TO THE
ARIZONA LEGISLATURE

Financial Audit Division

Single Audit

State of Arizona

Year Ended June 30, 2003

Debra K. Davenport
Auditor General

The **Auditor General** is appointed by the Joint Legislative Audit Committee, a bipartisan committee composed of five senators and five representatives. Her mission is to provide independent and impartial information and specific recommendations to improve the operations of state and local government entities. To this end, she provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits of school districts, state agencies, and the programs they administer.

**Independent Auditors' Report on Compliance and on Internal Control over
Financial Reporting Based on an Audit of Basic Financial Statements
Performed in Accordance with *Government Auditing Standards***

The Honorable Janet Napolitano, Governor
State of Arizona

The Honorable Ken Bennett, President
Arizona State Senate

The Honorable Franklin L. "Jake" Flake, Speaker
Arizona House of Representatives

The Honorable Charles E. Jones, Chief Justice
Arizona Supreme Court

We have audited the financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State of Arizona as of and for the year ended June 30, 2003, which collectively comprise the State's basic financial statements and have issued our report thereon dated January 16, 2004, which was modified for the following reasons as described therein. An adverse opinion was expressed on the aggregate discretely presented component units because the financial statements of the State Compensation Fund are presented on a statutory basis of accounting that is not in conformity with U.S. generally accepted accounting principles. In addition, our report was modified as to consistency because of a change in reporting entity resulting from fund reclassifications; a change in the application of an accounting principle for an increase in the capitalization threshold for equipment at the University of Arizona; and because the State Compensation Fund changed its basis for reporting financial statements from U.S. generally accepted accounting principles to a statutory basis of accounting. Finally, our report was modified due to our reliance on the reports of other auditors. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Arizona Power Authority, State Compensation Fund, and University Medical Center, included in the discretely presented Component Units statements; and the Public Safety Personnel Retirement System, Corrections Officer Retirement Plan, and Elected Officials' Retirement Plan included in the Fiduciary statements; were not audited by the other auditors in accordance with *Government Auditing Standards*.

Compliance

As part of obtaining reasonable assurance about whether the State's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests and the reports of the other auditors disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we will report to various state agencies' management in separate letters.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the State's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily disclose all matters in internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We and the reports of the other auditors noted no matters involving internal control over financial reporting and its operation that we and the other auditors consider to be material weaknesses. However, we noted other matters involving internal control over financial reporting that we will report to the State's management in separate letters.

This report is intended solely for your information and that of the Chairperson and Vice Chairperson of the Joint Legislative Audit Committee, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

**Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and on Internal Control over Compliance in
Accordance with OMB Circular A-133**

State of Arizona

Compliance

We have audited the compliance of the State of Arizona with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2003, except for that portion of the federal programs administered by the Arizona Health Care Cost Containment System, the Arizona Department of Transportation, and the Water Infrastructure Finance Authority. Those departments were audited by other auditors, and our opinion, insofar as it relates to the compliance of those departments with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement*, is based solely on the work of the other auditors. The State's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the State's management. Our responsibility is to express an opinion on the State's compliance based on our audit and the work of the other auditors.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit and the work of the other auditors provide a reasonable basis for our opinion. Our audit does not provide a legal determination on the State's compliance with those requirements.

As described in the following table, the State did not comply with certain compliance requirements that are applicable to the following major federal programs. Compliance with such requirements is necessary, in our opinion, for the State to comply with requirements applicable to those programs.

<u>Program Title (CFDA No.)</u>	<u>Compliance Requirement</u>	<u>Finding No.</u>
Food Stamps (10.551)	Special Tests and Provisions	03-101
Special Supplemental Nutrition Program For Women, Infants, and Children (10.557)	Cash Management	03-110, 03-111
Special Education—Grants to States (84.027)	Matching, Level of Effort, and Earmarking	03-114
Special Education—Preschool Grants (84.173)	Matching, Level of Effort, and Earmarking	03-114
Temporary Assistance for Needy Families (93.558)	Activities Allowed or Unallowed; Allowable Costs/Cost Principles; Eligibility	03-101, 03-102

In our opinion, based on our audit and the work of the other auditors, except for the noncompliance described in the preceding table, the State complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and are described in the accompanying Schedule of Findings and Questioned Costs as items 03-103, 03-104, 03-105, 03-106, 03-107, 03-108, 03-109, 03-112, 03-113, 03-114, 03-115, 03-116, and 03-117.

Internal Control over Compliance

The State's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the State's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control over compliance that, in our judgment, could adversely affect the State's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants. Those reportable conditions are described in the accompanying schedule of findings and questioned costs as items 03-101, 03-102, 03-103, 03-104, 03-105, 03-106, 03-107, 03-108, 03-109, 03-110, 03-111, 03-112, 03-113, 03-114, 03-115, 03-116, and 03-117.

A material weakness is a condition in which the design or operation of one or more internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of internal control over compliance would not necessarily disclose all such internal control matters that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider items 03-101, 03-102, 03-104, 03-105, 03-110, 03-111, and 03-114 to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the State as of and for the year ended June 30, 2003, and have issued our report thereon dated January 16, 2004, which was modified for the following reasons as described therein. An adverse opinion was expressed on the aggregate discretely presented component units because the financial statements of the State Compensation Fund are presented on a statutory basis of accounting that is not in conformity with U.S. generally accepted accounting principles. In addition, our report was modified as to consistency because of a change in reporting entity resulting from fund reclassifications; a change in the application of an accounting principle for an increase in the capitalization threshold for equipment at the University of Arizona; and because the State Compensation Fund changed its basis for reporting financial statements from U.S. generally accepted accounting principles to a statutory basis of accounting. Finally, our report was modified due to our reliance on the reports of other auditors. Our audit was made for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, based on our audit and the work of the other auditors, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for your information and that of the Chairperson and Vice Chairperson of the Joint Legislative Audit Committee, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2003

Note 1 - Significant Accounting Policies

Basis of Presentation—The information in the schedule is presented in accordance with the requirements of OMB Circular A-133.

Reporting Entity—The schedule includes all federal awards activity administered by the State of Arizona and its component units.

Basis of Accounting—The federal awards reported in the schedule were presented in the State's governmental and proprietary funds and discretely presented component units on the basic financial statements of the State of Arizona for the year ended June 30, 2003; and were accounted for using the modified accrual and full accrual basis of accounting, as applicable, in conformity with generally accepted accounting principles.

Expenditures—Certain transactions relating to expenditures of federal awards may appear in the records of more than one state grantee agency. To avoid duplication and the overstatement of the aggregate level of federal awards expended by the State of Arizona, the following policies have been adopted:

1. When monies are received by one state grantee agency and distributed to another state grantee agency, the federal monies are reported in the accounts of the state grantee agency that expends the monies.
2. Purchases of services between state grantee agencies using federal monies are recorded as expenditures on the purchasing agency's records and as revenues for services rendered on the providing agency's records. Therefore, the receipt of federal awards is attributed to the purchasing agency, which is the primary receiving/expending state grantee agency.

Note 2 - Catalog of Federal Domestic Assistance (CFDA)/Identifying Number

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the *2003 Catalog of Federal Domestic Assistance*. When a CFDA number was nonexistent or unknown, the first two digits applicable to the federal agency, if known, were used; followed by the federal contract number to identify the program. If the federal contract number was also unknown, the identifying number was composed of the first two digits applicable to the federal agency followed by the word "Unknown."

Note 3 - Research and Development Cluster

As provided by OMB Circular A133, the research and development cluster of programs is summarized by federal agency subdivision or pass-through entity.

State of Arizona
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2003

Note 4 - Pass-through Grantor Contract Numbers

For federal awards received by the State from a pass-through grantor, the pass-through grantor contract number is included, if applicable, immediately following the pass-through grantor's name. Pass-through grantors are italicized.

Note 5 - Loan and Loan Guarantee Programs

Only administrative costs incurred for loan and loan guarantee programs are included in the schedule. However, OMB Circular A-133, Subpart B, §205(b) requires that the current-year administrative costs and loan distributions, and the balances of the previous year's outstanding student loans and loan guarantees, also be included for these programs when determining federal awards expended for single audit purposes. Further, Subpart B, §310(b)(6) requires that loans or loan guarantees outstanding at year-end be included in either the schedule or a note to the schedule. Loans and loan guarantees outstanding at June 30, 2003, are described below:

Student Loan Programs

The Universities administer the following three federal student loan programs. The current-year loan distributions and the balances of loans outstanding at year-end are shown below:

Loan Program	CFDA Number	Loans Distributed During the Year	Loan Balances Outstanding at June 30, 2003
Federal Perkins Loan Program—Federal Capital Contributions	84.038	\$6,639,123	\$29,989,008
Health Professions Student Loans, including Primary Care Loans/Loans for Disadvantaged Students	93.342	264,785	1,793,862
Nursing Student Loans	93.364	301,149	1,067,171

In addition, the Universities distribute loans from two federal loan programs that are administered by independent third parties. For the year ended June 30, 2003, the Universities distributed \$117,676,725 of Federal Family Education Loans (CFDA number 84.032) and \$193,160,277 of Federal Direct Student Loans (CFDA number 84.268).

Year Ended June 30, 2003

Loan Guarantee Programs

The Water Infrastructure Finance Authority (WIFA), a discretely presented component unit on the State's fiscal year 2003 basic financial statements, has entered into capitalization grant agreements with the U.S. Environmental Protection Agency. During fiscal year 2003, the WIFA received capitalization grant monies totaling \$1,015,388 from the Capitalization Grants for Clean Water State Revolving Funds (CFDA number 66.458) program and \$2,267,881 from the Capitalization Grants for Drinking Water State Revolving Funds (CFDA number 66.468) program for deposit into their revolving loan guarantee funds. The balances of the federal guarantee portion of the loans outstanding for these capitalization grants were \$134,424,307 and \$44,999,372, respectively, at June 30, 2003.

Housing Program

The Department of Housing administers the HOME Investment Partnerships Program (CFDA number 14.239), which provides loans to municipalities, nonprofit organizations, and individuals to purchase homes and rental properties. The Department distributed \$888,193 in loans during fiscal year 2003 and had \$12,786,473 in loan balances outstanding at June 30, 2003.

Note 6 - Food Commodities

Food commodities received by the State are disbursed through distributing agencies. Such commodities are included in the definition of federal awards when distributed and, accordingly, are included in the amounts presented on the schedule. The State's food commodity distributions totaled \$26,113,558, and the amounts, by CFDA number, are presented as follows:

<u>CFDA No.</u>	<u>Program</u>	<u>Amount</u>
10.553	School Breakfast Program	\$ 497,143
10.555	National School Lunch Program	13,571,610
10.565	Commodity Supplemental Food Program	4,012,578
10.569	Emergency Food Assistance Program	8,031,227
	(Food Commodities)	

Note 7 - Donation of Federal Surplus Personal Property

The value of the Donation of Federal Surplus Personal Property (CFDA number 39.003) program reported on the schedule is based on a "market basket formula" developed by the U.S. General Services Administration. This market basket formula represents 23.3 percent of the original federal acquisition cost, totaling \$41,496 for the year ended June 30, 2003.

Year Ended June 30, 2003

Note 8 - Immunization and HIV Grants

The Immunization Grants (CFDA number 93.268) expenditures of \$29,474,629 include \$24,166,564 worth of vaccines. The HIV Care Formula Grants (CFDA number 93.917) expenditures of \$8,976,466 include \$5,486,359 worth of vaccines. Vaccines administered by the Department of Health Services are included in the definition of federal awards and, accordingly, are included in the amount presented on the schedule.

Note 9 - Unemployment Insurance (CFDA No. 17.225)

The unemployment compensation system is a unique federal-state partnership, founded upon federal law, but implemented through state law. As prescribed by the U.S. Department of Labor in consultation with the Office of Management and Budget, certain state monies, in addition to federal monies, were considered federal awards for determining Type A programs, and were included in the Schedule of Expenditures of Federal Awards.

The amount presented on the schedule consists of the following:

Regular unemployment compensation benefits	\$449,451,454
Unemployment compensation for federal employees	4,218,483
Unemployment compensation for ex-service members	2,015,131
Administrative costs	<u>32,116,580</u>
Total expenditures	<u>\$487,801,648</u>

CFDA No.: 10.551 **Food Stamps**

CFDA No.: 93.558 **Temporary Assistance for Needy Families, #s G0201AZTANF, G0201AZTANG, GO301AZTANF, and G030AZTANG**

U.S. Department of Agriculture

Award Period: July 1, 2002 through June 30, 2003

U.S. Department of Health and Human Services

Award Period: October 1, 2001 through September 30, 2002 and
October 1, 2002 through September 30, 2003

Questioned Cost: \$98,696

The Department of Economic Security, Division of Benefits and Medical Eligibility did not enforce its internal control policies and procedures for activating and issuing Electronic Benefits Transfer (EBT) cards for food stamps and cash assistance benefits at its local Family Assistance Administrative (FAA) Offices to ensure food stamps and cash assistance benefits were issued to eligible recipients. We tested 10 of the 94 FAA Offices and noted that these Offices did not always follow their Division's established internal control policies and procedures. Specifically, the following internal control weaknesses were noted at the selected local FAA Offices: allowing the same employee to activate and issue EBT cards; not always requesting identification or documenting identities of recipients; not reconciling EBT cards issued to inventory records and destroying damaged EBT cards, and inadequately safeguarding the pin selection terminals. In addition, several employees manipulated the eligibility computer system and alleged fraud was committed in the amount of \$98,696. These employees authorized both food stamps and cash assistance benefits to eligible recipients and used the benefits issued on the EBT cards for themselves. The cases were forwarded to the Arizona Attorney General's Office.

It was not practical to extend our auditing procedures sufficiently to determine additional questioned costs, if any, that may have resulted from this finding. This finding is a material internal control weakness and material noncompliance with the Food Stamps program's special tests and provisions requirements. It is also a material internal control weakness and material noncompliance for the Temporary Assistance for Needy Families (TANF) program's activities allowed or unallowed, allowable costs and cost principles, and eligibility requirements.

To comply with the Food Stamps program's special tests and provisions requirements stipulated in 7 Code of Federal Regulations (CFR) §§274.11(c), 274.12(i)(3), and the TANF program's activities allowed or unallowed, allowable costs and cost principles, and eligibility requirements specified in 45 CFR §206.10, the Division of Benefits and Medical Eligibility should enforce its internal control policies and procedures over the process of authorizing and issuing EBT cards at the FAA Offices and monitor these Offices regularly to ensure that internal controls are in place to safeguard against unauthorized transactions.

CFDA No.: 93.558 **Temporary Assistance for Needy Families, #s G0201AZTANF, G0201AZTANG, G0301AZTANF, and G030AZTANG**

U.S. Department of Health and Human Services

Award Period: October 1, 2001 through September 30, 2002 and
October 1, 2002 through September 30, 2003

Questioned Cost: \$13,753

The Department of Economic Security, Division of Benefits and Medical Eligibility failed to maintain Temporary Assistance for Needy Families (TANF) recipients' case files that contained all required data to ensure compliance with activities allowed or unallowed, allowable costs and cost principals, and eligibility requirements. As a result, the Department could not locate 7 of the 40 cash assistance recipients' case files requested. We were unable to perform additional audit procedures to validate the legitimacy of the recipients. For the audit period July 1, 2002 through June 30, 2003, these clients were awarded \$13,753 in cash assistance.

It was not practical to extend our auditing procedures sufficiently to determine additional questioned costs, if any, that may have resulted from this finding. This finding is a material internal control weakness and material noncompliance with the TANF program's activities allowed or unallowed, allowable costs and cost principals, and eligibility requirements.

To comply with 45 CFR §206.10, the Department should properly maintain and retain its recipients' case files to support program expenditures. Each case file must contain a written application signed by the recipient requesting cash assistance and documentation supporting each decision regarding eligibility.

The Department of Economic Security, Division of Benefits and Medical Eligibility, FAA Offices issued EBT cards using its eligibility computer system as well as issuing EBT cards on an emergency basis. However, when reconciling authorizations, the Division only reconciled the automated EBT issuances and excluded the emergency EBT issuances and cancellations. In addition, the Division relied on the contracted company's EBT reports to prepare its issuance data on the FNS-46 Issuance Reconciliation Report that might contain unresolved reconciling differences from the Division's eligibility computer system. Further, the Department did not report instances of alleged fraud that occurred during the award period on the FNS-46 Report. See finding number 03-101.

This finding is a reportable condition and immaterial noncompliance with the Food Stamps program's reporting and special tests and provisions requirements. It was not practical to extend our auditing procedures sufficiently to determine questioned costs, if any, that may have resulted from this finding.

State of Arizona
Schedule of Findings and Questioned Costs
Year Ended June 30, 2003

To comply with 7 CFR §274.4, the Department should reconcile all authorized issuances generated from its eligibility computer system to the confirmed amounts received from the contracted EBT company; identify and correct reconciling differences; and properly report the issuances on the FNS-46 Issuance Reconciliation Report. Further, the Department should include reconciling differences; improper issuance transactions; and losses related to noncompliance with Food Nutrition Services directives on the FNS-46 Report.

CFDA No.: 10.551 **Food Stamps**

U.S. Department of Agriculture

Award Period: July 1, 2002 through June 30, 2003

Questioned Cost: \$172

The Department of Economic Security, Division of Benefits and Medical Eligibility did not have adequate internal control policies and procedures to ensure that changes made throughout the year to recipients' cash assistance benefits were consistently recorded within the recipients' case files in its eligibility computer system. For example, if a change occurred in a recipient's cash assistance benefit, an eligibility intake worker was required to manually update this information in the food stamp case file. We noted for 2 of 32 recipients that cash assistance benefits changes were not reflected in the food stamp calculation. As a result, one recipient was overpaid \$172 in food stamp benefits, and the overpayment was not referred to the Department's Collections Office.

It was not practical to extend our auditing procedures to determine any additional questioned costs, if any, that may have resulted from this finding. We performed sufficient test work and determined that the Department materially complied with the Food Stamps program's special tests and provisions requirements. This finding is a material internal control weakness and immaterial noncompliance with the program's special tests and provisions requirements.

To comply with 7 CFR §272.10(b)(1), the Department should establish adequate internal control policies and procedures to authorize and issue food stamps benefits. Specifically, the Department should generate exception reports, link the food stamps calculation table to the cash assistance benefits award table, or create an edit check to notify employees when food stamp benefit calculations need to be updated.

The Department of Economic Security, Disability Determination Services Administration (DDSA) did not adequately enforce its internal control policies and procedures to ensure compliance with the program's activities allowed or unallowed and allowable costs and cost principles requirements. Specifically, the

State of Arizona

DDSA paid five doctors' \$4,744 for services provided without adequate supporting documentation such as a written contract or vendor invoice and underpaid a vendor for a transportation service. In addition, the DDSA did not void a warrant issued for an incorrect amount for a doctor's service. Instead, the DDSA overpaid the doctor with the incorrect amount, maintained an informal record of the difference, and deducted it from a subsequent payment. It was not practical to extend our auditing procedures sufficiently to determine additional questioned costs, if any, that may have resulted from this finding.

This finding is considered a material internal control weakness. However, we performed additional test work and determined that the DDSA materially complied with the program's activities allowed or unallowed and allowable costs and cost principles requirements for fiscal year 2003.

To comply with 42 CFR §434.6 and OMB Circular A-87—Cost Principles for State, Local, and Indian Tribal Governments, §C(1)(j), the DDSA should enforce its internal control policies and procedures to ensure that all its expenditures are supported by a contract or vendor invoice.

The Department of Economic Security, Disability Determination Service Administration contracted with 53 doctors to review applicants' medical files and perform eligibility determination for social security disability benefits. These doctors attended the Department's in-house training classes and performed their contracted duties at the Department. Over the last 3 years, eight doctors petitioned the Internal Revenue Service (IRS) requesting a determination of their employment status with the Department for federal employment tax purposes. In December 2000, the IRS ruled that their employment status should be that of an employee and not of an independent contractor. The IRS also requested the Department to pay employer's taxes on these contracted doctors retroactive to calendar year 1997. In April 2001, the Department submitted additional information to the IRS supporting its determination that the doctors should be classified as contractors. However, in May 2001, the IRS reaffirmed its opinion that the doctors should be classified as employees. The Department has not had any further contact with the IRS as of February 2004.

This finding is a reportable condition and immaterial noncompliance with the program's activities allowed or unallowed and allowable costs and cost principles requirements.

To help ensure compliance with 26 U.S. Code §3121(d)-1 and 26 §31.3401(c)-1, the Department should contact the IRS to resolve this matter as soon as possible before additional penalties and interest are assessed onto prior years' unpaid employer social security and Medicare taxes.

Award Period: October 1, 2000 through September 30, 2003 and
October 1, 2001 through September 30, 2004

Questioned Cost: \$402,255

The Department of Economic Security is responsible for administering the Trade Adjustment Assistance—Workers program and passes through federal monies to the Arizona Department of Education. The Department incorrectly reported the administrative costs incurred by the Arizona Department of Education in fiscal year 2003 as training expenditures on the ETA 9023, Trade Adjustment Assistance, Financial Status Report/Request for Funds and the SF-269, Financial Status Report. As a result, the Department exceeded the allowable administrative costs specified in the fiscal years 2001 and 2002 grant agreements by \$402,255 that resulted in a questioned cost. This finding is a reportable condition and immaterial noncompliance with the program's activities allowed or unallowed and allowable costs and cost principles requirements.

To comply with the program's grant agreements, the Department should accurately report all administrative expenditures incurred within the State on the ETA 9023, Trade Adjustment Assistance, Financial Status Report/Request for Funds or the SF -269, Financial Status Report.

Questioned Cost: \$12,364

The Department of Economic Security did not adequately enforce its internal control policies and procedures to ensure compliance with the program's activities allowed or unallowed and allowable costs and cost principles requirements. Specifically, we noted the Department did not require recipients receiving subsistence allowances to provide weekly invoices for lodging expenses. As a result, we found one recipient's subsistence allowance for the year in the amount of \$5,455 was not properly supported by cost documentation. Further, the Department incorrectly classified \$6,909 of training expenditures for the Trade Adjustment Assistance grant to the North American Free Trade Agreement grant resulting in a questioned cost. Although both grants were within the same program, each had its own grant award amount.

It was not practical to extend our auditing procedures sufficiently to determine additional questioned costs from the remaining transactions that we did not test, if any, that may have resulted from these internal control weaknesses. However, we performed additional test work and determined that the Department materially complied with the program's activities allowed or unallowed and allowable costs and cost principles requirements. This finding is a reportable condition and immaterial noncompliance with the program's activities allowed or unallowed and allowable costs and cost principles requirements.

The Department of Economic Security, Workforce Development Administration did not have adequate procedures to ensure compliance with the program's subrecipient monitoring requirements. Specifically, subrecipients are required to report their compliance with the program's fiscal rules and regulations using a self-assessment monitoring tool developed by the Administration. However, the Administration did not verify that the information contained in the fiscal self-assessments was accurate while performing its on-site visits. Further, the Administration did not have adequate procedures to ensure that its subrecipients who spent \$300,000 or more in federal assistance obtained an annual single audit or program-specific audit as required by OMB Circular A-133, §.400(d)(4).

We extended our auditing procedures sufficiently and determined that the Administration materially complied with the program's subrecipient monitoring requirements. This finding is a reportable condition and immaterial noncompliance with the program's subrecipient monitoring requirements.

To comply with 20 CFR §667.400(c) and OMB Circular A133, §.400(d)(4), the Department should establish adequate internal control policies and procedures to ensure that the information presented on the subrecipients' fiscal self assessments is accurately presented and that its subrecipients expending federal assistance of \$300,000 or more obtain an annual single or program-specific audit.

#7AZ700AZ7**

U.S. Department of Agriculture

Award Period: July 1, 2002 through June 30, 2003

Questioned Cost: Unknown

The Department of Health Services did not have adequate internal control policies and procedures to ensure compliance with the Treasury State Agreement (TSA) when drawing monies to redeem food vouchers. Under the TSA, the State has agreed to draw monies to redeem food vouchers for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) program using the modified zero-balance accounting method. This method requires the Department to request the actual amount paid by the State's fiscal agent 1 day after it is paid. However, for 5 of 12 cash drawdowns selected for test work, the Department did not comply with the TSA when drawing the monies for the WIC programs. Specifically, amounts totaling \$5,512,509 were drawn even though the Department's fiscal agent had not paid these amounts to redeem WIC food vouchers. Also, the Department drew \$9,799 less than one payment to redeem WIC food vouchers. The Department did not use the excess monies drawn to immediately adjust the amount of subsequent draws and there was an excess balance in the WIC food fund in the amount of \$798,154 that still existed at June 30, 2003.

It was not practical to extend our auditing procedures sufficiently to determine questioned costs, if any, that may have resulted from this finding. This finding is a material internal control weakness and material noncompliance with the program's cash management requirements.

To comply with the TSA, the Department should ensure that federal monies used to redeem food vouchers are drawn using the modified zero-balance accounting method.

U.S. Department of Agriculture

Award Period: July 1, 2002 through June 30, 2003

Questioned Cost: Unknown

The Department of Health Services did not have adequate internal control policies and procedures to ensure compliance with the Treasury State Agreement (TSA) over payroll and other administrative costs. In the TSA, the State has agreed to draw monies for the WIC program administrative costs using the pre-issuance funding method. This method requires the Department to request the monies no more than 2 days prior to the day the monies are disbursed. For 1 of 10 Nutrition Services and Administration (NSA) cash drawdowns selected for test work, the Department did not comply with the TSA when drawing the monies. The Department transferred federal monies totaling \$2,171 from the food fund into the administrative fund and did not expend the monies until 9 days later. In another instance, the Department accumulated an excess balance in the administrative fund of \$362,154 that was transferred to the food fund for payment of food vouchers.

CFDA No.: 84.010 **Title I Grants to Local Educational Agencies, #S010A000003B**

U.S. Department of Education

Award Period: July 1, 2002 through September 30, 2003

Questioned Cost: Unknown

The Arizona Department of Education annually prepares and submits the National Public Education Financial Survey (NPEFS) to the National Center for Educational Statistics. The NPEFS per-pupil expenditures detailed in the survey are used by the U.S. Department of Education to allocate federal monies to the Elementary and Secondary Education Act grants, including the Title I Grants to Local Educational Agencies.

The Department made several errors on its final NPEFS report submitted in 2003. Specifically, prior-year carryover amounts were understated by \$4,400,726 and one school district's other expenditures were improperly recorded on the NPEFS property expenditures line item. The net effect of these errors would potentially overstate per-pupil expenditures and the State's allotment for the 2005 award year. Further, the Department noted errors on its initial NPEFS report and subsequently submitted adjustments to correct those errors; however, the adjustments were not properly supported.

It was not practical to extend our auditing procedures sufficiently to determine questioned costs, if any, that may have resulted from this finding. However, this finding is a reportable condition and immaterial noncompliance with the program's reporting requirements. This instance of noncompliance with the program's reporting requirements is similar to a prior-year finding.

To help ensure compliance with the reporting requirements of the program, the Department should implement policies and procedures to ensure its NPEFS report amounts agree to supporting worksheets and documentation. Further, management should ensure that those policies and procedures are followed.

The U.S. Department of Education's *Uniform Administrative Requirements for Grants and Cooperative Agreements with State and Local Governments*, 34 CFR §80.37(a)(4) requires states to substantially conform any advances of grant monies to subgrantees to the same standards of timing and amount that apply to cash advances by federal agencies. However, the Arizona Department of Education did not have adequate policies and procedures in place to ensure that its subrecipients were in compliance with cash management compliance requirements. The Department allowed subrecipients to accumulate up to 4 percent of their budgeted awards as excess cash, and this accumulated excess cash was not returned to the Department until the subrecipients submitted their annual completion reports to the Department on September 30.

It was not practical to extend our auditing procedures sufficiently to determine questioned costs, if any, that may have resulted from this finding. However, this finding is a reportable condition and immaterial noncompliance with the program's cash management requirements. This instance of noncompliance with cash management requirements is similar to a prior-year finding.

To help ensure compliance with cash management requirements, the Department should maintain adequate supporting documents, disburse funds within 2 days of receipt, and require subrecipients to conform to the same standards of timing and amount for the drawdown of federal monies as prescribed in the Treasury State Agreement between the State of Arizona and the Secretary of Treasury.

State of Arizona
Schedule of Findings and Questioned Costs
Year Ended June 30, 2003

However, the Department did not have adequate policies and monitoring procedures in place to ensure compliance with the maintenance-of-effort requirements prior to awarding grant monies to subrecipients. Consequently, inaccurate and incomplete data was reflected for the Special Education grants. Also, the Department noted noncompliance for the Title I Grant to Local Educational Agencies and Improving Teacher Quality Grant programs; however, it did not take the necessary steps to either obtain a waiver from the U.S. Department of Education (USDOE) or reduce the funding to those subrecipients, resulting in a total questioned cost of \$15,963. This instance of noncompliance is similar to a prior-year finding.

It was not practical to extend our auditing procedures to determine questioned costs, if any, for the Special Education programs that would have resulted from this finding. However, this finding is a material weakness and material noncompliance with the Special Education Programs' maintenance-of-effort requirements. In addition, the finding is a reportable condition and immaterial noncompliance to the Title I Grants to Local Educational Agencies and Improving Teacher Quality State Grants programs' maintenance-of-effort requirements.

To help ensure compliance with 34 CFR §300.231(c)(1) maintenance-of-effort requirements, the Department should ensure that its procedures for determining maintenance-of-effort are followed. The Department of Education cash management internal control policies and procedures require a reconciliation of the Grant Administration and Payment System (GAPS) to the State's Arizona Financial Information System (AFIS) records on a monthly basis. However, these reconciliations were not complete. The Department of Economic Security is responsible for administering the Workforce Investment Act and passes through federal monies to other state agencies. The Department incorrectly reported administrative expenditures incurred by the Arizona Department of Education and Arizona State University in fiscal year 2003 as program expenditures on the ETA 9076-A, Workforce Investment Act Statewide Activities, Financial Status Report and did not break out administrative and program expenditures. As a result, the Department may have exceeded the programs' 5 percent administrative cost allowance. Further, a similar finding was noted by the U.S. Department of Labor in a federal report issued to the Department in September 2002.

Agency description:

To help ensure food stamps and cash assistance benefits are issued only to eligible recipients, the Department of Economic Security, Family Assistance Administration local office managers will monitor the Electronic Benefits Transfer (EBT) process on a daily basis for compliance with the following internal controls over the process of activating and issuing EBT cards:

- adequate segregation of the responsibilities of authorizing and issuing EBT cards;
- consistent request for and documentation of recipient's identification;
- proper reconciliation of EBT cards;
- adequate destruction of damaged EBT cards; and
- adequate safeguarding of the pin selection terminals.

To prevent fraud, the AZTECS computer subsystem has been modified to generate exception reports for large-dollar transactions; family sizes greater than a specified number; unusual activity by employees; and other case conditions. In addition, the following procedures have been implemented:

1. management approval is required for authorization and issuance of all supplemental payments; and
2. local office managers are required to periodically verify the proper use of logon identification or passwords by employees.

Finding No.: 03-104

Status: Concur

Agency description:

To help ensure that changes made to the recipients' cash assistance benefits are consistently reflected in the food stamp calculation throughout the fiscal year within the recipients' case files in its eligibility computer system, the Department of Economic Security, Division of Benefits and Medical Eligibility (DBME) will:

1. revise the Arizona Integrated Manual and Benefit Information Guide to include instructions on effecting changes for participants involved in multiple cases; and
2. provide periodic staff training on the policy and procedures regarding the change process.

DBME will also perform assessments to determine whether it would be more beneficial to provide additional training or additional system-generated reports.

Status: Concur

Agency description:

To help ensure that payments to doctors who travel and provide special services are properly supported by a contract price or vendor invoice, the Department of Economic Security, Disability Determination Service Administration (DDSA) will add an Addendum to the Consultative Examiners Service Agreements that delineates the amount to be paid for examinations, mileage, lodging, and rent (if applicable). This Addendum will be effective May 2004.

To help ensure that vendors are paid correctly, DDSA consistently will enforce its established procedures for payments, which include:

- approval of vendor invoices;
- segregation of the responsibilities for preparation and approval of payment vouchers;
- matching of invoices to payment vouchers; and
- properly voiding warrants with incorrect amounts.

In addition, to correct the \$25 underpayment to a vendor for a transportation service, DDSA will process a payment to the vendor by May 2004.

Agency description:

The Department of Economic Security (Department), Disability Determination Service Administration is working with the Procurement Administrator and the Arizona Attorney General's Office to determine the appropriate course of action to resolve the issue with the Internal Revenue Service (IRS) regarding classification of its medical consultants as employees. The IRS has not audited any of the Department's records that pertain to this matter and has not issued a formal determination.

To clarify the relationship of the medical consultants as subcontractors or independent contractors, the Department is currently in the process of modifying its contract agreements to ensure the language in the contract supports independent contractor status by:

- developing a revised scope of work;
- clarifying the role of the contractor and "who controls the details" of the work; and
- ensuring that the contract language describing the work provided and under what conditions the work is performed supports that medical consultants are not employees of the State.

The current contracts expire in September 2004. The new contracts will include the revised scope of work and provide more flexibility for contractors.

The Department of Economic Security (Department) agrees that the State must charge costs appropriately to administrative and program activities and functions and interprets the determining factor in the classification of costs as the nature of the activity or function performed by its programs, not by its pass-through entities. In the Department's opinion, all costs for the Trade Adjustment Assistance–Workers program have been correctly reported to the U.S. Department of Labor (DOL). The Department is not aware of any language in the Code of Federal Regulations, the Grant Agreement with DOL, or any other authoritative reference that supports the auditors' interpretation that Arizona Department of Education operating costs must be reported as “administrative costs.”

Agency description:

The submission of the National Public Education Finance Survey (NPEFS) data for FY 2001-2002 was the first to make use of an automated process, which collected and aggregated values from every Arizona school district's and charter school's annual financial reports (AFRs), according to the definitions provided by the National Center for Education Statistics. The initial process was a manual review of the Arizona Chart of Accounts and a comparison to the federal definitions provided for NPEFS purposes.

Data used in the NPEFS is subject to change, as districts and charters submit corrected AFRs, which may become necessary as the result of audits, making it difficult to document NPEFS-reported values without printing thousands of pages of documentation.

For future NPEFS submissions, additional review and backup will be generated and maintained. Including:

- Increased, ongoing review of the Arizona Chart of Accounts, in comparison to the definitions provided for NPEFS (to be conducted by additional personnel).
- Development and maintenance of database containing district and charter level data used in aggregation of amounts reported on the NPEFS.
- Increased review, including manual calculation to validate automated process of values generated in the automated process for NPEFS purposes.
- Comparison of final NPEFS data values to previous years in order to identify major differences.

CFDA No.: 10.558 Child and Adult Care Food Program

Finding No.: 03-116

Status: Concur

Agency description:

The Department of Administration (DOA) concurs with the Auditor General's finding that ten grant components from program 10.558 Child and Adult Care Food Program were erroneously excluded from the calculation of interest for the FY03 Cash Management and Information Act Report. This error occurred due to these ten grant components being inactivated in September, prior to running the CMIA-Interest Liability Report in October. This resulted in the inactivated components being left out of the interest calculation for FY03.

The DOA has fully corrected this error by reactivating and calculating the interest owed on the ten omitted grant components for program 10.558. This resulted in an additional \$1,490 interest liability on the FY03 CMIA Report. This adjusted amount will be paid to the U.S. Department of Treasury with our annual CMIA payment for FY04. The DOA has taken steps to ensure that no additional grant components were inactivated prior to running the FY03 interest calculation reports. Additionally, the DOA has taken steps to ensure that all covered programs are included in future interest calculations.
