CONCLUSION: Based on our audit, we issued opinions on the District’s financial statements and federal expenditure schedule concluding that the information in those statements and schedule is reliable. We also issued reports over the District’s internal control and compliance over financial reporting and select federal programs, which identified an internal control weakness over financial reporting that are explained on the next page.

District overview

District provides post-secondary education in Pima County—In fiscal year 2019, the District provided postsecondary education to almost 41,000 students of whom nearly 69 percent were part-time. It has 8 campuses and centers located around the Tucson metropolitan area in Pima County, which encompasses an area of 9,240 square miles. The District partners with high schools to provide college-level classes throughout Pima County. The District also partners with Santa Cruz County Provisional Community College District to provide college-level educational opportunities for Santa Cruz County residents.

District responsible for accurate financial report—The District is responsible for accurately preparing its Comprehensive Annual Financial Report (CAFR), maintaining effective internal controls, and being accountable for its use of public monies. Select financial information from the District’s CAFR is presented below. However, the District’s CAFR should be read to fully understand its overall financial picture. Our Financial Report User Guide for Colleges and Universities will help readers identify and understand important and useful information in the District’s CAFR.

- 16.1 Scholarships
Select revenues by function
Fiscal years 2010 through 2019
(In millions)

• **Property taxes**—Taxes the District levied on the assessed value of real and personal property within Pima County. The Pima County Treasurer collects the tax revenues and remits them to the District.

• **Government grants and contracts**—State and federal government grant programs awarded primarily for student financial aid and contracts to provide educational services.

• **Tuition and fees, net of financial assistance**—Charges to students for educational services, net of any District student financial assistance revenues that were used to cover the students’ tuition and fees.

• **State assistance**—State appropriations for general operations and maintenance, science/technology and workforce programs, and the District’s share of State sales taxes. Starting in fiscal year 2016, 100 percent was from the District’s share of State sales taxes.

Audit finding and recommendation

Below is a summary of our reports on the District’s internal control and compliance over financial reporting and over federal programs that are included in the District’s Single Audit Report, where there is detailed information about our finding and the District’s response. For help in understanding important information presented in this report, please refer to our Internal Control and Compliance Reports User Guide.

Financial reporting internal control  IT security finding and recommendation

We found that the District lacked adequate procedures to ensure all IT system changes and configurations were adequately managed and maintained. To help ensure its IT systems and data are protected, the District needs to improve its change management process to identify, document, evaluate for security implications, and test and approve all system changes and configurations prior to implementation. We reported a similar IT finding in the prior year.

Federal internal control and compliance  No reported findings

The District spent nearly $52 million of federal program monies during the fiscal year. We tested 4 federal programs selected under the major program guidelines established by the Single Audit Act, which included adult education, student financial aid, at-risk youth educational assistance, and grants to healthcare professionals, which totaled over $49 million in federal expenditures. We reported no findings over those federal programs.
