Yavapai County Finance Department

March 31, 2021

To the Board of Supervisors and Citizens of Yavapai County:

State law requires that counties prepare a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by the Arizona State Auditor General's Office or by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Yavapai County for the fiscal year ended June 30, 2020.

This report consists of management's representations concerning the finances of Yavapai County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Arizona State Auditor General's Office has audited the County's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2020, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit; that there was a reasonable basis for rendering an unmodified opinion that Yavapai County's financial statements for the fiscal year ended June 30, 2020, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the County's separately issued Single Audit report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Yavapai County was formed in 1864; one year after the Arizona Territory was established. The County was named after the Yavapai tribe, whose name means "people of the sun". The County is located in the central portion of the state encompassing approximately 8,125 square miles.

The County is empowered to levy a property tax on both real and personal properties within its boundaries.

The County operates under the supervisor-administrator form of government. Policymaking and legislative authority are vested in a Board of Supervisors (Board) consisting of five members elected to four-year terms representing five supervisorial districts. The Board appoints an Administrator, who is responsible for developing and presenting the County budget, assisting department heads and elected officials, and coordinating with other governments in intergovernmental relations.

The Board is responsible for the financing and administration of County government, has final approval over County departmental budgets and sets property tax rates. As part of its administrative duties, the Board is responsible for appointing department heads, and members of County boards and commissions dealing with planning and zoning, building codes, health, employees and employee benefits, private industry and agriculture. The Board acts as the board of directors for special districts within the County such as jail, water, sanitation, lighting, flood control and library.

In addition to the Board, other elected officers representing the County include the Assessor, Clerk of the Superior Court, County Attorney, Recorder, School Superintendent, Sheriff, and the Treasurer. There are seven elected Superior Court Judges, five Justices of the Peace, and five Constables.

Yavapai County provides a full range of services, including police protection, courts, health services, elections, the construction and maintenance of highways, streets, other infrastructure and parks.

The financial reporting entity includes all the funds of the primary government (Yavapai County), as well as its component units. Component units are legally separate entities for which the primary government is financially accountable. The Board acts as the Board of Directors of these component units. Accordingly, the Yavapai County Flood Control District, Library District, Jail District and various special assessment districts are reported as a part of the governmental fund types of the primary government.

There are various school districts, special districts, and fire districts within Yavapai County governed by independently elected boards. The financial statements of such districts are not included in this report except to reflect amounts held in an agency capacity by the County Treasurer. The reporting entity is further described in Note 1 to the financial statements.

The annual budget serves as the foundation for the County's financial planning and control. All departments of the County are required to submit requests for appropriation to the County Administrator annually. These requests are used as the starting point for developing a proposed budget. The County Administrator then presents this proposed budget to the Board of Supervisors for review on or before the third Monday in July. On or before the fourteenth day in August when the Board sets tax levy rates, the Board must hold a public hearing and a special meeting of the Board, at which time the final budget must be adopted. The final budget is adopted by fund and department. Transfers of appropriations between funds or departments require approval of the Board. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund and major special revenue funds this comparison is presented beginning on page 75 as part of the required supplemental information. For governmental funds, other than the general fund and major special revenue funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 102.

Local Economy

Yavapai County's population increased from 211,017 as of April 1, 2010 to 236,426 as of July 1, 2020, which is a 12% increase as compared to the State of Arizona population increase of 14% for the same time period. Yavapai County has a higher percentage, 32.5%, of persons over the age of 65 as compared to the State of Arizona with 18.0%, both as of July 1, 2019. This indicates that a greater segment of the population is retired, which provides a more stable consumer base. The source for these figures is the United States Census website, current quick facts table.

The Board of Supervisors raised the property tax levy for fiscal year 2019-20, an increase of \$9.5 million, primarily to fund extra payments towards unfunded pension liabilities and for the operation and debt service for a new criminal justice facility. The net assessed value of real estate increased by 6.4% for the fiscal year. The population continues to grow, and we anticipate our sales tax revenues to also trend slowly upward.

The Arizona Department of Administration, Office of Employment and Population Statistics estimates a 7.4% average 2020 unemployment rate for Yavapai County. The unemployment rate increased from 4.6% in 2019 as a result of the global coronavirus pandemic and policies related to slow the spread of the virus including temporary business closures and capacity restrictions.

Although the pandemic continues to cause uncertainty for the economic future, the first half of fiscal year 2020-21 revenues from local and state shared sales taxes have increased significantly at 16.5% and 13.9% from the prior fiscal year indicating consumer spending in Yavapai County and Arizona has not decreased as originally expected.

Yavapai County Regional Medical Center is the single largest employer in Yavapai County, with Yavapai County as the second largest employer. Retail trade, tourism, utilities, healthcare, warehouse and distribution centers, mining, light industry and government all contribute to the economy.

Long-Term Financial Planning

In November of 1999, the Yavapai County Jail District was formed when the citizens approved a dedicated excise tax of up to 1/4 cent for the purpose of constructing, operating, maintaining and financing County jail facilities. The Jail District sales tax and the maintenance of effort from the General Fund were projected to be inadequate to fund the operation of the Jail District, so several actions were taken to address this issue. The Board of Supervisors asked the voters of Yavapai County in the November 4, 2016, general election for authorization to extend the life of the tax and to increase the Jail District sales tax rate from ¼ cent to ½ cent however, this request was voted down. The current ¼ cent Jail District sales tax was set to expire on June 30, 2020, but the voters of Yavapai County on May 15, 2018, approved the extension of the existing sales tax until June 30, 2040. Finally, the property tax levy was increased by \$9.5 million for 2019-20 partially to provide adequate funding for the operation and debt service of a planned new criminal justice facility located next to the existing Juvenile Justice Facility. Pledged Revenue Obligations totaling \$65.8 million were issued on June 4, 2020 to fund the construction of this new facility.

Relevant Financial Policies

The Board has managed the County in a fiscally conservative environment with a primary goal to minimize the County property tax rate and to operate within the tax revenues received during the fiscal year. The Board has delegated the responsibility to monitor revenues and to make recommendations when necessary to maintain fiscal discipline to the County Administrator.

Since fiscal year 2009-10, the major Yavapai County revenues have been increasing, but these increases had been offset to a large degree by reduced funding from the State of Arizona. County departments reduced expenditures in fiscal year 2009-10 by 7.5% and the departments have been held to the similar expenditure levels each year since then except for the costs of new staff positions/programs and County-wide merit or cost-of-living increase raises that were approved by the Board of Supervisors.

The County is addressing unfunded public safety pension liabilities by contributing extra funds above the annual required contribution. In fiscal years 2017-18 and 2019-20, Yavapai County has enough surplus revenue to make an extra \$4,500,000 pension plan contribution each year to help pay down the County's unfunded pension liabilities. This trend is expected to continue, however for 2020-21 the extra payment was budgeted but not paid yet as a result of the economic uncertainty caused by the coronavirus pandemic.

Acknowledgements

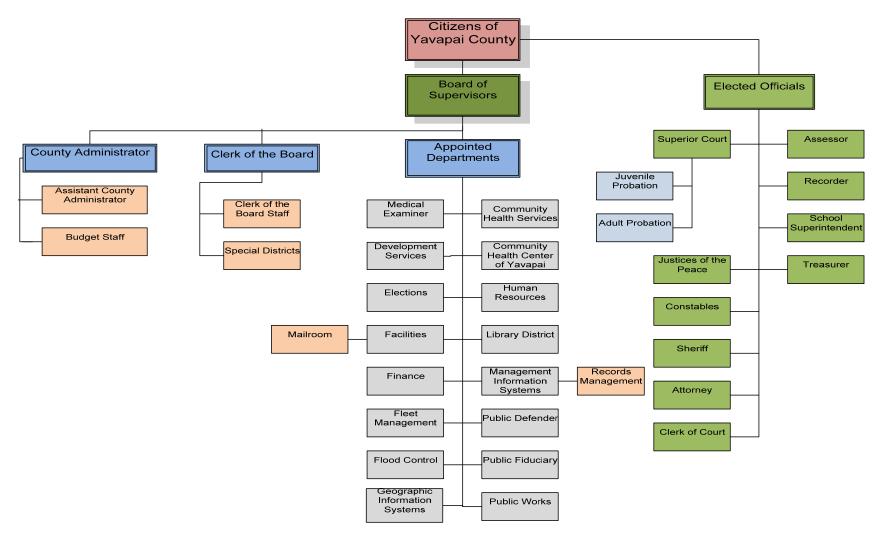

The preparation of this report could only be accomplished through work of the entire Finance Department team and the assistance of the Arizona State Auditor General's Office. We also wish to thank the Board of Supervisors for their dedicated oversight of the financial condition of the County and their support for our efforts to improve its financial operations.

Respectfully submitted,

Lars Johnson Finance Director

FINANCIAL SECTION

MELANIE M. CHESNEY DEPUTY AUDITOR GENERAL

Independent auditors' report

Members of the Arizona State Legislature

The Board of Supervisors of Yavapai County, Arizona

Report on the financial statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and aggregate remaining fund information of Yavapai County as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

LINDSEY A. PERRY AUDITOR GENERAL

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and aggregate remaining fund information of the County as of June 30, 2020, and the respective changes in financial position in accordance with U.S. generally accepted accounting principles.

Other matters

Required supplementary information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 13 through 20, budgetary comparison schedules on pages 75 through 80, schedule of the County's proportionate share of the net pension liability—cost-sharing pension plans on pages 81 through 82, schedule of changes in the County's net pension liability and related ratios—agent pension plans on pages 83 through 86, and schedule of County pension contributions on pages 87 through 89 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund statements and schedules and the introductory and statistical sections listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund statements and schedules are management's responsibility and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Compliance over the use of Highway User Revenue Fund and other dedicated State transportation revenue monies

In connection with our audit, nothing came to our attention that caused us to believe that the County failed to comply with the authorized transportation purposes, insofar as they relate to accounting matters, for

Highway User Revenue Fund monies it received pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated State transportation revenues it received. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the authorized transportation purposes referred to above, insofar as they relate to accounting matters.

The communication related to compliance over the use of Highway User Revenue Fund and other dedicated State transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors, management, and other responsible parties within the County and is not intended to be and should not be used by anyone other than these specified parties.

Other reporting required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and reporting and compliance.

Lindsey A. Perry, CPA, CFE Auditor General

March 31, 2021

This page is left blank intentionally.

As management of Yavapai County, we offer readers of Yavapai County's financial statements this narrative overview and analysis of the financial activities of Yavapai County for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 - 5 and the County's basic financial statements, which begin on page 22.

Financial Highlights

- Yavapai County's assets and deferred outflows of resources exceed liabilities and deferred inflows of resources as of June 30, 2020, by \$170,448,438 (net position), which is an increase of \$19,643,035 from prior year ending net position of \$150,805,403. The unrestricted net position at June 30, 2020 is a deficit of \$109,555,324, which is a decrease of \$13.7 million from a deficit balance of \$123,258,820 at June 30, 2019 primarily as a result of increased revenues of \$24.4 million; offset by an increase in expenses for the year.
- As of June 30, 2020, Yavapai County's governmental funds reported combined ending fund balances of \$137,329,820, which is an increase of \$74,248,621 from the prior year ending fund balance of \$63,081,199.
- As of June 30, 2020, unassigned fund balance for the general fund is \$25,930,207, an increase of \$14,162,070 from the prior year unassigned fund balance.
- As of June 30, 2020, committed fund balance for the regional road fund is \$9,511,453, a decrease of \$2,333,331 from the prior year committed fund balance.
- As of June 30, 2020, restricted fund balance for the Highway User Revenue Fund (HURF) is \$3,636,526, a decrease of \$2,148,805 from the prior year restricted fund balance.
- As of June 30, 2020, committed fund balance for the capital projects fund is \$17,129,766, an increase of \$1,118,020 from the prior year committed fund balance.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Yavapai County's basic financial statements. Yavapai County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government–wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of Yavapai County's finances, in a manner similar to a private sector business.

The statement of net position presents information on all of Yavapai County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Yavapai County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only affect cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused paid-time-off leave).

Both of the government-wide financial statements present functions of Yavapai County that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of Yavapai County include general government, public safety, highways and streets, sanitation, health, welfare, culture and recreation, and education.

The government-wide financial statements not only include Yavapai County itself (known as the primary government), but also a legally separate Jail District, Flood Control District, Library District and various Special

Assessment Districts. These districts function for all practical purposes as departments of Yavapai County, and therefore have been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 22 – 23 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Yavapai County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of Yavapai County can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Yavapai County maintains numerous individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for 8 funds considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 24 - 30 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Yavapai County's own programs.

The basic fiduciary funds financial statements can be found on pages 31 - 32 of this report.

Notes to the financial statements. The notes provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33 - 74 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Yavapai County's progress in funding its obligation to provide pension benefits to its employees and budgetary comparison schedules for the general fund and major special revenue funds. Other required supplementary information can be found on pages 75 - 91 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 92 - 128 of this report.

Government-wide Financial Analysis

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Yavapai County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$170.4 million at the close of the most recent fiscal year.

Net Position (in millions)

	Governmental Activities			
	2	020	:	2019
Current and other assets	\$	92.8	\$	75.2
Restricted assets		64.2		-
Capital assets		273.7		268.5
Total assets		430.7		343.7
Deferred outflows of resources		34.0		31.9
Other liabilities		18.3		10.5
Long-term liabilities outstanding		264.8		194.3
Total liabilities		283.1		204.8
Deferred inflows of resources		11.2		20.0
Net position:				
Net investment in capital assets		258.6		251.6
Restricted		21.4		22.4
Unrestricted deficit		(109.6)		(123.2)
Total net position	\$	170.4	\$	150.8

The largest portion of Yavapai County's net position (152%) reflects its investment in capital assets (e.g. land, buildings, equipment, infrastructure, software, construction in progress), less accumulated depreciation and any related outstanding debt used to acquire those assets. Yavapai County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Yavapai County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental Activities current and other assets increased \$17.6 million from the previous year. This increase is primarily the result of normal variation in the timing of paying expenses during the fiscal year. Restricted assets increased \$64.2 million primarily the result of the unspent proceeds of pledged revenue obligations for the Jail construction. Capital assets increased \$5.2 million because the increase in asset value from new acquisitions was more than the decrease in asset value from depreciation.

The County reported the deferred outflows of resources of \$34.0 million and deferred inflows of resources of \$11.2 million related to pensions at the close of the most recent fiscal year. This represents an increase of \$2.1 million in deferred outflows of resources and a decrease of \$8.8 million in deferred inflows of resources during the fiscal year. The changes in the deferred outflows of resources and deferred inflows of resources are due to the changes in the actuarial valuations of the various pension plans the County participates.

Governmental Activities other liabilities and long-term liabilities outstanding at the end of the fiscal year were \$18.3 million and \$264.8 million, respectively. The other liabilities increased by \$7.8 million due primarily to an increase of \$1.6 million in accounts payable, an increase of \$1.1 million in accrued payroll and employee benefits and an increase of \$4.8 million in unearned revenues. The increase of \$70.5 million in long-term liabilities was largely due to the issuance of pledged revenue obligations for the Jail construction of \$65.8 million and increases of \$5.4 million in net pension liabilities.

Yavapai County's Governmental Activities restricted net position of \$21.4 million represents resources that are subject to external restrictions on how they may be used. This amount has decreased by \$1.0 million from the previous year.

At the end of the current fiscal year, Yavapai County reports positive balances in two categories, net investment in capital assets \$258.6 million and restricted net position \$21.4 million. The County has a deficit of \$109.6 million in unrestricted net position, which was a decrease of \$13.6 million in unrestricted net deficit from the prior year's unrestricted deficit of \$123.2 million due largely to increased unrestricted revenues.

Changes in Net Position. The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. For the fiscal year, net position increased \$19.6 million. The basis of accounting used in the government-wide statement of activities excludes capital outlay while its revenues include taxes that are used, in part, for the construction of those assets.

Governmental activities. Governmental Activities revenues totaled \$227.3 million for fiscal year 2020, an increase of \$24.4 million or 12.0%. These increases can be attributed to an improving economy in the County. The following are highlights of County revenues:

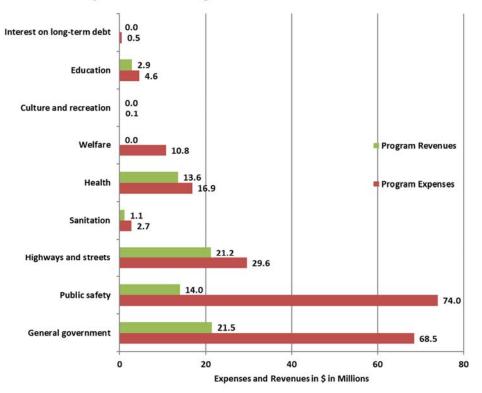

- Sales taxes are comprised of state shared-sales tax, a 0.5% County excise tax and a 0.25% Jail District excise tax. Overall sales tax increased \$4.4 million or 7.2% from the previous fiscal year due to an improving economy in the County.
- Operating grants and contributions increased \$9.5 million or 24.7% from the previous fiscal year primarily because of an increase of \$5.6 million in grant monies from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Coronavirus Relief Fund; \$742,000 in grants related to pretrial intervention; \$659,000 in grants related to Sheriffs dispatch, and an increase of \$520,000 from the State's contribution to the Elected Officials Retirement Plan on behalf of the County reported in general government; offset by a decrease in highways and streets (state grant for road project).
- Property taxes increased by \$9.3 million or 16.2% from the previous year primarily due to the increase in the tax levy for new construction this fiscal year.

Revenues by Source - Governmental Activities

Expenses

Governmental activities expenses increased \$20.0 million from the previous fiscal year. General government expenses increased \$3.6 million due to an increase in the pension expense relating to elected officials. Public Safety increased from the previous year by \$11.0 million, primarily due to an increase in pension expense related to public safety employees. Highways and streets increased from the previous year by \$2.9 million due to an increase in the number of road projects during the year.

Expenses and Program Revenues - Governmental Activities

Financial Analysis of the Government's Funds

As noted earlier, Yavapai County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of Yavapai County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Yavapai County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Yavapai County's governmental funds reported combined ending fund balances of \$137,329,820, which is an increase of \$74,248,621 from the prior year balance. The ending fund balances are categorized as follows.

• Nonspendable \$1,037,867

•

• Restricted \$83,969,400

Committed \$27,466,285

• Unassigned \$24,856,268

The total fund balance increased by \$74 million or 118%, primarily due to increases of \$14.3 million in General Fund, \$62.7 million in Jail Construction; offset by decreases of \$2.3 million in Regional Road, and \$2.1 million in HURF Road.

The General Fund is the chief operating fund of Yavapai County. At the end of the current fiscal year, the General Fund total fund balance was \$26,449,294, and the unassigned category was \$25,930,207. The unassigned category is \$14,162,070 greater than the previous fiscal year. This increase is due primarily to an increase in property tax revenues of \$8.8 million, and CARES act funding of \$5.6 million.

In addition to the General Fund, Yavapai County is reporting seven major funds. These funds are the Jail District, Jail Construction, Jail Debt Service, Regional Road, HURF Road, Capital Projects, and Capital Projects Debt Service.

The Jail District fund balance decreased \$0.8 million in accordance with the adopted budget. The Jail Construction fund increased \$62.7 million primarily due to the issuance of pledged revenue obligations in the amount of \$65.8 million; offset by capital expenditures of \$2.1 million. The Jail Debt Service fund was created during fiscal year 2020 to report the debt service activity for the jail construction. The Regional Road fund balance decreased \$2.3 million because of the use of funding received in prior years for a road construction project. The HURF Road fund balance decreased \$2.1 million because of budgeted construction road projects. Capital Projects fund balance increased \$1.1 million because of an elimination of a \$1 million transfer from the General Fund and a \$1.9 million budgeted transfer to the Capital Projects Debt Service fund. The Capital Projects Debt Service fund balance remains relatively unchanged from the prior fiscal year.

See Note 8 on pages 48 - 49 for a detail listing of the fund balance classifications.

General Fund Budgetary Highlights

The original General Fund budget appropriation for expenditures was \$115,634,330. Actual expenditures were \$5,387,948 less than the final budgeted appropriation amount, which is primarily due to vacancy savings from staff turnover and departments monitoring and controlling expenditures. The Board approved budgeted transfers between departments during the fiscal year to reclassify expenditures and for departments that required an increase in budget appropriation. The final total General Fund budgeted appropriation remained unchanged. The General Services administrative expenditure budget includes negative amounts for internal cost recoveries, such as vehicle use and indirect costs, which resulted in actual expenditures of negative \$2,782,895 with a significant variance due to actual positive expenditures being less than budgeted.

Total revenues were \$12.3 million over total budgeted revenues (10.3%), which is primarily due to the receipt of \$10.1 million in unbudgeted intergovernmental revenue (CARES Act, PILT, miscellaneous, and RTC Services).

Capital Asset and Debt Administration

Capital Assets. Yavapai County's investment in capital assets for its governmental activities as of June 30, 2020, amounts to \$273.7 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, infrastructure, software and construction in progress. In addition, roads and highways constructed in the fiscal year ended June 30, 2020, or in progress at that date, are included in capital assets. Construction in progress increased \$6.0 million due to continued progress on uncompleted planned capital projects.

Additional information on Yavapai County's capital assets can be found in Note 5 on page 43-44 of this report.

Long-term Debt. At the end of the current fiscal year, Yavapai County had total outstanding special assessment bonds of \$1,070,000 for special district road improvements which are secured by property assessments levied against the benefiting property owners. Also, at the current fiscal year-end, Yavapai County had \$14,021,000 in outstanding Excise Tax Revenue Refunding obligations which are secured by County excise tax revenue and are payable over a period of ten years and seven months with an interest rate of 2.08% and \$57,050,000 in outstanding pledged revenue obligations payable over twenty years with an interest rate ranging between 4% and 5%.

| Jail District Pledged Revenue Obligations |      | 57.0 |    | -    |  |
| Unamortized Obligation Premium            |      | 8.8  |    | -    |  |
| Total Outstanding Debt                    | \$   | 80.9 | \$ | 16.9 |  |

State statutes limit the amount of general obligation debt a county may issue without voter approval to 6 percent of its total assessed valuation. The debt limitation for the County for fiscal year ended June 30, 2020, is \$165,940,624. Since the County has no general obligation debt, this amount equals the debt capacity. Additional information on long-term debt can be found in Note 7 on pages 44 - 47.

**Long-term Capital Lease.** On December 8, 2015, the County entered into a \$212,297 lease purchase agreement to finance the purchase of telephone system upgrades, including hardware, software and professional services, payable for a period of 5 years with an interest rate of 4.95%. The County made its final payment during the fiscal year, and as of June 30, 2020, the outstanding lease balance is \$0.

#### Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for Yavapai County is currently 7.4% for 2020, US Bureau of Labor Statistics.
- Inflationary trends in the region are comparable to or better than national and the State of Arizona indices.
- The economy at the national and state level is anticipated to have the effect of maintaining or increasing Federal and State of Arizona grant programs.

These factors were considered in preparing Yavapai County's budget for the 2020-21 fiscal year. The budgetary estimate of unassigned ending fund balance in the general fund of \$13,051,919 was appropriated for spending in the 2020-21 fiscal year budget.

The COVID-19 outbreak in the United States is causing business disruption through mandated and voluntary closure or limited operations of business. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the disruption and closures. The related financial impact on the County relating to the receipt of property taxes, investment valuation, revenues and expenditures of various programs, and the duration cannot be reasonably estimated at this time.

#### **Requests for Information**

This financial report is designed to provide a greater overview of Yavapai County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, 1015 Fair Street, Prescott, Arizona 86305.

## Yavapai County Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Government-wide Statement of Activities Year Ended June 30, 2020

Net change in fund balances-total governmental funds

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

| Capital outlay       | 23,023,168   |           |
|----------------------|--------------|-----------|
| Depreciation expense | (17,975,240) | 5,047,928 |

\$ 74,248,621

(199, 695)

345,747

In the Statement of Activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the capital assets sold.

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

County pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the County's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.

| County pension contributions               | 19,433,013   |           |
|--------------------------------------------|--------------|-----------|
| Pension expense                            | (13,471,700) |           |
| State's non-employer pension contributions | (448.635)    | 5.512.678 |

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

| 45,006       |                           |
|--------------|---------------------------|
| 1,770,000    |                           |
| (57,050,000) |                           |
| ( 8,784,446) | (64,019,440)              |
|              | 1,770,000<br>(57,050,000) |

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.

| Increase in compensated absences                        | (704,088) |               |
|---------------------------------------------------------|-----------|---------------|
| Increase in claims and judgments                        | (442,037) |               |
| Increase in interest payable                            | (157,677) |               |
| Decrease in landfill closure and postclosure care costs | 10,998    | ( 1,292,804)  |
| Change in net position of governmental activities       |           | \$ 19,643,035 |

See accompanying notes to financial statements.

See accompanying notes to financial statements.

## Note 1 - Summary of significant accounting policies

Yavapai County's accounting policies conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

## A. Reporting entity

The County is a general purpose local government that a separately elected board of supervisors governs. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are so intertwined with the County that they are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. Each blended component unit discussed below has a June 30 year-end. The County has no discretely presented component units.

The following table describes the County's component units:

| Component unit                                       | Description; criteria<br>for inclusion                                                                                                                                                                                                  | Reporting method | For separate<br>financial<br>statements |
|------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|-----------------------------------------|

*Related Organizations* – The United States Department of Agriculture deeded property to Yavapai County on February 6, 1957 to be used exclusively as a public airport facility. The property shall automatically revert to the United States in the event the property ceases to be used as a public airport facility. The Sedona-Oak Creek Airport Authority (Airport Authority) was created for the purpose of developing and promoting transportation and commerce by air in the State of Arizona, and in particular the development, promotion, and operation of air transportation facilities and air commerce in and around the Sedona area. In 1971, the Airport Authority entered into a 60-year lease with Yavapai County to manage and operate the Sedona Airport facility, which is owned by the County. The Airport Authority is governed by a 13 member Board of Directors approved by the County's Board of Supervisors. However, the Airport Authority's operations are completely separate from the County, and the County is not financially accountable for the Airport Authority. Therefore, based on the criterion of GASB Statement Nos. 14, 39, 61, and 80, the financial activities of the Airport Authority have not been included in the accompanying financial statements.

The Industrial Development Authority of Yavapai County (Authority) is a legally separate entity that was created to assist in the financing of commercial and industrial enterprises; safe, sanitary, and affordable housing; and healthcare facilities. The Authority fulfills its function through the issuance of tax exempt or taxable revenue bonds. The County's Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. Therefore, based on the criterion of GASB Statements Nos. 14, 39, 61, and 80, the financial activities of the Authority have not been included in the accompanying financial statements.

## B. Basis of presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the County as a whole, while the fund financial statements focus on major funds. Fiduciary funds are only reported in the statements of fiduciary net position and changes in fiduciary net position. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

**Government-wide statements**—Provide information about the primary government (the County) and its component units. The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities, except for fiduciary activities. Governmental activities generally are financed through taxes and intergovernmental revenues.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers or applicants for goods, services, or privileges provided;
- operating grants and contributions; and
- capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes the County levies or imposes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

**Fund financial statements**—Provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental and fiduciary fund categories. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Jail District Fund* accounts for County jail operations and is funded by a <sup>1</sup>/<sub>4</sub> cent County sales tax.

The *Jail Construction Fund* accounts for construction of a new criminal justice facility and is funded by pledged revenue obligations.

The *Jail District Debt Service Fund* accounts for the resources accumulated and payments made on the pledged revenue obligation for the construction of the new criminal justice facility.

The *Regional Road Fund* accounts for road construction and maintenance of major regional roads and is funded by a portion of the ½ cent County sales tax and impact fees.

The *HURF Road Fund* accounts for road maintenance and construction of nonmajor roads and is funded primarily by highway user revenue.

The *Capital Projects Fund* accounts for major capital projects and is funded by a portion of the ½ cent County sales tax.

The *Capital Projects Debt Service Fund* accounts for the resources accumulated and payments made on the revenue refunding obligation for the construction of court and juvenile detention buildings.

The County also reports the following fund types:

The investment trust funds account for pooled assets the County Treasurer holds and invests on behalf of other governmental entities.

The agency funds account for assets the County holds as an agent for other governments and individuals.

## C. Basis of accounting

The government-wide and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The agency funds are custodial in nature and do not have a measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The County applies grant resources, except for PILT, to such programs before using general revenues.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The County's major revenue sources that are susceptible to accrual are property taxes, special assessments, intergovernmental, charges for services, and investment earnings. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, and landfill closure and postclosure care costs, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

## D. Cash and investments

All investments are stated at fair value.

## E. Inventories

Inventories in the government-wide financial statements are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the moving average method.

The County accounts for its inventories in the governmental funds using the consumption method. Inventories of the governmental funds consist of expendable supplies which are recorded as expenditures when consumed rather than when purchased. Amounts on hand at year end are shown on the balance sheet as an asset and as nonspendable fund balance to indicate that they do not constitute "available spendable resources." These inventories are stated at cost using the moving average method.

## F. Prepaid items

In the government-wide financial statements, prepaid purchases are recorded as assets when the goods or services are purchased and expensed over the period consumed.

Prepaid items are accounted for using the consumption method in the governmental fund financial statements. Using this method, prepaid purchases are recorded as assets when the goods or services are purchased and expensed over the period consumed. Amounts at yearend are reported on the balance sheet as an asset and as nonspendable fund balance to indicate that they do not constitute "available spendable resources."

## G. Property tax calendar

The County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

#### H. Capital assets

Capital assets are reported at actual cost (or estimated historical cost if historical records are not available). Donated assets are reported at acquisition value.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets are as follows:

|                                                 | Capitalization<br>threshold | Depreciation<br>method | Estimated<br>useful life |
|-------------------------------------------------|-----------------------------|------------------------|--------------------------|
| Land (including right of ways and<br>easements) | \$10,000                    | N/A                    | N/A                      |
| Buildings                                       | 10,000                      | Straight-line          | 20-40 years              |
| Equipment                                       | 5,000                       | Straight-line          | 5-15 years               |
| Infrastructure                                  | 10,000                      | Straight-line          | 10-75 years              |
| Software                                        | 10,000                      | Straight-line          | 3-5 years                |
| Construction in progress                        | 10,000                      | N/A                    | N/A                      |

## I. Deferred outflows and inflows of resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

#### J. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## K. Fund balance classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations that the County's Board of Supervisors approved, which is the highest level of decision-making authority within the County. The Board can, by approval of an agenda item at a public meeting prior to the end of the fiscal year, commit fund balance. Only the Board can remove or change the constraints placed on committed fund balances, by approval of an agenda item to remove or revise the limitation. Approval of an agenda item by the Board is the only highest level action that constitutes the most binding constraint.

Assigned fund balances are resources constrained by the County's intent to be used for specific purposes, but that are neither restricted nor committed. The Board of Supervisors has not delegated authority to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, the County will use restricted fund balance first. The County will use committed amounts first when disbursing unrestricted fund balances, followed by assigned amounts, and lastly unassigned amounts.

### L. Investment earnings

Investment earnings is composed of interest, dividends, and net changes in the fair value of applicable investments.

## M. Compensated absences

Compensated absences payable consists of paid time off (PTO) leave employees earned based on services already rendered.

Employees may accumulate up to 764 hours of PTO, depending on years of service, but they forfeit any unused PTO hours in excess of the maximum amount each pay period. Upon terminating employment, the County pays all unused and unforfeited PTO benefits to employees. Accordingly, PTO benefits are accrued as a liability in the government-wide financial statements. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal year-end.

Beginning on July 1, 2017, employees may accumulate up to 40 hours of sick leave per calendar year. Unused sick leave hours will be carried over from one year to the next. There is no maximum accrual limit for sick leave. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements.

Prior to July 1, 2017, employees could accumulate up to 520 hours of catastrophic time (CAT) leave. CAT leave accruals were suspended, but any unused CAT leave is available for use. CAT leave may be used in the case of illness or injury suffered by an employee or employee's immediate family, but only after using at least forty hours of consecutive sick leave or PTO. CAT leave benefits are cumulative but employees forfeit them upon terminating employment. Because CAT leave benefits do not vest with employees, a liability for CAT leave benefits is not accrued in the financial statements.

## Note 2 - Stewardship, compliance, and accountability

Deficit fund balance—At June 30, 2020, the CYMPO (nonmajor governmental) Fund reported a deficit fund balance of \$92,036.

## Note 3 - Deposits and investments

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the County Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

## Credit risk

Statutes have the following requirements for credit risk:

- 1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
- 2. Specified bonds, debentures, notes and other evidences of indebtedness that are denominated in United States dollars must be rated "A" or better, at the time of purchase, by at least two nationally recognized rating agencies.
- 3. Fixed income securities must carry one of the two highest ratings by Moody's investors service and Standard and Poor's rating service. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

#### Custodial credit risk

Statutes require collateral for deposits at 102 percent of all deposits federal depository insurance does not cover.

#### Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

#### Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

Foreign currency risk

Statutes do not allow foreign investments unless the investment is denominated in United States dollars.

Deposits—At June 30, 2020, the carrying amount of the County's deposits was \$14,831,867, and the bank balance was \$16,910,001. The County does not have a formal policy with respect to custodial credit risk.

Investments—The County's investments at June 30, 2020, categorized within the fair value hierarchy established by generally accepted accounting principles, were as follows:

|                                                     |                | Fair value<br>measurement<br>using |
|-----------------------------------------------------|----------------|------------------------------------|
|                                                     |                | Quoted prices                      |
|                                                     |                | in active                          |
|                                                     |                | markets for                        |
|                                                     |                | identical assets                   |
|                                                     | Amount         | (Level 1)                          |
| Investments by fair value level                     |                |                                    |
| U.S. Treasury securities                            | \$ 8,534,531   | \$ 8,534,531                       |

| Money market funds                                  | 14,717,301     | 14,717,301                         |
| Money market funds – held by trustee                | 64,153,575     | 64,153,575                         |
| Total investments by fair value level               | 118,096,743    | \$ 118,096,743                     |
|                                                     |                |                                    |
| External investment pools measured<br>at fair value |                |                                    |
| State Treasurer's investment pools                  | 137,353,141    |                                    |
| Total investments                                   | \$ 255,449,884 |                                    |

Investments categorized as Level 1 are valued using prices quoted in active markets for those investments. Investments in the State Treasurer's investment pools are valued at the pool's share price multiplied by the number of shares the County held. The fair value of a participant's position in the pools approximates the value of that participant's pool shares. The State Board of Investment provides oversight for the State Treasurer's investment pools.

Credit risk— The County does not have a formal investment policy with respect to credit risk. At June 30, 2020, credit risk for the County's investments was as follows:

| Investment type                      | Rating   | Rating agency       | Amount         |
|--------------------------------------|----------|---------------------|----------------|
| State Treasurer's Investment Pool 5  | AAAf/S1+ | Standard and Poor's | \$ 47          |
| State Treasurer's Investment Pool 7  | Unrated  | N/A                 | 137,353,094    |
| U.S. agency securities               | Aaa      | Moody's             | 30,691,336     |
| Money market funds                   | Unrated  | N/A                 | 14,717,301     |
| Money market funds - held by trustee | Aaa-mf   | Moody's             | 64,153,575     |
|                                      |          |                     | \$ 246,915,353 |

Custodial credit risk—For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the County will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. The County does not have a formal investment policy with respect to custodial credit risk.

Concentration of credit risk— The County does not have a formal investment policy with respect to concentration of credit risk. The County had investments at June 30, 2020, of 5 percent or more in the Federal Farm Credit Bank and Federal Home Loan Bank. These investments were 6.9 percent and 7.3 percent, respectively, of the County's total investments.

Interest rate risk—The County does not have a formal policy regarding interest rate risk. At June 30, 2020, the County had the following investments:

|                                      |                | Weighted<br>Average Maturity |
|--------------------------------------|----------------|------------------------------|
| Investment Type                      | Amount         | (Years)                      |
| State Treasurer's Investment Pool 5  | \$ 47          | .12                          |
| State Treasurer's Investment Pool 7  | 137,353,094    | .15                          |
| U.S. Treasury securities             | 8,534,531      | .17                          |
| U.S. agency securities               | 30,691,336     | 1.41                         |
| Money market funds                   | 14,717,301     | .00                          |
| Money market funds - held by trustee | 64,153,575     | .00                          |
|                                      | \$ 255,449,884 |                              |

A reconciliation of cash, deposits, and investments to amounts shown on the Statements of Net Position follows:

| Cash, deposits, and investments: |       |           |
|----------------------------------|-------|-----------|
| Cash on hand                     | \$    | 42,349    |
| Amount of deposits               | 1     | 4,831,867 |
| Amount of investments            | 25    | 5,449,884 |
| Total                            | \$ 27 | 0,324,100 |

|                                                          | Governmental activities | Investment<br>trust funds | Agency<br>funds | Total          |

| Total governmental activities depreciation expense | \$ 17,975,240 |

#### **Note 6 - Construction commitments**

The County had major contractual commitments related to various capital projects at June 30, 2020, for the construction of road, airport and building improvements and a criminal justice facility. At June 30, 2020, the County had spent \$6,636,928 on these projects and had remaining contractual commitments with contractors of \$11,143,204. The road improvement projects are being funded by the County's excise tax out of the Regional Road Fund. The airport improvement project is being funded by a grant out of the Airport Development Fund. The building improvement is being funded by the County's excise tax out of the Capital Projects Fund. The criminal justice facility is being funded by the County's excise tax out of the Capital Projects Fund and the pledged revenue obligations out of the Jail Construction Fund.

#### Note 7 - Long-term liabilities

The following schedule details the County's long-term liability and obligation activity for the year ended June 30, 2020:

|                                           |                |               |                 |                | Due          |
|-------------------------------------------|----------------|---------------|-----------------|----------------|--------------|

## Revenue refunding obligation

On October 17, 2017, the County entered into a revenue refunding obligation in the amount of \$16,978,000 at an average interest rate of 2.08%, with interest payable semiannually. The County has pledged the County general excise tax revenues and the state shared tax revenues to repay the obligation. The total principal and interest remaining on the obligation is \$15,292,181, payable through May 2028. Annual principal and interest payments are expected to require 6% of pledged revenues. Principal payments were \$1,595,000 and interest payments were \$316,524 for the current year. County general excise tax revenues were \$20,732,511 and the net state shared tax revenues were \$23,748,868.

The following schedule details debt service requirements to maturity for the County's revenue refunding obligation payable at June 30, 2020:

|                     | <br>Principal    | <br>Interest    |  |  |
|---------------------|------------------|-----------------|--|--|
| Year ending June 30 |                  |                 |  |  |

#### Special assessment debt

Special assessment bonds are secured by pledges of revenues from special assessments levied against the benefiting property owners. Bond proceeds were used to finance construction in these districts. These bonds are generally callable with interest payable semiannually. The total principal and interest remaining on the bonds is \$1,379,028, payable through January 2030. Annual principal and interest payments on the bonds are expected to require 100% of pledged revenues. Principal and interest paid for the current year were \$251,234 and the special assessments were \$610,549.

The following special assessment districts had debt outstanding at June 30, 2020:

| Description                                                                 | Original<br>Amount<br>Issued | Maturity<br>Ranges             | Interest<br>Rates | Outstanding<br>Principal<br>June 30, 2020 |

|                     |                 |          |         |  |

#### Pledged revenue obligation

On June 4, 2020, the County entered into a pledged revenue obligation in the amount of \$57,050,000 at an average interest rate of 4.237%, with interest payable semiannually for the purpose of constructing a new jail facility. The County has pledged the Jail District excise tax revenues and the County's maintenance of effort payment to repay the obligation. The total principal and interest remaining on the obligation is \$86,221,943, payable through July 2040. Annual principal and interest payments are expected to require 24% of pledged revenues. Due to the timing of the issuance, there were no principal and interest payments for the current year. Jail District excise tax revenues were \$10,366,174 and the maintenance of efforts payments were \$7,303,557.

The following schedule details debt service requirements to maturity for the County's revenue refunding obligation payable at June 30, 2020:

|                     | Principal     | Interest      |  |
|---------------------|---------------|---------------|--|
| Year ending June 30 |               |               |  |
| 2021                | \$ 1,605,000  | \$ 2,704,593  |  |
| 2022                | 1,860,000     | 2,451,700     |  |
| 2023                | 1,955,000     | 2,358,700     |  |
| 2024                | 2,050,000     | 2,260,950     |  |
| 2025                | 2,155,000     | 2,158,450     |  |
| 2026-2030           | 12,485,000    | 9,065,500     |  |
| 2031-2035           | 15,745,000    | 5,808,650     |  |
| 2036-2040           | 19,195,000    | 2,363,400     |  |
| Total               | \$ 57,050,000 | \$ 29,171,943 |  |

#### Landfill closure and postclosure care costs

State and federal laws and regulations require the County to place final covers on its seven landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for 30 years after closure. Although closure and postclosure care costs will not be paid until near or after the dates that the landfills stop accepting waste, the County reports a portion of these closure and postclosure care costs in each period that the County operates the landfills. These costs will be paid from the Landfill/Environment special revenue fund.

The amount recognized each year is based on landfill capacity used at the end of each fiscal year. All seven County landfills stopped accepting waste and were closed prior to June 30, 2018. As of June 30, 2018, the County wrote off remaining landfill closure and postclosure care costs for four of its landfills since the County's attorneys determined that there was no longer any obligation on the part of the County to maintain postclosure financial assurances on those landfills. As of June 30, 2020, the landfill closure and postclosure care liability of \$732,540 represents the cumulative amount of costs remaining on these three remaining closed landfills, which is net of expenditures incurred to date. This amount is based on what it would cost to perform all closure and postclosure care in fiscal year 2020 and has been adjusted for changes in estimates during the fiscal year. The actual cost may be higher due to inflation, changes in technology, or changes in regulations.

According to state and federal laws and regulations, the County must comply with the local government financial test requirements that ensure that the County can meet the costs of landfill closure, postclosure, and corrective action when needed. The County is in compliance with these requirements.

#### Insurance claims

The County provides health benefits to its employees and their dependents through the Yavapai Combined Trust, currently composed of four members. The Trust provides benefits up to \$250,000 per individual per plan year through a self-funding agreement with its participants and purchases commercial insurance to cover claims in excess of this limit. The Trust does not provide any postemployment benefits. An independent administrator provides the trust with claim and recordkeeping services. The County is responsible for paying the premiums and requires its employees to contribute for dependent coverage. The County is not liable for claims in excess of coverage limits and cannot be assessed retroactive premium adjustments. If it withdraws from the Trust, the County would be responsible for the incurred but not reported claims liability. If the Trust were to terminate, the County would be responsible for its proportional share of any claims liability. If the Trust were to terminate, the County would be responsible for its proportional share of any the share of any trust deficit.

### Compensated absences and claims and judgments

Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. Claims and judgments are generally paid from the fund that accounts for the activity that gave rise to the claim. During fiscal year 2020, the County paid for compensated absences as follows: 60 percent from the General Fund, 17 percent from major funds, and 23 percent from other funds. The County paid for claims and judgments from the General Fund.

## Note 8 - Fund balance classifications of the governmental funds

The fund balance classifications of the governmental funds as of June 30, 2020, were as follows:

|                                          | G  | General    | Jail | District | Jail<br>Construction | Jail<br>Debt Servi | се |
|------------------------------------------|----|------------|------|----------|----------------------|--------------------|----|
| Fund balances:                           |    |            |      |          |                      |                    |    |

#### Note 9 - Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For these risks of loss, the County joined and is covered by three public entity risk pools: the Arizona Counties Property and Casualty Pool and the Arizona Counties Workers' Compensation Pool which are described below, and the Yavapai Combined Trust, which is described on page 47.

The Arizona Counties Property and Casualty Pool is a public entity risk pool currently composed of 13 member counties. The pool provides member counties catastrophic loss coverage for risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; cyber security; and natural disasters; and provides risk management services. Such coverage includes all defense costs as well as the amount of any judgment or settlement. The County is responsible for paying a premium based on its exposure in relation to the exposure of the other participants, and a deductible of \$25,000 per occurrence for property claims and \$50,000 per occurrence for liability claims. The County is also responsible for any payments in excess of the maximum coverage of \$300 million per occurrence for property claims and \$15 million per occurrence for liability claims. However, lower limits apply to certain categories of losses. A county must participate in the pool at least 3 years after becoming a member; however, it may withdraw after the initial 3-year period.

The Arizona Counties Workers' Compensation Pool is a public entity risk pool currently composed of 12 member counties. The pool provides member counties with workers' compensation coverage, as law requires, and risk management services. The County is responsible for paying a premium, based on an experience-rating formula that allocates pool expenditures and liabilities among the members.

The Arizona Counties Property and Casualty Pool and the Arizona Counties Workers' Compensation Pool receive independent audits annually and an audit by the Arizona Department of Insurance every 5 years. Both pools accrue liabilities for losses that have been incurred but not reported. These liabilities are determined annually based on an independent actuarial valuation. If a pool were to become insolvent, the County would be assessed an additional contribution.

#### Note 10 - Pensions

The County contributes to the plans described below. The plans are component units of the State of Arizona.

At June 30, 2020, the County reported the following aggregate amounts related to pensions for all plans to which it contributes:

| Statement of net position and statement of activities | Governmental<br>activities |
|-------------------------------------------------------|----------------------------|
| Net pension liability                                 | \$ 172,421,308             |
| Deferred outflows of resources related to pensions    | 33,966,381                 |
| Deferred inflows of resources related to pensions     | 11,206,014                 |
| Pension expense                                       | 13,471,703                 |

The County's accrued payroll and employee benefits includes \$724,807 of outstanding pension contribution amounts payable to all pension plans for the year ended June 30, 2020. Also, the County reported \$19,433,013 of pension contributions as expenditures in the governmental funds related to all pension plans to which it contributes.

### A. Arizona State Retirement System

**Plan description**—County employees not covered by the other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 2. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at <u>www.azasrs.gov</u>.

**Benefits provided**—The ASRS provides retirement and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

| ASRS                                                       | Retirement<br>Initial membership date:                                                      |                                                                              |  |  |
|------------------------------------------------------------|---------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|--|--|

| Years of service<br>and age required to<br>receive benefit | Sum of years and age equals 80<br>10 years, age 62<br>5 years, age 50*<br>any years, age 65 | 30 years, age 55<br>25 years, age 60<br>10 years, age 62<br>5 years, age 50* |  |  |
|                                                            |                                                                                             | any years, age 65                                                            |  |  |
| Final average salary is based on                           | Highest 36 consecutive months<br>of last 120 months                                         | Highest 60 consecutive months<br>of last 120 months                          |  |  |
| Benefit percent per<br>year of service                     | 2.1% to 2.3%                                                                                | 2.1% to 2.3%                                                                 |  |  |

\*With actuarially reduced benefits.

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions**—In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2020, statute required active ASRS members to contribute at the actuarially determined rate of 11.94 percent for retirement of the members' annual covered payroll, and statute required the County to contribute at the actuarially determined rate of 11.45 percent for retirement of the active members' annual covered payroll.

In addition, the County was required by statute to contribute at the actuarially determined rate of 10.29 percent for retirement of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the ASRS would typically fill. The County's contributions to the pension plan for the year ended June 30, 2020, were \$6,625,726.

During fiscal year 2020, the County paid for ASRS pension contributions as follows: 62.5 percent from the General Fund, 12.0 percent from major funds, and 25.5 percent from other funds.

**Liability**—At June 30, 2020, the County reported a liability of \$75,529,269 for its proportionate share of the ASRS' net pension liability. The net liability was measured as of June 30, 2019. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2018, to the measurement date of June 30, 2019.

The County's proportion of the net liability was based on the County's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2019. The County's proportion measured as of June 30, was 0.5191 percent, which was a decrease of 0.0234 from its proportion measured as of June 30, 2018.

**Expense**—For the year ended June 30, 2020, the County recognized pension expense of \$7,503,488.

**Deferred outflows/inflows of resources**—At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| ASRS                                                                                                                                                                                                           | Deferred<br>outflows of<br>resources | Deferred<br>inflows of<br>resources |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|-------------------------------------|

| Net difference between<br>projected and actual earnings<br>on pension plan investments<br>Changes in proportion and<br>differences between county<br>contributions and proportionate<br>share of contributions | 1,064,608                            | 1,697,637<br>2,298,942              |
| County contributions subsequent to the measurement date                                                                                                                                                        | 6,625,726                            |                                     |
| Total                                                                                                                                                                                                          | \$ 9,374,055                         | \$ 7,018,504                        |

The amount reported as deferred outflows of resources related to ASRS pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expenses as follows:

| \$ ( 1,304,107) |

| 454,674         |
|                 |

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension liability are as follows:

### ASRS

| Actuarial valuation date    | June 30, 2018       |
|-----------------------------|---------------------|
| Actuarial roll forward date | June 30, 2019       |
| Actuarial cost method       | Entry age normal    |
| Investment rate of return   | 7.5%                |
| Projected salary increases  | 2.7-7.2%            |
| Inflation                   | 2.3%                |
| Permanent benefit increase  | Included            |
| Mortality rates             | 2017 SRA Scale U-MP |

Actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| ASRS<br>Asset class           | Target allocation | Long-term expected geometric real rate of return |
|-------------------------------|-------------------|--------------------------------------------------|
| Equity                        | 50%               | 6.09%                                            |
| Credit                        | 20%               | 5.36%                                            |
| Interest rate sensitive bonds | 10%               | 1.62%                                            |
| Real estate                   | 20%               | 5.85%                                            |
| Total                         | 100%              | _                                                |

**Discount rate**—The discount rate used to measure the ASRS total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the ASRS net pension liability to changes in the discount rate—The following table presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5 percent) or 1 percentage point higher (8.5 percent) than the current rate:

| ASRS                                                         | 1% Decrease    | Current discount | 1% Increase   |
|--------------------------------------------------------------|----------------|------------------|---------------|
|                                                              | (6.5%)         | rate (7.5%)      | (8.5%)        |
| County's proportionate share of the<br>Net pension liability | \$ 107,495,645 | \$ 75,529,269    | \$ 48,813,606 |

**Pension plan fiduciary net position**—Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

#### B. Public Safety Personnel Retirement System and Corrections Officer Retirement Plan

**Plan descriptions**—County sheriff employees and County attorney investigators who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). As of June 30, 2020, the County had no employees participating in the PSPDCRP, therefore it is not further disclosed. The PSPRS administers agent and cost-sharing multiple-employer defined benefit pension plans. A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. Employees who were PSPRS members before July 1, 2017, participate in the agent plans, and those who became PSPRS members on or after July 1, 2017, participate in the cost-sharing plan (PSPRS Tier 3 Risk Pool) which is not further disclosed because of its relative insignificance to the County's financial statements.

County detention officers, County dispatchers, and Administrative Office of the Courts (AOC) probation, surveillance, and juvenile detention officers participate in the Corrections Officer Retirement Plan (CORP). The CORP administers an agent multiple-employer defined benefit pension plan for county detention officers and dispatchers (agent plans), which were closed to new members as of July 1, 2018, and a cost-sharing multiple-employer defined benefit pension plan for AOC officers (cost-sharing plan). Employees who were CORP members before July 1, 2018 participate in CORP, and AOC probation and surveillance officers who became members on or after July 1, 2018, participate in CORP.

Detention officers, County dispatchers, and juvenile detention officers who became members on or after July 1, 2018, participate in PSPDCRP. The PSPRS Board of Trustees and the participating local boards govern CORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 6.

The PSPRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPRS and CORP plans. The report is available on the PSPRS website at <u>www.psprs.com</u>.

**Benefits provided**—The PSPRS and CORP provide retirement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

| PSPRS                                                                                                                                                                | Initial membership date:<br>On or after January 1, 2012                                                                                                                                                  |                                                                     |  |  |

| Retired<br>members                                            | 80% of retired member's pension benefit                                                                                                                                                                                                                                |                                                            |                                                                      |  |  |
| Active members                                                | 40% of average monthly compensation or 100% of average monthly compensation<br>if death was the result of injuries received on the job. If there is no surviving<br>spouse or eligible children, the beneficiary is entitled to 2 times the member's<br>contributions. |                                                            |                                                                      |  |  |
|                                                               | *With actuarially reduced benefits                                                                                                                                                                                                                                     |                                                            |                                                                      |  |  |

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

**Employees covered by benefit terms**—At June 30, 2020, the following employees were covered by the agent pension plans' benefit terms:

|                                                                     |                  | PSPRS                     |                   |                     |
|---------------------------------------------------------------------|------------------|---------------------------|-------------------|---------------------|
|                                                                     | PSPRS<br>Sheriff | Attorney<br>Investigators | CORP<br>Detention | CORP<br>Dispatchers |
| Inactive employees or beneficiaries<br>currently receiving benefits | 79               | 2                         | 48                | 3                   |
| Inactive employees entitled to but not<br>yet receiving benefits    | 48               | 0                         | 150               | 1                   |
| Active employees                                                    | 91               | 0                         | 135               | 1                   |
| Total                                                               | 218              | 2                         | 333               | 5                   |

**Contributions**—State statutes establish the pension contribution requirements for active PSPRS and CORP employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS and CORP pension plans. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contribution rates for the year ended June 30, 2020, are indicated below. Rates are a percentage of active members' annual covered payroll.

|                  | Active member—<br>pension | County—pension |
|------------------|---------------------------|----------------|
| PSPRS Sheriff    | 7.65%-11.65%              | 48.17%         |
| CORP Detention   | 8.41                      | 18.46          |
| CORP Dispatchers | 7.96                      | 27.02          |
| CORP AOC         | 8.41 or 10.18             | 30.71 or 27.91 |

Also, statute required the County to contribute at the actuarially determined rate of 36.24 percent of the annual covered payroll of county sheriff employees who were PSPRS Tier 3 Risk Pool members, in addition to the County's required contributions to the PSPRS Tier 3 Risk Pool for these county sheriff employees.

In addition, statute required the County to contribute at the actuarially determined rate indicated below of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the PSPRS or CORP would typically fill and employees participating in the PSPRS Tier 3 Risk Pool and PSPDCRP members in addition to the County's required contributions to the PSPRS Tier 3 Risk Pool and PSPDCRP.

|                  | Pension |
|------------------|---------|
| PSPRS Sheriff    | 36.13%  |
| CORP Detention   | 11.19%  |
| CORP Dispatchers | 18.63%  |
| CORP AOC         | 22.96%  |

The County's contributions to the plans for the year ended June 30, 2020, were:

|                              | Pension      |
|------------------------------|--------------|
| PSPRS Sheriff                | \$ 7,871,726 |
| PSPRS Attorney Investigators | 97,408       |
| CORP Detention               | 1,630,622    |
| CORP Dispatchers             | 19,611       |
| CORP AOC                     | 1,938,648    |

During the fiscal year 2020, the County paid for PSPRS and CORP pension contributions as follows: 76.0 percent from the general fund, 14.2 percent from major funds, and 9.8 percent from other funds.

Liability—At June 30, 2020, the County reported the following liabilities:

|                                         | Net pension<br>liability |
|-----------------------------------------|--------------------------|
| PSPRS Sheriff                           | \$ 40,397,393            |
| PSPRS Attorney Investigators            | 1,094,773                |
| CORP Detention                          | 13,616,792               |
| CORP Dispatchers                        | 454,757                  |
| CORP AOC (County's proportionate share) | 23,081,506               |

The net liabilities were measured as of June 30, 2019, and the total liability used to calculate the net liability was determined by an actuarial valuation as of that date. The total liabilities as of June 30, 2019, reflect changes of actuarial assumptions to decrease the investment rate of return from 7.4 percent to 7.3 percent and update the mortality rates.

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension liability are as follows:

#### PSPRS and CORP—Pension

| Actuarial valuation date  | June 30, 2019    |
|---------------------------|------------------|
| Actuarial cost method     | Entry age normal |
| Investment rate of return | 7.3%             |
| Wage inflation            | 3.5%             |
| Price inflation           | 2.5%             |
| Cost-of-living adjustment | 1.75%            |
| Mortality rates           | PubS-2010 tables |
|                           |                  |

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on PSPRS and CORP plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| PSPRS and CORP<br>Asset class | Target allocation | Long-term expected geometric<br>real rate of return |
|-------------------------------|-------------------|-----------------------------------------------------|
| Short term investments        | 2%                | 0.25%                                               |
| Risk parity                   | 4%                | 4.01%                                               |
| Fixed income                  | 5%                | 3.00%                                               |
| Real assets                   | 9%                | 6.75%                                               |
| GTS                           | 12%               | 4.01%                                               |
| Private credit                | 16%               | 5.36%                                               |
| Real estate                   | 10%               | 4.50%                                               |
| Private equity                | 12%               | 8.40%                                               |
| Non-U.S. equity               | 14%               | 5.00%                                               |
| U.S. equity                   | 16%               | 4.75%                                               |
| Total                         | 100%              | -                                                   |

**Discount rate**—At June 30, 2019, the discount rate used to measure the PSPRS and CORP total pension liability was 7.3 percent, which was a decrease of 0.1 percent from the discount rate used as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on these assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The County's proportion of the CORP AOC net pension liability was based on the County's actual contributions to the plans relative to the total of all participating counties' actual contributions for the year ended June 30, 2019. The County's proportion measured as of June 30, 2019, was 5.4703 percent which was a decrease of 0.2109 from its proportion measured as of June 30, 2018.

**Sensitivity of the County's net pension liability to changes in the discount rate**—The following table presents the County's net pension liabilities calculated using the discount rate of 7.3 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.3 percent) or 1 percentage point higher (8.3 percent) than the current rate:

|                                 | 1% Decrease<br>(6.3%) | Current<br>discount rate<br>(7.3%) | 1% Increase<br>(8.3%) |

The amounts reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## C. Elected Officials Retirement Plan

**Plan Description**—Elected officials and judges participate in the Elected Officials Retirement Plan (EORP), ASRS, or the Elected Officials Defined Contribution Retirement System (EODCRS). EORP administers a cost-sharing multiple-employer defined benefit pension plan for elected officials and judges who were members of the plan on December 31, 2013. The EORP pension plan was closed to new members as of January 1, 2014. The PSPRS Board of Trustees governs the EORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The PSPRS issues a publicly available financial report that includes its financial statements and required supplementary information for the EORP plan. The report is available on PSPRS's website at <u>www.psprs.com</u>.

**Benefits provided**—The EORP provides retirement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

| EORP                                                 | Initial membe                                                                                                            | rship date:                                                                                                                                             |

\* With reduced benefits of 0.25% for each month early retirement precedes the member's normal retirement age, with a maximum reduction of 30%.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. In addition, the Legislature may enact permanent one-time benefit increases after a Joint Legislative Budget Committee analysis of the increase's effects on the plan.

**Contributions**—State statutes establish active member and employer contribution requirements. Statute also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State of Arizona to supplement the normal cost plus an amount to amortize the unfunded accrued liability and designates a portion of certain court fees for the EORP. For the year ended June 30, 2020, statute required active EORP members to contribute 7 or 13 percent of the members' annual covered payroll and the County to contribute the actuarially determined rate of 61.43 percent of all active EORP members' annual covered payroll. Also, statute required the County to contribute 49.49 percent to EORP of the annual covered payroll of elected officials and judges who were ASRS members and 55.43 percent to EORP of the annual covered payroll of elected officials and judges who were EODCRS members, in addition to the County's required contributions to ASRS and EODCRS for these elected officials and judges. In addition, statute required the County to contribute 39.72 percent of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the EORP would typically fill. The County's contributions to the pension plan for the year ended June 30, 2020, were \$1,249,273.

During fiscal year 2020, the County paid for EORP pension contributions as follows: 93.4 percent from the General Fund, 2.5 percent from major funds, and 4.1 percent from other funds.

**Liability**—At June 30, 2020, the County reported a liability for its proportionate share of the EORP's net pension liability that reflected a reduction for the County's proportionate share of the State's appropriation for EORP. The amount the County recognized as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that were as follows:

| County's proportionate share of the EORP net pension liability | \$ 18,246,818 |
|----------------------------------------------------------------|---------------|
| State's proportionate share of the EORP net pension liability  |               |
| associated with the County                                     | 1,715,013     |
| Total                                                          | \$ 19,961,831 |

The net liability was measured as of June 30, 2019, and the total liability used to calculate the net liability was determined by an actuarial valuation as of that date. The total liability as of June 30, 2019, reflects changes of actuarial assumptions to decrease the investment rate of return from 7.4 percent to 7.3 percent and update mortality rates.

The County's proportion of the net pension liability was based on the County's required contributions to the pension plan relative to the total of all participating employers' required contributions for the year ended June 30, 2019. The County's proportion measured as of June 30, 2019, was 2.7514 percent, which was a decrease of 0.4031 from its proportion measured as of June 30, 2018.

**Expense**—For the year ended June 30, 2020, the County recognized negative pension expense for EORP of \$4,992,006, and negative revenue of \$448,635 for the County's proportionate share of the State's appropriation to EORP and the designated court fees.

**Deferred outflows/inflows of resources**—At June 30, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| EORP                                                                                                                             | 0  | Deferred<br>utflows of<br>esources | in | eferred<br>flows of<br>sources |
|----------------------------------------------------------------------------------------------------------------------------------|----|------------------------------------|----|--------------------------------|
| Differences between expected and actual<br>experience                                                                            | \$ | 406,817                            | \$ | 17,305                         |
| Changes of assumptions or other inputs<br>Net difference between projected and<br>actual earnings on pension plan                | Ţ  | 57,364                             | ·  | 518,527                        |
| investments<br>Changes in proportion and differences<br>between county contributions and<br>proportionate share of contributions |    | 124,141                            |    | 4 700 700                      |
| County contributions subsequent to the measurement date                                                                          |    | 275,389                            |    | 1,799,769                      |
| Total                                                                                                                            | \$ | 2,112,984                          | \$ | 2,335,601                      |

The amounts reported as deferred outflows of resources related to EORP pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions will be recognized as expenses as follows:

| Year ending June 30 | Pension        |
|---------------------|----------------|
| 2021                | \$ (1,507,067) |
| 2022                | ( 31,658)      |
| 2023                | 34,666         |
| 2024                | 32,169         |

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension liability are as follows:

| EORP—Pension              |                  |
|---------------------------|------------------|
| Actuarial valuation date  | June 30, 2019    |
| Actuarial cost method     | Entry age normal |
| Investment rate of return | 7.3%             |
| Wage inflation            | 3.75%            |
| Price inflation           | 2.5%             |
| Cost-of-living adjustment | 1.75%            |
| Mortality rates           | PubG-2010 tables |

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on EORP plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric rates of return for each major asset class are summarized in the following table:

| EORP                   | Target     | Long-term expected geometric |
|------------------------|------------|------------------------------|
| Asset class            | allocation | real rate of return          |
| Short term investments | 2%         | 0.25%                        |
| Risk parity            | 4%         | 4.01%                        |
| Fixed income           | 5%         | 3.00%                        |
| Real assets            | 9%         | 6.75%                        |
| GTS                    | 12%        | 4.01%                        |
| Private credit         | 16%        | 5.36%                        |
| Real estate            | 10%        | 4.50%                        |
| Private equity         | 12%        | 8.40%                        |
| Non-U.S. equity        | 14%        | 5.00%                        |
| U.S. equity            | 16%        | 4.75%                        |
| Total                  | 100%       | _                            |

**Discount rates**—At June 30, 2019, the discount rate used to measure the EORP total pension liability was 7.3 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the actuarially determined rate, and State contributions will be made as currently required by statute. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the EORP net pension liability to changes in the discount rate—The following table presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.3 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.3 percent) or 1 percentage point higher (8.3 percent) than the current rate:

## 

| EORP                            | Current               |                         |                       |  |  |  |  |
|---------------------------------|-----------------------|-------------------------|-----------------------|--|--|--|--|
|                                 | 1% Decrease<br>(6.3%) | discount rate<br>(7.3%) | 1% Increase<br>(8.3%) |  |  |  |  |
| County's proportionate share of | . ,                   |                         |                       |  |  |  |  |
| the net pension liability       | \$20,895,351          | \$18,246,818            | \$15,990,980          |  |  |  |  |

**Pension plan fiduciary net position**—Detailed information about the pension plan's fiduciary net position is available in the separately issued EORP financial report.

EODCRS plan—Elected officials and judges who are not members of EORP or ASRS participate in the EODCRS. The EODCRS is a defined contribution pension plan. The PSPRS Board of Trustees governs the EODCRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 3.1. Benefit terms, including contribution requirements, are established by state statute.

For the year ended June 30, 2020, active EODCRS members were required by statute to contribute 8 percent of the members' annual covered payroll, and the County was required by statute to contribute 6 percent of active members' annual covered payroll to an individual employee account. Employees are immediately vested in their own contributions and the County's contributions to the individual employee account and the earnings on those contributions. For the year ended June 30, 2020, the County recognized pension expense of \$36.028.

## Note 11 - Interfund balances and activity

Interfund receivables and payables—Interfund balances at June 30, 2020, were as follows:

|                            | Payable to                           |    |        |    |                                                  |    |         |       |           |

| Jail District Fund         | 1,021,321                            |    | -      |    | -                                                |    | 1,350   |       | 1,022,671 |
| Jail Construction Fund     | 555,800                              |    | -      |    | -                                                |    | -       |       | 555,800   |
| Regional Road Fund         | -                                    |    | -      |    | 375,580                                          |    | -       |       | 375,580   |
| HURF Road Fund<br>Nonmajor | 52,003                               |    | -      |    | -                                                |    | -       |       | 52,003    |
| Governmental Funds         | 198,413                              |    | -      |    | 95,169                                           |    | 420,217 |       | 713,799   |
| Total                      | \$1,827,537                          | \$ | 82,323 | \$ | 616,374                                          | \$ | 517,070 | \$    | 3,043,304 |

The interfund balances resulted from time lags between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All interfund balances are expected to be paid in one year.

Interfund transfers—Interfund transfers for the year ended June 30, 2020, were as follows:

|                                   | Transfer to |        |               |            |            |                  |              |               |

| Total                             | \$          | 1,939  | \$ 7,347,695  | \$ 834,446 | \$ 254,394 | \$ 1,911,524     | \$ 1,614,148 | \$ 11,964,146 |

Transfers are used to move the maintenance of effort required by A.R.S. §48-4024 from the General Fund to the Jail District Fund, move funds from the General Fund to the Health Care Fund (Nonmajor Governmental Funds) to subsidize public health initiatives, move receipts restricted to debt service from the Capital Projects Fund to the Capital Projects Debt Service Fund as debt service payments become due, and use unrestricted revenues collected in one fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### Note 12 - County Treasurer's investment pool

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County's monies under the Treasurer's stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments annually at June 30.

The County Treasurer's investment pool is not registered with the Securities and Exchange Commission as an investment company, and there is no regulatory oversight of its operations. The pool's structure does not provide for shares, and the County has not provided or obtained any legally binding guarantees to support the value of the participants' investments. The Treasurer allocates interest earnings to each of the pool's participants.

The deposits and investments the County holds are included in the County Treasurer's investment pool, except for \$42,349 of cash on hand, and \$5,903,735 of deposits, and \$64,153,575 of investments. Therefore, the deposit and investment risks of the Treasurer's investment pool are substantially the same as the County's deposit and investment risks. See Note 3 for disclosure of the County's deposit and investment risks.

Details of each major investment classification follow:

| Investment type                     | Principal   | Interest<br>rates | Maturities        | Fair<br>value |
|-------------------------------------|-------------|-------------------|-------------------|---------------|
| State Treasurer's Investment Pool 5 | \$ 47       | None stated       | None stated       | \$ 47         |
| State Treasurer's Investment Pool 7 | 137,336,000 | None stated       | None stated       | 137,353,094   |
| U.S. Treasury securities            | 8,515,938   | 2.625%            | 8/31/20           | 8,534,531     |
| U.S. agency securities              | 30,213,609  | 1.6-3.0%          | 10/6/20 – 2/10/23 | 30,691,336    |
| Money market funds                  | 14,717,301  | .01%              | 7/01/20           | 14,717,301    |

A condensed statement of the investment pool's net position and changes in net position follows:

| Statement of net position            |               |
|--------------------------------------|---------------|

Yavapai County Required Supplementary Information Notes to Budgetary Comparison Schedules Year Ended June 30, 2020

## Note 1 – Budgeting and Budgetary Control

Arizona Revised Statutes (A.R.S.) requires the County to prepare and adopt a balanced budget annually for each governmental fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Expenditures may not legally exceed appropriations at the department level. In certain instances, transfers of appropriations between departments or from the contingency account to a department may be made upon the Board of Supervisors' approval. With the exception of the General Fund, each fund includes only one department.

## Note 2 – Budgetary Basis of Accounting

The County's budget is prepared on a basis consistent with generally accepted accounting principles.

Yavapai County Required Supplementary Information Notes to Pension Plan Schedules Year Ended June 30, 2020

## Note 1 – Actuarially Determined Contribution Rates

Actuarial determined contribution rates for PSPRS and CORP are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

| Actuarial cost method<br>Amortization method<br>Remaining amortization<br>period as of the 2018<br>actuarial valuation | Entry age normal<br>Level percent-of-pay, closed<br>18 years                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Asset valuation method<br>Actuarial assumptions:                                                                       | 7-year smoothed market value; 80%/120% market corridor                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Investment rate of return                                                                                              | In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%. In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.50%. In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85%.                                                                                                                                                                                                                                   |
| Projected salary increases                                                                                             | In the 2017 actuarial valuation, projected salary increases were decreased from $4.0\%-8.0\%$ to $3.5\%-7.5\%$ for PSPRS and from $4.0\%-7.25\%$ to $3.5\%-6.5\%$ for CORP. In the 2014 actuarial valuation, projected salary increases were decreased from $4.5\%-8.5\%$ to $4.0\%-8.0\%$ for PSPRS and from $4.5\%-7.75\%$ to $4.0\%-7.25\%$ for CORP. In the 2013 actuarial valuation, projected salary increases were decreased from $5.0\%-9.0\%$ to $4.5\%-8.5\%$ for PSPRS and from $5.0\%-9.0\%$ to $4.5\%-7.75\%$ for CORP. |
| Wage growth                                                                                                            | In the 2017 actuarial valuation, wage growth was decreased from 4% to 3.5% for PSPRS and CORP. In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0% for PSPRS and CORP. In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS and CORP.                                                                                                                                                                                                                                     |
| Retirement age                                                                                                         | Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006 - June 30, 2011.                                                                                                                                                                                                                                                                                                                               |
| Mortality                                                                                                              | In the 2017 actuarial valuation, changed to RP-2014 tables, with 75% of MP-2016 fully generational projection scales. RP-2000 mortality table (adjusted by 105% for both males and females)                                                                                                                                                                                                                                                                                                                                          |

Yavapai County Required Supplementary Information Notes to Pension Plan Schedules Year Ended June 30, 2020

## Note 2 – Factors That Affect Trends

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS, CORP, CORP-AOC, and EORP changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS and EORP also reduced those members' employee contribution rates. These changes are reflected in the plans' pension liabilities for fiscal year 2015 (measurement date 2014) for members who were retired as of the law's effective date and fiscal year 2018 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes increased the PSPRS-, CORP-, and CORP-AOC-required pension contributions beginning in fiscal year 2019 for members who were retired as of the law's effective date. These changes increased the PSPRS-, CORP-, and CORP-AOC-required contributions beginning in fiscal year 2019 for members who retired or will retire after the law's effective date. EORP-required contributions are not based on actuarial valuations, and therefore, these changes did not affect them. Also, the County refunded excess employee contributions to PSPRS and EORP members. PSPRS and EORP allowed the County to reduce its actual employer contributions for the refund amounts. As a result, the County's pension contributions were less than the statutorily required contributions for EORP in 2018 and 2019, and PSPRS in 2019.

The fiscal year 2019 (measurement date 2018) pension liabilities for EORP and CORP reflect the replacement of the permanent benefit increase (PBI) for retirees based on investment returns with a cost of living adjustment based on inflation. Also, the EORP liability and required pension contributions for fiscal year 2019 reflect a statutory change that requires the employer contribution rate to be actuarially determined. This change increased the discount rate used to calculate the liability thereby reducing the total pension liability.

Source: Taxes levied obtained from the Yavapai County Board of Supervisors Adopted Budget. Collections obtained from the Yavapai County Treasurer.

1) General Fund levies and collections only.

2) Taxes levied for the fiscal year is the budgeted levy. The actual levy is generally lower when assessed because of a decrease in net assessed values due to taxpayer appeals.

Source: Details regarding the County's outstanding debt can be found in the notes to the financial statements.

- 1) Final payment for the Jail District Revenue Bonds was made during 2012 and Jail District Pledge Revenue Obligations were issued on June 4, 2020.
- 2) Revenues include beginning fund balance and transfers in. Beginning fund balance is included in revenues since it represents unexpended pledged revenues.
- 3) Expenditures include transfers out, except those for debt service.
- 4) Highway project repayments include unspent bond proceeds and repayments made by the Arizona Department of Transportation.
- 5) Final payments for the Highway Construction Advancement Revenue Bonds were made during 2012.
