (5)	75,069	74,115	71,211	67,423	64,875
Other purposes (5)	437,656	334,425	161,929	86,407	88,992
Unrestricted	(2,607,720)	(916,892)	909,983	912,979	(379,267)
Total Primary Government Net Assets	\$ 18,891,650	\$ 21,570,207	\$ 21,906,408	\$ 19,899,071	\$ 16,789,611

- (1) This schedule reports using the accrual basis of accounting.
- (2) The State implemented GASB Statement 34 in fiscal year 2002. Therefore, ten years of data is not available, but will be accumulated over time.
- (3) For fiscal year 2006, net assets for governmental activities were increased by the capitalization of \$302,375 of capital assets that were previously recorded as transportation expenses.
- (4) For fiscal year 2007, the \$442,029 increase was primarily due to the transfer of \$245,000 of General Fund monies in order to accelerate the construction of certain critical projects on the State highway system, and \$185,000 in unspent bond proceeds related to highway construction.
- (5) For fiscal year 2002, net assets restricted for expendable University funds of \$130,735 and for nonexpendable University funds of \$137,854 were classified as net assets restricted for loans and other financial assistance of \$175,661 and for other purposes of \$92,928.

- (1) This schedule reports using the accrual basis of accounting.
- (2) The State implemented GASB Statement 34 in fiscal year 2002. Therefore, ten years of data is not available, but will be accumulated over time.
- (3) For fiscal year 2006, net assets for governmental activities were increased by the capitalization of \$302,375 of capital assets that were previously recorded as transportation expenses.
- (4) The Industrial Commission Special Fund's cost of sales and benefits expense decreased \$125,828 during fiscal year 2006, primarily due to a decrease in insolvent carrier liabilities. During fiscal years 2005 and 2004, insolvent carrier liability increased, primarily as the result of \$67,423 and \$107,600, respectively, in Arizona workers' compensation claims from the defunct California domiciled Fremont Companies.
- (5) \$31,804 of transportation's charges for services for fiscal year 2005 were classified as motor vehicle and fuel tax revenues.
- (6) Beginning in fiscal year 2004, operating grants and contributions included Indian gaming revenue and tobacco settlement revenue. For fiscal year 2004, gaming revenue was \$57,517 and this was the first year that gaming revenue was earned, as a result of Proposition 202. For fiscal year 2004, tobacco settlement revenue was \$91,601. Prior to fiscal year 2004, tobacco settlement revenue was included in miscellaneous general revenues.
- (7) Beginning in fiscal year 2005, settlement income for the Industrial Commission Special Fund is classified as a program revenue, charges for services. Prior to this, it was classified as a miscellaneous general revenue. In fiscal year 2005, settlement income was \$41,554.
- (8) In fiscal year 2002, private gifts not restricted for capital purposes of \$83,100 for the Universities were classified as general revenues. In future fiscal years, these gifts are classified as program revenues.
- (9) Prior to fiscal year 2004, tobacco tax revenue was included in other tax revenue.
- (10) Fiscal year 2007 unrestricted investment earnings were reduced by \$17,771 due to reclassifying the Greater Arizona Development Authority from the primary government to a component unit.

DEBT SERVICE AS A PERCENTAGE OF NONCAPITAL EXPENDITURES	1.9%	2.0%	1.9%	2.2%	3.1%

- (1) This schedule reports using the modified accrual basis of accounting.
- (2) Due to changes in the State's fund structure initiated when GASB Statement 34 was implemented, the changes in fund balance information is available only beginning in fiscal year 2002.
- (3) Prior to fiscal year 2004, tobacco tax revenue was included in other tax revenue.
Increase from fiscal year 2006 to fiscal year 2007 primarily due to Proposition 203, implemented December, 2006.
- (4) Increase from fiscal year 2006 to fiscal year 2007 primarily due to increase in Land Endowment fair market value of investments, larger cash balances available to invest, and market interest rates.
- (5) Beginning in fiscal year 2004, Indian gaming revenue was earned as a result of Proposition 202.
- (6) Prior to fiscal year 2004, tobacco settlement revenue was included in other revenue.
- (7) For fiscal year 2006, transportation expenditures were reduced and capital outlay was increased by \$302,375 for addition of capital assets that were previously recorded as transportation expenditures.
- (8) In fiscal year 2008, the Greater Arizona Development Authority Fund was reclassified from a special revenue fund to a component unit. Fiscal year 2007 earnings on investments has been restated to reflect this change.
- (9) In fiscal year 2009, "Proceeds from sale of trust land" was moved from "Other financing sources (uses)" to "Revenues."

Direct sales tax rate (8)	5.60%	5.60%	5.60%	5.60%	5.60%	5.60%

- (1) Net taxable sales are based upon tax receipts.
- (2) The transporting/towing and railroads/aircraft business classifications have been combined into one category and renamed "transporting."
- (3) Effective July 13, 1995, the tax rate on timber severance was changed to a dollar amount per 1,000 board feet. Timber severance includes only sales subject to the repealed rate.
- (4) Local advertising was phased out on January 1, 1986.
- (5) Commercial lease rate dropped to 0% effective July 1, 1997.
- (6) Feed wholesale dropped to 0% effective July 17, 1994 and was repealed effective October 1, 1994.
- (7) Agriculture equipment was phased out on July 1, 1988 and is not a current business classification.
- (8) A significant portion of the revenue base was subject to a sales tax rate of 5.6% for fiscal years 2002 thru 2009 and 5.0% for most of fiscal year 2001 (rate increased to 5.6% during fiscal year 2001 on June 1, 2001). For fiscal years 2000 thru 2009, the tax rate for non-metal mining, oil and gas was 3.125%, the mining severance was 2.5%, the hotel/motel tax was 5.5%, and the jet fuel and jet fuel use tax was \$.0305 per gallon. Per the Arizona Constitution, Article 9, Section 22, the Legislature can raise tax rates with an affirmative vote of two-thirds of the members of each house.
- (9) The names of the ten largest revenue payers are not available. Therefore, the categories are intended to provide alternative information regarding the sources of the State's revenue.
- (10) Use tax-utilities was not reported prior to fiscal year 2008. Fiscal years 2004-2008 were reported in fiscal year 2008. Information prior to 2004 is not available.
- (11) Effective November 1, 2006, timbering severance, membership camping and rental occupancy were repealed.

Miscellaneous fees	-	-	3	-
Education tax (5)	558,900	10.42	-	-
Total (6)	\$ 5,365,043	100.00 %	\$ 3,602,039	100.00 %

- (1) Transporting/towing was combined with railroads/aircraft for confidentiality purposes beginning in fiscal year 2004.
- (2) Effective November 1, 2006 these rates were repealed.
- (3) Commercial lease rate dropped to 0% effective July 17, 1997.
- (4) Feed wholesale dropped to 0% effective July 17, 1994 and was repealed effective October 1, 1994.
- (5) The education tax is .6% of net taxable sales for most classifications. The ones that do not collect the education tax are nonmetal mining, oil and gas, mining and timbering severances, hotel/motel, rental occupancy, and jet fuel taxes. The Arizona Department of Revenue's annual report does not include the amount of education tax collected from each classification, rather it reports the total collected from all classifications. The education tax became effective June 1, 2001.
- (6) Does not reflect the balance of undistributed estimated payments at the end of fiscal year 2000.

\$150 and over	4.54%	4.54%	4.79%	5.04%	5.04%

- (1) Personal income tax revenue includes income tax collections and refunds, on a cash basis, for the fiscal year ending the following June 30.
- (2) Personal income is reported on a calendar basis. Years 1999 through 2007 have been revised to reflect revisions made by the U.S. Bureau of Economic Analysis.
- (3) The total direct rate for personal income is not available. Average effective rate equals tax collections for the fiscal year, ending the following June 30, divided by personal income.
- (4) Amounts shown are for single and married filing separate returns. For all other filing status returns, double the amounts for the income tax ranges. Per the Arizona Constitution, Article 9, Section 22, the Legislature can raise tax rates with a vote of two-thirds of the members of each house.

	\$ 1,249	\$ 1,057	\$ 976	\$ 953	\$ 990	\$ 933

Note: Details regarding the State's outstanding debt can be found in the notes to the financial statements.

- (1) The State of Arizona implemented GASB 34 in fiscal year 2002.
- (2) For fiscal years 2001 and prior, some or all of the premiums, discounts, or deferred amounts on refundings are combined in the respective revenue bond, grant anticipation note, or certificate of participation line items.
- (3) See Schedule 22 for personal income and population data. These ratios are calculated using personal income and population data for the calendar year that ends during that fiscal year. For example, fiscal year 2008 contains data for the calendar year ending December 31, 2007. Personal income amounts were revised by the U.S. Bureau of Economic Analysis for 2000-2008, which affected 2004-2008 debt ratios compared to the debt ratios reported in the fiscal year 2008 CAFR.

N/A = Not available

- (1) As stated in House Bill 2206 of the Second Regular Session of the Forty-seventh Legislature, the \$1.3 billion debt limit is eliminated from ARS §28-7510 and the amount that pledged monies are required to exceed the highest annual principal and interest payments is amended from two to three times. The general effective date of this change was September 21, 2006. Prior to September 21, 2006, Arizona Revised Statutes restricted the total principal amount of Arizona Highway Revenue Bonds that could be outstanding at any time, excluding refunded bonds, from exceeding \$1.3 billion. Also, the monies subjected to pledge for the preceding twelve months must have exceeded, by two times, the highest annual principal and interest payments on all of the outstanding Arizona Highway Revenue Bonds for the highest one year period during the life of the outstanding bonds.
- (2) For fiscal years 2000, information for calculating the legal debt margin information for the highest annual principal and interest payment limit is unavailable.
- (3) The Highest Annual Principal and Interest Payment debt limit is calculated by dividing pledged revenues for the Arizona Transportation Board Highway Revenue Bonds (see Schedule 15) by three for Fiscal year 2009 and 2008 or by two for Fiscal years 2007 and prior. Fiscal year 2005 pledged revenues are net of a \$118,000 distribution to the State General Fund.

STATE OF ARIZONA
SCHEDULE 25
OPERATING INDICATORS BY FUNCTION
FOR THE LAST TEN FISCAL YEARS (1)
FISCAL YEAR ENDED JUNE 30, 2009

FUNCTIONS/PROGRAMS	Fiscal Year						
	2009	2008	2007	2006	2005	2004	2003
General government:							
Number of tax returns received (in millions)	5.7	5.6	5.5	5.5	6.0	6.0	5.3
Health and welfare:							
Arizona Health Care Cost Containment System membership (2)	1,282,910	1,136,585	1,075,125	1,065,444	1,075,873	971,292	955,600
Average monthly number of recipients of temporary assistance for needy families	83,969	80,221	82,408	93,553	105,517	122,577	121,193
Average monthly number of persons receiving food stamp benefits	779,089	600,549	537,072	546,424	546,369	521,992	442,320
Inspection and regulation:							
Nonfatal occupational injuries and illnesses:							
Total recordable cases (in thousands) (3)	84.0	101.8	99.4	97.0	87.1	85.7	95.9
Incident rate per 100 full-time workers (3)	3.9	4.6	4.6	4.9	4.7	4.8	5.1
Education:							
Public school enrollment, grades K-12 (4)	1,062,618	1,132,963	1,106,207	1,084,247	1,043,704	1,002,630	970,283
Protection and safety:							
Number of miles patrolled by the Highway Patrol	N/A	21,410,696	20,282,212	19,703,282	19,922,704	19,229,079	18,363,977
State prison adult inmate population (5)	39,628	38,897	37,088	34,864	32,710	31,937	30,898
Transportation:							
Number of registered vehicles (6)	6,692,834	6,733,610	6,608,726	6,318,402	5,945,131	5,638,799	5,311,590
Number of driver licenses issued (7)	1,246,358	1,200,227	1,266,973	1,205,068	1,158,223	1,122,893	1,039,780
Natural resources:							
Game and Fish Department's license and tag sales (8)	874,363	896,143	940,223	897,159	808,055	835,669	865,634
Universities:							
University full-time equivalent students (9)	118,743	113,092	110,580	107,765	104,685	102,461	100,258
Unemployment compensation:							
Number of initial unemployment claims filed	396,755	226,772	185,397	161,869	200,282	227,585	255,579
Industrial Commission special fund:							
No-insurance awards issued	2,244	2,748	3,265	2,744	3,281	3,300	2,954
Number of vocational rehabilitation awards issued	103	118	133	124	102	139	150
Lottery:							
Total lottery sales (in millions)	\$ 484.5	\$ 472.9	\$ 462.2	\$ 468.7	\$ 397.6	\$ 366.6	\$ 322.3
Other business-type activities:							
Arizona Health Care Cost Containment System's Healthcare Group membership (10)	14,560	21,646	26,914	21,600	14,626	11,218	11,400

N/A = Not available

- (1) Ten years of data may not be available for some statistics, but will be accumulated over time. Also, some figures may represent time periods other than a fiscal year (such as an academic or calendar year), as indicated in the notes below.
- (2) Approximate number of members enrolled as of June 1. Excludes membership in the Healthcare Group, which is listed separately as other business-type activities, beginning in fiscal year 2002. In November 2000, Arizona voters approved Proposition 204, the Healthy Arizona Initiative, which expanded eligibility to 100% of the federal poverty level. This added 142,800 members and accounted for 28.5% of the overall growth since March 1, 2001.
- (3) Numbers represent total recordable cases and incident rates for the calendar year ended December 31. The fiscal years above contain data for the calendar year that ends during that fiscal year. For example, fiscal year 2008 contains data for the calendar year ending December 31, 2007. One hundred full-time workers represent 200,000 hours worked (100 times 40 hours per week times 50 weeks per year).
- (4) These enrollment counts represent a head count of all active enrollments on October 1st of each school year. The fiscal years above contain data for the academic year that occurs during that fiscal year. For example, fiscal year 2009 contains data from the October 1, 2008 enrollment figures. Starting with the 2008-09 school year, due to federal requirements, new business rules were used to calculate enrollment so that counts are unduplicated. Prior to this, the counts were not unduplicated counts; concurrently enrolled students were counted as having an active membership in each school. Also, there was a change in data collection in 2003. From 2003 to 2008, concurrent enrollments in technology schools were included, which may have additionally overstated aggregated enrollment figures.
- (5) Beginning in 2007, the state prison inmate population on the 2 Year Prison Population Trend Report excludes the inmate count from the county jail. For fiscal years 2006 and prior, the number includes both the county jail and the outside count of inmates.
- (6) Count represents the total number of vehicles registered as of the end of the fiscal year. Starting with fiscal year 2002, a new category for "unassigned vehicles" was added to more fully reflect the total count of all registered vehicles.
- (7) Count represents the number of driver licenses issued during that fiscal year, beginning July 1 and ending June 30.
- (8) Numbers represent sales for licenses, stamps, and tags for the calendar year ended December 31. The fiscal years above contain data for the calendar year that ends during that fiscal year. For example, fiscal year 2008 contains data for the calendar year ending December 31, 2007.
- (9) Enrollment figures represent the number of full-time equivalent students for the fall semester. The fiscal years above contain data for the fall semester that occurs during that fiscal year. For example, fiscal year 2008 contains data for the fall 2007 semester. These figures are generated by calculating one full-time equivalent student for each 15 student credit hours produced in lower-division undergraduate courses, each 12 student credit hours produced in upper-division undergraduate courses, and each 10 student credit hours produced in graduate courses.
- (10) Approximate number of members enrolled as of June 1.

Gross square feet (in thousands) (4)	37,186	36,000	34,946	20,154	N/A	N/A	N/A

N/A = Not available

Note: No capital asset indicators are available for the general government, health and welfare, inspection and regulation, education, unemployment compensation, Industrial Commission special fund, Lottery, and other business-type activity functions.

- (1) Ten years of data may not be available for some statistics, but will be accumulated over time. Also, some figures may represent time periods other than a fiscal year (such as a calendar year), as indicated in the notes below.
- (2) These are the number of center lane miles and bridges that the Arizona Department of Transportation accounts for under the modified approach, which is discussed in the Required Supplementary Information portion of this report.
- (3) The Arizona Department of Corrections also contracts with private prison facilities to provide custody and treatment.
- (4) In addition to academic/support facilities, auxiliary enterprise facilities are also reported. These would include essentially self-supporting entities, such as residence halls and parking structures.

ACKNOWLEDGMENTS

The Comprehensive Annual Financial Report was prepared by the Department of Administration, Financial Services Division, Financial Reporting Section:

Ron Santa Cruz
Michael J. Kallaur, CPA
Chris Freitag

Evan Chang, MBA
Cody Johnson, MBA
Celine Baker, MA, CPA

Special acknowledgment goes to:

All fiscal and accounting personnel throughout the Arizona State government, whose dedicated efforts and cooperation contributed to the compilation of financial information that appears in the report.
